A promenade concert and strawberry festival was held on the Separate School Grounds, Murray street, on Thursday evening under the auspices of the ladies' association, and the school library. The Fire Brigade Band was present and furnished excellent music for the occasion. The grounds are large and contain a number of large trees, and they are well suited for such an event. A circle of Oblique lanterns surrounded the band, and the whole grounds were brilliantly illuminated, with the same colored lights. The rooms in the school building were similarly illuminated, and the library was open to those who attended the festival. These men a piano in the library, and skilled musicians sat before it the whole evening, so that there was no lack of good music. One of the school rooms was used for the refreshment room. It was also illuminated, and the ceiling was draped for the occasion. Strawberry and cream, ice cream, cakes, etc., were plentiful and served in abundance. There was a large attendance of people, the rooms being filled during the whole evening, while large numbers walked around the grounds and enjoyed the music of the band. Mr. G. R. Joseph, of Montreal, played several selections on a coffee pot, accompanied by Miss Annie Delaney on the piano, and the music was loudly and deservedly applauded. The ladies are to be congratulated on the success of the festival, which was novel in its character, and somewhat of an experiment, but a very successful one.

THE A. C. A. CAMP.

Preparations for the Meeting at Stony Lake.
—Enthusiasm Manifested.

The pamphlet which has been prepared with a map showing our water system and the connecting railway lines for the information of visitors to the annual camp of the American Canoe Association to be held this year at Stony Lake next month, has now been distributed among the members of the association and others. It has been favourably received and has evidently awakened additional interest in the association and its camp. From the many acknowledgments that have come to local officers of the A. C. A. we make the following extracts:—
A member at Chambers, Ohio, says:—
"Many thanks for the bright, interesting, and very readable little book, 'Stony Lake Camp.' I shall start in about one week."
A Minnesota member and enthusiastic canoeist says:—
"Your beautiful manual of Stony Lake camp received. It makes me just wild. I want to go dreadfully—afraid I cannot on account of the long distance. The thought of such a grand 'meet' as you will have and the probability that I cannot get there is awful to contemplate."
An officer of the A. C. A. in New York city writes:—
"Truly you fellows are doing a tremendous amount of work. I have just received the pamphlet. It is a gem."
A Toronto member writes:—
"If you don't have a successful meeting at Stony Lake, it won't be because you have not worked for it. The pamphlet is splendidly got up and is most creditable to all concerned."

The Toronto Globe has the following:—
"AMERICAN CANOE ASSOCIATION MEETING.—The local Committee at Peterborough of the American Canoe Association, which holds its annual meeting this year at Stony Lake, has compiled a very handsome little pamphlet containing full information with regard to the place of meeting and how to get there. To the pamphlet is appended a map on which may be traced this best course by which to go by canoe to Stony Lake. Copies can be had from the Committee at Peterborough, and every one who purports attending the meeting should have a copy."
The pamphlet can be obtained by members and intending visitors to the camp by applying to Mr. N. D. Beck or Mr. R. E. Wood, Peterborough, Ontario.

Charity Sermon.
The Rev. Father Keating will preach a charity sermon in St. Peter's Cathedral, on Sunday evening, at 7 p.m., for the benefit of the St. Vincent de Paul Society.

A Runaway.
A team of horses attached to a wagon ran away on Thursday afternoon at the corner of George and Murray streets, the driver being out of the wagon. They ran down to Brock street, went across to Water street, down to Hunter street and turned towards the bridge. They were caught before reaching the river. The wagon was left behind at Brock street and was considerably damaged.

Lacrosse.
The Peterborough Lacrosse Club has sent an invitation to the Maitlands, of Toronto, to play here some time about the middle of this month. The Maitlands are good lacrosse players, as was shown in their match with the Beatts, of Bradford, on Monday. The Beatts are the champions of the western district, and are said to be the best club outside of Toronto. The match between them and the Maitlands lasted two hours, and resulted in a draw, each club having won one game.

Personal.
Mr. C. A. Mallory, Reeve of Percy, Mr. G. Boyce, the Deputy Reeve, and Mr. R. P. Huribart, Township Clerk, have been in Peterborough on their way to Millbrook in order to inspect the Town Hall there, as the township of Percy proposes to erect a similar building.

Mr. R. R. Elliott, a graduate of the Port Hope High school, has returned to Port Hope and has assumed the duties of local editor of that paper.

Mr. John Hackett departed on Thursday morning and Mr. G. B. Sproule this morning on a visit to the old country. They will sail together for the Green Isle, and we wish them bon voyage.

Mr. T. Munro is about to retire from the firm of Munro & Alexander, dry goods merchants. It is eleven years since Mr. Munro came to Peterborough, and the firm of which he is now a member has done business here for nearly five years. He goes to Belleville, where he will, in connection with Mr. Smeaton, establish a dry goods house in the premises formerly occupied by Messrs. T. Ritchie & Co. Mr. Munro thoroughly understands the trade, and Mr. Smeaton has been connected with the dry goods business for years, so that the new firm will be able to carry on a brisk and satisfactory business. Mr. Munro's departure from Peterborough will be regretted.

Strawberry Festival.
The strawberry festival held at the residence of Mr. Geo. Edmison, Rutledge street, on Thursday evening, under the auspices of the Young People's Association of St. Andrew's Church, was largely attended. The grounds were illuminated with Chinese lanterns, and the refreshments were served in a tent on the lawn. The refreshment consisted of berries and cream, ice cream, lemonade, cake, etc., in abundance, and a large stock of beautiful bouquets, made up of the prettiest flowers, were sold to the gentlemen. In addition to this a good musical programme was provided. The Musical Society rendered two selections on the cornet, violin, and piano. Miss McIntosh, of Toronto, Miss Walsh and Miss Cottingham, sang vocal solos, and Miss Edmison and Miss M. Edmison furnished instrumental solos. Mr. Joseph, of Montreal played two selections on a coffee pot, accompanied by Miss Edmison and Mr. W. Lech on the piano. The "coffee pot" music was a novelty and somewhat of a mystery to the uninitiated, but Mr. Joseph showed himself to be a master of his instrument and brought forth excellent music. Altogether the festival was a very successful one, both in regard to attendance, entertainment and amusement.

Pencil Points.

—The weather continues warm.
—One tramp rested in the police cells last night.

—No game came up for trial in the Police Court this morning.
—Ten cows were impounded yesterday. Six in the southern and four in the western pound.

—The street inspector's pay list for the two weeks ending on Thursday night amounted to \$167.40.

—The Grand Junction night train was an hour late to-day. It was behind time to the same extent on Thursday.

—The band will play in the Court House Park this evening, and adjourn to the Market Square, where there will be a display of fireworks.

—The fourth of July, the national holiday of our American cousins, was not allowed to pass without being honored. Mr. Bailey, of the Rochester Fruit Store, set off a quantity of fireworks which he had procured especially for that purpose in front of his place of business in the evening.

—This package made new by Triangle Package Dry Goods Co. only the three cornered package, thirty (30) dozen, 100 guarantee. Price 10c. Per doz. by all druggists.

A. L. DAVIS & CO.

Daily Evening Review

SATURDAY, JULY 7, 1883.

Now that we have before us the full text of the judgment of the Supreme Court in the Toulain appeal, we find that the judges carefully abstained from expressing any opinion as to the jurisdiction concerning the liquor traffic generally. They decided that the Province has a right to prohibit Sunday trading as a matter of policy.

The Globe has the following piece of brag:—"In the battle in the courts, the Mowat Government secured 'first blood.' Yesterday the petition against Mr. Arrey, the Liberal member for South Wentworth, was withdrawn with costs against the petitioners."

It is hardly a subject for much boasting as a glorious victory, that a member has been able simply to retain his seat. But, in fact, the Globe's paltry boast is inaccurate, for the petition against Mr. Hudson, the Conservative member for East Hastings, had previously been ordered off the files of the court.

The new corrupt practice bill introduced into the Imperial Parliament has several stringent but salutary clauses. The receiver of a bribe or treat is liable to the same punishment as the giver. A candidate unseated for corrupt practices, even by an agent without his knowledge, is disqualified from being a candidate for the same constituency for eleven years. Even if the agent's action is only "illegal," instead of "corrupt," the candidate is excluded from sitting for that constituency for that parliament. It is evidently the intention to deprive a candidate of the benefit of the money spent illegally in the previous election.

HIGHER INSURANCE RATES.

The account of the formation of "The Canadian Fire Underwriters' Association," with the objects that they have in view, which will be found in another column should be read with careful attention. It will be seen that a new tariff, to go into effect in a few weeks, has been decided upon, and that it depends upon ourselves whether we are classified favourably or unfavourably. Low rates are to be given to those towns and cities that have efficient water-works, while higher rates will be exacted from those that choose to adhere to fire engines. This is manifestly fair, for there is no good reason why those communities that are prudent enough to secure efficient means of protection from fire, should contribute to bear the greater risk of those who are less prudent or more uneconomically parsimonious.

It rests entirely with ourselves whether the fire insurance rate of the town of Peterborough shall be high or low. We have already through our principal streets a most excellent system of water-works amply fitted to contend with any fire. Already we are the laughing stock of visitors from less short sighted communities for our folly in declining to avail ourselves of the protection thus brought within our reach.

The false economy of some, the personal position of others, and the apathy of many, has so far succeeded in neutralizing the benefit conferred upon us by some of our more public-spirited fellow-townsmen.

When the new tariffs are promulgated it will be for the people of Peterborough to consider whether they will prefer better protection and a lower rate or an obstinate hostility to water-works with a higher charge for fire insurance. It is a matter no longer of feeling, but of dollars and cents.

M.P.'S AND LICENSES.

In a discussion as to the granting of certain liquor licenses and the administration of the Crooke Act, the Globe says:—

"Mr. Dryden has nothing to do with its administration and should not be held responsible. The less that members of Parliament have to do with the granting of licenses the better for themselves and the public. As private citizens they have an interest in the matter: in their public capacity they should have none."

Now this is very pretty in theory, but the Globe's theory does not tally with the notorious practice.

Last February we republished a letter written to the Government by Judge Hughes in 1877, when he was a License Commissioner, and from this we will take a few extracts:—

"Last year when the Government were about to appoint commissioners, I was asked by John Wilson, Esq., M.P.P. for the East Riding of this county, to accept the commission."

"Dr. Wilson, however, urged me to consent to take the appointment, and that I would be sustained not only by the Government but by himself."

"The detective was the only reliable person we could lay our hands upon, and the most efficient man in the whole constabulary force of the county, and just then without other employment. The Government, however, thought the salary fixed upon too high, and in, as I sup-

posed a confidential way, corresponded with Dr. Wilson on the subject, and thought proper to divulge to Dr. Wilson the name of our detective, which was previously unknown. Dr. Wilson made it the occasion of a very offensive attack upon me personally 'for appointing such a man,' and said a great deal more than was becoming in a man who has a proper respect for himself or for the position he holds in the county."

"I now come to a matter purely personal, about which I must say at the outset I feel so strongly, that if I am not sustained by the Government, respecting Dr. Wilson, I must ask the acceptance of my resignation of the office of commissioner, which I now tender, but which I mention with great regret."

"I am now told that Dr. Wilson, in the face of my letter, upon being applied to by Col. Cole and Mr. Musselman, told them not to mind my letter, but go on and sell, and he could see that it should be all right, and not mind me," etc.

"Dr. Wilson thought proper to take me to task about this and another matter some three weeks ago."

"I wish to say I do not ask to have Dr. Wilson stopped in the course he, from motives of his own, best known to himself, but very well understood by politicians here, has thought proper to pursue—as that is to me a matter of indifference—but I wish to be either sustained, and to have the action of the board over which I preside sustained, or to be relieved from my position as one of its members."

It will thus be seen that Mr. Dryden, M.P.P., did not agree with the Globe's view, that members should have nothing to do with the administration of the License Law, nor did the Mowat Government, which corresponded with him about it.

We will now see what was the result of this appeal from a License Commissioner to the executive to sustain him and his board in the execution of their duty, irrespective of Dr. Wilson, M.P.P.

TORONTO, June 12, 1877.

"MY DEAR JUDGE HUGHES,—I beg that you will accept my apology for delay in answering your letter of the 25th of May. My reason for delay is that upon the arrival of your letter I was absent, and on my return I desired before answering to confer with the Premier. It so happened that he was absent on my return, and until I left for Brantford."

"I have now seen him and submitted your letter to him. He desires me to say that he concurs with me in sincerely regretting that a difference of so serious a character has arisen between you and Dr. Wilson; that it is very difficult, indeed almost impossible, for the Government to interfere either with the Board, the Inspector, or the Doctor in a matter of this kind, and therefore, while most regretting it, would, perhaps, upon the whole, be better if you are willing, that the Government should consider your letter as a resignation. If so, your letter should take the form of a simple letter to that effect. It might, he thinks, relieve the position from some complications, and would, upon the whole, be more satisfactory to all concerned, as well as to him."

I am, my dear Sir,

Very sincerely yours,

(Signed) ARTHUR S. HARDY.

His Honor Judge Hughes, "St. Thomas."

It appears that Mr. Hardy and the Premier, did not believe, like the Globe, that Dr. Wilson M.P.P. had no right to interfere with the administration of the license law; they refused to sustain the Board; they declined to repress the interference of the member; they thought it "very difficult, indeed, almost impossible," to interfere with the member (and their supporter) when he was himself interfering with the execution of their duty by their officials. Further that this, because Dr. Wilson M.P.P. interfered with Judge Wilson, License Commissioner, in the execution of his duty, and the License Commissioner protested against the interference of the member, the License Commissioner was requested by Mr. Hardy and by the Premier, Mr. Mowat, to send in his resignation.

The License Commissioner asked to be sustained, irrespective of the member, and in reply Mr. Hardy, speaking for himself and the Premier, asked the License Commissioner to resign.

It is, however, useless to heap up demonstration of the notorious fact that the Crooke Act is administered not in the interests of temperance but of the Mowat administration.

INSURANCE RATES.

Objects Aimed at by the New Tariff Association.

The visiting fire insurance men, who have been in Toronto for the past three days, engaged in forming an Association which shall fix a uniform tariff to those places in Ontario where such does not exist, left for home yesterday. The formation of this Association is considered a very important move. All stock companies engaged in the business of fire insurance in Canada signified their willingness to join together in the formation of an Association to remedy the evils which are said to have crept into the business. At the recent meeting "The Canadian Fire Underwriters' Association" was formed. Mr. G. F. C. Smith was elected President and Messrs. James Taylor and J. J. Kenny as Vice-Presidents, with Mr. Robert McLean as Secretary pro tem. There will be an executive committee in Toronto and one in Montreal. A tariff of rates for Ontario was decided upon to go into effect throughout the Province on September 1 next. The plan adopted in fixing the ratings was not merely with respect to the different classes of risks and construction of buildings, but the principle was adopted of classifying the different cities and towns according to whether they had water-works or not and whether they had steam fire-engines or other extinguishing appliances or none at all, with the lowest rates for the former and the highest for the latter, so that an inducement is offered City Fathers and municipal officers to adopt the most efficient form of water-works and appliances for putting out fire, and thus not only preserve property from destruction but secure to the inhabitants of their respective places the lowest rates possible.

The object of the Association is not, it is said, to impose the burden of high rates on the business community, but to equalize them, and secure for such places as provide the necessary protection against fire the lowest rates consistent with adequate security. The meetings were fully attended and the greatest harmony and unanimity prevailed, which was often referred to in the remarks of the speakers at the banquet given to the Montreal visitors by their Toronto brethren, held at the Queen's Hotel on Thursday evening. It is expected the tariff will be extended to cover the Province of Quebec, and when this is done each Province in the Dominion will, it is pointed out, have the guaranty such an association gives of fair rates and correct practices, as well as ample security to the capital employed in the business of the country, which could not very well be employed without the security and indemnity afforded by insurance.—Globe.

An Answer Wanted.

Can any one bring us a case of Kidney or Liver Complaint that Electric Bitters will not speedily cure? We say they can not, as thousands of cases already permanently cured and who are daily recommending Electric Bitters, will prove. Bright's Disease, Diabetes, Weak Back, or any urinary complaint quickly cured. They purify the blood, regulate the bowels, and act directly on the diseased parts. Every bottle guaranteed. For sale at 50 cents a bottle by Taylor & McDonald.—1

ON ANIMATED DUST

From "Short Patent Sermons" by "Dow, Jr.," of New York.

The following was published in the New York Sunday Mercury about a quarter of a century ago, and we have been requested to re-publish it as a curiosity:

Tax:—Where is the dust that has not been alive? The spade, the plough, disturb our ancestors; From human mould we reap our daily bread.

—Young.

My dear friends, I am inclined to think that on Saturday afternoon, when Nature had completed her pure and beautiful system of worlds which roll around us, she found she had a handful of refuse dust left over—that she hunted about for some unoccupied corner of the universe in which to deposit it; but, finding none, she threw it down in disgust between Venus and Mars, saying, "Float there, thou contemptible mass of corruption, and breed unto thyself a society of loathsome vermin, even as a leafer's shirt becomes inhabited from the ovaries of its own filth! In process of time it experiences a sort of crawling sensation, and lo and behold, it becomes literally alive, with all manner of creeping and upright things, from man down to grasshoppers and June-bugs. Yes, my friends, the breath of life was breathed into certain masses of dirt, when they became detached from earth, and locomoted to and fro in all the pride and self-possession of being. Some crawled, some crept, and some stood perpendicular, while others took wings and soared heavenward, pointing out the source whence came the spirit which animated their clay. At that time the human form divine was composed of the pure material, imported from the Celestial Empire. But what is it now? It has been so many times wrought over—so many times moulded together, cast to the four winds of Heaven, and remoulded, that the physical structure of man at the present day is no more like what it was in its primitive purity, than a base-wood ham is like the Simon pure Westphalia. The flesh of our first father was composed of violets, rose leaves, and such other beautiful flowers as had decayed in Eden's fair garden; and his spirit was as sweet as the fragrances they exhaled upon the new-born dews of the morning; but now a heap of rubbish is raked together from a wide circumference, consisting of decomposed cabbages, turnips, onions, &c., sprinkled with life's alcohol—then operated upon by the galvanic battery of Nature, and the whole putrid mass gives one jump and pitches headlong into eternity. O, man! what a deplorable lump of loathsome things thou art! thy very soul has become contaminated by the body, and the moral savor it emits is as rank as a parcel of woulton stockings tossed upon a gridiron. We are all made up of leavings; that pretty, worshipped, cracked-up heap of humanity which now encompasses mighty England's throne, ye lovely Victorians, was once partly thrown away cold in the back yard of her ancestors, and partly the sweeping of the streets in Germany. Why, I am not ashamed to own that I myself, Dow, Jr., am composed in part of oysters, hogs, and cattle; and, therefore, I make bold to say that you, my decent-looking hearers, are made up of no better trash.

My friends—unbutton your jackets, and let your bosoms expand to the free circulation of thoughts when you reflect how every particle of dust that adheres to the soles of your boots has once been alive. It is even so. The merry plough boy, as he goes whistling by his team, and watching the furrow as it rolls up at his feet, little dreams that he is mixing the ashes of his ancestors with those of the beasts of the field and over the time will eventually come when the barrow shall be dragged across his own breast, and he shall yield nourishment for corn, pumpkins and potatoes, in common with those who have gone before him. The spade of the sexton covers the dead with the dust of the dead—from human mould we make our dinner—we drink the blood of our fathers from the wine-cup—and our children make dirt-cakes from the once animated cheek of beauty. Methinks I can see kings in the tree, beautiful damsels in the flowers, and all kinds of flesh in the grass. O, it almost makes me spring a-leak around the heart when I reflect upon how soon we shall be trampled upon by the feet of posterity—how soon they shall scamper over the sodded roof of our silent mansions, while we sleep on forever in the iron-bound slumbers of corporeal obsecuracy! Yes, my dear friends, soon the Archangel of Death will spread his purple pinions to the blast, proclaiming to us all that the millstone is in the air to grind us over; and our dust is wanted to form after generations of the human race, whose souls are now waiting in the approaching future for our cast-off breeches of mortality.

Now, I want to see my young hearers keep their carnal dirt together as long as they can, and not have it crumble to pieces ere it has become firm and compact by the maturing suns of experience. When I see the beautiful tabernacle of youth falling to the ground, beneath the storms of recklessness and folly, I feel as though I wanted to put on more lecturing steam than my physical boiler will bear: I want them to walk along two by two, in the path of moral rectitude, and climb up the hill of seventy years without a step to slip; and finally, I want to see you all take care of your moral corporations, that dust shall not be called upon to mingle with its native dust, until it has arrived at that advanced period in life, when it is only fit for the use of posterity, and unworthy of the spirit which inhabits it. So mote it be!

Beautiful Satin Prints in dark colors at 12½ cents at Turnbull's.

A Novel Fica.

It is not often that a motion for a new trial is based upon the beauty of the successful litigant. In a London court a Miss Bullock brought suit against a railway company for £2,300, damages for personal injuries sustained through the negligence of defendant's servants. The jury found for the plaintiff, and the learned counsel for the other side argued that the good looks of Miss Bullock and her sisters had such a powerful influence upon the jury as to entitle the defence to a new trial. If pleas of this sort are to prevail against the gravity of the law, handsome women may as well stay out of the courts when they have wrongs that need redressing.

ANNIVERSARY OPENING AT "CHINA HALL."

On TUESDAY and WEDNESDAY, July 10th and 11th, CHINA HALL will celebrate its first anniversary by a GRAND DAY LIGHT and GAS LIGHT OPENING—each day from 8 A.M. till 10 P.M. We cordially invite everybody to attend this opening and note our remarkable progress.

It is now only one year since CHINA HALL was established in Peterborough as a venture, but owing to the kind and liberal patronage of the Peterborough and neighboring people, it is to-day one of the finest and largest stores of the kind in Canada. When we began business here, we determined to put the price of every article in which we dealt down to the VERY LOWEST FIGURE that it could be produced and sold for, and to build up a large trade on small profits, rather than a small trade on large profits. The result has been far greater than we ever expected, and to-day we can safely say that we are doing nearly the whole of the Crockery trade of Peterborough—a fact which means to the public still further reductions, as the more goods we buy, the cheaper we can buy them.

WE WOULD LIKE THE PUBLIC TO KINDLY NOTE THE FOLLOWING REVOLUTION IN PRICES:—

One year ago you were paying \$3.00 for White Tea Sets	Now you can buy them at China Hall for \$2.00
One year ago you were paying \$2.75 for White Chamber Sets	Now you can buy them at China Hall for \$2.00
One year ago you were paying \$4.50 for Colored Tea Sets	Now you can buy them at China Hall for \$3.00
One year ago you were paying \$6.00 for China Tea Sets	Now you can buy them at China Hall for \$4.50
One year ago you were paying \$1.25 for Cups and Saucers	Now you can buy them at China Hall for 75cts

These are FACTS that you should always remember, and give CHINA HALL credit for having reduced the price fully 50 per cent. on everything in their line, and you should also recollect that if CHINA HALL were not here, you would still be compelled to pay the above high prices. In conclusion we would again ask every person in the county to attend the GRAND OPENING on the above days, and see the magnificent stock we are now carrying. Our stock is the admiration of every one that sees it and is well worth visiting. We would therefore like everybody to come and look through. Kindly accept our thanks for your very liberal patronage during the last year.

MACFARLANE WILSON, DIRECT IMPORTER.

China Hall AND Silver Bazaar.

A Trifling Difference.
A Jersey man called upon a New York lawyer the other day and announced that his rich brother had drawn up a will and died, and that—
"Ah! I see!" interrupted the attorney, "and you want me to bust it. Very well, sir; we'll plead insanity."
"Oh, no—he wasn't insane. You see the will leaves everything to—"
"To his second wife, or some church or college. Have no fears, my dear sir. I can bust the business sky-high. We'll plead undue influence."
"But I influenced him myself."
"Ah, that alters the case somewhat; but I'll prove to the jury that he was afflicted with softening of the brain."
"For heaven's sake! don't do it!"
"But I must and shall bust that will."
"Then I'll have to find a lawyer who can't, for its drawn in my favor, and I want to beat all the other heirs."
"Ah! certainly! that alters the case. Your brother was sane, sensible, and in perfect health; and all the lawyers this side of Halifax can't break the will! Sit down, sir!"—Wall Street News.

Turnbull's Green Linens at 12½ cents, need only be seen to be appreciated.

A Fancie in Court.
At the trial in the case of the petition against the return of Mr. Ferris, M. P. P., at Cobourg, on July 5, the Mail says:—"A tremendous noise was heard above the ceiling of the court-room, and a rumbling and crashing as if the roof were falling in, and a general stampede of counsel, constables, and spectators, and everybody except the judges took place. One man in the excitement jumped right through the large pane of glass in one of the windows. It turned out that it was only the Holman opera troupe who were in the hall above moving heavy articles about, and in doing so had knocked down a lot of benches or something of that kind, and in a few minutes the parties who had so suddenly levanted came back looking very sheepish. A few minutes of questions and enquiries took place and then a roar of laughter went through the court-room. Mr. Hector Cameron, Q.C., who had left in a hurry for the barristers' room remarked sotto voce that he was for the time more anxious to prevent a vacancy in South Victoria, of which he is member for the Commons, than to cause one in East Northumberland."

Carried Away by Toy Balloons.
A story of a little child's escape from unexpected perils comes floating up with many airy embellishments from Morehead City, N. C. Last Friday morning an Italian appeared in front of the Alabama Hotel with a cluster of toy balloons, which Major Hawkins, by way of diversion, tied around the waist of Birdie Elliott, aged three years. The gallant major then tossed the child into the air, but instead of returning to his arms she was carried away, to his intense surprise, into the empyrean, and was borne rapidly out to sea. Whereupon a dozen boats started in pursuit, hoping to reach the child if she fell into the water. But instead of falling she rose higher and higher, till Mr. C. Voorhees, with infinite judgment, ruptured just enough of the balloons, by means of his trusty rifle, to allow her to descend and alight as gently as a snow-flake upon the beach.

Dr. Carson's Stomach Bitters free the system of the poisonous humors that develop into Kidney and Urinary diseases, give tone and vigor to the Stomach and purify the Blood.

ONE OF MANY.—Mr. R. W. Carmichael, Chemist and Druggist, of Belleville, writes as follows:—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction."

A MINISTER'S EVIDENCE.—The all prevalent malady of civilized life is Dyspepsia. Rev. W. E. Gifford, of Bothwell, was cured of Dyspepsia and liver complaint that rendered his life almost a burden. The cure was completed by three bottles of Burdock Blood Bitters.

WHAT EVERY PERSON SHOULD KNOW.—The grand outlets of disease from the system are the Skin, the Bowels, and the Kidneys. Burdock Blood Bitters is the most safe, pleasant, and effectual purifier and health-restoring tonic in the world. Trial bottles 10 cents.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

The Remnants on Turnbull's Table selling rapidly; fresh ends put out daily.

Daily Evening Review

SATURDAY, JULY 7, 1883.

POLICE COURT.

DRUNK AND DISORDERLY.

SATURDAY, July 7.—Michael Merley's well known face appeared again in the Police Court for the sixth time. He was charged by Constable Pidgeon with having been drunk and disorderly. He went to a gentleman's dwelling while the male inhabitants were out, and his talk frightened the ladies considerably before he was removed. He did not deny having been drunk, but urged that he had done no harm and had insulted no one. He complained, too, that he had lost a deal of money, but he had told several yarns in the same Court. He was sentenced to three months in gaol at hard labor.

Ice Cream.

Go to J. Craig's for Fresh Pastry, Ice Cream, Confectionery, &c., opposite Wrighton's store, George street.

Confirmation.

The rite of confirmation will be administered in St. Peter's Cathedral at the early mass on Sunday morning, by His Lordship Bishop Jamot.

Plane Tuning.

Mr. George I. Gumprecht, tuner for Messrs. Mason & Risch, Toronto, is in town, and will attend to any orders left at T. Menzies' bookstore or Taylor & McDonald's Drug store.

Charity Sermon.

The Rev. Father Keating will preach a charity sermon in St. Peter's Cathedral, on Sunday evening, at 7 p.m., for the benefit of the St. Vincent de Paul Society.

Is Your Watch Clean.

Watches that are continually stopping and getting out of order, can be properly repaired by leaving them at Hughan's Shop, office lately occupied by E. Burnham, Simcoe street.

Cheese Shipment.

Mr. W. H. Wrighton shipped from the Midland station on Friday a car of cheese, containing 400 boxes and about 24,000 pounds. It was made at Treven's factory on Mr. L. Davis' farm in Smith, and was the result of twenty days work. It was shipped to Montreal.

Smith's Market.

Strawberries every morning. Parties and festivals supplied at a moments notice. Berries picked on dry days for preserving; all orders will receive prompt and careful attention.

Cherries, Oranges, Lemons, Green Peas, Cucumbers, Tomatoes, etc.

Fresh Fish. Parties will confer a great favor by leaving their orders on Thursday evenings, as we find it utterly impossible to get over so large a tract of ground late Friday morning in time for dinner.

Large cases of Fresh Goods opened this week at Turnbull's.

Three Nest Stores.

Miss Jenkins has removed her fancy goods store to one of the three stores recently overhauled and improved, nearly opposite the Bank of Toronto. These stores, which are the property of Mr. Geo. A. Cox, and are occupied by Miss Jenkins, Messrs. Carlton Bros., and Miss Sanderson, have had plate glass fronts put in, and the woodwork on the front has been handsomely painted in black and gold, making one of the prettiest fronts to be seen any place.

A Disappointment.

The heavy rain that commenced to fall last night at an early hour was a sore disappointment to a great many. The band were of course prevented from giving their concert in the park, and the gentlemen who were going to put off fireworks on the square were also prevented from doing it by the rain. However, on Tuesday night (weather permitting) the band will play on their stand, corner of Water and Charlotte streets, and the fireworks will then be put off.

The Weather.

History repeats itself. "The rain it raineth every day," wrote Shakespeare, and that has been the case this week. Last evening the rain commenced to fall about 7 o'clock, and it continued raining, more or less, all night, and about midnight it poured down heavily. This morning the sun shone again, but at eleven o'clock we had another heavy shower. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 o'clock a.m., to-day, by the Great Northwestern Telegraph company, are as follows:—Fresh to strong winds, mostly south and west; fair to cloudy weather, with rain areas, thunder storms and squalls.

Trent Valley Navigation Co.

Application is being made, as appears by the Ontario Gazette, for the incorporation of the Trent Valley Navigation Company, whose powers are to be to navigate our inland lakes. At the present the operations of the company, says the Post, are confined to the lakes convenient to Lindsay, Peterborough, etc. Already the company has leased the Beauportage and Victoria, the former boat running between here and Bobcaygeon. Her time-table is published, and we understand that nothing is to be allowed to interfere with her regularity and punctuality in her trips. The applicants for a charter are M. Boyd of Bobcaygeon, J. R. Dundas, John A. Barron and W. Darling of Lindsay, G. A. Cox and A. White of Peterborough, and Robert Jaffray and G. S. C. Bethune of Toronto.

KILLED ON THE TRACK.

PATRICK CONNOR RUN OVER BY A LOCOMOTIVE ON THE MIDLAND.

Crushed Under the Iron Monster—Death Comes Instantly—His Remains Brought Home to his Widowed Mother.

A fatal accident, of a very and character, occurred on the Midland Railway on Friday afternoon, by which Mr. Patrick Connor lost his life. He was riding on locomotive No. 34, which was bringing a freight train down the line.

AT LORENVILLE JUNCTION the train stopped and Connor went under the engine to clean out the ash pan. Before he had accomplished this the signal to start was given, and the engineer, Albert Hamlin, not being aware that he was

UNDER THE ENGINE, opened the throttle. The train commenced to move and Connor was crushed under the ash pan. When taken out it was found that his left arm was broken near the shoulder, his left leg broken at the ankle and he was injured on the breast, the latter being the most severe. There were in addition other bruises about his body. DEATH WAS INSTANTANEOUS.

Mrs. Connor, the mother of the unfortunate victim of this sad accident, resides in Peterborough, on Wolfe street. The remains of her son were brought to Peterborough on the 10 o'clock train last night. He was the poor

WIDOW'S ONLY SON and only child, and she has no other relatives here. Sympathetic friends, however, interested themselves on her behalf, and were at the station when the train arrived. The remains were taken in charge by Mr. D. Bellegem, undertaker, and placed in the coffin at the station, after which they were taken to the residence of the sorrow stricken mother.

The body was NOT DISFIGURED MUCH, hardly as much as one would imagine from the terrible manner of his death.

A sudden death is at any time and under any circumstances a sad occurrence, and in this case the circumstances render it

MORE THAN USUALLY SAD. Patrick Connor was the sole support of a widowed mother, the nature of whose grief on hearing of the sudden and terrible death of her only son may be imagined. She is an elderly lady of over sixty years of age.

Patrick Connor was twenty-three years of age. He has been employed on the Midland Railway since the month of April last year. He was speaking to one of the drivers on this branch of the line two days before his death of applying for a position on the branch running into Peterborough, so that he could be at home at night.

All who were acquainted with him have the same word to say of him. He was a steady, sober, hardworking man, a good citizen and a faithful son. He is said by intimate acquaintances to have been an

EXEMPLARY YOUNG MAN in every way, and one against whom not a word could be said.

The driver of the locomotive which ran over him, Hamlin, is said to have been greatly affected by the accident.

The funeral will take place from his mother's residence at 2 o'clock on Sunday afternoon.

BELLEGEM'S FURNITURE FACTORY.

An Increasing Business Demands Increased Space—The Demand Supplied.

The manufacturing industries of Peterborough, and of the country generally, have been making rapid strides in advance during late years, and perhaps none has advanced more rapidly than the furniture factory of Mr. D. Bellegem, on Hunter street. About four years ago Mr. Bellegem entered into this business in his present stand, and it has steadily and rapidly increased since that time. Several improvements have been made to the buildings, and he is now engaged in erecting a large addition.

The addition which he is now putting up, and which is approaching completion, is at the rear of the show-rooms and is fifty-seven feet long, the full width of the building. This will more than double the size of the building, the length of which inside will be 101 feet and 24 feet wide. This addition is of the same height as the former structure, three stories, and is of course of brick. In preparing for this improvement the rear walls were torn down, so that the flats will each be in one large room, except the third story, in which a room is partitioned off in the rear.

The first and second flats will be used for show-rooms, and Mr. Bellegem will be able to exhibit his goods to a much better advantage than heretofore, which will be a benefit both to himself and his customers. The third flat will be used for the finishing room and the upholstering room.

The factory, as is generally known, is in the detached building in the rear of the show-rooms. Walks will be lead from each flat to the factory, and an elevator will be erected between the buildings which will be used for both. It will be the full height of the buildings, running up the three stories, stopping at each flat, and it will prove to be a great convenience. The removal of the upholstering room from the third story of the factory to the new portion will give room for eight additional workmen in the manufacturing department, an increase that is needed and will be supplied. The factory, show-rooms and dwelling will be heated by steam. The eastern wall is a fire proof wall, which will afford greater security against fire, and in addition to this a large tank containing seventy-five barrels of water, with force pump and hose attached, will stand in the rear of the building. The front part of the building, on Hunter street, will also be improved by the putting in of plate glass in the windows. Altogether these enlargements and improvements, when completed, will make a great change in a factory that was already a good one. More work can be done, and the arrangements will be more convenient, so that the wants of customers can be supplied at once and to their satisfaction.

The Rev. Mr. Barber will occupy the pulpit in the Baptist Church to-morrow, at the morning and evening services.

Dog Poisoning.

On Friday four valuable dogs died in the town from the effects of poison. Two of them belonged to Mr. J. E. McIntyre, one to Mr. H. Bacon, and the other Mr. J. A. Acres. A fifth dog, belonging to Mr. McIntyre, was also poisoned, but it recovered. The poison made use of is said to have been strychnine. This act, if it was purposely done, and it can hardly be believed that it was otherwise, was a heinous one, and it is to be hoped that the efforts to find out and punish the perpetrators of the deed will be successful.

Railway Notes.

The Free Press says that there are about 200,000 bushels of grain in the Midland elevator at present.

The Lindsay Post says that grading is going on briskly along the line of the Midland branch leading to the river. Substantial fencing is being erected on both sides along the line. Extra care is taken in building the culverts at the street crossings. The piers for the bridge are now going up steadily and the embankment filling out slowly.

The Intelligencer says that Mr. Wm. P. Way has been installed as station agent of the Midland Railway, in Belleville. Mr. Way has been connected with the G. J. R. for a number of years and will, we have no doubt, fill the duties of his new position with efficiency.

A Life Saving Present.

Mr. M. E. Allison, Hutchinson, Kan.: Saved his life by a sample Trial Bottle of Dr. King's New Discovery, for Consumption, which caused him to procure a large bottle, that completely cured him, when Doctors, change of climate and everything else had failed. Asthma, Bronchitis, Hoarseness, Severe Coughs, and all Throat and Lung diseases, it is guaranteed to cure. Trial Bottles free at Taylor & McDonald's Drug Store. Large size \$1.00.—1

Personal To Men Only!

A Washout.

The Mail says that a wash-out occurred
on Friday night on the Sutton branch of the
Midland in consequence of the heavy rain.
The road bed was completely washed away and
the rails and ties carried a considerable dis-
tance. Gangs of men are now at work re-
pairing the damage, and it is hoped that by
Wednesday the trains will be able to run as
usual.

Daily Evening Review

TUESDAY, JULY 10, 1883.

OUR COLONIAL POSITION.

THE Ottawa Free Press gives its readers the
following riddle to guess:—

"It is one of the anomalies of our colonial
position that the permission of the President of
the United States would have to be obtained
by Her Majesty before the Guards band could
go to Odessa."

The puzzle is, what has our colonial position
to do with all this? If it had been a band of
Her Majesty's Guards instead of the Governor-
General's, the permission of the United States
would have been equally necessary. So would
the permission of the British authorities for the
band of a United States regiment to land on
British soil.

It is international law, and nothing to do with
the status of a colony, that looks upon the en-
trance of an armed and uniformed body upon a
foreign soil without permission as a technical
act of war—an invasion.

Perhaps our contemporary means that if
Ontario were one of the United States, instead
of being part of the British Empire, it would
no longer be in a "colonial position," and its
volunteers would be free to visit any part of
the realm of the Stars and Stripes.

We hope it will be long before the Free Press
will have the gratification of seeing that day
arrive.

THE ELECTION PETITIONS.

We do not intend to follow the bad example
of some of our contemporaries by commenting
upon the unfinished proceedings of the Ontario
election cases now before the courts. We would,
however, call attention to the time that these
cases seem likely to occupy. Of the three cases
set down first for hearing, one has been in-
definitely postponed, and two others, after a
partial hearing, have been adjourned to
August and September respectively, with little
apparent chance of being concluded then before
the next cases are called.

Not only is there the large number of Ontario
cases to be heard, but according to the recent
decision that the High Court of Justice has
jurisdiction, the Dominion petitions will also
come on for trial.

It is evident that our judges are not sparing
themselves to perform this branch of their
onerous duties. Some of them indeed have
voluntarily relinquished almost entirely the
enjoyment of their vacation. Even with this
sacrifice they will obviously have great difficulty
in completing their task before the next session,
and they will come jaded and short-handed to
the sittings of the ordinary courts.

It is obvious that some means will have to be
adopted to relieve our judges from the pressure
of such a burden, either by additional appoint-
ments, or in some other manner. It will not do
to work our bench to death.

HALIFAXTON.

A Grazing Country—A Place for Sheep
Farmers—The Pennsylvania of Ontario.

Mr. J. B. Palmer, a native of Berkshire,
England, who has been residing for the past
eight years in Halifaxton, is now in the city.
He has been farming a free grant of two hundred
acres of land taken from the Ontario Govern-
ment, and is most enthusiastic about that
portion of the country, and predicts for it a
brilliant future, and strongly urges his coun-
trymen to settle in this rich grazing district,
which is well watered, and which will shortly
be opened up more thoroughly by the exten-
sion of the railway line now existing and the
construction of new lines. This tract has so far
been principally occupied by lumbermen, who
have little or no inclination for or knowledge of
practical farming, and who, when once they
have cleared the land of its timber, migrate
further northward. In some places blocks of
lands, varying in extent from 300 to 800 acres,
are to be had at extraordinarily low prices.
Mr. Palmer states that the average price of
\$200 represents the present value of a home-
stead of 100 acres, together with an ordinary
dwelling house and its appurtenances. He
considers that the luxuriance of the pastures is
such as will allow of a hundred acres supporting
two hundred and fifty sheep the year round.
Dutch clover is indigenous to the soil, and grows
without seedling in large quantities. Eng-
lish farmers who are grazing their flocks on
the chalky hills of Hampshire and the barren
wastes of Northumberland and Cumber-
land will find Halifaxton an El Dorado. As
an instance, he points out that he has lately
seen sheep in the district he speaks of so fast as
to be almost girt for the slaughter-house. He
is of the opinion also that Halifaxton, at present
is attached to North Victoria, is destined
to become the Pennsylvania of the Province,
as the township of Glenmorgan, Carleton Place,
Monmouth and Faraday abound in mines rich in
iron ore. As a market, farmers will have the
lumbermen, whilst they can make the purchase
of implements and other requisites at Toronto
prices, plus the freight. The country is easily
reached from Port Hope, and all information
can be gleaned from Mr. C. R. Stuart, the
Crown Lands Agent.—Toronto Globe.

Crops Doing Better.

CHICAGO, July 10.—The Farmers' Review
publishes an exhaustive account of the crops,
based on returns from 1,000 points in the west
and north-west. There has been a general
change for the better in the past two weeks.
The cessation of rain and the advent of hot
weather has brought forward the late corn and
spring wheat. The early winter wheat crop is
now going into sheath. The spring wheat and
oat crops are unusually promising. It is be-
lieved that even so rapidly coming up to the
condition of 1882.

ONE OF MANY.—Mr. R. W. Carmichael,
chemist and druggist, of Belleville, writes as
follows:—"Your Buckle Brand Bitters have a
steady sale, are patronized by the best families
here and surrounding country, and all attest to
its virtues with unqualified satisfaction."
WHAT EVERY PERSON SHOULD KNOW.—The
grand ontario of disease from the system are the
Skin, the Bowels, and the Kidneys. Buckle
Bitters is the most safe, pleasant, and
effective purifier and health-restoring tonic in
the world. Trial bottles 10 cents.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

CHOLERA.

ALEXANDRIA, July 10.—At Mansurah yester-
day 57 deaths occurred from cholera, at Sama-
noud, 7, and at Shirbin, 2. Fifty Europeans
died at Damietta since the outbreak of the dis-
ease.

SHIP BUILDERS FAILED.

LONDON, July 10.—Robert Steele & Co., of
Greenock, ship builders, have failed. Liabilities
heavy.

A REPORTED OUTBREAK.

VARNA, July 10.—It is reported that there is
an outbreak in Crete among the people against
the taxes.

NO QUARANTINE.

LONDON, July 10.—It is not the intention of
the Government to quarantine vessels coming to
England from India and Egypt.

THE TURKISH TARIFF.

CONSTANTINOPLE, July 10.—The Porte pro-
poses to impose a tariff of fifteen per cent. on
articles imported for consumption, and from
eight to twenty per cent. on other imports.

AN ARREST.

ST. PETERSBURG, July 10.—A man has been
arrested on suspicion of having caused a recent
large fire on the island of Gutajewsky.

AMERICAN RIFLE TEAM.

LONDON, July 10.—The American team prac-
tised at the 800 yard's range this morning. Of
a possible 35, Bull and Brown scored 33 each,
Scott 32, Joiner and Van Heusen 30, Stewart
and Paul Ding 29, Hinman and Cash 27,
Pollard 26, Scott and Smith 24, Rabbeith 23,
Dolan 21, Col. Howard 18, and Alder 11. The
Standard says that Scott beat the best Creck-
more, and the coaching of Col. Howard is per-
fect. The men work absolutely together. The
Englishmen will not have a walk-over.

AMERICAN.

TO BE PROSECUTED.

PHILADELPHIA, July 10.—The Reform Association
of Erie saloon keepers resolved to prosecute the
dealers who have been violating the law by sell-
ing on Sunday and to minors.

THE ECUADOR REVOLUTION.

NEW YORK, July 10.—A telegram from
Guayaquil, Ecuador, reports the capture by the
insurgents, thus completing the overthrow of
Dictator Vientimilla.

THE LIQUOR LAW.

PHILADELPHIA, July 10.—The Law and Order
Society have begun a crusade to have the licen-
ses revoked from all saloons that sell liquor
on Sunday.

A COMMON SCOLD ARRESTED.

FREEMAN, N. J., July 10.—Harriet Lewis
was arrested yesterday as a common scold.

CORNER STONE ROBBED.

ATLANTA, Ga., July 10.—The corner stone of
a synagogue was laid a few days ago. It has
been robbed of all the valuables.

AN ELOPEMENT.

NEWBURG, July 10.—A sensation was caused
by the elopement of Jas. Wells, a well-known
farmer, and Nettie Vall, his wife's niece.
Wells left debts aggregating between \$5,000
and \$10,000.

TOO POOR TO LIVE.

CHARLESTON, S. C., July 10.—Fred Dallen-
der, because he could not afford to marry, blew
his brains out yesterday.

SHOT DEAD.

NEW ORLEANS, July 10.—Andy Downes, a
prominent city official, while drunk yesterday,
threatened to shoot several persons. He then
attacked David Noyes, who at once shot
Downes dead.

IN A YACHT TO LIVERPOOL.

NEW YORK, July 10.—It is reported that
Gould is about to make a short ocean voyage
with his yacht to Liverpool.

DRUNKENNESS IN THE NAVY.

WASHINGTON, July 10.—Rear Admiral Crosby
has reported concerning drunkenness among
the naval officers in the Asiatic squadron. As
a result the Secretary of the Navy orders Home
Lieutenant Commander Hitchens, Pay Inspec-
tor Cochran and Master Hitchens. It is
understood that Engineer Entwistle has been
suspended. In view of the fact that the loss of
the steamer Ashuelot, with a dozen lives, is
attributed to Commander Mullin, the Secretary
of the Navy proposes thorough reform
measures.

A GIRL'S SAD DEATH.

ATLANTIC CITY, N. J., July 10.—A beautiful
girl of humble parentage named Clarissa
Bounds was enticed by a white man and a
negro into the pine trees ten miles from here re-
cently, and at the close of a debauch all three
slept near a smouldering coal pit. In the night
she awoke, and found a man's flames. Some think
the man poured oil on her and set her on fire.
They kept her two days without medical assist-
ance. The overseer of the poor, it is alleged,
was called but was no help. The poorhouse re-
fused her admittance and she was left in a hut
in the woods. She finally was thrown into a
wagon and brought to Atlantic City. The body
was a mass of corruption. She died last night.

A CHARITABLE ACT.

WASHINGTON, July 10.—A daughter of the
late Rear-Admiral Smith has given the admiral's
family residence to the House of the Good
Shepherd for a reformatory for fallen women.

TROUBLES SETTLED.

SPRINGFIELD, Ill., July 10.—The coal mine
troubles have all been settled at the different
mines, with the exception of Hunt's mine.

A DEFAULTER ARRESTED.

SAN FRANCISCO, July 10.—Francis M. Kerr,
of Chicago, a defaulter to the amount of \$50,000,
was captured at Callan, taken to the Sandwich
Islands on an American mail-boat, and thence
to this city. He arrived on extradition papers.

A REPORTED MURDER.

LITTLE ROCK, Ark., July 10.—It is reported
from Osage, Texas, that the Rev. Mr. Singleton,
while crazy with anger on Sunday, fatally shot
a neighbor, R. Moore, with whom he had a
quarrel.

LIVELY KANSAS.

DODGE CITY, Kan., July 10.—Last evening
as five drunken cow boys were leaving the town
one rode his horse on the porch of a dance house
and fired a revolver. Two others commenced
firing and then fled. The City Marshal and
assistant sent a few shots after them. One of
them fell dead from his horse, and the others
escaped. The fallen man was John Ballard, of
Indian Territory. He was shot through the
jugular vein. His friends threaten to kill every
officer in town, but no trouble is anticipated.

Daily Evening Review

TUESDAY, JULY 10, 1883.

TOWN COUNCIL MEETING

A PETITION FOR WATER HYDRANTS ON
GEORGE STREET RECEIVED.

A Representation of Ladies.—The Police Cells to
be cleaned.—The Report of the Street and
Bridge Committee.—Watering Carts Wanted.
The Hand Fire Engines.—Communications,
etc.

A regular meeting of the Town Council on
Monday evening.

PRESIDENT—Acting Mayor Menzies in the
chair, and Councillors Cahill, Davidson, Mc-
Naughton, Kelly, Paterson, Savers, Douglas,
Rutherford, Denne.

The minutes of the last meeting were read
and confirmed.

COMMUNICATIONS.

From E. Pearce, enclosing a copy of the action
of the County Council in regard to the fence
around the Court House.—Joint Committee.

From D. W. Dumble, Police Magistrate,
drawing the attention of the Council to the un-
healthy state of the lock-up, and suggesting
improvements.—Received.

From E. Pearce, enclosing a copy of a resolu-
tion of the County Council in regard to the
House of Refuge.—Referred to the Committee
previously appointed.

From E. Cookston, asking for street improve-
ments.—Street and Bridge Committee.

From R. E. Wood and 19 others, asking for
street improvements.—Received.

From T. L. Hoffman and 16 others, asking
to have a drain opened.—Health Committee,
they to investigate similar cases.

From D. W. Dumble and 226 others in regard
to the establishment of a park.—Referred to a
special committee consisting of Councillors
Cahill, Kelly, Yelland, Denne and Hartley.

From R. Kinyan, asking the Council to protect
his property by the railway.—Referred to a
special committee consisting of Councillors Mc-
Naughton, Paterson, Douglas, and Denne.

From Geo. Schneider and others asking for
street improvements.—Street and Bridge Com-
mittee.

From Geo. A. Cox and others asking for 15
hydrants on George street, not to cost more
than \$50 each, to be used for fire and street
watering purposes, to be paid for by local taxa-
tion.

From Dr. McCrea and others asking to have
Hunter street, from Queen street to lot 8, water-
ed.—Fire, Water and Gas Committee.

ACCOUNTS.

The following accounts were read, and the
last two referred to the Finance Committee.
W. G. Yelland, rep. water cart . . . \$ 2 00
Tobler & Co., printing and stationery . . . 24 78
A. Hall 7 12

A DEPUTATION FROM THE HOME.

A deputation consisting of Mrs. Gilmore,
Mrs. J. J. Roper, and Miss Roper, waited upon the
Council, and were introduced to the Council by
Mr. D. W. Dumble.

Mrs. Gilmore told them of the case of a man
who had applied to them at the Home, but
whom they could not accommodate, and that
there was only one instance of many such cases.

Councillors Cahill, Douglas and Kelly spoke
in reference to the man mentioned.

Mr. J. Stevenson was heard, and said that
he had known the man for the last forty years.
Something should be done to provide for such
cases as this. He knew of persons, worthy
objects of charity, who had applied at the Home
and had to be turned away.

Mrs. Gilmore, in answer to Councillor
Savers, said they were keeping men for \$1.50
per week.

Councillor DENNE said it was a pity that the
town committee had not met the County Council
as the ladies had done.

Councillor CAHILL moved that the ladies of
the Home be allowed \$1.50 a week, during the
pleasure of the Council, for keeping Mr. Mills.
Councillor McNAUGHTON thought the matter
should be left to the Charity Committee.

The motion was carried.

Mr. D. W. DUMBLE said that frequently ap-
plications were made to him as Police Magis-
trate, and he had to commit persons to jail as
vagrants, who had committed no crime, but
simply to put them in some place to keep them
from starving. He referred to a case where a
man came into town, was taken sick and com-
mitted to jail as a vagrant and a few days after
died there. The he considered a shame. The
county was inviting the town to unite with them
and make some provision for destitute people.

FIRE PROTECTION.

The petition of Geo. A. Cox and others was
taken up.

Councillor RUTHERFORD moved that he be
referred to the Clerk to ascertain whether it was
in accordance with the by-law, and if it was to
notify the Waterworks Company.

Councillor McNAUGHTON complained that the
Waterworks Company did not leave the streets
in as good a condition as they found them. The
waterworks, he said, should be tested.

Councillor PATTERSON said that if the water-
works did not come up to the requirements of
the by-law they would get no pay for them.

Councillor RUTHERFORD said it was not the
Council, but the people on the streets, who were
taking these hydrants. However, he believed
the company was willing to give a test of the
works, although a test had been made before
the contract was accepted.

The ACTING MAYOR said that before they
went any further they should have a test of
the works at the expense of the company.

Councillor DOUGLAS also advocated having a
test of the works.

Councillor SAWERS said that if the names on
the petition represented the necessary number
of ratepayers and amount of property, they
could not withhold the hydrants from them.

Councillor DENNE suggested that the Clerk
examine the petition and that the Council be
called together again.

Mr. W. CLIXTON, President of the Company,
was invited to address the Council. He said
that as far as the power and efficiency of the
works were concerned, there were no better
works in America of their size. There had not
been a pipe broken, except pipes that had been
defected before they were laid down, having
been injured in transit. He was quite satisfied
that the pipes were all right. The town was
thriving and handsome, and it would be a pity
to have it burned down. He had to insure his
buildings to the outside figure, as there was
danger of fire, and if they had this protection he
could insure for a lower amount. They would
give a test of the works if the Council requested
it.

Mr. J. STEVENSON was also heard, and said
that he had not one cent of interest in the
Water Company, but he sympathized with some
of the stockholders who were trying to benefit
the town. The petition only covered one year.
Any one who lived here and had seen their ex-
periences with fire must feel that on any night
he might lose all his property. With hardly an
exception every one on George street had signed
the petition, and the two or three who had not
done so asked for a test. The company had
asked the Council where they would place the
hydrants, and the Council had not told them,
and they had fixed places that could not well be
changed. He asked the Council to fix how far
the petition would cover on each side of the
street, and he suggested a distance of 500 feet.
He had never undertaken anything about
which the people were so unanimous as getting
the signature to this petition. The company
were willing to give a test if the Council or ten
ratepayers should ask for it. Every person in
Peterborough was indirectly interested in George
street. He trusted that the Council would not
let this opportunity pass.

Mr. CLIXTON said that if the people took
fifteen hydrants, and paid \$750 for them, the
Company would have to pay about that sum for
an extra engineer to run the pumps at night.

Councillor CAHILL said that the only question
that they had to consider was whether the pe-
tition was sufficiently signed. If it was they
had to grant it. If the waterworks were not
efficient the people who signed the petition
would soon find it out, and the petition only
covered one year. He would suggest that the
distance covered by the petition be 500 feet on
each side of the hydrants.

Councillor SAWERS asked whether some ar-
rangement could be made so that the hy-
drants at present in position could be used for
fire purposes before the petition was carried
out.

Mr. CLIXTON said that to do that they would
have to keep a man at the pump house all
night.

The CLERK called their attention to the fact
that the petition would have to be given effect
by a by-law.

Councillor RUTHERFORD moved, seconded by
Councillor PATTERSON,—That the petition of G.
A. Cox and others, asking for hydrants, be re-
ferred to the Clerk and the Water and Gas
Committee, to ascertain whether it was in ac-
cordance with the by-law, and if so, to have a
by-law prepared to give it effect.—Carried.

A TEST REQUIRED.

Councillor DENNE moved, seconded by Coun-
cillor McNAUGHTON,—That the Waterworks
Company be requested to give a test of their
works in accordance with the by-law, or to the
satisfaction of the Council, and that Mr. W.
Hamilton be requested to stay at the gauge
while the test is being made, and report to the
Council, and that the Committee furnish the
hose and request the Fire Brigade to assist at
the test. Also that the test be made before the
next meeting of this Council.—Carried.

THE CHURCHES AND THE TAX.

Councillor DENNE moved, seconded by Coun-
cillor DOUGLAS,—That the several places of
worship, and the land connected with them,
within the limits mentioned in the petition of
George A. Cox and others, be assessed for the
tax to be levied for fire protection, &c., in re-
ference to said petition, and that the trustees of
the places of worship affected be at liberty to
sign said petition.—Carried.

THE LOCK-UP.

Councillor PATTERSON moved, seconded by
Councillor DOUGLAS,—That the Chief Constable
get the lock-up cleaned and whitewashed, in
accordance with a suggestion of the Police
Magistrate, until such time as they could get
the lock-up ready in the rear of the old Toronto
Bank building.—Carried.

STREETS AND BRIDGES.

Councillor CAHILL read the following report
of the Street and Bridge Committee:—

To the Mayor and Councillors of Peterborough:—
GENTLEMEN,—The Street and Bridge Com-
mittee beg leave to report that they have made
the usual annual examination of the streets and
bridges, and beg leave to recommend the follow-
ing improvements:—

BETHUNE STREET.—The Midland Railway
authorities, when they obtained permission to
put down a switch on this street, agreed to ex-
pend the sum of \$50 to take off the surface
water which they have stopped from following
its natural channel. This has not yet been done,
and we now recommend that the Clerk be
authorized to request the authorities to have the
same attended to.

BETHUNE STREET.—Sidewalk on west side from
Hunter to Simcoe street to be rebuilt.

HUNTER STREET.—Sidewalk on south side
from Bethune to Bridge street, to be re-con-
structed six feet wide.

STEWART STREET.—We recommend that the
sidewalk north of Hunter be repaired, and that
the Midland Railway Company be required to
build an overhead bridge over their track on
said street, as required by law.

RUMFORD STREET.—The sidewalk on the west
side of the street be extended north from Kirk
street.

RAID STREET.—The sidewalk on the east side
from Murray to McDonnell street to be re-con-
structed.

TOWN STREET.—We recommend that that
portion of this street between McDonnell and
London streets be used as a park for the present,
provided the parties interested in that neighbor-
hood provide the necessary fund to erect an
open fence and turnstiles on either end thereof,
the same to be free to the general public.

In reference to that portion of Bridge street
between McDonnell and Murray streets we
recommend that the Midland Railway be re-
quested to build an overhead bridge as in the
case of Stewart street.

STEWART STREET.—Sidewalk between Mc-
Donnell street and the creek be rebuilt.

DOWNEY STREET.—At the intersection with
McDonnell street the sidewalk over the creek to
be extended so as to cover said creek between
the sidewalk and the roadway.

DONALD STREET.—To be water-tabled north
from Bruck street, and as far as H. Selzer's
house.

DOWNEY STREET.—The bank on the east side
of the street north of Simcoe to be cut down
and the material to be deposited on the south
side of Simcoe street.

REID STREET.—To be graded and gravelled
from Charlotte to Sherbrooke street.

RUMFORD STREET.—A crossing to be built at
the intersection of Wolfe street and another at
the intersection of Wolfe and Tuxford streets,
also a crossing on Bridge street at Mr. Shan-
ko's lot.

PARK STREET.—A small culvert to be built
near the Midland Railway.

PERRY STREET.—The sidewalk to be connect-
ed with Lake street.

WATER STREET.—We recommend that the
Town Engineer be instructed to strike the
grade between McDonnell and Smith streets;
that the same be graded and water tabled and
that the surplus material be deposited in the
goose pond, also that the sidewalk on the east
side of said street be raised near McDonnell
street.

GEORGE STREET.—At the intersection of Perry
street we would recommend that the Town
Engineer strike the grade on these streets, and
that the same be graded, and that the surplus
material removed therefrom be deposited on
Rink street, west of George.

PERRY STREET.—That a sidewalk be laid down
on the south side from the railway crossing to
Park street.

GEORGE STREET.—To be water-tabled from
King to Dalhousie street.

HUNTER STREET.—The sidewalk on the south
side near Queen street to be at once renewed.

ATLANTIC STREET.—To be water-tabled from
Hunter to Charlotte street, and the roadway to
be otherwise improved; also the sidewalk on the
south side to be repaired.

SHERIDAN TERRACE.—We would recommend
that this street at the intersection of Hunter be
cut down so as to make the ascent easier, and
also that a sidewalk be laid down on the east
side of said street for a short distance north.

PARK STREET.—To be graded from Bonaccord
to McDonnell street, the Town Engineer to
strike the grade, cost, say, \$50.

WATER STREET.—From the northern boundary
to the Midland Railway to be water-tabled and
gravelled, and two or three culverts to be put
down in such places as may be hereafter desig-
nated.

SAVER STREET.—The culvert at the Midland
Railway to be cleaned out.

McDONNELL STREET.—To be water-tabled on
the east end, the material taken therefrom to be
deposited between College and Harvey streets
on the north side.

MURRAY STREET.—We would recommend that
the bridge on this street over the Dickson race
be rebuilt, and also that the sidewalk on this street
along the raceway be continued to
Forsyth's factory.

GEORGE STREET.—The sidewalk on the west
side to be rebuilt from London street north as
far as may be found necessary.

HARVEY STREET.—The sidewalk on this street
to be repaired from London to Dublin street.

ROMAINE STREET.—To be water-tabled from
Creighton to Park street.

WATER STREET.—To be water-tabled from
Charlotte to King street.

BETHUNE STREET.—The sidewalk on this street
to be renewed from London to Edinburgh street.

Your Committee recommend that the whole
or any portion of the above work may be let by
contract or otherwise as may be deemed exped-
ient.

All of which is respectfully submitted,
THOMAS CAHILL,
Chairman.

Council Chamber, July 9, 1883.

Councillor CAHILL said that it would probab-
ly cost \$100 to carry out these improvements,
but when it was done they would have good
streets. They had now 36 miles of sidewalk.

Councillor DENNE said that the rough stones
on the principal streets should be removed.

Councillor RUTHERFORD said that work was
recommended to be done along the raceway,
which was not the property of the town. The
street should be bedded to the town before they
proceeded with any further improvements on it.

The CLERK said that the town could hold the
street by right of possession.

Councillor CAHILL said that if they decided
that no money should be expended on these
works, the bridge on Murray street should be
closed up, as it was dangerous.

The report was adopted.

CHARITY MATTERS.

Councillor SAWERS moved, seconded by Coun-
cillor KELLY,—That the Committee formerly
appointed to investigate the way in which the
charity funds had been expended be dissolved,
and that the matter be referred to a committee
to consist of Councillors Davidson, Paterson,
Rutherford and Denne, the last named to be
Chairman.—Carried.

WATER CARTS WANTED.

Councillor RUTHERFORD moved, seconded by
Councillor DENNE,—That the Clerk be autho-
rized to advertise for tenders for one or more
new watering carts.—Carried.

THE HAND FIRE ENGINES.

Councillor PATTERSON moved, seconded by
KELLY,—That the Fire, Water and Gas Com-
mittee call in the hand engines and sell them to
the best advantage, and purchase 500 feet of new
hose as soon as convenient.—Carried.

The Council adjourned at 11:20 o'clock for
one week.

Excited Thousands.

All over the land are going into ecstacy over
Dr. King's New Discovery for Consumption.

Their unlooked for recovery by the timely use
of this great life saving remedy, causes them to
go nearly wild in its praise. It is guaranteed

FROM ALL OVER.

GEOLOGY is the most popular scientific study in Spain.

It is said that several deposits of coal have recently been found in the Ottawa valley.

The Salvation Army big drummer has been fined for beating his drum in the streets of London.

MARIA VON ELLNER, known to the musical world as Mme. Marie Litta, died on Saturday at Bloomington, Ill.

GOULOTS says that Prince Jerome Napoleon will issue a manifesto in the event of the death of the Count de Chambord.

Dr. CARSON'S Stomach Bitters free the system of the poisonous humors that develop into Kidney and Urinary diseases, give tone and vigor to the Stomach and purify the Blood.

Milliners are on the increase in Europe. They are employed in all the fashionable milliner establishments of London and Paris.

The Bethlehem, Pa., ironworks have been closed. Three thousand two hundred men are thrown out of employment.

Two brothers, doctors, named Detwiler, were drowned at Reading, Pa., while bathing in the Schuylkill river yesterday.

A TIDAL wave occurred yesterday in the Ront River, Wisconsin, the water rising three feet, and retiring in less than a minute.

COMPARED with June last year the British imports have increased over five million pounds. In the month the exports increased over \$3,000.

THE shoe firm which loaned tanned human skin to Governor Butler in the Tewksbury investigation will bring suit to recover it. Governor Butler refuses to return it.

A VOICE FROM THE UNITED STATES.—I have suffered for the last twenty years with Dyspepsia and General Debility, and tried many remedies, but with little success till I used Burdock Blood Bitters when relief was quick and permanent. A. LORON, Alpena, Michigan, U.S.

A MINISTER'S EVIDENCE.—The all prevalent malady of civilized life is Dyspepsia. Rev. W. E. Gifford, of Bethwell, was cured of Dyspepsia and liver complaint that rendered his life almost a burden. The cure was completed by three bottles of Burdock Blood Bitters.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Bile Beans, which cost only forty-five cents. This is cheaper than any other similar medicine, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

FIRELON FALLS.

THE STORM.—The Gazette says that during the storm on Tuesday night, the lightning struck and killed a year old steer, owned by Mr. Joseph Moyne, Pleasant Valley, and set fire to a barn of Mr. Edwin Clending's farm near Cambridge. The barn, which was uninsured, was a total loss.

CANAL ACCIDENT.—On Tuesday a canal boat named Thomas Atcheson had his left ankle jammed and twisted by one of the boxes used to hold rock from the canal to the wooden railway above. The boxes are along from three chains, one at each of the blind corners and one at the centre of the front, and the last mentioned is a little shorter than the others, so as to give the box a backward slope, and prevent the contents from falling out. In consequence of this arrangement the box, when lowered to the bottom of the canal, does not strike the ground all at once, but slides down something like a trap-door; and Atcheson, who was in front of one of the descending boxes, did not step back quickly enough, and had his foot caught with the above mentioned result.

Do You Expect a Cure?

If you don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Strymer, the wonderful invention of Dr. M. Souville of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above named diseases every year. Write, enclosing stamp, for list of questions and copy of International News, published monthly, which will give you full information and reliable references. Address, International Throat and Lung Institute, 173 Church Street, Toronto; 13 Phillips Square, Montreal, P. Q.; 181 Lafayette Avenue, Detroit, Mich.; or 106 Alexander Street, Winnipeg, Man.

A Ghastly Discovery.

The remains of two infants were discovered on Saturday in the bottom of the pond at Stratford, which has been drained by the dam giving away during the recent flood. Some boys came across a small box carefully wrapped down with iron and tied with ropes. On the box being opened they discovered bones tied up in burlap. They notified the authorities and the coroner examined the bones, pronouncing them human. The bodies are completely decomposed. The theory is that some woman to save herself from disgrace, took this horrible method of doing away with her offspring. The police are investigating, but there are slight chances of success.

The Washington Treaty.

A Washington dispatch says that in accordance with the resolution of Congress, the British Government has been notified that certain articles of the treaty of May, 1871, relative to the fisheries question, will terminate on July 2, 1883.

With pure blood contagious fevers and other diseases have an hold on the system. Dr. Carson's Stomach Bitters purifies the blood pure and good. For sale by all druggists. Large bottles 50 cents.

ANNIVERSARY OPENING

AT "CHINA HALL."

On TUESDAY and WEDNESDAY, July 10th and 11th, CHINA HALL will celebrate its first anniversary by a GRAND DAY LIGHT and GAS LIGHT OPENING—each day from 8 A.M. till 10 P.M. We cordially invite everybody to attend this opening and note our remarkable progress.

It is now only one year since CHINA HALL was established in Peterborough as a venture, but owing to the kind and liberal patronage of the Peterborough and neighboring people, it is to-day one of the finest and largest stores of the kind in Canada. When we began business here, we determined to put the price of every article in which we dealt down to the VERY LOWEST FIGURE that it could be produced and sold for, and to build up a large trade on small profits, rather than a small trade on large profits. The result has been far greater than we ever expected, and to-day we can safely say that we are doing nearly the whole of the Crockery trade of Peterborough—a fact which means to the public still further reductions as the more goods we buy, the cheaper we can buy them.

WE WOULD LIKE THE PUBLIC TO KINDLY NOTE THE FOLLOWING REVOLUTION IN PRICES:—

One year ago you were paying \$3.00 for White Tea Sets	Now you can buy them at China Hall for \$2.00
One year ago you were paying \$2.75 for White Chamber Sets	Now you can buy them at China Hall for \$2.00
One year ago you were paying \$4.50 for Colored Tea Sets	Now you can buy them at China Hall for \$3.00
One year ago you were paying \$6.00 for China Tea Sets	Now you can buy them at China Hall for \$4.50
One year ago you were paying \$1.25 for Cnps and Sancers	Now you can buy them at China Hall for 75cts

These are FACTS that you should always remember, and give CHINA HALL credit for having reduced the price fully 50 per cent. on everything in their line, and you should also recollect that if CHINA HALL were not here, you would still be compelled to pay the above high prices. In conclusion we would again ask every person in the county to attend the GRAND OPENING on the above days, and see the magnificent stock we are now carrying. Our stock is the admiration of every one that sees it and is well worth visiting. We would therefore like everybody to come and look through. Kindly accept our thanks for your very liberal patronage during the last year.

MACFARLANE WILSON, DIRECT IMPORTER.

China Hall AND Silver Bazaar.

A Frauds in an Hotel.
MONTREAL, Que., July 8.—A fraud of a violent character took place to-night in a leading hotel here between James McDermott, the Irish suspect, and a Mr. Muldoon, a reporter in the Star. They were both under the influence of liquor, and the trouble is said to have arisen out of some of the remarks which appeared in the journal represented by Muldoon about McDermott and his supposed plans. But for the prompt interference of the hotel officials blood would have flowed freely in the encounter, which was fierce on both sides. This will likely end the great newspaper sensation of having a live Irish suspect in our midst.

A Blessing to all Mankind.
In these times when our Newspapers are flooded with patent medicine advertisements, it is gratifying to know what to procure that will certainly cure you. If you are Bilious, blood out of order, Liver inactive, or generally debilitated, there is nothing in the world that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle of Taylor & McDonald.—2

Personal! To Men Only!
The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Convincing Proof.
Having suffered from rheumatism for a long time I was induced to try your Arica and Oil Liniment. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine.
I am yours truly,
W. H. DICKSON,
218 St. Constant St., Montreal.
Araca and Oil Liniment is sold by all Drug gists.

Dr. CARSON'S Stomach Bitters remove Constipation, relieve Dizziness, dispel Sick Headache, abolish Biliousness, and regulate the Stomach, Liver and Bowels.

Fishing Pills—Symptoms and Cure.
The symptoms are colic, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling about the parts affected. It is allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for Tetters, Itch, Salt Rheum, Scald Head, Erysipelas, Barbed Wire Bites, and all nasty, nasty Skin Diseases. Sent by mail for 50 cents; 3 boxes, 1.50. (In stamps.) Address, DR. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

Old things made new by Triangle Package Dye
Take only the three covered packages, thirty (30) cents, all guaranteed. Price 10c. For sale by all druggists.

H. C. ROGERS Postmaster.

The Egg Question.
The Lindsay Warbler has come forward with a big egg and claims the championship. The egg is barely of measured eight inches in circumference and had another egg inside of it, and of the strength of this it calls on us to stop talking about ours. But we were born on Monday as egg that measured eight inches in circumference with no second egg inside of it, so that this one egg measured as much as the two eggs of the Lindsay hen's laying. If the Warbler was given the belt on the strength of these two eggs would it please send it down this way by the next express?

The Council meets again on Monday evening next.

Press Despatches to the Review.

ALEXANDRIA, July 11.—Sixteen deaths from cholera occurred at Samanoud yesterday, and eight at Tanta.

ruined by storms and landslides.

A GREAT BATTLE.

BURMAN, July 13.—A great battle was fought between the forces of Catwayo and those of Oham. The latter chief was captured.

THE DAPHNE DISASTER

attempts have been made to raise the steamer Daphne, which capsized at Glasgow. Eight hundred bodies have been recovered. The Government inquiry is pending.

RETURNED EMIGRANTS.

QUEENSTOWN, July 11.—The passenger emigrants

and the Spanish fishermen and Spaniards landed yesterday. They are a wretched class. One family, consisting of a man, his wife and five children, were left lying on the wharf three hours before the officials, who had not been advised of their coming, provided for them.

A FAILURE.
New York, July 11.—Hanes & Underbill, leather dealers, have failed. Liabilities \$38,000; assets, \$10,000.

lockout at Libball & Co.'s tobacco factory has ended. Nearly all the old hands have returned to work.

CROP REPORTS.

ST. PAUL, July 11.—The crop's reports from the farmers of the Red River Valley are bad.

A. DEFAULTER CAPTURED.
CHICAGO, July 14th.—Fred R. Kerr was arrested at Peru and is now with detectives in San Francisco. He defaulted with \$150,000 belonging to his employers here. \$10,000 was offered for his capture.

New York, July 11.—Superintendent Rine, of the Watertown and Ogdensburg Railway, was in New York yesterday consulting with the directors concerning the policy of the retrenchment. The expenses already cut off exceed \$142,000 annually.

New York, July 11.—A handsome and fashionably dressed young lady of wealthy parents residing out of town, is detained by the police charged with running away from home. She says she is married. Her parents were sent for and the particulars were kept secret.

NEW HAVEN, Conn., July 14.—John Hall, a telegraph operator, whose neglect caused a freight car accident on the New York and New England Railway, is missing. A warrant has been issued. John Hall, while visiting the scene of the wreck yesterday, was fatally struck by a train.

Minneapolis, Minn., July 11.—At the State prohibition convention yesterday, a tariff for revenue only was tabled by 42 to 28. The platform condemns the course of both parties on the liquor question and favors the enfranchisement of women and the election of all officers by the

THURSDAY, JULY 12, 1883.

THE "VICS" BAND.

Col. Whitehead Called to Account for Allow- to Visit Ogdensburg.

Lieut. Col. E. A. Whitehead, commanding the Victoria Rifles, has received a commendation from the Adjutant-General, asking on what authority and why without permission from headquarters the regimental band was allowed to take part in the festivities on the 4th of July at Ogdensburg, N.Y. It appears that this band has, on several occasions, gone across the lines wearing the regimental uniform and that nothing has been done by the department to show its disapproval, and it was deemed unnecessary to ask permission last week. The band had only left the wharf about five minutes on Wednesday, when the telegram was received from Ottawa forbidding the bands to cross to the States, and which stopped the band of the Governor-General's Foot Guards.—Montreal Star.

SOLD FOR COST!

And I also wish you to bear in mind that those Goods are also Genuine Goods, and not bought merely to advertise for. I will give you a first-class article for the same money that other houses will give you an inferior article for. Do not fail to call early while you have a good selection to choose from. Come early in the day and avoid crowding in the evening.

REMEMBER THE PLACE.—One Door North of Barratt's Hardware Store, Cluston's Block, George Street.

ROBT. H. POPE

THE THOROUGH-BRED JERSEY BULL, which I had year was at Mr. Leighton's, is now on the Stock Farm, Edinb. Apply to

SANDY COCHRANE, Manager.

MIDNIGHT TELEGRAMS

CABLE.

AMERICANS AT WIMBLEDON.

LONDON, July 11.—The American team practised at Hounslow to-day. The scores, owing to the gale, were small. The Americans will contest among themselves to-morrow at 900 yards, under conditions similar to those to be observed in the international match. The shooting to-morrow will be for a cup specially presented. The Rifle Association has also added 250 to be divided as the captain of the American team elects. The team shoot at 200, 500, and 600 yards on Tuesday. Five targets are reserved for their use as long as they require them.

MR. BRADLAUGH'S POSITION.

LONDON, July 11.—Mr. Bradlaugh has written to the Speaker of the House of Commons asking him whether the act of presenting himself in the House to take his seat would be a disturbance of the proceedings. He has also written the Sergeant-at-Arms, warning him that he will resort to an injunction if the attempt is made to prevent him from entering the House.

THE CHANNEL TUNNEL.

LONDON, July 11.—Although the joint committee of the Lords and Commons rejected Lord Lansdowne's report in favor of the tunnel under the English Channel, the majority differed so much relative to their reasons for voting against it that they will refrain from presenting any collective statement of their views to Parliament.

BRIGANDAGE IN CUBA.

HAVANA, July 11.—Bandits still commit depredations in the provinces of Pinar del Rio, Matanzas, and Santa Clara. On July 3rd a party under Chief Agnora robbed every one on the plantation of Caney, near Guana. The depredations cause deep alarm, because the bandits go unpunished.

AMERICAN.

A \$300,000 SUIT.

PITTSBURGH, July 11.—Charles W. Siemens, the celebrated English inventor, to-day entered suit against H. Sellers McKee, of this city, to recover three hundred thousand dollars. The suit grows out of the failure of the Siemens-Anderson Steel Company, whose property here was sold out by sheriff's sale, and a portion purchased by McKee. Siemens now aims to recover what he claims to be his portion of the proceeds.

TEWKESBURY COMMITTEE REPORT.

BOSTON, July 11.—The majority of the Tewkesbury Almshouse Investigating Committee reported to the House that Mr. Marsh, Jr., refused to produce the books showing disposal of bodies. The minority report says that Marsh's memorandum contains the names of those whose bodies were dissected, that Butler used the names furnished by one of the witnesses in a way contrary to decency.

POLISH IMMIGRANTS.

NEW YORK, July 12.—Several pauper Polish families who arrived yesterday will be sent back immediately.

KEENE.

From our own Correspondent.

STRAWBERRY FESTIVAL.—The Ladies' Aid, in connection with the Canada Methodist Church, Keene, held a Strawberry Festival on Wednesday evening last. Mrs. Dr. Harrison, Misses M. Gallon, G. Gallon, Mather, Birdie, Harrison and Eliza Landerville, with Mr. Mark, being the leading vocalists. The attendance was not as large as the efforts of the ladies deserved.

TWELFTH OF JULY.—The Orangemen of L. O. L. No. 494, 445 and 282, to the number of about one hundred, assembled at the Keene Orange Hall, and, headed by the Victoria Brass Band of Keene, marched to the wharf where they embarked on the steamer Golden Eye en route for Port Hope. The band turned out in uniform, and their playing called forth words of praise and pleasure from all who heard them, and Prof. Freeman deserves great credit for the able manner in which he acts as leader, &c.

SUNDAY SCHOOL PIC-NIC.—The Sunday schools of Keene intend holding a union picnic next Thursday to Cameron's point on Rice Lake. The steamer will leave the wharf at about 8 a.m. The band has been engaged for the day. If the day is favorable all may expect to have a very pleasant time.

The large amount of rain is making the farmers look very blue in this locality.

SPRINGVILLE.

From Our Own Correspondent.

ACCIDENT.—Mr. John Smythe, of Cavan, met with a serious accident on Monday. While driving a team they became frightened and ran away, throwing Mr. Smythe off and seriously injuring him.

HAY HARVEST.—The fine weather of the past two days have induced many to begin the hay harvest. It is a fair average crop.

IS IT EPIDEMIC?—This neighbourhood has had an unusual fair share of nuptials this spring, but as they were principally young folks, not much attention was paid to them, till it was learned that Mr. George Hoey had forsaken the ranks of the bachelors, then the community became really concerned, and excitement runs high. It is satisfactory to learn that the epidemic is going eastward, as there is a great deal of inflammable material westward.

PERSONAL.—Mr. M. E. Wilson, who was stationed last year on the circuit at Hall's Bridge, has removed to his new station at Canington. May success attend his labors.

A Supposed Murder.

The people around Meridian station, Mich., are excited over a supposed murder committed there on Saturday night. Two young men named Robert McConnell and Frank Price, employed clearing timber, boarded as a house kept by one Ware. McConnell, it is claimed, was engaged to a sister of Ware, and was jealous of attentions paid her by Price. On Saturday night Price went to see Miss Ware. This so enraged McConnell that he ordered Price to leave, which he did about twelve o'clock. McConnell followed him with an axe, and did not return until four o'clock on Sunday morning. Price has not been seen since. His body cannot be found, nor any trace of him. The sheriff went to Meridian and brought McConnell back and lodged him in goal on suspicion of killing Price. The popular sentiment around Meridian is very strongly against McConnell, and Judge Lynch might act if he is let off on his examination.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

QUEEN'S EVIDENCE.

DUBLIN, July 12.—Patrick Hanlan, arrested for participating in the murder of Mrs. Smith, in April, has turned informer.

THE THRONE OF FRANCE.

PARIS, June 12.—The *Gauche* says that the Comte de Chambord will command all royalists to recognize the Comte de Paris as the heir to the throne of France.

CHOLERA IN EGYPT.

ALEXANDRIA, July 12.—Cholera has appeared at Ziftch and Chibbe, 40 and 90 miles respectively from Cairo. The deaths at Mansurat yesterday were 81.

AMERICAN.

IN THE INTERESTS OF HARMONY. CONCORD, N.Y., July 12.—Rollins, late last night telegraphed to Marston, Stevens, Patterson and Briggs a proposition that they all should withdraw in the interest of harmony from the senatorial contest and leave the field to new men.

LYNCH LAW.

MAYSVILLE, Col., July 12.—On Tuesday night Dennis Hagarty and Henry Dowling met James Lynn and a Swede three miles from Town. Shooting Lynn and bleeding the Swede, they robbed them of a few dollars. Last evening Hagarty and Dowling were arrested and were afterwards hung by the citizens. Lynn and the Swede will both die.

A TERRIBLE TORNADO.

SOLDIER, Kan., July 12.—The particulars of yesterday's cyclone here show that the business portion of the city was destroyed and ten persons were killed or wounded. A hot wind was blowing all day. At one o'clock a tornado came from the southwest. Two farm houses were destroyed. The storm cut a path through the centre of the town, where fifteen buildings were wrecked. The tornado jumped over two blocks and wrecked four more houses. The loss is estimated at \$10,000.

A DOMESTIC TRAGEDY.

OAKDALE, Conn., July 12.—Moses Sodoek was found yesterday in the woods dead, with his throat cut. He recently married a young wife, who on learning that he had a wife in Europe deserted him. It is probably a case of suicide.

AN AVARITIOUS MOTHER.

MINNEAPOLIS, Minn., July 12.—Miss Parry, who was abducted from Syracuse, N.Y., by her mother, lives here. Her mother last winter drove her out of the house and she went to Syracuse. The mother left here a week ago to bring her home, the girl having had \$5,000 property left her by an uncle. As the girl refused to return, the mother got assistance and carried her off by force. It is believed that her money is the cause of the mother's desire to have her daughter back.

A REIGN OF TERROR.

NEW YORK, July 12.—A Washington special report to the Times says that a letter from Marion county, Texas, gives the particulars of the recent assassination of Judge Haugh. It has been stated that he was shot to avenge an alleged wrong to a negro woman, but this is denied. It is asserted that the Ku-Klux spirit controls Marion county, and that Haugh's wife has been terrorized into making a false statement concerning his death. The object of the assassination is said to have been to deprive the government of Haugh's testimony at the trial in the United States Court of Marion County, of the election cases; that those who committed the murder were so-called respectable citizens, now under criminal accusation for violation of the election laws. The county is given over to legalized lawlessness, the sheriff, clerks of the courts, and deputy-sheriffs and other citizens having formed a so-called citizens' committee, who meet to decide who is to be sacrificed. At the last meeting Haugh's death was decided upon as a political necessity. A reign of terror prevails. U. S. District Judge Morrill says he will hold no more courts at Jefferson which is just what the defendants in the Marion County election cases have been plotting for. Clerk Singleton, of the U. S. court of the eastern district of Texas, fears that violent means will be used to prevent the sessions court, and has removed the papers in the election cases under threats to capture them. From private sources it is learned that the County Clerk of Marion county is suspected of complicity in Haugh's murder. The writer, who is greatly alarmed, writes to the Attorney-General: "For God Almighty's sake do something to help us if you can!"

A PASTOR'S BELIEF.

NEW HAVEN, Ct., July 12.—The installation of the Rev. Chas. W. Park as pastor of the Harvard Avenue congregational church, did not take place yesterday. The ecclesiastical board decided that his belief was unsatisfactory. He does not believe in infant baptism, and claims that the bible is true only so far as it appeals to our consciences and experiences.

FLOUR AND WHEAT.

MINNEAPOLIS, Minn., July 12.—Extreme dullness continues to characterize the milling business. The flour markets are less favorable than a week ago, and there is comparatively no enquiry from abroad. They were picking up at the close of last week but were again greatly depressed by the break in wheat at Chicago. The wheat stored in Minneapolis on July 10th was 1,636,000 bushels against 1,075,000 last week.

THE CODE.

MARIETTA, Ga., July 12.—Frank Cole and John Bentley, living near Woodstock, met in the cemetery on Monday to fight with bowie knives to settle who should marry a young woman. Their seconds quarrelled and fought, and Cole and Bentley joined in a regular knock down fight. The party broke up, but a duel may yet occur.

A LIBERAL THIEF.

PHILADELPHIA, July 12.—Elijah O'Neill yesterday stole \$3,000 from a woman in whose house he lived and relating the fact, offered to give \$500 to a woman he knew. She declined and informed her husband who caused O'Neill's arrest. Most of the stolen money was recovered.

RAILWAY RATES.

NEW YORK, July 12.—The sudden large increase of the grain traffic of the Erie road has led to the charge that it is cutting rates, but this is denied. There are predictions of a probable war of rates but it is believed that the war will not be broken.

A VOICE FROM THE UNITED STATES.—I have suffered for the last twenty years with Dyspepsia and General Debility, and tried many remedies, but with little success till I read Bardon's Blood Bitters when relief was quick and permanent. A. LOUGH, Alpena, Michigan, U.S.

Daily Evening Review

THURSDAY, JULY 12, 1883.

A PARTY PLANK.

The Ottawa Free Press, after commenting upon our two political parties, and the unlikelihood of the success of a third party, says:—

"These remarks have been suggested by the platform of 'The Party of the Future' formulated by the Cornwall News. It is as follows:—

Independence.
Manhood Suffrage.
Civil Service Reform.
An Equitable Income Tax.
Fewer Members of Parliament.
Taxation of Luxuries.
All Important Offices made Elective.
Abolition of the Senate.

It will be seen at a glance that there is no necessity for a third party to rise up under this banner. Indeed, the first plank is all that is needed. All the rest are mere tags. A party that will stand up manfully for independence may have a chance of success; at any rate it will have the right to be heard, and, if what it has to say be reasonable, either one or other of the two great parties will swallow it, and its destiny will be fulfilled."

It may be true that "independence" may be inscribed hereafter upon the banner of one of the present Canadian parties, but most assuredly there is as yet no sign of the adoption of such a device by the Liberal-Conservative party. On the other hand, there are many symptoms of the readiness of the Reformers, at least to coquet with this idea, with an evident eye to its adoption if found expedient from a party point of view. The very expressions used by the Free Press in this article show a perceptible leaning that way.

Those who agree with us in desiring the development of our local self-government, while still retaining our position in the great empire to which we are proud to belong, would do well to watch the suspicious and insidious advances of some of the Reform leaders and journals towards cutting adrift from our old connections and repudiating our old flag.

MR. MOWAT'S GERRYMANDERING.

We regret that the Montreal Star declines our invitation to give its opinion on the Mowat gerrymandering act, for we are sure that if given it would have been a fair and intelligent opinion. We can assure the Star that we would not have urged it to give an opinion on the subject, even though broached by itself, if as it says, the matter were "of no present interest but a political issue that has been dead for a number of years." In such a case our invitation would have been not only unnecessary but impertinent. Being naturally more familiar than the Star with our local affairs we may be allowed to point out that the matter is of great present interest and is a very live political question, for it is owing to his gerrymandering act now in force that Mr. Mowat has for a time a small majority of the members at his back, though having a majority of the votes of the electorate against him, as we have shown by a calculation of the total ballots cast, our figures having been undisputed because indisputable.

HOW THE BOUNDARY LINE IS MARKED.

Most people imagine that the boundary line between the United States and Canada is only an imaginary one, and few are aware that the line is marked by stone cairns, iron pillars, earth mounds, and timber posts, at intervals of one mile apart. A stone cairn is 7½ feet high; an iron pillar eight feet high, eight inches square at the bottom and four at the top; timber posts five feet high and eight inches square. There are 322 of these between the Lake of the Woods and the base of the Rocky Mountains. That portion of the boundary which lies east and west of the Red River Valley is marked by cast iron pillars at seven mile intervals. The British place one every two miles, and the United States one between every British post. They are hollow iron castings, three-eighths of an inch in thickness, in the form of a truncated pyramid, eight feet high, eight inches square at the bottom and four inches at the top. They have at the top a solid pyramid cap, and at the bottom an octagonal flange one inch in thickness. Upon the opposite faces are cast in letters two inches high the inscription, "Convention of London," and "October 26th, 1818," the inscriptions begin about four or six inches from the base and read upwards. The interiors of the hollow posts are filled with well-seasoned cedar posts, sawed to fit and securely spiked, through spike holes cast in the pillars for the purpose. The average weight of each pillar, when completed, is about eighty-five pounds. The pillars are all set four feet in the ground, with their inscriptions to the north and south, and the earth is well settled about them. For the wooden posts well seasoned logs are selected, and the position above ground painted red to prevent swelling and shrinking. These posts do not swell, but as the Indians cut them down for fuel, nothing but iron will last very long. Where the line crosses lakes, monuments of stone have been built, the bases in some places being eighteen feet under water, and the tops projecting eight feet above the level surface at high water mark. In forests, the line is marked by felling timber a rod wide, and clearing the underbrush.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

LITTLE LAKE CEMETERY

THE BEAUTIFUL BURIAL GROUND GREATLY IMPROVED.

A System of Waterworks for Irrigation—A Convenient Arrangement—Fountains to be Erected—Appearance of the Ground.

The care that is bestowed upon the graves, lots and grounds in the cemetery, and the large number that visit it weekly and daily, show what an interest the people take in this, the last resting place of their friends. The Cemetery Company and the owners of lots have worked together in enhancing the beauty of the place, and the Company has not allowed expense to interfere in anyway with the improvements.

This summer, so far, the Company has expended about \$500 in putting in one improvement which will be a great convenience. This is a

SYSTEM OF WATERWORKS, by which the flower beds and grounds will be watered. The power is furnished by a wind mill, which is situated at the north-east corner of the cemetery, on the point which runs into the Little Lake. It is sixty feet high, and was manufactured by Mr. W. Forsythe, who also furnished the tanks. From the mill 800 feet of pipes are laid to the tanks, which are situated on the hill a short distance north of the Cemetery Chapel. The tanks are raised above the ground some feet, and are two in number. They are connected by a small tube and water first enters one and flows into the other. They are eight feet wide and six feet high, and their combined capacity is 140 barrels. The elevation from the wind mill to the tanks is fifty feet, and between these two points places have been fixed for four hydrants, one of which was already in operation on the occasion of our visit on Monday. In addition there is a place where the hose can be attached at the tanks, which makes an additional hydrant. At the tanks there is a valve in the pipes to control the entrance and outflow of the water, and a drip cock is placed at the lowest level on the hill by which the water can be drained from the pipes. The Company have on the ground 150 feet of hose, and they have procured 500 feet. This hose will be used for the purpose of

IRRIGATING THE FLOWERS, and grounds. Even if the hose were not used the hydrants would save much time in carrying water, but when the waterworks are extended according to the plan the whole cemetery will be watered with the hose. While the mill was working 50 feet of hose was attached and a stream was thrown about 30 feet from the nozzle. The mill fills both the tanks, with a good wind, in about twelve hours.

The waterworks system now extends from the wind mill at the north east corner to the tanks, and

IT WAS TESTED on Friday by a committee of the Directors, and found to work satisfactorily. At a meeting of the Directors on Monday night it was accepted as satisfactory, and taken of the contractors' hands. Mr. G. W. Ramsey was the engineer of the works, and Mr. G. Bolton had the contract. The system will be further

EXTENDED THIS SUMMER, and pipes will be laid from the tanks to the chapel and to the entrance gate. Directly in front of the entrance gate, where there is a circular flower bed, a fountain will be erected which will add greatly to the appearance of the cemetery. It will stand in such a position that it may be seen from Locks street. The system will be still further extended next summer, when it has stood the test of the winter months, to cover the whole cemetery, and several fountains will be put in, one probably on the flat east of the chapel.

It will easily be seen what an improvement the waterworks are. They will save much time in attending to the flower-beds and grounds, and they will no doubt give evidence of the benefit they receive from them. The water could also be utilized in the event of a fire at the Superintendent's residence to assist in extinguishing the flames.

In walking around the cemetery for a short time, it was noticed that, as usual,

THE GROUNDS ARE WELL KEPT, and many of the lots showed evidences of great care and attention. Among those which especially attracted attention were the Mrs. John Whyte lot, which has been and is one of the most attractive in the cemetery. The Kilmar-nock willows, planted in this lot last summer, is doing well, and also those which were planted in the Lundy lot at the same time. The Lundy lot is a beautiful one, and is well attended to. On the Hall brothers' lot, where the little daughter of Mr. Maxwell Hall was buried, an ornament of a new design has been erected. Pillars of wire, painted green, stand on the four corners with flower pots on the top, and are connected by an arch. Suspended on the arch there is a marble tablet with the child's name cut in the stone, and painted in gold letters. Vines are growing in the centre of the pillars, and the lot is covered with flowers. On the new lot, where the late D. G. Hutton is buried, large vases have been placed in the corners, flowers have been planted and other ornamental work done. Mr. Clouston's lot gives evidences of recent care and careful attention, as does also the Conger lot. The fence around Capt. Rubidge's lot has recently been repaired and painted, and other improvements have been made. The trees planted on Mr. W. H. Moore's lot are growing nicely, and the appearance of Mr. W. Galley's lot shows that it has been carefully attended to, and the flowers on it look fine. The lot in which Miss Wood was interred last week has always been one of the best in the cemetery, owing to the care she bestowed upon it, and it is now brilliant with the beautiful flowers growing on it. Judge Dennistoun's lot and Mr. A. Goodfellow's give evidence of much care. Mr. J. W. Flavelle's lot has been improved in appearance, and looks well. On the Oddfellow's lot, where Mr. Martin and Mr. Buckett are buried, there is a unique flower bed representing the triple links. On Dr. King's lot a new and large bed of flowers have been planted, and a similar tasteful adorn-

ment has been planted in Mr. A. Cox's lot. Mrs. Mercer's lot looks well, as does that of Mr. Wallis. The fence around Mrs. T. Lammie's lot has been painted, and two pretty flower beds, in the shape of diamonds, have been planted on it. Mr. S. D. Loomis' lot, on one of the new terraces, has an ornament of a new design, being a pillar with flowers on the top and arching branches with flowers on the end of the arms. In fact the whole cemetery has a beautiful appearance this summer, and not only is the same care bestowed upon it as in previous seasons, but the attention given to it seems to have increased. The lots, the grass plots and the walks are all well kept, and Mr. John Kelly, the obliging superintendent, appears to be indefatigable in his attention and determined in his efforts to make and keep the cemetery as beautiful as possible.

Again it becomes our duty, in mentioning this cemetery, to call the attention of the Town Council to

TWO THINGS REQUIRED, which it is their duty to supply. One is a sidewalk on the street leading to the cemetery, and the other is some protection for the street, as by cribwork, before it is entirely washed away. Mr. Kelly informs us that during the ten years he has been at the cemetery, the width of the roadway has diminished by at least fifteen feet, or an average of one foot and a half each year. Nothing more is wanted to show the urgent necessity for some steps to be taken to stop this steady and assuredly fatal aquatic consumption. For one check the planting of willows at the water line might be adopted, as it would both prevent the eating away of the bank, and in a short time would become ornamental.

DUMMER.

From Our Own Correspondent.
COUNCIL MEETING.—Council met at Warsaw on Saturday July 7. Present Messrs. Kelly, Kirk, and White; absent Messrs. Kidd and G. G. Crowe. On motion Mr. White was appointed chairman. Minutes of last meeting read and confirmed. Notice respecting Wilson's Municipal Works, and from County Clerk respecting the Assessment Rolls, read and submitted. The Clerk was instructed to notify the Treasurer to pay \$100 extra, to appropriations now made, to order of Jacob White, councillor, to be applied on the bridges near Warsaw. Order granted to Samuel Bryson for \$10 for work done on road used in line of boundary between Dummer and Douro, on lots 26, 27, 28, and 29. A By-law to make road appropriations, and to appoint Commissioners for expending the same, read three times and passed. Council adjourned to 24th August next, to meet in Warsaw to strike the rates &c. for 1883.

Excited Thousands

All over the land are going into ecstasy over Dr. King's New Discovery for Consumption. Their unlooked for recovery by the timely use of this great life saving remedy, causes them to go nearly wild in its praise. It is guaranteed to positively cure Severe Coughs, Colds, Asthma, Hay Fever, Bronchitis, Hoarseness, loss of Voice, or any affection of the Throat or Lungs. Trial bottles free at Taylor & McDonald's Drug Store. Large size \$1.00.—2

Dr. Carson's Stomach Bitters free the system of the poisonous humors that develop into Kidney and Urinary diseases, give tone and vigor to the Stomach and purify the Blood.

LAKEFIELD.

From Our Own Correspondent.

UNREASONABLE WEATHER.

The farmers who are to be seen on our streets and in our village stores in considerable numbers on most any evening through the week, but particularly on Saturday evenings, have not for some time been so contented looking as formerly. On Saturday evening last, particularly the rustic brow wore a look of uneasiness not often seen. The general expression was wet, wet, accompanied by a solemn side toes of the head, showing that the wet weather has not only a baneful effect on some of the crops, but a very depressing effect upon the heart of the husbandmen. Your correspondent could learn from a general conversation with a number of farmers that the hay crop would be very heavy in these parts if the weather would permit of it being properly handled, and that grain of all kinds looked well on high or rolling ground, but that on low lying lands the crops of all kinds were very much damaged and were turning yellow. The general opinion seems to be that if the wet weather continued much longer the harvest prospects were very gloomy, but that if dry weather would be once more, the crops would be fully up to the average. On the Monday and Tuesday following the weather changed and everything betokened dry and steady weather, and our streets are almost entirely clear of farmers, only a single straggling team once in a while. All are busy at their hay. Those seen though, have a smiling countenance and seem in great haste, of course, to gather in the burdens of the field.

NEW CONSTABLE.

Mr. Thomas Simpson, the new village constable gives general satisfaction to the people of Lakefield in the discharge of his duty. Mr. Simpson's presence on our public streets, particularly on Saturday evenings and Sundays has had a good effect, so much so that the change is quite noticeable. Corner loafers have had a timely warning, as also some fast young men who seem to know no better than to drive around the streets of the village on Sunday evenings to show themselves off and annoy other people. Such characters have been given firmly to understand that a repetition of the offence could only be followed by the payment of a large fine or imprisonment. The constable has not yet been brought before our J.P. It is very generally conceded that the Village Council in obtaining the services of a constable under the circumstances is making a judicious expenditure of the people's money.

STEAMER CRUISE.

The steamer Cruiser began on Monday last, the 9th instant, to run regular trips from Lakefield to Julian's Landing and Burleigh Falls on Stony Lake. The Cruiser is to make three trips per week, viz., on Mondays, Wednesdays and Fridays, leaving Lakefield on the arrival of the Midland Railway train, 9.10 a.m., and returning in time for passengers to take the afternoon train for Peterborough &c.

VACATION.

The Lakefield Public School closed on Friday last for the six weeks holidays, bringing joy and gladness to the heart of the Lakefield small boy who is legion and annoyance and trouble to many a kind mother.

BLUE BERRIES.

Blue berries are said to be very plentiful on the islands of Stony Lake. On account of the recent rainy weather these berries will not be ripe so early as last year. The best time for berry pickers intending to visit these parts will be about the 20th of July.

PERSONAL.

Mrs. Beatty left Lakefield on Thursday last on a three year visit to England. Bon voyage.

SAW LOGS.

Messrs. Rathbun & Son's drive of 50,000 saw logs which recently came over Young's broke loose on Saturday last in the storm, at Henderson's narrows, but were successfully stopped at the three mile mark, causing a joint there which has almost stopped navigation.

MASTERS.

ACCIDENT.—The Hastings Star says that on Friday as Mr. Fred Oakes was running down a steep hill towards the house to escape the heavy rain then falling, he was pitched forward, putting the shoulder out of joint; and, more seriously still, cutting his wrist against a sharp stone. The blood vessels were severed, and the loss of blood alarming, as by the time he reached the house he sank exhausted to the floor. It was only by prompt measures on the part of the attending surgeon, Dr. O'Gorman, that the bleeding was arrested. The wound was then stitched, and next morning the shoulder set. Fred is since doing well, and we hope to see him around shortly.

ORANGE BLOSSOMS.—An interesting social event took place in the Methodist church here on Tuesday afternoon at one o'clock. It was the marriage of the Rev. W. B. Seacombe, of Guelph, Ont., to Miss Jane Wilson, eldest daughter of our esteemed citizen, A. Wilson, Esq. The ceremony was performed by the Rev. D. Lewis, the church being fully decorated for the occasion, and the bride received abundant evidence of her popularity amongst her best of friends. The bridesmaids were Miss Annie Wilson, Miss Ellen Beatty, Miss Chaffey, Miss Ella Wilson, and Miss Mary Hie. Groomsman Mr. W. C. Wilson. The Rev. Mr. Seacombe having been appointed to a mission at Maple Ridge, B. C., the happy couple left by the evening train for their future home, followed by warmest congratulations and best wishes, to which we beg to add our own. On the evening previous the authorities of the church invited Miss Wilson and her relatives and friends to a meeting in the basement, when she was presented with an address.

ANNIVERSARY OPENING

AT "CHINA HALL."

On TUESDAY and WEDNESDAY, July 10th and 11th, CHINA HALL will celebrate its first anniversary by a GRAND DAY LIGHT and GAS LIGHT OPENING—each day from 8 A.M. till 10 P.M. We cordially invite everybody to attend this opening and note our remarkable progress.

It is now only one year since CHINA HALL was established in Peterborough as a venture, but owing to the kind and liberal patronage of the Peterborough and neighboring people, it is to-day one of the finest and largest stores of the kind in Canada. When we began business here, we determined to put the price of every article in which we dealt down to the VERY LOWEST FIGURE that it could be produced and sold for, and to build up a large trade on small profits, rather than a small trade on large profits. The result has been far greater than we ever expected, and to-day we can safely say that we are doing nearly the whole of the Crockery trade of Peterborough—a fact which means to the public still further reductions, as the more goods we buy, the cheaper we can buy them.

WE WOULD LIKE THE PUBLIC TO KINDLY NOTE THE FOLLOWING REVOLUTION IN PRICES:—

One year ago you were paying \$3.00 for White Tea Sets	Now you can buy them at China Hall for \$2.00
One year ago you were paying \$2.75 for White Chamber Sets	Now you can buy them at China Hall for \$2.00
One year ago you were paying \$4.50 for Colored Tea Sets	Now you can buy them at China Hall for \$3.00
One year ago you were paying \$6.00 for China Tea Sets	Now you can buy them at China Hall for \$4.50
One year ago you were paying \$1.25 for Cups and Saucers	Now you can buy them at China Hall for 75cts

These are FACTS that you should always remember, and give CHINA HALL credit for having reduced the price fully 50 per cent. on everything in their line, and you should also recollect that if CHINA HALL were not here, you would still be compelled to pay the above high prices. In conclusion we would again ask every person in the county to attend the GRAND OPENING on the above days, and see the magnificent stock we are now carrying. Our stock is the admiration of every one that sees it and is well worth visiting. We would therefore like everybody to come and look through. Kindly accept our thanks for your very liberal patronage during the last year.

MACFARLANE WILSON, DIRECT IMPORTER.

China Hall AND Silver Bazaar.

FROM ALL OVER.

A GANG of counterfeiters have been discovered near Clare village, Michigan, and three of the gang have been arrested.

It is announced from St. Louis, Mo., that the Brotherhood of Telegraphers will inaugurate a general strike next Monday at noon, both in the United States and Canada.

Dr. Casson's Stomach Bitters remove constipation, relieve Bile, Biliousness, and regulate the Stomach, Liver and Bowels.

NINE Chinamen, smuggled into the United States through British Columbia, were arrested at Port Townsend, W.T. The President will order their deportation.

The Chicago city electrician has declared war against the arc electric light companies by cutting all their wires not placed underground. It is claimed that they do not use properly insulated wires.

ONE OF MANY.—Mr. R. W. Carmichael, Chemist and Druggist, of Belleville, writes as follows:—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to the virtues with unqualified satisfaction."

The literature of advertisements is sometimes as comical as the funniest sayings of the funniest men. In the far west a man advertises for a woman "to wash, iron, and milk one or two cows."

The latest advertising dodge is to send boys uniformed as messengers to private houses delivering imitation despatches, which set forth the advantage of buying your goods at "our store."

WHAT EVERY PERSON SHOULD KNOW.—The grand outlet of disease from the system are the Skin, the Bowels, and the Kidneys. Burdock Blood Bitters is the most safe, pleasant, and effectual purifier and health-restoring tonic in the world. Trial bottles 10 cents.

A YOUNG lady was caressing a pretty spaniel and murmuring: "I do love a nice dog!" "Ah!" sighed a dandy, standing near, "I would I were a dog." "Never mind," retorted the young lady, sharply, "you'll grow."

CHEAR AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

THREE members of the Salvation Army were fined \$5 each in London on Tuesday for playing fiddle and beating drums on the streets. They said they were prepared to go to jail, but nothing could prevent them playing their band, as it was done for the glory of God.

YOUNG'S POINT.

From Our Own Correspondent.

THE CROPS.—The crops in this section, although we have had our share of the extremely wet weather, look well. The farmers are now busy preparing to cut their clover and timothy, and to all appearance the crops will be abundant. We hope the clerk of the weather will shine his sun favourably and let us have no more of such wet for at least two weeks.

THE LONG SWAMP.—What are our councillors of this township of Smith doing, and what do they do when they meet in council, assembled at Bridgenorth? Surely they do little except talk. Do they ever take a trip over our road? Take for example the long swamp from Rose's farm to Hugh Duff's, on the 12th occasion, why it is a disgrace to have this road in the state it is—actually not fit to travel on. Let our reeve and the two councillors who represent this end of the township examine this road at once and spend some money on it to make it possible for teams and buggies. It is a good deal travelled on, and the statute labour that is to be done on it annually does not amount to enough to make it a good road. We have a good pathmaster but he cannot do anything on it without getting money to do it with. Let this be seen to at once.

STRAWBERRIES.—We are well off this summer in getting a daily supply of fine garden strawberries from the garden of Mr. Wright. Walter Young attends pretty regularly to our wants in this respect, which we count a great boon in the warm weather, and Walter is well patronized.

Seeking Price—Symptoms and Cure. The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling above the parts affected. If allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, safe cure. Also for Tetter, Itch, Salt Rheum, Scald Head, Erysipelas, Barbers Itch, Blisters, all scaly, crusty Skin Diseases. Sent by mail for 50 cents; 3 boxes, 1.50 (in stamps). Address, DR. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

Daily Evening Review

FRIDAY, JULY 13, 1883.

SERIOUS ACCIDENT.

An Unfortunate Blow that May Result Fatally—The Sufferer Still Alive.

From Our Own Correspondent.

MONTREAL.

Special to the Review, July 13.

THE STEAMER PARISIEN passed Matine at 9 o'clock this morning inwards.

A Warning to all Mankind.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

A CITY IN FLAMES.

ST. PETERSBURG, July 13.—A fire is raging in the town of Kostov, on the Don, in the Government of Yekaterinoslav. The whole town is menaced. It has a population of 45,000.

CATTLE DISEASE LEGISLATION.

LONDON, July 13.—It is believed that the Government will refuse to enter upon legislation touching the cattle disease at this session of Parliament.

ANARCHY IN TONQUIN.

HONG KONG, July 13.—Tonquin is in a state of anarchy. The French hanged many marauders, bands of whom are still firing upon the outposts.

AMERICAN.

FOUR MEN KILLED.

LEMON, Ill., July 13.—A derrick and a load of stone fell in the Eureka quarry yesterday, killing four men.

BUSINESS HOUSES BURNED.

COLUMBIA, Tenn., July 13.—I. William's block and a number of other business houses were burned yesterday. Loss, \$65,000.

ROBBERY.

NEW YORK, July 13.—An aged man and wife named Hunsel, residing at Fort Washington, were chloroformed by burglars on Monday, and about \$1,500 worth of valuables were stolen. The matter has just been reported to the police.

A DARK PLATFORM.

ST. LOUIS, July 13.—The Colored Press Association has adopted resolutions in favor of education of the races, urging industrial pursuits by negroes, declaring that colored voters should not be untrammelled by party claims and demand recognition commensurate with their strength from the party with which in future they may be allied, and that the word negro in future be written with a capital "N."

A FAILURE.

NEW YORK, July 13.—Sloat, Burwell & Co., lumber dealers, have failed. Liabilities \$100,000; assets large.

BURGLARS AT WORK.

NEW YORK, July 13.—Burglars stole over \$2,000 worth of property from the residence of John Scholes, East 47th street, on Tuesday, during the family's absence.

A FLOOD.

HARRISONBURG, Va., July 13.—Last night two angry clouds met just north of the town. It rained torrents. The rivulet through the town became a mighty river, spreading over the principal streets. Shocks of wheat, hogs, chickens, fences, and small houses came pouring through the main thoroughfares. Many houses were greatly damaged.

A LUNATIC RESCUED.

ATLANTIC CITY, N.J., July 13.—Wm. F. Hamilton, a prominent citizen, disappeared on Wednesday. He was found six miles from here yesterday sitting in a marsh with his head just above the water. He had been deranged by over work and would have been drowned soon by the incoming tide. He was in the water ten hours.

A FEARFUL TRAGEDY.

DWIGHT, Ill., July 13.—Andrew White, formerly a wealthy citizen of Chicago, has been living on a stock farm near here. Overwork made him insane. He was sent to an asylum and he had an hallucination that he had been imprisoned by his family. A week ago he escaped, bought a revolver, and went home. Yesterday morning he stood on the step and called his family. His wife, a son aged ten, and a daughter aged eight, rushed to welcome him, believing that he had been discharged cured. He received her caresses and then said, "You want my fortune," and shot his wife and children one after the other dead. He fell upon the corpse of his wife and wept, and then dragged all the dead into the dining room and laid them on the table. He then sat down and shot himself dead.

FREIGHT RATES.

NEW YORK, July 13.—An effort is being made to have a meeting of the joint executive committee of the trunk line and the western connections here next week, to consider the demoralized condition of freight rates.

A NOTORIOUS CRIMINAL SHOT.

NEW YORK, July 13.—A burglar fatally shot in Jersey City recently has been identified as "Big Dutch Fritz," a notorious criminal.

OVERCOME BY GAS.

CLEVELAND, July 13.—At Washington court house on Wednesday Thomas Anderson and John Cabbage were fatally overcome by gas in a well they were digging.

ALLEGED BIGAMY.

ST. PAUL, July 13.—Samuel Potter, who rose from a poor working man to a wealthy furniture manufacturer, and with his wife has been a prominent Episcopalian, has just been sued by a woman from England, who claims that he is her husband.

A PROBABLY FATAL ACCIDENT.

NEW YORK, July 13.—Mattie Davis, aged 18, of Boston, was shot in the eye at a shooting gallery on Coney Island yesterday, by John Brigard. She will probably die. Brigard says it was accidental.

AN ELOPEMENT.

BATAVIA, Ohio, July 13.—The wife of post master Batavia, a wealthy citizen, recently eloped with a horse doctor, but was reclaimed. On Wednesday she left with him again. Her husband is nearly crazy. A man named Jackson, who befriended the guilty pair, has been ordered to leave the town.

THE PRESIDENCY.

NEW YORK, July 13.—The Times' Saratoga correspondent has had a long interview with an anonymous intimate friend of Tilden, who says Tilden is not a candidate for the Presidency, but if the spontaneous demand for the old ticket should arise he would not decline.

OPERATORS' GRIEVANCES.

NEW YORK, July 13.—The Western Union telegraph operators express dissatisfaction with the recent promise of providing payment for Sunday work. They say that it falls far short of what they deserve. Their grievances will be laid before the Company soon.

ORANGE JUDD'S FAILURE.

NEW YORK, July 13.—The liabilities of Orange Judd are not given. He gave \$100,000 a few years ago to the Wesleyan University and other large contributions to Methodist institutions, which, with his financial reserves, crippled him badly. He lately sank \$300,000 in real estate.

MIDNIGHT TELEGRAMS.

AMERICAN.

RIVAL TELEGRAPH COMPANIES.

NEW YORK, July 12.—The executive committee yesterday discussed the question of leasing the American rated telegraph lines, but took no action. It is said that the Western Union wishes to obtain certain patents for the automatic telegraph, owned by the American Rapid Telegraph Company, and thus head off the Postal Telegraph Company, which has also the automatic process.

BETTER CROP PROSPECTS.

MINNEAPOLIS, Minn., July 12.—Reports from all parts of Dakota show a slight improvement in wheat, and the same in the Red River Valley.

ARRESTED FOR MURDER.

CHICAGO, Ill., July 13.—Samuel Johnson and wife (colored) were arrested yesterday, charged with beating a little grandchild to death.

Officers Installed.

The following officers of Peterborough Lodge No. 111, I.O.O.F., were installed in their respective chairs by Bro. D. H. Moore, D. D. G. M., on Thursday evening:—

Bro J C T Lacy J P G
" J J Hartley N G
" A McFarlane V G
" J R Smith Rec Sec
" John Sawers P S
" James Kendry Treas
" John Brownlee C
" Samuel Clegg W
" J E Murray R S N G
" Dr J Clark L S N G

Daily Evening Review

FRIDAY, JULY 13, 1883.

OUR MILITIA.

THE Toronto Telegram, in reply to some unnecessarily severe criticisms of the Canada militia in the Army and Navy Gazette, assumes that the Gazette speaks for the Imperial authorities, and says that as our militia costs the Imperial authorities nothing, and is maintained for our own purposes it has no reason to interfere. In the first place the Army and Navy Gazette is not the organ of the Imperial authorities, and often criticizes them severely. In the next place our militia cannot be said to cost the Empire nothing, for it gave up to the Dominion valuable property on the condition that there should be a certain annual expenditure upon our militia, a pledge which we regret to say has not been kept by Canada. Neither can it be said that the efficiency of our militia is of no concern to the Empire as long as it has the responsibility of coming to our aid in case of need, and must naturally be interested in the quality of troops with which its own would stand shoulder to shoulder.

We have the evidence of Lord Wolsey, certainly a competent judge, that our militia is composed of excellent material, and even under its present disadvantages can do good service, but it is idle to deny the fact that an insufficient time is devoted to training. None are more ready to admit and regret this than the more zealous of our volunteers themselves.

Impatience of criticism is not likely to promote the desired progress.

THE PACIFIC JUNCTION RAILWAY.

THE very general attention that has been paid by the press, the public and the railway companies to the proposed line to connect the Canada Pacific at Callender with the Ontario railway system at Gravenhurst, shows the great importance of this subject and the interest felt in it. With minor differences of opinion caused by local interests or other disturbing influences, the general feeling seems to be that this connecting link should be strictly neutral, and not discriminate for or against any of our railway companies. This is the expressed opinion alike of the Dominion Government, of the press and of the public at large. The *Monetary Times* put the matter in a nutshell as follows:—

"The government is pledged to do one of two things: either to secure equal privileges to all the roads having the right of way over the neutral line or to build the road itself. To the fulfillment of that pledge it will be strictly held."

THE *Globe* gives an argument against the N. P. a list of 31 manufacturers who have failed during the first six months of this year. If it is as correct in other cases as it is in that of Peterborough, its list must be very valuable. It parades the name of "W. Usborn & Co., Pulp Mill, Peterborough," among these failed manufacturers. Of course we need not tell our readers that this is inaccurate. Before manufacturing was commenced the original firm, on account of internal differences, abandoned the enterprise, the business was transferred, and is now being carried on.

THE *Oshawa Vindicator* has the following concise and correct remarks:—

"The Peterborough Review has been showing up the Cobourg World in some of its late statements lately. The Port Hope News reaches to the rescue of the World with more energy than ability, and the Review property shows that the Review is too wild in its statements to receive even passing notice. The Review is too much for the World."

ANOTHER month has passed, making the greater part of the year, and still the Mowat administration is unable to pluck up courage to appoint a Registrar for the County of Peterborough. No doubt it is hard to decide among the candidates with whom to keep faith and whom to disappoint. All the promises made before the election cannot be kept.

An "Unfriendly Act."

From Ottawa the *Globe* announces that the action of the Government in refusing to alter the regulations affecting the importation of American whiskey in bond, to accommodate United States distillers, was an "unfriendly act." If the Government had acceded to the request the *Globe* would have denounced their action, and would have endeavored to stir up feeling among the total abstinence section of the community and among Canadian distillers. As the organ has been disappointed in not being able to do so, it now refers to the Government's decision as "an unfriendly act."

Buckley's Arnica Salve.

The greatest medical wonder in the world. Warmed to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancri, Piles, Chilblains, Corns, Tetters, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

ALGOMA ELECTIONS.

Why the Algoma Whigs Is Delayed—A Last
Mingling.The Rat Portage correspondent of the
Montreal Gazette says:—

We are beginning here to get excited on the subject of the coming election for the Electoral Division of Algoma. As you are aware the disputed territory, or rather the people in the disputed territory, have the exceptional advantage of voting in two provinces. They belong to Manitoba and Ontario both, in so far as their electoral privileges are concerned. The election for Algoma, which completes the battle in Ontario, in the meantime at any rate, should have taken place a month ago, and would have taken place then, but that the Mowat contingent, headed by Mr. Burden, were not quite ready. Unless they can carry Rat Portage, their chances of carrying Algoma are all, and with Algoma against them, in the present condition of parties in the province, they must go.

The candidates are Mr. Plummer, of Sault Ste. Marie, and Mr. Lyon, of Fort Francis, or thereabouts, who represented the district in the last Legislature. The former is a Conservative, the latter, a Gink of the gristmill order, and every day the contest warms warmer. There are no less than six paid officials of the Ontario Government at Rat Portage at present, and Mr. A. Wood, the ex-Treasurer of the Province, has just arrived, it is said to take supreme command of the forces. These officials are moving a big game of bluff. They proclaim from the house-tops that they are going to take possession of the territory, and that hereafter it will be run exclusively by the authority of the Ontario Government. They have a license commissioner going the rounds of the liquor-shops, and promising them, with a knowing wink, that they will have saloon licenses for sixty dollars, the suggestion being of course that this design arrangement is dependent upon a solid vote for Lyon. They boast that a body of Provincial police is on its way from Toronto to enforce Ontario rule, and that a Division Court is at once to be opened. They also threaten to seize all timber not cut under license from the Ontario Government, evidently forgetting of the result of a similar attempt made by them a short time ago. In a word they are trying in every way to impress upon the people that they are in possession of the country, having full control of it, and that therefore obedience to the dictates of the clique should be the course of all who wish for favour. As a part of the tactics they have caused to be issued the following placard, the significance of which will be understood when it is remembered that the people here are largely squatters, and that the franchise which prevails is practically manhood suffrage:—

SPECIAL COMMISSION
FOR ENQUIRING INTO THE CLAIMS
WITHIN THE
DISPUTED TERRITORY.

The undersigned gives public notice to whom it may concern that his Honor the Lieutenant Governor-in-Council has been pleased to appoint George Burden, of the village of Rat Portage, Esq., and George Robson Patullo, of the town of Woodstock, Esq., Commissioners, to act jointly or severally in respect to the following matters:—

"To enquire respecting claims which may be made by squatters and others to mining lands, water privileges, farm or town lots, or other rights of property in the disputed territory, and from time to time to report the evidence taken and the opinion of the commissioner or commissioners thereon."

ARTHUR S. HARDY,
Provincial Secretary.

With reference to the foregoing all parties are hereby notified that once or twice of the said Commissioners will sit in the Court House building, in the village of Rat Portage, on Wednesday the 18th day of July instant, for the introduction of business, and continue sitting from day to day on all lawful days, between the hours of ten o'clock in the morning and four o'clock in the afternoon, until claims have been duly investigated. Subsequent sittings will be held at Port Francis and other parts of the territory, of which due notification will be given.

GEORGE BURDEN,
Commissioner.

As I have said nearly all the people here are squatters, the few who are not having chiefly bought their lands from the Hudson's Bay Company. Of course the officials are loud in their professions of respect for squatters' rights, and assert that they will be duly protected, the hope being that under the influence of these professions the people will go for Lyon. In addition to this a more substantial form of inducement is being resorted to. The Ontario official crowd are spending money freely; they are improving the streets with Government money, and a carriage road along the bank of the lake from Rat Portage is among the good things to come. If only people will see eye to eye with Burden, Patullo & Co. All these improvements will cost a good deal of money, but what of that when the stakes are so high? For there is no doubt that, in the opinion of the clique here, the existence of the Mowat Government hangs upon the result in Algoma. If lavish promises and open unflinching bribery will do it, they will carry this part of the district, and in that case their chances of electing their candidate are fairly good. They are evidently not satisfied with their work as yet, as the writs do not come. The story now is that they will not come until next month; but come when they may, the contest will be warm, and the victory, or I am greatly mistaken, a decisive one for the Opposition. There is no part of the country so much interested in the settlement of the boundary question as the people of the disputed territory; and the opinion here taken a very few days ago on the popular mind here that Mowat is the difficulty in the way of settlement, and that, until he goes, settlement is impossible. That opinion found its expression in the hundred or so signatures for Mr. Burden last year in the name of his representation this year in a decided majority for Mr. Plummer.

AN IMPORTANT DECISION.

MONTREAL, July 11.—An important judgment has been delivered here by Mr. Justice Payette, establishing the fact that the Queen forms part of the Local Government of the Dominion. The suit arose out of a claim of Mowat for expropriation of land under the Railway Act of this province against Hon. Meares, Chapleau and Lynch, as members of the Government. The defendants pleaded by a declaratory exception that they are not justiciable or subject to the jurisdiction of the court, except in cases of alleged malversation. As the day commissioners, they are members of the Executive Council and advisers of the Lieutenant Governor, and as such are mandatorily of the Government, and responsible to the Lieutenant Governor and to the Legislature only. It appears from the decision that the Acts claimed of were done by them in the name of her Majesty, and they cannot be brought before this court for what was done by them as advisers of her Majesty. The plaintiff held that the Queen was intentionally excluded from the province. Reference was made to the North American Act in support of the contention. The court was of the opinion that the Queen does form part of the Local Government. Her Majesty cannot cede any of her prerogatives except by special disposition of law. She cannot cede to be the personification of sovereign power in any part of the empire, or by Imperial statute or treaty. The court held that the conclusion that the action was wrongly brought; the declaratory exception would therefore be maintained and the action dismissed with costs.—*Mail*.

Preserving the Fertility of Farms.

In the case of the dairyman, it makes a large difference what system he pursues. If the milk is sold, then a large amount of fertilizing matter is lost to the soil, as milk is rich in nitrogen and phosphoric acid. If the milk is made into cheese, then the principal part of all the fertilizing matter of the milk is lost, as that is contained in the whey. But if only butter is sold and the skimmed milk is fed, and the droppings all saved and applied, very little fertility is carried off.

Excited Thousands.

All over the land are going into ecstacy over Dr. King's New Discovery for Consumption. Their unlooked for recovery by the timely use of this great life saving remedy, causes them to go nearly wild in its praise. It is guaranteed to positively cure Coughs, Colds, Asthma, Hay Fever, Bronchitis, Hoarseness, loss of Voice, or any affection of the Throat or Lungs. Trial bottles free at Taylor & McDonald's Drug Store. Large size \$1.00.—2

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Strymoner, the wonderful invention of Dr. M. Sonville of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above-named diseases every year. Write, enclosing stamp for list of questions and copy of *International News*, published monthly, which will give you full information and reliable references. Address, International Throat and Lung Institute, 173 Church street, Toronto; 13 Phillips Square, Montreal, P. Q.; 81 Lafayette avenue, Detroit, Mich.; or 106 Alexander street, Winnipeg, Man.

Daily Evening Review

FRIDAY, JULY 13, 1883.

Boy Wanted.
At the telegraph office.

Ice Cream.
Go to J. Craig's for Fresh Pastry, Ice Cream, Confectionery, &c., opposite Wrighton's store, George-street.

Personal.
Mr. John Carnegie, M.P.P., returned home to-day, from a visit to the old country.

Piano Tuning.
Mr. George I. Gumprecht, tuner for Messrs. Mason & Risch, Toronto, is in town, and will attend to any orders left at T. Menzies' bookstore or Taylor & McDonald's Drug store.

As Usual.
As usual, the Peterborough Band attracted attention in Port Hope on the twelfth. The *Guides* say:—

"Peterborough County sent five Lodges and the Peterborough and Lakeside True Blues, headed by the Fire Brigade Band, who discoursed excellent music to the great gratification of the outsiders."

Strawberry Social.
The St. Andrew's Ladies Aid Society will give a strawberry social in the school and church grounds on Tuesday evening next. There will be strawberries, ice cream, music and other good things. The Fire Brigade Band is to be present, and Mr. J. Miller has promised to give some experiments in thought reading. Admission 15 cents.

A Graceful Recognition.
The address of M. W. Bro. D. Spry, G. M., to the Grand Lodge of Canada, A. F. & A. M., contained the following paragraph:—
"V. W. Bro. Samuel White, Grand Steward of Grand Lodge, died at Peterborough, September 1st, 1882. He labored for the good of Masonry and was respected by his brethren."

To See the Circus.
Two special trains left for Port Hope to-day at 8.30 and 10.50 o'clock, taking with them a large number of passengers who desired to see the attractions offered by Barnum's circus and menagerie, including the much talked of elephant, Jumbo. A large number who went to Port Hope on Thursday remained over to attend the circus to-day.

Podiatrist.
Another attempt to arrange a foot race between M. Bird, of Peterborough, and Williamson, of Omemee, has fallen through. Next Monday was the day for the race, and \$10 had been put up by their respective backers, but Williamson will not run so soon as that and asked for more time. The money put up on his behalf has been forfeited.

None Better Conducted.
The *Stratford Herald*, which from its own high standard should be a good judge, says:—
"The Peterborough Review has been coming out enlarged and improved for some time back. There is no local paper in Canada better conducted than this epicly daily of a not very large country town."

As to our town we hope it will soon be a city, and the Review will endeavour to keep pace with the advance of Peterborough.

The A. C. A. Pamphlet.
The Montreal *Star* thus refers to the pamphlet relating to the A. C. A. Camp at Stoney Lake:—

"A very neat little pamphlet treating of the meeting of the A. C. A. at Stoney Lake, near Peterborough, Ont., next month, comes from the office of the Review. It contains a full account of the ways by which the Camp may be reached, and gives the programme of the regatta to be held during three days of the meeting. Attached to the pamphlet, which has a very artistic appearance, is a map of the district around Stoney Lake."

Smith's Market.

Strawberries every morning. Parties and festivals supplied at a moment's notice. Berries picked on dry days for preserving; all orders will receive prompt and careful attention.

Cherries, Oranges, Lemons, Green Peas, Cucumbers, Tomatoes, etc.

Fresh Fish. Parties will confer a great favor by leaving their orders on Thursday evenings, as we find it utterly impossible to get over so large a tract of ground late Friday morning in time for dinner.

Pencil Points.

—Cool, cloudy weather.

—The police cells were empty last night.

—Thirteen stray cattle were impounded on Wednesday.

—The band will give an open-air concert to-night if the weather permits.

—A lacrosse match is talked of between the Peterborough and Orillia clubs.

—The merchants complain that the watering cart did not get around until late yesterday. Wait till the two new carts are purchased and the water is taken from the hydrants, and it will probably only be a short time until the latter is done.

Herford's Acid Phosphate gives strength where there has been exhaustion and vigor in place of impaired vitality.

THE TWELFTH OF JULY.

THE CELEBRATION IN PORT HOPE OF THE BATTLE OF THE BOYNE.

A Large Procession of Orangemen—Immense Numbers of Spectators—Speeches in the Afternoon in the Park.

The members of the Orange Order in the County of West Peterborough joined with their brethren of the surrounding district in celebrating the 123rd anniversary of the Battle of the Boyne at Port Hope. The Fire Brigade Band, of Peterborough, went to Lakeside in the morning and returned with the members of the Lakeside and Napanee Lodges. A procession was formed on Murray street, and proceeded by the way of George and Charlotte streets to the Midland station. The train departed at about 9.30 o'clock, and there was, when it left the Peterborough station, a large number of passengers in the cars. At Fraserville, Millbrook, Garden Hill, and many other places along the line, members of the order in regalia and others were picked up, and at about 11 o'clock the train arrived in Port Hope. Already the colors of many lodges were floating on the market square, and soon after the Lindsay train arrived, also crowded with passengers, while lodges from the country around Port Hope continued steadily to pour in.

At one o'clock, all the brethren who were expected having arrived, the procession formed and proceeded through the principal streets. The line of march was thronged on each side with spectators, and the streets were decorated with evergreens, bunting and flags. One large and handsome arch was erected opposite the Express office, with appropriate mottoes, and a fine suspension arch crossed the street at the Queen's Hotel. Bro. Evans, District Master of Port Hope, led the procession, and he was assisted by the Marshals of the day, including Bro. G. W. Hall, of Peterborough. The following lodges were included in the procession:—

WEST PETERBOROUGH COUNTY.—R. Weir, G. M., and R. Warham, D. G. M. Fire Brigade Band. McWilliams Lodge O. T. B., No. 26, C. B. Robertson, W. M., T. Duncan, D. M. Peterborough District L.O.L., T. M. D. Croly, D. M., Wm. King, D.D.M. L.O.L. No. 80, Peterborough, T. Brown, W.M., A. Dawson, D.M. L.O.L. No. 49, Peterborough, J. George Brown, W.M., J. S. Hall, D.M. Nassau L.O.L. No. 457, Wm. HORN DISTRICT.—Thos. Leith, D.M., Wm. Onda, D.D.M. L.O.L. No. 78, M. Campbell, W.M. L.O.L. No. 388, Jas. Gray, W.M. L.O.L. No. 149, J. Pascook, W.M.

PORT HOPE DISTRICT.—Jas. Evans, D. M., W. H. Wilson, D. D. M. 46th Battalion Band. O. Y. B. Lodge, No. 409, W. Pidgeon, W. M., W. Mercer, D. M. "Practice Boys, No. 7, F. H. Brown, W. M., D. D. Pretty, D. M. L. O. L. No. 44, A. McCurdy W. M., C. Nickson, D. M. L. O. L. No. 141, C. Mussey, W. M., W. Galloway, D. M. L. O. L. No. 309, E. J. W. Burton, W. M., T. Buck, D. M. L. O. L. No. 1062, R. Andrews, W. M., Jas. Ford, D. M.

According to the list, which is as accurate as could be obtained, there were forty lodges in the procession. After marching through the streets the lodges returned to the market square, where cheers were given for the Queen, and the brethren separated for dinner.

At about three o'clock the lodges again assembled on the market square and the procession was reformed and proceeded through Queen, Walton and Ward streets to the town park. In the park a stand was erected, on which sat several of the most prominent brethren. Bro. Evans, County Master of Port Hope, presided, and addresses were delivered by the Chairman, Mayor Harpel of Port Hope, the Rev. J. Leary, of Port Hope, Mayor Smith, Cobourg, the Rev. W. M. Pattison, and Col. Williams.

A telegram was read from Bro. E. B. Collins, D. G. M. O. E. Cheers were given for the Queen, and for the "glorious, pious and immortal memory" of William III., and the people returned to the town, the O. Y. B. and the

True Blue Lodges having previously returned, headed by the Peterborough Band.

After returning to the town the Peterborough Band played several selections in front of the Queen's Hotel. The train for Peterborough left Port Hope at about 7 o'clock, and arrived in Peterborough at about 9.

The weather during the day was very favorable, not being very warm. There was a shower of rain at about 5.30 o'clock and after the Peterborough train left Port Hope in the evening rain again began to fall. The celebration of the anniversary was a very successful one, and the Port Hope brethren are to be congratulated on the result of their endeavour to bring a large number of visitors into their town to commemorate the day.

WITH pure blood contagious fevers and other diseases have no hold on the system. Dr. Carson's Stomach Bitters render the blood pure and cool. For sale by all druggists. Large bottles 50 cents.

WM. FAIRWEATHER & CO.

DESIRABLE PROPERTIES FOR SALE.

\$11500 WILL BUY the vacant Lot, 115x100 feet to a lane, on the corner of Hunter and Water Streets, Peterborough. This piece of land is without doubt the most desirable building site in town and is well worthy the attention of those wishing to build. It is eminently suited for an Hotel, Opera House or Block of Stores, as it has a frontage on three sides.

\$3300 WILL BUY a Lot on the corner of McDonald and Harvey Streets. On this are erected 3 comfortable dwellings at present occupied by tenants at a monthly rental of \$23.50. There is space for another house.

\$3500 WILL BUY a comfortable house on Stewart Street, between George and Hunter Streets, occupied by tenants at a monthly rental of \$24.

\$2000 WILL BUY a very desirable residence on Brock Street, opposite the residence of D. Ulyott, Esq., at present rented at \$200 per year, payable quarterly.

\$1200 WILL BUY Brick House and Lot on Aylmer Street, opposite the Baptist Church, occupied by a tenant at a rental of \$7 per month. There is space for another house.

\$650 WILL BUY that very desirable building lot, on Dickson Street, immediately south of the residence of R. W. Grubbe, Esq. There is a small house on this lot occupied by a tenant at a monthly rental of \$3.

\$2100 WILL BUY 3 comfortable houses on McDowell Street, near Hamilton's Foundry. If desired these houses will be sold separately.

\$1500 WILL BUY 8 houses and Lot on King Street, between George and Aylmer Streets, occupied by tenants at rental of \$12 per month. There is space for several more houses on this lot.

\$4000 WILL BUY 10 acre Park Lot near the Little Lake. There are 3 dwellings on this lot, occupied by tenants. This is a very desirable property and could be cut up into town lots.

\$2000 WILL BUY 75 acres of good farming land, in the Township of Manvers, near the village of Bethany.

\$1500 WILL BUY the most central and desirable building property in the village of Lakeside, lying between Puzos's Hotel, and Mr. Sherrin's Block. Space for 6 stores. Corner Lot.

\$750 WILL BUY Lot on corner of Perry and Almer Streets, containing 1 acre.

\$250 WILL BUY a very desirable building Lot on Welles Street, adjoining the residence of George G. Gladman, Esq.

\$700 WILL BUY Lot on corner of Dublin and Reid Streets, containing 1 acre. This is a beautiful building Lot.

\$450 WILL BUY 3 fine building Lots on Elm Street.

\$750 WILL BUY a comfortable dwelling on Lock Street. Lot contains 1/2 an acre and is planted with fruit trees.

Terms to suit purchasers. Apply to

Daily Evening Review
SATURDAY, JULY 14, 1883.

ST. JOHN, N. F.
By Telegraph to the Review, July 14.
A FRENCH FISHING VESSEL named La Prince was found bottom up in Bay St. George yesterday morning. The crew are supposed to have been drowned.

TORONTO.
Special to the Review, July 14.
THE BODY OF THE WOMAN found in the bay has been identified as that of a Mrs. Kelly, from Prescott.

Keep Up with the Times.
The Lindsay Post good naturedly jokes us as follows about our new hydraulic motor. By the way, it is whispered that our enterprising contemporary is about to run its presses by means of gas, finding it more easy to obtain than water. The Post says:—

"During the temperance campaign some years ago the Peterborough Review was strongly anti-Dunkin—consequently so, no doubt—but anti-Dunkin. We had a new departure by the Review as a tangible proof that that journal has seen the error of its ways and will hereafter wade in the straight and narrow flume of temperance. One of Turk's water-motors has been placed in the Review establishment to furnish motive power for driving presses, ruling machines, etc. The motor does its work well, over eight horse power being developed from a stream of water delivered through a three inch pipe. The supply is taken from the local waterworks at a nominal pressure of 35 pounds per square inch. The Review is one of the oldest and most progressive printing concerns in the province, and its adoption of water motor power is in keeping with the times. It is quite clear that 'water, bright water,' will supplant the motto of 'measures, not men.'"

Turabell's Table Linens considered by all who see them a marvel of cheapness.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

AN OUTBREAK FEARED.

LONDON, July 14.—The situation in Crete is very grave. The people refuse to pay the taxes imposed by the Turks. An outbreak is feared.

THE CHOLERA.

ALEXANDRIA, July 14.—Thirty-eight deaths occurred from cholera at Damietta yesterday; 57 at Mansurah, and 15 at Samanoud. Eleven men and officers, forming part of the cordon around Mansurah, have died. The colonel and staff then fled. The former was arrested and replaced by British officers.

STRATEGIC RAILWAYS.

BERLIN, July 14.—The Minister of War has been inspecting the fortresses on the eastern frontier, and drawn up a report advocating the extension of strategic railways on large scale.

AMERICAN.

THE JERSEY LILY.

LONG BRANCH, July 14.—Mrs. Langtry said yesterday that she had made \$100,000 in her American tour.

"PULL BACKS" ILLEGAL.

ST. PAUL, July 14.—In a suit of a woman against a railway company for damages by falling between the cars, the company claimed in defence that the woman wore a pull back dress which hampered her movements. The court held that the point was well taken.

A SEVERE STORM.

BIRMINGHAM, July 14.—Last night the heaviest wind storm ever known in this region lasted an hour and a half. The wind reached sixty miles an hour. A few houses in course of erection were demolished. At Dickinson, on the Northern Pacific, shops being built were damaged slightly. The prediction is made by the signal office that the storm will be very severe in the east.

STEAMER BEACHED.

LONG BRANCH, July 14.—The Havana steamer Niagara, which was beached off the coast of Florida on July 12th, was built in 1877 and was valued at \$350,000. She had 25 passengers. Particulars say that an alarm was caused at 5 o'clock a.m. by smoke from the ventilators. The fire could not be extinguished. A steamer was signalled soon after and the Niagara headed for her. They remained together until 4 p.m. The Niagara was then run ashore in 16 feet of water near Alligator reef lighthouse off Indiana. A number of tugs have been chartered to raise her. There was no panic. The fire is supposed to have been caused by the ignition of oil, kerosene or other inflammable material stored near the engine room.

HASTY DEPARTURE.

NEW YORK, July 14.—Wm. H. Browning, builder, left suddenly for Europe yesterday. He has 19 houses in construction and unpaid obligations to the amount of \$60,000. It is claimed that if the buildings were completed his creditors could be paid in full and he should have \$25,000 left.

A DESTRUCTIVE STORM.

CHICAGO, July 14.—Reports of the damage by the storm state that half swept north-westward across Iowa and Illinois on Thursday night. Two buildings were blown down at Gibson City, Iowa, and a track ten miles long and four miles wide was devastated. The loss in Scott county, Iowa, was \$150,000. At McPaul, Iowa, there is not a house in the town with whole windows left. Ten persons are reported injured, but none fatally.

TWO FATAL ACCIDENTS.

TIFFANY, Ohio, July 14.—John R. Betts, postmaster at Bettville, was thrown from a moving machine yesterday and fatally cut. John Felter was killed in the same way near Attica yesterday.

DESERTED.

NORWALK, Ohio, July 14.—Ida Brayton, aged 14, who recently eloped with a travelling doctor, writes to her parents from Detroit that she has been wronged and deserted.

FAIR YIELD OF WHEAT.

JAMESTOWN, Dak. July 14.—The rain through James River valley yesterday insures a fair yield of wheat.

BASE TREACHRY PUNISHED.

WHEELING, Va. July 14.—At Ritchie County Court House yesterday a young man named Clayton was sentenced to three years in the penitentiary, and his brother was fined \$300. The latter pretended to be a clergyman, and performed a mock marriage between his brother and a young woman, enabling his brother to ruin her.

ON THE WAR PATH.

SORONA, Mexico, July 14.—Apaches are raiding the districts of Monteruma and San Felipe, committing murders and stealing cattle. The savages attacked Hacienda Pariepa, six miles south, killing three men. Twelve men have been murdered by the Apaches in the neighborhood of Oposura since Gen. Crook took their families from the Sierra Madre.

A FATAL EXPLOSION.

NEW YORK, July 14.—An explosion occurred in Norwood & Co's paint shop in Paterson yesterday. It fatally burned Frederick Scott, aged 17.

SHE MARRIED HIM.

NEW YORK, July 14.—Emily Jackson, who attempted suicide recently because her relatives would not permit her to marry, was released yesterday and immediately married the young man.

FREIGHT RATES.

NEW YORK, July 14.—The railroad men meet hereon next Thursday to reorganize the Chicago east bound freight pool. The opening of three new lines renders this necessary. Trouble is feared.

A THIEF OR NOT A THIEF.

PHILADELPHIA, Pa., July 14.—John Joseph Richardson, recently convicted of picking pockets, tried to hang himself in jail yesterday. He is a recently arrived Englishman and it is believed that he was unjustly convicted. A new trial was granted yesterday.

Practise economy by using the Triangle Dye.

Perfect in both dark and light shades. Ask for three colored packages. 10c.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Droe's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Loss of Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

THE NEW RAILWAY BRIDGE.

To the Editor of the Review.

SIR,—It has for some time been a matter of much surprise to me, to observe the indifference to the vital interests of Peterborough shown both by our Town Council and citizens, in permitting the permanent injury we are about to suffer from the proposed mode of constructing the Ontario and Quebec Railway bridge over the Otonabee.

From the plans which I have lately seen, I observe that it is proposed to close up about 200 feet of the river near its centre, by a solid embankment, which will, of necessity, injuriously effect the property on either bank, and the water privileges at a short distance above.

This, however, is largely a matter of private concern, and owners, no doubt, will endeavour to guard their personal interests. The more serious and momentous matter with the town is the fact that it is not intended by the railway to put any swing in their bridge, and that the embankment they are about to place in the river will create an eddy behind it, so that the saw mill and other refuse coming down will be thrown in and piled up there, which, besides being unsightly and hurtful to navigation, will make an offensive nuisance in the river that we will be compelled from time to time, at a large expense, to abate.

Yet greater than even this will be the certain and permanent detriment the town will sustain from the want of a swing in the company's bridge, the absence of which will prevent steam or canal boats to come above the bridge, which is upwards of a third of a mile below the present steamboat wharf. The contract between the railway and the Government has the appearance of being prepared and settled by the former's solicitors, for, assuredly, it has little regard to the protection of public rights upon a navigable water, but very careful it is of the railroad's interests. It says the Government approves of the plans and specifications of the bridge, and that if in the construction of the Trent Valley Canal it is found needful to have a swing in the bridge the railway will build it or place a swing bridge over the Canal itself, where the railway and canal may cross each other. Now, as it is pretty certain that the canal will be built northward out of the Little Lake, and not from above the railway bridge, it follows that the bridge will never have a swing in it, unless put there at the expense of the town, or unless the Government, before the matter has gone too far, is put in possession of the real position of matters, and the report of the Government Engineer, which stated, I am told, that the construction of the bridge would not effect the public use of our waters, is shown to be inaccurate. Of course if no swing is used all navigation of the river above the bridge will be cut off, and small boats will scarcely pass under it during high water. Besides this, one important advantage expected from the building of the canal, viz.: the erection of storehouses on the banks of the river to which canal boats could deliver and receive freights, will be lost, and the trade of this character diverted to the building up of Ashburnham. To this we may add the great inconvenience business men will suffer from having their places of storage so far removed from the centre of the town.

When the Rome and Watertown Railway was being built past the port of Charlotte, a town not one-third the size of Peterborough, the road had to erect an immense swing bridge over the Genesee River, although the actual wharf for boats was not so far above the bridge as ours is above our proposed railway bridge. The people of Charlotte were more apprehensive of the selfishness and rapacity of railway corporations, and by asserting their rights maintained and secured them.

There has been shown an extraordinary apathy on the part of the Town Council to deal with this matter, but it will, I believe, come up at their next meeting. They were elected, as, and expected to be the guardians of our public interests and affairs, and the town looks with the greatest concern upon their action.

If there should any member fail to take and show a proper interest in the matter, and in the protection of our rights, and to enforce the obligations of the railway, he will not likely have the opportunity of representing the town another year.

I believe there is a general feeling abroad that the town has been duped, but I sincerely trust one supreme effort may yet be made, and it may be effectual in saving us from great loss and a lifetime of regret.

I am your obdt. servant,
W. H. MOORE.

THE A. C. A. FLAG.

To the Editor of the Review.

DEAR SIR.—Presuming on your past kindness in giving space in your paper for any matter in connection with the A. C. A. I desire to call the attention of all persons who are or may become members of the Association that they are expected to provide themselves with, and to carry on their canoes, the following flag:—

FINER.—The Association sequel—which is a pointed burgee 10x15 inches, the field red, with confidantional white stripe two inches wide bearing the letters A. C. A. in red.

BROWN.—A distinguishing private's equal rectangular 10x15 inches, which may be of any color or design that taste may dictate.

Yours,
H. T. STRICKLAND.

Peterborough, July 14, 1883.

NORWOOD.

From Our Own Correspondent.

THE REVIEWER.—The electors of the village were called on on Friday to nominate a person for the position of Reeve, rendered vacant by the resignation of J. B. Pearce, Esq. W. E. Roxburgh Esq., being the only candidate nominated, he was declared elected Reeve of the village for the balance of the year.

DOUG WILL.—The boy mentioned, whose skull was broken by a shovel thrown out of the way by a fellow workman, is getting on comfortably.

WITH pure blood contagious fevers and other diseases have no hold on the system. Dr. Carson's Stomach Bitters render the blood pure and cool. For sale by all druggists. Large bottles 50 cents.

Daily Evening Review

SATURDAY, JULY 14, 1893.

STILL WRIGGLING.

The Cobourg World in the midst of floods of abuse, reverts to its old assertion that Mr. Mousseaux's talking to Mr. Masson about the conditions on which they should enter the cabinet, was the same as his making those conditions with Sir John Macdonald when Mr. Mousseaux entered the Cabinet two years later, and when such conditions were no longer necessary. If there were no difference why did the World falsify Mr. Mousseaux's words by omitting his assertion that he was speaking to Mr. Masson, so as to enable it to state falsely that Mr. Mousseaux confessed that he was speaking to Sir John and that the Montreal Gazette so reported him.

As to the World not having withdrawn its unfounded charge we need only say that some weeks after uttering it the World gave the true version with the omitted words "when at St. Jerome, in 1878 with the Hon. Mr. Masson I laid down the conditions, &c.," for which it substitutes the falsehood that Mr. Mousseaux was speaking to Sir John. Now it withdraws its withdrawal. If it had a good case why falsify the words of its opponent?

What however is the use of arguing with an antagonist who says that talking over a condition with a friend is the same thing as exacting that condition two years later and when the condition had become unnecessary.

And now the South Renfrew election case has been adjourned till Sept. 14 on account of the absence of an important witness. It was sworn that Mr. John Foley was seen to receive \$500 from Dr. Dowling, the member whose seat is contested, for the purpose of bringing down voters from the shanties. But John Foley cannot be found, though anxiously sought for, to rebut or confirm this evidence. The North Ontario case had previously been indefinitely postponed, on account of the absence of an important witness, who it is said has been sent away by the Mowat Administration. The absence of such witnesses is at least suspicious.

The Port Hope News has ceased publication, having been absorbed by the Guide. It was evident from the start that Port Hope could not support three papers, and that it was only a question of which should give way. De mortuis nil nisi bonum, so we need not refer to the compliments to the Review in the last issue. We will only say that the News in its brief career displayed a considerable degree of ability and enterprise, and that we wish its proprietor better success in his new sphere.

The Globe says "the arch conspirator of the 'Pacific Scandal' was after a brief probation restored to power." The Globe is mistaken in its facts, for the arch conspirator of the "Pacific Scandal," having been rejected by the people whose suffrages he sought, has been consigned to political oblivion.

The Mail turns the tables on the Globe with its list of manufacturing failures by quoting from the report of Mr. David Mills' Depression Committee to show that there were 491 failures of manufacturers in the fourteen months between January 1st, 1875, and February 26th, 1876.

An Effective Reply.
Mr. L. Stafford, Government Immigration Agent at Quebec, writes as follows to the Quebec Chronicle on the alleged pauper immigration to the States by way of Quebec and Montreal:—"When Special Agent Howell states that large numbers of immigrants are arriving at Montreal and Quebec almost destitute and too feeble to support themselves, and that most of them are paupers, he states what is not correct. Mr. Howell, though he does not state so in words, no doubt refers to the Irish immigrants who were assisted to Canada this season, the whole of whom passed through my hands, and I can safely say that none of them were paupers or had ever been inmates of a poorhouse, but they possessed what was better than riches—health and strong arms, and grown up sons and daughters, just what is wanted in Canada. They were not rich, to be sure, and many of the families were glad to avail themselves of the assistance afforded by Mr. Tuke's fund or the Poor Law Guardians. They received some money on landing sent out for their use until settled down at work, which I am glad to say has been easily found for them. I cannot conceive how it should be necessary for them to go to Plattsburg or Buffalo when I have orders for over 50 families and a large number of single men and women of that class which I am at present unable to supply."

Bucklen's Arnica Salve.
The greatest medical wonder in the world. Guaranteed to speedily cure Burns, Scalds, Cuts, Ticks, Salt Rheum, Fever Sores, Cancers, Piles, Chilblains, Corns, Tetters, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

THE A. C. A. CAMP.

Preparations for the August Meeting at
Stoney Lake—Enthusiastic Members.We take the following extracts from letters
received by an officer of the A. C. A.:A member of the New York Knicker Bocker
Club writes:

"Thank you for your kind letter in sending me the A. C. A. book which has done valuable service to 'the cause,' and which I hope will do more. Three months ago but three men were going to Stoney Lake; now I think at least eight, and I hope more."

A lady member writes from Toronto:—"Accept my very best thanks for the pretty and useful guide to Stoney Lake with the new familiar A. C. A. on the front and the beautiful view of Lovelock Lake on the back. It is needless to say how highly appreciated it has been. You already know my intention of making some flags. They are progressing slowly, but I put in every stitch with pleasure for the honour of Canada."

An Albany member writes:—"I have just received the A. C. A. book. The press work is so neat and artistic, the map and details so complete and comprehensive that it has won the admiration of all who have seen it. My father's remarks after going through it, echo, I think, the sentiment of 'outsiders':—'By George, where there's so much enthusiasm there surely must be a fund of enjoyment.' Individually I cannot begin to express my praise to the promoters and executors for the pains they have taken to provide for the comfort and convenience of their visitors. I feel that the success of the meet is already assured. We will bring at least six, and probably eight, men of our club."

A New York officer of the Association promises to come with several other members and ladies. He says:—

"I have received the pamphlet sent out by the energetic Canadian members of the A. C. A. I cannot express too fully my admiration of the work and system shown, and only regret that I have been unable to help a little."

An Albany member and enthusiastic paddler writes as follows:—

"The book of directions with photo, of Burlington and Stoney Lake, and I write to you to express my admiration for the complete and attractive way in which the pamphlet is gotten up. It is simply a mine of information, and seems to cover every possible point. The A. C. A. cannot but recognize the immense amount of patient time and care that has been used in getting up this perfect little guide for the benefit. We shall certainly bring a good number, and regret that we cannot pass two weeks at the lake instead of one; but none of us have more than two weeks vacation and we are all cravers, and very desirous of combining a good long cruise with our racing meet, so that we shall spend only the last week with you on the lake to Rice Lake and the thousand islands and home. I am sure that the meet will be a grand success; and that you will all be somewhat rewarded for your efforts to make everything as smooth and pleasant as possible. We are all in for races although we are very slow cruisers, but will be glad to swell the number of entries, &c."

Masonic Grand Lodge.

At the meeting of the Grand Lodge of Canada A. F. and M. at Ottawa, the following officers were elected:—Grand Master, Daniel Spay; Deputy Grand Master, Hugh Murray; G. S., W. E. Plant; J. W., J. S. Dewar; G. S., J. J. Mason; Grand Chaplain, Geo. Wright; Grand Treasurer, Ben. Mitchell; Grand Registrar, E. F. Malone. The following different districts were represented:—Quebec, St. John, St. Catharines, Toronto, Hamilton, London, Windsor, Detroit, St. Louis, St. Paul, St. Lawrence, W. Waddington, Jr., Kingston; Ottawa, W. Rea. R. W. Bro. E. H. D. Hall has been appointed representative of the Grand Lodge of Indian Territory near the Grand Lodge in the place of R. W. Bro. R. Ramsey resigned. The Grand Council of the Royal and Select Masters, Royal Ark Mariners, and Knights of the Order of Rome and Constantine held its annual assembly this evening. The following were elected officers for the ensuing year:—J. Ross Robertson, Toronto, Grand Master; L. H. Henderson, Belleville, Deputy Grand Master; R. Slater, St. Thomas, Grand Conductor of the Work; David McLellan, Hamilton, Grand Treasurer; J. G. Burns, Toronto, Grand Recorder; A. E. Chatsfield, Ottawa, Grand Captain of Guard; H. K. Malland, Guelph, Grand Lecturer; and the following inspectors of districts:—E. H. Raymond, London division; John Socon, Hamilton division; P. J. Slater, Toronto division; E. H. Butterworth, Ottawa division; E. H. D. Hall, North-West Territory. The next meeting will be held in Toronto.

Two Persons Drowned.

The body of David J. Lees, formerly a well known fruit man of Toronto, was pulled out of the water of the bay, Toronto, on Thursday night by a policeman. He is supposed to have committed suicide. At five o'clock on the same evening the body of an unknown woman was found floating in the bay. The World gives the following description of her:—"Deceased was dressed in a black alpaca dress with jacket and wore a small black turban. She had a thick dark hair and two prominent, overlapping upper front teeth. She wore new button shoes and home-made woolen stockings and a grey petticoat. She is apparently 30 years old. Two dollars and a half and a comb were found in her pockets. This makes the thirteenth case of drowning in the bay since the ice disappeared."

British Beloechistan.

A Calcutta despatch says:—"The details of the scheme for the defence of British Beloechistan have now been decided upon. The extreme frontier will be held by local levies posted in small forts. These stations will be supported by central military posts of considerable strength. The garrison at Quetta will comprise a European mountain battery, a European garrison battery, two squadrons of native cavalry, one battalion of British infantry, and two regiments of native infantry. The other garrisons will be placed at New Bazar, Sharigh, Thal-Chotiali, Shil and Sal. The reinforcements will not be moved before next winter."

The London Flood.

It is now believed that twenty people perished in the floods at London. Active measures for the relief of the sufferers have been taken by the generous citizens. They have resolved not to call for contributions from outside cities, but any assistance volunteered will be accepted. Several handsome contributions to the relief fund have already been made.

A Minor's Remembrance.—The all prevalent malady of civilized life is Dyspepsia. Rev. W. E. Gifford, of Bethwell, was cured of Dyspepsia and liver complaint that rendered his life almost a burden. The cure was accomplished by three bottles of Burdock Blood Bitters.

Beautiful Satin Prints in dark colors at 12½ cents at Turnbull's.

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Sironometer, the wonderful invention of Dr. M. Souville of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above-named diseases every year. Write, enclosing stamp for list of questions and copy of International News, published monthly, which will give you full information and reliable references. Address, International Throat and Lung Institute, 173 Church street, Toronto; 13 Phillips Square, Montreal, P. Q.; 81 Lafayette avenue, Detroit, Mich.; or 106 Alexander street, Winnipeg, Man.

FROM ALL OVER.

A popular rising is threatened in Cuba. U KAN'T KOFF.—Climate cough cakes. Quick, sure cure; of all dealers; 15c.

The South Renfrew election case has been adjourned until September 14th, in Toronto.

Don't Pull It.—Use Newton's one minute toothache cure. Relief at once; of all dealers, 15c.

The Orange demonstrations throughout the Dominion in honor of the anniversary of the Battle of the Boyne passed off successfully.

It is expected that the German Bundesrath at its next session will prohibit the importation of American pork.

The report that the Western Union is to gain control of the Rapid Telegraph Company is denied by the officers of the latter.

Bismarck's system is run down, and a despatch from Berlin says he will need great care in order to restore him to his usual state of health.

Dr. Carson's Stomach Bitters remove Constipation, relieve Distress, dispell Sick Headache, abolish Biliousness, and regulate the Stomach, Liver and Bowels.

The Imperial Government intend sending a Commission to Egypt to observe the nature and extent of the cholera now raging there.

WHAT EVERY PERSON SHOULD KNOW.—The great outlets of disease from the system are the Skin, the Bowels, and the Kidneys. Burdock Blood Bitters is the most safe, pleasant and effectual purifier and health-preserving tonic in the world. Trial bottles 10 cents.

The curious observation has been made by a French writer that the initials of the five elements (in their French names) which enter chiefly into the constitution of organic matter namely, carbon, hydrogen, azote, oxygen, and soufre, spell chaos.

GLADSTONE'S arrangement with De Lesseps regarding the new canal was based on the belief that De Lesseps alone had the right to pierce the Isthmus. The agreement has been fully condemned by Chambers of Commerce and other representative bodies.

The speaker of the House of Commons having advised Bradlaugh that his attempt to take the oath in disregard of the resolution of the House will necessitate his exclusion, Bradlaugh says he will endeavor to take his seat, and if unsuccessful will appeal to his constituents.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains twenty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best and gives satisfaction in all cases. Read the advertisement in another column.

The Remnants on Turnbull's Table selling rapidly; fresh ends put out daily.

The Price of Wool.

A good reform contemporary, with great lack of discretion, complains that Sir John Macdonald's Government has not kept up the price of wool. Our contemporary must be a wool-dyed Gilt to make the complaint. The price of wool is low, and why? Because the trade policy of the present Government has rendered the country so prosperous that Canadian wool is a better class of goods than can be manufactured from the coarse Canadian wools. Our contemporary who makes the complaint would not be seen on the street in a suit of clothes manufactured from Canadian wool. Go into the woolen factories and inquire where the wool you see passing into the cards comes from. The reply will be from the Cape and from Australia. The coarse Canadian wools are out of date, are a drug on the market, have to be exported, are sold for what they can fetch. Those farmers who produce fine wools get a good price for their goods. Last year when common wool sold at from thirteen to fifteen cents per pound, Mr. Burgess sold the finest from his Shropshire flock for thirty-eight to forty cents. The remedy for low prices is in the hands of the farmers themselves, not in the hands of the Government. Let the farmers change their breed of sheep as rapidly as possible, produce the wool for which there is a demand and they will get good prices. And then perhaps our nation-headed contemporary will be satisfied. —Barrie Northern Advertiser.

Submarine Cables.

A French paper gives some information about the submarine cables of the world. Nearly all the lines under the sea have been made by English workmen, bought with English money, and laid down by English engineers. The capital of the three companies reaching from London to the countries of the east represents more than 31,000 miles of submarine cables. The English companies own 13,000 miles against 10,000 miles owned by others, of the cables between Europe and America. Not more than a tenth of the 12,000 miles of cable connecting Europe and Brazil with the West India Islands is owned outside of Great Britain.

Convincing Proof.

Having suffered from rheumatism for a long time I was induced to try your Arnica and Oil Liniment. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine.

I am yours truly,

W. H. DICKSON, 218 St. Constant St., Montreal. To Henry, Johnson & Lord, Montreal. Arnica and Oil Liniment is sold by all Drug stores.

ONE OF MANY.—Mr. R. W. Carmichael, Chemist and Druggist, of Belleville, writes as follows:—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction."

New Jod and Fancy Dress Buttons, Mantle Frogs, &c., goods that Dress-Makers have trouble in finding, fresh this week at Turnbull's.

ANNIVERSARY OPENING AT "CHINA HALL."

On TUESDAY and WEDNESDAY, July 10th and 11th, CHINA HALL will celebrate its first anniversary by a GRAND DAY LIGHT and GAS LIGHT OPENING—each day from 8 A.M. till 10 P.M. We cordially invite everybody to attend this opening and note our remarkable progress.

It is now only one year since CHINA HALL was established in Peterborough as a venture, but owing to the kind and liberal patronage of the Peterborough and neighboring people, it is to-day one of the finest and largest stores of the kind in Canada. When we began business here, we determined to put the price of every article in which we dealt down to the VERY LOWEST FIGURE that it could be produced and sold for, and to build up a large trade on small profits, rather than a small trade on large profits. The result has been far greater than we ever expected, and to-day we can safely say that we are doing nearly the whole of the Crochery trade of Peterborough—a fact which means to the public still further reductions, as the more goods we buy, the cheaper we can buy them.

WE WOULD LIKE THE PUBLIC TO KINDLY NOTE THE FOLLOWING REVOLUTION IN PRICES:—

One year ago you were paying \$3.00 for White Tea Sets	Now you can buy them at China Hall for \$2.00
One year ago you were paying \$2.75 for White Chamber Sets	Now you can buy them at China Hall for \$2.00
One year ago you were paying \$4.50 for Colored Tea Sets	Now you can buy them at China Hall for \$3.00
One year ago you were paying \$6.00 for China Tea Sets	Now you can buy them at China Hall for \$4.50
One year ago you were paying \$1.25 for Cups and Saucers	Now you can buy them at China Hall for 75cts

These are FACTS that you should always remember, and give CHINA HALL credit for having reduced the price fully 50 per cent. on everything in their line, and you should also recollect that if CHINA HALL were not here, you would still be compelled to pay the above high prices. In conclusion we would again ask every person in the county to attend the GRAND OPENING on the above days, and see the magnificent stock we are now carrying. Our stock is the admiration of every one that sees it and is well worth visiting. We would therefore like everybody to come and look through. Kindly accept our thanks for your very liberal patronage during the last year.

MACFARLANE WILSON, DIRECT IMPORTER.

Daily Evening Review

SATURDAY, JULY 14, 1883.

Ice Cream.

Go to J. Craig's for Fresh Pastry, Ice Cream, Confectionery, &c., opposite Wrighton's store, George street.

Eye, Ear and Throat.

Dr. G. S. Ryerson will be at the Oriental Hotel, Peterborough, on Saturday, the 11th of August, when he may be consulted respecting all diseases affecting the eye, ear and throat.

Look Out for Them.

The Chief of Police received a letter yesterday from Mr. R. Wynn, of Brighton, asking the police to keep a watch for some goods that were stolen from his store on Saturday night last, consisting of ladies' and men's shoes, manufactured by S. D. King, Toronto. The ladies shoes were of French kid.

Turnbull's Grass Linens at 12½ cents, need only be seen to be appreciated.

Midland Railway of Canada.

The traffic of the above railway for the week ending July 7th, 1883, was, as follows:—Passengers and mails, \$3,223.37; freight, \$11,678.52; total, \$20,101.69, as compared with \$23,165.63 for the corresponding week of 1882, being a decrease of \$3,064.14; and the aggregate traffic to date is \$520,535.87, being an increase of \$17,731.06 over 1882.

Cricket Matches.

The Peterborough Cricket Club have arranged for two matches for next week, and they will take a journey, which will no doubt be a pleasant one, to play them. The first match will be with the Lindsay Club, and will be played in that town on Thursday, the 19th of July, and the second match will be played at Uxbridge, with the Uxbridge Club, on the 20th. We wish the Peterborough Club success in their matches.

Journalistic Nuptials.

The Port Hope Daily Guide of Friday contains the following:—

"**WEDDING.**—Married on Friday, 13th July, after a long and arduous courtship (where the course of true love ran in gentle ripples, or burst all bounds and stopped over according to the various moods that affected the high contracting parties), that staunch old Reformer, P. H. Guide, to that bright and sparkling lass, P. H. News. No cards. What money has joined together let no man put asunder. Bless ye, my children."

Complimentary Ball.

A complimentary ball was given in the Town Hall, Port Hope, by the O. Y. B.'s of that town on the evening of July 12th, in honor of the visiting brethren from Peterborough and other places, and a very enjoyable time was spent by those from a distance. The Peterborough brethren were well pleased with the kindness shown them by the Port Hope members, everything being done to make the visit as pleasant as could possibly be wished, which our boys hope to return at some future date. On the departure of the train from Port Hope at 11 p.m., on Friday, a number of the Port Hope members waited to see the visitors off. Three cheers were given by the visitors for the Port Hope O. Y. B.'s, and three for the Queen.

Lacrosse Match.

A treat is in store for those who are fond of seeing a good lacrosse match. In order that the citizens might have the privilege of seeing a first-class match, and partly to compensate them for the disappointment occasioned by the non-appearance of the Victorias on Dominion Day, the Peterborough Lacrosse Club has arranged for a match with the Maitlands, of Toronto, which will be played on the Ashburnham Cricket grounds on the afternoon of Thursday next. The Maitland Club is one of the best lacrosse clubs in Toronto, and as the abilities of the home club is well known, an interesting and exciting, as well as a most pleasing match in which skill will be exhibited, may be confidently expected. The ball will be faced at 3 o'clock in the afternoon.

Serious Franks.

Some persons endeavored on Friday night or early this morning to have some "fun," and several signs were removed from their positions. More serious damage than this, however, was done, as a box containing two marble slabs which was lying in front of Mr. Bolton's shop, was thrown into the street and one of the slabs, worth about \$9.50, was broken. Some loose paper in barrels in the rear of Messrs. A. L. Davis & Co.'s store was heaped together and set on fire, and when the clerk arrived at the store this morning it was still burning. Fortunately the fire was not communicated to anything else, although loose paper burning so close, within a few yards, of buildings, was no joke. Wanton destruction of property cannot be looked upon in any other light than a crime, and if those who thus disposed themselves are discovered, they will receive the due reward of their misbehavior.

Past Colored Cretonnes sold with a profit at 12 cents a yard at Turnbull's. 12½ cents a yard usual wholesale cost of these goods.

POLICE COURT.

DRUNK.

SATURDAY, July 14.—Robert Nicholls was charged by P.C. Pigeon with having been drunk in a public place. He had nothing to say in answer to the charge, and acknowledged that he had appeared once in the court before. He was fined \$2 or ten days in gaol and ordered to pay an old fine of \$2 standing against him.

The Test.

For the waterwork's test on Monday afternoon, the Fire Committee has appointed Mr. W. Law, and the company Mr. J. G. Machlin, to report on the result of the test.

The Hand Engines.

The hand fire engines have, in accordance with the resolution of the Town Council, been called in, but the whereabouts of one of them is unknown. Would the person who has charge of it be kind enough to inform Mr. Beavis where it is?

The Town Council.

A regular meeting of the Town Council will be held at 7.30 o'clock on Monday evening. The test of the waterworks will take place at five o'clock on that afternoon, so that the Councilors will have that event fresh in their minds when they assemble.

Separate School Election.

The nomination of trustees to serve on the Separate School Board in place of Mr. D. A. McDonald and Dr. Hourigan will take place at noon on Wednesday next, in the Central School. If polling is found necessary it will take place on the 25th of July.

Strawberry Social.

The St. Andrew's Ladies' Aid Society will give a strawberry social in the school and church grounds on Tuesday evening next. There will be strawberries, ice cream, music and other good things. The Fire Brigade Band is to be present, and Mr. J. Miller has promised to give some experiments in thought reading. Admission 15 cents. Refreshments extra.

The Weather.

The weather last night was cool and to-day is cool and partly cloudy. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 o'clock a.m., to-day, by the Great Northwestern Telegraph company, are as follows:—Moderate to fresh winds; generally fair weather, with local rains, mostly in the southern portion; stationary or higher temperatures.

Going Up Street.

Mr. Thos. E. Pope will on Wednesday next, the 18th of July, remove his store from the premises at present occupied by him to the store lately occupied by Miss Jenkins. Mr. Pope will, in the new premises, keep a large and well assorted stock of dry-goods and ready-made clothing, boots and shoes, etc., and in the larger and more convenient premises in the centre of the town he will be in a position to give his customers good satisfaction.

For Manitoba.

A party started this morning in the Midland official car to visit Manitoba and the North-West. The party will consist of Mr. A. L. Davis, of Peterborough; Col. Williams M. P. and son, of Port Hope, Mr. R. Jaffray and Mr. Mackenzie, of Toronto, and Mr. Barneby, of London, England. The car will be taken all the distance and the party intend to go to the furthest end of the Canadian Pacific Railway. Mr. Geo. A. Cox had intended to go also, but he was unable to leave on account of the pressure of business needing his attention.

Personal.

In the reports of recent examinations we find that Mr. G. W. McCall passed the matriculation examination at the Victoria University, Cobourg; Messrs. Hall and Smith passed in Latin, English and Mathematics in the Queen's College examination held in town by the Rev. Alex. Bell; Mr. Charles Beck passed the first year's examination in Arts in Trinity College with first class honors, and Mr. J. P. Eastwood passed the first year law examination for the degree of B. C. L. in Trinity College, Toronto.

Mr. J. A. Richardson, travelling passenger agent for the Grand Trunk, and Mr. T. Biezard, M. P. P., are at the Casino House.

For Stony Lake.

The Mail of July 13th has the following item under the head of "canoeing":—

"Four members of the Galt Collegiate Institute Canoeing Club, Messrs. Thos. Cameron, M. A., Colin Fraser, Hugh B. Fraser, and John N. McEldrich, passed through Cayuga in their canoes Monday evening, with flags flying. They left Galt on Tuesday afternoon, and reported having a very pleasant trip so far, though delayed a great deal by rainstorms. They intended leaving the Grand River at Dunnville, where they will enter the feeder, thence into the Welland canal to Port Dalhousie. They will coast along Lake Ontario to Whitby, where they will ship their canoes to Port Perry, from the latter point they will pass through Beugoy Lake, Scugog River, etc., northward, finally drawing up on the shores of Stony Lake, where they intend camping till September."

No unreasonable goods to clear at Turnbull's (reason why) our customers know we always sell cheap, and have come and bought in season.

A Message to all Mankind.

In these times when our Newspapers are flooded with patent medicine advertisements, it is gratifying to know what to procure that will certainly cure you. If you are Bilious, blood out of order, Liver inactive, or generally debilitated, there is nothing in the world that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle of Taylor & McDonald.

Healing Pills—Symptoms and Cure.

The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling about the parts affected. If allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for Tetter, Itch, Salt Rheum, Scald Head, Erysipelas, Barbers Itch, Blisters, all sorts of Skin Diseases. Sent by mail for 50 cents; 3 boxes, 1.25 (in stamps). Address, DR. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

New Jewellery Store.

Get your Watches, Clocks, Jewellery, all repaired at Hughan's New Shop. Remember the place, office lately occupied by E. Burnham, Simcoe street.

Smith's Market.

Strawberries every morning. Parties and festivals supplied at a moments notice. Berries picked on dry days for preserving; all orders will receive prompt and careful attention.

Cherries, Oranges, Lemons, Green Peas, Cucumbers, Tomatoes, etc.

Fresh Fish. Parties will confer a great favor by leaving their orders on Thursday evenings, as we find it utterly impossible to get over so large a tract of ground late Friday morning in time for dinner.

DR. CARSON'S Stomach Bitters free the system of the poisonous humors that develop into Kidney and Urinary diseases, give tone and vigor to the Stomach and purify the Blood.

A VOICE FROM THE UNITED STATES.—I have suffered for the last twenty years with Dyspepsia and General Debility, and tried many remedies, but with little success till I used Burdock Blood Bitters when relief was quick and permanent. A. LOUGH, Alpena, Michigan, U.S.

J. HACKETT

Daily Evening Review

MONDAY, JULY 16, 1883.

It is remarkable in how many instances the
policy for which Lord Beaconsfield was loudly
condemned, has been adopted by his critics.
We have a fresh example of this flattering
imitation in the fact that the Gladstone adminis-
tration is giving substantial pecuniary assistance
to the projected second Suez Canal, though its
members blamed Lord Beaconsfield for acquiring
control of the existing canal.

The *Monetary Times*, which certainly cannot
be accused of political partisanship, says:—
"It is a singular fact, to which we have already
drawn attention, and noticeable to anyone who
peruses our summary columns, that by far the
larger proportion of failures that have occurred
of late months, are those of new beginners,
clerks, farmers' sons, etc., who have been in-
duced to go into business by the good times of the
last few years. We elsewhere chronicle
three failures of this character."

It is evident the N.P. is not responsible for
such failures, whatever the anti-National
journals may say.

Government Railways.
The announcement that the Government of
Prussia has resolved upon buying the six principal
railways, thus increasing the state railway
system by about 3,000 kilometres and practi-
cally making the Government owner of the
whole railway system of Prussia, is of great im-
portance economically, as well as politically and
strategically. It will be recalled that Prince
Bismarck originally proposed that the empire
should be permitted to buy up all the German
railways, but his proposal was rejected by the
Reichstag. He then applied to the Prussian
Parliament for permission to buy up the Prus-
sian railways. He obtained it, and he has so
acted on the permission that he is now about to
become master of the whole Prussian system.
When this happens he will be able to dictate
terms to the railways of the smaller States.—
London Free Press.

Excited Thousands

All over the land are going into ecstacy over
Dr. King's New Discovery for Consumption.
Their outlook for recovery by the timely use
of this great life saving remedy, causes them to
go nearly wild in its praise. It is guaranteed
to positively cure Severe Coughs, Colds,
Asthma, Hay Fever, Bronchitis, Hoarseness,
loss of Voice, or any affection of the Throat or
Lungs. Trial bottles free at Taylor & McDon-
ald's Drug Store. Large size \$1.00.—2

MIDNIGHT TELEGRAMS

CABLE.

ZULULAND.

MARITZBURG, Natal, July 15.—Fifty corpses
of Zulu men, women and children were seen on
June 30, at White River, on the border of Zulul-
land. They had been massacred in their hiding
place by Cetewayo's followers. It is said Chief
Masepo has surrendered to the Boers.

TRANSPORT FACILITIES.

SIMLA, July 15.—The military authorities
have been instructed to make enquiries in
regard to shipping available for transport ser-
vice.

RIOTS IN FRANCE.

ROUBAIX, France, July 14.—A crowd as-
sembled to-day to protest against the recent
action of the Chamber of Deputies, rejecting
the motion to grant an amnesty to the Paris
and Monceau-les-Mines rioters, including
Louis Michel. The crowd previously attempt-
ed to invade the town hall, and the Police Com-
missary was struck on the head and is now in a
precarious condition. The mob was charged by
mounted gendarmie and six arrested, upon
whom a bludgeon and several revolvers were
found.

IRISH AFFAIRS.

ROME, July 14.—An article in *Rassegna*,
written with the consent of the Pope, reviews
the Irish question with the object of showing
that the policy of the Vatican has been consist-
ent throughout the present pontificate and for
a period long anterior. The article is emphatic
in its assertion of the principle contained in the
Pope's letter to the Irish Bishops.

THE SECOND SUEZ CANAL.

LONDON, July 14.—A meeting of ship-owners
at Newcastle condemned the Government's
agreement with De Lesseps. It seems certain
the House of Commons will reject the scheme,
and the Irish members will join the Conserva-
tives in opposing it. Thirty Liberals will vote
against it. A meeting of merchants and ship-
owners at Birmingham also condemned the
agreement between the Government and M. De
Lesseps. Fontane, Secretary of the Suez Canal
Company, in an interview, confirmed the re-
marks made by M. De Lesseps, that he (M. De
Lesseps) was indifferent as to whether England
accepted the agreement relative to the second
Suez Canal. He declares that speculators were
opposed to the agreement and were interested
in their own schemes. He said no English canal
was possible because M. De Lesseps had obtain-
ed a complete concession, to interfere with which
would be robbery. M. De Lesseps, he said, was
determined to carry out his programme with or
without English help. If such help was refused,
British ship-owners would suffer, for the tolls
would be higher.

A HUNGARIAN HOLOCAUST.

PESTH, July 15.—At a large fire at Lipto-
zentmillo to-day a number of persons lost their
lives. Eight corpses were extricated from the
ruins. Twenty persons, including the Prefect
of Police, are missing. Many were rendered
homeless.

AMERICAN. CROPS DAMAGED.

LONG BRANCH, July 14.—The storm yesterday
did great damage to the crops, fruits and berries.
Several farmers in this section lost from \$500 to
\$1,000 each.

THE CIVIL SERVICE.

NEW YORK, July 14.—The *Times* Washing-
ton dispatch says that for several weeks past
there has been great excitement in the Govern-
ment department to fill all vacancies, so that
when the civil service act takes effect Monday
there will be no vacancies.

HAIL STORM.

THARVILLE, Nev. July 14.—The severest hail
storm ever witnessed came yesterday. The
ground is white, grain was scattered, corn stip-
pled and much glass in the town broken.

A CUBAN GENERAL'S MISSION.

NEW YORK, July 14.—Gen. Rowen Boracheo
has just arrived here to organize an expedition
against the Spanish forces in Cuba.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

CAREY'S HOUSE IN DANGER.

DUBLIN, July 16.—An attempt which was
thwarted by the police, was made yesterday to
set fire to the house here of James Carey, the
informant.

AMERICAN.

A LUNATIC BEATEN.

MORRISTOWN, Pa., July 16.—James Gaffrey,
of Lancaster, N.Y., an attendant at the in-
sane asylum here, is charged with terribly beat-
ing an inmate, N. A. J. Fies, of Philadelphia,
recently. Gaffrey has fled.

SUSPECTED ELOPEMENT.

WREKLING, W. Va., July 16.—Cora Sandford,
daughter of a wealthy farmer, is missing. It is
rumored that she has eloped with her father's
illiterate negro coachman.

A PRIZE FIGHT.

PHILADELPHIA, Pa., July 16.—James Carter,
of Camden, whipped Ed. Smith, of Philadelphia,
in a prize fight yesterday in nine rounds for \$80.

RICHES SOON SPENT.

ERIE, July 16.—Chas. Hill, a Cleveland
compositor, who recently fell heir to \$100,000,
spent it in spreeing. He came to Erie and is
charged with stealing a pair of shoes and an
umbrella yesterday.

THE BROOKLYN BRIDGE.

NEW YORK, July 16.—The treasurer of the
Brooklyn bridge says that the present toll rates
will not pay a quarter of the interest on the cost
of the bridge.

A BOOK SUPPRESSED.

NEW YORK, July 16.—A book written by the
Rev. Father Corrigan, pastor of the Catholic
Church at Hoboken, has been suppressed by
Bishop Wiggins, because it claims that the
priests should nominate the bishops.

FACTORIES BURNED.

CAKATO, Minn., July 16.—Among the build-
ings burned on Saturday are the sugar factory,
knitting factory, and carding mill elevator.
There is no fire department in the place. It is
believed that lightning struck the boarding
house, where the fire originated.

THE NEXT PRESIDENT.

NEW YORK, July 16.—The *Times* devotes
seven pages to reports from 344 places in the
country concerning the presidential candidate.
Eighteen Republican candidates are named.

Of 524 places expressing preference, 224 favor
three Republicans, Blaine having 108, Arthur
64, and Edmunds 52. Lincoln stands promi-
nently among the leaders. Of the Democrats
Tilden leads with 215 in his favor as the first
choice, and McDonald comes next with 72½
points to Tilden's 120. Bayard has 31½ points,
and Butler comes next. Thurman has a very
modest support, and the field follows.

A ROMANTIC ELOPEMENT.

NEW YORK, July 16.—R. C. Quinson, a young
Jersey City lawyer, a fortnight ago met Miss
Bell Barton, of York, Pa., who, with her sister,
was visiting Jersey City. Quinson and Miss
Barton fell in love, although the latter was
betrothed to a wealthy old bachelor in York.
The aunt decided to take the girl home. Miss
Barton arranged to meet Quinson at the cars
and elope. On Saturday just before the train
started a bogus telegram was given to the aunt,
which called her out of the car, when the lovers
jumped into a carriage and fled and were
married.

A CORONER AND NEGROES.

NEW YORK, July 16.—While the coroner was
taking the body of a dead negro from Passaic to
Paterson for interment yesterday, a story was
circulated that he intended to have the negro's
hide tanned in Paterson. A mob of negroes
pursued the coroner with wild cries, but he
got to the cemetery before them.

AN ELOQUENT MURDERER.

ELKHORN GROVE, Iowa, July 16.—A desper-
ado named Hardy, arrested for the recent mur-
der of postmaster Clinegan, was taken by a mob
to a bridge, where they intended to hang him.
He made a speech and said that he and his com-
panion, Crawford, who had been killed before
their capture, had formed a plan to turn robbers.
Hardy claimed that Crawford had done all the
killing. The prisoner spoke touchingly of his
mother and begged for justice, and finally the
crowd took a vote and it was equally divided as
to the lynching. Finally the sheriff was permit-
ted to take Hardy to jail. It is still believed that
he will be lynched.

WOODSTOCK, N. B.

Special to the Review, July 16.

MRS. RUTH RISTEN, who resided at Jack-
sontown with her mother, was found dead in
her bed yesterday morning.

MONTREAL.

Special to the Review, July 16.

A NUMBER OF FRENCH CANADIANS from this
city proceeded yesterday to L'Assomption, and
presented Madame Delormier, the widow of the
patriot, with a purse containing \$1,000.

OTTAWA.

Special to the Review, July 16.

THE PROSPECTS OF THE HOP CROP in this
district are poor, and the yield will probably be
far below that of average seasons. The cause is
the ravages of a small green fly, which has
almost stripped some of the weaker yards. The
acreage this year has considerably increased, but
the aggregate yield will be smaller.

KEMPTVILLE.

Special to the Review, July 16.

A BOY NAMED MORRIS GILL, about 17 years of
age, was killed this morning at the mill while
attempting to put a belt on a grind stone. The
belt slipped off and wound around the pulley.
Instead of having the engine stopped he tried to
kick the belt off. His foot caught and he was
dragged around the small pulley connected with
the driving wheel, breaking his limbs and badly
cutting his head.

GRAND FALLS, N. B.

Special to the Review, July 16.

YESTERDAY DAVID KENNEY'S HOUSE caught
fire and was partly burned. A large quantity
of straw, fir boughs and dry firewood was found
in the attic. A brick had been removed from
both chimneys and the holes filled with cotton
and wool. Matches and gunpowder were found
in the wool, all apparently saturated with
kerosene oil. Kidney was here for some time
in June last and made arrangements to rent a
house, and he now lives in St. John. A trap
door leading to the attic was nailed up and
papered over. The occupants state that it was
acclosed when they first took possession of the
house.

ST. JOHN, N. B.

Special to the Review, July 16.

WHAT CAME NEARLY BEING a very bad accident
occurred on Saturday on the Grand Southern
Railway, about two miles west of Lepreau.
A station train which consisted of two passenger
cars, two flat cars and a box car, was running
along at between fifteen and twenty miles an
hour. It was raining very hard at the time
and the ditches on the line were considerably
swollen. As the train turned a sharp curve in
the line, the engineer observed a short distance
ahead that the road bed had been washed away.
To attempt to stop was useless, as the distance
was too short. The only safety lay in crossing
the spot quickly, and opening the throttle valve
the engine passed over the spot without leaving
the rails. The train, however, proved too great,
and the tender sank down. In a twinkling the
box and flat cars were piled on the top of the
tender, but the passenger cars, although consid-
erably shaken, did not leave the rails. In the box
car were three performing bears and two Italian
men, but all escaped with only a few bruises.
As soon as they got clear of the wreck both men
and bears started out on foot for St. George as
quickly as their legs could carry them. None of
the passengers in the two rear cars were injured,
though there were a few narrow escapes. A con-
struction train which was following the regular
train, arrived on the scene soon after the acci-
dent, and took the passengers back to Lepreau,
where dinner was served. The fireman received
slight injuries.

With pure blood contagious fevers and other
diseases have no hold on the system. Dr. Car-
son's Stomach Bitters render the blood pure and
cool. For sale by all druggists. Large bottles
50 cents.

DRESSMAKING!

Mrs. COMPIGNE,
Costumier & Mantle Maker

From LONDON, Eng., formerly with Mrs. Wensley, Court Dressmaker, Brook St., Hanover Square; Baker & Crisp, Regent St.; and J. Branscombe, Mare St., Hackney.

Every attention given to Style and Fit. Ladies may rely upon no effort being spared to secure the Newest and Most Fashionable Styles. 227 Juvenile Dressmaking a specialty.

SHERBROOKE STREET,
Opposite the South Ward School.

Daily Evening Review

MONDAY, JULY 16, 1883.

POLICE COURT.

ASSAULT.

MONDAY, July 16.—A. McNeil was charged with having assaulted R. Hamilton, and was fined \$5. A charge of abusive language was dismissed.

Ice Cream.

Go to J. Craig's for Fresh Pastry, Ice Cream, Confectionery, &c., opposite Wrighton's store, George street.

Piano Tuning.

Mr. George I. Gumprecht, tuner for Messrs. Mason & Risch, Toronto, is in town, and will attend to any orders left at T. Menzies' bookstore or Taylor & McDonald's Drug store.

Watches and Jewellery.

Anything in the Watch or Jewellery repairing line left at Hughson's New Shop, Simcoe street, office lately occupied by E. Barnham, will be promptly attended to; charges moderate.

The Town Council.

A regular meeting of the Town Council will be held at the Council Chamber at 7.30 o'clock this evening. Waterworks and railway matters are among the questions which it is expected will be considered.

No. 1 Company.

All persons having any part of the equipment of this company in their possession except rifles in use for association practice are required at once to return the same to Sergeant Scollie at the Drill Shed.

A New Steamer.

The steamer Golden-Eye will run an excursion to Gore's Landing on Thursday, when a new steamer will be launched. It is not often that our citizens have an opportunity of seeing a boat launched, and no doubt many will attend the excursion to witness the ceremony.

Lacrosse.

A meeting of the managing committee of the club will be held after the practice this evening to select the team to play on Thursday afternoon with the Midland. The boys should gain all they could by practice during the time that is left them for that purpose, as they will have a strong team to meet.

Strawberry Social.

The St. Andrew's Aid Society will give a strawberry social in the school and church grounds on Tuesday evening next. There will be strawberries, ice cream, music and other good things. The Fire Brigade Band is to be present, and Mr. J. Miller has promised to give some experiments in thought reading. Admission 15 cents. Refreshments extra.

Creditable to All.

The Orilla Packet has the following remarks on the A. C. A. meeting at Stony Lake, and the pamphlet concerning it:—

"An attractive little pamphlet has been issued by the committee who have charge of the American Canoeing Association affairs in Peterborough and the details of the Stony Lake camp. It is like all Review work—neat, substantial and typographically correct. The cover bears the red and white pennant of the Association. A deal of information, of value to those who propose visiting the camp, is contained in the work. It is mainly intended for placing in the hands of members from a distance to give them a choice of routes to make the camp by, and to ensure direct communication. A cleverly drawn map is enclosed in the book, tracing the most available routes to the camp. The sailing and paddling rules of the Association are also included. The whole thing is creditable to the committee and the printers."

Railway Notes.

The Mail says that a meeting of the general freight agents of Canada was held in Toronto on Friday morning at the Windsor Hotel in order to consider the best means of adopting a uniform classification for freight throughout the Dominion. All the roads in Canada but five, the Intercolonial, Canada Southern, Passumpsic, International, and New Brunswick, were represented. These stated that they had not received sufficient notification. Mr. John Porteous acted as chairman and Wm. R. Dowle as secretary, and after sitting for some time without coming to any definite conclusion, the following sub-committee was appointed to further consider the important question:—Messrs. John Earle, R. Dowle, S. Bosworth, R. Kerr, A. White, and A. E. Chittenden. The committee then decided to adjourn until the 24th inst., when they will meet at Belleville. In the meantime communications will be opened with the other railways not represented in order that a representative meeting may be held about the middle of August.

The Free Press says that up to July 4th the Midland Elevator Company handled over 320,000 bushels more grain than up to the corresponding period of 1882.

A new through line from Chicago to New York by a combination of portions of the Lake-ward, Walash, Grand Trunk, and Baltimore & Ohio has been found. It will be 914 miles long, at least 6 miles less than any other existing line.

PORK PACKING.

Improvements Made in Mr. George Matthews' Establishment.

Since the erection of the large pork packing establishment on George street by Mr. Matthews, improvements have been made to enable him to carry on the business to a greater advantage, and one of these improvements—a large refrigerator—was tried by practical use last week.

Early in the year an ice house was erected filled with ice. It was built in the rear of and adjoining the main building, and is 44 feet by 20 feet and 22 feet high.

A more important improvement was the building of a refrigerator inside of the main building. A partition wall will be built across the first floor of the establishment, enclosing a space of 36 feet by 46 feet, and in this space the refrigerator will be enclosed. The refrigerator, which has been completed and filled with ice, is 25 feet by 16 feet, and nine feet high. The walls are of three-ply felt and wood. The ice chamber is above this, and its size is 4,600 cubic feet, and it holds 80 tons of ice. The refrigerator having been built against the eastern wall of the establishment, where the ice house joins the main building, the filling of the ice chamber is easily done. A door opens into the ice house, and the congealed water is drawn through the door from the one place to the other. The floor of the ice chamber is laid with tin, and any water caused by the melting of the ice is at once conducted outside. In the walls there are air chambers or flues, which carry the cool air below, and through which the warm or cool air is conducted.

In the cellar a space of 44 by 46 feet is partitioned off, and the temperature is kept down by these streams of cool air. The floor of this portion is of brick placed on its edge and laid in cement, and it is in this that the pork is salted and packed in the summer.

The refrigerator proper, in first floor, will contain about seventy or eighty hogs. This forenoon, when we visited the place, the thermometer inside stood at 36 degrees above zero, or three degrees above the freezing point, and in the cellar it registered 40 degrees. On Wednesday last hogs were slaughtered and placed in this cool place, and it proved to be capable of preserving the hogs in all their freshness as long as required. The ceiling of this room is McCallum's patent.

An engine house, the stone for the foundation of which is now on the ground, will be erected this summer. It will be on the south side of the main building, and will be 33 by 13 feet. It will be a brick building, and a new engine and boiler manufactured by Mr. Wm. Hamilton will be put in, the present engine being also retained for use.

A slaughter-house will also be erected south of the main building. It will be 47 by 13 feet, and a door will open from it into the refrigerator. It will be furnished with all the modern and labor-saving appliances for the slaughter of hogs, after the models of the Chicago slaughter-houses. It is intended to slaughter hogs in the summer for the purpose of packing, but in the winter months it is expected that the supply of dressed hogs brought to market by the farmers and coming from other sources will be sufficient without killing in the establishment. The business of this industry, new to Peterborough, is progressing finely, superintended chiefly by Mr. Wm. Matthews, son of the proprietor.

The Cells.

The police cells were tenanted both on Saturday and Sunday night.

Petitions for Fine Weather.

The continued rain is affecting the crops unfavorably, and on Sunday evening prayers were offered in St. Peter's Cathedral, St. John's Church and several other churches in town for fine weather.

The Test Postponed.

Owing to the blowing out of one of the lead joints on the mains this morning, the test which was to have been given by the Waterworks Company this evening will be postponed for a day or two.

Personal.

The Ottawa Free Press has the following item in reference to one of our townsmen who has left Peterborough for the North-west:—

"Mr. E. H. D. Hall, who was some time ago appointed C. P. & L. Land Agent at Moosejaw, has also been appointed agent for the sale of Hudson Bay Company's lands."

The Rev. Father Lynch, of Litchfield, and formerly of Peterborough, is in town.

The Weather.

Considerable rain fell on Sunday morning and the day continued cloudy. At about 9 o'clock the clouds broke up, and to-day is clear and bright, with a breeze. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 o'clock a.m., to-day, by the Great Northwestern Telegraph company, are as follows:—Light to moderate winds, mostly south and east; generally fair, warm weather.

Fugitive.

This forenoon the sight of two men locked in each other's embrace, but not in a friendly way, attracted quite a crowd on George street, near the corner of Charlotte. The elder one of the two loaned the other 75 cents, but immediately afterwards repenting of his liberality, he asked to have it returned. This was refused, and they proceeded to a yard in which to settle the affair in an honorable encounter at fistfist. But a truce was arranged, and the opposing forces resumed the apparel they had cast off so as to leave their arms free to pound each other's head. The truce, however, was of short duration, for the again kindled in the old man's heart and fire flashed from his eyes. The younger man fled from the yard to the street, but he was closely pursued and soon caught. Then began a "rough and tumble" fight, and hair and whiskers suffered. But the older man went under, and after considerable noise had been made and several blows had been given, the combatants were separated.

THE ONTARIO AND QUEBEC BRIDGE.

To the Editor of the Review.

Sir—It is hoped that the Council will to a man act vigorously and resolutely to stop this embankment and bridge without a swing while there is yet time—for it can still be stopped if sufficient pressure be brought to bear—and that the whole town will back up the Council. It is a shame that it has been allowed to go so far, but it will be a greater shame if we do not yet stop this outrage.

CITIZEN.

New Jewellery Store.

Get your Watches, Clocks, Jewellery, all repaired at Hughson's New Shop. Remember the place, office lately occupied by E. Barnham, Simcoe street.

Smith's Market.

Strawberries every morning. Parties and festivals supplied at a moment's notice. Berries picked on dry days for preserving; all orders will receive prompt and careful attention. Cherries, Oranges, Lemons, Green Peas, Cucumbers, Tomatoes, etc.

Fresh Fish. Parties will confer a great favor by leaving their orders on Thursday evenings, as we find it utterly impossible to get over so large a tract of ground late Friday morning in time for dinner.

P. B. C. and A. C. A.

As it is expected that many members of the Boating Club will take part in the A. C. A. camp and regatta it is time that they should get their canoes in thorough order, with sails, &c. All canoe owners are requested if possible to turn out to-morrow, Tuesday evening, on the Little Lake. If there be a wind a sailing race will take place. Otherwise there will be a canoe parade and drill and perhaps some races. On returning to the boat house at 9, a short meeting will be held to arrange for further practice and sailing races. All members owning canoes are requested to give in their names to the captain with the names of their canoes so that a complete list of canoes may be prepared.

Personal: To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Dr. Carson's Stomach Bitters free the system of the poisonous humors that develop into Kidney and Urinary diseases, give tone and vigor to the Stomach and purify the Blood.

Practice economy by using the Triangle Dye. Perfect in both dark and light shades. Ask for three colored package. 10c.

An extra heavy lot of Nun's Veiling at 25 worth 35
cents.

A very heavy line of Debeige at 25 worth 35 cents.

Come and see my Black Brocades at 25 and 35 cts.

Very heavy Colored Brocades at 15 and 20 cts.

Very fine quality of Grenadines at 50 worth 60 cts.

Colored Cashmeres 1 1/2 yards wide at 50 worth 60 cts.

A large variety of stuff goods at 8, 10 and 15 cts.

Black Silk at 85 worth 120 cents.

Black Silk at 105 worth 150 cents.

Black Silk at 125 worth 175 cents.

Black Silk at 140 worth 200 cents.

Heavy Stripes Muslins at 8, 10 and 15 cts.

Good Prints at 4 cents.

Best 10 cent line in Peterborough at 7 cents per yard,
warranted to wash.

Extra heavy Print at 9 worth 150 cents.

3 pair of good heavy Hose for 25 cents.

Table Oilcloth, wide width, at 25 worth 50 cents.

Denims at 10, 12, 15 and 20 worth 15, 20, 25 and 30 cts.

Cotton Tweeds at 18, 20 and 25 worth 25, 30 and 35
cents.

Come and see the prices of my Cotton Shirtings, they
will surprise you.

Spanish Lace at 12 1/2, 15, 20, 25, 30, 35, 40 and 50, worth
40 per cent. over these prices.

Lace Window Curtains by the set from 55 cents per
window up.

Large Towels over a yard long at 5 cents each. Extra
heavy and large 8 cents.

Best quality of Halifax Towels at 50 and 55 cents,
worth 65 and 75 cents.

Large White Bed Spreads at 100 cents worth 125, also
at 110 and 120 worth 140 and 160 cents.

SOLD FOR COST!

And I also wish you to bear in mind that these
Goods are all Genuine Goods, and not bought merely to
advertise for. I will give you a first-class article for
the same money that other houses will give you an
inferior article for. Do not fail to call early while you
have a good selection to choose from. Come early in
the day and avoid crowding in the evening.

REMEMBER THE PLACE—One Block North of

Daily Evening Review

TUESDAY, JULY 17, 1883.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

MINISTER TO LONDON.

PARIS, July 17.—Waddington has been ap-
pointed ambassador to England in place of
Tissot, who resigned on account of ill health.

THE TURF.

LONDON, July 17.—Keene's bay colt Potomac
won the race for the all aged Maiden Plate, at
the Great Yarmouth meeting to-day.

THE DISK SPREADING.

ALEXANDRIA, July 17.—The cholera is spread-
ing generally throughout the country. The
Sanitary Commission is taking steps to isolate
Alexandria. 28 deaths occurred at Damietta
yesterday, 38 at Monourah and 15 at Samanoud.

A BRITISH SHIP ABANDONED.

LONDON, July 17.—The British ship West-
minster, from Quebec, on June 15, for Liver-
pool, was abandoned water-logged on the 12th
inst. The crew has arrived at Liverpool.

THE CHOLERA IN CAIRO.

CAIRO, July 17.—The sanitary commission
have determined to purify Cairo and isolate the
houses where the cholera appeared. If the dis-
ease takes a firm hold it is probable it will be
allowed to take its course. General pre-
cautions will be taken to check its progress. The
cordons around the affected places are useless
and will probably be removed. It is believed
that many scattered cases occur in the villages
daily which the natives conceal to avoid the
imposition of the cordons.

STANLEY IN GOOD HEALTH.

LONDON, July 16.—A steamer arrived from
Congo river reports Stanley in good health.
Five of the Belgian members of his party have
died.

AMERICAN.

LOOKS LIKE A STRIKE.

NEW YORK, July 17.—A prominent member
of the Western Union executive committee said
this morning that the operators' demands could

not be granted; that the company was paying
\$20,000 daily for salaries, and that if its
employees could do without it the company was
disposed to let them try it, and that the present
time, when business interests were all depressed,
was as good as any to settle the matter. The
operators say that they will insist on their
demands, and that they will not give the com-
pany a list of those who demand the increase.
It looks like a strike. The Western Union
officials state that telegrams published in the
morning papers purporting to come from two
directors of the Western Union advising a com-
promise were forgeries.

A CUSTOMS SEIZURE.

NEW YORK, July 17.—Ten trunks full of fine
dry goods belonging to a passenger on a ship
from Alaska were seized yesterday by the
customs officers. The goods are said to be worth
\$30,000.

DAMAGE BY A STORM.

MILWAUKEE, July 17.—A storm yesterday
damaged many frame residences in the out-
skirts. One was blown over and several build-
ings were struck by lightning. A house and
barn were burned.

DEATH FROM HEAT.

NEW YORK, July 17.—Five sunstrokes, one
fatal, were reported yesterday.

THE CIGAR MAKERS' STRIKE.

NEW YORK, July 17.—To-morrow, unless the
striking Cigar makers return to work, 15 of the
most important cigar factories in the city, em-
ploying 7,000 men, will stop work, turning out
the union men and non-union men alike.

THE OPERATORS.

NEW YORK, July 16.—It is not believed that
anything will be done in the case of the tele-
graphers before the meeting of the Western
Union Executive Committee to-morrow.

DROWNED HIMSELF.

NEW YORK, July 17.—Edwin Woodbury, re-
cently an inmate of a lunatic asylum, drowned
himself at Armitville yesterday, by holding his
head under water in a creek.

A CYCLONE IN INDIANA.

NOBLESVILLE, Ind., July 17.—A cyclone yester-
day demolished Loftin & Evans' large pork-
packing establishment. It carried away the
cupola of the Presbyterian church, and unroofed
several buildings.

HEAVY DAMAGES CLAIMED.

NEW YORK, July 17.—A suit has been begun
in Brooklyn by Riddell Brisbane against Geo.
Bryan for alleged libel in charging the plain-
tiff with bigamy. The damages are laid at \$50-
000. The action springs out of the domestic
difficulties of Albert Brisbane, the defendant's
brother.

ARTHUR WISHES ANOTHER TERM.

NEW YORK, July 17.—The Times' Wash-
ington despatch says it is generally understood in
Washington that Arthur would be glad of re-
nomination, and desires to conduct the adminis-
tration so as to deserve it. Blaine is not believed
to be hostile to Arthur.

HE WOULD BE OBEYED.

COLUMBUS, Ohio, July 17.—A man named
Stewart, from Mobile, ordered supper at an
hotel last night. Not receiving prompt atten-
tion he drew a revolver and ordered the waiter
to bring the meal at once. Stewart was
promptly served and then arrested.

CROOK WAS CAPTURED.

NEW YORK, July 17.—The World's Wash-
ington despatch says that Crook at the conference
with the Government officials in Washington
admitted that he had been practically captured
by the Chiricahuas and had only succeeded in
getting back by bringing them with him, prom-
ising to put them back on the San Carlos reser-
vation. Crook explained that he did not take
enough troops, and the Mexicans proving un-
faithful, he was in hot water from the time he
crossed the border.

SUSPECTED SUICIDE.

NEW YORK, July 17.—J. C. Nobles, of Atlantic
Highlands, N. J., has disappeared. He
was a letter to the Tribune indicating suicide.
He was many years ago one of the most popular
Methodist clergymen in western New York,
but he became intemperate and left the minis-
try. He reformed and went into several suc-
cessful business enterprises.

A FAMILY POISONED.

NEW YORK, July 17.—John Jones, of Brook-
lyn, and three children, were poisoned yesterday
by eating stale corned beef and cabbage. They
were all sent to a hospital and will recover.

GARFIELD'S NOMINATION.

PHILADELPHIA, July 17.—Wharton Barker
says that he proposes to write a history of the
movement which led to Garfield's nomination.
He says the charge that Garfield was not true
to Sherman is absolutely false.

TWO CLAIMANTS.

MOUNT GILEAD, Ohio, July 17.—A man and
woman from Peru, Ind., arrived here, claiming
to be the legitimate children of the eccentric
Daniel Burns, who died a few months ago, leav-
ing \$150,000, which his brother and brother-in-
law have been appropriating.

TOM THUMB'S DEATH.

MIDDLEBORO, Mass., July 17.—Tom Thumb's
death was very unexpected. He had just risen
from his bed and was alone when stricken. The
Knights Templar will have charge of the fu-
neral on Thursday. The casket will be en-
closed in solid masonry, to prevent the disturbance
of the grave by robbers.

MIDNIGHT TELEGRAMS

CABLE.

JAPAN DECLINES TO FIGHT.

PARIS, July 16.—It is reported that Japan
has declined the proposition made by M. Tricou
to enter into an alliance with France in order to
oppose China.

THE ROUBAIX RIOTERS.

PARIS, July 16.—The Roubaix weavers on
strike have been rioting, and the troops have
been called out. The police acted promptly,
and it was only after the commissary had been
wounded, and they were left without a com-
mander that the military were called in. Six of
the leaders were arrested.

THE REVENUE OF FRANCE.

PARIS, July 16.—The revenue of France for
the first half year is 28,000,000 francs below the
sum estimated in the budget. The imports into
France during June increased 61,000,000 francs
as compared with June of last year. The ex-
ports decreased 21,000,000 francs for the same
period.

MILITARY CONSPIRATORS.

MADRID, July 16.—The officers arrested in
the northern part of Spain consist of a captain,
four subalterns, and nine corporals. They will
be court-martialed for their connection with
delayed plots, which it is supposed were insti-
gated by Zorilla.

POLICE COURT.

FALSE PRETENCES.

TUESDAY, July 17.—Francis Charon, a young
man, was charged with obtaining money under
false pretences from Thos. Menzies.

From the evidence it appeared that Charon
on Monday had presented a time ticket, given
by a foreman on the "Missing Link" to J.
Gilbert, to Mr. Menzies and asked to have it
cashied. Charon represented that he was
Gilbert, and endorsed the time on the back by
making his mark to the name J. Gilbert. After-
wards Gilbert came into town and enquired at
Mr. Menzies' whether such a time had been sold
there, and on learning that such was the case,
and receiving a description of the man who sold
it, Charon was arrested. Charon positively
denied having sold the time, and said that he
had not been in Mr. Menzies' but after the
evidence was heard it was so conclusive that he
was convicted. He was sentenced to six months
in gaol at hard labor.

DRUNK.

J. Baker was charged with having been
drunk, and pleaded guilty. He was allowed to
go.

The Cells.

The police cells were occupied last night by
two prisoners and one tramp.

Ice Cream.

Go to J. Craig's for Fresh Pastry, Ice Cream,
Confectionery, &c., opposite Wrighton's store,
George street.

It Still Continues.

The terrible system of dog poisoning, to which
we have before referred, still continues, and
several reports of valuable canines having been
killed in this manner have reached us. The
latest case is the poisoning of a good watch dog
belonging to Mr. J. W. Flavelle, which occurred
to-day. Cannot some means be adopted to put
a stop to this?

Personal.

Mr. S. S. Peck, of Haliburton, registered at
the Cascade House yesterday afternoon, and Mr.
G. Wheeler, M. P., of Uxbridge, was at the
Oriental Hotel to-day.

Messrs. James F. Stenson, W. G. Ferguson,
and Thomas Esterbrook, have departed on a
trip to the Old Country. They will sail to-
gether in the steamer State of Nebraska from
New York.

The Weather.

To-day is warm and partly cloudy, with a
strong breeze. The weather probabilities for
this district for the following 24 hours, as re-
ported from Toronto at 1 o'clock a.m., to-day, by
the Great Northwestern Telegraph company,
are as follows:—Fresh to strong winds,
shifting to west and north-west; fair, warm
weather, with a few local rain and thunder
storms, followed by slightly cooler weather, and
fine weather to-morrow.

A Rare Chance.

To any one wishing a beautiful family resi-
dence within the town and at the same time
having almost the seclusion and advantages of
the country, a rare chance is offered by Mr.
Cluxton's offer of his present residence, the par-
ticulars of which will be found in our adver-
tising columns. Being on

Daily Evening Review

TUESDAY, JULY 17, 1883.

FACTORY LEGISLATION.

BECAUSE the Factory Bill was allowed to stand over till the next session of the Parliament of Canada, this delay of one year is indignantly condemned by the Reformers, who, while in power for some years at Ottawa, never troubled themselves to legislate in favor of the factory operatives, whose cause they now pretend to espouse. We must admit, however, that they were not altogether illogical in this inaction, since they may have reasoned that it was useless to legislate for factory operatives in Canada, while the policy of the party was to foster manufacturing abroad and to discontinue it at home.

The Review has been taken to task even for suggesting that the delay might be useful if employed in considering the detail of the required measure, and for remarking that even the factory operatives were not always in favor of the restrictive legislation passed for their protection by the Conservatives in Great Britain, for there, as in Canada, it is the Conservatives, not the Liberals, who are the friends of the workmen.

In the *Nineteenth Century* for June Mr. Archibald W. Finlayson discusses the subject of factory legislation as connected with the falling off in trade in Great Britain, and we will quote from him both to show that we had grounds for our statements, and that the subject is one that still needs discussion.

Our author says:—
"About nine years ago certain parties, either to gain popularity or actuated by philanthropic but misguided motives, proposed a Nine Hours Bill. In 1874 the late Government took up the question and passed an Act for 'Improving the Health of Women and Children in Factories.' Operatives were by no means unanimous in supporting this measure, as we read in the Commissioners' Report to the Local Government Board that among the women especially there is a considerable amount of apathy." And Mr. Baker, inspector of factories, in his report, said: "Very few women, comparatively, appear to want it. The originators of the movement are men." This Act reduced the hours of labour in factories from sixty to fifty-six hours per week, and thus struck one fifteenth part off the entire manufacturing power of the country, as it stopped spinning, the producer of all the yard from which textile fabrics are made, and speeds of spinning could not be increased to make up for the loss of four hours per week. Foreigners buy the same machinery from our best makers, drive it fast, and work seventy-two hours against our fifty-six hours per week."

Further on Mr. Finlayson says:—
"In the report of Mr. Baker, Chief Inspector of Factories, from which Sir Richard Cross quoted so largely in support of his 1874 Bill, it is stated that 'the medical commissioners have summarized the greatest grievances of the cotton workers as follows:—
1. High temperature; 2. ventilation; 3. dust; 4. bad sanitary arrangements; and 5, in the weaving departments from the effect of overworked yarn.'"

Our author does not only point out evils, but he suggests remedies. He says:—
"Parliament has never been guided by any definite principle; and now I venture to suggest a system which would stop this spasmodic haphazard legislation."

"First, the existing restrictions on the labor of adults should be reconsidered, and Parliament should fix, say, 60 hours per week, or any other time based on medical testimony, as the maximum working hours of women; after that legislative interference should stop. Further changes should be left to be brought about by ordinary economic and proper causes."

"Second, I would classify factories, the same as we classify ships, and make medical inspectors affix bills on the door of each room, stating whether it is first, second or third class. This would warn operatives what rooms to avoid, or demand higher wages for working in inferior rooms. It would stimulate mill-owners to employ fans for the removal of dust, to ventilate, and otherwise improve their factories in order to secure the highest certificate."

"The present system, or rather want of system, of legislation has the very opposite effect. A manufacturer has no encouragement to erect a fine, well-aired factory, and no inducement is given to him to improve his works, as he knows not the day when a Government may pass an act reducing hours to such an extent as to render his business, however healthy, wholly unremunerative, and perhaps compel him to close his works altogether, and throw him on the world without compensation."

"It is manifestly unfair to reduce the hours of labor in jalsalal works such as those at Saltaire, with arguments founded on evils existing in wretched hovels of workshops in Black Country towns."

Without venturing upon an opinion as to the maximum number of hours for a question which must be settled by the operatives themselves and by experts, we may express our cordial approval of the proposal to classify factories, and so to give proper credit to those manufacturers who make due provisions for the health and safety of their employees. These and many other points may be profitably ventilated before next session, so that a measure may be passed, which, without unduly restricting trade or reducing the output of the factories and the wages of the operatives, may be for the welfare of this important and fast-growing class of our population."

As to the contention of a Reform journal, that this is a matter for provincial legislation, such an absurdity is worth no serious refutation. It is the Parliament of Canada whose duty it is to protect our factory operatives, and we trust that they will do that duty in an intelligent and thorough manner."

NORTH WEST NOTES.

To the Editor of the Review.

DEAR SIR, The journey from Winnipeg eastward on the newly opened line of the C. P. R. is interesting in many respects. The first thing noticeable in the appearance of the country is the gradual change from prairie to woodland. The poplar bluffs, as the groves are called because they are generally on the higher ground, are more numerous, and the intervening spaces of prairie have more than is usual of scrub or bushes. Farther on the groves increase in extent and the spaces grow less; the trees also increasing in size with the extent of ground covered. Still to those who have seen the great forests of Ontario the timber seems insignificant. After a journey of 40 or 50 miles we begin to see the rounded weather worn heads of occasional Laurentian rocks, as they are geologically called. It is the same formation which extends throughout the northern part of our country from the Gulf of St. Lawrence, from whence comes its name, to this part of Manitoba. The change of timber now becomes more marked. The evergreens begin to occupy the landscape, and the grass retains sole possession only in the lowest meadows. The prevailing poplar of the west still claims a place, but the Jack pine spruce and tamarac are lords of the now more scanty soil. This Jack pine is a species unknown in Ontario; the trunk resembles the Norway or red pine, except that the bark is darker in color, and has a rough, dead appearance; there is a much thinner sapwood, which is quite an advantage. The heart wood is heavier and darker in color like tamarac. The foliage resembles white pine, but the leaves are short and scanty, giving the tree a stunted appearance; it never grows large and is very suitable for ties and small timber.

As we progress on our journey the country assumes the appearance of a nearly unbroken forest. The slender conical tops of the spruce growing thickly in the hollow slopes of the rocky hillsides makes the landscape decidedly picturesque. Here, too, begins the lake region of the country. It is lakes to the right and lakes to the left and lakes to the front and rear. They cover about one-fourth of the whole surface, are of all sizes and shapes, but are generally long and narrow. The waters are never muddy like prairie rivers and lakes, but are always translucent, though sometimes brown in color from the peaty gawms, from which they come.

This is the country that calls out the skill of the railway engineer. There is not 40 rods of straight level track on the surface anywhere to be seen. Deep short rock cuts, then, treadle work over the end or neck of lakes. Next we seem to be clawing along the side of a high cliff, then through a short, then over a seemingly bottomless muskeg, or peat bog, and so on ad infinitum.

Stations are few and far between. Workmen's deserted shacks are plentiful enough, their dilapidated appearance and the burned portions surrounding, give much of the road the air of desolation. There is also yet much to be done in the way of levelling and ballasting the roadway.

Keewatin is a thriving looking place, springing up with this new mining. We can't call it an excitement, for there is none. Like nearly everything else now in the Northwest, it takes the shape of business. Keewatin has also a few good lumber mills.

Rat Portage is another quite lively place, 3 miles from Keewatin, and 140 from Winnipeg. Land and water here seem to have an expanded capacity for population. The Red river here debouches into Lake of the Woods, and is a source of considerable water power. Some of our hopeful, knowing ones say this is to be the Minneapolis, or milling place, of the Canadian North-West. Mr. Peter Sutherland, a large flour dealer of Minneapolis, argues the question in a manner that is deserving of great consideration. He says that wheat should be converted into flour as near to the place of production as is at all convenient; thereby retaining in our own country the labor and capital necessary to accomplish this, and then we ship only the really valuable part of the wheat; reducing the amount to be paid in freight and the general percentage of expense to income. And that grain and flour can be much more advantageously shipped by water than by rail, and quotes the rates to prove it, which the Review has frequently done. And there are only three water routes from the west to the east; the Canadian, the Erie canal and the Mississippi. The latter has two great drawbacks—the length of the journey and the warm climate, both of which are very much against the shipment of flour. The Erie has the disadvantage of quite a limited capacity. The Canadian route has the advantage of large capacity, short distance and the coolest climate, which, with wise regulations, must always secure for it the lion's share of the trade. He thinks that Rat Portage will ultimately be at the head of lake and canal navigation, and being near the eastern end of the wheat producing country, and having its great advantages of power, that it is specially calculated to be a great milling centre. We almost fear these predictions will be forgotten before they are accomplished. Rat Portage no doubt will at least be one of the many places where wheat will be turned into flour between the prairies and the sea.

This country is not all rocks and rivers, lakes and bays. On this north shore of Eagle lake, where I now have temporary occupation, 300 miles from Winnipeg, 230 miles from Port Arthur (the new name for Prince Arthur's Landing), there are respectable portions of passably good land. At Eagle River Station there are several thousand acres of good clay soil, well situated.

A few of the residents here farm two or three islands a short distance out in Eagle lake. They have good soil, are free from summer frosts and bush fires, and require no fencing. Potatoes and vegetables compare the extent of their crops, which are said to be excellent.

There has been very little rain this spring, and bush fires are beginning to rage. It is lamentable to see the beautiful green woods ruined and decimated. Sometimes it is accomplished by one big conflagration. Generally, as a "new process," miller would say, it is by "gradual reduction." First the fire goes quietly through, and consumes what is lying on the ground, with the lighter and drier portion of the soil, leaving the green trees standing over the blackened waste beneath. In this condition a strong wind readily blows them over; or, if left standing, the leaves and brush fall off, till material accumulates for another fire. The poor Old's howl dies away to the faintest echo among its own friends.

The timber men and Indians come in for a share. Settlers are not to blame, for they have no voice.

This is all finished or according to the Old's the difference between A. The great trouble is that it is neither, people don't think it worth a passing remark. The poor Old's howl dies away to the faintest echo among its own friends.

It is a shame the despised territory, about which so much pretty patriotic indignation has been wasted. Well, the country is not going to the dogs on account of the despots. It has two

masters to look after its welfare—Hon. Oliver Mowat, the Hon. John Norquay has a fatherly eye over the moral habits of the people; and like a true Norwester he never forgets business, but couples it with discipline. He believes in heavy fines. The Rat Portage authorities make frequent raids on liquor sellers and others, in this direction, reaping a small harvest of fines each time. A \$100 fine is not uncommon. A few days ago an individual of the "Solid Dove" variety was arrested and fined sixty dollars, to meet this she only had forty dollars. Sympathy produced the balance and she was freed from the cruel clutches of the law to gather some more for another raid.

The Winnipeg authorities pursued a similar course last year. Fines amounting to four or five hundred dollars were not uncommon at one time, but they carry the war into Alaska and make it a war of extermination, certainly with better results.

Seriously, however, the sooner this boundary dispute is disposed of the better for all concerned. People here do not seem to care much which way it goes so that it is settled.

Yours, &c.,
W. H. TROUT.
Vermillion Bay, July 7th,
Manitoba or Ontario, 1883.

The Premier and the Boy.

Mr. Gladstone is fully aware of the influence which a personal courtesy from the Prime Minister exercises over the ordinary British mind, and he never loses a chance of using that personal influence to win a friend for his party. Not long ago a small Westminster school boy was standing by the refreshment bar in the House of Commons, when Mr. Gladstone walked up to him and asked him his name. Having satisfied himself on this momentous question the Premier next enquired as to his politics. The small boy had no politics, but he knew who his interlocutor was, and what his politics were, so he replied promptly enough, "I'm a Liberal, sir." And what progress do Liberal ideas make in your school?" continued the great man. "They are flourishing rapidly, sir," said the diplomatic boy, though he had not the least idea what "Liberal ideas" were. On hearing this Mr. Gladstone grew more benignant than before, and "Would you like my autograph?" he suggested. On hearing that his small acquaintance would like it very much, he took out a pencil and a piece of paper and wrote on the refreshment bar:—"Yours, with best wishes for your future, William E. Gladstone." And from that day to this the boy has been a staunch Gladstonian Liberal.

Convincing Proof.
Having suffered from rheumatism for a long time I was induced to try your Arnica and Oil Liniment. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine.
I am yours truly,
W. H. DICKSON,
218 St. Constant St., Montreal.
To Henry, Johnsons & Lord, Montreal.
Arnica and Oil Liniment is sold by All Drug Gists.

Bucklen's Arnica Salve.
The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancer, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

A VOICE FROM THE UNITED STATES.—I have suffered for the last twenty years with Dyspepsia and General Debility, and tried many remedies, but with little success till I used Burdock Blood Bitters which was quick and permanent.

Daily Evening Review

TUESDAY, JULY 17, 1883.

TOWN COUNCIL MEETING

TWO HOURS SPENT CHIEFLY IN DISCUSSING RAILWAY MATTERS

The Ontario and Quebec Bridge—The "Missing Link" Junction—Does the Town own Midland Street?—Charity Committee—The Auditors' Report—The Town Time-Communications and Accounts.

A regular meeting of the Town Council was held on Monday evening.

Present—Acting Mayor Menzies in the chair, and Councillors Cahill, Davidson, McNaughton, Kelly, Sawers, Douglas, Rutherford, Denne and Paterson.

The reading of the minutes of the last session was dispensed with.

COMMUNICATIONS.

From W. H. Moore, saying that he was instructed by Mrs. McNamara to call their attention to the fact that a switch and siding for the Midland Railway had been put in on Bethune street, near Townsend street, opposite her property, and asking that the Council insist on the railway taking up the switch and siding.—Received.

From F. E. Bell, asking for street improvements of Hunter street, east of Sheridan Terrace.—Street and Bridge Committee.

From W. Stock, recommending Mrs. Faulkner as a candidate for relief.—Referred to Councillor McNaughton, with power to act.

From M. O'Brien, asking for a butcher's license.—Granted.

From W. Cluxton and others, calling attention to the state of the drain on Hunter street, and asking that a brick cylinder drain be constructed, to be paid for by local taxation.—Received.

From W. B. Wilson and Lockhart & Chown, asking to have property purchased, so that they would have access to their property.—Street and Bridge Committee.

The following accounts were read and ordered to be paid when certified to, except the two last, which were referred to the Finance and Fire, and Water, and Gas Committees:—

Times Printing Company..... \$21 25
T. Sargison, drawing hand fire engines... 1 00
J. Henry, whitewashing police calls... 2 00
B. Morrow, groceries for charity..... 12 00
P. McNamara, extras on fire stable..... 68 00

CHARITY.
Councillor SAWERS read the report of the Charity Committee, recommending that the account of J. W. Flavell be paid.—Adopted.

ONTARIO AND QUEBEC BRIDGE.
Councillor SAWERS read the report of the Special Committee on the Ontario and Quebec Railway Bridge:—

The report recited the action of the Town Council of 1882 in adopting a report of the Street and Bridge Committee in October, granting permission to the Company to erect a bridge, without a survey, and in passing a resolution in the November following, rescinding that action and protesting against the bridge being built without a survey. The chairman of the Committee had obtained from the Department a copy of the agreement between the Government and the Railway Company, which was dated 2nd December, 1882, but appeared to have been executed on the 30th of June last, which agreement accompanied the report. The solicitors of the railway had furnished a sketch of the bridge, which also accompanied the report. The Committee considered that the agreement between the Government and the Railway did not protect the interests of the town, and it appeared that this corporation was not to have a vote in the question whether the railway company shall at any future time be compelled to put in a swing. As the Committee was only appointed to report on the condition of affairs they have not considered what should be done, but would recommend that immediate action be taken to have this very important matter put right.

Councillor SAWERS pointed out that the bridge would only be 34 feet above the high water mark of 1870, 7 feet above the ordinary high water mark and 10 feet above the low water mark. He moved, seconded by Councillor DOUGLAS.—That the report be received, and a copy sent to the Minister of Railways and Canals, and that a committee be appointed to consider the best way of protecting the interests of the town, to consist of Councillors Cahill, McNaughton, Paterson, Douglas and Denne.—Carried.

THE "MISSING LINK" JUNCTION.
Councillor SAWERS read the report of the special committee, to which had been referred the petition of Mr. R. Kingan in reference to the junction of the "Missing Link" with the Midland Railway at the corner of Bethune and Brook streets.

The report said that the chairman of the committee, on the 10th instant wrote to the President of the railway requesting him to appoint a day to meet the committee, and that they requested to have to report that no notice whatever had been taken of the said letter or of the matter by the railway authorities, and the committee was of opinion that the said authorities did not intend to take any action in the matter. The committee further reported that the said crossing is a very dangerous one and that the line of the railway is a great obstruction to the street, and had been obstructive contrary to the statute in that behalf, and also that the railway had not received the consent of this or any former

council to construct the line according to its present condition, but on the contrary the committee had been informed that the attention of the railway authorities has been repeatedly drawn to the said crossing. Under the circumstances the committee begged leave to recommend that the Street Inspector be directed to immediately remove the line of the said railway at said crossing, and put the street in its former condition.

Councillor SAWERS moved the adoption of the report.

Mr. Geo. A. Cox was, on motion, heard and said that he had explained to Mr. Kingan that as soon as they commenced to use this line they would deal with him. The reason was that the present line might not be used, as the engineers had already been instructed to survey a new line, in which case the property would be purchased. The new line would pass through Mr. Kingan's lot, and on to the property belonging to the railway. While he was doing all that he could to being business here, the company was constantly annoyed in this way.

Councillor CAHILL said that the matter had before been referred to the Street and Bridge Committee and Mr. Cox then told them that he would settle with the parties interested, and Mr. Cox now said they would settle with them before the track was used. The Council would be taking a great responsibility on itself in adopting the recommendation of the report.

Mr. KINGAN was also heard and contended that the railway had given him great cause for complaint, as it was doing great damage to his property. Nothing had been done to put the road in proper state. He had written to and called on the President of the road and he had put him off. Cars were passing on the line most every day. The injury had been done to his property, and he had been waiting for months for redress.

Councillor McNAUGHTON believed that Mr. Kingan was only asking what he was entitled to. No buggy or wagon could drive across the switch.

Councillor DENNE said it was the duty of the council to protect the people. If Mr. Kingan was willing to accept what Mr. Cox had stated, the matter might be allowed to remain over.

Councillor DOUGLAS said that perhaps Mr. Cox would set some date by which time the question would be settled whether they would use this line or not.

Mr. COX said he contended that they had done no damage as yet. If only the planking and graveling of the crossing was wanted now, he would have it done to-morrow. He had assured Mr. Kingan that they would settle with him before the trains were run over the road. He was more interested in the town than in the railway, and wished to deal fairly with both, he believed he had done. There had only been a few cars shunted in on the track. The town would have been willing to give the road a bonus, and it would pay the Council to provide a free way into the town for the line.

Councillor RUTHERFORD said that Peterborough was fortunate in getting railways without paying for them. The Midland Railway had been annoyed in different ways. They would not be acting in a good way if they adopted this report to get into the good graces of the company, and get the workshops located here. Mr. Kingan should be paid for what damage he sustained, but he failed to see that his property had yet been greatly damaged.

Jeopardizing the Council carry out the recommendation of the committee. He defied anyone to say that Mr. Cox had ever gone back on his word to the Council. He suggested that the matter be laid over for further consideration.

Councillor KELLY said that Mr. Kingan was satisfied to have the matter laid over for a reasonable period.

Councillor PATTERSON moved, seconded by Councillor CAHILL.—That the petition of Messrs. Kingan, Rowe and Lundy be referred to the Street and Bridge Committee to see if the complaints could not be amicably settled.

Councillor CAHILL asked that Mrs. McNamara's name be inserted in the motion, which was done. He favored the motion, and would like to see half a dozen more railways come here, but he had never favored anything that would injure anyone's property, for which they received no compensation.

Mr. COX said that the siding referred to by Mrs. McNamara had only been put in temporarily, to carry ties for the Ontario and Quebec Railway.

Councillor PATTERSON's motion was carried.

THE MIDLAND STREET.
Councillor SAWERS moved, seconded by Councillor DOUGLAS.—That Messrs. E. Pearce and C. D. Macdonald, who were appointed to look into the matter of the claim of the town to sit in the Midland railway, be requested to report to this Council at their earliest convenience.

Councillor DENNE said that it was a difficult question, and the gentlemen whom the matter had been referred should have sufficient time to look well into it.

Mr. COX said that the town in the first place took £30,000 of stock in the old road, and then exchanged it for a mortgage on the road. They would do better to hold the mortgage than to try to obtain the stock, although the railway would be pleased to exchange the stock for the mortgage.

Councillor SAWERS said that the committee appointed to examine the question had done so, and they should report.

Mr. COX said that anything he could do to aid them in reaching a conclusion he would be willing to do. At the same time he must state that the claim was a fact.

The motion was carried.

THE TOWN TIME.
Councillor PATTERSON moved, seconded by Councillor RUTHERFORD.—That Mr. McClellan, caretaker of the town clock, be requested to keep the town time the same as the railway time.—Carried.

THE AUDITORS' REPORT.
Councillor SAWERS moved to draw the attention of the Chairman of the Finance Committee to the fact that the Auditor's report for 1882 had not been finally examined and passed by the Council.

After some further discussion the matter dropped.

Councillor CAHILL said that the Treasurer had told him that some one had protested against his paying any account which they were passed by the Council. If the Council adjourned for any length of time it would cause a difficulty with the street pay lists.

The CLERK said a motion had been passed authorizing him to pay the street pay lists. The Council then adjourned for one week.

Excited Thousands.
All over the land are going into ecstasy over Dr. King's New Discovery for Consumption. Their unlooked for recovery by the timely use of this great life saving remedy, causes them to go nearly wild in its praise. It is guaranteed to positively cure Severe Coughs, Colds, Asthma, Hay Fever, Bronchitis, Hoarseness, loss of Voice, or any affection of the Throat or Lungs. Trial bottles free at Taylor & McDonald's Drug Store. Large size \$1.00.—2

FOR SALE.

A DESIRABLE PROPERTY

The Residence of the undersigned, BLOCK B, on Simcoe St., containing ONE ACRE, having a street frontage on all sides. There is an Artesian well of pure spring water at a depth of 40 feet and 50 feet, and Spring Water pipes brought into the kitchen; also, Hot and Cold Water and Gas, Bath Closets with Marble Washstands in Bath Room and Butler's Pantry. The Plumbing was done by a Toronto house, and cost \$1,000. The Brick Building is expensively finished, with low down grates and heavy marbled mantles. The carpenter work is finished in oiled chestnut wood from the States. The soil is loam, on a clay bottom—no gravel, and is a very early garden. To make a complete mansion, all that is necessary, if desirable, would be to build a brick front of three walls in place of the present rough cast, on the existing stone basement to connect with the brick building in the rear.

The size of the Building is 65x45. The situation is healthy, on rising ground, separated from other properties by the streets, and offers a rare opportunity for a family requiring a beautiful home.

Terms—One-fourth cash, balance can remain for a term of 5 or 10 years, at buyer's option.

Daily Evening Review

WEDNESDAY, JULY 18, 1883.

A FALSE REPORT.

To the Editor of the Review.

Sir,—Please say in your paper that the report now raging in Peterborough is not true about me.

Millford, July 12.

W. R. LUNDY.

The Princess's Paintings.

Princess Louise has promised to send a number of her paintings both in oil and water colors to the Boston foreign exhibition next October. Captain Bagot, her secretary, writes that her Royal Highness desires "to recognize the pleasant time she had in Boston last winter."

Will Visit Canada.

It is announced that the Earl of Carnarvon will sail for Canada on the 23rd of August. Lord Carnarvon was Secretary for the Colonies in Lord Beaconsfield's Administration, and is Canada and British Columbia known as the Carnarvon terms. Lady Carnarvon accompanies him.

A Narrow Escape.

Three hundred excursionists, principally women and children, crossing from Point Claire to Beauséjour, on the St. Lawrence, had a very narrow escape on Sunday evening. In landing, the pilot missed the channel and ran the bow of the steamer on a reef, and were it not for the coolness and presence of mind of the captain, who prevented a threatened panic and had the vessel run into shallow water, many lives would have been lost. As it was all over safely landed.

Rough on the Judge.

A good story is going the rounds as to how some of the Division Courts are conducted in some places at times. A certain judge, a stranger, went into the rural districts, and kept his appointments as laid down for him. At one station he was astonished to find no court, no clerk, no anything, in fact, except a note from the clerk, informing him that he had adjourned the court for one day, as he wished to go to Ogdensburg to attend the 4th of July celebration. This somewhat astonished his Honor, but his astonishment was further increased when he found a similar document awaiting him at the next place he had to attend.—Perth Reporter.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

THE CANAL SCHEME.

CONSTANTINOPLE, July 18.—The Porte has addressed a note to Egypt, France and England, demanding that any agreement for the construction of a new canal be submitted to the Sultan.

THE RIFLE TEAM.

LONDON, July 18.—The Revision scores of the American riflemen on Thursday and yesterday for the cup and £50 shows that Van Huren is victor, with a score of 172 against Joiners' 163.

WEXFORD ELECTION.

DUBLIN, July 18.—At the polling for members of Parliament for Wexford borough to-day there was considerable animosity shown towards the Liberal candidate, the O'Connor Don, who was hooted as he drove through the streets. Sexton, M. P. for Sligo, was present in the interest of Redmond, the Parnellite candidate, and implored the people to preserve order. Notwithstanding his interference the windows of the O'Connor Don's committee rooms were smashed. Many police arrived during the afternoon. The election resulted in a victory for Redmond, who secured 307 votes against 125 for the O'Connor Don. After the result of the polling was declared the O'Connor Don drove along the main street under an escort. The party was pelted by the mob. The police charged with bayonets fixed, and several persons were wounded, one being pierced through the lungs. Thirty policemen were injured, twelve seriously. Some policemen were knocked down and trampled upon. Healy and Sexton finally undertook to restore order and the police were withdrawn. In a speech this evening Healy said the police acted savagely.

THE CHOLERA.

ALEXANDRIA, July 18.—The number of deaths from cholera yesterday in Damietta were 18, in Monassrah 45, in Menzaleh 42, in Samouad 22, in Chobar 11, in Cairo 17 and in Talha 6.

AMERICAN.

HE DID NOT BUY THEM.

SHARON SPRINGS, July 18.—Vanderbilt denies that he has bought Sir Philip Miles' collection of paintings.

A DENIAL.

ATLANTIC CITY, July 18.—Secretary Lincoln denies the sensational despatch to the effect that Gen. Crook confessed to having been captured by the Apaches. Lincoln says that the Crook campaign was highly satisfactory.

A DARING OUTRAGE.

GALVESTON, July 18.—A Laredo special says that Doctor Campbell, the American consul at Monterey, arrived at Laredo on the 11th inst., leaving the consulate in charge of the Rev. Mr. Shaw. Despatches have been received notifying Campbell that on Monday night his office was entered by a mob of Mexicans. The Rev. Mr. Shaw was beaten nearly to death and the furniture and papers belonging to the consulate were destroyed. The information creates a profound sensation at Laredo. The citizens deplore the rupture, but consider it an insult so bold that the United States must resent it. An employee of the Mexican National Railway just arrived says that Mr. Shaw, after being beaten senseless, revived sufficiently to crawl to one of the public hotels and give an account of the outrage, but in a few moments he again became insensible and at last reports is still unconscious.

THE ANTI-CHINESE LAW.

BOSTON, July 18.—The captain of the British barque Erne was arrested for violating the new Chinese law in permitting Chinese ship carpenters to land here. The Chinamen have now been discharged from service.

THE BROOKLYN BRIDGE DISASTER.

NEW YORK, July 18.—Eight more suits for damages for injuries at the time of the accident on Decoration Day were begun yesterday against the trustees of the Brooklyn Bridge. Over 30 suits have been brought, claiming half a million damages.

THE CIGAR MAKERS' STRIKE.

NEW YORK, July 18.—The Cigar manufacturers have arranged to close their shops this afternoon, throwing out over 7,000 cigar and bunch makers, 3,000 packers and trippers and others. The manufacturers have appointed a committee to look after their interests. They claim that the Union would practically run the business if they were permitted to operate.

HANGED HIMSELF.

PHILADELPHIA, July 18.—John Harlett, a well known citizen, a victim of intemperance, hanged himself yesterday.

A WIFE BEATER ARRESTED.

PHILADELPHIA, July 18.—Barney Franklin was arrested yesterday for beating his wife, probably fatally. They were only married three weeks.

A BOLD ROBBERY.

BURLINGTON, Iowa, July 18.—Bridget Lee, who lived alone in a house sheathed with iron, was reported to be rich. Yesterday two men knocked her down in her yard and took \$1,500 from the waist of her dress.

BREWERY BURNED.

NEW YORK, July 18.—Schell's brewery was burned this morning. Loss, \$20,000.

A YOUNG BRIDE.

DALLAS, Texas, July 18.—Peter Wright, aged twenty, and Ada Maye, aged thirteen, eloped and were married. On Sunday the parents of the girl concluded to accept the situation, and withdrew the charge of abduction.

A JUDGE ASSASSINATED.

NEW YORK, July 18.—The Tribune's Washington despatch says that terrorism still exists in Jefferson, Texas. The assassins of Judge Hanch openly defy the authorities. The Attorney-General has been appealed to for aid, and the charge is made that the mob are being tampered with at Jefferson. Hanch's horse was first shot and the rider plucked on the knees in the road until a match could be lighted to see if the right man had been secured. In the midst of his earnest entreaties for mercy for the sake of his wife and children, the ruffians killed him.

A COMPROMISE IMMINENT.

NEW YORK, July 18.—It was announced that a committee of the Telegraphers' Brotherhood would wait on the officials of the Western Union at 11 o'clock to demand an answer. Up to 11.30 o'clock none of the committee appeared. A meeting of the directors of the company will be held at 12.30, and the result will probably not be known for an hour later. At noon to-day the chief operators of the Western Union office went about asking each operator if he meant to strike or stay. The most of them refused to answer. It is stated on fair authority that the company will probably concede the demand respecting the better hours of work, and will give a 5 per cent. increase in salaries. It is believed that this compromise would be accepted.

MIDNIGHT TELEGRAMS

CABLE.

ENGLISH POLITICS.

LONDON, July 17.—The Daily News warns the Liberals not to land themselves to hasty action against the Government in regard to the Canal scheme. It says the meeting of the Liberal Ministry would bitterly disappoint all Reformers in the country, which might eventually be drawn into antagonism with France. It adds that there is no mistaking the seriousness of the situation.

AMERICAN.

A SWINDLE.

CINCINNATI, July 18.—A man named Crawford made contracts with railways for the shipment of crockery to the far west. When the packages arrived he obtained small sums from the railways to pay the advance charges. The packages were not claimed and proved to be filled with rubbish. The swindler got the benefit of the advance charges.

"Saves Her; She is My Wife."

Mutual affection is a beautiful thing, and every fresh exhibition of its tenderness affects us to tears. A wife—possibly an old wife—on a certain occasion fell overboard. The husband rushed frantically about the deck, literally tearing his hair out by the handful and crying in the most heart-rending tones, "For Heaven's sake save her, save her; she is my wife!" The noble sailors thought of their own sweethearts and ran all risks, and at last brought the poor woman into the cabin of the swooning husband. The look of gratitude he gave them fully repaid them for all their efforts. Then, recovering his equanimity, he thrust his hand into his wife's wet pocket, pulled out a somewhat plethoric purse, and, with infinite relief, said:—"Old woman, the next time you tumble overboard just leave that purse behind, will you? You scared me almost to death."

Teeth Ruined by Drinking Water.

A well-known dentist called the attention of a reporter to the effects of Allegheny River water on the teeth of a large portion of our citizens. He stated that there were more persons afflicted with white decay or crumbling teeth in this vicinity than in any other city in which he had practiced. The tooth of those afflicted with this disease were generally very white and they gradually crumbled into powder. He attributed the great prevalence of white decay here to the absence of lime in the drinking water. People suffered from acidity of the system, and lime was the alkali which would benefit them. In the eastern portion of Pennsylvania, or rather in countries where the people drank "hard" water, they generally had hard and sound teeth, but in communities where "soft" water was used, the opposite result was found. He advised the drinking of lime water by people troubled with white decay.—Pittsburg (Penn.) Commercial.

Salt for Dairy Cows.

A correspondent of the Breeder's Gazette in referring to this subject says:—

"Dairymen are doubtless somewhat annoyed at times by their stock chewing or attempting to chew bones and scraps of lumber. There is no time in the year when young cows are so crazy for something of this sort as in June and July. Of course the appetite continues during the summer, and is worse with some cows than with others. A great many dairy farmers entertain the mistaken belief that the fact that a cow chews bones is an evidence that she has a depraved appetite. This is not so. I have found in my practice that when an animal chews such things she is suffering for salt. I have seen half a dozen cows, out of twenty, each with a bone in her mouth, when all they wanted was a more liberal supply of salt. I have seen farmers run after their cows to take bones from them, because they thought they injured the cows. I do not think such is the case. Give cows salt every day in the week, and put it where they can have access to it at all times, and see if they still persist in chewing bones. I do not think they will. I have effectually cured my herd of this habit in this manner; and I now take care that they do not have to chew bones."

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Sirocometer, the wonderful invention of Dr. M. Souville of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above-named diseases every year. Write, enclosing stamp for list of questions and copy of International News, published monthly, which will give you full information and reliable references. Address, International Throat and Lung Institute, 173 Church Street, Toronto; 13 Phillips Square, Montreal, P. Q.; 61 Lafayette Avenue, Detroit, Mich.; or 106 Alexander Street, Winnipeg, Man.

Personal to Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

MECHANICAL SPEECH.—Experiments have been made by M. Lefort on the production of vowels and whispered speech. Air is blown into a cavity of variable capacity, open and closeable at the upper part. The sounds characteristic of vowels are thus produced. The author claims to prove the vowels are not timbres (as generally taught); they are notes of different heights of the instrument of speech (quite distinct from the vocal instrument). Vowel timbres may be communicated to them by action of the muscles of the organ of voice.

DR. CARSON'S Stomach Bitters free the system of the poisonous humours that develop into Kidney and Urinary diseases, give tone and vigor to the Stomach and purify the Blood.

WITH pure blood contagious fevers and other diseases have no hold on the system. Dr. Carson's Stomach Bitters render the blood pure and cool. For sale by all druggists. Large bottles 50 cents.

The colors of the Triangle Dyes are so beautiful and their use so simple, they lead the dye market of the country. 10c.

A. L. DAVIS & CO.

Daily Evening Review

WEDNESDAY, JULY 18, 1883.

In the Halton election case the petition against Mr. Kearns, the Conservative member, has been dismissed. This makes the second Conservative member of the Ontario Legislature who has been confirmed in his seat by the court. Two Reform members are in the same position.

We are told that we cannot expect to have a Registrar for the County of Peterborough appointed while the Premier is away in England. Yet we learn from the Ontario Gazette that a Registrar has been appointed for the district of Parry Sound in spite of the absence of Mr. Mowat.

The Waterloo Chronicle endeavours to show that the boundary question should not be submitted to the Privy Council says—

"Mr. Mowat for the Province, submitted the matter to arbitration. The Government of the Dominion agreed to that submission and an award was made."

If the Chronicle had some dispute as to its property and we submitted the matter to arbitration for it, would it be bound by the result? Of course not, and the same with the boundary question. The law gives the Chronicle and not us the right to submit its differences to arbitration or the courts, and the law gives the Legislature, not Mr. Mowat and Mr. Mackenzie the right to alter our boundaries. It is a legislative not an executive matter. The executive had no more power to bind us than we have to bind the Chronicle.

Some Canadian journals, which prefer the interests of the United States to those of Canada, have complained of what they call a new customs regulation, that imported goods are to be valued at the market price in the country from which they are directly imported. Far from being new, this system of valuation was adopted more than six years ago. It was established by the Mackenzie Administration, and we believe that in this instance they were perfectly right. Section 31 of the Customs Act of 1877 says that "In all cases where any duty is imposed on any goods imported into Canada, ad valorem, or according to the value of such goods, such value shall be understood to be the fair market value thereof in the principal markets of the country whence the same were exported directly to Canada."

TRAVELLERS BEWARE.

A recent issue of the Toronto Evening News contained the following paragraph, which, having verified by experience, we transfer to our columns for the benefit of those of our readers who may be thinking of taking a trip to Montreal by water, and with the suggestion that the managers of the company referred to could with advantage, apply to the manager of the steamer Hero—which runs between Kingston and Belleville—for instructions how to provide a reliable meal at a moderate price. The News says:

"It should be known that the cheap fares offered by the Ontario and Richelieu Navigation Company are not without a serious catch. The company get people on their steamers by the offer of a cheap trip, and then proceed to tempt them at the tables, which are now run on the European plan. A gentleman who went down the route to Montreal the other day handed to a News reporter a bill of fare which would make the hair of anyone short of a bank manager stand on end. It is one of the most startling pieces of cupidity ever perpetrated, and to a hungry guest must possess all the elements of a sensational novel. Under the heading of breakfast he finds: 'Boiled Mackerel, 30 cents; Fish-balls, 25 cents each, with other fish in proportion.' Boiled eggs are 25 cents, but there is a suggestive allusion as to whether this means one or a dozen. Scrambled eggs are 30 cents, while corned beef hashed is 25 cents. But the reader does not come to the really sensational part of the story until he reaches the chapter on steaks and cutlets. There he finds what is designated as a 'Porterhouse steak, extra,' set down at \$1.25. Tea is 10 cents and coffee the same figure. Water is not on the bill, and it is presumed that for this item there is no charge. In regard to dinner it is merely necessary to give the prices of the accompaniments to show that the story does not rest in interest towards the dinner. Soup is 15 cents, mashed turnips, 10 cents (turnips just now cost about \$1 a ton); pudding, 10 cents; pie, 10 cents, and so on. The gentleman who handed us the bill of fare does not know what a full meal would cost, as he preferred to stint himself rather than be eucheried out of more than \$1.50. Not only are the prices outrageous for each item but the servings are so homoeopathic in size that it is necessary to order most of the articles on the menu before the cravings of one's innards are stayed. Another item which the verdant traveller might be foolish enough to consider as being covered by his ticket is his berth. This is extra, but for sitting on a pile of tarry ropes with a pair of light pants on no charge is made. Persons travelling by this route should sell a house and lot before committing themselves to the treacherous waves and raging stevedores."

THE CIRCUS WAS THERE.

A List of Burglaries and Theft Committed
in the City of Belleville.

On Saturday morning two burglaries were committed in this city, and one in Sidney. The first reported was that by James A. Vandervoort. He lives on Dundas street, near the corner of the city. His house was entered and a plain gold ring, one with an emerald, a gold watch, a gold pocket watch (chain), a gold necklace, and a gold ticket and cross taken away. They also helped themselves to the pastry and other dainties which were in the cellar. The store of Mr. C. F. Smith was entered before daylight by the rear (the upper windows of the premises had been left open)—and a number of fine revolvers and plated cutlery carried off. Mr. S. T. Wilcox, Reeve of Sidney, has occasion to regret his visit to the city, as during his presence here some persons visited his house and took away a gold watch and chain and a revolver, and rummaged the house generally. There is no clue to the perpetrators of the above acts, but time may reveal something. George Wolvern, who resides on the Hamilton road, reported the loss of some clothing and a gold watch, which were stolen from his premises last night. A horse was driven away from the Duff House on Saturday without the permission of the owner, who became greatly excited over his loss. His recovery has not yet been reported. Michael Welch visited the city on Saturday to see the elephants, and on Sunday he was on a couch at the Ontario House, and when he awoke on Sunday morning two silver watches had disappeared from his vest—so he says—and \$5 was absent from the right hand pocket of his pants. A man who visited the circus ground alleges that his watch chain was cut and his timekeeper abstracted from his pocket. Several light losses have also been reported. —Intelligencer.

CANADIAN BEEF IN ENGLAND.

It is thought on this side of the Atlantic that the resolution passed last week by the House of Commons declaring in favor of prohibiting the importation into Great Britain of live cattle from countries where the foot and mouth disease prevails will be acted on at once. Sir Charles Tupper's cablegram stating that Canada, Norway, Sweden and Denmark will still have the access to the English live stock market seems to lend colour to the supposition.

Under the new arrangement, if indeed it has been arrived at, the American cattle exporters, who have already been prevented from sending cattle into the heart of England, will be still further restricted. Instead of having to slaughter their cattle at the point of embarkation they will be compelled to kill them before they leave the American shore. In other words, the dressed meat export trade must, so far as the United States is concerned, take the place of the live cattle trade. That this will be so profitable a business as the live cattle business is problematical. The change in the regulations whether it be only threatened or really effected—is not, of course, received with a great degree of enthusiasm by our neighbors. They look upon it as an attempt to protect the English cattle raisers from the competition of the cheap beef of the Western States. There may be something of this in it. Though they talk a good deal about freedom of trade on the other side of the Atlantic they dearly love a little bit of protection. The prohibition, however, cannot be aimed specially at the United States, as three other large exporters of cattle to England also come under it. These are the Netherlands, Spain and Schleswig-Holstein. Nor can it be said that it is entirely protective, though it may have a tendency in that direction, for three large cattle producing countries, Canada, Norway and Sweden, and Denmark, will still be able to send their cattle to the British market. Whatever the object of the new arrangement may be, whether it be to protect the British cattle raisers or really to prevent the introduction and spread of the foot and mouth disease in England, it cannot fail to have an important bearing upon the Canadian live stock exporting trade.

Last year 325,164 live cattle landed in England. The countries whence they came were the following:—Denmark, 68,365; Spain and Portugal, 54,077; the Netherlands, 50,005; United States, 47,686; Canada, 32,371; Schleswig-Holstein, 29,806; Norway and Sweden, 24,659. If the prohibitory arrangement for which the House of Commons voted last week came into force the United States, the Netherlands, Spain, Portugal, and Schleswig-Holstein, who furnished England with 181,766 cattle last year, will be excluded from the market. Upon Canada, Norway and Sweden, and Denmark will then devolve the pleasing duty of making up the deficiency thus created. As Sweden, Norway, and Denmark already export to England as heavily as they can, Canada will have an opportunity of annually increasing her live stock exports until they have crept up from the 32,371 that they were last year to somewhere in the neighborhood of 200,000. That we can reach this figure within a very few years is certain. The little nation of Denmark, and nothing like the population of Canada, and nothing like grazing facilities, exported 68,365 cattle last year. The outlook so far is a favorable one to Canadian farmers, and it is the more so from the fact that if the countries mentioned are excluded from the English market, prices must be better than they have been hitherto. —Mail.

Saddled by a Cow.

We are pleased to learn that Mrs. Judge Morris, of Rivina, received on Saturday evening last, at 6.30 o'clock, very painful injuries from an assault by an infuriated cow. The lady was walking alone near the pond, when she was overtaken by the animal, which had a very young calf. The animal made a plunge at her, caught her on her horse and tossed her into the pond then, jumping in, saved her again while in the water and trampled on her with his feet. Another milk cow came from a distance of sixty yards and drove the infuriated beast away, and stood guard over the prostrate form of the lady until aid came. Only for this it is believed she would have been killed. —Victory Post.

Photography and Clouds.

Photography is constantly finding new applications in science. By means of experiments are conducted at Kew, Eng., to determine the height and velocity of clouds. Two similar cameras are set up at a distance of about 600 feet apart, and provided with instantaneous shutters, which can be released at the same instant by electricity. By knowing the inclination of the camera and measuring the position of the cloud as photographed on the two plates, we have at once a trigonometrical observation which will give us the distance of the cloud with great accuracy. Occasional observations only have so far been made, but they seem to indicate that the clouds are situated at a great elevation as has heretofore generally been supposed.

Bucklen's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancri, Piles, Chilblains, Corns, Tetters, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

A VOICE FROM THE UNITED STATES.—I have suffered for the last twenty years with Dyspepsia and General Debility, and tried many remedies, but with little success till I used Burdock Blood Bitters when relief was quick and permanent. A. LOVON, Alpena, Michigan, U.S.

An Abduction.

A girl thirteen years old, who gave her name as Edith Lisle, was abducted on Friday night from the place where she was working in Kingston. She ran away from her home at Cape Vincent some time ago and went to Kingston, her parents not being what they should be. She was picked up on the street, and placed in a carriage, and possibly driven off. It is supposed her mother and a male companion were the abductors.

New Advertisements.

FOR SALE.

A DESIRABLE PROPERTY

The Residence of the undersigned, BLOCK B, on Simcoe St., containing ONE ACRE, having a street frontage on all sides. There is an Artesian well of pure spring water at a depth of 40 feet, and soft and Spring Water pipes brought into the kitchen; also, Hot and Cold Water and Gas, Bath Closets with Marble Washstands in Bath Room and Butler's Pantry. The Plumbing was done by a Toronto house, and cost \$1,000. The Brick Building is expensively finished, with low down grates and heavy marbled mantels. The carpenter work is finished in oiled chestnut wood from the States. The soil is loam, on a clay bottom—no gravel, and is a very early garden. To make a complete mansion, all that is necessary, if desirable, would be to build a brick front of three walls in place of the present rough east, on the existing stone basement to connect with the brick building in the rear.

The size of the Building is 65x45. The situation is healthy, on rising ground, separated from other properties by the streets, and offers a rare opportunity for a family requiring a beautiful home.

Terms—One-fourth cash, balance can remain for a term of 5 or 10 years, at buyer's option.

DRESSMAKING!

Mrs. COMPIGNE,
Costumier & Mantle Maker

From LONDON, Eng. formerly with Miss Wensley, Court Dressmaker, Brook St., Hanover Square, Baker & Crisp, Regent St.; and J. Branscombe, Mare St., Hackney.

Every attention given to Style and Fit. Ladies may rely upon no effort being spared to secure the Newest and Most Fashionable Styles. Juvenile Dressmaking a specialty.

SHERBROOKE STREET,
Opposite the South Ward School.

Daily Evening Review

WEDNESDAY, JULY 18, 1883.

POLICE COURT.

DRUNK.

John Baker was charged by P. C. Adams with having been drunk, and he pleaded guilty. He had been discharged the day before. This time he was fined \$2 or ten days in gaol.

DRUNK AND DISORDERLY.

Austin O'Leahin was charged by P. O. Pidgeon with having been drunk and disorderly. He supposed he had been a little out of the way, and therefore did not deny the charge. A revolver was found in his possession when he was arrested, with six chambers loaded and one empty. The revolver was forfeited and he was fined \$2 or ten days in gaol. He paid the fine.

The Cells.

Two prisoners, both arrested for drunkenness, occupied the police cells last night.

Ice Cream.

Go to J. Craig's for Fresh Pastry, Ice Cream, Confectionery, &c., opposite Wrighton's store, George street.

Piano Tuning.

Mr. George I. Gumprecht, tuner for Messrs. Mason & Rich, Toronto, is in town, and will attend to any orders left at T. Menzies' bookstore or Taylor & McDonald's Drug store.

Watches and Jewellery.

Anything in the Watch or Jewellery repairing line left at Hughson's New Shop, Simcoe street, office lately occupied by E. Burnham, will be promptly attended to; charges moderate.

The Weather.

The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 o'clock a.m., to-day, by the Great Northwestern Telegraph company, are as follows:—Light to moderate westerly winds, fair weather.

The Success of the Probe.

The number of probabilities issued from the Toronto Meteorological Observatory for this district (Lower Lake Region) for the month of June were 139. Of these 102 were fully verified, 23 partly verified and 14 not verified. The percentage fully verified was 73.4, and fully or in part 89.2.

An Uproar.

While two men were out sailing in a sailing canoe on Tuesday evening they took an involuntary bath in the waters of the Little lake. As they came around the cemetery point the strong wind struck the sail and upset the small vessel. The occupants of the boat were of course precipitated into the water, but they were prepared for such an emergency, being well versed in the art of swimming and without losing their hold of the boat, they swam to the shore.

I. O. O. F.

At the regular meeting on Monday evening of Ontario Lodge No. 18, Independent Order of Oddfellows, the following officers were installed by Bro. D. H. Moore, D.D.G.M.:—
Bro. Wm. Clouston.....N.G.
" Jas. Stevenson.....V.G.
" E. E. Henderson.....Rec. Sec.
" Jos. McClelland.....Per. Sec.
" G. B. Sproule.....Treas.
" Wm. Ross.....R.S.N.O.
" T. D. Hay.....L.S.N.O.
" E. Shortly.....R.V.O.
" A. Mercer.....L.S.V.O.
" J. Matheson.....War.
" T. Workman.....Com.
" Jos. Mills.....R.S.S.
" W. J. Minor.....L.S.S.
" G. J. Kelly.....I.O.
" W. F. Graham.....O.G.
" Dr. J. A. Pitt.....Chaplain
" W. F. Green.....Organist
Bro. R. W. Bell, M.D., was elected representative to the Grand Lodge of Ontario.

Fireworks! Fireworks!

On Friday night next the citizens will be treated to another grand and very brilliant display of fireworks in the drill shed grounds. A number of gentlemen have formed themselves into a committee for the purpose of affording the public some amusement during the summer months, and with this end in view have ordered an excellent display of fireworks from the well-known house of Prof. Hand, Hamilton. The excellent band of the Fire Brigade has been engaged for the occasion, and the shed will be watered, and there will be ample seating accommodation both in the shed and grounds for all. Everything that can be done to enhance the enjoyment of the public, will receive the attention of the committee. It is to be hoped the citizens will turn out in large numbers, as the gentlemen interested have gone to considerable expense to furnish this entertainment for the town. The prices of admission have been placed at the moderate sum of 15c for adults and 10c for children. It is the intention of the committee, if they receive sufficient encouragement from the public, to continue their pleasing entertainments through the summer, and it is to be hoped they may be able to do so.

The Boundary Line.

That portion of the boundary line between the township of Monaghan and this town where the Ontario & Quebec Railway crosses it at the intersection of Romaine street will be closed for traffic until the culvert for that railway is completed.

Fruit, Music and Mind Reading.

A promenade concert and strawberry festival was given on Tuesday evening under the auspices of the Ladies' Aid Society of St. Andrew's Church, in the school grounds. There was a large attendance, and the Fire Brigade Band furnished excellent music. Strawberries, ice cream and lemonade were freely dealt out, and those who had charge of these matters were kept busy. A song given during the evening by Mr. D. Galletly was well received. Mr. John Miller gave an exhibition of his mind reading powers, and performed several different feats, one of which was taking a watch out of one gentleman's pocket and taking it to another, in obedience to the unexpressed wish of his "subject." The several performances were loudly applauded by the audience. The social was a very pleasant and successful one.

Charlotte Street Church.

The congregation of the Charlotte Street Church, having had the church improved and fitted up so nicely, have decided to make further improvements by enlarging the school room. An addition will be erected east of the present school, the size of the new portion being 28 feet by 15 feet. This will be used for an infant class room, kitchen, &c., and a furnace for heating purposes will be placed in the basement of this addition. Folding doors will divide this room from the main school room, at present used as an infant class room and minister's vestry, so that when the doors are opened the rooms will all be in one. The present school room will also be painted and renovated, and recessed with chairs. When these improvements are completed, and they will be commenced at once and pushed on to completion, the congregation will not only have a beautiful church, but also a neat and commodious Sunday school room.

A Successful Entertainment.

A very successful strawberry festival was held at Tully's school house in Smith, where the Young Men's Christian Association hold meetings. Mr. Middleton, Superintendent, occupied the chair. Short addresses were delivered by Messrs. O. G. Langford, J. Minor, and W. Matthews; songs by Miss Mann and Miss Minore, Miss Hutchinson presiding at the organ; a reading by Mr. H. Rositer, and a recitation by Mr. W. Graham. Strawberries and cake were served in abundance during the evening, and the social was an exceedingly pleasant one. Votes of thanks were tendered to the chairman, the ladies who managed the social, and those from town who furnished the entertainment. There was a "new departure," and a commendable one, in connection with the vote of thanks to the chairman, as it was moved in a very neat speech by a young lady.

The Lacrosse Match.

To-morrow afternoon, at three o'clock, the Peterborough lacrosse club will cross sticks with the Maitlands, of Toronto. The Maitlands is one of the best clubs in Toronto, and our boys expect a keen contest, as they will not lose the match without doing their best to secure a victory, and another victory for the home club may be added to the record. The Fire Brigade Band will be present and will play several selections during the progress of the match. The following team will represent the Peterborough club:—

J. Donohue.....Goal.
M. Tierney.....Point.
G. Giroux.....Cover Point.
M. McDonald.....Field.
W. A. Sanderson....."
M. Halpin....."
J. Sheehy.....Centre Field.
A. Velland.....Field.
R. H. Fortye....."
O. Rutherford.....Home.
W. Rodkin....."
W. Morrow....."
P. Walsh.....Spare man
J. Howden....."

The following will probably be the team which will represent the Maitlands:—J. Wright, J. Clewes, J. Wilson, D. Small, J. Doyle, W. McDonald, S. Martin, C. Hudson, T. Crown, J. Nesmith, C. Lennox, W. Milligan, C. Burfoot; field captain, J. Bailey.

A. C. A. Notes.

Mr. Orange Fraser, of Columbus, Ohio, is the first of the American members to reach Canada. He is now cruising from Port Perry on Lake Simcoe, round by Stony Lake, and thence to the Bay of Quinte and the Thousand Islands, returning to Stony Lake in time for the camp. Mr. J. F. Newman, Secretary of the New York Canoe Club, is at the Thousand Islands, where he will remain until the camp begins. Mr. Buchanan, of the Knickerbocker Canoe Club (New York), has left New York for Canada.

Mr. R. J. Wilkin, of the Knickerbockers, writes that ten or more members of that club will appear at Stony Lake, under their "red and blue burgee." They propose to leave New York on the 10th. He concludes with, "Three cheers for Canada!"

The New York Canoe Club promise 6 at least, so that there will probably be about 20 in all from New York.

Dr. Neide, the Secretary of the A. C. A., promises 8 from the Lake George Canoe Club, of which he is captain. Mr. Bishop, the famous cruiser and author, will be one of the party. Dr. Neide will be here by the 1st of August.

Mr. F. A. Nickerson, of the Springfield, Mass. Club, says there will be four members of their club at Stony Lake.

Albany will send six to eight enthusiastic canoeists, and Saratoga three.

Other places will also furnish their quota, and the total number in camp will probably far exceed that of any other gathering of the kind.

Morsford's Acid Phosphate given strength where there has been exhaustion and vigor in place of impaired vitality.

Smith's Market.

Strawberries every morning. Parties and families supplied at a moment's notice. Berries picked on dry days for preserving; all orders will receive prompt and careful attention.

Cherries, Oranges, Lemons, Green Peas, Cucumbers, Tomatoes, etc.

Fresh Fish. Parties will confer a great favor by leaving their orders on Thursday evenings, as we find it utterly impossible to get over so large a tract of ground late Friday morning in time for dinner.

Personal.

Mr. Ormiston Dixon, the celebrated ventriloquist, has severed his connection with the Barnum show and is now home on a vacation, preparatory to taking the road again. He has made an engagement with a first class New York company, that of the Langdon and Lewis Dramatic and Specialty Company for the season and will join them at Cleveland on the 20th of August.

Mr. Arthur Jones, Assistant Secretary of the Peterborough Young Men's Christian Association, has been offered and accepted a position on the Montreal Star staff. He has entered into Y.M.C.A. work in that city, and assisted on Sunday last at a meeting in Point St. Charles.

Excited Thousands.

All over the land are going into ecstasy over Dr. King's New Discovery for Consumption. Their unlooked for recovery by the timely use of this great life saving remedy, causes them to go nearly wild in its praise. It is guaranteed to positively cure Severe Coughs, Colds, Asthma, Hay Fever, Bronchitis, Hoarseness, loss of Voice, or any affection of the Throat or Lungs. Trial bottles free at Taylor & McDonald's Drug Store. Large size \$1.00.—2

Daily Evening Review

THURSDAY, JULY 19, 1883.

FIRE INSURANCE RATES.

The agents of the fire insurance companies doing business in the town of Peterborough have received notice that under the arrangements now made by the Canadian Fire Underwriters' Association, by which the cities and towns are classified according to their means of fire protection. Peterborough has been rated in Class D, a very low grade, on account of our having no system of waterworks in use.

The effect of this will be to raise our present fire insurance rates very considerably, in many cases 50 per cent., after July 20th, when the new tariff is to come into effect.

This would be a serious addition to the expenses of our merchants and other business men, who, however, would not suffer alone, as they would necessarily have to recoup a portion of this "loss" by charging higher prices to their customers.

However, we fortunately have it in our power to secure our being placed in a higher class with lower rates, for the agents are informed that on the adoption of efficient waterworks our class will be raised and the cost of our insurance will be reduced.

A SUCCESSFUL TEST.

Very gratifying to all who have the interests of our town at heart, must be the success of the test arranged by the Town Council and the Waterworks Company for a trial of the system as adapted to protection from fire.

The report of the appointed experts, which will no doubt be made to the Council, is not yet before us. We will publish it when it is presented, as much interest will be felt in the official report, with the statistics which the gentlemen entrusted with the task were carefully preparing as the trial proceeded.

But in anticipation of the scientific report that may be expected from the experts, valuable as it will undoubtedly be, the public saw enough for themselves to convince them that the Waterworks are thoroughly well fitted to accomplish one of their intended purposes, the protection of our property from fire. The height of the streams surmounting the highest blocks on George street, the volume of water thus thrown, the number of the streams and the length of hose employed without any diminution of the effective result, and the inexhaustible nature of the supply, all were satisfactory to the ordinary onlooker. And those who have practical experience to such matters, the active fire men, past and present, express themselves well satisfied with the trial, as a proof that we have efficient fire protection at our doors.

The gentlemen who have, with so much enterprise and against so many obstacles, pushed on their undertaking to this successful completion, are to be congratulated upon the result, but still more is the whole community of the Town of Peterborough to be congratulated upon the comparative immunity from loss by fire, which is thus afforded.

As soon as they have received the formal official report of the experts to whom the conduct of this test was entrusted, the Council will no doubt hasten to avail themselves of this safeguard thus placed within our reach.

Political Independence.

The independent Toronto Telegram has the following remarks:

The Peterborough Review protests in advance against the notion that the Conservative party will ever be found swallowing independence, and warns the people against "the suspicious and headstrong adulation of some of the Reform leaders and journals towards cutting adrift from our old connections and repudiating our old flag." We cannot see much sign of such advances on the part of the Reform leaders. Mr. Blake, during the session before the general election, chalked up the treaty-making power, and then ran away and has not since made any public reference to it. If he means to press for this particular form of independence he should do so persistently. When he did move his resolution he captured eight Tory votes on it, and if he were to identify himself with such a movement he would soon capture a great many more, notwithstanding the Review's warning. Perhaps Mr. Blake feels that the right to make commercial treaties means complete political independence, and is afraid of the logical consequences of his own arguments. Perhaps he is not. Time will soon tell.

Slavery in Tangiers.

A slave was sold in Tangiers last month. It was a woman, and she brought only \$37. Not long since a female slave was admitted to the French hospital who had been compelled by her owner to use her bare feet every day in shodding lime. While she was in the hospital her feet fell off and both her legs had to be amputated. The sale of slaves is carried on regularly and openly in Tangiers and in the interior of Morocco.

A Conductor Charged With Manlaughter. The coroner's jury in the Railway accident near London, Ont., where John Porter, a railway employee, was killed, on Tuesday returned a verdict of manslaughter against Peter Gowrie, the conductor. Gowrie has absconded.

THE C. P. R. A THROUGH ROUTE.

Trade between Britain and Australia via Canada.

Mr. Charles Wilson, writing to India and the Colonies says:

"As the Canadian Pacific Railway may be open for traffic in three years, Britons and Australians, as well as the people of Canada, should consider the propriety of establishing a through route from Liverpool to Sydney, via Canada for mails, passengers and goods, all the path of call being in the British empire. The time could be shortened by four days as compared with the Californian route. The steamers, as per time table, now take twenty days from Sydney to San Francisco; and the distance to the railway terminus in British Columbia is 320 miles greater, such steamers as those of the Orient line could cover the greater distance in twenty-five days, from which time two days could be spared for the ports of call. The Canadian railway route to Quebec is three hundred miles shorter than that through the States. The Atlantic crossing from Quebec is also three hundred miles shorter than that from New York. There would be the further advantage by the Canadian route that the Rocky Mountains would be crossed at about half the height attained by the 'States' line, which would obviate the risk of being snowed up. The port of Quebec being closed in winter would necessitate a detour from the Canadian route at that season—say from Winnipeg to New York or Portland, passengers should have liberty, when taking through tickets, to choose their route through America. The Canadians consume our goods to the value of 40s. Americans, 10s., and Australians 12s. per head per annum. The proposed route would tend to increase British and colonial trade. We should have free-trade ports at either terminus of the route. Canada would probably—being most largely benefited by the scheme—be led to a more liberal and reasonable fiscal policy. We could supply to our Australian colonies such wares as we are now supplied by the 'States' and could get in return wool, woollen goods, and other wares. There would be the further advantage that there is an abundant supply of good coal close by, in Vancouver's Island, which is the source of supply for San Francisco."

CANADA PACIFIC RAILWAY.

Account of the Track-Laying—An Extraordinary feat in speed.

We find the following in the Emerson International of July 13th:

During the past week 24 miles, 1,000 yards of track have been added to the main line west. On Tuesday, July 3rd, 4 miles 1,180 yards were laid, and on Saturday, July 7th, 8 miles and 40 yards. On neither day was any extra preparation made, and the same force was at work that is daily employed. The latter great record was made in fourteen working hours, the first three miles being completed in six and a half hours. To show that it was not a flimsy feat, a statement of the track-laying force will explain. Twenty-four men handled the iron, twelve unloading off cars and reloading on trolleys, and the same number laid down on the track. Three iron cars or trolleys were used, and as fast as one was unloaded and run back till met by a loaded trolley, it was taken to the track and the loaded truck run by, as is usual every day. The twelve rear iron cars were unloaded and reloaded 2,120 rails (804 tons) during the day, and the five men on each side of the front car laid down 1,060 rails (302 tons) each gang, while the two distributors of angle-plates and bolts, and adjusters of the joint line, running out over the rollers handled 2,120 rails, 4,240 plates, and 8,480 bolts; 15 boilers followed and on an average put in 565 bolts each; then 35 spikers, with a nipper to each pair who drove 63,600 spikes, which were distributed by four peddlers; the lead and gauge sections each drove 2,120 spikes, averaging 8,000 blows to drive them, or 570 every hour. 16,000 ties were unloaded off trains, and reloaded on wagons by 33 men, and 33 teams hauled them on to the track, averaging 17 loads of 30 ties to each team; on the track eight men unloaded and distributed, and four spaced them; two also spaced and distributed the joint line, and two arranged joists and displaced ties immediately ahead of the spikers. Four iron car boys and six horses were used to haul the iron to the front. The first two miles of material was hauled ten miles, and the rest from three miles up, as the usual track gang put in a siding of 2,000 feet during the day. Thirty-six cars of rails and sixty of ties came up in six trains. It should be mentioned that the track was over a light ascending grade across an undulating prairie, and five curves came in on the distance, necessitating the cutting of fifteen rails, thereby causing considerable delay. The credit for executing this wonderful performance and managing an organization to do it so easily and without a single hitch is due to Mr. Donald Grant, manager of the track-laying department of the firm, Langdon, Shepard & Co., who supervised the work in person, to Mr. J. H. Benson, the track-laying foreman, who attended to it with his usual energy and adroitness, even cutting most of the rails for the curves himself, and to Mr. Thomas Gannon, the iron car foreman, whose untiring strength, ceaseless activity and perfect work was a grand example for the rest to follow; they, however, were dependent on their men, who worked throughout with a vim, power and manner, that only thorough workmen and earnest, dutiful men can effect. Credit is also due to Mr. C. Shields, division superintendent west of Swift Current; Mr. E. A. Franklin, trainmaster at the front end, and Mr. W. Lawton, conductor of the front material trains, for their indefatigable and successful efforts to get material to the front. Messrs. Langdon, Shepard & Co. should be congratulated for their wonderful work on this road, as that of last year and this places them ahead as the foremost railroad contractors in the world. It should also be added that the telegraph wire followed closely in the rear all day, and at night was found as usual immediately at the east end of the track train. That, under the able leadership of Mr. A. Forrest, was likewise a very creditable day's work.

Canadians at Wimbledon.

A number of prizes, more or less important, have been won by the Canadian marksmen. In the Nursery Aggregate Match, Lieutenant Thompson, of the Governor-General's Foot Guards, Ottawa, scores next to the winning men, and takes the sum of £20 for having achieved second place. In the same match Captain Hart, of the 8th John Rifles, wins £2. In the Snider Aggregate Match the prize winners are:—Staff-Sergeant W. Ashby, Queen's Own, £5; Captain Hart, Staff-Sergeant V. B. Ross, 15th Battalion, Hamilton, and Lieutenant Thompson, £3 each. The team was on Tuesday inspected by the Duke of Cambridge, Commander-in-Chief of the British army.

Booklet's Arnica Salve.

The greatest medical wonder in the world. Warranted to cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancer, Piles, Gout, Rheumatism, Tetter, Chapped Hands, and all skin eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per bottle. For sale by Taylor & McDonald.

A Voice from the United States.—I have suffered for the last twenty years with Dyspepsia and General Debility, and tried many remedies, but with little success till I used Barlett's Blood Purifier when relief was quick and permanent. A. LORON, Alpena, Michigan, U.S.

An Abduction.

A girl thirteen years old, who gave her name as Edith Hale, was abducted on Friday night from the place where she was working in Kingston. She ran away from her home at Cape Vincent some time ago and went to Kingston, her parents not being what they should be. She was picked off the street, and placed in a carriage, and forcibly driven off. It is supposed her mother and a male companion were the abductors.

New Advertisements.

FOR SALE.

A DESIRABLE PROPERTY

The Residence of the undersigned, BLOCK B, on Simcoe St., containing ONE ACRE, having a street frontage on all sides. There is an Artesian well of pure spring water at a depth of 40 feet, and soft and Spring Water pipes brought into the kitchen; also, Hot and Cold Water and Gas, Bath Closets with Marble Washstands in Bath Room and Butler's Pantry. The Plumbing was done by a Toronto house, and cost \$1,000. The Brick Building is expensively finished, with low down grates and heavy marbled mantels. The carpenter work is finished in oiled chestnut wood from the States. The soil is loam, on a clay bottom—no gravel, and is a very early garden. To make a complete mansion, all that is necessary, if desirable, would be to build a brick front of three walls in place of the present rough cast, on the existing stone basement to connect with the brick building in the rear.

The site of the building is 60x45. The situation is healthy, on rising ground, separated from other properties by the streets, and offers a rare opportunity for a family requiring a beautiful home.

Terms—One-fourth cash, balance can remain for a term of 5 or 10 years, at buyer's option.

SHERBROOK STREET,
Opposite the South Ward School.

Daily Evening Review

THURSDAY, JULY 19, 1883.

POLICE COURT.

DUNK.

Thursday, July 19.—James Murphy was charged by Chief Johnston with having been drunk and disorderly. He pleaded guilty, expressed sorrow and promised earnestly that if allowed to go he would never appear in the court again, and said that if he did he would not comply if the Magistrate sent him to jail for six weeks.

Patrick Doran was charged by P. O. Pidgeon with having been found drunk in a public place. He also pleaded guilty. This was his first appearance in this court.

The prisoners were both discharged, the Magistrate cautioning them and giving them some excellent advice.

Cricket.

A team of cricketers belonging to the Peterborough Club went to Lindsay this morning, where they will play this afternoon. They play at Uxbridge to-morrow.

The Headmastership.

Seven or eight applications have been received for the position of headmaster of the Public Schools of the town, vacated by the resignation of Mr. John Braden.

A Break Down.

At the Norwood stage was going out of town on Wednesday afternoon one of the horses became frightened, and in its plunging broke the pole of the waggon. The occupants of the stage heavily alighted. The damage was repaired and the stage proceeded on its way.

Lacrosse.

The Maitland Lacrosse team arrived from Toronto on the noon train to-day. Mr. J. J. Walsh, the Secretary of the Club and one of the team, being here on Wednesday night. The match was played at about three o'clock this afternoon, on the Ashburnham cricket ground.

The Weather.

The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 o'clock a.m. to-day, by the Great Northwestern Telegraph company, are as follows:—Light to moderate, variable winds, gradually shifting to easterly, fair weather, with a few local showers; higher temperature.

A Fence That was Needed.

There was one thing in connection with the building of the "Missing Link" line in the town that is a benefit, at any rate, and that is the erection of a fence along the top of the hill near the Protestant Home. This was a dangerous place, and people have been known to drive over this hill over Rulledge and Stewart streets, but this fence put up by the railway company affords a protection against such accidents.

The Operators' Strike.

The operators in the office of the Great Northwestern Telegraph Company in Peterborough, in obedience to the directions of the Brotherhood, ceased work at twelve o'clock to-day. They demand an increase of 15 per cent. An operator took their place and the business of the office proceeded. The strike of the operators is general throughout Canada and the United States, and it would be difficult to predict the result.

Smith's Market.

Strawberries every morning. Parties and festivals supplied at a moment's notice. Berries picked on dry days for preserving; all orders will receive prompt and careful attention.

Cherries, Oranges, Lemons, Green Peas, Cucumbers, Tomatoes, etc.

Fresh Fish. Parties will confer a great favor by leaving their orders on Thursday evenings, as we find it utterly impossible to get over so large a tract of ground late Friday morning in time for dinner.

THE MAITLAND TEAM.

To the Editor of the Review.

Sir,—I regret to see a statement in to-day's Mail that the team of the Maitland Lacrosse Club which came here to-day was not the first twelve of that club. It was the first twelve of the Maitland Club that the Peterborough Club invited to play here, and it is the first twelve that has come to do so.

Yours truly,
J. J. WALSH,
Sec. Maitland Lacrosse Club.
Peterborough, July 19, 1883.

YOUNG POINT.

From Our Own Correspondent.

THE YOUNG POINT ON RECORD.—Thirty thousand logs belonging to Messrs. H. B. Raby and Son were brought from the head of Stony Lake, Young's Point in six days by the well-known foreman, Robert Horan, and from Mount Julien to Young's Point with thirty thousand ties with a hand crew and fourteen men in three days. This is a record driving in the north.

THE WATERWORKS TEST

THE TOWN COUNCIL AND COMPANY
UNITE TO TRY THE WORKS.

Two Experts Appointed to Have Charge of the Trial—Four Distinct Tests—General Satisfaction with the Result.

In accordance with a resolution of the Town Council, asking the Waterworks Company to give a test of the efficiency of the waterworks system, these works were tested on Wednesday afternoon.

Mr. W. H. Law, of the Central Iron Works, was appointed by the Fire, Water and Gas Committee, in behalf of the town, and Mr. J. G. Macdonald, Chief Engineer of the Midland Railway, in behalf of the Company, to superintend the test and report the result to the Town Council. These gentlemen were empowered to choose a third engineer, if necessary, but as they agreed as to what was required, they did not find it necessary to choose a third person. Mr. William Hamilton remained at the pump house during the time of the test, as requested by the Town Council, to report to the engineers and the Council the amount of pressure there was on the pumps.

At five o'clock the fire alarm sounded as a call to the firemen, and they came out with the hose cart, each dressed in a rubber suit, which they found they needed before the test was over.

THE FIRST TEST.

The first test was at the hydrant in front of McKee's drug store, to which two branches of hose were attached, each fifty feet in length. One of the nozzles was 1½ inches in size, and the other 1½ inches. The water was then turned on, and two powerful streams were thrown on the buildings. The water was thrown over the buildings on each side of the street, and from the 1½ inch nozzle the stream was thrown level along the street and measured. The distance was 153 feet, 4 inches. During this test the pressure at the pump was eighty pounds.

THE SECOND TEST.

The second test was similar to the first, only that the hose was attached to the hydrant opposite the telegraph office. The same lengths of hose were used, the same nozzles, and the same pressure. The water was thrown over Mr. Cox's block and the other building there and the distance that the water was thrown on the level was 166 feet.

THE THIRD TEST.

Four streams were used in the third test. Fifty feet of hose was attached to the hydrant above the post-office at Mr. Yelland's, fifty feet to the hydrant opposite the telegraph office and two branches, each fifty feet in length, to the hydrant at Mr. McKee's. The pressure was continued at eighty pounds. From each of these branches powerful streams were thrown high into the air and over the high blocks. The distance the water was thrown on the level by the branch at the telegraph office, 1½ nozzle, was 174 feet, and at Yelland's 168 feet.

THE FOURTH TEST.

Two streams were used in the fourth and final test. To the telegraph office hydrant 250 feet of hose was attached, with a 1½ inch nozzle, and to the hydrant at McKee's 150 feet of hose, with a nozzle of the same size. In this test, as in all the previous ones, the effect of the strong wind which was blowing at the time was seen, and had there been no wind, or if it had been less powerful, the water would of course have been thrown much higher. Still, with the 250 feet of hose, and the large nozzle (the size of the nozzles used at fire with the fire engine is 1 and 1 inch), a powerful stream was thrown over the buildings at the corner of Hunter and George streets, while from the branch further down the street the water was raised higher than the buildings. The firemen appeared to be more interested in the result of this test, as they would have to use the longer lengths more frequently than the shorter, but they expressed satisfaction with the result. At the corner of George and Hunter streets the stream was thrown about fifteen feet over the flag pole on the top of the building occupied by Messrs. Taylor and Macdonald—a three story building and a mass of roof, and the distance thrown on the level was 147 feet. From the other branch, attached to the hydrant at McKee's, the stream was thrown, on the level, about 150 feet. During the time of this test the pressure varied from ninety to one hundred pounds.

Messrs. Law and Macdonald will report to the Town Council the result of the test, and their report will of course carry weight. Still, comments on the result, and on the efficiency of the waterworks, were freely made by the firemen and others, and almost every person appeared satisfied. Three, and sometimes four, firemen were required to handle the hoses when the water was flowing through them, and the streams were large and thrown high, although there was a strong wind blowing.

The Town Council will meet on Monday night next, when they will receive the report of the engineers, and will most probably take action on the petition sent in by the ratepayers on George and Aylmer streets.

UPPER GROVE.

From Our Own Correspondent.

FEMINIZATION.—On Friday evening, the 12th inst., a number of the friends in and around Upper Grove of J. Maguire, late station agent here, met with him and presented him with an address accompanied by a gold locket, on which was engraved his initials; a costly writing case bearing his name in full, and a very valuable gold-headed cane, mounted with fine ebony, tastefully chased and embossed, bearing a suitable inscription, all being an expression of their esteem and respect to him, and an appreciation of his many and varied acts of kindness and generosity as well as his gentlemanly and cheerful bearing towards all classes of the community during the number of years he has been engaged in the service. The presentation took place in the station house, and was made by the Rev. H. Blackie, of this place, after which Mr. Maguire made a very suitable and feeling reply.

The object of the Triangle Drive is so beautiful and there is no single, they lead the eye towards the country, etc.

Daily Evening Review

FRIDAY, JULY 20, 1883.

Railway Notes.

The Hamilton Spectator says:—
"Additional particulars of the proceedings at the
meeting of general freight agents recently held in
Montreal were learned from some of the officials who
attended the meeting. A basis of agreement was ar-
rived at, and the committee was instructed to divide
the different kinds of freight into no less than eleven
classes. The Committee, which consists of Messrs.
John Earl, of the Grand Trunk; R. Dowle, of the
Great Western division; E. A. Chittenden, Central
Vermont; C. M. Bowditch, Canadian Pacific; R. Kerr,
Northern and North-western; A. White, Midland, and a
representative of the Canada Southern division of the
Michigan Central, held a meeting afterwards. Mr.
John Earl was elected chairman, and Mr. R. Dowle
secretary. It was decided to limit the classes to nine
and that the committee meet in Belleville on July 24,
and continue in session till a complete classification
has been decided upon, which will then be printed and
sent around to all the Canadian roads. A general
meeting will be called about ten days or two weeks
after the proposals have been delivered to the proper
authorities. It is also decided to call the document the
"Canadian joint freight classification." This new
schedule will govern the interchange of traffic between
the various Canadian roads, and possibly all traffic
originating in Canada and billed through for the United
States. It is understood that the roads who were
not represented at the general meeting have given
their adhesion to the plan, and will join with the
others present in the adoption of the views of the
majority."

A Sad Death.

On Thursday night, at about eleven o'clock, a
man named Charles Rumerell was found by the
constables very sick in a blacksmith shop on
Murray street. They applied at several hotels
to have him admitted, but they met with refusal,
and they took him to the constables' room,
as the cells were not fit to put him in and there
is no place provided for such cases. He was
placed on two benches and made so comfortable as
possible under the circumstances. Dr. Kincaid, who was
called to see him this morning, said that he was suffering from congestion of the
lungs and that he was not likely to recover. He
gave the address of his daughter, at Springfield,
Hoke County, New York State, to the constables,
and she was telegraphed to. Mr. Rumerell
has been in this vicinity some time as an agent
for a patent iron ladder. He expired at about
half past eleven this morning.

THE ALGOMA CONTENT.

Ontario Officials Canvassing for the Grit
Candidate.

SAULT STE. MARIE, July 13.—Letters received
from reliable parties on Manitoulin and St.
Joseph's Islands, Bruce Mines and other places
along the north shore, says the Algoma Pioneer,
show very conclusively that the settlers at all
points are wide awake to the attempt of the em-
issaries of the Government to throw sand in the
eyes of the electorate by making a great ap-
earance of their little tinkering jobs at road building,
and let it be known from Dan to Beersheba,
there is scarcely an official to be found in the
country who is not openly canvassing for Mr.
Lyon. Strong as that gentleman might have
been had he exerted himself in behalf of the
settlers, he now has to resort to such unworthy
means to make a decent show of support.
On the other hand, Mr. Plummer has not,
so far as we know, one solitary person
from the outside aiding in his canvass, and
there is good reason to believe that accessions
are made almost daily to the ranks of his sup-
porters. A good proof of the correctness of this
view of the field is seen in the delay of the Gov-
ernment in bringing on the election. The 14th
of June was published by the organ of the On-
tario Government in Algoma as the day for
holding the election, and here is the middle of
July, and no word of the issue of the writ—
certainly not a creditable showing in a "popular
government."

Personal.

The Rev. Mr. Fraser, of Orono, will occupy
St. Paul's pulpit next Sabbath.

The Town Time.

The public are reminded that the town clock
will be altered at 6 p. m. this evening to corre-
spond with railway time.

The Weather.

The weather probabilities for this
district for the following 24 hours, as reported
from Toronto at 1 o'clock a.m., to-day, by the
Great Northwestern Telegraph company,
are as follows:—Moderate to fresh winds,
mostly south-east and south, fair, warmer
weather.

A Handsome Badge.

We have received from J. W. Backley, Sec-
retary of the Committee of Firemen's Demonstration
at St. Catharines on August 9th and 10th,
a badge for the press. It is as handsome and
aesthetically as anything of the kind that we have
ever seen, being of sky blue and straw coloured
satin ribbons with head piece, tassel and fringe
of gold bullion.

Midland Railway of Canada.

The traffic of the above railway for the week
ending July 17th, 1883, was as follows:—Pas-
sengers and mails, \$11,047.73; freight, \$12,197.01;
total, \$23,244.74, as compared with \$2,116.57;
for the corresponding week of 1882, being an
increase of \$1,128.17; and the aggregate traffic
to date is \$543,790.64, being an increase of
\$18,899.23 over 1882.

ACCIDENTS AND SUICIDES.

Funeral Services of a Corps on Fire—De-
termined Attempt at Suicide.

Just before a funeral yesterday, at Quebec,
the sheets and hangings surrounding the corpse
took fire from the lighted tapers. The brigade
was called out, the coffin was severely scorched,
and the undertaker's loss in trimmings is some
\$150.

Two men ran into Bellevue hospital, New
York, at a late hour on Tuesday night and ex-
citedly announced that a man in No. 551 First
avenue had taken poison. They wanted a doctor
to go back with them immediately. Dr. Hurd
accompanied them to the house and found
Joseph Maucher, a shoemaker, sitting by the
window with a physician by his side urging
him to take an antidote for a large dose
of Paris green which the shoemaker had
swallowed. In this entreaty Dr. Hurd
joined. On being met with a stubborn re-
fusal Dr. Hurd tried to force the man to take
the antidote, whereupon Maucher pulled a long
knife from under the cushion of his chair and
threatened to stab the first man who approached
him. A policeman was sent for. When he
arrived Dr. Hurd slipped behind the shoemaker
and put a straight jacket on him. There was a
fierce struggle for a few moments, but the united
efforts of the patrolman and the two physicians
were too much for Maucher, and he was borne
handcuffed to Bellevue hospital, where, after a
stomach pump had been used, he was locked up
as a prisoner. Maucher is a married man,
thirty-seven years old. The attempt at suicide
was due to his wife's refusal to give him money
to buy beer. He had come home from a society
meeting intoxicated and with only two cents in
his pocket. Maucher, it is said, a few weeks
ago was prevented from drowning himself by a
neighbor.

Fall of the Erie and Huron Bridge.

CHATHAM, July 19.—The Banner describes a
jam which occurred at the Erie & Huron bridge
on Friday, the 13th. It had been expected
some few days previously, in consequence of
the debris ascending the river. When once
formed the obstruction swelled speedily to an
immense and ever-increasing blockade. Two
locomotives and a tug, with a large force of men
did their utmost to break up the jam, but un-
successfully, and about 8 p. m. on Friday the
bridge gave way and with the rubbish floated
down the river. The loss of the bridge is a
serious matter to the Erie & Huron, as it will
to some extent interfere with the extension of
the road northward, all the supplies being on
the south side. The Banner questions the wis-
dom of erecting an iron bridge where the soil is
sandy "unless ample protection by way of
stone-filled cribs is provided." The bridge will
be repaired at once.

THIS DAY'S TELEGRAMS.

OUR DISPATCHES.

In consequence of the continuance of the
strike of the telegraph operators we are again
without our usual press despatches.

Excited Thousands.

All over the land are going into ecstasy over
Dr. King's New Discovery for Consumption.
Their unlooked for recovery by the timely use
of this great life saving remedy, causes them to
go nearly wild in its praise. It is guaranteed
to positively cure Severe Coughs, Colds,
Asthma, Hay Fever, Bronchitis, Hoarseness,
loss of Voice, or any affection of the Throat or
Lungs. Trial bottles free at Taylor & McLean
and's Drug Store. Large size \$1.00.—2

MIDNIGHT TELEGRAMS

CABLE.

CHOLERA IN CAIRO.

LONDON, July 19.—Private advices from
Cairo say that there have been fifty deaths in
twelve hours since the last official return.
Cholera is raging in many villages not men-
tioned in the returns. Four hundred carcasses of
cattle have been removed from the Nile.

ENGLISH DOCTORS FOR EGYPT.

CAIRO, July 19.—The Government has
accepted the offer of England to send twelve
doctors to the infected districts. The wooden
buts where the cholera originated have been
burned.

AN AMICABLE SETTLEMENT.

PARIS, July 19.—Lord Lyons, the British
Ambassador, starts on his annual holiday next
Saturday, which is considered conclusive proof
that the differences in regard to the Tam-
stave affair are in a way of amicable settle-
ment.

RECOVERED FROM THE DAPHNE.

GLASGOW, July 19.—Seventeen more corpses
have been recovered from the Daphne, recently
wrecked in the Clyde.

FISHERIES EXHIBITION.

LONDON, July 19.—A grand fete was given
last night at the Fisheries exhibition in aid of the
fund for the building of an English church at
Berlin. The buildings were densely crowded,
and the affair was a great success. The Prince
and Princess of Wales and many other members
of the Royal family were present and partici-
pated in the gaiety. Mrs. Lowell, wife of the
American Minister, presided at one of the tables
for the sale of refreshments, whose receipts
were very large. She was assisted by many
American ladies.

A BERLIN SUGGESTION.

BERLIN, July 19.—The National-Zeitung of
Berlin approves the protest of the English peo-
ple against the Suez canal agreement, and pro-
poses that all the maritime powers buy the canal
and place it under the control of an international
commission.

THE SUEZ CANAL.

PARIS, July 19.—The Gaulois says that M.
de Lesseps declares that a loan for building a
second Suez canal can be raised in France and
other countries if England refuses to advance
the money.

A LAWN TENNIS TRAGEDY.

LONDON, July 19.—The picturesque town of
Bedford is in the utmost excitement over a
thrilling lawn tennis tragedy. A party to-day
were playing lawn tennis near the Ship inn at
Saint Cathbert's, situated in the centre of the
town. Among the players were Mr. Devere, a
young army officer, and Miss McKay, an ex-
ceedingly pretty young lady, twenty years of
age. Suddenly, and with no apparent provoca-
tion, Devere pulled out a revolver, and shot
Miss McKay dead on the spot. Before he
could be seized he put a revolver to his ear, and
blew his own brains out. It is believed that
jealousy was the motive of the crime.

THE MALAGASSY QUESTION.

PARIS, July 19.—The Francois, the Duc de
Broglie's organ, says:—"It is high time to put
an end to the misunderstandings which sever
us from England, and which, to the great satis-
faction of governments not greatly attached to
the republic, threaten to place us in open hos-
tility with the sole power whose interests unite
with ours on the European chessboard. It is
time, because every day lost, every needless
word, every jeopardized negotiation, brings En-
gland nearer to the Triple Alliance, which is
showing its head at all our frontiers. When
the soil of Europe trembles under the tread of
armed men, and when the leaders of those
armies have the same watchword from one ex-
tremity of our frontier to the other, it is not
prudent for the Republic to remain isolated, and
to launch defiant words at the only power
which has nothing to snatch from it in a general
settlement."

AMERICAN.

A DISASTROUS FIRE.

BROOKLYN, N. Y., July 19.—This morning a
spark from an engine set fire to a pile of jute on
Harbeck's dock. Three Calcutta ships caught
fire the crews jumped overboard. The roof of
the burning storehouse caved upon a dozen fire-
men. Nine were killed.

LATER.—None of the firemen were killed, but
all were badly injured, some fatally. The ves-
sels were burned to the water's edge, and were
beached. They were owned in England, and
valued at \$120,000. The cargoes are valued at
\$300,000. Other losses bring the total to
\$600,000.

DETROIT HIGHWAY ROBBERY.

DETROIT, July 19.—The way in which the
Bremer highway robbery is being settled and
bushed up seems much indignant comment
around town. Mr. Bremer offers \$500 reward
for the recovery of the property and the arrest
of the thieves. The property was recovered
through the agency of the detectives, but the
thieves were not arrested. A rumor is afloat
that the parties who did the job are a gang of
slick professionals from England, who for some
time past have been hanging about hotels in
Detroit and Windsor, but have disappeared for
parts unknown. The affair causes considerable
excitement among local thieves, many of whom,
fearing arrest on suspicion, have migrated to
Canada.

A RECREANT LOVER.

PITTSBURGH, July 19.—Charles Seitz, paper-
hanger, of Allegheny City, fatally shot Dr.
Langfelt to-night at the latter's home, Bellevue;
Langfelt was engaged to Seitz's sister, and a
short time ago broke the engagement without ex-
planation. This enraged Seitz, who borrowed a
revolver and shot Langfelt on sight.

THE PRESIDENT'S TRIP.

WASHINGTON, July 19.—It is denied on the
highest authority that the President's trip to
Yellowstone Valley will cause expense to the
Government, or that telegraph lines will be
erected and 180 hours provided for the party to
be paid for with public funds. It is an official
exploration.

Personal: To Men Only!

The Voltaic Belt Co., Marshall, Mich.,
will send Dr. Dye's Celebrated Electro-Vol-
taic Belt and Electric Appliances on trial
for thirty days to men (young or old) who are
afflicted with Nervous Debility, Lost Vitality
and Manhood, and kindred troubles, guarant-
ing speedy and complete restoration of health
and manly vigor. Address as above. N. B.—
No risk is incurred, as thirty days' trial is allow-
ed.

Dr. Casson's Stomach Bitters free the sys-
tem of the poisonous humors that develop into
Kidney and Urinary diseases, give tone and
vigor to the Stomach and purify the Blood.

Daily Evening Review

FRIDAY, JULY 20, 1883.

THE MERCE CASE.

TILL we have fuller particulars of the judgment it is impossible to know the exact bearing of the decision of the Imperial Privy Council in the notorious Mercer estate case. At present all that is certain is that the highest court of the realm has pronounced in favour of the Province, which apparently is held to represent the Crown under the circumstances. It is of very little practical importance whether the rights of the Crown are vested in the executive of the Dominion or of the several Provinces, but it is of very great importance that all such doubtful points should be finally settled by a high and impartial tribunal, instead of being made the subject of political agitation. Nor does it seem unreasonable that the provincial authorities should represent the Crown in this matter, for as the Crown Lands of Ontario are in the possession and under the control of the Province, it is natural that the real estate should revert to the Province.

But the fact that the legal right of the Province is established by no means justifies the use that has been made of that right. It does not always necessarily follow that legal right and moral right are identical, and it may be very unjust to press for the extreme letter of the law in some cases. Ontario is a wealthy province, and we believe that its people have no desire to fill its treasury by withholding property from an acknowledged son because he is so unfortunate as to be unable to prove the marriage of his parents. Most people will think that even under such painful circumstances young Mercer has a better moral right to the property of his father than the Crown, whether represented by the executive of the Province, of the Dominion, or of the Empire. The usual practice in the Mother Country is for the Crown to take possession in case of an escheat, and then to regrant the property to those who have the moral if not the legal right to it. Such a course in this case would have been a very proper one, and, indeed, the only honest one.

In one aspect of this matter we rejoice that Mr. Mowat has established his legal right. Perhaps in future he and his supporters will not have their present horror of the Privy Council, and will not brand as "robbers" those who advocate an appeal to it to settle a point in contention. Perhaps in future he will not think that filibustering is preferable to carrying a disputed claim before the highest court of the realm.

THE MERCE ESTATE CASE.

The Decision of the Supreme Court Reversed—
The Escheat Given to Ontario.

LONDON, July 18.—In the Mercer appeal case today the Chancellor reversed the decision of the Supreme Court of Ontario. The contention of the Ontario Government was that it was empowered to escheat the property of the late Mr. Mercer, who died without making a will and without heirs, as representing the Crown in Ontario, while the Dominion Government contended that it and not the Ontario Government was the representative of the Crown, and that the property had therefore escheated to it. The case was very ably argued on both sides, and both the arguments and the judgment elicited considerable interest from the bar here.—Mail.

AN ENGLISH VIEW OF IT.

The Leeds, Eng., Mercury is somewhat astonished with Canadian journalism, and not unreasonably so. The Mercury has been reading the Toronto Globe's review of the last Dominion session. The Mercury says the Globe, which it terms the London Times of Canada, said the session would be "memorable chiefly for the admixture of imbecility, arrogance, corruption, extravagance, dilatoriness, and coyness displayed by the dominant party." "The results of the session," added the Globe, "would disgrace a backwoods Legislature, and it charged the Tory party with spending two-thirds of the session "in scandalous intrigues against the integrity of the provinces." It then proceeded to give "the record of a disgraceful sixteen weeks," in language which, if it were not exaggerated, would imply that the dominant party had committed every crime in the political catalogue. In the first week the Government "did nothing but run the machine for Mr. Meredith in the local elections." In the second it continued its intrigues, and "the Senate actually adjourned in order that some of its members might be left free to distribute the corruption fund." The third week was a reproduction of the second. In the fourth the members commenced the agitation for an increase of their salaries. In the eighth week the budget was introduced, and was found to increase taxation on more than a hundred tariff charges. In the eleventh session in connection with Government printing began to crop up, and "the venality of the Tory press" was proved. In the thirteenth, Sir John Macdonald compelled his followers to record their names as abettors with him "the Coburn Company swindle." In the fifteenth, subsidies were granted, "several manifest jobs among them," and the "Macintosh-Whithead scandal" was discussed. The last week of the session was "spent in reckless hurrying through the Licensing Bill," and rushing through other measures in an incomplete state, finishing with the most popular act of the session—prorogation.

There was some compensation for this state of things. In the fifth week "Mr. Blake made a magnificent speech on the Pacific Railway question," and the review of the session "would be incomplete indeed which did not make fitting mention of the great services rendered by the leader of the Opposition to the country and his party." The Mercury expresses its relief at learning that "there is at least one honest politician in the Dominion," and asks the Globe in all seriousness if it does not "over-sauce its criticism." Perhaps the best way of answering the Mercury's question is to refer to the fact that the Globe's party since 1867 has been in power only five years. At all events it is more reasonable to hold that the Globe is prone to over-sauce than to assume that the majority of the Canadian people are totally depraved.—Winnipeg Times.

PORT HOPE.

FIRE BUGS CAUGHT.—The Guide says:—About one o'clock on Thursday morning a couple of young men named Alex. McLennan and William Downes were caught by Constable Rankin setting fire to an old building on John street, near the residence of Mrs. Waddell. Rankin was on the look out for another party when he discovered the light in the cellar of the old building, and went over to remonstrate, when he met one of the young men coming away. He then saw the fire was making headway and jumped over the fence and pulled up some burdock that was growing close by and was slashing out the fire when Downes tried to prevent him. After Mr. Rankin had succeeded in putting out the fire he marched Downes off to the lockup. McLennan had in the meantime skedaddled for home, where he was found and arrested. The worthless had taken the coal oil can from the Queen's hotel, to start the fire with.

TWO ACCIDENTS.—The Times says that Mr. Esakial Dark, an employee of the Midland Railway shops, suffered an accident on Tuesday, which may result in his losing the use of one of his hands. While in the act of turning off the gearing of the grindstone for the purpose of stopping it, one of his hands got caught in that part of the machinery, and was pressed against the stone with sufficient weight to grind the skin and flesh of the back of the hand down to the bone and badly injured some of the tendons. While loading fish on his wagon at the Midland freight sheds on Tuesday morning, Mr. William Smith, hackman, met with rather a painful accident. He and his brother had been pushing a truck laden with fish, and as the conveyance ran harder than usual morning the wheels of the engine struck him on the hip, knocking him to the ground and badly injuring him. No bones were broken, but he was pretty badly bruised.

CAMPELLEFORD.

THE ENGLISH CHURCH.—The Herald says that the contract for building the new chancel and tower of the English Church has been awarded to Mr. W. Hall for the stone work, and Mr. James Benor for the wood work. The chancel is to be 26 by 21 feet, and the tower 45 feet high and 11 feet square. About 25 feet of the latter will be built of stone. Work was commenced on this addition to the church last Saturday.

ANOTHER BUILDING.—Work is now in progress upon Mr. Cockburn's building on Front street. The foundation has been laid, and the bricklayers make a beginning upon the walls this week. It is to be a two-story brick, 43 feet frontage, and 36 feet deep. It is to be divided into three divisions, and each department is intended for store purposes. Mr. Wm. Hall has the contract for the mason work, and Mr. Charles Dunk will do the carpenter work.

A CORDIAL RECEPTION.—We learn that our true-hearted friend, and former pastor of the O. M. Church, on this circuit, Rev. J. A. Chapman, had a most cordial public reception upon his arrival at his new home in Wellington. He never had a better reception during his ministry than from the people whom he is now ministering to. We hope his future efforts will be crowned with rich spiritual blessing.

BELLEVILLE.

METHODIST UNION.—The Intelligencer says that the last of the Methodist Churches in the city to vote on the "Union question" was the quarterly Conference of the M. E. Tabernacle. At the meeting held in the Tabernacle on Monday night, the officials of that church decided by a vote of seventeen for Union to three against it, to adopt the "basis." The Church, therefore, that is to have the honor of having the Union consummated within its walls, has given a very handsome majority in favor of it. Already preliminary arrangements are being made for the holding of the Conference which will ratify the Union. The pastor of Bridge Street Church intimated at the service on Sunday evening last, that the families of his church would so arrange their holidays that all would be back in time to entertain the representatives to the various General Conferences, which would meet here in September.

BELLEVILLE.

BRANCH OF PRISONER.—The Ontario says that on Tuesday morning John Gilbert Spencer, a farm labourer, engaged by William Henry Bird, of the 4th concession of Sidney, was arrested on a charge, charged with breach of promise of marriage. The girl's name is Cora Maud Lawrence, daughter of Thos. Lawrence, who has been engaged as a domestic for some time at Mr. Vermilyen's, also in the 4th concession of Sidney. The damages are placed at \$2,000. Cora further claims that Spencer affected her ruin under the promise of marriage. Mr. Maybee, acting on behalf of the Sheriff, made the arrest. Mr. Bird afterwards called bail to the amount of \$1,000, in order to secure the liberty of the prisoner for a few days.

HASTINGS.

A NARROW ESCAPE.—The Star says that Mr. B. W. Smith's youngest son, a lad of five years of age, had a narrow escape from drowning last Saturday evening, he fell into the mill race, and but for the timely rescue of Master Dick Phillips would have been carried into the flame.

AN ACCIDENT.—A buggy came to grief at the corner of Bridge and Front streets on Sunday evening. The front part of the running gear became detached from the rest, and all caused the body to fall to the ground, throwing the occupants, a young man and woman, sprawling into the street.

Bucklin's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancer, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

BURIED TREASURE.

A Norwalk Legend Concerning Barrels of Money.

NORWALK, July 17.—Directly across the south from here on a clear day may be seen the gabled roof of a large weather-beaten house built upon the bluff of Lloyd's Neck. About the middle of the seventeenth century Henry Lloyd was a small farmer on the Neck until one morning, after a terrible north-eastern storm, his workmen reported to him that a large portion of the bluff had been washed off during the night, and several heavy, mysterious looking casks were exposed. Where the casks came from and what they contained was never known to anyone except old Lloyd, who had them carried to his house and buried in his cellar. The supposition is, however, that they contained treasure of some kind, as immediately after the finding of the casks the present large mansion was built, the whole neck of land was bought and many slaves were bought from the South. When the Revolutionary war broke out, and about the time that the British occupied Drummond Hill, now a portion of Norwalk, Henry Lloyd had his slaves bury in an old summer house two large barrels, so heavy that it required six men to lift them, and drawing his pistol shot three of his slaves, whom he caused to be interred on the top of the barrels. The summer house has long since been destroyed and its location lost. The old mansion still stands uninhabited, an object of terror and awe to the few people who visit the neck. Several parties have started to dig for the supposed buried treasure, but have invariably refused to continue work because of the wonderful supernatural sights and sounds which disturb their labors. Another prospecting party is being formed to continue the search as soon as the consent of the present owner of the land is obtained.

Anti-Malaria Influence of Sulphur.

M. Abadi has called the attention of the Paris Academy to some facts in regard to marsh fever. It appears that there are African elephant hunters, from plateaus with comparatively cool climate, who brave the hottest and most deleterious Ethiopian region with impunity, and this they attribute to their habit of daily fumigation of the naked body with sulphur. Again, it appears that in Sicily, while most of the sulphur mines are in high districts and free from malaria, a few are at a low level where intermittent fever prevails; in the latter districts, it seems, while the position of the neighboring villages is attacked by fever in the proportion of 90 per cent, the workmen in the sulphur mines suffer much less, not more than 8 or 9 per cent. being attacked.

TUERK'S WATER MOTOR.

Patented November 8th, 1881.

View of Tuerk's Portable motor, with Tuerk's Improved Governor Attachment.

HYDRANT PRESSURE.

Cheaper, Quicker and Safer than Steam.

Over Fifty Motors of other makes have been taken out and replaced with the Tuerk Motor; among the list are the Bachel, the Sabre, the Little Giant, the Hayward, Clark's Piston Engine, and others.

Names of a few who have taken out Bachel Motors and put in the Tuerk Motor in their place:

G. W. Meikel, Indianapolis, Ind.
Columbus Telephone Co., Columbus, Ohio.
James Egan, Chicago, Ill.
H. C. Hawkins, Cleveland, Ohio.
Printing Office, Hannibal, Mo.
A. Soliman, Hat Manufacturing Co., Norwalk, Ct.
Lake Shore & Mich. R. R. Shop, Elyria, O.
Index Printing Office, Evanston, Ill.
Republicans, Johnstown, N. Y.
Tribune, Salt Lake, Utah.
Alton Printing Co., Alton, Ill.
A. F. Worthington & Co., Cincinnati, Ohio.

Lemon & Co., Waverly, N. Y.
Braun & Jones, Cedar Rapids, Iowa.
Gates, Douglas & Co., Cedar Rapids, Iowa.
Village of Rutland, Rutland, Vt.
W. L. Randall, Chicago, Ill.
A. J. Stoll, Sandusky, Ohio.
Kilbitt & Wayland, Chillicothe, Ohio.
S. A. Morrow, Springfield, Ohio.
E. Friesen, Chillicothe, Ohio.
N. Shelton, Omaha, Neb.
H. J. Lovell, St. Helena, Cal., and others.

Do not fool your time away trying other Motors, but send for the Tuerk Motor, which is warranted to do better work with less water than any other Motor or Water Engine made.

Send for Catalogue, and state what you want to run—give full particulars and Water Pressure per square inch.

TUERK BROS. & JOHNSTON,

86 and 88 Market Street, Chicago, Ill.

REMOVAL.

Has Removed to the Store TWO DOORS NORTH OF BAILEY BROS'. FRUIT STORE, George Street, where she will be pleased to see all her old customers.

FANCY WORK

and WOOLS.

Full Stock on hand of all the LATEST STYLES of Fancy Work, Wools, etc.

The Kelpers Cup.

LONDON, July 18.—The very exciting contest for the Kelpers Cup, which always brings to the fore the crack shots of the outstanding parties was concluded to-day. There were five competitors, and the shooting between Canada and the mother country was so even as to cause great excitement. England, however, proved too strong for her rivals, and carried off the coveted prize with a score of 698. Canada came next with 679, only nineteen behind. Jersey was third with 638, followed by Guernsey with 621, and India took the "wooden spoon" with a score of only 514.—*Mail.*

Gladsone and Bismarck.

The policy of Karl Bismarck in Afghanistan was denounced by Mr. Gladstone as "jingoism," which was supposed to mean something entirely reprehensible and impolitic. Any kind of interference with that country was scoffed at as imprudent meddling with affairs which had no real concern for Great Britain. But in this, as in most other things, the policy of the Conservatives has come to be adopted by Mr. Gladstone and his colleagues, with this exception, however, that what the former fought for in the field, and maintained by British valor, the latter seeks to purchase by an outlay of money. Under Mr. Gladstone's direction the friendship of Afghanistan is now to be secured by purchase, the British East India Government having granted the Ameer an annual subsidy of \$600,000. This may serve to blind the affections of the Ameer until Russia bids higher.—*London Free Press.*

Asleep on an Engine.

English papers relate how the signal man at Llandudno saved the Irish mail passengers from what might have proved a terrible fate. The signal man at the junction received a message from the signal man at Conway, the next station towards Holyhead, that a light engine was coming. The junction signal man, knowing that the Irish mail was due, decided to run the engine into a siding, in order to allow the express to pass. He accordingly put up all the signals against the light engine, but to his extreme astonishment the engine came straight into the junction at full speed, swept round the corner, dashing past all the danger signals, and disappeared down the line towards Chester. A moment's reflection convinced the signal man that both driver and stoker must be asleep. He accordingly wired to the Colwyn Bay station signal man—"Engine coming; driver asleep; put for signals on line." The man at Colwyn Bay was equally prompt, for, running out of his box, he had hardly time to lay a number of signals, when the engine came thundering along and an explosion followed which effectually awoke the men. The engine was stopped and run back into a siding, when it was discovered that the fire had gone out, that the water had disappeared from the boiler, and that the men had been asleep some time. Inquiry resulted in their immediate discharge. They had been fifteen hours on duty.

The Oatmeal Drink.

The slow progress made by the oatmeal drink, notwithstanding its reputation for invigorating properties, is probably due to a great measure to the circulation of unsatisfactory receipts for making it. For example, a contemporary publishes a receipt advising that the oatmeal should be "well boiled," and that brown sugar should then be mixed with it. If it is found too thick after this process, water is to be added to it, and before drinking, the oatmeal is to be well shaken up. "Always boil it if you can," we are told again. When this advice is followed, however, the result will be an insipid beverage, rather suggestive of gruel, and not nearly so fresh and pleasant to the taste as the oatmeal drink recommended last month. We question very much, too, whether it is equally invigorating, as the palate is a pretty safe guide in such matters. The oatmeal, we repeat, should not be boiled, but boiling water should be poured over it in an earthenware vessel. It should be well stirred up, and then allowed to stand till cool, when it should be strained through muslin. It may be drunk either without any flavoring, or if preferred, it may be flavoured by the addition of the juice of fresh lemons and crushed white (not brown) sugar. The proportion of oatmeal is one large tablespoonful to a quart, and when the best coarse oatmeal can be obtained, that quantity will usually be sufficient. If not, a large tablespoonful and a half will be found ample.

DANGER IN BOOKS.

An alarming piece of news comes from Paris. It is stated that an official at the Ministry of Foreign Affairs there has been attacked with yellow fever, communicated to him through a despatch from Brazil. This, if true, is a startling occurrence. We have repeatedly warned our readers against the danger of disseminating disease by means of books and toys. We believe circulating libraries are common sources of peril, and that many grave and even fatal illnesses may be traced to their agency. Books, especially of the "entertaining" class, are read by sick persons, either in bed when recovering from fever and communicable diseases generally, or during convalescence, when perhaps some chest affection with a cough infects the atmosphere. It is, probably, impossible to guard against this, because the organic particles which carry the infection or contagion may lie for weeks, months, or perhaps years, between the pages of a bound book, to be dislodged at some unpropitious moment when the volume chances to be handled by a susceptible person. It would be difficult to imagine a more powerful apparatus for the conveyance of disease than a book. Among the maladies most easily communicable by this agency may be mentioned measles, scarlet fever, diphtheria, ordinary "croup," throat, whooping cough, bronchitis, (perhaps phthisis), and other chest affections, in the course of which the lungs may be giving off poisonous breath and expectoration, and disorders in which the skin is the seat of abnormal changes, or may be throwing off infective material. In short, all that can be communicated is more likely to be communicated by a book than in almost any other way. It is obviously impracticable to disinfect books without injuring them, and the plain inference must be that circulating libraries are to be regarded as possible centres for the dissemination of disease, and that all books used by the sick should be destroyed immediately after use. Disease may be communicated by despatches, letters, or books. It is well that this should be more generally recognized.—*London Lancet.*

U KAN'T KOFF.—Climate cough cures. Quick, sure cure; of all dealers; 15c.

DON'T PULL IT.—Use Newton's one minute toothache cure. Relief at once; of all dealers, 15c.

The French ironclad Bayard has been dispatched to Tonquin to reinforce the fleet and aid the marines.

REV. R. S. FORNER, pastor of St. John's Church, Belleville, has accepted the rectorship of Adolphustown.

A CRUSADE has been started in Buffalo against Canadian silver, which will only be received at 20 per cent discount.

WITH pure blood contagious fevers and other diseases have no hold on the system. Dr. Carson's Stomach Bitters render the blood pure and cool. For sale by all druggists. Large bottles 50 cents.

THE Queensland Executive Council has petitioned for a reconsideration of the decision of the Home Government forbidding the annexation of New Guinea to Queensland.

CHARLES HORNE, a twenty-year-old son of ex-Mayor Horne, of Windsor, while bathing with other boys on Wednesday, got beyond his depth and being unable to swim, was drowned. His body has not yet been discovered.

THE Halifax Customs officers on Wednesday discovered a number of boxes of contraband tobacco being landed from a coasting schooner at one of the city wharves. The vessel and goods were seized, the former being stripped and taken to the Marine and Fisheries wharf.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

DOMESTIC AND USEFUL.

A USEFUL VARNISH.—A superior varnish that will protect the wood of saddle trees from the effects of water, and also act as a preventive from injury by perspiration upon glue and joints, is made of one pound of amber gum, one pound of balsam of fir, and one and a half pounds of oil of turpentine.

GRANITE ROCKS.—Among Russian geologists the belief appears to be settled that granite rocks, once thought to be of igneous and eruptive origin, are really of aqueous formation. The granites of the rapids of the Dnieper, when closely examined, show stratification, and under the microscope they are seen to contain drops of brown water.

SULPHUR IN GAS.—In order to determine the amount of sulphur in illuminating gas Theodore Pollock recommends aspirating the products of combustion from an ordinary Bunsen burner through an inverted funnel leading to a dilute solution of caustic potash to which bromine has been added. The rationale of this is that the sulphur dioxide is oxidized, and may then be determined as sulphate of barium.

ACIDS OF OPIUM.—In a paper on the acids of opium, read by D. B. Dott before the Royal Society, Edinburgh, it is stated that, contrary to the general opinion, the principal acid in opium, judged by its acidifying powers, is sulphuric and not meconic acid, a considerable portion of the morphia being always combined with the sulphuric acid.

An Electric Gun.

During a recent lecture in London before an assembly of army officers, inventors of small arms, and other experts, Col. Fotherby astonished his audience by suddenly drawing from under the table a weapon which he had just brought from Liege, and which he called a "baby electric gun." It could not be discharged until brought in connection with the source of electric force, but that done it could be worked with amazing rapidity, its inventor, M. Pieper, of Liege, having a few days before fired 104 rounds in two minutes. Col. Fotherby exhibited its mode of operation by means of a small electric accumulation secreted under his vest and minute cartridges containing only powder and wad. Various speakers afterwards expressed the opinion that electricity would again revolutionize the manufacture of small arms.

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Catarrh, Asthma, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Strychnine, the wonderful invention of Dr. M. Sogville of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above-named diseases every year. Write, enclosing stamp for list of questions and copy of *International News*, published monthly, which will give you full information and reliable references. Address, International Throat and Lung Institute, 173 Church Street, Toronto; 13 Phillips Square, Montreal, P. Q.; 81 Lafayette Avenue, Detroit, Mich.; or 108 Alexander Street, Winnipeg, Man.

A Blessing to all Sufferers

In these times when our Newspapers are flooded with patent medicine advertisements, it is gratifying to know what to procure that will certainly cure you. If you are Bilious, blood out of order, Liver inactive, or generally debilitated, there is nothing in the world that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle of Taylor & McDonald.—2

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the stool, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

SULPHUR AND IRON BITTERS

will cure dyspepsia, heartburn, malaria, kidney disease, liver complaint, and other wasting diseases.

SULPHUR AND IRON BITTERS

enriches the blood and purifies the system; cures weakness, lack of energy, &c. Try a bottle.

SULPHUR AND IRON BITTERS

is the only iron preparation that does not color the teeth, and will not cause headache or constipation, as other iron preparations will.

SULPHUR AND IRON BITTERS

Ladies and all sufferers from neuralgia, hysteria, and kindred complaints will find it without an equal.

Daily Evening Review

FRIDAY, JULY 20, 1883.

The Cells.

The police cells were untenanted last night. No prisoners and no tramps.

The King-Fisher.

Owing to the number of logs now in the river, the steamer King-Fisher has been withdrawn from her regular advertised trips.

Lacrosse Challenges.

The Peterborough Lacrosse Club have received two challenges from outside clubs. A meeting of the Club will be held to-night to take action on them.

Dairy Convention.

The Eastern Ontario Dairyman's Association have decided to hold their next convention in Peterborough, provided 100 new members be obtained in this neighborhood.

The Maitland Team.

The team representing the Maitland Lacrosse Club, of Toronto, which played here on Thursday afternoon, remained over night, and returned to Toronto on the early train this morning.

Piano Tuning.

Mr. George I. Gumprecht, tuner for Messrs. Mason & Risch, Toronto, is in town, and will attend to any orders left at T. Menzies' book-store or Taylor & McDonald's Drug store.

A Challenge.

The Campbellford Herald says that Mr. T. McNaughton, of Peterborough, the young man who ran in the hour go-as-you-please race in Campbellford on Dominion Day, has sent Mr. W. Vrooman, the winner of the race, a challenge to run from one to fifteen miles for a stake of \$50 or \$100.

Concert and Fireworks.

As previously announced there will be a promenade concert and fireworks at the Drill Shed this evening. No doubt a very large number will avail themselves of the opportunity of again witnessing a good display of fireworks and also, the treat of hearing the band discourse some of their fine selections.

Decorating Day.

Referring to the decoration of the graves of deceased brethren by the Oddfellows, the Port Hope Times says:—

"This is a very good idea, and we trust will be generally carried out. As this beautiful custom is becoming popular we would strongly urge the Grand Lodge to appoint a committee to prepare a suitable ritual to be used on such occasions."

Shipped to the Northwest.

A threshing machine manufactured by Mr. R. Mowry, Ashburnham, was shipped on Thursday to the Canadian Northwest. It was ordered by Mr. Wm. Roseberry, of Smith, for his brothers, S. G. and A. Roseberry, of Elk-horn, N. W. T. Mr. Mowry's machines are well known all over Ontario, and more of them will no doubt follow this one into Manitoba and the Northwest.

Sons of England.

The final meeting before applying for a charter, of those who are about to organize a lodge of the Sons of England Benevolent Association in Peterborough, will be held at the residence of Dr. Spruille on Monday evening at 8 o'clock. Already fifty per cent more than is constitutionally required to secure a charter have expressed their intention of uniting with the society, but as it is desirable that it should start with a strong membership, all who feel an interest in the matter are invited to attend.

Obituary.

The Campbellford Herald has reference to several deaths in that vicinity, among them being the following:—

"The death of our list is also called away from the 'blest staff of hoary age.' We salute to Mrs. Whyte, relict of the late Peter Whyte, of Dunblane, Scotland, and mother of the Messrs. Whyte of Campbellford and Peterborough. The deceased lady passed the last hours of her life at the residence of her son-in-law, Mr. James Fullford, 83, Mount township. She continued on in life's conflicts until she had passed far beyond the allotted time of man, having died full of years—at the age of 63. Of the deceased we can only speak in praise. She lived to fulfill good and noble purposes in life, and met death peacefully with a hope of entering the sweet rest beyond the river of death."

The Crops.

The Globe publishes reports of the appearance of the crops from all parts of Ontario. The following is the report from this country, the figures representing percentages of an average crop according to present appearances:—

"Kilm.—Fall wheat 100. Spring wheat 95. Barley 95. Oats 100. Peas 105. Rye none. Hay 100. Potatoes 110. Corn none. Roots 105. Apples 60. Other fruits 75.

"Newmarket.—Fall wheat 120. Spring wheat 100. Barley 100. Oats 90. Peas 110. Rye 80. Hay 150. Potatoes 100. Corn 120. Roots 120. Apples 80. Other fruits 75.

"Peterborough.—Fall wheat 100. Spring wheat 90. Barley 90. Oats 85. Peas 85. Rye little grown. Hay 110. Potatoes 90. Corn none. Roots 75. Apples 90. Other fruits 100. Note.—The estimate for spring wheat is subject to revision. If the weather should continue wet it will affect low lands. The report applies to vicinity of town of Peterborough."

LACROSSE MATCH.

Peterborough vs. Maitlands of Toronto—A Victory for the Visitors.

On Thursday afternoon a lacrosse match was played on the Ashburnham grounds between teams representing the Peterborough club and the Maitland Club of Toronto. There was a large attendance of spectators, who evinced considerable interest in the game as it progressed. The presence of the Fire Brigade Band added greatly to the pleasure of the occasion.

Mr. D. Rose, of Toronto, Secretary of the National Association, was chosen referee and Mr. Andrew McNeil and Mr. Melville Miller umpires.

At about half past three the teams took up their positions on the field. They were composed as follows:—

Peterborough.
J. Donohue.....Goal.
M. Tierney.....Point.
G. Giroux.....Cover Point.
M. McDonald.....Field.
W. A. Sanderson....." "
M. Halpin....." "
J. Sheehy.....Centre Field.
A. Yelland.....Field.
R. H. Forsyth....." "
C. Rutherford.....Home.
W. Rodkins....." "
J. Reynolds....." "

Maitlands.

J. Clewes.....Goal.
J. Wilson.....Point.
D. Small.....Cover Point.
J. Wright.....Field.
J. J. Walsh....." "
W. Norman....." "
F. Dickson.....Centre Field.
D. U. NeSmith.....Field.
J. Thompson....." "
D. Fitzgerald.....Home.
W. McDonald....." "
J. Ryan....." "
J. Bailey.....Field Captain

The ball was faced at twenty-six minutes to four by Sheehy and Dickson. Sheehy first got the ball, but it soon travelled swiftly in the direction of the Peterborough goal. Tierney took it up the field again and a shot was made at the Maitlands' flag. It was seen from the first that in the Maitlands the home team had the best players to face that they have met here for some time, perhaps the best they have played with on that field. But they made a determined effort not to lose, and during the first game, while each side appeared to be doing all it was able, neither seemed to have an advantage of the other. There was not much play in the field, as the ball was either at one end of the field or the other, and it made repeated trips from the vicinity of one goal to the other. Shots were made on both goals, and neatly stopped, as both teams had a good defence. Rutherford, Sheehy and Reynolds made shots on the Maitlands' goal, but they stopped or turned aside. Finally after twelve minutes of the best play ever seen here, Thompson secured the ball and put it through the Peterborough flag, winning the first game for the Maitlands.

After the usual pause the second game commenced, and it continued lively for eight minutes, at the end of which time an unfortunate occurrence caused a pause. Thompson, one of the Maitland team, received an accidental blow from a 'crosser, and he had to leave the field. He soon after came out and walked around the field, but C. Hudson filled his place and he did not play again during the match. In this game the Peterboroughs were compelled to act more on the defence, and although they did well and showed much good playing, they lost this game in thirty minutes after it was begun, or in thirteen minutes of play. The game was scored by Small, who secured the ball, made a long run and sent it, through by a good shot.

The third and last game was stubbornly contested, but the Peterborough boys must confess that the Toronto boys were more than a match for them. The game lasted nine minutes, during which some close calls were made on the Maitland flag, but Fitzgerald put the rubber through the Peterborough goals, and the game and the match was won by the Maitlands.

The Maitlands then gathered in the centre of the field and gave three cheers for the Peterborough team, and the cheers were heartily returned followed by three cheers for the referee, who had acted in a most impartial manner during the match. The teams then returned to town.

One thing was noticeable during the match, and that was that the spectators showed a commendable spirit, for although the home club were of course the favorites, any good play on the part of the visitors was heartily cheered. This was commented on by the Maitlands, who said they had never received fairer treatment away from home.

Firemen's Demonstration.

We learn that the Peterborough Fire Brigade will be well represented at the Firemen's Demonstration at St. Catharines on August 9th and 10th.

Our Cricket Club.

We learn that our Cricket Club suffered a defeat in Lindsay yesterday. They were beaten by thirty runs. The club will play in Unbridge to-day, when they will perhaps give a better account of themselves as wielders of the willow.

Telephone.

The Bank of Toronto and Darcy's Hotel have been connected with the telephone system of the town. This is a good move on the part of the bank, and its example will doubtless soon be followed by the other banks. The construction of the telephone line between Port Hope and Lindsay is progressing steadily, and it has now reached Mount Pleasant.

Separate School Election.

On Wednesday a meeting was held to nominate candidates to fill the vacancies in the Separate School Board caused by the removal of Mr. D. McDonald, in the First Ward, and Dr. Hourigan, in the Second Ward. For the First Ward Mr. C. Halpin was elected and Mr. J. O'Meara for the Second Ward, both by acclamation, as no other candidates were nominated.

Reverend's Acid Phosphate.

gives strength where there has been exhaustion and vigor in place of impaired vitality.

POLICE COURT.**THE MARKET BY-LAW.**

FRIDAY, July 20.—M. Quinlan was charged by Market Inspector Beavis with violating the Market By-Law by offering to buy potatoes on the market before eleven o'clock. Mr. Quinlan said that no one was near the load at the time, so that he was interfering with no one else, and as his clerk was away, he was in a hurry to get back to his store, and he had offered to buy the potatoes, at about half past ten. He was fined \$5.

Band Competition.

Our Fire Brigade Band has entered for the grand competition, to be held at Chatham about the middle of next month.

Night Frowlers.

At present there are a number of hard looking cases (and their actions, as a rule are in keeping with their appearance) prowling around our town during the "we sma' hours," climbing our back gates, trying back doors, and other such actions as are common with this class of humanity. Last night, or rather this morning, one of our citizens was disturbed from his peaceful slumbers by the loud barking of his dog, who were in a shed adjoining the house. On looking from his bed-room window, he discovered a man just entering the back yard. A watch was kept on the "night-hawk," and his actions noted. He divested himself of his coat, rolled up his sleeves, made a bee-line for a tub of water that was standing close by, dipped his bill in it several times, and then dried himself with his coat tail. His next move was to the pump, his last resort for a smile, when he stooped down and took a long drink, looking around to see if all was clear and then "folded his tent and stole silently away," when the night hid him from the gaze of the bewildered watcher.

Daily Evening Review

SATURDAY, JULY 21, 1883.

THE COMING EXHIBITIONS.

ALTHOUGH the majority of our readers are for the present chiefly concerned about the weather and the ingathering of the season's crops, yet many of them are no doubt giving an occasional thought as to which of the larger autumn exhibitions they will visit when the harvest is over, and will be glad to have a little information as to the chief of these.

The first on the list, in point of time, is the self-styled "Canada's Great Fair,"—the Toronto Industrial—which is to be held in that city from the 11th to the 22nd of September. As a grand bazaar for the sale of goods, combined with horse racing, balloon ascensions, bicycle races, military band concerts, displays of fireworks, lady housewifery, and other attractions of a like character, the Toronto fair is undoubtedly a great institution, and a profitable concern for its citizens, but not an exhibition whose chief end is the promotion of the agricultural interests of the country, further than affording the bone and sinew cheap trips to Toronto, and inducing them to buy things from the merchants of that city which could be obtained upon at least as advantageous terms much nearer home.

The next in order is the Provincial Exhibition, which will be held this year, and for the first time, in the city of Guelph, from the 24th to the 29th of September. As Guelph is the very centre of the stock-breeding and most advanced (agriculturally) part of Canada, an unusually good "farmers' exhibition" may be looked for. Moreover, it is the home of the Provincial Agricultural College and Model Farm, upon the latter of which it has been arranged to have a trial of self-binding reapers during the week of the exhibition, the result of which will unquestionably be looked forward to with very great interest. It has also been arranged that the annual sale of stock bred on the model farm shall take place during the same week. So that taking all these things into consideration we believe all who can will find it both profitable and agreeable to spend the whole of the exhibition week at Guelph, or in the neighbourhood.

The third of the great Exhibitions to which we desire to call attention is the one to be held at Saint John, N.B. from the 7th to the 14th October. In addition to having the Dominion grant for the current year's exhibition the city of Saint John is celebrating its centenary and has joined the Province and Dominion in endeavouring to make the coming exhibition surpass anything of the kind which has ever been held in the eastern Provinces. As an inducement to exhibitors to come forward, there is not only no charge for entries but all the accommodation for exhibits, and food for stock is to be provided free of charge. To those who can spare the time involved in a trip to the Lower Provinces, this will undoubtedly prove a most favourable opportunity for their doing so, while those who go cannot fail to see and learn things which they neither saw or knew before—especially in connection with an important portion of this Canada of ours.

Besides these, another candidate for public favour is to be inaugurated next December, in the form of a Fat Stock show to be held in Toronto on the 14th and 15th of the month just named, and at which prizes, amounting to some \$1,200, will be offered.

DISPUTED TERRITORY.

THE Toronto Telegram, which certainly is not unfriendly to Mr. Mowat, has the following remarks on his last exploit. If the subject must come before the Privy Council, Mr. Mowat has evidently been wrong in blustering instead of going to that tribunal at once:—

Possibly Mr. Mowat has had a little courage put into him since he went to England. He may have got a hint over there as to what course the Home authorities would be likely to take in the event of the boundary dispute being transferred from Canada to the mother land for adjudication, or he may simply be acting on the advice of eminent English counsel. As any rate, it is significant that he waited until going to England before taking any definite action in regard to assuming possession of the disputed territory. If he intends to fight the matter out, he has done the best thing he could do. Possession is nine points of the law, and to continue dawdling over the business was to weaken Ontario's position. We do not suppose that there will be any difficulty of a serious nature, or that anybody will proceed to break anybody else's head. The whole subject will have to come before the Judicial Committee of the Privy Council in England, whose decision will be final. If it should be against Ontario, then the commissioners and special constables who have been sent up to look after the interests of this Province will simply have to come back and make room for the officers of the Dominion.

New 3rd and 4th from Station. Handle from. etc. goods that Brown-Makers have trouble in finding, fresh this week at Turnbull's.

C.P.R. EASTERN SECTION.

Rapid Progress on the Lake Superior Works.

Mr. W. B. Smalley, consulting engineer of the Canadian Pacific Railway, who has just returned to Montreal from a visit to the Lake Superior section of the line, was interviewed by a representative of the Herald. When asked the state of the works he replied, "Very favourable; they have made excellent progress, and the pace will be quickened rather than retarded. The track layers are now 75 miles west of Callander, the grading beyond that point is well advanced, and the rails will be laid to Sudbury Junction—at the 100th mile—by the end of September, and to 25 miles west of the junction by the end of the season. There are some heavy river crossings in this section. The bridges will be of stone and iron of the most substantial character. On the Algoma branch track is laid 30 miles eastward from Lake Huron. Grading is fairly advanced, and with the additional labour that will soon be on the ground, the laying of the rails will proceed uninterruptedly to Sudbury, reaching that point by the end of the season. The whole of the main line, from the junction with the Algoma branch westward to Nipigon, is now occupied by surveying parties, and the work of construction will proceed rapidly."

"How are they doing on the portion east from Prince Arthur's Landing?"

"Very well, indeed; the track is laid east from Port Arthur for about 25 miles, and the grading is well advanced, and we expect to have at least 100 miles of the track laid on that portion by the close of the year. We cannot go ahead at quite so rapid a rate as they show on the prairie section, but we are doing good work there."

"How much will that leave to complete of the Lake Superior section?"

"We call it 620 miles from Callander to Port Arthur. With 225 miles of track laid at the end of the year, the beginning of 1884 will find us with 425 miles to complete in that section, and that will then be the only gap between Montreal and the summit of the Rocky Mountains."

"They have been doing good work on the prairie section?"

"Yes, they have been laying track at an unprecedented rate. In a few days they will be at Calgary, and before the end of the season the rails will be laid on the summit of the Rocky Mountains."

THE TELEGRAPH OPERATORS' STRIKE.

Their Grievances and Object as Stated by Themselves.

We take the following from the official statement of the Executive Officers of the Brotherhood of Telegraphers, concerning the difficulties existing between telegraph companies and their employees. The statement is so long that we cannot publish it at length, but we give the pith of their case in their own words:—

On Monday July 16th, the Executive Board of the Brotherhood of Telegraphers of the United States and Canada, presented to the Executive Officers of the several commercial telegraph companies of the United States and Canada, a memorial placing before them the grievances of the operators and employees generally, and petitioning for the redress of the same. The companies to whom the memorial was presented, embrace the following:—In Canada, the Great Northwestern and the Mutual Union. In the United States, the Western Union, Mutual Union, American Telegraph, Baltimore and Ohio (commercial), New York American District, and the New York Metropolitan Telephone Companies; also the Metropolitan Telephone Company of New York, and the Chicago Telephone Company of Chicago.

The bills of grievances are as follows:—

AMERICAN COMMERCIAL INTERESTS.
Section 1. Believing that man's physical and mental well-being requires that at least one day in seven be reserved for rest and recreation, we ask for the total abolition of Sunday work as a compulsory duty, unless compensated at extra service.

Sec. 2. That eight hours shall constitute a day's work, and seven hours a regular night's work, and that both sexes shall receive equal pay for equal work.

Sec. 3. That a universal increase of fifteen per cent. on all salaries paid, shall be petitioned now for.

CANADIAN COMMERCIAL INTERESTS.

The memorial of the Canadian commercial telegraph employees, is identical with that presented by the American employees, with the exception of section 1, which asks for a fixed compensation for Sunday work of forty cents per hour; section 2, that salaries now paid shall be increased according to the following schedule:—Employees now receiving fifty-five dollars per month and upwards, ten per cent. increase; employees receiving from forty-five to sixty-five dollars per month, fifteen per cent. increase; employees receiving thirty-five to forty-five dollars per month, twenty per cent. increase; and that the lowest salary paid shall be thirty-five dollars per month. This applies to all practical telegraphic employees, such as operators, clerks and linemen.

SUNDAY WORK.

It is almost unnecessary to call attention to the well-known fact that much of labour, skilled and unskilled, when required to perform Sunday work, receive extra, and in many cases double pay for each work, which is not the case with telegraphic employees, who are at present required to perform such service without extra compensation.

HOURS OF LABOUR.

Telegraph operators are required to possess skill of a high order; their occupation is confining and continuous and upon them is concentrated the gravest responsibilities, and this responsibility is constant and oppressive. It wears like upon mind and body and impairs the elasticity of both, while it always demands the best conditions of both. The late Mr. William Orton, President of the Western Union Telegraph Company, whose executive ability and general knowledge on all subjects pertaining to telegraph cannot be questioned, testified before a Congressional Committee that telegraph operators could not perform daily more than six hours of continuous labour without endangering their health, consequently the demand for eight hours day work and seven hours for night work is believed to be reasonable and just. In a number of the principal offices seven hours constitutes a night's work at the present time, but it is claimed by the operators that they have no uniform system of working hours, it being optional with local managers to regulate the same and who to carry favour with their superiors frequently impose extra working hours upon the unprotected operators in order that they may show economical management.

In explanation of the demand for a general increase of fifteen per cent., it is only necessary to call attention to the frequent reductions that have been made, notwithstanding the net profits of handling messages are much greater than in former years, caused by improved machinery and more skillful labour now employed.

Bucklin's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Piles, Chills, Salt Rheum, Fever Sores, Cancers, Ulcers, Chilblains, Corns, Tetter, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

A Venetian Cruise.

The Neptune, belonging to Norway, 54 feet long, 5½ feet beam, and 2 feet deep, sailed for London on the 2nd July. In this cockleshell the captain and sole occupant, Mr. Johnson, a native of Christiansand, 46 years of age, had made an ocean voyage of nearly 1,000 miles. The Neptune left Drontheim, in Norway, on 1st June, and coasted along the land for about 400 miles to Stavanger, where she took in water, etc., and after one day's stay to enable her master to take a rest she left on the 17th June. With a fair wind and a sunny sea she could manage to log seven knots an hour. She made the English coast on 25th June—seven days' passage from Stavanger, her first landfall being Flamborough Head.

Spectacles Needed.

There is no particular age at which spectacles are required. As a rule men need them between forty-five and fifty, and women after forty. Many persons object to using spectacles because they think it makes them look older, and so injure their eyes by straining them, when if they had used spectacles it would not have happened. When one cannot see clearly by gas light or lamp light without holding the object further from the eyes than is agreeable or natural, then they require spectacles, and are injured by not using them. Often the injury is such that no optician can remedy it. Another very good test of the eyes is to see if there is any difficulty at first sight in distinguishing the figure 3 from 5 in ordinary reading by ordinary light. If there is spectacles are needed.—Herald of Health.

The Remnants on Turnbull's Table selling rapidly; fresh ends put out daily.

Convincing Proof.

Having suffered from rheumatism for a long time I was induced to try your Arnica and Oil Liniment. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine.

I am yours truly,

W. H. DICKSON,
218 St. Constant St., Montreal.
To Henry, Johnson & Lord, Montreal.
Arnica and Oil Liniment is sold by all Drug stores.

There is no article so suffering from Headache, Constipation and all the wearying train of symptoms of a disordered liver, when Burdock Blood Bitters is an unfailing remedy, and only costs One Dollar a bottle. Why suffer on without a trial? 25,000 bottles sold during the last three months, with almost universal satisfaction.

"When all other remedies fail," for Bowel Complaint, Colic, Cramps, Dysentery, etc., then Dr. Fowler's Extract of Wild Strawberry comes to the rescue." Thus writes W. E. Crooker, druggist, Waterville, and adds that "its sales are large and increasing."

Practice economy by using the Triangle Dye. Perfect in both color and light shades. Ask for three colored packages. 10c.

Daily Evening Review

MONDAY, JULY 23, 1883.

"RATEPAYER" AND WATERWORKS.

We publish the letter of "Ratepayer" on our waterworks because, as he says, it is well that such subjects should be thoroughly discussed. The reason why we so often have to disagree with "Ratepayer," is that he will not take the trouble to acquaint himself with the facts before writing, and his present letter is a flagrant instance of this bad habit. He is quite incorrect in assuming that the Town Council is asked or proposes to order any hydrants or any water on behalf of the Town of Peterborough. The matter they have to consider is a petition from the ratepayers of a certain district to have a special rate for their protection from fire in a certain manner, as they have a legal right to demand, and if the Council did not act upon their petition, a mandamus would soon ensure their compliance.

At the same time we think the Council was only doing its duty as guardians of the interests of the whole of the ratepayers in asking for a test under the supervision of an expert chosen by it. We believe that test has been perfectly satisfactory, and shows a full compliance with the by-law.

"Ratepayer" must allow us to remark that his constant use of the word "people" reminds us of the celebrated "Three Tailors of Tooley Street." The only "people" who will have to pay for the fifteen hydrants are those of whom a majority may ask to be allowed to pay for them. The rest of "the people," with a very few exceptions, will derive a great benefit without being called upon to contribute a cent, for who is there who would not smile if the business portion of the town were destroyed? Certainly not those who are drawing wages from any establishment that might have to close for a time.

As to the purchase of the works, the town has a right to acquire them under certain conditions set forth in the by-law. But we cannot help remembering that the opponents of water works violently opposed our advocacy of their construction as a municipal undertaking, just as they now oppose them as a private enterprise. It is very well for these opponents of fire protection to plead disinterestedness, but the mention of Dickson's dam, which as usual obtrudes itself in "Ratepayer's" letter, finally reminds us that for many years the constant policy of these gentlemen has been:—"No water-works from Hilliard's dam!—Dickson's dam if you please, or was to the knife."

We need not dwell upon "Ratepayer's" figures for the cost he names for his waterworks is absurdly underestimated. It is sufficient to point out that he omits for one thing, the engineer's salary, which would nearly double his expenditure.

Municipal waterworks having been denied us by these tactics, we rejoice that private enterprise has filled the gap. We also rejoice that the ratepayers of the business portion of the town have preferred a light water rate, with security, to a heavy insurance fund, with a risk of loss. All that the Town Council has to do now is to carry out the wish of the petitioning ratepayers.

SHOULD BE REPRIMAND.

THE local Government knew right well that they cannot establish a "stable Government" in a territory that they do not own.—*Mail, July 23rd.*

We must say that we are exceedingly sorry to find a paragraph such as the above in the columns of any Ontario paper, and still more in those of the *Mail*. Much as we differ from the policy of the Mowat Government with regard to this boundary, we wish it to be distinctly understood that our fault finding relates, not to the extent of territory which they claim, but to the way in which they have sought to obtain our rights.

No matter whether Mr. Mowat or Mr. Moffat be at the head of affairs, it is and will alike be their duty to claim every inch of territory for Ontario, that there is evidence to show we have a reasonable claim to, just as it was Mr. Mackenzie's as well as it is Mr. John Macdonald's duty to see that the Dominion obtains what it is entitled to. About this we should hope there is little difference of opinion, however much there may be as to the best mode of proceeding to obtain a settlement of this dispute. So far as we are aware the Conservatives of Ontario are not in favour of abandoning a single inch of territory to which the Province is justly entitled, and for this very reason are opposed to the acceptance of an award which Mr. Mowat himself admits does not give us full justice, and which all parties

agree is not the legal boundary assigned to us at Confederation.

Under these circumstances we must, for ourselves at least, refuse even an implied assent to a statement that this disputed territory does not belong to Ontario, and we trust many of our confederates will deem it their duty to adopt a like course.

WATERWORKS.

To the Editor of the Review.

Sir,—May I ask you to insert this letter in Monday's *Evening Review*. You have been very liberal heretofore in such matters, and I hope you will be so again. I don't object to whatever remarks you may see fit to make regarding this communication, and it is always well to hear both sides of the question. I assume, from the remarks which you have made, that the test of the water works is satisfactory. I hope it is so. But, nevertheless, I am opposed to the Council paying \$750 a year for the use of fifteen hydrants to the owners of those works, because the cost is too much, and I desire to have the town own the works, and so reap the advantages and profits derived from them. It is admitted that the town can construct such works from the Dickson dam through all the principal streets, for \$15,000, the interest of which would be just the amount which we would have to pay for the fifteen hydrants. With the works in the possession of the town, all the people, served by them, throughout the whole range of the works would enjoy the advantages of the water for \$750 a year, just as a mere section of them would enjoy the water, at the same cost, from the fifteen hydrants only. And, moreover, whatever profits might result from the ownership of the works by the town, the people would be the benefit of. This I want to see the town own and control these works. I have no personal hostility to the company, but I am working for the best interests of the people. And I hope the people will sustain me in my efforts in their behalf. If these present works are satisfactory, let them buy them at a reasonable valuation. If they are not satisfactory, let the town build new works that will be satisfactory, and control and have the benefit of them in behalf of the people. But one thing is certain, if the Council rents these fifteen hydrants from the company, they, by that act alone, place a barrier in the way of this purpose, and they will fall into the hands of the company, and the water will be sold at a valuation, and thus, in the end, the people will be saddled with a large outlay every year for what can now be got for only \$750, by purchasing the present works, or by erecting works of our own. Therefore it is that I ask the Council not to prejudice our prospects by hurrying into the renting of these few hydrants, but leave things as they are, and give the company to plainly understand that they must either sell out at a valuation or that we will build works of our own. You, Mr. Editor, appear to think that I oppose the company for the sake of the company, but it is not so. I oppose it only in order to protect the people from a heavy annual outlay for it, which will soon come to this, and I want the people to have the ownership and control of these works, so as to have the free use of the water at small expense, and so as to have whatever profits may be derived therefrom. I have done my part in this matter, and I now ask the Council and people to do theirs.

RATEPAYER.

Peterborough, July 21st, 1883.

EDUCATION AND POLITICS.

In more respects than may now be apparent the overthrow of the Mowat Government will be a blessing to Ontario. When the Conservatives take the Provincial reins the office of Minister of Education will certainly be abolished, for since the Grits made that a political department there has been little else in connection therewith but scandal and the pretension of its high functions to party necessities. The Department of Education was the one department that the people had to themselves, undisturbed by the ebb and flow of political parties. They took the deepest interest in all its operations because it came home so closely to them and their children. The efforts recently put forth to gain possession of the entire organization in the interests of Ontario have aroused the people to a grave sense of the peril to which their liberties are subject in the name of "Reform." The whole staff of teachers throughout the Province are now under new bondage to the Department at Toronto, under the pretence of making them collectors of industrial news. So far indeed has Mr. Mowat's party gone, in the powers which he has given to the Minister of Education, that they have made the people through their municipal and county councils, that it is a matter of surprise that there has not been an honest uprising of Reformers, besides the Conservatives, to protest against it. The truth is, however, that the real Reformers of the day are to be found chiefly in the ranks of the Liberal-Conservative party. Their opponents seem satisfied with an empty name.—*Thunder Bay Sentinel.*

A Tow.

The largest tow of lumber barges ever seen on Lake Champlain recently cleared from Rome's Point for Whitehall, by the steamer R. H. Cook. The boats, (called boats on Lake Champlain), numbered 62. At Gravelly point they met the steamers Tidale and Grand Isle going north with a tow of 40 boats, and the scene looked decidedly like business. At Plattsburgh the R. H. Cook took on 24 boats more, making 86 in all. Such a string as that would make even the Maritime Barge Line Towing Company protrude its eyes with wonder. Yet one of the big barges on Lake Michigan would probably swallow a whole school of Lake Champlain pollywogs.—*Northwestern Lumberman.*

A Thief Punished.

At Prescott station on Thursday night thieves created an excitement by getting up a row. A pistol was fired, the ball hitting Madam, of Napanea, in the head, and carrying away a piece of the scalp. At this juncture several had their pockets picked of watches and pocket-books. The thieves got on the train and one of them attempted to pick the pocket of a Port Hope young man. The latter punned his head and then threw him off the train, which had begun to move.

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Selmon's, the wonderful invention of Dr. M. Selmon of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above-named diseases every year. Write, enclosing stamp for list of questions, copy of *International Review*, published monthly, which will give you full information and reliable references. Address, International Throat and Lung Institute, 115 Church Street, Toronto; 11 Phillips Square, Montreal, P. Q.; 11 Lafayette Avenue, Detroit, Mich.; or 100 Alexander Street, Winnipeg, Man.

A ROMANCE IN LOGS.

L. Hirsh, a New York importer of fancy woods, has recently returned from a trip to Europe in search of desirable foreign lumber material. He found a large stock of old logs in the Liverpool, Eng., market, many of which have been stored from two to 15 years, being in consequence much weathered and decayed. The London market was destitute, and has almost ceased to be a centre for the shipment of foreign lumber and veneers to the American markets. At Paris the Germans had made a raid on all the available veneers, and in March the market was absolutely bare, and what came in April was seized by dealers with hungry avidity. In Marseille there was a surplus of inferior burls, and only a few choice lots, which were held at very high prices. Some of these it required considerable bargaining to secure at a reasonable figure. By over-hearing a conversation, while making a railway trip from London to Paris, via New Haven and Dieppe, the importer was put on the track of some desirable trees in the south of France. They were reached by going from Bordeaux to Bayonne, and thence to the little village of Perigaux, in a wild, mountainous forest, a spur of the Pyrenees, far from railroads or other avenues of transportation. Lying within a distance of seven or eight miles from the town were the trees. Sixteen huge logs were bargained for. Fifteen of them were shipped away with considerable difficulty, but the largest and biggest trunk, in the language of the importer, "was a terror." When felled, it measured from the butt to the first limb 12 feet in length, and seven feet in diameter, with a wart or burl on it weighing about a ton. The whole log weighed seven tons. It was taken to the nearest railway station by 22 horses, arranged in tandem teams, and 40 men, and shipped to Paris. Eighteen large Normandy horses were used in transferring the log from one depot to another at Paris. The procession attracting crowds and calling forth copious newspaper mention. The manager of the Jardin des Plantes, or Bureau of Agriculture, viewed the log and visited its owner, and wanted it placed on exhibition as a great curiosity. He took the owner's refusal sorrowfully, and regretted that the New Yorker was not a Frenchman so that he might receive the red ribbon of the Legion d'Honneur, to which he would have been entitled for the discovery of the giant log. The latter was transported to Havre, and at last accounts no steamer that would take it to America had been found. The importer pronounces the log a great beauty as well as a monster, and that he might receive the red ribbon of the Legion d'Honneur, to which he would have been entitled for the discovery of the giant log. The latter was transported to Havre, and at last accounts no steamer that would take it to America had been found. The importer pronounces the log a great beauty as well as a monster, and that he might receive the red ribbon of the Legion d'Honneur, to which he would have been entitled for the discovery of the giant log.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Dr. Williams' Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Practice economy by using the Triangle Dye. Perfect in both dark and light shades. Ask for three cornered package. 10c.

Bona-Fide Auction Sale

30

DESIRABLE

BUILDING LOTS

In a Convenient Part of the Town.

MR. DONNELLY

OF BELLVILLE, having decided to dispose of all his Property in Peterborough, has instructed me to offer for Sale by Auction,

At the CAISSE HOUSE

At TWO O'CLOCK P.M., on

SATURDAY, 28th of JULY

30 Desirable Building Lots on Westcott Street, foot of George Street.

This property is situated within a few minutes walk of the Market, and is quite convenient to the proposed new station of the Ontario and Quebec Railway. In order to close the whole transaction off, it has been decided to offer each lot at an upset price, and at a figure so low that intending purchasers will do well to be promptly on time.

TERMS OF PAYMENT.

One-third Cash; balance in three equal annual instalments with interest at six per cent. Persons purchasing one lot will have the option of the adjoining lot at the same price.

For Plan of Lots see large posters.

Daily Evening Review

TUESDAY, JULY 24, 1883.

OUR DESPATCHES.

As the grievance between the telegraph
operators and the companies has not yet been
settled, and as the strike continues, we are
again compelled to apologize to our readers for the
non-appearance of our usual American
despatches and cablegrams.

Our Public Buildings.

Mr. Fuller, architect of the Public Works
Department, Ottawa, visited Peterborough to-
day for the purpose of inspecting the several lots
offered as a site for the building which
the Dominion Government is about to
erect here for the accommodation of the
Post-office, Custom House, Excise, Weights and
Measures, and Trent Navigation officials. In
making the inspection he was accompanied by
Thos. Menzies, Esq., acting mayor, George
Hilliard, M.P., and others. He was also driven
about the town, so as to enable him to form an
intelligent opinion as to which of the sites will
be most convenient for our citizens. He will
report the results to the Minister, who will
doubtless soon thereafter make a selection and
proceed with the erection of these offices.

In a Fit.

The following item appears in the Toronto
Telegram of Monday evening:—
"A stranger named Rickie, from Peterborough, was
seized with epileptic fits on King Street this afternoon.
P. C. Davis carried him into Disen's store where he
recovered."

The Missing Link.

The ballasting of the Missing Link was com-
menced within the town limits this morning, a
ballast train with a number of men being at
work. The ties have been placed in position
and the rails spiked to them.

For the T. V. C.

A carload of Italians and Greeks went up on
the noon train to-day to Barkhorn to work on
the Trent Valley Canal.

Barford's Acid Phosphate

given strength where there has been exhaustion
and vigor in place of impaired vitality.

MIDNIGHT TELEGRAMS

CABLE.

CETWAYO DEFEATED.

LONDON, July 23.—A Durban despatch says it
is reported that Usibba has defeated Cetwayo
and burned Ulundi. Cetwayo is said to be
wounded.

THE AMER ACCEPTS A SUBSIDY.

LONDON, July 23.—The Amer of Afghanistan
has accepted the subsidy offered him by the In-
dian Government.

THE SULTAN'S DRIVE.

LONDON, July 23.—The Sultan yesterday
drove about the city in an open barouche, and
visited the relics in St. Sophia and other of the
more important mosques.

ANOTHER NIHILIST PLOT.

St. PETERSBURG, July 23.—A clue to a
Nihilist plot has been discovered at Tula, the
capital of the government of that name.

THE POPE'S CIRCULAR.

LONDON, July 23.—Cardinal McCabe, in re-
ceiving the clergy on Sunday, condemned the
false teachers who asserted that the Pope in
issuing his late circular was exceeding the
legitimate sphere of his authority or had been
influenced by secular motives. Those disobey-
ing the circular incurred the guilt of heresy.

THE TONGVIN AFFAIR.

LONDON, July 23.—A Hong-Kong despatch
says the Chinese have prohibited the export of
bullocks for the use of the French troops in
Tonquin. Two cargoes of cattle have been de-
tained at Hainan. The French admiral made a
strong complaint and the British consul also
protested, some of the shipments being by an
English firm.

INTERESTING TO IMMIGRANTS.

BERLIN, July 23.—Prince of Hohenlohe-
Langenburg, president of the German Colonial
Society, is about to start for a two months' tour
through the United States and the
North-West of Canada.

PURCHASE OF A HANS MAKART.

BERLIN, July 23.—Mr. James, a banker, of
Irvington, N.Y., has purchased Hans Makart's
painting of Diana and her hunting train for
\$35,000.

THE SUEZ CANAL.

LONDON, July 23.—Mr. Gladstone announced
in the Commons this afternoon that he would
not ask Parliament this session to sanction the
agreement with regard to the Suez canal. The
announcement was received with cheers by the
Opposition. In the Lords, Lord Granville said
the agreement would be referred to a special
committee. Mr. Gladstone said on considera-
tion the agreement was dropped, owing to the
general objection to the scheme, and because
more time had been asked by some members.
He expressed the opinion that the canal should
ultimately be placed under the control of an
international committee. (Cheers). England,
said Mr. Gladstone, will not use her temporary
exceptional position in Egypt to invade law-
fully acquired rights. M. de Lesseps informed
Sir Rivers Wilson that he considered the Gov-
ernment was not in any way bound to press the
agreement on Parliament, but whatever should
be done the second canal would be constructed
as rapidly as possible.

CHOLERA IN BOMBAY.

LONDON, July 23.—A serious outbreak of
cholera is expected in Bombay. There were
thirty-seven sporadic cases last week. At Suez
the quarantine against infected ports has been
renewed.

THE EPIDEMIC SPREADING.

CAIRO, July 23.—Fifteen hundred of the in-
habitants of Bulak have been removed up the
Nile to the natives opposite the removal of pati-
ents to the hospital. The disease is very sud-
den in its effects, and people frequently fall dead
in the streets. The epidemic is spreading north-
ward as well as southward.

THE AMERICAN TEAM.

LONDON, July 23.—The Daily Telegraph, re-
ferring to the international rifle match, praises
the courage with which the Americans came to
struggle with experienced shots. It is possible
the Americans were defeated because their
weapons were inferior at the long ranges. The
English should not boast of their victory, as at
what may be considered military ranges they
were beaten on their own ground. The Daily
News says it is fair to the Americans to note
that the sort of atmosphere with which they are
best acquainted makes it particularly difficult
for them to allow for the antics of English
summer weather at Wimbledon, which is ill-
natured but very patriotic. The Times, refer-
ring to the rifle match, says:—"To qualify our
national complacency, it is well to remember,
not only the superiority of the Americans at the
shorter and more practically important ranges,
but that, though shooting in weather stranger to
them than the English, they made a closer
fight than at Creedmoor. It would have been
unjust to insist upon their abandoning their
wind gauges."

AMERICAN.

CHOLERA IN LONDON.

WASHINGTON, D. C., July 23.—A rumour
reached here that cholera had appeared in the
London dock. The Secretary of the Treasury,
at the suggestion of the surgeon-general of the
marine hospital service, cabled instructions to
the American consul at Liverpool to immedi-
ately appoint sanitary inspectors, who shall in-
spect all vessels leaving the United Kingdom
for the United States, and notify by cable the
health authorities of this country of all such ves-
sels having the disease aboard, or which are
liable to develop the disease on the voyage.

South Victoria Election Case.

The Toronto World says:—Notice of appeal
has been served on behalf of the petitioner in
the South Victoria case, the petition against Dr.
J. McIntyre, the Reform candidate, having
been dismissed with costs. The question as to
whether railway companies can give voters free
rides will come under discussion.

A Warning to all Mankind.

In these times when our Newspapers are
flooded with patent medicine advertisements, it
is gratifying to know what to procure that will
certainly cure you. If you are Bilious, blood
out of order, Liver inactive, or generally debilitated,
there is nothing in the world that will
cure you so quickly as **Electric Bitters**. They
are a blessing to all mankind, and can be had
for only fifty cents a bottle of Taylor & Mc-
Donald.—2

Relieving Piles—Symptoms and Cure.

The symptoms of piles, life punishment, intense
itching, increased by scratching, very distressing, par-
ticularly at night, some as if pin-worms were crawling
above the parts affected. If allowed to continue very
serious results may follow. **SWAYNE'S OINTMENT**
is a pleasant, sure cure. Also for Tetter, Itch, Salt
Rheum, Scald Head, Erysipelas, Barbers Itch, Ringworm,
all sorts, crusty Skin Diseases. Sent by mail for 50
cents. Sample 1.50. (In stamps) Address: **SWAYNE & SON**, Philadelphia, Pa. Sold by Druggists.

FROM ALL OVER.

A NUMBER of officers in the Egyptian Army
have been sent to penal servitude for complicity
in the Alexandria massacre.

THE new freight yard of the Canada Pacific,
at Winnipeg, is the finest on the continent.
There are no less than sixteen tracks capable
of holding eighty cars each.

DR. CARSON'S Stomach Bitters free the sys-
tem of the poisonous humours that develop into
Kidney and Urinary diseases, give tone and
vigor to the Stomach and purify the Blood.

THE London season has been short but bril-
liant, and town is now rapidly emptying. The
Queen remains at Windsor, and seriously feels
Princess Beatrice's departure for Continental
wintering places for the benefit of her rheuma-
tism.

It is now in season to warn our readers
against the sudden attacks of Cholera, Cramp
Colic, and the various Bowel Complaints inci-
dent to the season of ripe fruit, vegetables, etc.
Dr. Fowler's Extract of Wild Strawberry is the
grand specific for those troubles.

It is said that the reason for Hanlan's dis-
play of temper in Ogdensburg was that it had
come to his knowledge that Courtney had
previously been boasting in bar rooms that he
would pick a quarrel with Hanlan, and so
get him "off his base," before the race took
place.

Do not attempt to remain over night without
a bottle of Dr. Fowler's Extract of Wild Straw-
berry near at hand. This is the season for
Bowel Complaints, Colic, Cholera Morbus, etc.,
and the remedy above named is the unfailing
specific.

THE St. John Globe, commenting on the fact
that all the female teachers in Halifax favoured
one session daily in the public schools while all
the male teachers favor two, states that the
St. John Board tried both ways and have de-
cided in favour of a forenoon and an afternoon
session separated by an intermission of an hour
and a half.

A CURE FOR CHOLERA MORBUS.—A positive
cure for this dangerous complaint, and for all
acute or chronic forms of Bowel Complaint inci-
dent to Summer and Fall, is found in Dr.
Fowler's Extract of Wild Strawberry; to be
procured from any druggist.

THE Swiss National Council, by a majority of
72 to 45, has passed a resolution in favor of sub-
stituting, as far as may be compatible with ex-
isting commercial treaties, a protectionist for
the present free trade tariff. This resolution
has still to come before the Council of State,
and is likely to be confirmed.

"WHEN all other remedies fail," for Bowel
Complaint, Colic, Cramps, Dysentery, etc.,
"then Dr. Fowler's Extract of Wild Straw-
berry comes to the rescue." Thus writes W. H.
Crocker, druggist, Watertown, and adds that
"its sales are large and increasing."

AN English gentleman with his wife and two
children were upset by a sluice near St. Lam-
bert. The lady held her infant and boy above
water until Mr. Daniel Davies, boatman near,
came to her rescue. Although all four were
struggling in the water at once, Mr. Davies
saved them. The mother at the last moment
dropped the boy, who was saved with little to
spare.

Tom Thumb's Funeral.

BRIDGEPORT, Conn., July 20.—On the arrival
of the body of Charles Sherwood Stratton
(General Tom Thumb) at this city from Middle-
boro, Mass., it was met and taken charge of by
a delegation of the Hamilton Commandery of
Knights Templars, and escorted to St. John's
Episcopal Church, and yesterday the body lay
in state at the church, where fully 10,000 people
took a last look at it, many coming from the
surrounding towns. The coffin was three feet
ten inches in length, and covered with black
broad-cloth, with silver trimmings and Ma-
sonic emblems. It bore a silver plate with the
following inscription:—"Charles S. Strat-
ton, aged 45 years, 6 months and 11 days." The
body was dressed in a full dress suit. The face,
presenting a peaceful expression, looked natural
as life. Upon the left lapel of the coat rested
a solid gold jewel of the thirty-second degree, A.
A. R. The entire Episcopal service, includ-
ing committal, was performed at the church,
Hamilton Commandery No. 5, with the Howe
band, and St. John's Lodge No. 3, attending in
a body. The body was taken to Mount Grove
Cemetery, where the coffin was incased in solid
mahogany, two feet thick, and covered with a
marble slab weighing several tons.

A Satisfactory Tribunal.

Speaking of the Mercer case, the Hamilton
Spectator says:—

"The issue has now been decided in favor of
the Province by a court which Mr. Blake was
of opinion should not have any voice in
determining legal questions arising in Canada.
The Premier of the Dominion aided by his con-
sistent bringing about of the settlement of the
difficulty, and the people will now naturally ask
why it is that if one question can be so satisfac-
torily settled by an appeal to the Privy Council,
others cannot be referred to the same high court.
There is the question of the Boundary, for ex-
ample, about which Mr. Mowat is making such
a hubbub. Why cannot the same body that has
settled so satisfactorily to Mr. Mowat's conten-
tion in the Mercer case settle that also? If
it were not intended to be used merely as a polit-
ical stalking horse, it would no doubt have been
determined in that way long ere this."

Excited Thousands.

All over the land are going into ecstasy over
Dr. King's New Discovery for Consumption.
This great life saving remedy, causes them to
go nearly wild in its praise. It is guaranteed
to positively cure Severe Coughs, Colds,
Asthma, Hay Fever, Bronchitis, Hoarseness,
loss of Voice, or any affection of the Throat or
Lungs. Trial bottles free at Taylor & McDon-
ald's Drug Store. Large size \$1.00.—2

Personal to You Only!

The Voltaic Belt Co., Marshall, Mich.,
will send Dr. Dye's Celebrated Electro-Vol-
taic Belts and Electric Appliances on trial
for thirty days to men (young or old) who are
afflicted with Nervous Debility, Lost Vitality
and Manhood, and kindred troubles, guaran-
teeing speedy and complete restoration of health
and manly vigor. Address as above. N. B.—
No risk is incurred, as thirty days' trial is allow-
ed.

Convincing Proof.

Having suffered from rheumatism for a long
time I was induced to try your Arniea and Oil
Liniment. The first application gave instant
relief, and now I am able to attend to business,
thanks to your wonderful medicine.

I am yours truly.

W. H. DICKINSON,
218 St. Cosmo St., Montreal.
To Henry, Johnson & Lord, Montreal.
Arniea and Oil Liniment is sold by all Drug
stores.

The colors of the Triangle Dye are so beautiful
and their use so simple, they had the eye market of the
country. 10c.

A. L. DAVIS & CO.

Daily Evening Review

TUESDAY, JULY 24, 1883.

MR. MOWAT'S TRIUMPH.

It is so seldom that Mr. Mowat scores a victory as a constitutional lawyer that we are not surprised that his political friends make much of the decision just rendered by the committee of the Privy Council in the Mercier case. Without the full text of the judgment delivered it is impossible to discuss the grounds upon which the highest court in the realm has arrived at the decision which it has done, or what is likely to be the effect of this judgment upon the relative positions of the Provincial and Dominion authorities to one another. Judging by the position taken in the despatches which passed between Mr. Mowat as Attorney General of Ontario, and Mr. Fournier, Mr. Mackenzie's Minister of Justice, at the time when this issue was first raised between the Ontario and Dominion authorities, it would appear that the judgment just rendered may have been arrived at on either of two grounds, namely: either that escheated property passed to the Provinces under the 109 sec. of the Confederation Act, transferring all lands, &c., to the Provinces subject to existing interests, other than those of the Crown, or upon the broader and more important ground contended for by the Mowat Government, and equally strongly denied by the Mackenzie Government, viz.: "that all rights of the Provinces as they existed before Confederation, have, by the Confederation Act," been divided between the Dominion and the "Provinces, and that whatever has not been given to the former is retained by the latter," (vide Mr. Fournier's report of the 26th March, 1878). Should the decision just given be based upon the last named ground, it is obvious that it must have a most important bearing upon the future positions of the Dominion and Provincial Governments—so far as the older Provinces are concerned—and will fully justify the expense which has been incurred in carrying the matter before the Privy Council, while if Mr. Mowat has been successful only on the narrow, and as Mr. Fournier pointed out, really unimportant ground that escheated property goes to the Provinces under the 109 section of the Confederation Act, it will be apprehended scarcely prove worth the powder which has been expended upon it, inasmuch as, until Mr. Mowat became Premier "the Crown has never sought to retain the same (that is property escheated or "forfeited to it for crime or for want of heirs)" "for its own benefit or that of the public; but "has given it to the parties, who, but for the "escheat would have been entitled thereto," (vide Mr. Fournier's report).

But while we have no desire to detract from what his friends are pleased to call "Mr. Mowat's Triumph," yet it seems to us there are two or three points which it will be well for the public, and especially his admirers, to bear in mind in connection therewith. In the first place they should remember that every word uttered in laudation of Mr. Mowat in this matter is also a word of condemnation of Mr. Mackenzie's Minister of Justice, who prepared the report from which we have quoted, and of the Mackenzie Government, who upon that report disallowed Mr. Mowat's "Act to amend the law respecting escheats and forfeitures" of 1874, and thereby in the most positive and emphatic manner refused to either adopt a policy of "non-interference," or "to recommend the "Dominion Parliament to pass an act confirming what has been done in Ontario, and either "expressly giving escheated and forfeited "property to the Provinces, or distinctly recognizing by declaratory enactment their right "to such property." (see Mr. Mowat's report of February 1878).

Secondly, that Mr. Mowat in taking up the position which he did was only following in the footsteps of Mr. Sandfield Macdonald, who also claimed that such property accrued to the Provinces, and not to the Dominion.

Thirdly, that when the interests of the Dominion and Provinces clashed—as they did with regard to escheated property—and the point at issue was one of law—as the boundary dispute is—the Mackenzie Government refused to ask the Dominion Parliament to deal with it, but instead adopted a policy which compelled its ultimate decision by the highest court in the realm—the Judicial Committee of the Imperial Privy Council—just as the Macdonald Government have contended all along, should be done with regard to the Boundary Embroglio.

Fourthly, that the Conservative party, although then in opposition in both Parliaments, and although all the Provinces were in the same boat with regard to this matter, did not utter one single word against the then Anti-Provincial policy of the Mackenzie Government, or against

the settlement of such a question by the legally constituted authorities. Doubtless, had Sir John Macdonald been in power instead of Mr. Mackenzie, he would have suggested, as he has so often suggested with regard to the Boundary matter, that the whole question should be referred direct to the Privy Council, instead of dragging it through all the courts, to the great disadvantage of every one except the lawyers employed thereon, and as Mr. Mowat seems bent on doing in the Boundary matter, if we may judge by his present tactics.

And fifthly, the friends of Mr. Mowat would do well to remember that the decision just given cuts the ground from under their oft repeated statement that the Provinces could not obtain justice at the hands of men sitting in a "foreign" country, and to their assumption that an abandonment of the award with which they are so much in love, would be equivalent to an abandonment of the territory assigned to us by that award, and an admission that the Dominion's contention with regard to the same is correct.

Now that Mr. Mowat has had personal evidence of the fairness and ability of the gentlemen who compose the Judicial Committee of the Privy Council, we trust he will abandon his present policy with regard to the Boundary dispute, and adopt Mr. Meredith's policy of referring the whole matter to the court in which, if he has not obtained a political triumph, he has at least obtained a triumph over the legal acumen of the Mackenzie Government.

Piling Lumber.

Lumber should not be allowed to depreciate for lack of proper care in piling. Piles should be built so that the front cross pieces shall be higher than the back, and each in succession be overlapped, or laid out a trifle beyond the previous one. A pile 20 feet high should incline outward from base to top at least 18 or 24 inches. The sides of the pile should be carried up plumb, each cross piece directly on top of another, so that the weight shall rest solidly on each, and on the foundation timber. If the courses be placed a little forward or back of the previous one the weight above will twist, warp and perhaps break the lumber. Piles should never be placed less than three feet apart, and boards in the pile should always be laid with from two to three inches of space between them.

A Saw Mill Burned.

For several days the saw mill of Thompson & Avery, at Sharbot Lake, had been shut down for repairs. The machinery was out of gear and workmen were engaged in fixing it. About ten o'clock last evening the mill took fire and burned with great rapidity. Several of the workmen had a narrow escape from being burned. It is supposed that a light fell upon some of the waste oil about the machinery and hence the conflagration occurred. The loss totals about \$3,000, with an insurance of \$400. A considerable quantity of shingles and lumber was destroyed. The mill was burned in a very short time. Thompson & Avery may rebuild, or they may purchase one of the other mills in the vicinity.—*Kingston Whip*.

Fatal Row at a Picnic.

QUARANTINE, S. I., July 22.—The police here have been telephoned that during a picnic at Meyer's Grove to-day, of the David Lesson Association, Jersey City, a riot occurred, and that two men were killed and forty seriously wounded. No further particulars have been received.

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Strymoneter, the wonderful invention of Dr. M. Souville of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above named diseases every year. Write, enclosing stamp for list of questions and copy of *International News*, published monthly, which will give you full information and reliable references. Address, International Throat and Lung Institute, 178 Church street, Toronto; 13 Phillips Square, Montreal, P. Q.; 81 Lafayette avenue, Detroit, Mich.; or 106 Alexander street, Winnipeg, Man.

A VALUABLE DISCOVERY.—One of the most valuable discoveries in the medical science, for the benefit of mankind, was made when Burdock Blood Bitters were invented. This medicine positively cures all diseases of the Liver, Kidneys, Stomach, Skin and Blood. 25,000 bottles have been sold during the last three months.

THERE is no excuse for suffering from Headache, Constipation and all the wearying train of symptoms of a disordered liver, when Burdock Blood Bitters is an unfailing remedy, and only costs One Dollar a bottle. Why suffer on without a trial? 25,000 bottles sold during the last three months, with almost universal satisfaction.

Dr. Cassen's Stomach Bitters remove Constipation, relieve Dyspepsia, dispell Sick Headache, abolish Biliousness, and regulate the Stomach, Liver and Bowels.

Daily Evening Review

TUESDAY, JULY 24, 1883.

A Treat.

Base Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

Harvest Commenced.

Mr. Patrick Heffernan of Lot No. 1 in the 7th Con. of Douro, commenced cutting his fall wheat on Monday last the 23rd inst. The crop he informs us is the best he ever cut, it being on high ground, and the wet season just suited his land.

Picnic.

The Baptist Church Sunday School Picnic will be held on Tuesday, 7th August, at Hastings. The train will leave at 6.45 a.m. Not only the members and adherents of the church, but the public are cordially invited to join this excursion, which no doubt will be one of the most delightful of the season.

The Weather.

The weather to-day is cool and cloudy, and at the time of writing there is every indication of rain. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 o'clock a.m., to-day, by the Great Northwestern Telegraph company, are as follows:—Lakes—Fresh wind, mostly from the east and north, fair to cloudy cooler weather with rain areas.

Sons of England.

At a meeting last night eleven candidates were presented to the doctor and successfully passed the medical examination. The formal opening of the Lodge will take place on Monday in August, if arrangements can be made for that date with the officers of the Grand Lodge. The name decided upon for the new lodge is Lansdowne, in honor of the new Governor General. The meeting adjourned until Friday evening to pass the remaining candidates, and the application for the charter will then be immediately forwarded to the Grand Secretary.

Our Band.

The band will not play on the square this evening, as they are at present practicing steadily for the competition that is to take place at Chatham on August the 15th and 16th. They will, however, play in the Court House Park on Friday evening, weather permitting, when a choice programme of music will be rendered. It is the intention of the band to have a grand Promenade Concert previous to their departure, which will be given on Monday evening the 13th of August, of course the public will be expected to turn out in large numbers and assist the boys in paving the way to success.

A. C. A.

On Saturday the local committee forwarded to Dr. C. A. Neide, the secretary, for enrolment, the names of one hundred and two new members. Of these 7 are from Lindsay, 14 from Lakeside, 73 from Peterborough, and 8 from other places in Canada. Besides these a number of persons from different parts of Canada have sent their names direct to Dr. Neide. The list will yet be largely increased. The number of Americans present at the camp will probably not be short of one hundred—a large number when the distance is taken into consideration. Gentlemen intending to join the association, especially those from outside places, should send in their names and fees at once, so as to get the certificate of membership entitling them to return tickets at a fare and a third. All the railways in Canada make this concession and carry canoes free, and the following railways in the United States:—The Chicago and Grand Trunk, Pennsylvania, Delaware and Hudson, Ogdensburg and Lake Champlain, Utica and Black River. The steamer Norseman does the same, while the Midland Railway issues return tickets at one fare.

Mr. Orange Fraser, of Columbus, Ohio, was the first American member to reach our waters. He launched his canoe at Port Perry about ten days ago and paddled round the chain of waters by way of Lindsay, Bobasgon, Buckhorn, Stony Lake, and thence down to Peterborough. He arrived here on Friday, and was met by some members of the reception committee, who took him about town as much as his limited time would allow, one of the members afterwards escorting him some distance down the river, where he camped for the night. After a visit to the Thompson Islands, he will return in time for the camp on the 10th of August. He reports that he received every attention from the Grand Trunk and Midland Railway authorities, and had no trouble whatever in bringing his canoe along, it being his way by night of the map and directions of the route furnished to him.

Harwood and Idyl-wild.

The steam-boat will make a trip to and from Harwood and Idyl-wild on Thursday, leaving Peterborough at the usual hour.

Tall Clover.

On Monday morning Mr. Samuel Smithson, of South Monaghan, measured on his farm clover 5 feet 2 inches in length. Who can beat this?

The Lindsay and Uxbridge Match.

We give below the scores of two cricket matches played by the Peterborough Club at Lindsay and Uxbridge on the 19th and 20th July.

Our club was disappointed in getting together a good representative team, several men falling them at the last moment. However, as the engagement was made it was determined to play with the best team available under the circumstances.

The Lindsay team received the assistance of Geo. Hall, of Port Hope, and Boyd, of Toronto, who both bowled all through the match and added a considerable number of runs to the Lindsay score. The Uxbridge team has just returned from a tour, is in excellent practice, and is a very strong team.

Bona-Fide Auction Sale

OF

30

DESIRABLE

BUILDING LOTS

In a Convenient Part of the Town.

MR. DONNELLY

OF BELLEVILLE, having decided to dispose of all his Property in Peterborough, has instructed me to offer for Sale by Auction,

At the CAISSE HOUSE

At TWO O'CLOCK P.M., on

SATURDAY, 28th of JULY

30 Desirable Building Lots on Westcott Street, foot of George Street.

This property is situated within a few minutes walk of the Market, and is quite convenient to the proposed new station of the Ontario and Quebec Railway. In order to close the whole transaction off, it has been decided to offer each lot at an upset price, and at a figure so low that intending purchasers will do well to be promptly on time.

TERMS OF PAYMENT.

One-third Cash; balance in three equal annual instalments with interest at six per cent. Persons purchasing one lot will have the option of the adjoining lot at the same price.

For Plan of Lots see large posters.

A. L. DAVIS & CO.

Daily Evening Review

WEDNESDAY, JULY 25, 1883.

In consequence of the admitted inaction of the License Inspector for the County of Halton another Inspector has been appointed by the Municipal Government for three townships of the county. The Inspector who has thus neglected his duty is, however, still retained in office.

In the *Fortnightly Review* Bishop Wordsworth in "A Chapter of Auto-Biography," quotes Mr. Gladstone, the father, as saying: "My son William has ability but no stability." This criticism from such a source throws some light upon the career of this extraordinarily able but somewhat incomprehensible statesman.

We publish in another column an article from the *Toronto Globe* on "Professional esprit du corps." We fully agree with its remarks on "the impersonality of newspaper writing," and the bad effects of not observing this rule. We would now like to see the *Mail* taking the same ground, and both of our great Canadian newspapers acting up to this principle. Such an example would soon have a beneficial influence upon their contemporaries.

This organ of the Reform party at our Dominion capital has the following remark in an editorial on the telegraphers' strike:—

"Telegraphy is really part of the postal system, and should be a branch of it under departmental control. This has been recognized in England, to the great advantage of the public, and it ought to be absorbed by the Government in Canada. In fact the time is fast approaching when we will be called upon to decide whether private capitalists or men chosen by the vote of the people shall govern the country as common carriers."

The *Ottawa Free Press* of Monday has the following editorial note:—

"The Liberals of Halifax are a mighty sleepy-headed lot, or they would not allow Mr. Cairns to walk the course to-morrow. As the late lamented David Crockett once remarked: 'You can never lick a man unless you fight him.'"

The Reformers in New Brunswick tried fighting the other day, and were badly beaten. The Reformers of Nova Scotia think discretion the better part of valor, and will not attempt a hopeless contest. The Reform journals have been boasting of a reaction in the Maritime Provinces against our Conservative Administration at Ottawa, but when we come to facts the hollowness of their pretensions is evident.

STILL COVETING OTHER MEN'S GOODS.

The *Globe* is making much of an opinion of Mr. John Bell, Q. C., of Belleville, that the River Moira is for the lumbermen a public highway, and that they have a right to use it for floating their logs, but with all diligence and as little harm to others as possible, being liable for damages if negligent. It is in vain that our contemporary quotes this opinion in favor of the disallowed *Strenuous Bill*, and of Mr. Caldwell's attempt to appropriate Mr. McLaren's property.

Mr. Bell's opinion is no doubt correct as to the Moira, a floatable and even navigable river, but Mr. McLaren's private improvements have been decided by our law courts to be on non-floatable streams, and it was in consequence of this decision that Mr. Mowat endeavored to over-ride it in favor of his political supporter by passing a law declaring that all streams should be and had been open to such use by lumbermen. The courts say that Mr. Mowat was wrong in his law, and the executive of Canada says that Mr. Mowat cannot be allowed to appropriate private property without full compensation, or to revise by legislation the decisions of the courts.

Mr. Caldwell may take his logs down a public highway if he will, but not through Mr. McLaren's private property. He and any four others can buy that at a valuation if they want it.

The *Canadians' Invasion*.
The *Winnipeg Times*, in an article on the disputed territory, says:—

"It is becoming apparent, however, that Commissioners Burden and Pattullo and their retinue of bullies and specialists are bent on nothing more serious than an attempt to save Mr. Lyon's seat. If Mr. Plummer carries Alberta it will go hard with Mr. Mowat when the Ontario Assembly meets. The tide is running against him, and he is likely to lose a seat or two through the deception of some of his supporters in the Election Court. Mr. Pattullo is a good hand in an election fight, and he will no doubt make a pretence of occupying the territory until the polls close. The army of occupation will then march down the hill again, and the region will continue to remain a no man's land until the case is settled by the Supreme Court or the Judicial Committee of the Privy Council."

ROBBING A ROTHSCHILD.

Thieves Obtain \$4,000 Worth of Precious Stones.

A most daring diamond robbery took place in Toronto on Saturday night, July 21st, by which the jewellery firm of Messrs. Rothschild & Co. lost \$4,000 of the precious stones. When leaving the establishment on King street on Saturday Mr. Louis Bush, one of the partners, took 66 diamonds, \$90 in cash, a cheque for \$20, and a gold watch with him to his home, at No. 178 Jarvis street. On getting up next morning he found that his clothes, in the pocket of which were the valuables, had been carried down stairs to the dining-room in the back part of the house. The watch, diamonds, and money, valued in all at \$4,000, had been taken from the pockets by the robbers, who it is supposed entered the house before the family retired on Sunday night and concealed themselves until ready to ransack the place. It was found that they had left windows and doors in the house wide open as to facilitate escape in case of detection. The cheque was signed by Messrs. Thomas Walls & Co. Mr. and Mrs. Bush were sleeping in the room from which the clothes were taken, and consider it strange that they were not disturbed by the thieves. Mr. Bush offers \$1,000 reward for the recovery of the stolen goods. —*Globe*.

PROFESSIONAL ESPRIT DU CORPS.

The *London Times*, speaking of the compliment paid by the associates at the Bar to Mr. Benjamin, the great American lawyer, who on becoming a member of the English Bar at once gained so high a position, and who is now compelled by ill-health to abandon the practice of his profession, says that the ceremony gave the public a glimpse of the fund of good feeling and comradely which prevail nowhere more than in this profession whose essence is strife and contention. The *Times* also gives the Bar credit for its spirit of cosmopolitan hospitality, its ready welcome of all talents, its habit of rating men at their worth, its generosity and independence. These it calls generous traditions and ideals worth preserving. All this may be said with equal truth and justice of the Ontario Bar, and we believe of the Bar of every one of the Provinces of Canada. How gratifying it would be if as much could truthfully be said of the Press, a profession which should set before itself ideals as high, and should have aims quite as noble. The essence of the profession of the Press is contention, but it need not be strife. The impersonality of newspaper writing, if properly observed, would prevent unseemly wrangling, and acrimonious dispute, and ensure that moderation and decorum which best fit the discussion of important public questions. It is a matter of deep regret that intemperate and unscrupulous writers so often try to tear away the veil of impersonality, and to load with opprobrium the person whom they suspect of having written what offends them or hurts their party. Such writers, in their eagerness to wound an opponent, cannot see that they injure themselves and the papers for which they write, and do much to lower the standard of journalism. The portion of the public who take pleasure in vituperation and personalities are no doubt to some extent responsible for such abuse of the press, but the newspaper men who descend to that kind of writing are themselves mainly responsible. The papers or the writers who are the objects of such attacks, if they are respectable, seldom notice them—indeed despise them too much to waste a thought upon them; but the injury to the profession and to the public of having such attacks made is nevertheless very great. It would be well for both the press and the public if the members of the Press were animated by an esprit du corps such as, does credit to the Bar, if the same good feeling and benevolence prevailed amongst them, if they all knew how to respect the public and respect themselves. Independent, resolute, fearless, they should always be, and zealous in the cause of right; but coarse, rude, offensive, personal—never. —*Toronto Globe*.

A Boundary Question.

A serious complaint lies at the door of the Education Department of Ontario. That department authorizes the publication of school geographies in which the height of land between the St. Lawrence and Hudson Bay is made the northern boundary of Quebec. That is manifestly incorrect. The western boundary of Quebec, after following the Ottawa river to Lake Temiscamingue, is a line drawn due north until it strikes the boundary line of Hudson's Bay, and "all lands, territories, and islands lying east of said line of division," are in the present Province of Quebec. Now, we desire to know why the "Education Department" of this Province has sanctioned the use in our public schools, of a geography, which teaches that Quebec extends northward only to the height of land? For if Quebec extends only so far north, then of a surety Ontario extends no further. And the publication of such works has a tendency to make children believe that Ontario has no just claim to the territory north of the height of land. It will be seen that it is treasonable to do that. The Education Department will do well to withdraw its sanction from books which teach such erroneous lessons about our Canadian geography. —*Hamilton Spectator*.

Neglected His Duty.

Strange as it may seem, the Halton License Inspector failed to do his duty last February. He permitted Mr. Kerns to be returned. It is a notorious fact that the Ontario Government puts its faith in its license inspectors, and when one of them permits a Reform constituency to be wrested from his grasp, explanations at the captain's office are in order. To remedy the defect in Halton, Mr. Hardy has appointed an additional inspector, so that the interests of the party are now looked after by two of those officials in that county. —*Evening Canadian*.

The Price of Cotton.

The price of grey cottons in Canada is as low as the price of grey cottons in Manchester. This fact disposes at once of the contention that under protection we pay for our manufactured articles their value and the amount of the duty, which is not paid into the treasury, besides, as a matter of fact to-day if we had a low tariff we would be buying our grey cotton from England, and paying for them the Manchester price, with the cost of transshipping and the duty added. Grey cottons would then be 20 per cent dearer than they are. —*Mail*.

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and other pulmonary diseases, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Spermator, the wonderful invention of Dr. M. M. Borelle of Paris, ex-Aide Surgeon of the French Army, and other proper food and constitutional treatment, we are curing thousands of cases of the above-named diseases every year. Write, enclosing stamp for list of questions and copy of *International News*, published monthly, which will give you full information and reliable references. Address, International "Treatise" and Lung Inhaler, 173 Church street, Toronto; 13 Phillips Square, Montreal, P. Q.; 31 Lafayette avenue, Detroit, Mich.; or 106 Alexander street, Winnipeg, Man.

The Vice-Regal Party.

A private letter from Cascapedia says that the Governor-General and Princess Louise are having usual luck at angling. A large number of splendid salmon have been forwarded to Government House, and several splendid specimens have been sent to Her Majesty the Queen. The party leave on Thursday for a month's sojourn at the Citadel, Quebec. Mr. Chester A. Arthur, son of President Arthur, and party, are spending a few days with the Vice-Regal party, and are enjoying the sport immensely. The party will return to Ottawa the last week in August, after having paid a visit to Toronto.

Daily Evening Review

THURSDAY, JULY 26, 1883.

SOUTHERN EXTENSION OF GEORGE ST.

THE proposed southern extension of George street would certainly be an improvement, and the Town Council would be warranted in incurring the expense of construction. As, however, the private land owners would derive a benefit in the great additional value given to their land by this means of access, they should be willing, as a correspondent points out, to give the right of way without compensation. We believe that most of them have already expressed their willingness to do so, and the others should follow their example. The only case calling for compensation is that of the lot on Lake street, and facing the present end of George street, which would be curtailed without deriving any benefit. Probably the cost of this would not be great.

We have no doubt that the Council will act in the matter as soon as the private property holders most interested do their part.

A BARK CRISIS.

THE *Globe* has a violent attack upon the Dominion Government because a telegraph operator at the Toronto observatory was on the first day of the strike permitted to take meteorological messages at an instrument in the head office of the Great Northwestern Telegraph Company. The fact that the timely warnings given by these weather forecasts may be a matter of life or death to many, would, we think, be a sufficient reason, even in the eyes of the strikers, for an exceptional effort to maintain an unbroken sequence of these meteorological reports.

It is the height of effrontery for the *Globe* to say that "the idea of aiding a monopoly against a peaceful strike of its employees is one that could never have occurred to any Canadian Government save the present one."

Does the *Globe* suppose that people have forgotten that it was under the previous administration of Sir John Macdonald and many of his present colleagues that a law was passed to protect employees peacefully striking, and that this legislation was suggested by the action of the *Globe* in imprisoning its employees for a peaceful strike?

Does the *Globe* think that in such a manner the true friends of the workmen think that people have forgotten the scandalous imputations of immorality against the Canadian factory operatives, its repeated libelling of Canadian mechanics, or its advocacy of foreign manufacturers in preference to our own?

If it will force a recourse to such treatment as it metes out to others, even to a Minister of Customs, we must remark that in the very same issue it prints the following paragraph:—

"The strikers state that the Midland Railway still keeps sending men to Toronto and

other points. It is stated that the district executive officer here has the power to order a strike among the operators on the Midland or any other railway joining its wires with those of the Great North-Western, but he is restrained from doing so as it is desired by the strikers to confine the strike to commercial operators for the present as much as possible."

If it holds Mr. Mackenzie Bowell responsible for the utterances of the *Bellefleur Intelligencer* it cannot object to our pointing out that some of the directors and shareholders of the *Globe* are also directors and shareholders of the Midland railway, and that it had better clear its own skirts before it accuses the Conservative administration of this Dominion of acting unfairly against the operators peacefully striking.

GEORGE STREET EXTENSION.

To the Editor of the Review.

SIR,—Application has been made to the Council to extend George street south through certain park lots the owners of some of which appear to be willing to give sufficient land for the purpose. It would pay the owners of other land to do the same thing, because the extension of this main thoroughfare of the town cannot but be beneficial to the whole neighborhood through which the street will pass. The interests and convenience of the public require this extension, and certainly it would add largely to the good appearance and comfort of the south side of the town, and would greatly improve the whole appearance of George street.

The whole southern part of the town is so rapidly improving that something ought to be done in this direction as soon as possible. It is to be hoped the Council will see the necessity of taking action at an early date, so as to get the street opened through before the good weather is over.

By inserting this you will oblige

Peterborough, July 26. A RATEPAYER.

LAKEFIELD.

From Our Own Correspondent.

CONCERT AND GARDEN PARTY.

A garden party and concert will take place on Mr. R. C. Strickland's grounds on Saturday, August 4th, for the benefit of St. John's Church Parsonage Fund. The grounds will be open from 4 to 10; lawn tennis tournament from 4 to 7; concert to begin at 7 o'clock, in which Miss Evelina De Beaumont, the celebrated artist has kindly consented to assist. The Peterborough Fire Brigade Band will be in attendance. In reference to Miss De Beaumont, a despatch from Ottawa has the following:—

"Item: Delle Evelina De Beaumont, now sojourning at The Russell, sang this evening (18th) by special invitation, at the Government House, in the presence of her Royal Highness the Princess Louise, his Excellency the Governor-General, Lord John Harvey, and a distinguished company of ladies and gentlemen who were honored with invitations. The charming cantatrice has a rich and powerful voice, and by many is considered a rival to Alceste, the famed Canadian who so recently captivated the hearts of the music-loving portion of the American people. Her rendition of some of the difficult selections from classic composers was heartily applauded by both the Princess and Marquis. Before leaving Government House she was presented with a handsome souvenir. Last year Miss De Beaumont sang before the King and Queen of Italy, by whom she was presented with a gold medal. She will probably spend the summer in Canada, after which she will make her first appearance before an American audience in New York."

CAPTAIN WEBB.

The Body of the Daring Swimmer Not Yet Found.

NIAGARA FALLS, July 25.—The tragedy of yesterday—for there is only the smallest possible foundation for the hope that Captain Webb is still alive—is the all-absorbing topic of conversation here and on the American side to-day. All sorts of ways by which it is thought possible the captain could have reached land are suggested, but all appear to be prompted by the strong hope that the daring swimmer had escaped death.

A rumor was afloat that Webb had been seen by some students passing the Roman Catholic College of Our Lady of Angels, several miles down the river, but this is not the case. Another rumor was that he had been seen at the Frontier house, Lewiston, but this is also untrue. Some people yet hold to the belief that he is in hiding somewhere until the news of his death gets abroad, when he will show himself. They even offer to bet money that he will yet turn up, but no wagers have yet been reported. A theory is that he left the water at Foster's Flats, a few miles down the river, but enquiry showed that he did not leave the water there.—*Mail*.

How Cows Hook.

"Will that cow bite?" asked a city youth of a farmer who was milking an ugly looking animal.

"Well, she won't bite; but I advise you not to get too close to her head, for she might hook you," replied the granger.

"That's funny," giggled the fresh young man. "What do you mean by hooking?"

Just then the cow gave a lurch to leeward, caught the youth by the skirt of his coat, and tossed him over the fence.

"That's what I mean!" exclaimed the farmer, as the chagrined chap picked himself up and limped off.—*New York Daily*.

Clawed by Barnum's Tiger

KINGSTON, July 25.—One of Barnum's tigers put its paw through his cage and clawed W. Randall's head, lacerating his scalp, and taking his cap into the cage, where it was torn in shreds. The boy was watching the cage being put on the cars at the depot.

Personal: To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Dr. Cannon's Stomach Bitters free the system of the numerous ailments that develop into Kidney and Urinary diseases, give tone and vigor to the Stomach and purify the Blood.

MIDNIGHT TELEGRAMS

CABLE.

THE CANAL IN THE LORDS.

LONDON, July 25.—In the House of Lords the Marquis of Salisbury said when the papers relating to the canal negotiations were presented, the Opposition would be able to judge whether it was their duty to take further measures to ascertain the views of Parliament or the Government regarding the canal transaction, which he asserted deeply compromised the national interests. He declared that M. De Lesseps to cut a second canal must obtain the consent of Egypt, which was really the consent of England.

A SANITARY MISSION.

PARIS, July 25.—The French Government proposes to vote 50,000 francs to cover the cost of a sanitary mission to Egypt.

SUSPICIOUS DEATHS.

NAPLES, July 25.—There have been several suspicious cases of death here within a few days. The officials declare they are not caused by cholera, but the effects of the deceased have been burned.

INTERNATIONAL BOARD.

MUNICH, July 25.—Seven of the powers are in negotiation for the establishment of an International Sanitary Board at either Geneva or Lugano.

CETEWAYO KILLED.

LONDON, July 25.—The War Office has been informed by a special despatch just received from Durban that Cetewayo has been killed. The government despatch states that after the defeat sustained by Cetewayo and his followers at the hand of Ushiepi and his army, it was reported on Monday the former fled with his troops, closely pursued by the victor. The latest information goes to show that Ushiepi overtook Cetewayo and, during the resistance made by the latter, massacred him and most of his followers. This news has produced a profound sensation throughout London.

SPACE FOR THREE CANALS.

PARIS, July 25.—M. de Lesseps, in an interview, says that the territory held by the Canal Company under its franchise and grants is quite large enough for the construction of three canals as large as the present one. He proposes to widen the existing canal, and divide it into two separate canals by a system of dykes.

THE PRUSSIAN RELIGIOUS BILL.

BERLIN, July 25.—The provisions of the religious bill recently passed by the Prussian Diet will go into effect on the 31st of July. The members of the Ultramontane party are anxious as to the effect of its enforcement, and have grave fears that its working will not lead to harmony with the Vatican, as the Government had claimed.

MRS. SMYTH'S MURDERERS.

DUBLIN, July 25.—Fourteen persons have been committed for trial at Mullingar for complicity in the murder of Mrs. Smyth.

QUARANTINE ENFORCED.

LONDON, July 25.—It is reported that quarantine has been enforced at Dover and Leith against vessels arriving from ports infected with cholera.

DEATH RATE IN CAIRO.

LONDON, July 25.—It is reported that 568 deaths from cholera occurred in Cairo yesterday.

IRISH LAND COMMISSIONERS.

DUBLIN, July 25.—The Irish land commissioners, in reply to the committee of the House of Lords, whose report contains certain strictures on their work, maintain that their decisions are not subject to enquiry or review by Parliament.

FRANCO-CHINESE DIFFICULTY.

BERLIN, July 25.—The Chinese ironclad constructed in Britain will sail shortly for Shanghai. This indicates a peaceful solution of the difficulty between China and France.

DESPATCHES FROM MADAGASCAR.

LONDON, July 25.—The British corvette Briton has arrived at Zanzibar with official despatches from Madagascar of great importance.

THE SUEZ CANAL.

PARIS, July 25.—The French press consider that the withdrawal of the English Government from the agreement with M. de Lesseps is favorable to the Suez Canal Company.

THE INFORMER.

DUBLIN, July 25.—It is reported that James Carey, the informer, has arrived at one of the British colonies.

WOMEN DROWNED.

LONDON, July 25.—Some women and children were drowned by the upsetting of a boat on lake Lugano in Switzerland.

Does Lightning Strike the Pine?

It has been often said by the so-called wise old "Say So's" in this locality that the lightning never strikes the pine tree; but the fact was very conclusively demonstrated to the contrary to-day at this place—Mr. James Fenwick's, Mr. Fenwick's place is the one adjoining that of Admiral Lee. Just after 1 o'clock p.m. the storm passed directly over Mr. F.'s house from the northeast, and soon after a vivid flash of lightning came, which struck two pine trees only ten or twenty feet from his house. A part of the electricity passed down the trees into the ground, tearing off great strips of bark and cutting a groove into the trees for some distance just before it passed off into the ground. The rest of it followed a wire clothes-line attached to one of the trees to the other end of the wire and then passed down a cedar post to which the wire was attached into the ground. It split the post the whole length and broke off large pieces from it. It was a very narrow escape for the house, for if the cloud had discharged a moment sooner it would certainly have hit the house, and perhaps have done a great deal of damage. There are a quite a number of Washington people spending the summer here and all who were at the house were very much alarmed, and also the animals. The horses in the stable never tried to break away and run, the flash was so vivid and the report so loud.—*Bligo (Md) Letter to Washington Star*.

Advice to Mothers.

Are you distressed at night and broken of your rest by a sick child suffering and crying with pain and restlessness? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

The colors of the Triangle Dye are so beautiful and their use so simple, they lead the dye market of the country. 10c.

Daily Evening Review

THURSDAY, JULY 26, 1883.

Those who are complaining most bitterly of the delays in telegraphic communication caused by the strike are not the men doing legitimate business, but the gamblers. Those who gamble on the race course, and those who gamble on the exchange in stocks or produce are loudest in their lamentation. Amid the inconveniences to legitimate business it is some consolation to find that a severe check is being put upon this gigantic system of gambling.

Possibly it is true as we are told that "some of the Supreme Court judges are sound in their views of constitutional questions, but others display on every possible occasion so marked a bias in favour of centralization at Ottawa that all who think Provincial rights worth insisting on will hesitate before advocating the abolition of the right of appeal to the Privy Council." But if so what blunders the Reformers must have been to establish, as they did, such a court, and to appoint, as they did, such judges. And what are we to think of the Reform attack upon the "foreign court" or of Mr. Mowat's unwillingness to submit the boundary question to it.

A DAY or two ago we quoted with approval an article from the *Globe* on professional esprit de corps and especially upon the propriety of impersonal journalism. We feared at the time that there was little hope of this sudden conversion being sincere, but we hardly expected such an early backsliding. In Wednesday's issue our contemporary attacks Mr. Mackenzie Bowell personally and grossly on account of an editorial in the *Belleville Intelligencer*, though probably the *Minister of Customs* saw it no earlier than the *Globe* staff. It seems that the *Globe* objects to personalities from others against its own staff, but thinks it right for it to attack by name those who have the slightest interest in other journals.

THE leading journal of the Reform party says:—
"Now that the Mercer case has been decided in favour of Ontario, the Tory organs are all saying 'it is of no consequence.' Had the decision been the other way there would have been a perfect chorus of jubilation from a number of journals, not one of which is loyal enough to its own Province to congratulate it on a decision which tends to confirm it in its rights under Confederation."

For our part we are quite content to leave the decision of our "rights under Confederation" to the Courts, confident in the justice of our cause and the impartiality of the tribunals, which is more than the Reformers can say. We must admit that we do not particularly value the legal right to appropriate the property of Mercer's father, because the son unfortunately not able to prove that his parents were married. If young Mercer has not the same rights as a legitimate son he certainly has a better moral right than strangers. We have no craving to claim any share in his father's property to his loss.

T. V. C.

SEVEN barges laden with steel rails for the Ontario and Quebec Railway arrived at Trenton from Montreal the other evening. This proves that there is no difficulty in the way of barge navigation between the mouth of the Trent and Montreal, as some have alleged there was. These rails will be taken from Trenton to the Ontario and Quebec line over the Ontario Central. It is stated that 70,000 tons will be transported in the same way this season.

"FOR POWER AND GLORY."

The Rat Portage correspondent of the *Winnipeg Sun* writes:—

"In Rat Portage, Ontario has already expended \$400 in improvements. On the north side of the town there is a muskeg through which a switch runs to the Rainy Lake Lumbering Company's mill. It is said to have been covered with stagnant and filthy pools, from which noxious vapours arose, and in the opinion of local physicians, endangered the health of the city. This the Ontario Government has drained. They have also improved the streets by removing boulders and levelling them. It is further stated to be the intention of the Government of Ontario to issue timber and mining licenses throughout the disputed territory, and that the revenue, which is estimated to amount to between two hundred thousand and three hundred thousand dollars a year, will every dollar be spent in improving the territory. This statement is made on the authority of a Government official who, it may be presumed, knows what he is talking about. If correct, it conflicts seriously with the sensational speeches of political orators during the election campaign. Ontario, it was said, was being robbed of an immense amount of revenue that would be derived from the timber and mining territories, and the people were led to feel that the question seriously affected their pockets. If, however, the revenue is to be expended as just stated, it would appear that Ontario is contenting entirely for power and glory, or something of that kind."

THE WIMBLEDON TEAMS.

Americans and Canadians Entertained by the Lord Mayor.

LONDON, July 24.—The American and Canadian rifle teams were entertained at the Mansion House by the Lord Mayor this afternoon, where a sumptuous luncheon was served. Colonel Howard, of the American team, and Colonel Otter, of the Canadian team, replying to the toast of the health of the teams, and the President of the United States, graciously acknowledged his appreciation of the cordial reception he had received, not only at Wimbledon, but everywhere since he arrived in England. Colonel Howard said that the defeat sustained by the Americans would only have the effect of stimulating them to fresh efforts, and that the contests would certainly continue until victory again was with them. The Lord Mayor, in referring to the match, said that while he was pleased at the success of the English it would be unjust not to admit that the state of the weather greatly favoured the home teams, and that under other circumstances the result might have been reversed. He spoke of the great improvement made by the Americans in the use of the military rifle, and predicted that next year it would be a most difficult matter for the English to hold their own. The number of invited guests at the luncheon was large, and prominent among them were a great many noted riflemen.

A PICNIC DISASTER.

A Crowded Wharf Gives Way in the Darkness—Seventy Lives Lost.

BALTIMORE, July 24.—Yesterday an excursion was given to Tivoli by the Mount Royal Benevolent Society of the Catholic Church. Christ, of which Father Starr is pastor. The excursionists went on the barge Cookade City. Yesterday she made three trips, the last from this city between 6 and 7 in the evening, and reached Tivoli before 10. During the day she had taken down about five hundred persons, and on the last trip she took about one hundred. A large number of those who went down during the day remained, intending to return on the last trip. When the barge arrived all on shore rushed for the end of the wharf, which was several hundred feet long, and were closely packed together at a gate about 25 feet from the end, impatiently awaiting admittance. As the barge came alongside and struck the wharf it suddenly gave way, and a large portion of the crowd was precipitated into the water, which is about ten feet deep. On account of the darkness little could be done to rescue the drowning, most of whom were women and children. It is said that 61 bodies have been recovered.

LAKEFIELD.

From Our Own Correspondent.

STEAMER CRUISER.

The steamer *Cruiser* last week received a coat of paint, and now looks neat and trim. She is in readiness for the passenger traffic which is just now beginning to set in to Stony Lake. It is expected that during August an unprecedented number of excursionists and seekers after health and recreation will visit Clear and Stony lakes. The beautiful scenery, splendid fishing, and great abundance of berries on these waters at this time of the year constitutes a desirable camping ground, where a vacation can be quietly and pleasantly spent. Stony Lake is increasing in favour every year as a summer resort, as is proved by the largely increasing number of visitors to this favored and sylvan retreat.

COVERED BUS.

Mr. Cooper, our popular mail carrier, carrier, &c., is now running a covered bus to and from the railway station. Mr. Cooper is meeting with well-deserved success in his business. He is attentive and obliging to his customers, and it is said that he is obtaining new rigs, &c. Lakefield is proud of John Cooper.

SAW-MILL.

Messrs. R. & G. Strickland's saw mill in this village has been running for some time. It was during last winter and spring thoroughly overhauled and repaired, and a large amount of new machinery added. This is now considered a first-class saw mill, and is doing excellent work in the quality as well as the quantity of sawing done in a given time. This saw mill is a great advantage to the village in giving profitable employment to so many hands.

BLUE BERRIES.

The blue berries on the back lakes are now fully ripe, and a large number of people have gone north to get this luscious fruit.

STAMMER FAIRY.

The stammer little steamer *Fairy* is running regular trips between Lakefield and the different points on Stony Lake in connection with the Midland Railway morning train from Peterborough on Tuesdays, Thursdays and Saturdays of each week. The *Fairy* has been re-decked and is in thorough working order, and under her present able management is worthy of public confidence, and will no doubt take a fair share of public patronage.

THE WEATHER.

The weather last week was all that could be desired, and a large quantity of hay was saved. It is estimated by good authority that a larger quantity of hay was saved last week than the whole yield of last year in this part of the country. The grain crops in these parts look excellent, and if the weather continues fair there will no doubt be an abundant harvest.

WASTING.

A CONTRACTOR.—The *Star* says:—"Our former townman, Mr. N. Preserven, who now resides at Havelock, in Belmont, has become quite a contractor since moving to that locality. He has just completed a brick school house for No. 333 of that township, and has received the contract for the erection of a brick town hall at Havelock for the municipality."

NORWOOD.

THE REVEREND.—Mr. Roxburgh, who was nominated and elected by acclamation as Reeve in his absence and without his consent, has declined to act, so there will have to be another election.

DO YOU EXPECT A CURE?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Serravallo, the wonderful invention of Dr. M. Serravallo of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above-named diseases every year. Write, enclosing stamp for list of questions and copy of *International News*, published monthly, which will give you full information and reliable references. Address, International Therapeutic and Lung Institute, 173 Church street, Toronto; 13 Phillips Square, Montreal, P. Q.; 51 Lafayette Avenue, Detroit, Mich.; or 108 Alexander street, Winnipeg, Man.

DR. CARSON'S Stomach Bitters remove Constipation, relieve Dizziness, dispell Sick Headache, abolish Bilkousness, and regulate the Stomach, Liver and Bowels.

SHERBROOKE STREET,
Opposite the South Ward School.

Daily Evening Review

THURSDAY, JULY 26, 1883.

A Treat.
Bam's Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

Coming to Peterborough.
The Belleville Bridge street Methodist church will have an excursion to Peterborough on their Civic Holiday, Friday, the 3rd of August.

New Jewellery Store.
Get your Watches, Clocks, Jewellery, all repaired at Huggan's New Shop. Remember the place, office lately occupied by E. Burnham, Simcoe street.

A Canoe Cruise.
We learn from Hastings that Mr. K. Hall and Mr. C. Beck passed through that village on their canoe trip down the Trent en route for the Thousand Islands. Canoe cruising seems to be more and more in fashion these days.

Belleville and the Grand Junction.
The Belleville Council has passed a resolution "requesting the Ontario Government to give to that city \$150,000, the sum given by it in aid of the G. J. R., with interest," and has appointed a committee to press the matter upon the attention of the Mowat Administration.

A. C. A. Views.
There are some very good views of scenes at the last camp of the American Canoe Association now on view in the window of Mr. John McClelland, jeweller. We notice the well-known face of Mr. Burritt Edwards, Commodore of the association, in the front rank. To those who delight in this sort of photographic views, we would say by all means see them.

Increased Business.
Mr. Adam Hall, finding that his workshop did not afford sufficient room for the number of men he employed, has had the old structure pulled down, and men are now at work building a new and much larger workshop. The new building will be of brick, built three stories high, and will be the same width as the front store. It will be finished and ready for the workmen in a couple of months, and when completed will be one of the finest show-rooms in the Dominion.

Smith's Market.
Shelled Peas, Beans, Cabbage, Carrots, Beets, New Potatoes, Cucumbers, Cauliflowers, Huckleberries, Garden Raspberries, Cherries, Gooseberries, Currants, Apples, Peas, Peaches, Watermelons, Cantaloupes, Bananas, Fresh Fish. As usual our customers will please bear in mind the importance of ordering fish Thursday evening or early Friday morning, as our drives are long and impossible to get over the same ground twice the same morning in time for dinner.

Lacrosse.
The second twelve of the Peterborough Lacrosse Club will take a two days' trip to Norwood and Campbellford next week. They will cross sticks with the Norwood Club on Monday, and with the Campbellford Club on Tuesday. We hope the boys will be successful in both matches.

A game of lacrosse for a silver medal will be played on the Ashburnham Cricket ground tomorrow afternoon, between the "Crests" and a team that is yet without a name. They are both composed of young boys, and play a very fair game of lacrosse.

Resolution of Condolence.
At a regular meeting of J. Scott Lodge, No. 135, Fort Hope, July 7, 1883, it was moved by Bro. T. A. Pratt, seconded by Bro. L. McIntosh, and carried unanimously, that the following resolutions be adopted:—

"Whereas, It has pleased Almighty God, the Supreme Ruler of the Universe, in His infinite wisdom to send His messenger of death into our lodge, and remove from our midst our worthy brother, Patrick Connor, thus reminding us of the uncertainty of life, and that so soon as we begin to live, that moment we begin to die. And

Whereas, By his daily walk and conversation he exemplified in an eminent degree, the tenets of our profession, brotherly love, relief and truth, being ever guided by the cardinal virtues, benevolence, sobriety, and industry. Therefore be it resolved, that in the death of our beloved brother the lodge has sustained an irreparable loss, society lost a just and upright citizen, and the mother an affectionate son.

Resolved, That we extend to the mother and friends of our deceased brother our sincere and heartfelt sympathy in this their hour of affliction, and fervently pray to God to give them strength to bear the sad bereavement with Christian fortitude, and we recommend them to him who tempers the wind to the storm, and looks down with infinite compassion upon the widowed and childless mother in the sad hours of her desolation, and trust that the same benevolent Saviour, whose tears of sympathy watered the grave in Bethany, will fold the arms of his love and protection around those who put their trust and confidence in Him.

Resolved, That our lodge and chapter be covered with black, as a symbol of our sorrow, for thirty days, and that the members of this lodge wear the usual badge of mourning for thirty days.

Resolved, That the mother of the deceased be presented with a copy of these resolutions, and also that they be published in the *Peterborough Review*.

GEORGE CAMPBELL,
Secretary.

A BIG DAY.

A Grand Lacrosse Tournament to be held in Peterborough.

On Wednesday three prominent and influential gentlemen from Orillia paid a visit to Peterborough to make arrangements for an excursion from Orillia to this town on Thursday, the 16th of August. This date is the day fixed for Orillia's civic holiday, and a large excursion is to be run from that town to Peterborough. The Orillia Lacrosse Club, will accompany the excursion and play a match with our club for the championship. The Peterborough club are going to take advantage of this, to make the day a gala one, and are making complete arrangements for a grand lacrosse tournament. They will bring Orillia, Beaverton and another club here, making three clubs in all. It is expected that a very large number of excursionists will accompany the clubs from the different towns, as cheap fares are being arranged for with the railroads. The event, no doubt, will have a beneficial result, as many will come here to see the town, and perhaps fall in love with it, and before long remove with their business here, or if they are not in business, will come themselves, and find employment in a town where work is plentiful and there is "room enough for all." Be this as it may, the lacrosse club are worthy of commendation in their efforts to give our citizens a day's amusement now and then, and Mr. H. LeBrun, the "lacrosse king," is entitled to the lion's share of praise, as it is mainly through his instrumentality that Peterborough is to be favoured with this day of enjoyment. We hope that any assistance required from the citizens will be readily given, and that all who can will put their shoulder to the wheel and help to sustain Peterborough's reputation as a hospitable town. Posters will be issued giving full particulars.

Cricket Match.

A cricket match will be played to-morrow, the 27th, on the Peterborough grounds between the North Ontario and Peterborough Cricket Clubs. The game, which promises to be a good one, will commence at noon, and the admission is free.

Important Sale of Town Lots.

Those wishing to obtain a desirable building lot in a convenient part of the town, will do well to beat in mind Mr. Donnelly's sale of town lots, which takes place at the Calise House on Saturday afternoon and evening next, as advertised in another column.

The Weather.

The weather to-day is very warm, and according to the "probe," we are to be treated to still warmer weather. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 o'clock a. m., to-day, by the Great Northwestern Telegraph company, are as follows:—Light to moderate, variable winds; fine weather, with higher temperature.

Getting Known.

Peterborough is fast becoming a noted place for excursions and picnics. People who have once visited our town tell their friends of its fine appearance, plate glass, beautiful urban and suburban residences, etc., and they consequently make a point to pay a visit to the coming city. To-morrow the Mechanics' Institute of Uxbridge will excursion to Peterborough, and spend the day in sight-seeing and in other ways.

The Small Boy's Weapon.

As the small boy with his catapult is becoming so general in Peterborough, we would respectfully suggest the advisability of confiscating all the catapults found in the possession of the small boys of the town. This will be found to work well, if the police will keep their "weather eye" open and disarm the culprits on the first sight, as they are doing in other places, no doubt the nuisance will soon be stopped.

A Bare Treat.

The Fire Brigade Band are going to furnish the people of Peterborough with abundance of choice music from now until the date of the band competition at Chatham on the 15th and 16th of August. They will commence on Monday night to practice on their stand in the Court House Park, and will continue to practice every night until they go away. The citizens will not expect them to do the "grand" at all times, as the practice will be of the same nature as it would be in their private room. This is a treat for the music-loving citizens of our town, and the band, who are always ready to give their excellent music free, deserve the thanks of the community at large.

THE Toronto World, referring to a recent article in the *Review* on the boundary question says:—
"Now the *World* says Ontario does not own the territory, and for a while so it soundly rebuked by the *Peterborough Review*, one of the few party papers that occasionally exhibits a streak of independence."

Morford's Acid Phosphate gives strength where there has been exhaustion and vigor in place of impaired vitality.

Stockton's Arnica Salve.
The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancer, Piles, Chilblains, Corns, Tetters, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

CHAMBER AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

Itching Piles—Symptoms and Cure.

The symptoms are, soreness, itching, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling about the rectum attached. It should be noticed very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for Tetters, Itch, Salt Rheum, Scald Head, Erysipelas, Herpes, Itch, Boils, all easily cured by this Ointment. Sold by mail for 50 cents; 5 boxes 1.50, in stamped address, DR. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

Convincing Proof.
Having suffered, from rheumatism for a long time I was induced to try your Arnica and Oil Liniment. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine.
I am yours truly,
W. E. DICKSON,
218 St. Constant St., Montreal.
To Henry, Johnson & Lord, Montreal.
Arnica and Oil Liniment is sold by all Drug Gists.

Wide Awake Druggists.
Messrs. Taylor & McDonald are always alive to their business, and spare no pains to secure the best of every article in their line. ANDREW McNEIL,

HAMILTON HALL, George Street, June, 1883. TAILOR AND CLOTHIER.

An Enormous Trade in Silks

At W. FAIRWEATHER & CO'S.

The enormous trade in Silks is attributable to the fact that they sell on smaller margins than other dealers, and keep none but the best goods in stock. Their long experience in this department secures for them the first and best bargains in the trade.

SPECIAL BARGAINS

In Plain and Black Silks, Rich Gro Grain Mantle Silks, Rich Black Brocade Silks, Rich Black Wolvereen Silks. 1,000 yards of Coloured Dress Silks, only 37½ cents. Only see them.

WM. FAIRWEATHER & CO.

SOLE AGENTS FOR

BUTTERICK'S PATTERNS

The BEST and MOST RELIABLE.

AN EXTRAORDINARY OFFER!**TO ALL WANTING EMPLOYMENT.**

If the Agent, after a thirty day's trial, fails to make at least \$100 clear above all expenses, we will take back all goods unsold and return the money paid us. Our circular to Agents show that \$3000 has been made in a single month. We give exclusive territory. There can be no competition. Business is honorable, pleasant and profitable. An Agent wanted in every County. County rights sent free with first order. Every Agent, or those wishing employment, should write us at once, as Counties are being taken fast, and no other firm in the United States ever before offered such extraordinary and liberal terms to agents. Send 3 one-cent stamps for large descriptive circular, containing this offer, to the

Renner Manufacturing Co.

110 Smithfield St., PITTSBURGH, PA.

Daily Line to Rochester**THE STEAMER "NORSEMAN"**

SHERBROOKE STREET,
Opposite the South Ward School.

Daily Evening Review

FRIDAY, JULY 27, 1883.

A Treat.
Bass' Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

To-Night.
The Fire Brigade Band will hold forth in the Court House park this evening, commencing at eight o'clock.

Police Court.
An important assault case from Norwood has occupied the attention of the Police Magistrate for many hours. We will give the evidence tomorrow, not thinking it expedient to publish it in part to-day.

Cricket Match.
A cricket match was played on the grounds of the club here this afternoon between the home club and a club of our visitors from all along the line, called the North Ontario Cricket Club. We will publish the score tomorrow.

Our Dentists.
On and after the first of August, the dentists of Peterborough will close their places of business for the space of two weeks, for the purpose of enjoying a holiday. Those interested will please note this fact, and govern themselves accordingly.

Low Water.
The Otonabee river is lower than at any other time this season, and it appears to be still going down. At present there are a large number of logs floating down the river, and where the water is low jams have been formed three and four feet in height.

Hastings.
The St. John's Church Sabbath School will hold their excursion to Hastings on Tuesday next, the 31st inst. All who wish to spend a quiet, enjoyable day will find this a good opportunity. Train will leave the Peterborough station at 6.45 a. m. Tickets, 50 cents; children, 15 cents.

Lost Children.
A woman living in the south end of the town was making diligent enquiry on Thursday night about two of her children that had wandered away from their home. At eight o'clock she had not found them, and it is not known if she was successful in her search at all last night.

Picnic.
The Baptist Church Sunday School Picnic will be held on Tuesday, 7th August, at Hastings. The train will leave at 6.45 a. m. Not only the members and adherents of the church, but the public are cordially invited to join this Excursion, which no doubt will be one of the most delightful of the season.

A Sad Case.
The Kingston correspondent of the Mail says: "One day last week the wife of George Rumvill, who worked here as a blacksmith, called on the chief of police and stated that her husband, who was working at Peterborough, refused to support her. The chief wrote to Peterborough and received the answer that Rumvill had died there after fourteen hours' sickness and was buried by the city. The wife has gone west."

A Deserted Child.
An infant was found on Wednesday evening last at the door of a house in the southern part of the town. The little waif was left on the doorstep in a basket, and by whom it is not known. We will give further particulars as the affair develops itself, and hope the police will sift the matter to the bottom, and trace the fiendish act home to the guilty ones.

The Weather.
The weather to-day is very warm, and according to the "probab." we are to be treated to still warmer weather. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 o'clock a. m., to-day, by the Great Northwestern Telegraph company, are as follows:—Moderate to fresh winds, mostly south and south-west; generally fair, warm weather with a few local showers.

The Operators' Strike.
The strike of the telegraph operators still continues, with little evidence of a settlement being arrived at between the employees and the companies. The former are sanguine of success, and the latter are maintaining their position, though there are some symptoms of an amicable and satisfactory settlement of this trying question. It is to be sincerely hoped that both employer and employee will come to terms soon and business resume its usual standpoint.

Smith's Market.
Shelled Peas, Beans, Cabbage, Carrots, Beets, New Potatoes, Cucumbers, Cauliflowers, Huckleberries, Garden Raspberries, Cherries, Gooseberries, Currants, Apples, Peas, Peaches, Watermelons, Cantaloupes, Bananas, Fresh Fish. As usual our customers will please bear in mind the importance of ordering fresh Thursday evening or early Friday morning, as our drives are long and impossible to get over the same ground twice the same morning in time for dinner.

REVIEWS.

THE GRIPPAK.—That welcome annual visitor The Gripack, has come to us from the office of Grip. The cover itself is a triumph of comic art, and as to the contents we will not attempt to give a description of the fun which pen and pencil have combined to produce. They say a gripack is never full and can always hold something more, but no one could wish any more fun crammed into this gripack, for it is full to repletion.

PRESERVING AND REPLANTING TREES.—One of the most useful public reports that has come before us, is that compiled by Mr. R. W. Phipps, for the Ontario Government, on "The Necessity of Preserving and Replanting Forests." Though most of the matter is not new to those interested in this important subject, it is well selected and arranged, and so presented as to afford valuable and very complete information on the subject to the general reader, and especially to our agriculturists, who are not sufficiently acquainted with their own practical concern in this question. The teachings of scientific men as to the necessity of forests in a climatic and sanitary point of view are given at sufficient length, and it is shown how various countries have suffered from their improvidence in this respect by the impairment of their agriculture and in other ways. Still more valuable is the voluminous information as to the practice of forestry in other countries, and of the valuable results of the scientific treatment of public and private forests. Mr. Phipps, who seems to feel a great interest in this subject and to have been a close observer, points out how this information bears upon our own case, and urges, as we have often done, the necessity for a cessation of the present wasteful denudation of our forests and the perpetual maintenance of a portion of them. We hope this report will be of service in introducing a better system, and to aid in this we will hereafter present our readers with extracts from it.

Honoring the Dead.
At the annual meeting of the Amateur Oarsmen's Association, held at Ottawa, on the 26th inst., a resolution of condolence was passed by that body to the family of the late Mr. G. C. Rogers.

A Sweet Item.
The well known grocery and liquor house of Mr. Henry Rush (formerly Bush & Elliott) is evidently doing a lively trade in the grocery line, as they have just received two car loads, or 160 barrels, of Redpath's sugar, from the refinery in Montreal. The sugar is said to be of a first-class quality, and when this house buys in such large quantities no doubt it is such. This is another instance of the good effect of the much-abused, but nevertheless beneficial N. P.

The Uxbridge Excursion.
The Mechanics' Institute of Uxbridge ran a very successful excursion to Peterborough to-day. They arrived here about noon, and all made a start for dinner, some going to the hotels, and others seeking shady nooks in the suburbs of the town. After dinner the excursionists spent the day in gazing admiringly at our fine stores and private buildings, and others went to the houses of acquaintances or relatives. They all appeared to be well pleased with their trip.

Personal.
The Rev. Anthony Hart, of Markham, and the Rev. W. C. Watch, of Fenelon Falls, are registered at the Calross House.

Mr. R. J. Stevenson, who left Peterborough some time ago for Manitoba, is home again, and we regret to say is dangerously ill at his residence.

At the annual meeting of the Amateur Oarsmen's Association at Ottawa, Mr. Alfred J. Belcher was appointed a member of the Executive Committee.

Railway Notes.
The Midland Railway is making a switch at the east end of the bridge near Judge Dennis-towne and is putting the old Cobourg track in repair between the east end of the bridge and the Auburn factory so as to be able to utilize that route for the Lakeside trains.

The Mail says that the Ontario and Quebec railway leased the Toronto, Grey and Bruce railway for nine hundred and ninety-nine years at \$140,000 a year. This gives the Ontario and Quebec a perpetual right of way into the union station, and a perpetual lease of the Queen's wharf as their water front.

The Hayman Rebellion.
A Port au Prince despatch of July 10th says: The revolutionists remain in undisturbed possession of Miragoane. The Government troops number 9,000, but apparently fight only when attacked. Reports of the murder of Haymen are untrue. The revolutionists severely defeated the Government forces. The apparent tranquility in the rest of the country is not due to the loyalty of the inhabitants, but to fears of a general massacre by the negroes and mulattoes.

Beck's Arnica Salve.
The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Piles, Salt Rheum, Fever Sores, Cancri, Piles, Chilblains, Corns, Tetters, Chapped Hands, and all kinds eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

Itching Piles—Symptoms and Cure.
The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, some as if pin-worms were crawling above the parts affected. If allowed to continue very serious results may follow. "SWANNE'S OINTMENT" is a pleasant, sure cure. Also for Tetters, Itch, Salt Rheum, Scald Head, Erysipelas, Bores, Blisters, all scaly, crusty Skin Diseases. Sent by mail for 50 cents; 3 boxes, 1.50 (in stamps). Address, DR. SWANNE & SONS, Philadelphia, Pa. Sold by Druggists.

Practice economy by using the Triangle Dye. Perfect in both dark and light shades. Ask for three colored packages. 10c.

Can't be Questioned!

Full Stock on hand of all the LATEST STYLES of Fancy Work, Woools, etc.

ASSESSMENT OF TIMBER LIMITS.

The Bobcaygeon Independent says:—A case of considerable importance to lumbermen was tried on Wednesday, 25th July, in Haliburton, before his Honour Judge Peck. The township of Glenora, acting under legal advice, had assessed the various lumbermen's possessions, timber limits in the township, for the value of their timber in the limits. The lumbermen interested were M. Boyd, R. C. Smith, W. J. Tronzo, and Green and Ellis. The assessments were as follows:—M. Boyd, \$6,500; R. C. Smith, \$12,000; Tronzo, \$8,000; Green and Ellis, \$1,000. The assessor had made this assessment on the advice of Kerr, Blake and Carr, which advice had been obtained in by Mowat, MacLennan and Downey. At the Court of Revision this assessment was applied against the limits, but the Court postponed the assessment with some slight alteration; and this decision was appealed to the County Judge. Mr. Baron, of Lindsay, appeared for the lumbermen jointly. The case of Glenora was conducted by R. J. Sidley, Esq., the County Judge. Mr. Baron opened the case, and contended that the assessment was illegal, and that the lumbermen did not owe the limits, which were Crown property, and as such were exempt. All that the lumbermen owed was they were to cut the timber from year to year, a right which was determinable as any moment. Also he urged that it was not the intention of the Government that this property should be taxed, and although it was not especially exempted by statute, yet it was clearly not property which could be taxed. It was merely an occupation. The limits were not sold under a mortgage, nor could the right be transferred, and one person could not without the express consent of the Government, dispose of it as he pleased. Property liable to assessment. Mr. Sidley replied in an address of considerable length, displaying great knowledge of the subject, and treating it with great knowledge, tact, and ability. He said the township was not taxing the limits as real estate, but as an occupation, and that they were taxing the limits as an occupation, and not as real estate. He said that the limits were not sold under a mortgage, nor could the right be transferred, and one person could not without the express consent of the Government, dispose of it as he pleased. Property liable to assessment. Mr. Sidley replied in an address of considerable length, displaying great knowledge of the subject, and treating it with great knowledge, tact, and ability. He said the township was not taxing the limits as real estate, but as an occupation, and that they were taxing the limits as an occupation, and not as real estate.

The Court after hearing the arguments on both sides, and examining a few witnesses, proceeded to give judgment. His Honour observed that the timber limits were out of date on the 30th of April in each year. Consequently on that date the property reverted into the hands of the Crown, and as it passed into the hands of the Crown before the annual year's assessment had been completed it could not be taxed. This disposed of the case as to the timber limits, but the timber property, the clearances and the shanties, were all accessible unless taxed at the head office of the lumberman. The case occupied three hours in arguing, the Court being crowded by lumbermen and parties interested. Mr. H. Junkin, for Smith of Fenelon, Mr. Austin, assessor of Fenelon, and Mr. G. Bick, of Bobcaygeon, were present. Mr. Sidley received the compliments of many friends on the able manner in which he had conducted the case.

A Bush of Logs.

GRAND RAPIDS, Mich., July 25.—An immense jam of logs extending up Grand River for miles has been lodged against the bridge of the Detroit and Grand Haven railway near the city. It was hoped the bridge would resist the tremendous pressure, but it fell with a crash this forenoon. The bridge of the Grand Rapids, Indiana & Chicago followed. Millions of feet of logs have gone down, sweeping all before them. It is feared the logs will reach many hundred thousand dollars.

Toronto still keeps up its reputation for heavy frosts. Bonanza and Cotton Shirtings. See the Stock of choice patterns, lately received.

FRUIT JARS.

CHINA HALL is Head-quarters for every kind of FRUIT JARS. At CHINA HALL you can get a Superior Jar at a less price than other dealers are asking for ordinary goods. CHINA HALL Fruit Jars will not crack. Buy your Fruit Jars at CHINA HALL and save Money, Time and Fruit.

CHINA HALL AND SILVER BAZAAR, Corner George and Simcoe Streets, Peterborough.

FRUIT JARS.

MACFARLANE WILSON, Direct Importer.

MIDLAND.

ELEVATOR NOTES.—The Free Press says the City of Chicago arrived on Monday with corn. The past week was a pretty busy one at the elevator. The schooner Pomeroy, left Chicago for Midland on the 23rd. The Jesse Scrath, with corn from Chicago, arrived on Tuesday morning. The Schooner Mastwood arrived light on Monday afternoon to load lumber. The schooner Arabia, with grain from Chicago, arrived on Thursday evening. Another addition has been made to the elevator staff in the person of Mr. L. M. Withers, of Belleville.

BUILDING.—The mason work on Mr. Sourin's large block is being pushed on rapidly by the contractor, Mr. W. West, and it will only get a short spell of good weather it will not take long to put up the walls.

BUILDING THE ATLAS.

At the saw-mill of E. & J. F. Webster, at Ormo, Me., a plan has been adopted, which is described as follows: It was necessary to run a shingle machine in connection with the other machinery, and the construction of the foundation was such, the room upon the floor of the mill so restricted, and the need of removing the sawdust and other waste so great, that it was suggested by some of the workmen that the shingle machine be located in the attic on a floor over the gang and other saws. Accordingly a floor was laid, the machine lowered upon it, and burned, the needed shutes for sending the waste into the saw mill, and last, but by no means least, an endless chain with block so arranged that the bolts could be sent up to the machine to be sawed. Now the logs are received upon the bed on main floor of the mill, there cut into bolts each the length of a shingle, then sent up to the machine, where sawed into shingles of the various qualities and trimmed for bunting, then sent down to the floor again, and there bunched for market. This arrangement has now continued for several months, and is found to work admirably, so that the cost of sending the bolts up stairs and the waste down is much less than it would cost to get rid of the waste in any other way. —Northern Lumberman.

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of gold inhalations, the wonderful invention of Dr. M. S. Soule, of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above named diseases every year. Write, enclosing stamp for list of questions and copy of International News, published monthly, which will give you full information and reliable references. Address: International Throat and Lung Institute, 173 Church Street, Toronto; 13 Phillips Square, Montreal, P. Q.; 81 Lafayette Avenue, Detroit, Mich.; or 106 Alexander Street, Winnipeg, Man.

Turnbull has just received a fresh stock of these Black Cashmere so favorably known at 40, 50 and 60 cents a yard. See them.

Convincing Proof. Having suffered from rheumatism for a long time I was induced to try your Arnica and Oil Liniment. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine.

I am yours truly, W. H. DICKSON, 218 St. Constant St., Montreal. To Henry, Johnson & Lord, Montreal. Arnica and Oil Liniment is sold by all Drug Gists.

Wides Awake—Broughtists. Messrs. Taylor & McDonald are always alive to their business, and spare no pains to secure the best of every article in their line. They have secured the agency for the celebrated Dr. King's New Discovery for Consumption. The only certain cure known for Consumption, Coughs, Colds, Hoarseness, Asthma, Hay Fever, Bronchitis, or any affection of the Throat and Lungs. Sold on a positive guarantee. Trial bottles free. Regular size \$1.00.—3

Personal! To Men Only! The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belt and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N.B.—No risk is incurred, as thirty days' trial is allowed.

There is no excuse for suffering from Headache, Constipation and all the worrying train of symptoms of a disordered liver, when Burdock Blood Bitters is an unfailing remedy, and only costs One Dollar a bottle. Why suffer on without a trial? 25,000 bottles sold during the last three months, with almost universal satisfaction.

Daily Evening Review

SATURDAY, JULY 28, 1883.

The Priest.

The Rev. Mr. Cook, of Baltimore, will preach in St. Paul's church on Sunday, the 29th inst.

A Treat.

Best Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

The Cells.

The police report everything quiet, and the cells were empty last night. There was a blank at the police court this morning.

In Your Watch Chain.

Watches that are continually stopping and getting out of order, can be properly repaired by leaving them at Hughson's Shop, office lately occupied by E. Burnham, Simcoe street.

Do not buy old pattern Prints when you can get new Fall Designs now at Turnbull's.

The Weather.

The weather probabilities for this district for the following 24 hours, as reported from Toronto at 1 o'clock a. m., to-day, by the Great Northwestern Telegraph company, are as follows:—Lake—Moderate to fresh southwest to northwest winds, fine weather, slightly lower temperature.

Picnic.

The Baptist Church Sunday School Picnic will be held on Tuesday, 7th August, at Hastings. The train will leave at 6.45 a. m. Not only the members and adherents of the church, but the public are cordially invited to join this excursion, which no doubt will be one of the most delightful of the season.

Lacrosse Match.

A very interesting game of lacrosse was played on the Ashburnham cricket ground on Friday between the "Crests" and "Independents," two juvenile lacrosse clubs. The match was closely contested, and some really good play for young boys was made. Mr. H. LeBrun acted as referee, and Messrs. J. Sheehy and R. Stevenson acted as umpires for the respective teams. There was a very fair attendance of spectators. The "Crests" won by three games to one.

Smith's Market.

Shelled Peas, Beans, Cabbage, Carrots, Beets, New Potatoes, Cucumbers, Cauliflowers, Huckleberries, Garden Raspberries, Cherries, Gooseberries, Currants, Apples, Peas, Peaches, Watermelons, Cantaloupes, Bananas, Fresh Fish. As usual our customers will please bear in mind the importance of ordering fish Thursday evening or early Friday morning, as our drives are long and impossible to get over the same ground twice the same morning in time for dinner.

For Black Henrietta Cloths with Silk Warp, very desirable Goods, go to Turnbull's.

Lacrosse.

The second twelve of the Peterborough Lacrosse Club start on Monday morning to play the Campbellford club on Monday, and the Norwood club on Tuesday at their respective villages. The following are the names of the team:—

E Rogers	Goal.
W Scott	Point.
P Walsh	Corner Point.
M Ousling	Defence.
A Mercer	"
A Mercer	Centre Field.
J Curran	Field.
H Myers	"
M Mackgill	Home.
J Howard	"
R Bagley	"
Biggs	Spare man.
Deaney	"
Frank Lalley	"

Gas Power Printing.

The Lindsay Post, with its usual enterprise, has made an improvement in its motive power, its presses being now run by a gas engine. No doubt our contemporary wishes that Lindsay, like Peterborough, had a constant water supply, when it might have followed our example and adopted an hydraulic motor, but water being unavailable it uses gas. The Post says:—
"This week's edition of the Post was printed by power from gas taken from the Gas Company's mains. The steam engine which has done good service for many years has been supplanted by an 'Otto silent gas engine' of four horse power, from the well-known machine and engine works of John Holt & Son, of Toronto. The gas engine was put in position at the beginning of this week and at once worked in a satisfactory manner, giving plenty of power and running with great steadiness. The advance in the price of fuel during the last two years necessitated a change in this direction and we anticipate that it will be something of a saving in expense, as well as a great convenience. An extended description of the gas engine is not necessary here, but it may be said that the makers, Messrs. Holt, have given us a handsome and well finished as well as powerful machine. For printing offices and other establishments where power is needed at irregular times the gas engine fills the bill in every respect. The Post is now, as has been well known for years, one of the best equipped offices in the Province."

The William Hamilton Manufacturing Co., The Canada Gazette announces that letters patent have been granted to the William Hamilton Manufacturing Co., of Peterborough.

Archdiocesan Visit.

His Grace Archbishop Lynch is now in town on a visit to Bishop Jamot. He will celebrate mass on Sunday morning at 8 o'clock, and will preach at the 10 o'clock service.

On Strike.

"What's the matter with the town clock?" is the question asked by a great many on the streets to-day. That question is easily enough answered. "It is on strike; or rather it is not on strike, as it has not rung out the hours to-day." We presume it must be in sympathy with the operators.

The Cow By-Law.

The police make the assertion that even the cows are becoming more moral—staying in the pastures or remaining at home—thus saving them the trouble of putting all "strays" in the pound. The cow by-law is being observed now, without a doubt, and it is a decided change for the better to have it thus.

Ball's Health Preserving Cornets, so highly recommended by physicians, to be found at Turnbull's.

Sons of England.

Application was made to-day to the Grand Secretary, J. Carter, Esq., Toronto, for the charter for "Landedmen" lodges of the Sons of England Benevolent Association, that is being organized in this town. We understand that a sufficient number of gentlemen have signified their intention of becoming members to warrant the promoters in anticipating a very successful career for this good society. It is expected that the charter will arrive here on the 6th of August, when the lodge will be immediately constituted, and a banquet will be held the same evening.

The Band in the Park.

The Fire Brigade Band played in the Court House Park on Friday evening as usual. There was not as large a number of promenaders as on previous occasions, no doubt owing to the threatening state of the weather. The band played in their well-known good style, and those who ventured out were well pleased. On Monday night they commence a series of concerts in the park, that will be continued every night until they leave for Chatham on the 16th. This is a treat that will be appreciated by a great many. They will hold a grand promenade concert in the drill shed previous to their departure, the particulars of which will be given in a few days.

As Others See Us.

The Lindsay Post has the following remarks upon our waterworks and their opponents. We wish, for the credit of the town, that we could contradict them, but as we cannot, we quote, in the hope that the lesson may do some good. The Post says:—
"The Water Company of Peterborough have constructed excellent works at that place. The company offers to the town the use of fifteen hydrants for fire and street watering purposes. The price asked for the hydrants is \$750 per year. The proposed outlay is strenuously objected to by a certain faction as excessively costly. That is a truly Peterborough spirit. Do these people know what they are offered? In Lindsay—the works being the property of the town it costs for power to run the pumps when needed, for fire purposes alone, \$650. The salary of caretaker is additional. The Peterborough Waterworks Company should lock up each hydrant—not settled for at private expense—and some windy night that alleged enterprising burglar will receive his lesson. It often takes severe measures to convince some people."

The Market.

There was an unusually large attendance at the market this morning of both buyers and sellers. Every market day sees something new in the way of vegetables or fruit, and anything offered in this line is immediately bought up. Potatoes have taken a downward course, and are only at 25c a peck. Peas brought 10c a quart and beans 5c. Beets, cabbages, carrots, radishes, lettuce, etc., sold at from 25c to 50c per bunch. New cabbage was brought to market for the first time this summer, and sold readily at 15c per head. Fifty cents a pair was asked for chickens, but buyers were slow to purchase at that price. Some very fine English potato cabbages were offered and brought 5c a bunch. Lamb sold at from 10c to 12c per pound. Eggs brought 14c a dozen, and were sought after. A quantity of blackberries and red currants were offered, the former at 12c and the latter at 5c a quart. Oats were offered at 50c and some hay sold at 37c a ton.

Hidewoollen Lace, very wide, for Ladies' Collars, fresh this week at Turnbull's.

Railway Notes.

The Lindsay Post says:—
"Some rather important changes have been made in the Midland Railway staff, with the view of economizing and concentrating matters. The office of division superintendent has been abolished, and the supervision of the whole system centered under Mr. W. B. Ferguson, the superintendent, and his personal staff. Mr. A. Burton, the superintendent of the Whitby and Halton divisions, has for the time accepted the agency at Midland City, now one of the most important on the system, and specially requiring an experienced and able railway man. Mr. Burton has been ten years a resident of Lindsay, and has made many friends here by his courtesy, while he has always looked after the interests of the road with much care and efficiency. His departure will be greatly regretted. Mr. J. J. Ross, superintendent of the Grand Junction division, has, we understand, the offer of an important position in the Grand Trunk audit department at Montreal, where he will probably blossom out into one of the Moguls of the line. Mr. J. Atkinson and Mr. J. A. Duncan, superintendents of the Midland and Niagara divisions, who are also relieved of their positions, will find other places easily, being good railway men. The station agency at Lindsay is placed under charge of Mr. E. J. Macbeth, son of Mr. Thomas Macbeth, county treasurer, who has been some time efficiently discharging the duties of this responsible post."

New Prints for Autumn trade, dark grounds, with bright flowers, at Turnbull's.

Interesting to Dairywomen.
The Mail says that Professor Buckland, of the Provincial Department of Agriculture, and other gentlemen, on Wednesday inspected a new butter tub, the invention of Mr. Henry Coombs, of Charlottetown, P.E.I. The inventor claims that his package combines the advantages of the old tub, retaining the brine and excluding the air, with the convenience of the existing one, which admits of the contents being removed easily in one piece, and that it is admirably adapted for the export trade, more particularly to the West Indies, which Maritime Province shippers are seeking to cultivate. General admiration was expressed at its neatness and simplicity.

Bucklen's Arnica-Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancers, Piles, Chills, Corns, Tetter, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

For a good Black Luster at 12c cents a yard, go to Turnbull's.

It is now in season to warn our readers against the sudden attacks of Cholera, Cramp Colic, and the various Bowel Complaints incident to the season of ripe fruit, vegetables, etc. Dr. Fowler's Extract of Wild Strawberry is the grand specific for those troubles. Do not attempt to remain over night without a bottle of Dr. Fowler's Extract of Wild Strawberry near at hand. This is the season for Bowel Complaints, Colic, Cholera Morbus, etc., and the remedy above named is the unfailing specific.

Itching Piles—Symptoms and Cure.
The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling about the rectum, and the patient is obliged to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for Tetter, Itch, Salt Rheum, Scald Head, Erysipelas, Barbers' Itch, Blotches, all skin, crusty Skin Diseases. Sent by mail for 50 cents; 3 boxes, \$1.25, (in stamps). Address, DR. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

Practice economy by using the Triangle Dye. Perfect in both dark and light shades. Ask for three colored package. 10c.

Daily Evening Review

MONDAY, JULY 30, 1883.

THE RIGHT ATTITUDE.

THE difficulty which beset the path of the journalist who desires to discuss public questions from his own stand point and who is not prepared to say "ditto" to either the *Mail* or *Globe* is everything of a party character is receiving another illustration at the present time in the treatment which is being meted out to the *Review* by both these journals in consequence of its having been guilty of the "silly hypercriticism" of calling in question, and for ourselves repudiating the *Mail's* statement that Ontario does not own the disputed territory.

No sooner had the paragraph in question appeared in our columns than the *Globe* seized upon it, and, no doubt not so much because of the correctness of its attitude, as because of the opportunity which it afforded it of having a fling at its rival and leader in the journalistic race—the *Mail*, published it with such audacious and unjustifiable statements as that "a general expression of opinion of this kind" would "strengthen the hands of the Government" (meaning of course the hands of the *Mail* Government) and cause "all opposition to the ratification of the award" to "soon disappear" notwithstanding that in this very same paragraph we took care to state that we were at issue with the *Mail* Government as "to the way in which they have sought to obtain our rights." But what aces the *Globe* for either honesty or fair dealing so long as it thinks it can score a momentary triumph.

But our paragraph combined with the *Globe's* unjustifiable interpretation of it seems to have been too much for the *Mail*, and in its following issue it "goes for us" thus:—"We hope our Conservative contemporaries will not mistake the facts of the case and the position of the Liberal-Conservative party and the *Mail* on this question. If they do, and if they fall into the bad habit of silly hypercriticism, they may subject themselves to the humiliation of being quoted like the *Peterborough Review* in the *Globe*, and used as an ally of Mr. Mowat. That is a misfortune which the Liberal-Conservative papers will not generally be likely to risk. Possibly they may or they may not, but whether they do or do not do so, whether the *Globe* does or does not continue to quote and misinterpret our utterances, and whether the *Mail* does or does not continue to sneer at what it is pleased to call our "silly hypercriticism," the *Review* proposes to criticize and condemn the utterances of the *Mail* just as freely as it does those of the *Globe* whenever it deems it its duty to do so in the interests of the Liberal-Conservative party and especially when it conceives such a course to be in the interest of what is of infinitely more consequence, the country. And the *Mail* may get mad just as much as it likes, and it may keep repeating that it is humiliating for a Liberal-Conservative paper to be quoted by the *Globe* as an ally of Mr. Mowat, but neither one or both of them combined, it may as well be understood, will prevent our repudiating its utterances whenever it "puts its foot in it," as it too frequently does. We are not responsible for the interpretation which the *Globe* places to put on our utterances, neither do we intend to become but a mere echo of the *Mail*.

Now let us see what all this little tempest in a teacup is about. The *Mail* alleged that "Ontario does not own the disputed territory," notwithstanding that it has to confess within half a dozen lines of its reiteration of the above statement that "she may own the whole" of it. It may be on account of our silence, but we must honestly confess that we cannot understand how these two statements fit into one another. In our ignorance we supposed, and still suppose, that the first was equivalent to a statement that the disputed territory belonged to the Dominion. As we understand it, this territory must belong either to Ontario or to the Dominion or the latter's representative, Manitoba. Consequently if it is the property of the one it must be that of the other. The *Mail*, however, seems to think differently. By some mode of reasoning beyond our comprehension this land is not, and yet may be, the property of Ontario. In the meantime we prefer to assume that it may be our property, and to act accordingly by using every legitimate and just means open to us to secure its undisputed possession. And while the issue is pending we think it is unbecoming, as well as unwise, for any Ontario paper, and especially a paper occupying the prominent position which the *Mail* does, to cast doubt upon the justice of our claim, by asserting that it does not belong to us. Of course if the *Mail* has mastered all the evidence which can be produced on both sides, and has come to the conclusion that this territory does not belong to the Province, but as a consequence does belong to the Dominion, it is its duty frankly to say so, and to urge the immediate abandonment of all claims thereto by Ontario. If it is beyond dispute that it does not belong to us, why continue the dispute and spend money in litigation which must fail? But the *Mail* does not, and it would most certainly find very great difficulty in producing a single title of evidence, that either Mr. Meredith or any of his political friends entertained such a view. Why, this is the very charge that Mr.

Mowat and his friends have sought to fasten upon their opponents, and which the latter have as liberally repudiated, pointing out at the same time that the issue between them and Mr. Meredith was not the amount of territory claimed, but as to the best course to be pursued for obtaining undisputed possession of that to which we are entitled, whatever that may be, and that was precisely our position in the paragraph which gave rise to this discussion, and which the *Mail* has been the first, by its language, and we trust it will be the last, on our side, to cast doubt upon.

But while we maintain that the *Mail* should not cast a doubt upon the legality of our claim to the territory in question, it is very far from following that we endorse the Mowat policy for obtaining the territory assigned to us by the Confederation Act. Thank fortune we are not, and the people of this Province are not, shut up to following whithersoever either the *Mail* or *Globe* may lead, and for ourselves we repudiate such an assumption on the part of either or both of these journals. A man may have such a claim to a piece of property as to fully justify him in asserting his right thereto, but that will not justify him, in a law abiding country, in taking forcible possession of it, as Mr. Mowat is now doing of the disputed territory. If he be a man of judgment and prudence he will be content with having the property claimed placed in trust, pending the orderly adjudication of his claim, as Mr. Mowat might have done in this case, but has refused to do, and as it would be reasonable to do with a property which may belong to the Province, and may belong to the Dominion. And having done this, the same common-sense man would accede to every proposition calculated to obtain an early and final decision, instead of rejecting every proposition looking to such an end, as Mr. Mowat has done, and for which he deserves to be, and we believe is, condemned by a large majority of the people of this Province.

And finally, if the *Mail* deserves to be condemned for its attitude, so does the *Globe*, when it assumes, as it is just now assuming, that this territory does unquestionably belong to Ontario. It is no more certain that it belongs to us to-day than it was on the 1st of July, 1867; then it was when Mr. Mowat referred the matter to arbitration, or then it was when he asked the Dominion authorities to transfer it to us by legislation. The truth of the matter is, that "the right attitude" for both sides on this question is that it may prove to belong to the other, and that that being the case, both parties should, while maintaining their respective claims thereto, act with moderation, and instead of seeking to make confusion worse confounded, as Mr. Mowat has done and is doing, should endeavor, as the Dominion authorities have and are doing, to have this dispute settled in the most speedy, legal and constitutional manner possible, and to provide for the government and management of the territory in dispute in the meantime in such a manner as will place what is being done and may be done beyond dispute, no matter which of the contending parties may prove the rightful owner. That we believe, is the attitude of both Mr. Meredith and Sir John Macdonald, and that we believe is "the right attitude," the *Globe* and the *Mail* (apparently) to the contrary, notwithstanding.

REVIEWS.

THE *DOMINION* in 1883.—The little work entitled *The Dominion in 1883*, by Ralph Centennia, though it will by many be regarded as a mere amusing jeu d'esprit, whereunto to while away an hour on a journey, will, by the more thoughtful reader, be found to contain many hints for fruitful reflection. It will be seen that our author predicts a great future for Canada, but who that considers our advantages, and the growth during the past century of our neighboring republic under less favorable circumstances, will venture to say that he trenches upon the improbable? It will be observed that he is not among those who think that our Dominion can not progress satisfactorily unless there is a complete severance from the mother country, but looks forward to the maintenance of a great English-speaking empire or confederation. His description of party animosities, and of the results of over-government, though severe, may not seem to our descendants to be altogether without justification. The description, to which much space is devoted, of new inventions for rapid locomotion, are of a more fanciful nature, but point to the necessity that will be felt, and will necessarily be met, for greater facilities for intercommunication between the teeming populations that in time will inhabit the new waste places of our globe. Other improvements, scientific, social and moral, more lightly sketched, are not to be pronounced impossible, and the idea that this may be brought about, not by legislation, but by intelligent and public-spirited co-operation, is one that is worthy of consideration. We can heartily commend this little work, for while those who merely seek amusement will find it as in a fairy tale, to the more studious and reflective may have a new train of thought excited, which may be pursued not unprofitably. It is not always waste time to dream of a Utopia. And though we believe it is premature now to attempt to shape the destiny of our Dominion, and its relations to other communities, and are convinced that they will develop themselves gradually and as the occasion arises, yet we must sympathize with those who do not imagine our future as severed from that of the glorious empire of which we are proud to form a constitutional part, even now of no small importance. Those who say that it is absurd to suppose that we will long be content to submit to any control, however slight, by the mother country, might do well to remember that if Canada could not now confederate on equal terms with the three kingdoms, in the course of a century, a short space in the life of a nation, it may be Canada that would have a controlling power in the Empire.

HARPER'S MONTHLY MAGAZINE.—The frontispiece of the August number of Harper is again by E. A. Abbey, being a beautifully designed and executed illustration of Miss Voley's poem

"A Town Garden," showing how much rather there may be in the apparently commonplace and cordial. In "The Heart of the Atlantic" G. Parsons Larpent takes us to the Black Country of the United States, while in "Vallombrosa" Mrs. Bianchiardi invites us to visit very different scenes. In his paper as the "Canadian Habitant" Mr. Farnham relates an episode of his canoe cruise on the St. Lawrence, and gives a rather good caricature of Jean Baptiste, but like the Englishman who from the first specimen he saw described old France as inhabited by men with red hair and wooden shoes, Mr. Farnham, with ludicrous gravity, ascribes to Canada as a whole, which is a rather large expanse, all the peculiarities, real or imagined, of a very secluded rural village. Col. Higginson contributes another of his historical papers entitled "The British Yoke," in which he gives an interesting account of the magnificent surroundings of the leading men in the northern as well as the southern colonies, and shows us how the addition of our race to municipal self-government was exemplified in the New England town meeting. R. F. Ziegler in "War Pictures in Time of Peace" gives us a graphic description of the French training manoeuvres. Lieut. Kelly, U. S. N., describes "The Modern Yacht," as developed on both sides of the Atlantic, and Hughes Craig in "American Horses" shows how the English race horse has even improved in the States. George von Bunsen, the son of the distinguished diplomatist, contributes an interesting account of the career of the German Crown Prince, the husband of our Princess Royal. The serial story "A Castle in Spain" is continued with even more sensational incidents. There are several short tales and poems of merit, and the usual editorial miscellaneities. The illustrations are profuse and in the high style of art for which this magazine is celebrated.

A Proposed Canal.

The *Orillia Packet* says Mr. Patrick Kelly, Clerk of Rama, says that a proposed canal from Lake St. John to Lake Couchiching, is quite easy of construction as there is no rock. There are large quantities of land periodically flooded, the owners of which would contribute liberally, as the canal would have the effect of keeping Lake St. John at about low water mark. Mr. Kelly says that eleven years ago—before the construction of the Northern Railway through that township—the water flowed during the spring floods across the Rama road into Lake Couchiching, to the depth of three feet.

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we secure the agency for the cure of over 100 cases during the last year, who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Sirmometer, the wonderful invention of Dr. M. Souville of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above named diseases every year. Write, enclosing stamp fee list of questions and copy of *International News*, published monthly, which will give you full information and reliable references. Address: *International Therapy and Lung Institute*, 172 Church Street, Toronto; 18 Phillips Street, Montreal; P. O. 61 Lombard Street, Detroit, Mich.; or 706 Alexander Street, Winnipeg, Man.

Wide Awake Druggists.

Messrs. Taylor & McDonald are always alive to the business, and open no patent, to secure the best of every article in their line. They have secured the celebrated Dr. King's New Discovery for Consumption, Coughs, Colds, Hoarseness, Asthma, Hay Fever, Bronchitis, or any affection of the Throat and Lungs. Sold on a positive guarantee. Trial bottles free. Regular size \$1.00.—3

Personal To Men Only!

up with hundreds of thousands of saw logs, and
they are steadily piling in all the time. This
big drive belongs to Messrs. Bathson & Son
and will not be finished for two or three days
yet. Another drive is to be started as soon as
this one gets through, which will be the property
of Mr. D. Ulyott.

St. John's Church Picnic.

The Sunday School Picnic of the above church
will take place to-morrow at Hastings. The
scholars, teachers and their friends will leave
here on the Midland train at 8.45 to-morrow
morning, and return in the evening on the same
train. No doubt this picnic will be largely
attended, as it is said to be a splendid place for
such affairs.

"War-West" Cider.

The most wholesome temperance beverage
made. Put up in kegs expressly for farmers
use in the harvest field. Only 15c a gallon.

FOR FAMILY USE.

Put up in bottles. Orders sent by telephone
if left at Bank and Elliott's, and delivered in
any part of the town. H. Oskott, manufac-
turer.

Smith's Market.

Shallot Peas, Beans, Cabbages, Carrots, Beets,
New Potatoes, Cucumbers, Cauliflowers,
Huckleberries, Garden Raspberries, Cherries,
Gooseberries, Currants, Apples, Peas, Peaches,
Watermelons, Cantaloupes, Bananas, Fresh Fish.
As usual our customers will please bear in
mind the importance of ordering fresh Thursday
evening or early Friday morning, as our drives
are long, and impossible to get over the same
ground twice the same morning in time for
dinner.

The Excursion from Belleville.

Our readers will remember the excursion from
Belleville to this town, under the auspices of
the Methodist Sunday School, two years ago,
which was very largely attended. The excu-
sion on Friday, August 3rd, which is under the
charge of the Methodist Church, will meet prob-
ably be even more largely attended, as it is on
Belleville's civic holiday, and the congregation
of that church are very successful in their under-
takings of this nature. The excursionists will
have the opportunity of visiting, some of them
though not for the first time, a lively town, and
many friendships formed on the occasions of
the previous excursions will be renewed.

PETERBOROUGH, TUESDAY, JULY 31, 1883.

PRICE TWO CENTS

Do you know the wife of Mr. CHAS. JAMES, of a daughter?

DIED.

YOUNG, in Peterborough, on July 28th, WILLIAM HENRY, infant son of Mr. W. Young, aged 10 months and 10 days.

STOCK-TAKING.

MOST WONDERFUL!

The run on our Coloured Silk all last week was Wonderful.

The ladies say they are the BEST VALUE ever placed on a Retail counter in Peterborough.

We placed the same line of Silks on our counter this week at the Low Price of 75 Cents a Yard,—really worth \$1.00. See them, at

GIROUX & SULLIVAN'S

BLACK SILKS.

All reduced. See the beautiful Black Silks at \$1.50 per yard, worth \$2.25 selling fast at Giroux & Sullivan's.

BLACK GOODS.

All reduced. Black Cashmeres all reduced. The right place to buy your Dress Goods is at Giroux & Sullivan's. They are giving special value in every department.

Daily Evening Review

TUESDAY, JULY 31, 1883.

We are now told by the United States officials, who cook the emigration statistics, that the immigration of Canadians into the States is not so great as last year. The reason for this falling off in their figures is easily found. Many settlers and visitors have gone to Manitoba this year by the Thunder Bay route instead of by way of the States, and thus there is no opportunity of falsely classing them as emigrants to the States.

The following extract is not from the *Globe* but from a new rival, the *Globe*. There is something very comic in such self-portraiture:—
"The *Globe* never violates the impersonality of the press, never names those who may be supposed to be the writers of editorials, nor applies opprobrious epithets to them, nor makes personal attacks on them. And, although it sometimes receives much provocation it never disregards the amenities and proprieties of journalism. There is not in all Canada a member of the profession who has just cause to complain of anything the *Globe* has ever said of him."

In reference to a recent sale of timber limits in the Northwest Territory the leading Reform journal says:—

"The limits were not sold by public auction as would have been the case had it been Provincial lands of Ontario that were being dealt with."

We may add that the reason why the limits were not sold by public auction was that the Mackenzie administration had repealed the law requiring sale by auction, in order that it might convey limits to some of its political supporters without any such restriction.

REFORM journals are crowing about a supposed victory of Mr. Mowat over Sir John Macdonald in the Mercer affair. It was not Sir John who was contesting the matter in the courts with Mr. Mowat, but it was the (deceased) Mercer, who in his efforts to secure his father's property no doubt preferred to see it in any hands rather than Mr. Mowat's. Mr. Mercer would naturally hope that Sir John Macdonald would act honestly, and not like Mr. Mowat fine him for his father's sin, and then pocket the fine for Mr. Mowat's disgraced client, Ontario.

THE Toronto World says:—

"Ontario does own the disputed territory. It was given to her by a board of arbitration, to the appointment of which both interested parties consented."

If our ownership of the disputed territory only rested on the award of the arbitrators we would have a very bad title. The Dominion, one of the parties interested, did not consent to the appointment of the arbitrators or to their award, by the only mouthpiece authorized by her constitution for that purpose, namely the Parliament of Canada. Mr. Mackenzie had just as much, and just as little power to bind the Dominion in this matter as the World has, but to do Mr. Mackenzie justice, he expressly reserved the decision for Parliament. The arbitrators were at best "a committee to report."

With their usual want of decency or of the common feelings of humanity when a political opponent is in question, some Reform journals are sneering at what they call Sir Charles Tupper's "accommodating illness." These who have been brought in contact with him for the last six years know how seriously his health has been impaired, and have felt all the more anxiety, because, in spite of weakness, in spite of medical advice, his struggle to fight against physical ailments threatened a complete break down or even a fatal termination. That he has not taken therapeutics so well earned may be a reason for anxiety but not for blame. We often read of great men that they sought their rest in charge of work not cessation from it, and we hope that in this case a change of scene, of climate and of work may prove sufficiently restorative.

THE WEST RIDING ANNUAL EXHIBITION.

At a meeting of the Directors of the West Riding of Peterborough Agricultural Society held on Saturday it was determined to hold the usual annual fall exhibition in Peterborough on Tuesday and Wednesday, the 2nd and 3rd of October next. The prize list was gone over and considerable additions made thereto. The chief of these were in the ladies' department, which has been greatly enlarged, and the rules so amended that entries may be made in the ladies', children's and fine arts classes by non-residents as well as residents of the riding. This will enable our fair friends from the other side of the river to try horses with their sisters of the west, and we trust a good many of them will do so next October. The prize list will be printed and ready for distribution in a few days. Those intending to compete in any of the classes except those already named will do well to bear in mind that unless they pay the annual fee on or before the 1st of September next, it will cost them fifty cents extra to enter any animal or article for competition. Intending exhibitors who have not already paid the fee of membership can do so by leaving a dollar at the REVIEW office.

Borford's Acid Phosphate gives strength where there has been exhaustion and vigor in place of impaired vitality.

AN ASSASSIN'S ATTEMPT.

A Man Nearly Killed at Rat Portage.—Mr. Mowat's Law-Obeying Constables.

The following special despatch appears in the Winnipeg Times:—

RAT PORTAGE, July 26.—An attempt at assassination took place last night. H. Rideout, while returning home last evening about ten o'clock, was fired at by some party in ambush, the bullet going through his hat and grazing the top of his head. It is generally supposed the bullet was intended for R. M. Rideout, as that party is taking an active part against Ontario's usurpation.

There is here a hard gang of ruffians having no visible means of support, whose sympathy is with the Ontario party.

John Keyes, an Ontario constable, was arrested yesterday for selling whiskey to Indians.

The Ontario party paid McMahon, of Winnipeg, \$350 to argue the boundary question before Police-Commissioner Brereton here yesterday in defence of a whiskey case. The captain found the evidence conclusive. The prisoner was fined \$30, or 6 months, for selling without a license.

MR. MOWAT'S BAD EXAMPLE.

We have much pleasure in transferring the following from the London *Free Press* to our columns:—

"One of the most ridiculous attempts made to misrepresent the attitude of the Liberal Conservatives in relation to the territorial status of Ontario is, that the leaders of that party propose to relinquish large areas rightfully belonging to this Province. Nothing is further from the fact. What the Conservatives have asked for is that the rights of this Province should be properly ascertained. When they have been so ascertained the possession of them to the fullest extent will proceed as a matter of course. There is no party in the Dominion, so far as we are aware, that desires to do Ontario any injustice. But this Province has been placed in an unfortunate position by the wrong-headedness of Mr. Mowat. For many years he has insisted upon forcing a settlement which was no settlement, and of accepting a certain line of boundary for which there is no adequate authority. The question is not how many acres Ontario may gain or lose by the fact of her boundary line being placed in one position or another. What should be ascertained, and what would have been properly ascertained long ago, is this, is the correct line of the true boundary. This being done, all difficulty would at once vanish. The only difficulty of any magnitude is one of Mr. Mowat's own making. While demanding a certain boundary line, he has refused to have it duly ascertained and certified to by the proper and only court that can give a final decision on the matter. The Conservative position is not to give up a single inch of that to which Ontario is justly entitled, but to ascertain in a definite way that which really belongs to her estate as a Province. This, we take it, is far better, far more honest, than to set up a quackery policy long after warning has been given that the territory is in dispute. As to the sending up of twenty-five constables to 'take' the country, that was simply an act of aggression, which, while it does not add anything to the value of the claim Ontario may rightfully have, indicates a spirit of lawless aggression which cannot be too strongly characterized. Ontario should be governed by law, to be ruled by order, but here we have seen Mr. Mowat, who in his official capacity is supposed to represent and support law and order, outraging the one and the other."

Bringing England and Ireland Together.

Mr. J. Charles King is an English engineer who has a method by which the Irish difficulty can be got over, and the particulars of which he sends to the *Detroit Free Press*. Mr. King has written an illustrated pamphlet on the subject, which is published by R. H. Squire, of Fleet street, London. Mr. King's plan is a real union of Great Britain with Ireland—a union which it would be difficult to repeal. He would fill up a space in the North Channel between Antrim in Ireland and Canine in Scotland. The distance from land to land is only nineteen miles, and the greatest depth four hundred and seventy-four feet. The hills on each side are from 900 to 1,300 feet high, and Mr. King would have the loaded trucks run down on wheels by gravity, and thus a great part of the expense would be saved. About a square mile of earth 100 yards deep, would be required to form the isthmus. The labor could be done by 30,000 convicts taken from the prisons near London, and this would lessen materially the expense of the project were the nation to adopt the scheme. The cost would be about \$2,000,000, and the result would be, the sanguine Mr. King thinks, a more perfect homogeneity of the united people, while physically it would change the Irish Sea into a land-locked bay, lessened in depth by the cessation of the Atlantic flood from the north, thereby serving to stop the natural drainage of the adjacent coast, and make the marsh land of the west coast of Ireland capable of the highest forms of cultivation.—*Evening Canadian*.

Damage by Logs.

Durham, July 27.—Yesterday morning three piers of the Detroit, Grand Haven, and Milwaukee bridge went down before the pressure of one hundred million feet of logs, and the logs passed on and tore out the Grand Rapids and Indiana and Chicago and West Michigan railroad bridges. The logs are now at rest against the Lake Shore and Michigan Southern, which will probably give way. Several million feet of the logs are owned by Grand Haven and 30 million in Grand Rapids. The damage to the Detroit and Milwaukee bridge will amount to \$20,000; Grand Rapids and Indiana destroyed, cost \$20,000; Chicago and West Michigan damaged, \$50,000; Sixth and Seventh wards flooded, creating damage estimated at \$20,000; different factories damaged, \$15,000; and those on the canal will shut down for three weeks. The city bridges all stand, but some are shattered.

A Good Example.

The Quebec *Chronicle* says:—It is with pleasure we notice that the Ontario Government, following the example of several States in the Union, and perhaps quickened to action by the steps taken by the Quebec Ministry, has turned its attention to the important subject of Forestry so far as that science relates to the conservation and propagation of trees.

The Toronto *Evening Canadian* has the following pointed remarks:—

"When the present election laws were first applied they were much more severely interpreted than they now are. It will be remembered that at that time Mr. Scott, of North Grey, was unseated, and, we think, disqualified, for taking a glass of beer with a political opponent toward the close of the poll. Mr. Scott was treated with similar harshness in North West. From recent findings of the election courts, however, it would appear that 'rasberry syrup' and 'rough mixtures,' alias whiskey, may now be indulged in with impunity during an election contest."

TOWN COUNCIL MEETING

SOME PROTECTION FROM FIRE IS AT LENGTH ALLOWED.

George Street Permitted to Protect Itself—Down May Deal on Sunday—Watering the Streets—Official Securities.

The Council met on Monday evening, July 30th, pursuant to adjournment. Present, Acting Mayor Menzies, in the chair, and Councillors Cahill, Davidson, Paterson, Sawers, Yelland, Douglas, Rutherford, Denne, Kelly, McNaughton and Hartley.

The minutes of last meeting were read and confirmed.

EXAMINATIONS.

From E. B. Edwards, stating that he had prepared a by-law for the renting of hydrants for George street in accordance with the petition, and fixing a special rate therefor which should be struck by this by-law and not be left to be fixed by a subsequent by-law. Also that he had under consideration the title of the old Bank of Toronto property, but he had not yet been furnished by the vendors with all the evidence of title necessary. It would be necessary for the Council to pass a by-law authorizing the completion of the purchase and the taking of an assignment of the lease and declaring the purposes for which the property is to be held.

From A. T. Bradley, acknowledging receipt of copy of resolution as to O. & Q. Railway bridge.—Received.

From Thos. G. Haslett, as to the fixing of grassed area in Edinburgh street.—Town Engineer instructed to strike grades.

From Wm. Fitzgerald and fourteen others, asking for a sidewalk on Dublin street.—Referred to Street and Bridge Committee to report.

From J. G. Griffith and twenty-two others, asking for a sidewalk on Elm street.—Referred to Street and Bridge Committee to report.

From Mr. Yelland, asking for leave to lay down a siding on Bethune street, upon agreeing with others interested.

From W. Rutherford and 59 other property holders on Aylmer street between Brock and Charlotte streets asking for three hydrants, one on each block.—Referred to Clerk to see if a requisite number of names were attached and if so to prepare a by-law.

From J. Crevier asking for refund of taxes paid for duty.—Referred to Council of Revision.

ACCOUNTS.

B Sullivan, charity.....\$ 2 00

John White, cleaning lock-up..... 1 00

Fire Brigade, testing waterworks..... 10 50

Selling tanks after fire..... 5 00

Malcolm Miller, horse hire..... 6 30

Malcolm Miller, horse hire..... 30 12

George Allan, riding P. Crevier..... 1 00

Edmond Whitfield, driving Gov. archt..... 4 00

To be paid when certified, except Miller's, referred to Finance Committee.

Councillor McNaughton handed in \$2 from the husband of Mrs. Fawcett, who on his return had paid the money for the goods supplied to his wife by R. Sullivan.

WATERWORKS FOR GEORGE STREET.

The CHIEF stated that in reference to the petition of Geo. A. Cox and others, for a by-law for renting hydrants on George street, he found that it was more than sufficiently signed by both individuals and tenants.

FILLING TANK.

Councillor RUTHERFORD said that it need not cost a considerable sum to fill the tank after a fire, but by the liberality of the Waterworks Company all expense was saved except the time of the men.

FOUNDLING.

The acting mayor called attention to the case of the foundling left at Mrs. O'Brien's door.

The matter was referred to the Charity Committee to report, and to make arrangements for the present.

THE OLD MUSIC HALL.

The acting mayor asked for information as to the control of the old music hall.

The CHIEF read the by-law showing that it was under the control of the market inspector, after the market clerk's rights being saved.

After some discussion it was decided that the keys should be placed in the care of Mr. Bevis.

WATER CART.

Councillor RUTHERFORD brought in the following report:—The Fire, Water and Gas Committee have leave to report that on account of the lateness of the season it is deemed inadvisable to purchase any new water-carts this year, and therefore recommended the matter be laid over for this year at least.

Councillor DOUGLAS moved the adoption of the report.

Councillor RUTHERFORD said he could not support the report on account of the state of the cart and also because the report had petitioned to be allowed to lay down the cart on either of the water streets.—The only thing done was to have the cart changed for a new one.

After some discussion the report was adopted.

RAILING THE CREEK.

Councillor SAWERS moved seconded by Councillor PATTERSON that the street inspector notify

FRUIT JARS.

CHINA HALL is Head-quarters for every kind of FRUIT JARS. At CHINA HALL you can get a Superior Jar at a less price than other dealers are asking for ordinary goods. CHINA HALL Fruit Jars will not crack. Buy your Fruit Jars at CHINA HALL and save Money, Time and Fruit.

MACFARLANE WILSON, Direct Importer.

the owner of the land between Wilson's Hotel and Halpin's blacksmith shop on Hunter street, to have a railing put up to prevent persons from falling into the creek.—Carried.

GEORGE STREET HYDRANTS BY-LAW.

On the motion for the first reading of the by-law for renting hydrants on George street, there was some discussion at the instance of Councillor McNaughton as to whether the by-law was drawn under the statute or the town by-law. The first reading was carried.

The following is the By-law.

By-Law No. 1000, passed the thirtieth day of July, 1888.

A By-Law to provide for renting hydrants for fire protection and other purposes by means of a special act.

Whereas there are in the Town of Peterborough Water Works under the control of the Freeholders and Householders resident in that part of George street in the town of Peterborough, lying between London and Sherbrooke streets, and representing one half of the assessed property therein, to the depth of one lot on each side of George street, have by their petition requested the Municipal Council of the town of Peterborough to pass a by-law for raising such sums as may be necessary for renting hydrants to be used for the protection of such property and whatever may be thereon from fire and for the use of the owners and their tenants, for other purposes including the watering of the streets, by means of a special rate on the said real property according to the assessed value thereof, and in accordance with Section 47 of the Municipal Waterworks Act, 1882, and it is expedient to comply with such petition.

And whereas the assessed value of the said real property according to the assessment roll of said town for the year 1888 is the sum of \$54,750, and there will be required, to be raised for renting the hydrants aforesaid, the sum of \$500 and business which will be necessary to levy upon the said real property an equal special rate of one and one-tenth mills on the dollar according to the assessed value thereof.

The Corporation of the town of Peterborough by the Municipal Council thereof enacts as follows:

1. It shall and may be lawful for the Fire, Water and Gas Committee of the said Council to contract with the Peterborough Water Company for the renting of hydrants to be used for the protection of such property as may be thereon from fire and for the use of the owners and their tenants, for such other purposes as may be deemed and agreed upon including the watering of that part of George street aforesaid and other streets adjoining such property.

2. For the purpose of raising the said sum of \$500 necessary for renting such hydrants there shall be raised and levied during the year 1888 upon all the real property situated upon George street between London and Sherbrooke streets in the said town of Peterborough in the depth of one lot upon each side of George street, being all the lots designated and known as lot number one on the west side of George street and lot number two on the east side of George street between London and Sherbrooke streets aforesaid, according to the plan of survey of said town to the full depth of such lots an equal special rate of one and one-tenth mills on the dollar according to the assessed value thereof in addition to all other rates and assessments levied or imposed upon such property.

3. The money so raised and levied shall be devoted and applied to the purposes aforesaid and to no other purpose, and no portion of the general funds of the Corporation of the town of Peterborough shall be devoted or applied to the renting of such hydrants, nor shall the said Corporation be liable to the said Water Company or to any other person, body or corporation for any sum beyond the amount actually levied and collected for the purposes aforesaid by means of such special rate.

CHARLES D. MACDONALD, Town Engineer, Clerk.

As the clause in the said clause by which Councillor SAWERS moved the first clause moved an amendment that water should be used from the George street hydrants for watering other streets.

It was pointed out by several councillors that it would not be fair to water other streets at the expense of the ratepayers of George street, who had to pay for it.

The by-law was read a second and then a third time, passed, signed and sealed.

COW BY-LAW.

Councillor DENNE called attention to the fact that the cows were running at large on Sunday, and asked for what the extra \$50 was voted.

Councillor McNAUGHTON said cows could not be ponded on Sunday. He wanted to know who should enforce the building by-law, as several property holders had put up wooden sheds.

Chief Constable JOHNSON said he believed cows could not be ponded on Sunday.

Councillor PATTERSON said he understood the \$50 was for the constables to procure assistance to keep cows off the street.

Constable PRIDMORE said he would not pond cows on Sunday.

Councillors McNAUGHTON and DOUGLAS supported the constables in refusing to carry out the cow by-law.

CUTTING WEEDS.

Councillor RUTHERFORD moved to authorize the Street and Bridge Committee to have the weeds cut on the streets.

Councillor McNAUGHTON raised the point of order that an expenditure of money was involved.

Councillor DOUGLAS moved in amendment seconded by Councillor SAWERS.—That it be the duty of every property owner to cut all the weeds in front of his own property.

The amendment was carried.

PURCHASING THE RIBBOUR STREET PROPERTY.

Councillor SAWERS moved, seconded by Councillor DOUGLAS.—That the Town Council be instructed to purchase a by-law to complete and carry out the purchase of the Bank of Toronto buildings.—Carried.

RAILWAY SWITCH.

Councillor CAHILL moved, seconded by Councillor DOUGLAS.—That the Council in willing to give permission to Mr. Yelland to put down a switch on Bethune street provided he settles with the property owners affected thereby by arbitration or otherwise.—Carried.

OFFICIAL SECRETARIES.

Councillor SAWERS moved, seconded by Councillor PATTERSON that the street inspector notify

Councillor McNAUGHTON.—That the Council do now go into committee of the whole to inquire into and examine the securities of the several officers of the town.

Councillor RUTHERFORD moved in amendment, seconded by Councillor DENNE.—That the motion of Mr. Sawers be left over as a notice of motion.

After some wrangling the amendment was carried.

WATERING STREETS.

Councillor CAHILL moved seconded by Councillor RUTHERFORD that so soon as the hydrants are contracted for, George street from London street to Sherbrooke street be watered before any other streets.—Carried.

THE AUDIT AGAIN.

Councillor SAWERS moved seconded by Councillor McNAUGHTON that as the communication of Messrs. Sawers and McNaughton brings to the notice of this Council that the funds of the town were not properly dealt with during 1882, it is resolved that this Council do examine the auditor's report and accounts of the Town Treasurer for 1882 and that the Council Motion it adjourns adjourn until Thursday next the 2nd of August at 10 a. m., and then go into committee of the whole and make such examination.

After a violent speech from Councillor SAWERS and much confusion and disorder the Council broke up abruptly without formal adjournment.

It is now in season to warn our readers against the sudden attacks of Cholera, Cramp Colic, and the various Bowel Complaints incident to the season of ripe fruit, vegetables, etc.

Dr. Fowler's Extract of Wild Strawberry is the grand specific for these troubles.

Dr. Fowler's Stomach Bitters free the system of the poisonous humours that develop into Kidney and Urinary diseases, give tone and vigor to the Stomach and purify the Blood.

Do not attempt to suppress over-night without a bottle of Dr. Fowler's Extract of Wild Strawberry near you.

It is the season for Bowel Complaints, Colic, Cholera, etc., and the remedy above named is the unfailing specific.

A CURE FOR CHOLERA MORBUS.—A positive cure for this dangerous complaint, and for all acute or chronic forms of Bowel Complaint including Colic, Cramps, Dysentery, etc., is then Dr. Fowler's Extract of Wild Strawberry comes to the rescue. Thus writes W. H. Crocker, druggist, Waterdown, and adds that "his sales are large and increasing."

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

A VALUABLE DISCOVERY.—One of the most valuable discoveries in the medical science, for the benefit of mankind, was made when Dr. Fowler's Blood Bitters were invented. This medicine positively cures all diseases of the Liver, Kidney, Stomach, Skin, and Blood. 25,000 bottles have been sold during the last three months.

Itching Piles—Symptoms and Cure.

The symptoms of itching piles, the perianth, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling above the parts affected. If allowed to continue very sore and painful. SWAYNE'S OINTMENT is a pleasant, sure cure. Also for Tetter, Itch, Salt Rheum, Scald Head, Erysipelas, Barbers Itch, Blotches, all scaly, crusty Skin Diseases. Sent by mail for 50 cents, 3 boxes, 1.25. (In stamps). Address: DR. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

team seemed to have much the advantage.

The ground was rough, which gave an advantage to the home team, as they were accustomed to it, and, in addition to this, the Peterborough team was playing up a raise in the ground. The Campbellford team included several good players, especially on the defence, whom it would be hard to beat, and even those of them who had played the national game this season for the first time, did good work. The Peterborough boys worked hard, doing some very good playing, and the game lasted one hour and five minutes. During the game there were three pauses, but they are not counted in the above computation of time. Finally, after the last stoppage, the ball having been faced, it was secured by Mills and put through the flags, winning the first game for Campbellford.

The second game was considerably shorter. The play was lively and the game was sharply contested, but after it had continued for five minutes Hackett got the ball, and by a neat throw passed it through the stakes.

As it was now 6 o'clock, the limit placed upon the match, a vote was taken as to whether it would be continued, and a majority voted for it to cease. The Peterborough boys then gave three cheers for the Campbellford club, the cheers were returned, and edited cheers were given for the Queen and the referee.

The players then returned to the village, and the Campbellford players remained with their visitors during the evening, impressing them by their friendly attentions with the fact that they were gentlemen, jolly fellows.

On Tuesday morning the team departed from Campbellford on the morning Grand Junction train, and went on to Hastings, from which village they were driven to Norwood, where they were to play a match with the Norwood Lacrosse Club. At about 2 o'clock they proceeded to the field, which is a large one, and, compared with the Campbellford field, a very smooth and level one.

At about half-past two o'clock the players took their places on the field. The Peterborough team was almost the same one as had played on the previous day, and the Norwood team was composed as follows:—

J. Hendon.....Goal
P. Slaty.....Point
J. A. Harper.....Cover Point
F. Pearce.....Field
B. Pearce.....Field
J. McDougall.....Field
B. Patterson.....Centre Field
J. Atkinson.....Field
D. Dennison.....Field
J. Eaton.....Home
A. J. Robertson.....Field
J. McKelvie.....Field
W. J. Stephenson.....Field Captain

Mr. M. Giroux, of Peterborough, was chosen referee, and Messrs. T. Houston, Norwood, and S. R. Armstrong, Peterborough, acted as umpires.

The ball having been faced for the first game the play became lively and interesting at once. A few minutes after it had been begun Mercer received an accidental blow from a crosse and time was called. After a pause of ten minutes McDermott took his place and the play proceeded.

The Peterborough boys were not long in discovering that the Norwood team had greatly improved since they played here, and that they would have a hard contest. From one side of the field to the other the rubber travelled, and good individual play on the part of each team called forth frequent applause from the spectators. Finally, after about 20 minutes' play, or 30 minutes after the game had been commenced, the ball came close to the Norwood goal and a lively tussle took place for possession of it, but a throw from Howden took effect, and the first game was scored for Peterborough.

The second game was a very short one. From the centre, where the face was made, the ball was brought down the field, every yard of its progress being contested, and not raising until it was within a few yards of the Peterborough goal, when McKelvie passed it through the flags, winning the second game for Norwood in about a minute.

The third game was a tedious one, on account of the stops. A truce was called when Pearce was struck by a crosse, and hostilities ceased for fifteen minutes, when he again came on the field. Soon after a foul caused a stoppage, and advantage was taken of it to pass around the water, and ten minutes more were lost. Again when Myers received a blow on his thumb, which had been injured on the previous day, a consultation lasting twenty-three minutes took place. It was finally decided to continue the match, and for the Peterborough players to drive back to town, as they would, by playing on, be too late for the train. Delaney took Myers' place, and again the game became interesting and often exciting. Several times the ball was close to each goal, but finally Howden, by a neat drop shot, put the rubber through the stakes, and Peterborough won the third game after thirty-six minutes of actual play.

The fourth game was another short one. Mooney got the ball at the face and sent it up the field. It was carried near the Norwood goal, and thrown back to centre. Mooney caught it and threw it to Hackett, who by a good throw passed it between the flags. Thus the game and the match was won for the Peterborough team.

The actual scores were then given, and the teams returned to the village. At about 6 o'clock the Peterborough boys started for home in 'buses, having a good opinion of the boys of our neighbouring village, on account of the treatment they accorded them. The second twelve were well pleased with their trip, as it was a very enjoyable one throughout, and they acquired themselves in a very creditable manner on the field. They are indebted, in a great measure, to the players of the trip to the attention of the patron of lacrosse, Mr. H. Le Brun, to all requirements.

The first game was a long one, and neither

team seemed to have much the advantage.

The ground was rough, which gave an advantage to the home team, as they were accustomed to it, and, in addition to this, the Peterborough team was playing up a raise in the ground. ANOTHER Nihilist PLOT.
St. Petersburg, July 31.—Official news has been received that a most dangerous Nihilist conspiracy has been discovered in Russia. A great number of people are implicated and many arrests have been made.

PRINCE GEORGE EN ROUTE.
London, July 31.—The corvette Canada, on the way to assume a position on the British North Atlantic waters with Prince George of Wales aboard as a midshipman, is sailing under instructions issued by special order of the Admiralty, which look to the absolute and certain safety of the vessel. The question of speed will be entirely ignored.

REJOICING IN DUBLIN.
Dublin, July 31.—A large crowd gathered last night in front of Carey's late residence, cheering loudly because the informer was killed. The authorities believe O'Donnell was implicated three years ago in the attempt to blow up the Mansion House, London, and escaped with Coleman to New York. The Government selected Africa as the safest place for Carey. It is doubtful whether he knew of his destination before sailing. It was not revealed to the police who took him from Dublin to London.

FRANCE AND TUNIS.
Paris, July 31.—The treaty between France and Tunis, to be submitted to the Chamber of Deputies to-morrow, confirms the establishment of a French protectorate, and says the Bey will undertake reforms.

MOUNT VESUVIUS ACTIVE.
London, July 31.—Mount Vesuvius is in eruption. The lava is descending in the direction of the town of Torre del Greco.

Daily Evening Review

THURSDAY, AUGUST 2, 1883.

Looking for a Murderer.

About a week ago Detective Fahy, of the Dominion Detective Agency, received a circular from the police authorities of Oldham, Lancashire, offering the reward of £100 sterling for the arrest of a man named Harry Swindells on a charge of wilful murder committed in that place some time ago. The murderer was traced to Barrow, where it was supposed he took passage upon the cattle steamer "Thanemore," which left that port for Montreal on the 17th July. The steamer was expected to arrive on Saturday last, and on the Thursday preceding the detective left for Father Point, and waited the arrival of the vessel there. When she was signalled he put off from the shore in a row boat, boarded her, and at once commenced a search for the fugitive. To his disappointment, however, the man was not on board, and the officers of the ship, after bearing his description, stated that a man tallying with it had endeavored to ship with them at Barrow as an ordinary seaman. He was refused, however, as he was a green hand, and was seen to go on board a vessel lying near the Thanemore's berth. It is supposed he succeeded in shipping on her. The vessel was the Kathleen Clarke, bound for Rotterdam. Detective Fahy returned to Montreal on the Thanemore, and upon arriving in port had the satisfaction of seeing the Quebec detective, who had also been cabled, and came on board here, disappointed in the same manner.—*Montreal Witness.*

A Green Exaggeration.

The Toronto World says Grip exaggerates beyond all bounds when he represents a Canadian factory as actually closed, and the Globe weeping crocodile tears over the event. The crocodile part of the picture is all right, but it would puzzle Grip to find the closed factory. Of course it is a cotton factory that it means, for the overproduction scare has been mostly in connection with grey cottons. If Grip were better informed, he would know that already the scare is practically over, and that all the large cotton companies are rapidly effecting such changes as will enable them to increase the number and variety of their make of goods, instead of running two much on one particular line as heretofore. The same thing is going on in the woollen factories, too, notably in the knitted goods branch.—*Montreal Gazette.*

Tell-tale Marks on stolen Property.

The Ottawa Free Press does not edit the Mail's despatches before stealing them, else it would never have stated that "Mr. Mowat's men are selling liquor freely" at Rat Portage. It is not polite to look a gift horse in the mouth, but the animal is a stolen one it is pronounced against him for tell-tale marks.—*Irish Canadian.*

ROBT. H. POPE

Jersey Bull.

THE THOROUGHBRED JERSEY BULL, which last year won at Mr. Ladgate's show on the Dixon Farm, Smith. Apply to SANDY COCHRANE, Manager. 4118

LAKEFIELD.

From Our Own Correspondent.

STEAM BOAT CHANNEL.

Since navigation opened last spring, until this week, the steamers Cruiser and Fairy have been unable to make a trip with any degree of certainty on account of certain foremen of saw log drives completely blocking up the channel at one place or other between Lakefield and Stony Lake, with a total indifference to the welfare of the owners or of the convenience of the public. This has been particularly so with regard to the river between Lakefield and Young's Point. That the interference with navigation referred to is unnecessary and avoidable is proved by the fact that some foremen never stop or impede the progress of the steamers. It is said that the best foremen on the water have no trouble in leaving a clear channel. M. Callaghan, head foreman for Messrs. Rathbun & Son, came through here with over 200,000 pieces at the time of high water, when it was very difficult to manage even small numbers of logs, and did not stop the Cruiser one hour. A petition has been got up and largely signed, and by lumbermen too, asking the Dominion Government to interfere and keep this highway open for public traffic and to prevent two or three illiterate and conceited foremen out of so many scores to completely block up so important a thoroughfare. It is to be hoped that the Government officials will take this matter in hand at once and do something for the large salaries they receive. The people around here are getting entirely out of patience with this matter. One is not even safe to take his wife or daughter out for a sail on the water for fear of having his return prevented by a boom and saw logs from shore to shore at some narrow part of the channel.

QUICK TIME.

The steamer Cruiser on Monday last, July 30th, left her wharf at Lakefield 9.15 a.m. on her regular trip in connection with the Midland Railway train. She called at Juniper Island, Julian's Landing, Burleigh Falls Hotel and other places along the route, besides taking and delivering messages, &c., at two different camping grounds, and arrived back again at Lakefield at 1.30 p.m., making the round trip in the remarkably short time of four hours and fifteen minutes. Considering the difficulties there are to contend with lockages, going out of the regular course to avoid sawlog drives, &c., the above short time shows that this favourite steamer is full up to her usual capabilities as a fast going little craft. On this trip her speed and steadiness were very generally and favourably commented upon by the passengers on board. For once no part of the channel was blocked with saw logs, and the result of the trip shows the necessity of having something done at once to keep the saw log drives in proper place.

GARDEN PARTY.

A garden party and concert will take place on the grounds of R. C. Strickland, Revere of Lakefield, to-morrow, Saturday evening, Aug. 4th, for the benefit of St. John's Church Parsonage Fund. The grounds referred to will be open from four till ten o'clock. A lawn tennis tournament will take place from four to seven o'clock, and the concert, which will be the event of the evening, will begin at 7 o'clock, in which Miss Evelina De Beaumont, the celebrated artist, who has kindly consented to take part, will be the star. The Peterborough Fire Brigade Band will also be in attendance. Refreshments on the grounds will be served, and a concert will be, no doubt, so far as Lakefield, at any rate, is concerned, the event of the season. We understand that a special train from Peterborough has been arranged for, and a large turnout is expected. 25 cents admission to the grounds will be charged, or 50 cents admission and reserved seats for the concert included.

ORANGE MEETING.

The regular monthly meeting of L. O. L. No. 122, commonly called the old lodge, will be held in the Orange Hall on Monday evening next, the 6th inst., at 8 o'clock.

MASONIC MEETING.

The monthly communication of Clement Lodge of A. F. & A. M. will be held in the Masonic Hall on Tuesday evening next, at 7.30 o'clock.

PAINT AND VARNISH.

Our enterprising paintmaster and hardware merchant, Mr. W. H. Casement, has had his store, corner of Queen and Reid streets, repainted inside and out, which adds greatly to the appearance of the premises, as well as setting a good example to others.

HARVESTING.

Farmers in this part of the country are very busy this week cutting fall wheat, barley and rye, and large quantities of these cereals are already cut and in stacks. The prospects of at least an average yield are excellent.

BASTINGS.

FATAL ACCIDENT.—The Star says that while Mr. Richard Healy, who lived a few miles north of Norwood, was returning to his home from the village on Tuesday of last week, and driving a pair of spirited horses attached to a wagon on which there were a few loose boards forming the bottom, the horses took fright and threw Mr. Healy off, the wheels passing over him. At first it was thought that he was not seriously injured, but he continued to grow worse and inflammation set in on Saturday, and which terminated fatally at 2 o'clock on Sunday morning.

ORDINATION.—On Thursday, the 19th of July, the Rev. D. A. Thomson was ordained and inducted as pastor of the Presbyterian Church. A dinner was provided in the Town Hall. After dinner the Presbytery and people adjourned to the church for the purpose of ordaining and inducting Mr. Thomson. There was a good attendance. The Rev. D. Sutherland, M. A., Moderator of the Session, presided. He called upon the Rev. Mr. Fleming, of South Dumfries, to preach the ordination sermon. After the sermon the Moderator called upon the Rev. W. Bennett to engage in prayer, and thereafter the Presbytery proceeded to ordain and induct Mr. Thomson to the pastoral charge of the Presbyterian congregation of Eastings. The Presbytery then gave to Mr. Thomson the right hand of fellowship. The Rev. Nathaniel Clark, of Lakefield, next addressed the minister, and the Rev. Jas. Carmichael, M. A., of Norwood, addressed the people. At the close of the services the Moderator conducted Mr. Thomson to the door in order to be received and welcomed by each member as the congregation retired. Altogether the services were very solemn and impressive.

Worcester's Acid Phosphate gives strength where there has been exhaustion and vigor in place of impaired vitality.

MIDNIGHT TELEGRAMS

CABLE.

CANDIDATE FOR SLIGO.

DUBLIN, Aug. 1.—It now seems probable that Mr. Lynch, the well known banker and a director in the Hibernia Bank, will accept the Parnellite candidacy as a member of Parliament from the Sligo district.

REPRESSION OF THE DUELLO.

BERLIN, Aug. 1.—The officials of the German universities are preparing Draconian measures against duelling.

MINISTER TO THE U. S.

MADRID, Aug. 1.—Senor Juan Valera is spoken of as Minister to Washington in place of Baroa.

CONSPIRACY TRIAL.

DUBLIN, Aug. 1.—The case of Poole, charged with complicity in the murder of Kenny, was remanded to-day till Friday. The prisoner's counsel asked the court to commit the prisoner for trial. The crown solicitor replied that counsel would not be in such a hurry if he was aware of the identity of a witness he expected from America. He refused to give the name of the witness or of the ship bringing him, on account of the peril attending publicity.

FATAL FIRE IN BERLIN.

BERLIN, August 1.—A velvet manufactory was burned Monday night; loss heavy. Three firemen were killed by falling walls.

RIOTOUS SOCIALISTS.

GENEVA, August 1.—The Socialists' meetings yesterday were almost riotous. The procession marched to the Hotel de Ville and demanded an interview with the State Council, which was promptly refused. The crowd came into angry collision with the police and other authorities, and many of them were placed under arrest.

THE LAND ACT.

LONDON, Aug. 1.—A statement by landlords in Ireland has been sent to Mr. Gladstone pointing out the loss of rent and depreciation of land in consequence of the passage of the Land Act, and suggesting a State loan for the relief of land owners.

ROYALTY'S DOMESTIC RELATIONS.

MADRID, Aug. 1.—The King and Queen of Spain arrived at the Royal Palace in Madrid yesterday evening. The King went to the frontier to meet his royal spouse. This fact dispels whatever may still remain of the report that the two had quarrelled.

Celebrated Trotting Stock Burned.

A fire occurred on Tuesday in the brick stables of the Gordon House, Orangeville, occupied by Mr. J. E. Booth. The fire got ahead inside before anything was known of it, and notwithstanding the efforts of the people and waterworks it was found impossible to save the contents and building. The loss was as follows: The well-known trotting horse, General Beamish, belonging to Messrs. Middleton, Stubbs & Booth, for which a short time since they refused \$3,000, was burned. The trotting horse, Highland Jr., belonging to Mr. Booth, for which he was offered \$2,000, was destroyed. He also lost a chestnut mare valued at \$200, and other valuable. A valuable span of horses and buggy, the property of Mr. Burdridge, of Sand Pit, were burned, valued at \$450. Mr. Pardon, veterinary surgeon, lost his horse, buggy and drugs worth about \$300. There was also destroyed a horse and phaeton belonging to Dr. Patallo, of Brampton, value about \$300. Mr. Stafford, of Aulton, drove a horse and buggy into the stables about three quarters of an hour before the alarm was given, which were burnt, loss, about \$300. The damage to buildings is about \$700. The insurance is only small. It is probable an inquest will be held to inquire into the cause of the fire.

A Deserted Village.

The extent to which the flood has reduced the population of the village of London, West, is not generally known. The removals from the village have been very numerous, and the vacant houses are many, especially throughout the southern section. An old resident of London, West, stated yesterday that on Sunday, immediately after midnight, he set out for a walk through the village, and was saddened and astonished at the dreariness and gloominess of the streets over which he passed. The Wharfedale road seemed comparatively deserted, on Maple street only three lights were visible, on Walnut street only two, and a similar number on Beach street. Throughout the whole southern portion of the village there were not more than a dozen lights to relieve the gloom which seems to have settled down upon the unfortunate village. Very many of those in rented premises are moving out as fast as circumstances will permit, and just at present it seems as though only the property holders were disposed to cling to the western suburb.

Pet Names.

He—"May I call you Revenge?"
She—"Why?"
He—"Because Revenge is Sweet."
She—"Certainly you may; provided, though, you will let me call you Vengeance."
He—"And why would you call me Vengeance?"
She—"Because Vengeance is mine."

Buckley's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Tetter, Salt Rheum, Fever Sores, Cancer, Piles, Chilblains, Corns, Tetters, Chapped Hands, and all kinds eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

Convincing Proof.

Having suffered, from rheumatism for a long time I was induced to try Arnica and Oil Liniment. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine. I am yours truly,

218 St. Constant St., Montreal.
To Henry, Johnsons & Lord, Montreal.
Arnica and Oil Liniment is sold by all Drug stores.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Dressed upon it, mothers there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

REMOVAL. FRUIT JARS.

Miss Jenkins

Has Removed to the Store TWO DOORS NORTH OF HALEY'S BROS'. FRUIT STORE, George Street, where she will be pleased to see all her old customers.

FANCY WORK and WOOLS.

Full Stock on hand of all the LATEST STYLES of Fancy Work, Wools, etc.

HOUSEHOLD HINTS.

COVERING JELLY TUMBLERS.—A sure and simple way of covering jelly tumblers is to lay a lamp of paraffine on the hot jelly, letting it melt and spread over the top. If any doubt exists as to the jelly being hard enough for such treatment, the paraffine can be melted and poured over at any time. It is more successful in this respect than the white of an egg and similar appliances, and is easily removed by slipping a knife around the edges. The whole can be used another year.

COOKING BEEFSTEAK.—The first requirement is not so much a tender and juicy steak, though this is always to be desired, but a glowing bed of coals, a wire gridiron—about one, so that you can turn the steak without touching it. The steak should not be pounded daily in extreme cases, when it is cut too thick and is "stringy." Attempt nothing else when cooking the steak; have everything else ready for the table; the potatoes and vegetables all in their respective places in the warming closet or oven, with the door left open a little way. From ten minutes, should be needed to sear the steak. The time must depend on the size, and you can easily tell by the color of the gray which runs from the steak when gently pressed with a knife, as to its condition. If the master of the house, like the "rare done" when the steak is cooked, is a "brown" gray with the red in the center, it is to be served at once. If it is a "brown" gray with the red in the center, it is to be served at once. If it is a "brown" gray with the red in the center, it is to be served at once.

AGAINST MOTHS.—Oil of cedar applied to chests and drawers will keep moths out of clothes which have been kept twenty years with no signs of moth about them. Apply early in the spring and once or twice through the warm season. The oil should be rubbed and rolled up so that the oil cannot strike through in the best way of applying it. Put it in the bottom and at the ends, and if deep chest in the middle also smearing the clothes. The oil does not destroy the moth, but may spot them if not wrapped in a thickness of two or three papers. The tighter chests and drawers are kept shut, the longer one application will continue effective.

WOOD FINISH.

The patented preparations known as wood fillers are prepared in different colors for the purpose of preparing the surface of wood previous to the varnishing. They fill up the pores of the wood, rendering the surface hard and smooth. For polishing mahogany, walnut, etc., the following is recommended: Dissolve beeswax by heat in spirits of turpentine until the mixture becomes viscous; then apply by a clean cloth, and rub thoroughly with a flannel or cloth. A common mode of polishing mahogany is by rubbing it first with linseed oil, and then buffing trimmings or shavings of the same material against the work in the last. Glass paper followed by rubbing also gives a good finish. There are various means of toning or darkening woods for decorative effect. Logwood, line, brown soft soap, dyed oil, sulphate of iron, nitrate of silver exposed to the sun rays, decoction of soda, bicarbonate and permanganate of potash, and other alkaline preparations are used for darkening the wood; the last three are especially recommended. The solution is applied by dissolving one ounce of the alkali in two quarts of boiling water, diluted to the required tone. The surface is saturated with a sponge or flannel, and immediately dried with soft rag. The carbonate is used for dark woods. Oil tinged with rose madder may be applied to hard woods like birch and a red oil prepared from soaked alkanet root in linseed oil. The grain of yellow pine can be brought out by two or three coats of Japan much diluted with turpentine, and afterward oiled and rubbed. To give mahogany the appearance of rose, line water used before oiling is a good plan. In staining wood, the best and most transparent effect obtained by repeated light coats of the same. For oak stain a strong solution of oxalic acid is employed; for mahogany, dilute nitrous acid. A primary coat or a coat of wood filler is advantageous. For mahogany stain the following are given: 2 oz. of dragon blood dissolved in one quart of rectified spirits of wine, well shaken; or raw sienna in beer, with burnt sienna to give the required tone; for darker stains boil half a pound of madder and 2 oz. of logwood chips in one gallon of water, and brush the decoction while hot over the wood. When dry, paint with a solution of 2 oz. of potash in one quart of water. A solution of permanganate of potash forms a rapid and excellent brown stain.—*Amateur Mechanic* (London).

Disease Among Lambs.

Some mysterious disease is carrying off lambs in Western Ontario. Nothing appears to be known of its character; the only thing known is that the lambs are dying off in considerable numbers, without any apparent cause. The disease is said to be due to a virus which may have been introduced thereto, but there is nothing to indicate the victims being, as a general rule, in bad condition so far as flesh goes. A similar "distemper" occurred in Great Britain earlier in the season, and was so widespread that the Queen, in order to preserve the stock, discontinued the use of lamb by abolishing the use of the Royal household.

CHINA HALL is Head-quarters for every kind of FRUIT JARS. At CHINA HALL you can get a Superior Jar at a less price than other dealers are asking for ordinary goods. CHINA HALL Fruit Jars will not crack. Buy your Fruit Jars at CHINA HALL and save Money, Time and Fruit.

CHINA HALL AND SILVER BAZAAR, Corner George and Simcoe Streets, Peterborough.

MACFARLANE WILSON, Direct Importer.

FROM ALL OVER.

No news have yet been received of the overdue steamship Ludwig. The extra budget has been fixed by the French Cabinet at 254,000,000 francs. The ex-Chief of the Irish Constabulary has been appointed secretary to the British Local Control in Egypt. Five thousand five hundred dollars have been subscribed in the United States for the Parnell testimonial.

JAMES KITCHEN, Esq., of Picton county, has sold a Jersey cow to a Niagara Falls gentleman for the sum of \$600. **ROBERT MERCER**, of Hagersville, Hamilton county, says he is the legal heir to the Mercer estate. He is, he says, prepared with all the proofs the law may require.

DR. CARSON'S Stomach Bitters free the system of the poisonous humors that develop into Kidney and Urinary diseases, give tone and vigor to the Stomach and purify the Blood.

Work has been commenced on the G. F. R. elevator at Port Arthur. Files are being driven, and a large quantity of lumber for the new building has been delivered.

The Washington authorities deny the existence of foot and mouth disease in the United States, and assert their intention of informing the British Government of the fact.

The Crofters Commission in Scotland has resolved to hold six meetings in the Shetlands, three in the Orkneys, ten in the Highlands and neighboring counties, and to conclude its sittings at Arisaig on August 31st.

At the inquest on Captain Webb yesterday the jury returned a verdict that he came to his death while swimming the whirlpool rapids, but could not determine the immediate cause.

A CURE FOR CHOLERA MORBUS.—A positive cure for this dangerous complaint, and for all acute or chronic forms of Bowel Complaint incident to Summer and Fall, is found in Dr. Fowler's Extract of Wild Strawberry; to be procured from any drugist.

Two remains of the late Roman Catholic Archbishop Strain, of St. Andrews and Edinburgh, were on the 26th July interred in a vault underneath the sanctuary of the Pro-Cathedral, Brompton Street. The funeral ceremony was of an imposing description.

"When all other remedies fail," for Bowel Complaint, Oedema, Dropsy, etc., then Dr. Fowler's Extract of Wild Strawberry, berry comes to the rescue. Thus writes W. H. Crookes, druggist, Waterdown, and adds that "its sales are large and increasing."

ABOUT £11,500 have been, at last advice, already subscribed towards relief of the sufferers by the Clyde disaster. Towards this Messrs. Stephen & Sons, the builders of the unfortunate steamer, have given the handsome donation of £2500.

Dr. FOWLER'S—One of the best valuable discoveries in the medical science, for the benefit of mankind, was made when Burdock Blood Bitters were invented. This medicine positively cures all diseases of the Liver, Kidneys, Stomach, Skin and Blood. 25,000 bottles have been sold during the last three months.

Drowned in a Diving Bell. On Tuesday at about ten o'clock a man named Frederick Hill was drowned while diving in the lake opposite the Parkdale Waterworks. For some time past it was noticed that there was something wrong in the suction pipe leading to the waterworks, and in order to ascertain the cause Hill with a party of others proceeded out to the lake, and commenced diving to examine the pipe, using a diving-bell for the purpose. By some accident or other the helmet slipped from his place over Hill's head after he had been some minutes below the surface. His companions above after waiting for a long time were surprised that no signals were sent up from the diver below, and after he had been nearly half an hour in the water they managed to pull him up, when they were horrified to find that he was a corpse. The body was at once taken ashore, where every means available to restore life were used in vain. There was a cut on the forehead, caused probably by the helmet slipping off, which Dr. King said must have stunned him, and death almost immediately followed.—*Globe*.

The Australian Colonies. In 1881 the population of the five Australian colonies was 2,500,000. Their public revenue was \$85,000,000, while their public debt was \$500,000,000. Then in 1880 their imports were valued at \$225,000,000, and their exports at \$240,000,000. Australia owns 90,000,000 sheep, 5,000 miles of railways and 80,000 miles of telegraphs. Melbourne and Sydney again are two fine cities, and between them have a population of 500,000. They show, certainly, no want of wealth, energy, or enterprise, and if confederated will become a colonial power next to Canada in case of government, power of development, and growth of home sentiment. In the new project there appears great earnestness. The Parliament of Victoria is pushing negotiations.

Thousands Say so. Mr. T. W. Atkins, Ghazal, Kan., writes: "I ever hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by Taylor & McDonald.

Ischting Pills—Symptoms and Cure. The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling above the parts affected. If allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for Tetter, Itch, Salt Rheum, Scald Head, Erysipelas, Barren Itch, Eruptions, all scaly, crusty Skin Diseases. Each box for 50 cents; 3 boxes, \$1.25 (in stamps). Address, DR. SWAYNE & SONS, Philadelphia, Pa. Sold by Druggists.

The colors of the Tropic Dyes are so beautiful and they are so cheap, they lead the eye to the color of the country. 10c.

Daily Evening Review

THURSDAY, AUGUST 2, 1883.

Eye, Ear and Throat.

Dr. G. S. Ryerson, oculist and aurist, of Toronto, will be at the Oriental Hotel on Saturday, August 11th, when he may be consulted on all diseases affecting the eye, ear and throat.

The Town Audit.

We have received a letter from Councillor Sawers on the subject of the "Town Audit." Owing to its length we are unable to insert it to-day, but it will appear in our next issue.

Another Cricket Match.

A cricket match will probably be played next week between the Peterborough and Port Hope clubs. The "good old game" is holding its prominent place in the list of sports.

The Toronto Cricket Club.

The East Toronto Cricket Club, which played a match here on Wednesday afternoon, departed the same evening on the 8 o'clock train. They play at Cobourg to-day, Port Hope to-morrow, and a match at Whitby completes their tour.

Lakefield and Stony Lake.

As will be seen by their advertisements, the steamers Cruiser and Fairy are now running on alternate days, so that there is a daily opportunity of reaching Stony Lake from Lakefield. They leave on the arrival of the morning train.

Vital Statistics.

The number of births, marriages and deaths in the town, as registered, during the month of June, were as follows:

Births.....	17
Marriages.....	1
Deaths.....	6

Exportation of Sheep.

On Wednesday afternoon a large flock of sheep were weighed on the market scales. They were purchased by Mr. R. Wainwright in the country around Peterborough, and were shipped to Montreal, from which place they will be shipped to England. There were 222 sheep in the flock, and their average weight was 124 pounds.

Dates of Coming Exhibitions.

The Provincial, at Guelph, Sept. 24 to 29th.
Dominion, at St. John N.B., Oct. 7th to 13th.
Industrial, at Toronto, Sept. 11th to 22nd.
West Peterborough, at Peterborough, Oct. 2nd and 3rd.
East Peterborough, at Warsaw, Oct. 2nd and 3rd.
East Durham, at Millbrook, Oct. 4th and 5th.

"Her-Weat" Cider.

The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILIES.

Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

Smith's Market.

Shallots, Peas, Beans, Cabbage, Carrots, Beets, New Potatoes, Cucumbers, Cauliflowers, Huckleberries, Garden Raspberries, Cherries, Gooseberries, Currants, Apples, Pears, Peaches, Watermelons, Cantelopes, Bananas, Fresh Fish. As usual our customers will please bear in mind the importance of ordering fish Thursday evening or early Friday morning, as our drives are long and impossible to get over the same ground twice the same morning in time for dinner.

A. C. A.

The Midland Railway has liberally arranged to grant tickets at the rate of a cent and a half per mile to all members of the A.C.A. producing their certificate of membership, so that they will be enabled to reach the camp by one branch of the Midland and to leave it by another, if they prefer to do so.

There will be a meeting of the general committee on Friday evening, when the sub-committees should all be prepared to report, and there should be a full attendance of members, as the time for the camp is now close at hand.

A Slugging Match.

About eleven o'clock last night a slugging match came off on the market square, in which one of the participants did some tall shuffling, and the other did a like amount of swearing. One of the men was chased by the other, and was caught at the place above named and choked and otherwise maltreated. He begged for mercy, but received none at the hands of his assailant. After tearing himself away from the man of much muscle, he beat a hasty retreat, and the A.I. man, who had by this time gathered quite an audience, told the crowd how he had done the business. There were no police in sight, and as a consequence no arrests were made. It is high time that Peterborough was furnished with more police protection. Two men cannot possibly do the work of a large town, like this, especially at night, when the blackguards, who make night hideous with their unwholesome noise, cloak themselves with the mantle of darkness to hide their misdeeds, and in despite they will not be caught by the police.

CRICKET MATCH.

Peterborough vs. East Toronto. A Draw in Favour of the Home Team.

On Wednesday afternoon a cricket match was played on the Ashburnham cricket ground between the Peterborough and East Toronto cricket clubs. The Toronto club was on a tour through this district, having proceeded east from Toronto. They defeated the Newmarket, Barrie, and Orillia clubs, played a tie at Uxbridge, and were beaten at Lindsay. The match here resulted in a draw in favour of Peterborough, the home team scoring 84 in their first innings and the visitors 71. Peterborough had made 73 for six wickets down in the second innings when the play ceased for want of time to finish it. They played with ten men on a side, as that was the number of men the Toronto club brought with them.

In the first innings for Peterborough, Rogers, Montgomery and Stratton made good batting, the first scoring 21 and was not out, and in the second innings, as far as played, Hartley made the highest score of the game, 33, and Rutherford made 20 before retiring. Hamilton's bowling was remarkably good, as in the one innings he had 7 overs and took 6 wickets for 7 runs. For East Toronto Hartley and Jaffray did good work at the bat, the former scoring 29, and the same two did good bowling. The following is the score:—

PETERBOROUGH.	2nd Innings
Hartley, W. c. Smith, b. Jaff.	8 b. Smith..... 33
Hamilton, M. c. Jaffray.....	2 not out..... 4
Montgomery, b. Jaffray.....	17 run out..... 5
Stratton, run out.....	15 c. Cooch, b. Smith..... 3
Rutherford, b. Hartley.....	5 b. Smith..... 20
Rogers, not out.....	21 run out..... 1
Hutton, b. Jaffray.....	2 b. Smith..... 0
Haultain, b. Jaffray.....	0
Pock, b. Jaffray.....	0
Kaid, b. Smith.....	0
Katras.....	0
	84
	73

EAST TORONTO.	1st Innings
Stephenson, run out.....	13
Hartley, c. and b. Stratton.....	29
Jaffray, b. Hamilton.....	32
Cooch, b. Hamilton.....	1
Smith, b. Hamilton.....	1
Cameron, b. Hamilton.....	1
Wright, b. Hamilton.....	0
Cameron, D. W. b. Hamilton.....	1
Boulton, c. Rutherford, b. Stratton.....	0
Brown, not out.....	0
Katras.....	0
	71

Time would not permit the match to be finished, and the Peterborough club thus won by the result of the first innings.

A Treat.

Bas' Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

Concert at Lakefield.

Our readers should avail themselves of the opportunity of spending a very pleasant afternoon at Lakefield when the grounds of Mr. R. O. Strickland will be thrown open for a garden party and open air concert in aid of the Parsonage fund of St. John's church in that village. The greatest attraction will be the singing of Miss Evelina de Beaumont, of whom an Ottawa correspondent writes as follows:—
"The Comtesse de Beaumont visited the Government House and sang several songs in the presence of the Governor General, Princess Louise, and a party of ladies and gentlemen. She was accompanied by Oliver King, pianist to the Princess. The Princess personally thanked the Countess for the pleasure afforded them."
A special train will be run by the Midland Railway leaving Peterborough at 6.30 o'clock and return to Peterborough after the concert. Tickets may be procured at the stores of A. L. Davis and Messrs. Ormond & Walsh.

I. O. G. T.

The officers of Carwell Lodge, No. 411, I. O. G. T. for the present quarter, were on Wednesday night installed by Bro. G. J. Early, Lodge Deputy. The officers are as follows:—

Bro. Joseph McClelland.....	W. C. T.
Sister M. A. Russell.....	W. V. T.
Sister Fanny Moore.....	W. Sec.
Bro. Arthur Tebb.....	W. F. S.
Sister Minnie Wallace.....	W. Treas.
Bro. J. Holmes.....	W. Mar.
Sister Y. Westcott.....	W. Chaplain.
Sister J. Crooks.....	W. D. M.
Sister Ida Hendricks.....	W. A. S.
Sister R. Russell.....	W. H. S.
Sister Bertha Riddell.....	W. H. S.
Sister J. Moore.....	W. I. G.
Bro. W. Job.....	W. O. G.
Bro. J. Matheson.....	W. C. T.

Carwell Lodge is still progressing. On nearly every meeting night new members are added to their number. New and handsome stands for the officers have recently been added to its furniture, and the room is now furnished second to none in the Order.

A Musical Camp.

A number of Italians employed on the "Missing Link" are "camped" in a house on Stewart street. They appear to be a musical and happy company. Every evening their programme of amusement is repeated, and is enjoyed by more than themselves. A few songs, in Italian, of course, commenced the proceedings at about half-past seven o'clock, while the men were gathered around their kitchen fires (fires for cooking, outside the house, in camping style), and then the sound of the bagpipes was heard. The wind bag was made of the whole skin of some small animal, and the construction of the instrument was similar, though not exactly the same, as the Highland bagpipes. A few tunes were played on the bagpipes, when calls were made for another party, and soon a second musician appeared with a tambourine, which he handled very dexterously. A ring was immediately formed, and dancing commenced. The dancing was of a varied character, and not such as is usually seen. It would look ridiculous in a ball room, but in the open air it appeared differently, and the performers were enthusiastic. The music, dancing and singing continued until about ten o'clock, when the men returned into the house, where each man is his own cook and chambermaid, and retired to rest. A barber shop and surgery are parts of this camping establishment.

The police cells were untenanted last night. A blank at the Police Court this morning.

At John's Church.

There will be a meeting this evening of the vestry of St. John's Church for important business.

Personal.

At the junior matriculation examination in Toronto University, Wm. Packenham, who studied at the Collegiate Institute here, took second-class honors in mathematics, second-class in English, first-class in history and geography, first-class in French, and first-class in German.

Lacrosse.

A lacrosse match will be played to-morrow evening at 6.30 o'clock, on the Ashburnham ground, between the first and second twelve of the home club. A meeting of the club will be held after the match. The first twelve should practice assiduously from this to the 16th, as the Orillia club will make a determined effort to capture the championship, and the best of players will fall behind if they did not practice continually.

Pinsky by Deputy.

The Independent Reform Toronto World has the following rather caustic remarks:—

"In the present crisis of the boundary dispute, when, according to the *Mail*, this Province is on the verge of civil war, Mr. Mowat is disporting in the green meadows of England, or, mayhap, enjoying the exhilarating diversions of the London season. We admire your pluck, friend Oliver, in sending up your forces to take possession of the citadel, but you ought to have here to direct the movements. Surely this is no time to be holidaying, especially when Manitoba's Premier, Mr. Norquay, is at the scene of action."

The Bicycle.

The medical profession seems to be coming out strongly in the advocacy of bicycling as a means of health-giving exercise. The current number of the *Whelan* contains what it designates "A Medical Symposium," consisting of four articles by physicians in favor of the wheel, copied from as many medical journals. They recommend it to people suffering from indigestion, sleeplessness, neuralgia, and even to those suffering from the early stages of tubercular difficulties. One of these physicians says he was fifty years old before he ever mounted a wheel, and is now riding his for the third season. The Massachusetts bicycle club is composed largely of business and professional men, whose average age is over thirty years. The bicycle is recommended for those who distrust their vigor and activity. A good deal of good advice is given to wheelmen in these articles, which they would find it profitable to take and act upon.—*Kington News*.

Dr. Casson's Stomach Bitters remove Constipation, relieve Dizziness, dispell Sick Headache, abolish Biliousness, and regulate the Stomach, Liver and Bowels.

It is now in season to warn our readers against the sudden attacks of Cholera, Cramp Colic, and the various Bowel Complaints incident to the season of ripe fruit, vegetables, etc. Dr. Fowler's Extract of Wild Strawberry is the grand specific for those troubles.

Do not attempt to remain over night without a bottle of Dr. Fowler's Extract of Wild Strawberry near at hand. This is the season for Bowel Complaints, Colic, Cholera Morbus, etc., and the remedy above named is the unfailing specific.

THERE is no excuse for suffering from Headache, Constipation and all the wearying train of symptoms of a disordered liver, when Burdock Blood Bitters is an unfailing remedy, and only costs One Dollar a bottle. Why suffer on without a trial? 25,000 bottles sold during the last three months, with almost universal satisfaction.

Daily Evening Review

FRIDAY, AUGUST 3, 1883.

THE TOWN AUDIT.

To the Editor of the Review.

SIR.—I observe in to-day's issue of the *Examiner*, in its report of the last meeting of the Town Council, comments upon my remarks at such meeting of so gross and untruthful a nature that I feel it a duty to myself and to my constituents to give the public a plain statement of the facts.

As all are aware, this is my first year in the Council, and as irregularities and speculations come to my notice, I naturally (not having as yet become hardened to municipal jobbery) feel indignant and desirous of exposing the same. The comments are on my motion in respect to the Auditors' report and Treasurer's accounts, (the motion in full will be found in the report of the Council meeting). Just here allow me to state what the Council are required to do by law in this matter.

Section 258 of the Municipal Act reads as follows:—
"The Council shall, upon the report of the Auditors, finally audit and allow the accounts of the Treasurer and Collector, and all accounts chargeable against the Corporation, and in case of charges not regulated by law, the Council shall allow what is reasonable."

The Auditors (Messrs. Stratton and Pearse) brought in their report last April and the Council referred it to the Finance Committee, of which I have the honor to be a member, Councilor Paterson being chairman. We had several meetings before Mr. Paterson brought in a report upon the same. At each meeting I urged that the committee examine the accounts and that the committee put off with the reply that our duty was simply to adopt the report and that we were not called upon to examine it at all, the Treasurer stating that to be the custom, that the auditors were paid to do the work for us, and as Councilors do not receive anything for their services, we should not spend our time unnecessarily. At the last meeting of the Committee I brought the matter up again, and Councilor Rutherford at once moved a resolution adopting the Auditors' report. This was carried, I along voting against it. Nothing whatever was said about allowing the Treasurer's or Collector's accounts.

At the Council meeting held on the 22nd July, Councilor Paterson, much to my surprise,

brought in, read and moved the adoption of a report, setting forth that the committee had examined the auditors' report and recommended the allowance of the Treasurer's and Collector's accounts as therein contained.

I at once objected to the report, and stated that it was incorrect, as the committee had not examined the auditors' report, and that nothing had been said about allowing the accounts of the Treasurer and Collector. A great deal of discussion took place over the report at that meeting and at the meeting last Monday, during part of which I stated that the report was false; that the committee did not agree to it, and as the fact is, and which I am prepared to prove, that the said Finance Committee's report was prepared by Mr. Macdonald, the Town Treasurer, that it was written by him and that it was in reality the Town Treasurer's report, recommending the allowance of his own accounts, and not the report of the Finance Committee at all. The adoption of the report was carried, Councilor McNaughton and myself alone voting against it.

Now, it is true I felt strongly indignant that any councillor, and especially the chairman of the most important committee of the Council, should allow himself to be made a tool of in this manner, and not only himself, but the Finance Committee also, and of all others by the person whose accounts should be most carefully scrutinized, covering as they do between \$30,000 and \$40,000 annually. Is it any wonder, sir, that I should rise and denounce such actions?

At the meeting referred to in the *Examiner* I am reported as making a most violent speech, and with throwing broadcast most dishonorable insinuations against various members of the Council.

Sir, I deny making insinuations against any one, but certain straightforward charges against members of the Council I did make, and am prepared to repeat the same now and prove them, whenever requested to do so by the House of Representatives. I charged, Mr. Editor, that at least one half the members sitting around our council board are using their position to make money out of the town. I refrain from repeating in print the names which I gave before the Council, as I intend bringing the matter up again at the next meeting.

These discreditable transactions are referred up in various ways, according to the ingenuity of the erring one; in some cases accounts have been sent in to the Council under another name, again, claims have been paid by the Treasurer without coming before the Council or any committee of the Council, and a sub-contract has before now been found convenient, as in the case of the fire-stable scandal, in which Councilor Rutherford's name figured so prominently. Another charge I made was that Councilor Denne's motion appointing Councilor McNaughton and myself a committee to examine the auditors' report was a piece of buncombe, and that it was moved for the purpose of preventing a fair examination of the Treasurer's accounts. Of Mr. Denne's intentions I am still of the same opinion.

I deny that I spoke against time or endeavor to raise any disorder, as stated in the *Examiner*, and I have the authority of Mr. Menzies, Acting Mayor, to say that I did not defy him in any way, and that the mover of a resolution has the right of reply after those who may wish to speak have spoken, according to the rules of the Council, and which reply I asked for, but some of the other members of the Council would not let the chairman give me, and I charge that those members whom the *Examiner* is endeavoring to shield raised the disturbance and ended the meeting in disorder so as to prevent (if possible) the bringing to light of their transactions of 1882. If, sir, the accounts of 1882 are all right, why do these Councilors, and the Treasurer himself, try to stifle investigation?

In conclusion I would quote from the *Globe* of July 2nd in a leading article on municipal defalcations:—"At present the appointment of municipal auditors is a perfect sham."

The *Globe* then goes on to recommend the appointment of professional auditors, and says, "Every Council should pay immediate attention to this important matter. Should it not be taken up by them it can scarcely be doubted that before long a demand will be made by the ratepayers upon the Provincial Government to establish a board of auditors to see that municipal accounts in Ontario are kept in accordance with a good record of standards."

Thanking you, Mr. Editor, for allowing me space for this letter, I remain,
Your obedient servant,
C. W. SAWERS.
Peterborough, Aug. 2nd, 1883.

A Notorious Swindler's Death.

MONTREAL, Aug. 2.—Some months since an adventurer named C. B. Mahon, who carried on an agricultural machine factory in this city, failed for sixty or seventy thousand dollars, and suddenly absconded, taking with him thousands of dollars in cash, which he raised through banks here and the Eastern Townships upon notes entrusted to him at different dates by farmers, who gave them when ordering mowing machines and the like. He sent agents all over the Dominion, both east and west, and raised more than one hundred thousand dollars by this modus operandi. These notes he passed into banks and got advances of half their face value, but some he sold outright to brokers and others for all he could get. Of course he never gave any of his rural dupes a machine of any kind, and when he had got all the gold available he simply closed the foundry, which he had rented, and crossed the line at the nearest point. Vigilant search was made for him in Eastern Ontario, where it was stated he had concealed himself, but all to no purpose. When the notes became due the makers were called on to pay by the banks. The large majority refused, on the ground of not receiving value. Hundreds of suits were thereupon entered in all sections of the Dominion, and are now pending. The best lawyers here say there is no defence, and the farmers will have to pay; indeed, many have already compromised. Nothing has ever been heard of the absconder until to-day, when his creditors were informed that he died in New York lately in abject poverty, having lost his thousands of ill-gotten money in speculations on the Stock Exchange here. It was learned that he came here digged after playing a similar fraud upon the farmers of a State in the West. Mail.

Attempt to Brown a Child.

A woman named Brown carried a little orphan girl to the fountain on the market at Kingston on Wednesday morning, and threw her into the water. When the child screamed she pushed her under the water. The woman is the child's foster-mother.

Sparrows Killed by Lightning.

A Baltimore despatch says that during a storm at Frederick, lightning struck a horse chestnut tree in front of the residence of Col. L. V. Baughman. In the morning 260 English sparrows were found on the ground. The tree was a favorite roosting place for the sparrows.

Fortunately and durability of color the Triangle Park are Dyed "best of the world." If you never used dyes before, do so now and be convinced. 10c.

MIDNIGHT TELEGRAMS

CABLE.

THE CHOLERA EPIDEMIC.

LONDON, August 2.—There were twelve deaths from cholera among the British troops in Egypt on Tuesday. The deaths among the British troops thus far number 84. The disease is spreading among the Buser regiment at Ismailia, where twenty men, including the captain and doctor, died within three days. The deaths among the natives on Tuesday, not including Cairo, were 665. There were 387 deaths from cholera in Egypt, including 373 at Cairo, where three deaths occurred among the British troops. Twelve English doctors have arrived at Alexandria en route to Cairo.

EMIGRATION SCHEME.

LONDON, Aug. 2.—In the House of Lords last night, Lord Emly asked whether the Government had arrived at any decision respecting the Irish emigration scheme, proposed by Mr. George Stephen. Lord Derby stated that the Government assented to the principle of the scheme, but required the Canadian Government to assume the responsibility of the loan advanced by the Imperial Treasury. This the Dominion declined to undertake, but the negotiations were not abandoned. The Imperial Government hopes to carry the scheme successfully through.

STATEMENTS IN PARLIAMENT.

LONDON, Aug. 2.—In the House of Commons this afternoon, Mr. Ashley, Under Colonial Secretary, stated that the papers relative to the indemnity for violence done by American fishermen at Fortune Bay were being prepared. The Government had received no answer from the United States concerning the proposition for joint measures to prevent the recurrence of similar troubles. Mr. Collings, alluding to the proposed convention between America and Switzerland, for the settlement by arbitration of any differences, asked if the Government would make similar treaties. Mr. Gladstone replied that England was not prepared to take such steps.

THE ISCHIA EARTHQUAKE.

NAPLES, August 2.—Several persons have been arrested at Ischia for plundering corpses. King Humbert yesterday visited the scene of the earthquake and went over the ruins of the destroyed town. He expressed the deepest sympathy with the sufferers, and directed the distribution of money and provisions. Another severe shock of earthquake last evening stopped the work of searching the ruins. It is believed that some are still in the ruins. The use of lime is therefore opposed. The King has decided that the search for victims of the earthquake shall continue. Six persons were rescued yesterday. Another shock was felt yesterday afternoon, but no damage was done.

TO BE TRIED IN ENGLAND.

LONDON, August 2.—Carey was shot outside colonial jurisdiction. O'Donnell must therefore be tried in England.

O'DONNELL'S EXAMINATION.

PORT ELIZABETH, August 2.—On the examination of O'Donnell being resumed Carey's oldest son deposed that his father and McDonnell were friendly throughout the voyage; they often played cards. Mrs. Carey says Kelly, an Irishman from Wexford, was aboard the steamer. Her husband was suspicious of him. Carey's son deposed that he found a cheque for £200 in his father's pocket after the shooting. Mrs. Carey deposed that she was in an adjoining room when her husband was shot. He ran toward her, saying, "Maggie, I am shot. O'Donnell shot me." It was then O'Donnell said he was sent to do it.

A BATCH OF INFORMERS.

ADELAIDE, Australia, Aug. 2.—The steamer *Pathon*, on which it is generally stated are Michael Cavanagh, Joseph Hanlon, Peter Carey, Joseph Smith, and six others connected with the Irish murder conspiracy, has arrived.

SPECIAL PROTECTION.

DUBLIN, Aug. 2.—The special measures for the protection of officials connected with the Phoenix park murder trials have been resumed.

DEMONSTRATIONS REPRESSED.

DUBLIN, Aug. 2.—Some of the citizens again attempted to light bonfires in the streets last night as a token of their relief over Carey's death, but the police again interfered, and made numerous arrests.

TRUE BILLS.

LIVERPOOL, Aug. 2.—True bills have been found against the prisoners held at Liverpool. They are charged with treason-felony, conspiracy to murder, and destroying public buildings.

Savage Assault on Creditors.

MONTREAL, Aug. 2.—A rather strange reception was given to two creditors of the bankrupt firm of R. Jelliman & Co., paper bag manufacturers, named Rice and Miller, who called to see the stock with the assignees, who had advertised it to be sold en bloc. When the visitors entered the second floor, William Jelliman, son of the insolvent, attacked them and they had to beat a hasty retreat down stairs. On arriving below, they were also set upon vigorously by James Jelliman, an elder son, and Mr. Rice was so brutally beaten that he has obtained on a doctor's certificate a warrant for aggravated assault. A warrant for simple assault upon the two creditors was also granted against the younger son. The accused have fled. The complainants say that they know no reason for the treatment unless that at the creditors' meeting they held out firmly against accepting twenty cents on the dollar as a compromise of the liabilities.—Mail.

Islanders for Manitoba.

Nine hundred Icelandic immigrants arrived in Montreal on Wednesday morning, all of whom are bound for Manitoba.

Becklen's Aromatic Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancer, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the stool, subdues inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Daily Evening Review

FRIDAY, AUGUST 3, 1883.

EXHAUSTED LANDS.

With a full report before us of the decision of the Privy Council in regard to the celebrated Mercer estate case, we cannot see that it affords ground for the jubilation of Reform journals as being a great victory for their exaggerated view of Provincial rights as opposed to the unity of this Dominion of Canada. In the learned and painstaking judgment pronounced by the Lord Chancellor in the name of himself and his brethren of this august tribunal, we do not find that stress is laid upon Ontario sovereignty or upon any general right of its executive to represent the crown within the Provincial boundaries. They did not hold that the Province created the Dominion, which had no rights except those plainly conceded to her by them, as is the favorite contention of those who would belittle our Dominion and disintegrate it by promoting inter Provincial antagonism.

After a learned review of the history of the lands affecting land and especially of estates for lack of heirs, concluding with the British North American Act, so as to throw light upon their legal status in Canada, the judgment proceeded:

"Unless therefore the casual revenue arising from lands escheated to the crown after the union is excepted and reserved to the Provincial Legislatures within the meaning of this section (Sec. 102 B.N.A. Act) it would seem to follow that it belonged to the Consolidated Revenue Fund of the Dominion."

After stating that if so reserved it would form part of the Consolidated Revenue Fund of the Province interested, the judgment proceeded:

"Their Lordships, for the reasons above stated assume the burden of proving that escheats subsequent to the union are within the sources of revenue excepted and reserved to the Province, to rest upon the Province. But if all ordinary territorial revenues arising within the Province are so excepted and reserved, it is not a priori probable that this particular kind of casual revenue (not being expressly provided for) would have been, unless by accident and oversight, transferred to the Dominion."

This is a clear recognition of the Conservative theory that upon the Province lies the burden of proof that rights are especially reserved to them and that otherwise they belong to the Dominion, while it as clearly repudiates the "Reform" contention that the Province possesses all rights and privileges that they did not confer upon the Dominion.

The only point therefore to be decided in this case is whether escheats are reserved by the British North American Act to the Province, as otherwise they would fall to the Dominion of Canada. The whole question then turns upon the interpretation of section 109 of the British North American Act, which reserves to the Province "all land, mines, minerals and royalties." The Provincial authorities contend that the term royalties includes all the rights to the crown in regard to lands. Mr. Mercer on the other hand, naturally anxious to get his father's land out of the hands of those who were contesting it and into the hands of honest men, who would recognize his natural right if not strictly legal rights, contended that "royalties," especially as placed in juxtaposition with "mines and minerals," meant only such reserved rent in kind or share of minerals to be given by the miners to the owners, as is commonly understood by the term. Their Lordships adopted the wider meaning of the term, being apparently largely influenced in so doing by the fact that ungranted Crown lands were especially reserved to the provinces, and that it was natural that lands falling back to the Crown should have the same destination. They therefore decided that escheated lands should go to the Province.

It is not surprising that our Canadian judges differed from each other in their interpretation of this nice point. The fact that no costs were given by the Privy Council goes to show that, in the opinion of their Lordships, neither contention was vexatious, and that it was a point calling for an authoritative decision.

The result is not of much practical importance to the public, whatever it may be to the unfortunate Mercer, for such escheats will not always fall to one province, and in the Dominion Treasury they would be equally for the public benefit. It is, of course, important that all doubtful points in the B. N. A. Act should be thus finally determined.

The decision, however, is of the utmost importance, as throwing light upon our constitution. It altogether discomfited the doctrine of Mr. Mowat, Mr. Blake and their supporters, that the Province are sovereign, and the adoption of the "State rights" theory, which was popularly described as "the right of every man to wallop his own nigger," and which led to a terrible civil war in the United States. We now see a similar exaggerated view of the right of our provinces to be a law to themselves rather than to defer to the courts, leading to a civil war in our own country.

In the United States there was a foundation for the doctrine of State Sovereignty, but even at the cost of a war it had to yield to central authority for the public good. In Canada, profiting by the disastrous experience of our neighbors, our constitution provides for the unity of our grand Dominion under a parliament and an administration, in which we are all represented, while to meet local circumstances purely local affairs, under wise restrictions, are left to local management. This is the only system that could preserve the unity and integrity, that could promote the general progress and well-being of our glorious country, and it is satisfactory to find that the highest tribunal of the Empire, of which we form so important a part, supports this view of our constitution, and does not favor the idea of a number of petty sovereignties, not united, but tied together.

Phosphate Mine.

The phosphate mine of W. C. has been opened near Cambridge, showing evidence of a rich yield. Mr. C. has fifteen men at work in it.

THE BAT PORTAGE INVASION.

An Account by an Eye-witness—Our Rights Prejudiced by Filibustering.

The Independent Winnipeg Sun gives an account of an interview with Mr. E. M. Ridout, the brother of the man whose assassination was attempted, and from it we take the following extract:

"Will you give me the history of the fire in the Rideout house stable the following night?"

"Yes. About eleven o'clock flames were observed in the hay-loft of the stable in the rear of the hotel. Two men observed the flames, and with the assistance of water, which they procured from an adjoining well, extinguished the fire before a large crowd had gathered."

"What do you suppose was the reason of the incandescence which it was presumed to be?"

"Oh! that is quite apparent. The Ontario party had but one object, and that was to draw the crowd to a certain point while they raided the Manitoba gael and rescued the prisoners. You see there is one man who is deputed by the Ontario Government to see that the law respecting the sale of liquor to the Indians is enforced. The policeman was caught, selling liquor to the Indians himself, and was, of course, imprisoned by the Manitoba Government. Hearing that it was the intention of the Ontario party to rescue the policeman on the night in question, the whole force of Manitoba police was detailed to watch the gael. A strong evidence that it was the Ontario party who instigated the firing of the stable is that during the same evening several sham fights were started ostensibly for the purpose of diverting the attention of the police from the gael, and in order to secure an opportunity to release the prisoner."

"How does the sympathy go?"

"The longers are all in sympathy with the Ontario element, as many of them have been employed as special constables, and they expect further employment, and I forgot to tell you when speaking about the fire, that Capt. McCleary, of the Enterprise steamboat, observed a man running from the direction of the stable a few moments before the fire alarm was given. Now returning to the sympathizers again, I may say that no prominent citizens sympathize with the Ontario people."

"Has the state of affairs affected business to any extent?"

"Yes, to a very great extent. It has caused a feeling of uncertainty in the town, and business has been very much affected. Another result it has had is to keep people away from the town. In former years many came here to enjoy their holidays, but this year scarcely any person has come."

"How many officials has Ontario out there?"

"At present there are Lyons, Burden, White, McKay, the bailiff, Munro, and an inspector of licenses. There are also five regular constables and the 25 special constables, who were dismissed the day after they were sworn in, continue to hold themselves in readiness in the event of their services being required. Burden is the principal man. He gave his men orders the other day to arrest any Manitoba policeman or magistrate, and deal with them the same as other citizens. It was heard to give orders to the mill hands of the Rainy Lake Lumbering Co. the night the raid was expected to hold themselves in readiness should any trouble arise. The Ontario people threaten to bring out seventy-five constables should any trouble arise."

FEARFUL DROWNING ACCIDENT.

Five Persons Lost Their Lives by the Capsizing of a Boat.

Word was received in this city yesterday of a sad drowning accident, which occurred in the St. Lawrence River at St. Paul, Bala des Millas Vaches, a few days ago. It appears that Mrs. Paquet, the wife of Mr. Antoine Paquet, an employee in the establishment of Mr. C. W. Forrest, at Bala des Millas, left that place with her two little daughters in a small boat rowed by two men belonging to St. Paul des Millas Vaches, named Ephraim Martel and Louis Tremblay. A rough northeast wind was blowing at the time, against which the boat was unable to make any headway, and the rowers, giving up, turned towards the shore with a view to landing Mrs. Paquet and her children. The turn, however, got the boat in the trough of the waves and she soon capsized. The men were able to swim, but the water was rough, and they were unable to make any headway. The bodies of the men were recovered the same day, but the two children, with their mother, had not been found at last report. The Paquets belonged to Montreal.—Post.

A New Device.

A Gananoque merchant has lately been further enlightened as to the thrift and enterprise of farmers' wives. A woman sold him some eggs that looked as though they had been sat on for weeks; but as they did not "shake," he supposed they must be good. However, to make sure, he broke several of them, and found that they had been boiled, which so hardened the putrid contents as to keep them quiet when shaken. He is lying low for that woman now.—Kingston News.

Prince George in Canada.

Prince George, the second son of the Prince of Wales, arrived safely on Wednesday in Halifax, on board the Canada, a new war ship named after the Dominion. The Prince is a member of the third generation of the Royal family who have visited this country. The Duke of Kent resided for many years in Nova Scotia. The Prince of Wales in his tour through the Dominion was received with unbounded loyalty, and his son will also be given a hearty welcome.

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the Sironeter, the wonderful invention of Dr. M. Souville of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above-named diseases every year. Write, enclosing stamp for list of questions and copy of International News, published monthly, which will give you full information and reliable references. Address, International Throat and Lung Institute, 173 Church street, Toronto; 13 Phillips Square, Montreal, P. Q.; 81 Lafayette avenue, Detroit, Mich.; or 106 Alexander street, Winnipeg, Man.

Personal: To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dry's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Dr. Carson's Stomach Bitters remove constipation, relieve Dizziness, dispell Sick Headache, abolish Bilelessness, and regulate the Stomach, Liver and Bowels.

Wide Awake Druggists.

Messrs. Taylor & McDonald are always alive to their business, and spare no pains to secure the best of every article in their line. They have secured the agency for the celebrated Dr. King's New Discovery for Consumption. The only certain cure known for Consumption, Coughs, Colds, Hoarseness, Asthma, Hay Fever, Bronchitis, or any affection of the Throat and Lungs. Sold on a positive guarantee. Total bottles free. Regular size \$1.00.—3

FANCY WORK and WOOLS.

Full Stock on hand of all the LATEST STYLES of Fancy Work, Wools, etc.

NORWOOD.

From Our Own Correspondent.

THE REVEREND.—Mr. Thos. Fraser has been elected by acclamation to fill the vacancy left vacant by the resignation of Mr. J. B. Pearce.

CARWORKS.—There is great excitement over the report that the carworks of the Ontario & Quebec railway are to be built at Norwood. The Revere and some of our leading men are taking important steps to induce the company to erect them here, as the works would be of vast benefit to Norwood.

STREET FIGHT.—The village was in a state of siege last week, on account of a disgraceful fight which took place on our streets during the night of the 21st of July, between a High School teacher, formerly of this place, and some of our leading men. As a full account of the quarrel and its result will be published in your paper, no further mention is necessary.

NEW BUILDING.—Mr. Charles Seabright's new cabinet shop, when finished, will present a front which for taste and neatness will be second to none in the village.

NORWOOD BAND.—The members of the Norwood Cornet Band have advertised for a band master, on account of the resignation of Mr. W. H. Mullins, and have already received ten applications.

LACROSSE MATCH.—The match between the Peterborough and Norwood lacrosse clubs was played here on Tuesday and resulted in a victory for Peterborough. The match lasted for about three hours, during which time the visitors scored three games, and the Norwood club one. It was asserted by spectators at the time of the match that the second twelve would have been beaten were they not assisted by two of the best players of the first team.

The Smallest Locomotive.

The smallest locomotive engine ever built in the United States for regular work was turned out by M. M. Buck & Co., of St. Louis, recently, and shipped to the Edmore plantation, St. Charles Parish, Louisiana. This little engine was designed by and built under the supervision of Mr. Jay Noble, and is as perfect a piece of mechanism as you would wish to see. Its dimensions are as follows:—Length, 21 feet 10 inches; height, 10 inches; diameter of cylinder, 6 inches; stroke, 10 inches; 4 wheels, diameter of driving-wheels, 24 inches; height of engine to top of boiler, 4 feet 7 inches; weight without water, 5,250 pounds. The engine has link motion, and is made of the best materials throughout. The boiler is made of 3/4 inch iron, and is 30 inches in diameter in the barrel. It is provided with an Orm patent pop-valve, has a steel fire-box, and is fed by two injectors. The tank is made of No. 10 iron, has 4 wheels of a diameter of 18 inches, a capacity of 300 gallons, and weighs, without water, 1,400 pounds. In experimenting with the engine before it was shipped it was found to act very obediently under the hand of the engineer.—*Railway World.*

The Tragic Murder.

An inquest was held at Tracadie N.S., on Thursday evening on the body of Randall McDonald, when the jury returned a verdict of "wilful murder" against James Bowie, and a warrant was issued for his arrest. The medical evidence shows the shot to have taken effect above the hip, causing a mortal wound.

It appears that Bowie had repeatedly threatened McDonald with shooting if he should cut hay of the land in dispute, so much so that McDonald had recourse to legal protection and a constable was on the spot with a warrant for the apprehension of Bowie. Unfortunately he was not near enough to prevent the murder. Poor McDonald's wife was an eye-witness of the murder. She saw the assassin leave the clump of trees that fringed the meadow and saw him level his gun, and raised an alarm. Though her cries did not arrest the assassin's shot, they brought the constable, who raised the wounded man and took him to his house. Medical aid was wired for, but death ensued in an hour and a half after his wound. The boy assassin, retaining his weapon, was seen crossing the harbour in a boat, apparently at hand for his escape.

The Multicharge Gun.

The multicharge gun just turned out at Reading, Pa., is expected to make an epoch in the manufacture of cannon. The weapon underneath contains four pockets, each of which holds 20 lbs. of powder. The breach itself holds only 18 lbs. As the projectile starts from the breach the force of this entire 130 lbs. of powder is concentrated on it, one pocket after another rapidly discharging its contents. The gun is 25 feet long, and weighs 25 tons. It is rendered doubly strong by a steel lining, and it is thought can hurl a projectile through a solid piece of iron 24 inches thick. It will shoot from 12 to 15 miles, and is intended for both harbour and naval defense. The present gun was manufactured at a cost of over \$50,000. The projectile with which it is loaded weighs from 100 to 150 lbs. each. A company with a capital of \$10,000,000 has been organized for the manufacture of the gun.

A New Steamship Line.

L. A. Bancel returned to Montreal on Tuesday from France, and says that he has secured a new company in Reuen to join a line of first-class steamers from that port to Quebec, and that Mr. Bentley, the Brazilian consul, was engaged in making the arrangements for the future sailings. The newly-decorated Chevalier also says that his new organization was an accomplished fact, and that he was going to Quebec this evening to transfer all his new passengers, such as the Hall estate, Pioneer Beet Sugar factory, Abetee mines, etc., to the company. The stock, however, he admits, has not been placed on the Paris Bourse, but he is returning there next month to put it on the market. The capital will be six or ten millions of dollars.—*Mail.*

FRUIT JARS.

CHINA HALL is Head-quarters for every kind of FRUIT JARS. At CHINA HALL you can get a Superior Jar at a less price than other dealers are asking for ordinary goods. CHINA HALL Fruit Jars will not crack. Buy your Fruit Jars at CHINA HALL and save Money, Time and Fruit.

CHINA HALL AND SILVER BAZAAR,
Corner George and Simcoe Streets, Peterborough.

MACFARLANE WILSON, Direct Importer.

FROM ALL OVER.

LADY MACDONALD and her brother, Colonel Bernard, arrived in Halifax on Tuesday evening.

U KAN'T KOFF.—Climax cough cures. Quick, sure cure; of all dealers; 15c.

For the month of July the decrease in the public debt of the United States was \$7,900,000.

A BROKEN NECK was set by physicians at Reading, Pa., on Tuesday, with hopes of the patient's recovery.

DON'T PULL IT.—Use Newton's one minute toothache cure. Relief at once; of all dealers, 15c.

A STONE was thrown through the window of a car in which President Arthur was riding on Monday, near Wilmington.

MR. WM. COX will ship 4,000 tons of iron ore from Belleville this season. The first cargo is now being loaded for Cleveland.

DR. CARSON'S Stomach Bitters free the system of the poisonous humours that develop into Kidney and Urinary diseases, give tone and vigour to the stomach and purify the blood.

MR. ALEXANDER MACKENZIE, the ex-Premier of Canada, has returned from the continent, and is now in Scotland. He will sail for Canada about the middle of next month.

It is stated by a Washington broker that the Confederate bond scheme has been started for the purpose of obtaining eleven million dollars deposited by the Confederacy in foreign banks previous to the close of the rebellion to pay the interest on the bonds.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

"Official" English.

The following is a copy of a circular issued from the Foreign Office:—"Lord Granville desires to call the attention of all members of her Majesty's Diplomatic and Consular Services to the necessity for greater care as regards the use of pure English in official correspondence. The following specimens of bad English, mostly due to misinterpretations of French words, have been taken from despatches recently received at the Foreign Office. A despatch was received with the following docket:—Copy of King's speech, with appreciation thereon. 'Demission' for dismissal, 'transaction' for compromise, 'franchise of duties' for freedom from duties, 'veridical' for true, 'arrestation' for arrest, 'incessantly' for immediately, 'signalize' for point out, 'prorogation' for prolongation, 'increasement' for increase, 'category' for class, 'expose' for state or explain, 'dissolution' for dismissal, 'minimal' for very small, 'ally themselves' for come around to, 'antecedent solidarity' for previous understanding, 'took not' for took note, 'united' for raised, 'debarred' for debarred from, 'disrecommended' for unmotivated, 'apprise' for, etc."

Courage.

Courage is frequently thought to be simply the absence of fear. Yet, if there were no fear, there would be no room for courage. If we did not fear the water or the fire, no courage would be required to plunge into them to save a fellow creature from destruction. If a child had no fear of the dark we should not appeal to his courage to face it. Fear has an important mission to perform for us—that of warning against danger—and it will and ought to continue as long as danger or evil of any kind continues to threaten us. When its presence is felt, however, two opposite courses are open to us: the one to shrink, or yield, or run away, the other to face the danger, whatever it may be, with steadiness, resolution and strength. The one is the path of cowardice, the other of courage, and the greater the fear the more sublime is that courage which can stand firm in its presence and unflinchingly pursue the path of duty.

Thousands Say so.

Mr. T. W. Atkins, Girard, Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints, purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by Taylor & McDonald.

Itching Pills—Symptoms and Cure. The symptoms are redness, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, seems as if new worms were crawling above the parts affected. If allowed to continue very serious results may follow. "WAYNE'S OINTMENT" is the cure. Also for Tetter, Itch, Salt Rheum, Scald Head, Erysipelas, Barbers Itch, Blotches, all scaly, crusty Skin Diseases. Sent by mail for 50 cents; 3 boxes, 1.25, (in stamps). Address, DR. WAYNE & SON, Philadelphia, Pa. Sold by Druggists.

Failing!

That is what a great many people are doing. They don't just know what is the matter, but they have a combination of aches and pains, and each month they grow worse.

The only sure remedy yet found is SULPHUR AND IRON BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why SULPHUR AND IRON BITTERS will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, biliousness, intermittent fevers &c.

Office of Edward Elliott, Wholesale and Retail Grocer, Cor. Bleury and LaGauchetiere Sts. Montreal, Nov. 7th 1882.

I was a great sufferer from dyspepsia, and for several weeks could eat nothing and was growing weaker every day. I tried SULPHUR AND IRON BITTERS, and am happy to say I now have a good appetite and am much better in every way.

EDWARD ELLIOTT.

SULPHUR AND IRON BITTERS is not a drink and does not contain whisky. It is the only preparation of Iron that causes no injurious effects. Get the genuine. Sold by all dealers. Price 50c.

Note the Address—

Corner Harvey and McDonnell Streets.

Daily Evening Review

FRIDAY, AUGUST 3, 1883.

Cool Weather.

The weather this morning was quite cold, and it remained cool during the day.

A Treat.

Base Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

To Stony Lake.

The Peterborough Young Men's Christian Association have decided to run an excursion to Stony Lake, some time during the camp of the American Canoe Association.

Picnic on Civic Holiday.

On the Civic Holiday, Wednesday, August 15th, there will be a picnic at Wallis' Grove, under the auspices of the congregation of St. Peter's Cathedral.

Plate Glass.

New plate glass has been put in the front windows of Mr. D. Belcher's warehouse on Hunter street. This makes an improvement to these premises, and a corresponding improvement on the street at this place.

A Monster Pic-nic.

The Orange Young Britons have decided upon holding a monster pic-nic in Port Hope, the *Times* says, on the 20th of September. We understand invitations will be extended to the be extended to the brethren of Kingston, Belleville, Napanee, Peterborough and a number of other places.

"Nor-West" Cider.

The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.

Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

Police News.

The police cells were occupied last night by one prisoner, who was arrested for drunkenness.

If the constables do not enforce the cow by-law on Sundays, they at least at times make it warm for the stray cattle on other days. Yesterday and last night eighteen cattle were impounded.

Letter of Condolence.

At an official meeting of the Bible Christian Church held on Wednesday afternoon, a letter of condolence was adopted to be forwarded to the widow and family of the late Mr. Tebb, who had been a member of the church, sympathizing with them in the loss they had sustained and expressing the appreciation of the church of the labors of the late member in its behalf, as an official and a local preacher.

Ancient Pipes.

Two ancient pipes are on exhibition in the window of Mr. Rubidge's tobacco store. One of them belongs to Mr. T. M. D. Croly, and is one hundred and forty years old. It is a colored meerschaum, and he asks \$100 for it. The other pipe, which was left at Mr. Rubidge's this morning, is made of marble, and the bowl is carved. It was found near Head Lake, in Laxton township, Victoria county, about three feet under a large pine stump. A geologist visited the place where it was found, and his opinion was that it must have been deposited there at least 500 or 600 years ago. It is evidently an Indian pipe, and in it some ancient warrior has doubtless smoked the fragrant weed. There is marble similar to that of which the pipe is made in the townships of Methuen and Marmora.

Railway Notes.

The *Intelligencer* says that the employees of the Grand Trunk Railway have completed all arrangements for their picnic at Campbellford on the 18th inst. They will have all the cars they require as, in addition to what they will obtain from the G. T. R., the Midland will also give them a supply. They contemplate running two trains and confidently expect that the event will be the most successful they have ever had.

The town fathers of Perth, a Kingston paper says, are stirring in the matter of a "gala day" to mark the opening of the Ontario and Quebec Railroad. Already much encouragement has been given to the scheme.

The *Mail* says that the Kingston and Pembroke Railway Company have received \$11,000 from the Ontario and Quebec Railway for the right to cross their dry way at Sharbot Lake.

The construction of the Ontario and Quebec bridge across the Otonabee river is progressing. The coping stones are being put on the abutment on the west side of the river.

The *Ontario* says that Mr. Wm. Gains has been appointed check clerk for the Ontario & Quebec Railway at Trenton, and is now superintending the discharge of three or four barges loaded with steel rails at the Central Ontario dock. From present appearances the Central Ontario Railway seems to be doing a lively business over their roads and about their docks, necessitating the employment of not a few hands, and giving the south part of the town a lively business appearance.

OVER THE GRAND JUNCTION.

An Excursion from the City of the Bay to Peterborough.

An excursion train from Belleville arrived here about one o'clock to-day. The excursion was held under the auspices of the Methodist Church of that city. The train consisted of nine coaches, and the day being Belleville's civic holiday, this opportunity for a pleasant outing was taken advantage of by large numbers.

At the Madoc junction the number of the excursionists was augmented by the arrivals on the North Hastings line, and at Stirling, Campbellford, Hastings and other places along the line of the Grand Junction many persons bent on pleasure boarded the train. The number of passengers on board when Peterborough was reached was about six or seven hundred. The trip from Belleville here was a pleasant one, and was made without any mishap.

Upon the arrival of the train here the excursionists at once made their way up town, and much hand-shaking was noticed when friends met friends. A large number of townspeople were congregated at the station when the train arrived.

After dinner the visitors proceeded to view the town, by driving and walking around the streets. Those who visited Peterborough for the first time commented freely and favourably on the appearance of the town, and in the comparisons made with the City of the Bay and other places, Peterborough had nothing to be ashamed of. Some rain fell during the forenoon, but the weather cleared up, and was favorable during the afternoon.

POLICE COURT.

THEFT.

FRIDAY, Aug. 3.—Albert Caverly was brought up on remand, charged with stealing a quantity of clothing belonging to Jeremiah Moore on the 26th of July. He pleaded not guilty. Mr. J. O'Meara appeared on behalf of the prisoner, who elected to be tried summarily.

Jeremiah Moore was sworn and stated that he recognized part of the clothing produced as his, namely three shirts, two pair of drawers and one pair of socks, worth three or four dollars. He also lost a coat, two pair of socks, a shirt and two collars. They were taken out of a valise in his room in the third flat of Sullivan's Hotel. He put them in the valise on the 23rd July and did not open it again until the 27th, when the clothing was gone. He next saw them in the Albion Hotel in Ashburnham. He knew them by their general appearance and some of them by patches on them. His room door was not locked. He described the clothing to Mr. Clancy before they found them.

JOHN CLANCY was sworn and said that when the goods were missed, he suspected Caverly, as he had been in the hotel that day and had said that he had been upstairs. He went to the Albion Hotel and saw the bag and the clothes. Believing them to be Moore's, he went after him, and he identified them.

WM. GIBBOUX, bar tender at the Albion Hotel, said that, to the best of his knowledge, the prisoner was the man who left the bag of clothes at the hotel on Thursday last, and said that if Mr. Crowley called for them to give them to him. The prisoner appeared to be under the influence of liquor. The clothes were taken away by Constable Pidgeon.

MR. O'MEARA addressed the Magistrate, arguing that the evidence was not conclusive as to the guilt of the prisoner, and that he should be given the benefit of the doubt.

The Magistrate said that there was no doubt in the case, and he sentenced the prisoner to three months in the common jail at hard labor.

DRUNK AND DISORDERLY.

Charles Jewitt was charged with having been drunk and disorderly, but this being his first appearance in Court he was discharged.

A. C. A.

The members of the General Committee for the reception of the A. C. A. visitors should remember the meeting this evening.

The Coming Competition.

The band are practicing steadily, preparing for the competition in Chatham. Last night they played in the park, and although all the members were not present, yet those who were there made music the like of which has seldom or never been heard in Peterborough. The band do really play in excellent form, and their piano and forte parts are fine. Every little point is attacked with a precision and correctness that is sure to carry a band well to the front rank. The quickstep "Jolly Demons," was arranged at one time specially for a band competition, and is a grand one. In this piece of music the E. flat cornet has a very hard and prominent part, and is evidently in good hands, as anyone who heard it last night will state. All the men have got heavy work in this quickstep, and it being an unusually heavy one, is done full justice to by our band. The operatic selection is a lengthy one, as it takes some twenty minutes to get through it. It is taken from the opera of "Ernani," and is in every respect well adapted for a band competition. The waltzes are also a good set, some parts of them being especially fine. Messrs. Miller, Freeman, Fraser and McCabe are to play a quartette, and no doubt they will acquit themselves in a creditable manner.

A Severe Storm.

About two o'clock on Thursday afternoon a severe rain and hailstorm passed over Brooklin, Ont., cutting down fields of grain and breaking windows in its course. The area of country traversed by the storm is about four miles wide. The crops are damaged to the extent of thousands of dollars, and from two to six miles west of that place a number of houses and two or three churches had many panes of glass broken. Bushels of hailstones could be gathered after the storm, many of which were larger than marbles.

The Destructive Earthquake.

The number of victims of the earthquake at Casamirocila is now stated at five thousand. The authorities are taking vigorous measures for preserving the health of the district, but notwithstanding the use of disinfectants in large quantities, the stench is still intolerable. A number of English and Americans have arrived at the ruins in search of missing relatives.

ANOTHER RAILWAY ACCIDENT.

Express Train on the South-Eastern Railway Derailed.

MONTREAL, Aug. 2.—A serious accident happened on the South-Eastern railway last evening, between Newport and North Troy, by which 12 passengers, the engineer, and conductor were badly injured. Three passengers were hurt seriously. The locomotive and three passenger cars were derailed and dented, from what cause is unknown, as the rails are intact. The actual condition of the three passengers who were badly injured is not learned, but the worst is feared. Medical aid was immediately obtained. George Mackinnon, engineer, and Conductor Lamothe are not fatally wounded, but have received serious fractures of limbs. The following are the only names yet received:—Mr. Thompson and Mr. Price, both of Stanstead; Mrs. Brown, Newport Centre; L. Smith, Canadian, Customs officer. None of these are seriously injured.

ANOTHER ACCOUNT.

NEWPORT, N.S., Aug. 2.—The express train on the South-Eastern railway from here to Montreal was derailed near North Troy, and two passenger cars, a passenger baggage car, and the engine completely demolished. A lady from Dery was fatally injured, and fourteen others seriously hurt. Fred Pierce, of Stanstead, and servant were very badly hurt. There were fifty passengers aboard, and the great wonder is that so many escaped.

THE OVERWORKED OPERATOR.

Operator Johnson, who is responsible for the accident, is seventeen years old. He was on duty all night, and at 9 a. m. had not been relieved, owing the tardiness of Stationmaster Hoag. Overwork is the operator's excuse.

"Why, Angelina, where did you get those beautiful rich colors on your bonnet?" "Ain't they lovely?" I dyed them with the Triangle Package Dyes." loc.

Can't be Questioned! WHY!

That DOLAN & CO'S Hot Weather Suits are in good style!

That DOLAN & COY Hot Weather Suits are light, easy-fitting and inexpensive.

That DOLAN & CO'S Hot Weather Suits are essentially the young men's suits.

2111, 2113, 2115, 2117, 2119, 2121, 2123, 2125, 2127, 2129, 2131, 2133, 2135, 2137, 2139, 2141, 2143, 2145, 2147, 2149, 2151, 2153, 2155, 2157, 2159, 2161, 2163, 2165, 2167, 2169, 2171, 2173, 2175, 2177, 2179, 2181, 2183, 2185, 2187, 2189, 2191, 2193, 2195, 2197, 2199, 2201, 2203, 2205, 2207, 2209, 2211, 2213, 2215, 2217, 2219, 2221, 2223, 2225, 2227, 2229, 2231, 2233, 2235, 2237, 2239, 2241, 2243, 2245, 2247, 2249, 2251, 2253, 2255, 2257, 2259, 2261, 2263, 2265, 2267, 2269, 2271, 2273, 2275, 2277, 2279, 2281, 2283, 2285, 2287, 2289, 2291, 2293, 2295, 2297, 2299, 2301, 2303, 2305, 2307, 2309, 2311, 2313, 2315, 2317, 2319, 2321, 2323, 2325, 2327, 2329, 2331, 2333, 2335, 2337, 2339, 2341, 2343, 2345, 2347, 2349, 2351, 2353, 2355, 2357, 2359, 2361, 2363, 2365, 2367, 2369, 2371, 2373, 2375, 2377, 2379, 2381, 2383, 2385, 2387, 2389, 2391, 2393, 2395, 2397, 2399, 2401, 2403, 2405, 2407, 2409, 2411, 2413, 2415, 2417, 2419, 2421, 2423, 2425, 2427, 2429, 2431, 2433, 2435, 2437, 2439, 2441, 2443, 2445, 2447, 2449, 2451, 2453, 2455, 2457, 2459, 2461, 2463, 2465, 2467, 2469, 2471, 2473, 2475, 2477, 2479, 2481, 2483, 2485, 2487, 2489, 2491, 2493, 2495, 2497, 2499, 2501, 2503, 2505, 2507, 2509, 2511, 2513, 2515, 2517, 2519, 2521, 2523, 2525, 2527, 2529, 2531, 2533, 2535, 2537, 2539, 2541, 2543, 2545, 2547, 2549, 2551, 2553, 2555, 2557, 2559, 2561, 2563, 2565, 2567, 2569, 2571, 2573, 2575, 2577, 2579, 2581, 2583, 2585, 2587, 2589, 2591, 2593, 2595, 2597, 2599, 2601, 2603, 2605, 2607, 2609, 2611, 2613, 2615, 2617, 2619, 2621, 2623, 2625, 2627, 2629, 2631, 2633, 2635, 2637, 2639, 2641, 2643, 2645, 2647, 2649, 2651, 2653, 2655, 2657, 2659, 2661, 2663, 2665, 2667, 2669, 2671, 2673, 2675, 2677, 2679, 2681, 2683, 2685, 2687, 2689, 2691, 2693, 2695, 2697, 2699, 2701, 2703, 2705, 2707, 2709, 2711, 2713, 2715, 2717, 2719, 2721, 2723, 2725, 2727, 2729, 2731, 2733, 2735, 2737, 2739, 2741, 2743, 2745, 2747, 2749, 2751, 2753, 2755, 2757, 2759, 2761, 2763, 2765, 2767, 2769, 2771, 2773, 2775, 2777, 2779, 2781, 2783, 2785, 2787, 2789, 2791, 2793, 2795, 2797, 2799, 2801, 2803, 2805, 2807, 2809, 2811, 2813, 2815, 2817, 2819, 2821, 2823, 2825, 2827, 2829, 2831, 2833, 2835, 2837, 2839, 2841, 2843, 2845, 2847, 2849, 2851, 2853, 2855, 2857, 2859, 2861, 2863, 2865, 2867, 2869, 2871, 2873, 2875, 2877, 2879, 2881, 2883, 2885, 2887, 2889, 2891, 2893, 2895, 2897, 2899, 2901, 2903, 2905, 2907, 2909, 2911, 2913, 2915, 2917, 2919, 2921, 2923, 2925, 2927, 2929, 2931, 2933, 2935, 2937, 2939, 2941, 2943, 2945, 2947, 2949, 2951, 2953, 2955, 2957, 2959, 2961, 2963, 2965, 2967, 2969, 2971, 2973, 2975, 2977, 2979, 2981, 2983, 2985, 2987, 2989, 2991, 2993, 2995, 2997, 2999, 3001, 3003, 3005, 3007, 3009, 3011, 3013, 3015, 3017, 3019, 3021, 3023, 3025, 3027, 3029, 3031, 3033, 3035, 3037, 3039, 3041, 3043, 3045, 3047, 3049, 3051, 3053, 3055, 3057, 3059, 3061, 3063, 3065, 3067, 3069, 3071, 3073, 3075, 3077, 3079, 3081, 3083, 3085, 3087, 3089, 3091, 3093, 3095, 3097, 3099, 3101, 3103, 3105, 3107, 3109, 3111, 3113, 3115, 3117, 3119, 3121, 3123, 3125, 3127, 3129, 3131, 3133, 3135, 3137, 3139, 3141, 3143, 3145, 3147, 3149, 3151, 3153, 3155, 3157, 3159, 3161, 3163, 3165, 3167, 3169, 3171, 3173, 3175, 3177, 3179, 3181, 3183, 3185, 3187, 3189, 3191, 3193, 3195, 3197, 3199, 3201, 3203, 3205, 3207, 3209, 3211, 3213, 3215, 3217, 3219, 3221, 3223, 3225, 3227, 3229, 3231, 3233, 3235, 3237, 3239, 3241, 3243, 3245, 3247, 3249, 3251, 3253, 3255, 3257, 3259, 3261, 3263, 3265, 3267, 3269, 3271, 3273, 3275, 3277, 3279, 3281, 3283, 3285, 3287, 3289, 3291, 3293, 3295, 3297, 3299, 3301, 3303, 3305, 3307, 3309, 3311, 3313, 3315, 3317, 3319, 3321, 3323, 3325, 3327, 3329, 3331, 3333, 3335, 3337, 3339, 3341, 3343, 3345, 3347, 3349, 3351, 3353, 3355, 3357, 3359, 3361, 3363, 3365, 3367, 3369, 3371, 3373, 3375, 3377, 3379, 3381, 3383, 3385, 3387, 3389, 3391, 3393, 3395, 3397, 3399, 3401, 3403, 3405, 3407, 3409, 3411, 3413, 3415, 3417, 3419, 3421, 3423, 3425, 3427, 3429, 3431, 3433, 3435, 3437, 3439, 3441, 3443, 3445, 3447, 3449, 3451, 3453, 3455, 3457, 3459, 3461, 3463, 3465, 3467, 3469, 3471, 3473, 3475, 3477, 3479, 3481, 3483, 3485, 3487, 3489, 3491, 3493, 3495, 3497, 3499, 3501, 3503, 3505, 3507, 3509, 3511, 3513, 3515, 3517, 3519, 3521, 3523, 3525, 3527, 3529, 3531, 3533, 3535, 3537, 3539, 3541, 3543, 3545, 3547, 3549, 3551, 3553, 3555, 3557, 3559, 3561, 3563, 3565, 3567, 3569, 3571, 3573, 3575, 3577, 3579, 3581, 3583, 3585, 3587, 3589, 3591, 3593, 3595, 3597, 3599, 3601, 3603, 3605, 3607, 3609, 3611, 3613, 3615, 3617, 3619, 3621, 3623, 3625, 3627, 3629, 3631, 3633, 3635, 3637, 3639, 3641, 3643, 3645, 3647, 3649, 3651, 3653, 3655, 3657, 3659, 3661, 3663, 3665, 3667, 3669, 3671, 3673, 3675, 3677, 3679, 3681, 3683, 3685, 3687, 3689, 3691, 3693, 3695, 3697, 3699, 3701, 3703, 3705, 3707, 3709, 3711, 3713, 3715, 3717, 3719, 3721, 3723, 3725, 3727, 3729, 3731, 3733, 3735, 3737, 3739, 3741, 3743, 3745, 3747, 3749, 3751, 3753, 3755, 3757, 3759, 3761, 3763, 3765, 3767, 3769, 3771, 3773, 3775, 3777, 3779, 3781, 3783, 3785, 3787, 3789, 3791, 3793, 3795, 3797, 3799, 3801, 3803, 3805, 3807, 3809, 3811, 3813, 3815, 3817, 3819, 3821, 3823, 3825, 3827, 3829, 3831, 3833, 3835, 3837, 3839, 3841, 3843, 3845, 3847, 3849, 3851, 3853, 3855, 3857, 3859, 3861, 3863, 3865, 3867, 3869, 3871, 3873, 3875, 3877, 3879

Daily Evening Review

SATURDAY, AUGUST 4, 1883.

STENOGRAPHIC JUSTIFICATION.

We notice that some of our contemporaries are seeking to justify Mr. Mowat's appointment as Sheriff of the County of Hastings by reference to the alleged appointment by Sir John Macdonald of Mr. Chapleau, the dismissed Secretary of Public Works Department to a similar position in the Northwest.

They of our contemporaries who have adopted this line of defence should remember:—

1st. That it is an admission that the appointment of Mr. Peck is one which cannot be defended upon its own merits.

2nd. That two wrongs do not make one right, and that such a line of defence is a confession that Mr. Mowat is a no better or purer administrator of our public affairs than Sir John Macdonald—an admission which is a great back down for them.

3rd. That had as has been the conduct of Mr. Chapleau, it was not of the same bad character as that of Mr. Peck, while the position of Sheriff is only that of an executive officer, whereas that of Judge is at the fountain of justice.

As to our opinion of the appointment of Mr. Chapleau to sheriffship in the Northwest, about which some of our contemporaries are very solicitous, we have no hesitation in saying that it meets with our strongest condemnation—if it has been made. We say "if it has been made" because so far as we have observed the only notice of the appointment which has been published, has appeared in the opposition press, and their statements we know by sad experience are not always founded on fact.

SEIZING BY FORCE.

One expression used by a resident of Rat Portage, in an account of the troubles there, puts the whole question in a nutshell. He says:—

"Does Mr. Mowat think for a moment that the people of Rat Portage forget when he refused to recognize their application for incorporation? It was when he refused to give us a charter that we applied to Manitoba. The latter Government has had possession here for two or three years. Their authority was respected, and their officers feared by evil-doers until Ontario officials came among us and tried to cause trouble in our ranks."

That is the gist of the matter. The territory in dispute, though as we believe rightfully ours, is in the possession of others, and to endeavour, as the Mowat administration is doing, to take it by force, is an invasion, a little civil war, an act of violence, which tends to prejudice rather than to strengthen our just claim. Law respecting men in such cases appeal to the courts, and not to violence.

Mr. Mowat himself resigned the possession of this territory and unless we are much mistaken the very timber limits against which his supporters are fulminating were granted by the Macdonald Administration.

We have a just claim and one that we believe can be enforced in the courts, but Mr. Mowat by this outrageous step is placing us in the false position of appearing the bullies who rely upon brute force rather than the law.

NO ROAD GRANTS FOR WEST PETERBOROUGH.

The following correspondence speaks for itself:—

PETERBOROUGH, April 20, 1883.
To the Hon. Commissioner of Crown Lands, Toronto.

Sir,—Observing by a letter addressed to Mr. S. B. Peck by the Assistant Commissioner of Crown Lands, dated the 31st January last, and published in the *Fenelon Falls Gazette*, that your department has appropriated \$300 for expenditures on the roads of the Township of Fenelon, County of Victoria, upon condition that a like amount be expended by the municipality for the same purpose and upon the same roads, I deem it my duty to call your attention to two roads in the Township of Smith and one in the Township of Harvey in this county, which are, to say the least, as deserving of Provincial aid as any road in the Township of Fenelon.

The roads to which I refer are those leading from Young's Point to Burleigh Bridge, and from Selwyn to Hall's Bridge or Buckhorn in Smith, and the one in Harvey connecting the Buckhorn colonization road with Bobcaygeon. All these roads serve, indeed are the only inlets and outlets by land for the Burleigh and Buckhorn colonization road settlements, and those engaged in lumber operations in these districts, and are comparatively little used by the ratepayers of the townships in which they happen to be.

Under these circumstances, and in view of the grants already made, I conceive that I am asking nothing more than justice when I ask your honorable consideration for my request for a grant of say one hundred dollars for each of the roads I have named, upon the same conditions as similar grants have already been made this year for roads in Fenelon and Eldon.

Yours respectfully,
JOHN CARNEGIE.

Toronto, 23rd April, 1883.

DEAR SIR,—I beg to acknowledge the receipt of your favour of the 20th instant upon the subject of grants of money upon two certain roads in the county of Peterborough.

In reply, I have to say that the Commissioner will be asked to consider the subject of your letter when similar matters are before him, which will be during the season of road making.

I am, sir, your obedient servant,
THOS. H. JONESTON, Asst. Comm.

John Carnegie, Esq., M.P.P., Peterborough.

PETERBOROUGH, July 14th, 1883.

To the Hon. Comm. Crown Lands, Toronto:—

Sir,—I beg to call your attention to my letter of the 20th April last, and to the Assistant Commissioner's reply thereto of the 23rd of the same month, and to ask whether any decision has, as yet, been arrived at with regard to the applications contained in my letter.

Yours respectfully,
JOHN CARNEGIE.

Toronto, 1st August, 1883.

Sir,—I beg to acknowledge receipt of your favour of the 16th July referring to your previous communications upon the subject of grants to improve certain roads in the townships of Smith and Harvey for the benefit of settlers and those engaged in lumbering operations.

The superintendent of colonization roads represents that the money at the disposal of the Government for road purposes is for the present year entirely exhausted, but he is instructed to make an examination of the roads upon which

you desire grants and to report in the usual manner as to the special circumstances of each case; and should the reports be in favour of the expenditure asked by you the Commissioner directs me to say that he will then consider your application with a view to meeting your views in the future.

I am, sir, your obedient servant,
THOS. H. JONESTON, Asst. Comm.

J. Carnegie, Esq., M.P.P., Peterborough.

MR. MOWAT'S CIVIL WAR.

Invading Territory in the Possession of Others.—A Made up Job.

We take the following extracts from the account sent to the *Winnipeg Times* by its special correspondent, who accompanied Mr. Mowat and his officials to Rat Portage:—

One of the Manitoba sympathizers on being asked what he had to say on the subject replied, "I wish the Government had sent out the military instead of the police. What right has Ontario to establish a garrison and court house here? Does Mr. Mowat think for a moment that the people of Rat Portage forget when he refused to recognize their application for incorporation? It was when he refused to give us a charter that we applied to Manitoba. The latter Government has had possession here for two or three years. Their authority was respected, and their officers feared by evil-doers until Ontario officials came among us and tried to cause trouble in our ranks. They have bought up some of our residents by promising them offices, and now they are devoting their attention to flogging the roughs of the place to acts of violence. This commission business, of which Mr. Burden is the head, is one of the biggest farces of the age. He pretends to be seriously considering the cases of those who have claims in the town and on the lake. Will he dare to say that this commission has not been gotten up for the purpose of affecting the coming election? The applicant is promised that his case shall be favorably reported on, but he is expected in return to support the Mowat candidate."

"The money spent on the streets by Ontario is another effort to catch votes for Mowat's candidate. Why was not this money spent before the streets were in a disgraceful condition? The true answer is that there was not then an election (which may decide the fate of Oliver Mowat) in the near future. The Ontario Government have played their cards pretty cleverly as far. They have made one of Mowat's McKinnon and Alexander. They have tried but have been unsuccessful, to do the same with Councilors Gadbois and Kobold. Had the two former been as active for the town's good as the other two, Ontario would never have gained the good hold that she has at present, and the trouble that now looms up would never have occurred."

Councillor Gadbois informed the correspondent as follows:—
"Yesterday it was pretty well known that an attempt would be made to break open the Manitoba garrison and release the prisoners. The friends of the Manitoba Government prepared to resist the attack. About ten o'clock last night a crowd numbering one hundred and fifty gathered in front of the jail. Constable O'Keefe and myself tried to reason with the two leaders of the party to refrain from the attempt. We spoke to the crowd, and they reported to us that the majority were in favor of making attack. The crowd had been raised by friends of Montgomery, a prisoner in the garrison and most of those ready to fight belonged to Cape Breton, from which place Montgomery hailed. It seems to have been a made up job, between the Ontario police and the mob as none of the former were to be seen during the disturbance."

A CANADIAN GRACE DARLING.

The Heroine of Kettle Island the Saver of Seven Human Lives.

The west end of Kettle Island, in the Ottawa River, the scene of the late amateur oarsmen's regatta, is the home of a veritable "Grace Darling." A World reporter who attended the regatta had the pleasure of meeting and conversing with this interesting young lady. Her name is Miss Emily O'Neill, and her age about 18. She is a daughter of Detective O'Neill, ex-Superintendent of the Dominion Police Force. Her father owns the west end of the island, and her family inhabit a snug little house facing the south channel of the river and the Ontario shore. Miss Emily has been instrumental in saving from drowning no less than seven human lives at various times, and yet this gentle heroine has not as yet been honored with the medals of the Humane Society. However, it may be added that it is partly her own fault, for she is so very modest in speaking of her heroic deeds that one would imagine that she was a very timid creature instead of the brave girl she is. One reason why she holds aloof from a prospective adornment of her bosom with the society's emblems of heroism is that she dreads a public presentation or any splurge on such an occasion. The Marquis of Lorne has visited the young lady's family a couple of times and it is understood that he has intimated that she will receive the medals.

A CANADIAN GRACE DARLING.

The Heroine of Kettle Island the Saver of Seven Human Lives.

Now about her courage. Her first act of heroism was to save five small boys who were skating on the river from drowning. The ice was in very bad condition, and when they had reached a point nearly opposite Grace Darling's house they all disappeared. Miss O'Neill heard their cries for help, and putting out in a boat she made her way through the rotten ice, and after a hard struggle managed to land all the youngsters safely on shore. Her next courageous feat was to rescue a half-tired fisherman who was crossing the river on unsafe ice. The farmer and his team went through, and Miss Emily managed to save the man, but the team was drowned. This was last winter. Her third and last stroke of heroism occurred the present summer. On the Ontario shore, opposite her father's home is a saw-mill. One of the mill hands fell off a wharf in front of the mill and was carried off by the current midstream. Miss Emily saw the mishap, and her trusty boat being at hand, she was soon by the side of the drowning millman, who was hauled into the boat in an exhausted condition. Miss Emily is an expert oarswoman. She has a modest, sweet face, and to the casual observer she does not betray any of the heroic nature that is the delight of the neighborhood, and the pride of her father, mother and sisters. She is rather small in stature and her limbs appear to be strongly constructed.—*Toronto World*.

PERSONAL: To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

For Black Hair-Restorer with Silk Warp, very desirable Goods, go to Turnbull's.

LINDSAY.

THE SALVATION ARMY.—The Warden says that the Salvation Army duly began operations on Sunday and have continued their services during the present week under the command of Captain Wain. The services on Sunday afternoon, and evening were largely attended by the younger portion of the population. They play the tambourine instead of the drum, and sing very well, but their preaching especially is more deplorable than usually seen in ordinary church pulpits. Yet our Salvation Army friends are sincere and their services will be productive and good. The meetings were informed as to occur each evening through the week for some time.

Wide-Awake Druggists.

Messrs. Taylor & McDonald are always alive to their business, and spare no pains to secure the best of every article in their line. They have secured the agency for the celebrated Dr. King's New Discovery for Consumption. The only certain cure known for Consumption, Coughs, Colds, Hoarseness, Asthma, Hay Fever, Bronchitis, or any affection of the Throat and Lungs. Sold on a positive guarantee. Trial bottles free. Regular size \$1.00.—3

DR. CARSON'S Stomach Bitters remove Constipation, relieve Dizziness, dispell Sick Headache, abolish Biliousness, and regulate the Stomach, Liver and Bowels.

AFTER HALF A CENTURY.

The Courts of Belgium and Holland on Terms of Friendship.

THE HAGUE, July 19.—Since the war of 1830, which resulted in the dismemberment of the Kingdom of the Netherlands and the establishment of Belgium as an independent State under King Leopold I., the Courts of the two countries had hitherto held entirely apart from each other. To-day, for the first time in the history of the two kingdoms, their sovereigns have met. King William and Queen Emma of the Netherlands, who have been staying for some time at their palace in the Grand Duchy of Luxembourg, arrived a little before noon to-day at Spa. The population and numerous visitors at that charming Belgian watering-place turned out en masse, and greeted their Dutch Majesties with the warmest enthusiasm. Amid the cheering of the crowd that lined the streets the royal visitors drove to the Hotel Britannique. There they were welcomed with the warmest cordiality by the King and Queen of the Belgians, who entertained them at luncheon. In the afternoon King Leopold and the Queen accompanied the royal guests to the station, where they took a very affectionate leave of their visitors on their departure for Antwerp, on a visit to the Prince and Princess of Waldeck.

Throughout Belgium and Holland the meeting of to-day has been hailed with the greatest rejoicing as an event of memorable importance. The two countries have had cause to regret their estrangement, which has now lasted upwards of half a century, and the feeling is universal throughout the two nations that the time has now arrived when this separation should at length be replaced by a cordial friendship and alliance.

MARRIAGE DOCK.

The Maritime Commerce of the East India Dock Company.

The East and West India Dock Company of London has boldly embarked in a gigantic enterprise, for which some commercial prophets predicted a failure. This is the construction of docks at the mouth of the River Thames, and the whole of this dock extension project to be the most remarkable that London has ever witnessed, and will leave all other ports in the world far behind. They will have a tidal basin with a depth of forty-three feet, and the largest vessels will be able to go in and out without regard to the tide. The contracts call for four dry docks, each with a length of 150 feet, a floating dock with a lifting capacity of 3,000 tons, and a large basin for the accommodation of passengers. Tilbury is certainly at a considerable distance from London, "but with the railway facilities that have been organized a few miles more or less will really be a matter of no great importance, while it is undeniable that, with the huge ships of the present day—and they seem to be continually advancing in dimensions—the avoidance of a few miles of river navigation, with its windage and shallows and fog, and the necessary cost of tonnage and pilotage, must be in immense advantage." The contracts call for the completion of the work within two years and a half, of which one year has already elapsed.

CHOLERA AND RAGS.

No Fear of Reaching this Country through this Source.

With reference to the question of Egyptian rags, a representative of the Gazette called upon the sanitary inspector, Mr. Radford, yesterday, and asked if any steps had been taken to prevent their entering the port of Montreal. Mr. Radford said that since it had appeared in the papers that a cargo was expected in the United States he had called upon a number of importers of rags and dealers in rags, and found that although some years ago rags were brought from Egypt and from certain ports in the Mediterranean, and had been introduced for some years past. A cargo, it appears, arrived some days ago in the States, where they were quarantined, and will not be allowed to land unless they are washed and thoroughly cleaned. Under these circumstances the importers here say that it would be cheaper to send them back to their starting point than to incur the expense. The abundance of rags in Canada at the present time is greater than it has ever been before. This is proved by the fact that the price has been reduced within the last few days, the establishment of the several cotton mills having had very much to do with this state of things. Mr. Radford said the citizens might rest assured, therefore, that there was not the least fear of the introduction of cholera through the rags. He was glad to say this, as great fear had arisen in the minds of some people on this account, no less than seven persons having been at the office to make enquiries from him concerning this matter.—Montreal Gazette.

The Lime-Kiln Club's New Notice.
"I have been asked several times of late," remarked Brother Gardner, as he opened the meeting in his usual bland manner, "if we were to have any new notices or proverbs or maxims for the summer season. De Committee on Bay-in's has handed in the following bill of fare for hot weather: 'He who sleeps by day will hunger by night.' 'Industry may be dug on which plenty hangs but 'tis barren.' 'A good man makes three enemies to one friend.' 'Men who go to law make a pack to each other.' 'Beware of salt.' 'Do biggest balloon can be packed in a bar' when de goes on out.' 'De-rattle ob de empty wasp can be hurt farder dan de rumble ob de loaded one.'—Detroit Free Press.

For a good Black Luster at 12¢ cents a yard, go to Turnbull's.

CHINA HALL is Head-quarters for every kind of FRUIT JARS. At CHINA HALL you can get a Superior Jar at a less price than other dealers are asking for ordinary goods. CHINA HALL Fruit Jars will not crack. Buy your Fruit Jars at CHINA HALL and save Money, Time and Fruit.

CHINA HALL AND SILVER BAZAAR,
Corner George and Simcoe Streets, Peterborough.

MACFARLANE WILSON, Direct Importer.

FROM ALL OVER.

A SUCCESSFUL balloon voyage across the British Channel was made on Wednesday.

It costs Turkey over \$15,000,000 annually to support the sultan and his harem.

The electric light was used on the Quebec harbor improvements for the first time Wednesday night.

The clear makers of New York and the factories have come to terms and the strikers will resume work.

An inventor at Washington, D. C., is preparing a flying machine which he proposes to attach to his person while he swims over Niagara Falls.

A MOVEMENT is on foot in London, Eng., for the erection of a memorial and to aid in raising a fund for the assistance of the family of Capt. Webb.

Dr. CARSON'S Stomach Bitters free the system of the poisonous humors that develop into kidney and urinary diseases, give tone and vigor to the stomach and purify the blood.

A BILL to centralize the management of London in the event of an outbreak of cholera in that city, passed its first reading in the commons.

The Cattle Commission report to the United States Treasury that after a long and exhaustive enquiry they have been unable to find foot and mouth disease apart from herds just imported from Great Britain.

A CURE FOR CHOLERA MORBUS.—A positive cure for this dangerous complaint, and for all acute or chronic forms of Bowel Complaint incident to Summer and Fall, is found in Dr. Fowler's Extract of Wild Strawberry; to be procured from any druggist.

SOME folks contend that the Central American populations are indolent. It is an untenable charge in view of the slavery with which they organize revolutions in the remotest months of the summer year.

"Where all other remedies fail," for Bowel Complaint, Colic, Cramps, Dysentery, etc., then Dr. Fowler's Extract of Wild Strawberry comes to the rescue. Thus writes W. H. Crocker, druggist, Watertown, and adds that "its sales are large and increasing."

LAST year Arizona produced over 17,000,000 pounds of copper. Thus far during the present year the increase has been 38 per cent, and new furnaces are going up. Arizona's output of copper is at least 25,000,000 pounds for 1883.

It is known in season to warn our readers against the sudden attacks of Cholera, Cramp Colic, and the various Bowel Complaints incident to the season of ripe fruit, vegetables, etc. Dr. Fowler's Extract of Wild Strawberry is the grand specific for those troubles.

A VALUABLE DISCOVERY.—One of the most valuable discoveries in the medical science for the benefit of mankind, was made when Burdock's Blood Bitters were invented. This medicine positively cures all diseases of the Liver, Kidneys, Stomach, Skin and Blood. 25,000 bottles have been sold during the last three months.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

Ball's Health Preserving Corsets, so highly recommended by physicians, to be found at Turnbull's.

Children's Letters.

Try to make the children understand that they are to write exactly what they would say; that the letter that reads like talk is the best; and the formal one that would never have been spoken is the worst. When the children learn to speak facetiously, and pick up in time the conventional habits of ordinary sequence of ideas, their letters will naturally become perfect in wording and arrangement, but will still be a faithful transmission of the *vis* *voce* speech of the writers. If this common sense principle of teaching letter-writing were introduced, there would be a new and immense pleasure added to the life of all child-loving old folk; at some time or other the children would find need of sending letters; and the prattle of the little ones, their fresh talk breathing happy ignorance of all but their little world, where small cares, joys, and interests stand around them magnified—the very sound of their voices echoing out of the words they might have said—this could be kept indelible and ever fresh; and in how many cases of distance, time or sorrow, the old letters would become precious as gold.

Another Disappearance.

On the 18th of May last a young woman who appeared to be about 30 years of age, and gave her name as Stevenson, called upon Mrs. Gell, of 46 Mance street, and engaged a room from her.

On the 23rd of the same month she took possession of the room, bringing with her a large quantity of clothing and effects, including a sewing machine. She slept in her room that night and left the house quite early on the morning of the Queen's Birthday, saying she was going down to the Point, and that is the last seen of her. A short time ago a woman called at Mrs. Gell's and enquired for Miss Stevenson, but no information was obtained from her as to who she was or what had become of her except that she was a dressmaker and a native of Hamilton, Ont. For some reason or other the police were only notified of this sudden disappearance on Thursday.—Montreal Witness.

Thousands Say so.

Mr. T. W. Atkins, Girard, Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid cures. Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by Taylor & McDonald."

Nothing Fails—Symptoms and Cures.

The symptoms are malarial, like feverishness, intense itching, increased by scratching, very disquieting, particularly at night, when as if pin-worms were crawling along the parts affected. If allowed to continue very acute malarial may follow. "BARKER'S OINTMENT" is a powerful cure. Also for Tetter, Itch, Salt Rheum, Head Head, Eruptions, Barbers' Itch, Itches, etc. Sold by all druggists. Price 1.00 (in stamps). Address, DR. J. H. BARKER & SONS, Philadelphia, Pa. Sold by Druggists.

Corner Harvey and McDonnell Streets.

Daily Evening Review

SATURDAY, AUGUST 4, 1883.

A Treat.
Best Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

The Cells.
The police cells were empty last night, and there was a blank at the Police Court this morning.

A New Bridge.
Tenders are asked for the erection of a bridge over the race at the end of Murray street, opposite Mr. Brodie's woolen mill.

Lacrosse.
An invitation has been sent to the Campbellford lacrosse club to play a match here with the second twelve of the Peterborough club on the morning of the Civic Holiday.

In Your Watch Chain.
Watches that are continually stopping and getting out of order, can be properly repaired by leaving them at Hughan's Shop, office lately occupied by E. Burnham, Simcoe street.

Paigillette.
Two young men had a dispute last night and undertook to settle it by an encounter at fist-fight on George street. A few blows were struck, when the arrival of Chief Johnston put a sudden end to the fight.

The Belleville Excursion.
The excursionists from Belleville departed at half past five o'clock on Friday afternoon. A little excitement was caused at the station when the train, at five o'clock, moved away from the platform and many thought it had gone, as a large number were not yet on it. It came back to the platform, however, and did not start until a few minutes after the advertised time.

"Her-Weet" Cider.
The most wholesome temperance beverage made. Put up in large casks for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.
Put up in bottles. Orders sent by telephone if left at Ross and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

Midland Railway Traffic Returns.
The traffic of the above railway for the week ending July 28th, 1883, was as follows:—Passengers and mails, \$6,735.82; freight, \$14,506.80; total, \$21,242.62, as compared with \$21,036.99 for the corresponding week of 1882, being an increase of \$205.63; and the aggregate traffic to date is \$587,621.27, being an increase of \$19,394.61 over 1882.

All About a Dog.
A fight was commenced on Friday afternoon on George street about a dog, and a small dog at that. The two men who quarrelled about it engaged in a fight, and one of them ran into a store, where he was followed by the other. They were inclined to continue the row in the store, but the merchant demurred and put them out. On the street again they continued the squabble for a few minutes, and then separated.

Runaway.
While the Watering cart was drawn up at the hydrant near Mr. McKee's this morning, the horses which draw it ran away. The driver had got off the wagon and had just turned on the water when the horses, probably frightened by the noise made by the water, started at a run down the street. They ran down opposite the arcade, when they were caught. One of the hind wheels of the wagon was left lying in the street, the axle having been broken by the jolting.

Railway Notes.
The Midland Free Press says that the donkey engine was busily engaged at the elevator wharf for the past few days loading ties for the contractors of the Ontario and Quebec railway.

During the month of June something like 700 cars of through grain were forwarded from the elevator at Midland.

On Friday evening says the Free Press, Mr. T. E. Tate, Midland Railway agent at Midland, was entertained by about forty of his friends at the Queen's hotel, and presented with an address and a handsome gold chain and locket.

Can the Thistles.
Every year, at this season, the following paragraph goes the rounds of the press. It is just now on its annual pilgrimage:—
"Thistles and other noxious weeds will soon become ripe and should be cut at once. For the benefit of our readers we publish the section of the act bearing on this matter. The thistle act stands as follows:—'It shall be the duty of every occupant of land to cut or cause to be cut down all the Canadian thistles growing thereon, so often as is sufficient to prevent them going to seed, or if the owner, possessor, or occupant of land knowingly suffers any Canada thistle to grow thereon, and the same to ripen so as to cause or endanger the spreading thereof, he shall, upon conviction, be liable to a fine of not less than \$2 and not more than \$10 for each and every such offence.'"

Turnbull still keeps up his reputation for heavy boots, boots and cotton shirtings. See his stock of choice patterns lately received.

Cricket.
The Cricket Club have sent an invitation to the Port Hope Cricket Club to play a match here on the Civic Holiday, the 15th of August.

Prizes for A. C. A. Regatta.
We would call the attention of ladies interested in the A. C. A. to the letter of Mr. H. T. Strickland in another column asking for their assistance in providing flags for prizes.

A Special Train.
A special train will go to Lakeside this evening, leaving the station at 8.30 o'clock, to carry passengers to the garden party and concert at that village. It will return after these events are over.

Waterworks.
The work of putting in the hydrants is progressing. The places where the hydrants are to be situated are got in readiness, and the hydrants are to be put in in the morning, so as not to interfere with those who are now using the water. The hydrants near London street are being put in first.

Shelling Green Peas.
The disinclination of the townspeople to do any unnecessary work, and the industry of the farmer, were illustrated on the market this morning. A farmer had for sale a quantity of green peas in the pods, and he could not find a purchaser, so he took a seat in the wagon and patiently went to work shelling the peas.

New Vegetables.
Mr. Stephen Payne, the enterprising market gardener, and others, had a number of new vegetables on the market this morning, among others was some choice cauliflowers, cabbage and new tomatoes. Every market day sees something new in the way of vegetables, and they are eagerly bought at by the market-going people.

Personal.
Among those registered at the Calves House are the Rev. Dr. Dewar, of Toronto, editor of the Christian Guardian, and the Rev. D. F. Gee. The latter is on his way to assume charge of his new circuit at Norwood.

Mr. David English, formerly of this town, now living in the city of Montreal, is here on a visit to his friends.

A Cheese Stolen.
On Thursday night a cheese, weighing about sixty or seventy pounds, was stolen out of the Cherry Grove Cheese Factory, in Smith. There are shutters on the windows of the factory, but they were not fastened on the inside, and the robber raised the sash and entered through the window, taking the cheese out in the same way. The cheese was of the June make.

The Market.
There was a good attendance on the market this morning, and a number of new vegetables made their appearance. Carrots and beets sold at 5 cents a bunch; cabbage 15c; a head and cauliflower 20c; tomatoes 10c; to 12c; a pound; raspberries \$1.00 to \$1.25 a pail; new potatoes \$1.00 to \$1.50 a bag; beans 25c; a peck; butter 18c; to 19c; a pound; and eggs 14c; to 15c; a dozen.

Midland Lane, very wide, for Ladies Collars, fresh this week at Turnbull's.

A. C. A.
The general local committee of the A. C. A. met on Friday evening, when the reports from the various sub-committees showed that the preliminary arrangements were either complete or were making satisfactory progress. From the report of the regatta committee it appears that they would be glad to receive some more flags for prizes. There is every appearance of a successful meeting.

The Operators Strike.
The strike of the telegraph operators continues, and, so far as appearances go, the situation seems to be the same as on the first day of the strike. The operators feel confident that the companies will have to yield, and the companies are as confident that they will not. How the matter will end is as yet an unsolved problem, but the public are anxious that it will end in some way.

Charlotte Street Church.
The excavation has made for the addition to the Sunday School room of the Charlotte Street Methodist Church, and the brick work will now be proceeded with. Mr. David Gamble has the contract. Further work will also be done inside the church, which will add to its good appearance inside. The porch will be raised, and the front end of the building, opposite the pulpit, made to correspond with the appearance of the end where the organ is situated.

The Weather.
The weather last night and this morning was quite cold. It has aroused the "oldest inhabitant," who is looking back and searching in his memory for a year in which the weather was so cool in the first week in August. This afternoon is warmer. The weather probabilities for this district, for the twenty-four hours counting from one o'clock this morning, as issued by the Toronto Observatory, are as follows:—Moderate to fresh west to northwest winds, fine weather and not much change in the temperature.

New Prints for Autumn trade, dark grounds, with bright flowers, at Turnbull's.

Enlargement of Lock No. 2.
St. Catharines, August 3.—Lock No. 2 of the old Welland canal has been enlarged to the full size of the new canal under the supervision of Mr. Monroe, C. E. Notwithstanding the exceptional difficulties encountered by the contractors the work has been energetically prosecuted and satisfactorily finished. The city of St. Catharines may thank the indefatigable member for Lincoln and his friends for this important improvement, which will greatly benefit the business of the community.

There is no excuse for suffering from Headache, Constipation and all the wearying train of symptoms of a disordered liver, when Burdock Blood Bitters is an unfailing remedy, and only costs One Dollar a bottle. Why suffer on without a trial? 25,000 bottles sold during the last three months, with almost universal satisfaction.

A. C. A. PRIZE FLAGS.
To the Editor of the Review.
Sir,—On behalf of the Regatta Committee, I desire to use your columns for the purpose of asking those ladies who have made or propose making flags as prizes for the Association Regatta at Stony Lake, if they will kindly let me know through the Post Office or otherwise, as the Committee desires to make provisions for the prizes at once.
Yours truly,
H. T. STRICKLAND.
Peterborough, Aug. 3, 1883.

ONTARIO FORESTS.
There are, according to Mr. Phipps, in his lately published report on the preserving and replanting of forests, four elevated plateaux or ridges in Ontario. The first of these is that which is known as the Oak Ridge, about thirty miles north of Toronto, and which passes round to the west, coming at Hamilton close to the lake, then going around the head of it and ending away in the Niagara peninsula. If this height of land had been retained in timber, he thinks the benefit to the Province would have been incalculable. The second watershed is that which extends, with a slight curve to the north, from Kingston to Nipissing. To the east of it all streams flow into the Ottawa; to the west into Lake Ontario. Much of the land is still in the hands of the Government, and it would be well to suggest that large masses of forest were preserved along the whole line. Hundreds of thousands and even millions of acres of it might, indeed, well be left in forest, which would be a reservoir of moisture and ensure fertility to the whole of Eastern Ontario. The third watershed is the height of land of Western Ontario, the locality of the great Garafraxa swamp. Much of it might be reserved for timber. Its central point is one thousand feet above Lake Ontario, and from its sides rivers run into Georgian Bay and lakes Huron, Erie, and Ontario. The Blue Mountains, at the extreme north of the Ontario peninsula, extending from near Collingwood, past Owen Sound, and Huron and Georgian Bay, is the fourth Plateau, and, as much of it is still in the Government's hands it could be easily preserved in timber. The forest left standing on these ridges would be much more efficacious as storehouses of moisture than a larger amount scattered through the country.—*Montreal Gazette.*

Latest Novelties in Collars, Lace and Frillings always found at Turnbull's.

Convincing Proof.
Having suffered, from rheumatism for a long time I was induced to try your Arnica and Oil Liniment. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine.
I am yours truly,
W. H. DICKSON,
218 St. Constant St., Montreal.
To Henry, Johnson & Lord, Montreal.
Arnica and Oil Liniment is sold by all Drug stores.

Do not attempt to remain over night without a bottle of Dr. Fowler's Extract of Wild Strawberry near at hand. This is the season for Bowel Complaints, Colic, Cholera Morbus, etc., and the remedy above named is the unfailing specific.

"Why, Angelina, where did you get those beautiful rich colors on your bonnet?" "Ah! they're lovely!" I dyed them with the Triangle Package Dyes." 10c.

Daily Evening Review

MONDAY, AUGUST 6, 1883.

We regret to see that Mr. Chaplin has been gazetted sheriff of the Northwest Territories. Already we have expressed our opinion upon this subject, and we see no reason to modify it, unless this is a case of "mistaken identity."

Why does the Globe call the supporters of law and order in Rat Portage "Copperheads"? History tells us that the "copperheads" of the neighbouring republic were rebels, who caused a civil war by their exaggerated views of "sovereign State Rights" in opposition to the central authority. The result cannot afford much consolation to Mr. Mowat, who is imitating them in a small way.

RAILWAY GRAM WHISTLES.
To the Editor of the Review.

Sir,—I don't know whether or not our Town Council have it in their power to stop or to mitigate the intolerable nuisance occasioned by the almost incessant screaming and howling of the railway steam whistles in our midst. If they have the power they ought to exercise it in our behalf, for we look to them for protection from all kinds of nuisances, and the nuisance I allude to is one of the very worst description.

It is of no use appealing to the managers of the railway on this subject. These discordant and disturbing sounds, commencing between 5 and 6 o'clock a.m. and continuing until between 10 and 11 p.m., are as much in their ears, implying, as they do, enlarged business and multiplying dollars, and that is all those persons care about; but they are rendering Peterborough a very undesirable place of residence for private families, for all, in fact, who have no business connection with the town, and are thus likely to feel upon it a serious injury.

A RATEPAYER.
Peterborough, August 6, 1883.

Trapping Brains.

One of the farmers on the Klippewa has succeeded in trapping four bears this season, the skin of the largest of which measured seven feet and a half in length, and six feet and a half in breadth. The animal weighed three hundred and seventy-nine pounds, and was quite poor.

Section's Arctic Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Piles, Salt Rheum, Fever Sores, Chancres, Piles, Chills, Corns, Tetters, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

Forbearance and durability of color the Triangle Package Dyes—best in the world. If you never used dye before, do so now and be convinced. 10c.

BLAIRTON IRON MINES.

RICE DEPOSITS OF ORE LYING IDLE IN BELMONT TOWNSHIP.

What Effect the Building of the New Railway may have Upon them—An Almost Direct Line to Lake Ontario—Other Mines.

It is generally understood that in the eastern portion of the County of Peterborough there are large quantities of mineral, that in the townships of Belmont and Methuen iron ore abounds. In the first concession of the former township, on the shore of Crow Lake, the Blairton mines are situated. These mines were known years ago as the Marmora iron mines, when the ore was taken in scows to Marmora and smelted there. Later they were purchased by the Cobourg, Peterborough and Marmora Railway and Mining Company. This company commenced work in the mines in 1867 and prosecuted it vigorously until 1875, when all work in them ceased. Since then some ore which had been mined, and was lying at the works, was shipped, but no mining has been done since 1875.

The mines are on lots 7 and 8 of the first concession. On lot 8 there is a very large hill, locally known as the Ore Bed Hill, which is popularly supposed to be a solid bed of iron ore. A large quantity of ore has been taken out of the mountain, the face of the hill having been cut down on the east side, next the lake, forming a steep precipice, but the limit of the ore has not been reached, and from appearances one would think that the popular supposition was not far wrong. On lot 7 the "deep pit" is situated. It covers about a quarter of an acre at the surface and was sunk to a depth of over one hundred feet. It is now almost full of water. A few yards from the shaft there is another, which was only sunk a few feet, and in these three mines the ore, so far as appearances go, seems to be almost limitless. Experienced miners say that there is abundance of iron ore in these mines, and the quality of the ore will compare favorably with that of other mines.

Then why did the works shut down? There were two or three causes operating that caused work to cease for the time in these mines, but the principal one is believed to have been the expense of shipping the ore from the mines. The ore was shipped by rail over a nine mile road to the Narrows on the Trent river, from there to Harwood in scows towed by steamers, and from Harwood over the Cobourg and Peterborough Railway to Cobourg, where it reached Lake Ontario. This was a very expensive mode of shipping, as the ore had to be handled several times.

Every year since 1875 there have been rumors that work was about to be resumed in these mines, and every year those who believed the rumors were disappointed. Just now, however, we believe the company are seriously considering the matter. The shipment of the ore is still the drawback, but with

the expense of shipping will be materially lessened, that is if satisfactory arrangements could be made with the Ontario and Quebec and Central Ontario Railways. The Ontario and Quebec Railway runs within about a mile and a half of the mines, and a new railway from the mines to this line could be built without great expense, as it would run over almost level country. But the railway from Blairton to the Narrows crosses the Ontario and Quebec about two and a half miles from the mines, so that a new line is not necessary. The Ontario and Quebec crosses the Central Ontario five and a half miles from the boundary between the counties of Hastings and Peterborough, and from this crossing to Weller's Bay on Lake Ontario is about twenty-nine miles. The distance that the ore would have to be carried by rail by this route would be about as follows:—

From mines to Ontario and Quebec..... 2 1/2
From O. & Q. to Central Ontario..... 5 1/2
On Central Ontario to Weller's Bay..... 29

Total number of miles..... 37

The cost per ton over these roads (and for two miles and a half of the distance the line belongs to the mining company) would probably not exceed one and a half cents a mile, or sixty cents a ton from the mines to Lake Ontario. This would be considerably less than it cost in the way it was formerly shipped. The cost of mining when the mines were worked, we are credibly informed, was about \$1.25 a ton. So that, if the ore cannot be

SMELTED AT THE MINES,
and why it cannot, with the advantages now offered by the Government, it is difficult to see, it surely would pay to ship the ore.

The machinery formerly used at the mines, the engines, steam drills, pumps, &c., &c., are still all there and well taken care of, as Mr. J. L. Anger, who superintended the work, has had charge of it since the work shut down. To use the two miles of track which the mining company owns, a third rail would have to be laid, as it is of the wide gauge, but by laying a third rail, and leaving the other rails laid, the locomotive, which is still at the mines, could be used on this track.

It is to be hoped that work in these mines will soon be resumed, and that the dwellings now empty in the village of Blairton will be filled. And there are other known deposits of iron ore in that vicinity, that will probably receive attention when these roads are running. There are

THREE OTHER MINES
across the lake from the Blairton mines. One is known as the Cain ore bed, and is on lot 13, in the 3rd concession of Marmora. The ore on this lot has been tested, and was pronounced of good quality. There is also the Maloney mine in Marmora, not far from the Cain mine, in which some work was done, but the difficulty of shipping was in the way.

On lot 12, in the 1st concession, of Belmont, there also is iron ore, and these mines will no doubt be looked upon as soon as these roads make their entry into that vicinity.

MIDNIGHT TELEGRAMS

CABLE.
IRISH INFORMERS DOOMED.

DUBLIN, Aug. 4.—It is reported here that the Irish informers were prevented from landing at Melbourne, not on account of any disposition to thwart their plans or the desire to interfere with the wishes of the British Government, but because the police officials had discovered a plot to murder all three of the men, Kavanagh, Smith, and Hanlon, and to have allowed them to be put ashore would have led certainly to riot, and probably to murder. The Irish informers here say, however, that none of the informers can ever escape, and that the action of the Australian officers will only delay, and in no way prevent, their being put to death.

FRANCE AND THE VATICAN.
ROME, Aug. 4.—Negotiations between the Vatican and France regarding religious affairs resulted in accord on the principal questions; instructions in accordance with the arrangement made have been sent to the Papal nuncio at Paris.

SUSPECTED MURDER.
BERLIN, Aug. 4.—It is now believed that Deputy Stall was murdered. The body was destitute of money when found.

THE ANNEXATION SCHEME.
LONDON, August 6.—The Australian agent-general have presented a statement to the Minister for the Colonies that the reason the Australians desire the annexation of the Western Pacific Islands and a portion of New Guinea is that anarchy exists there and there is danger of the establishment of French penal settlements.

A SUSPICIOUS TELEGRAM.
LONDON, August 4.—It is stated that the informers Kavanagh, Hanlon and Smith, who were prevented from landing at Melbourne because of a plot to murder them, discovered that a certain telegram about them was recently sent to an Irish resident of Melbourne.

THE CHOLERA.
CAIRO, August 4.—One hundred and ninety-six deaths from cholera have occurred here during the past twenty-four hours, and five at Alexandria. There have been fourteen deaths among the soldiers during the same period. The total deaths from the plague throughout Egypt yesterday were 660.

REVOLT IN SPAIN.
LIMON, Aug. 4.—A military rising occurred in the Spanish province of Badajoz, on the Portuguese frontier, and the regular authorities were arrested. The rising was in the Republic interest, according to the latest report. It was speedily suppressed by the troops from Madrid. The rising took place at one o'clock Sunday morning. The Captain-General of the province was absent on furlough.

THE FRENCH IN TONQUIN.
PARIS, Aug. 4.—Immediately after the departure of the French the Annamites reoccupied the position the French took in a sortie from Namdinh.

THE MONARCHIST PLOT.
LONDON, Aug. 4.—Paris correspondents do not consider the plot to restore the monarchy serious. Two coachmen who were arrested had papers which indicated the existence of a secret Legitimist Committee of Action. The Standard says the committee consists of servants and small tradesmen.

AGITATION IN HUNGARY.
PESTH, Aug. 4.—There is great excitement in Hungary over the result of the trial of the Jews accused of murdering Esther Solymosy. At Freiburg a mob of anti-Semites because so hostile against the Jews that the authorities were compelled to order out the military to disperse them.

THE FRENCH IN MADAGASCAR.
PARIS, Aug. 4.—The Moras still surround Tamatave, but appear demoralized. They have not made any attacks since July 15th. The French are unable to advance on account of the smallness of their force.

ANTI-JEWISH RIOTS IN RUSSIA.
ST. PETERSBURG, Aug. 4.—The Jewish residents of Ekaterinopol, Russia, were attacked by a mob on the 2nd inst. The soldiers had to disperse the rioters, ten of whom were killed and 13 wounded. The trouble was caused by a Jew insulting a peasant woman. The Town Council of Ekaterinopol gave the Jews 5,000 roubles as compensation for their losses, and provided shelter for those rendered homeless.

ANOTHER EARTHQUAKE.
LONDON, Aug. 4.—There was another shock of earthquake at Porto and Ischia this afternoon. Several houses at Porto collapsed. Three persons buried in the ruins were extricated alive.

A BILL OF TREES.

It is comparatively easy to render prairie farms beautiful by the judicious planting of forest and ornamental trees. A correspondent of the Country Gentleman writes: A friend of mine moved from the picturesque hills and lovely woods of western New York to a prairie country, treeless and level. Although at first he daily applauded his new home for its practical utility in being so level, and blessed his luck in having no stumps to pull, yet his monotony became unbearably wearisome, and he was homesick for a sight of rugged but beautiful Catskill. Trees he had, for his first care was to plant windbreaks, and a ten-acre forest of soft maple and cotton woods, but hills were missing. Finally he told his wife that he was "going to make a hill at least 100 feet high," about 1,000 feet in front of the house. When I saw his hill it was nearly 75 feet high, one of the most and beautiful sights I ever saw. This is the way it was made. In the center of a circular land about 200 feet in diameter he set a cotton-wood tree, and 20 feet away a circle of six cotton-wood trees. The centre tree was much larger and thrifter than the circle. Twenty feet distant was another circle—six of willows, set 15 feet apart. Then followed catalpas, aliburns, orange orange, and holly. These outer circles were closer, and the trees, being of smaller kinds, were set closer. By cultivation and manuring he endeavored to incite the central trees to a more luxuriant growth than the outer ones, and has succeeded in a remarkable degree. The result is a soft green hill of foliage that soon will be one hundred feet high in the center, and slopes down to about ten feet at the base. My friend tells me that he does not think he made the best possible selection of varieties, but could do better now in making a uniform grade. My friend is "building" another hill on a modification of this principle. This is to be an evergreen hill, and for the place of home he has a white pine surrounded by spruces, and the varieties graded as to size to the edge. To secure a greater hill appearance he allows spruces to climb between the planting of the different circles, so that when the last circle is set the central tree will be twenty-five years old.

Notice of Removal

Mrs. COMPIGNE,
Costumier & Mantle Maker

From LONDON, Eng., formerly with Mrs. Wensley, Court Dressmaker, Brook St. Hanover Square; Baker & Crisp, Regent St.; and J. Branscombe, Mare St., Hackney.

Every attention given to Style and Fit. Ladies may rely upon no effort being spared to secure the Newest and Most Fashionable Styles. *For Juvenile Dressmaking a specialty.*

Note the Address—
Corner Harvey and McDonnell Streets.

Daily Evening Review

MONDAY, AUGUST 6, 1883.

A Treat.
Base Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

Board of Education.
A regular meeting of the Board of Education will be held at the Board Room on Tuesday evening at 7.45 o'clock.

Protestant Home.
The Committee meeting will be held at 3 o'clock on Tuesday, instead of 7 o'clock as heretofore.

New Jewellery Store.
Get your Watches, Clocks, Jewellery, all repaired at Hughes's New Shop. Remember the place, office lately occupied by E. Burnham, Simcoe street.

Camping Party.
A large camping party started for Stony Lake this morning. They intend to remain there for two weeks, being there for the opening of the A. C. A. Camp, and provided themselves accordingly.

Acknowledgement.
We are indebted to Mr. H. A. Wallis, formerly of Peterborough, for copies of the *Mooselaw News*, showing the rapid progress being made in that town and the surrounding district of the Northwest Territory.

Police News.
The calls were unattended on both Saturday and Sunday nights. The police say that since the calls were cleaned and whitewashed they have been used but very little. Eleven stray cattle were impounded between four and five o'clock this morning.

Sunday School Excursion.
The annual excursion of the Charlotte Street Methodist Church will be held on Tuesday next to the Summit. The train will leave the Midland station at 9.30 a.m., and will return in good season in the evening. A pleasant time may be expected, as usual.

The Weather.
The weather to-day is clear and warm, with a refreshing breeze. The weather probabilities for this district, for the twenty-four hours counting from one o'clock this morning, as issued by the Toronto Observatory, are as follows:—Moderate winds, fine, warmer weather. Fine and warm to-morrow.

Notes of Coming Exhibitions.
The Provincial, at Guelph, Sept. 24 to 29th. Dominion, at St. John N.B., Oct. 2nd to 5th. Industrial, at Toronto, Sept. 11th to 22nd. West Peterborough, at Peterborough, Oct. 2nd and 3rd. East Peterborough, at Warsaw, Oct. 2nd and 3rd. East Durham, at Millbrook, Oct. 4th and 5th.

The "Missing Link."
The laying of the rails is progressing on the "Missing Link" line between here and Omeene. The rails are now laid for about three miles out from this end, and one and a half miles at the Omeene end. The ballast train is following on. The bridge at Tully's is about completed, and it is expected that the cut will be finished by the 15th of August, and all the work done by the first of September.

The Midland Official Car.
The *Winnipeg Free Press* contains the following report from Mooselaw, N. W. T., under date July 25th:—
"The directors' coach of the Midland Railway of Canada attached to the rear of a construction train passed here yesterday evening about 6 o'clock, having on board Mr. Jeffrey, of Toronto, one of the Midland directors, and a party of his friends, on their way to the Rockies. The party only remained here about two hours for supper at the Moose Hotel. Before proceeding west, they made a hasty survey of the town and all expressed themselves as being greatly surprised, and well pleased with Mooselaw."

Lakefield Garden Party.
A large number, including the Fire Brigade Band, went from Peterborough to Lakefield to attend the garden party and concert held at the residence of Mr. Strickland, for the benefit of the St. John's Church parsonage fund, on Saturday evening last, August 4th. A special train went to Lakefield on the Midland, leaving here at 6.30 o'clock. The concert included a good programme, and the music and singing was of a high order. The party was altogether a most enjoyable one.

Killed by Lightning.
A private letter received from Winnipeg this morning conveys the sad intelligence of the death of Mr. R. B. Mowat, formerly in the Bank of Commerce here, and a nephew of the Hon. O. Mowat. Mr. Mowat was on a farm 200 or 300 miles west of Winnipeg, and during a severe thunder storm he was struck by lightning. His clothes were torn to shreds, and a hole was made in the back of his head, and also a hole in each heel. Mr. Mowat was well and favorably known here, and the news of his tragic death will be received with much regret.

POLICE COURT.

WOMAN'S WAR.
MONDAY, August 6.—Mrs. Annie Bradshaw was charged by Mrs. Phoebe Webster with having assaulted her. The complainant and the defendant were both sworn, and directly contradicted each other. A daughter of Mrs. Webster was also sworn, and corroborated her mother's evidence. Mrs. Bradshaw, however, acknowledged having "touched" Mrs. Webster on the cheek with a mullen. Mrs. Webster swore that she struck her three times with a stick, but this Mrs. Bradshaw positively denied, and Mrs. Bradshaw swore that Mrs. Webster struck her children, and was directly contradicted by Mrs. Webster. The two families live beside each other, and the trouble arose about a passage in the yard. Mrs. Bradshaw was fined \$2.

An Accident.
On Saturday a man named O'Grady, from Montreal, working at Tully's cut on the "Missing Link," was jammed between the dump cars. His injuries were severe, but not of a very serious nature, and he is progressing favourably towards recovery.

A Deserved Rebuke.
On Sunday evening the congregation in the George street Methodist Church was disturbed by young people going out before the service was concluded. Some young people make a practice of this on every Sunday evening, no matter what Church they attend, and it is to be hoped that the mild yet deserved rebuke administered by the Rev. Mr. Shaw will have a good effect.

"New-West" Order.
The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.
Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

Railway Notes.
We are informed that a station on the Ontario and Quebec Railway will be located on the line between the first and second concessions of the township of Belmont, directly south of Blairton village. Mr. McMahon's contract at this point, covering ten miles east from Havelock, will be completed in a few days. The Campbellford Herald says that thirty-five miles of rails have been laid on the Central Ontario Railway, and a great portion of the ballasting for this distance is also completed. A passenger train is to be put on this new road soon.

Practice Matches.
Two lacrosse matches will be played, one this evening and one to-morrow evening, commencing at 6.30, between the following teams selected from the Peterborough Lacrosse Club:—

FIRST TEAM.	
M. Tierney.....	Goal
G. Rutherford.....	Point
J. Reynolds.....	Cover Point
G. O'Rourke.....	Defence Field

A. McEwen.....	"
R. Stevenson.....	"
J. Howden.....	Home
R. Begley.....	"
M. Higgins.....	Field Captain

From Our Own Correspondent.

PRESENTATION.—On Monday, the 23rd day of July, 1883, Mrs. W. Patterson and Mrs. Alex. Calder called on Miss Lillie Butterfield at her father's residence and presented her with a handsome purse and the following address on behalf of the congregation of Christ's Church, Norwood:—

Dear Miss Butterfield:—
The members of Christ's church have learned with deep regret of your approaching departure from their midst, and desire to avail themselves of this opportunity of expressing their warmest wishes for your future welfare.

By your uniform courtesy, your consistent Christian life, and the deep interest you have always manifested in the work of the church, you have endeared, and commended yourself to all.
Your intercourse with us has ever been characterized by love and kindness, and while in your removal the church loses an active and devoted member, we each feel that we are bidding good bye to a personal friend.

By your service as organist so cheerfully and efficiently rendered, you have placed us under a great obligation, and as an evidence that our gratitude is of the heart and not of the lips only, we ask you to accept this purse, not for any intrinsic value that it may possess, but as a memento of the many happy hours we have spent together. We congratulate you upon your future prospects, and we pray that the best benediction of our Heavenly Father may continually rest upon you, and that the evening of your life may be illumined by a sun which like the morning star goes not down behind the darkened west, but melts away into the brightness of Heaven.

Signed on behalf of the Congregation,
MISS A. CALDER,
MISS W. G. PATTERSON.

Miss Butterfield made the following reply:—

My dear friends:—
My feelings will not allow me to reply in suitable terms to your kind address. Nor can I express all I feel at receiving such a generous present, the whole is as unexpected it completely astounds me. Many, many thanks for the beautiful purse, and be assured I shall value it for the kindness of the hearts which have contributed to it, and wherever my lot may in the future be cast, my heart will always be with you, the friends of my early years.
It is my service as organist I have given you satisfaction, I am more than paid, having found compensation in the pleasure it afforded me to contribute my mite towards the worship of our Heavenly Father.
I cannot part with you without thanking the many friends who have assisted me with their roles, from time to time.
The services of an organist will not avail much if not supported by the voices of those about her.
Trusting that God may continue to be with this congregation as well as myself.
I am very Respectfully yours,
LILLIE BUTTERFIELD.

Can't be Questioned!

WHY!

That DOLAN & CO'S Hot Weather Suits are in good style!
That DOLAN & CO'S Hot Weather Suits are light, easy fitting and inexpensive.

window up.
Large Towels over a yard long at 5 cents each. Extra
heavy and large 9 cents.
Best quality of Heavy Towels at 50 and 55 cents.
Dress 60 and 75 cents.
Large White Bed Spreads at 100 cents worth 135, also
at 170 and 190 worth 160 and 180 cents.
It would be useless for me to give you quotations on
everything in the Store. All I have to say is that every-
thing in the Store will be

SOLD FOR COST!

And I also wish you to bear in mind that those
Goods are all Genuine Goods, and not bought merely to
advertise for. I will give you a first-class article for
the same money that other houses will give you an
inferior article for. Do not fail to call early while you
have a good selection to choose from. Come early in
the day and avoid crowding in the evening.

Daily Evening Review

WEDNESDAY, AUGUST 8, 1883.

MURDERED IN TORONTO.

A Man Shot at Midnight—Almost a Doubtful
Murder.

On Tuesday night, we learn from the *Mail*, a
man named James Maroney was murdered in
Toronto. He was a "bus driver." He was down
to meet the Grand Trunk train, and having
established his horses for the night, proceeded on
his way to the home he was fated never to reach
alive. Arriving at King street he crossed over
and while passing up the west side of York
street he met a tramp named Jordan, and
went along with him up to the north-west
corner of Peel and York streets, where he met
a man named Charles Anderson, who was al-
so accompanied by a friend. The quartette
stopped on the above corner and engaged in con-
versation. An altercation sprang up between
Maroney and Anderson, and a struggle ensued.
They wrestled in deadly earnestness for a mo-
ment, when Anderson fell, with Maroney on top
of him. Maroney was heard to exclaim, "Oh,
you've got a revolver!" but the rest of his
words were stopped by a loud explosion of a
revolver, and Maroney ceased to struggle. They
both arose together, and Maroney ran
south across the road to Montgomery's
saloon, saying, as he ran, "I'm killed."
Just as he uttered this sentence he
fell, and never uttered another word, nor
moved. As soon as it became known that a
murder had taken place, a large crowd im-
mediately began to assemble from all parts, and
collected around the prostrate form of Maroney,
who lay on the sidewalk on the south-west
corner of Bolton and York streets. No sign of
life nor motion was perceived, and though
nobody went near enough to feel the body,
the almost universal opinion was that the
man was dead. A cry for a doctor went up,
and immediately a man boarded a hack, and
drove to Dr. Thorburn's house. The latter, ac-
companied by Dr. Cook, arrived shortly on the
scene, but on taking a short look at the form
pronounced him extinct, and the body was con-
veyed to his mother's house, 59 Pearl Street.
Here the physicians had the body stripped, and
a more careful examination of the wound was
made. It was found that the bullet had entered
the left breast just a little above the nipple,
and immediately opposite the heart, and had
gone clear through the body, wounding the apex
of the heart, and coming out near the spine.
Death, in the opinion of the physicians, must
have ensued immediately on his falling. The
wound had but little, the bleeding being almost
all internal. The dead man wore a peaceful ex-
pression on his face as he lay on the sofa in his
mother's house, as though the death was pain-
less, if it was sudden. At his family's house a
most heartrending scene took place when the

shooting was announced, as the victim was the
support of a widowed mother and a younger
brother and two sisters.
Constable Cuddy heard the shot, and hurrying
to the scene, saw a man run up a lane and
pursued him. The murderer, for he it was, fired
two shots at the constable before he was arrested,
both bullets passing through the constable's
clothes. The prisoner is an English immigrant.

REMARKS.
From our own Correspondent.

WEATHER NOTES.—July has been something
like an average of our rain fall. Although falling
on 12 days, on 9 of which it was accompan-
ied with thunder, it only amounted to the depth
of 2 inches and 62-100 of an inch. Although al-
most all around storms of heavy rain and hail
have done considerable damage we have only
felt it lightly. Our severest storm was on the
3rd, when rain only fell to the depth of 71-100
part of an inch. July of 1882 had 15 days on
which rain fell to the depth of 4 inches and 01-
100 part of an inch. The thermometer of late
years never went higher than 90 degrees in July
with an average temperature of 60 degrees for
1882 and 63 degrees for 1883. We had white
frost on two mornings, namely, the 14th and
20th, which doubtless was the cause of rusting
our spring wheat, the sun coming out hot and
actually reaching 70 degrees at sunset each day.

THE CROPS.—Fall wheat and barley are about
one week later in commencing to cut than in
1882, both these years being a good average
crop. Spring wheat about two tenths less from
scalding and drowning out, will probably aver-
age less than that owing to the rust. Potatoes
and oats have suffered to the same extent, but
of course will not be affected by the rust. Potatoes
about five sevenths of an average crop. Apples
and other fruits will not be more than 30 per
cent of an average crop. Turnips and mangles
and carrots though late, look healthy. All the
above calculations are based on the hope that
they will receive no further injury.

REMARKS.
From Our Own Correspondent.

DEATH.—Mr. Peter Robinson, who died re-
cently at the age of 61 years, was one of the old-
est settlers in Ontario. His funeral was very
largely attended.

New Minister.—Rev. E. C. Wilson, Epis-
copal minister, has succeeded the Rev. Mr.
Marsh, and has established a fortnightly ser-
vice. He preached in the town hall
last Sunday evening.

QUICK WORK.—John Barbridge, our well-
known well digger, dug and stoned a well at the
Keene cheese factory, 24 feet in depth, in three
and one quarter days. This was done in stiff,
blue clay, and not sandy soil. Bring out a man
to beat this if you can.

UNDERSTANDING.—Our genial friend, Thomas
Mabber, makes a very fine undertaker, having
lately started in the business with a fine outfit.

ADVERTISING.—Medical advertisements have
been very conspicuous lately, and the juxtapo-
sition of some of them affords very queer com-
binations, one fine stamp apparently associat-
ing an M.D. with a strange assortment of quack
medicines.

MIDNIGHT TELEGRAMS

CABLE.

M'DERMOTT ARRESTED.

LIVERPOOL, Aug. 7.—James McDermott was
arrested yesterday on his arrival from America,
charged with conspiracy to murder a public
official. He was arrested on board the steamer
on which he arrived. The warrant was issued
in Cork, where he has been in company with
O'Herlihy. Correspondence with O'Donovan
Rosca and Jas. Stephens was found upon the
prisoner, who said he was an American citizen
and would call upon the American Government
to protect him.

IRISH MEASURES.

LONDON, Aug. 7.—The Irish Laborers' bill
passed in Committee of the Whole in the House
of Commons last night by a majority of 330.
Mr. Trevelyan introduced a bill to aid the Irish
working people by establishing a system of
transways in Ireland. The bill includes a clause
appropriating £100,000 to aid emigration.

THE DYNAMITERS.

LIVERPOOL, Aug. 7.—The trial of O'Herlihy,
Featherstone, Deary Flannigan, and Galton,
charged with having explosives, began to-day.
Several witnesses testified that Featherstone
visited Glasgow and purchased a quantity of the
strongest nitric acid, which he sent to O'Herlihy
at Cork.

Reviewed in Lake Simcoe.

A telegram from Barrie on Monday afternoon
brought the sad news of the drowning in Kem-
pfield Bay, Lake Simcoe, of two young men,
sons of prominent gentlemen, one being Selby,
second son of Hon. G. W. Allan, of Toronto,
and the other Donald Walker, son of the Hon.
D. McInnes, of Hamilton. Hon. G. W. Allan
has a summer residence, "Strath Allan," near
Aurora, where the young men had been for
a couple of weeks. On Friday afternoon last
they left Strath Allan, which is situated about
five miles from Barrie, on the south shore, for
Big Bay Point in a small row boat, a heavy gale
blowing from the north-west at the time. Yes-
terday nothing had been heard of them, and it
is feared that they have perished. A letter was
received in the city from Mrs. Allan, who is
staying at her summer residence, stating that
they had given up all hope. Large parties
have been searching the shores of the bay, but
the bodies had not been found at a late hour on
Monday night. Mr. Selby Allan was a young
man about nineteen years of age, and had just
passed through Trinity College School, Port
Hope, where he had been studying for several
years past. He had passed the examination
lately held for entrance into the Royal Military
College, Kingston, and intended entering at the
beginning of the next term in September.
Mr. McInnes was also nineteen years of age,
and was a very close friend of Selby Allan. He
was a student of Trinity College, Toronto, where
he had taken honors in French at the last ex-
amination. He was an expert swimmer, and
was one of the team which will play in the in-
ternational match on the 17th inst.

Thomson's Say So.

Mr. T. W. Atkins, Girard, Kan., writes:
"I never hesitate to recommend your Electric
Bitters to my customers, they give entire satis-
faction and are rapidly sold." Thomson's Bitters
are the purest and best medicine known and
will positively cure Kidney and Liver complaints,
purify the blood and regulate the bowels. No
family can afford to be without them. They
will save hundreds of dollars in doctor's bills
every year. Sold at fifty cents a bottle by Tay-
lor & McDonald.

DR. BARNARDO'S HOMES.

The Institution in England—A Branch to
be Established in Peterborough.

A branch of what is known as Dr. Barnardo's
Homes is to be established in Peterborough.
Much good has been done in England by means
of these institutions. The names of some of the
officials are well-known, especially that of the
President, the Rt. Hon. the Earl Cairns. T. J.
Barnardo, M.R.C.S.E., is Honorary Director.
The Homes are preventive institutions for the
rescue, education and industrial training of
orphans and destitute children. There are
about 600 girls in these Homes and 680 boys.
The principal boys' home is in Stepney Cause-
way, London, Eng., and there is also a home
for youths, those of a more advanced age, in
London. Near Gorey, in the Island of Jersey,
a little boys' home is established, the inmates
of which are kept there until nine or ten years of
age, when they are drafted into the Boys' Home
at Stepney. The homes for orphan, neglected
and destitute girls are at Barking Side, Ilford,
Essex, where they are reared in small groups
as like a family group as possible, each group
having a separate cottage with a "mother" in
charge. Thirty of these cottages have been
erected.

A branch of these homes has been established
in Toronto, and about 70 boys were brought to
it from England this spring in charge of the
Rev. F. Fielder. Several in Peterborough have
for some time taken a deep interest in these in-
stitutions. This summer Mr. George A. Cox
visited the Toronto establishment, and the Rev.
Mr. Fielder paid a visit to Peterborough. The
result of Mr. Cox's observations was that he
offered to give a house and land for the estab-
lishment of a branch home in Peterborough, and
his generous offer was accepted.

The home in Peterborough will be for desti-
tute and orphan female children, the home in
Toronto being reserved for the boys. The Peter-
borough establishment will not be solely a dis-
tributing home, as destitute children of this
vicinity will also be admitted and cared for.
The children will be taught the common
branches of education, and trained so that they
will be capable of filling places as good servants,
if they do not find good homes by adoption.
Miss Millie B. Sanderson, who has had ex-
perience in teaching, will have charge of the
Home, and with this view she has gone to Eng-
land to study the methods of training adopted
in the English homes. It is proposed to have a
committee of ladies, composed of one or two
from each church in the town, as an advisory
committee to assist Miss Sanderson. Mrs. Geo.
A. Cox is taking a deep interest in the matter,
and several other ladies' names have been men-
tioned, all well known for their liberality, who
will probably assist by acting on the committee.
Mr. Cox gave Mr. Fielder the choice of several
houses for the home, and Moira Hall was select-
ed, and this handsome dwelling, which is well
suited for this purpose, with some enlargements
and changes, will be used for this purpose. The
home will be sustained by the general fund for
Dr. Barnardo's Homes, and by donations from
Canadians. The Rev. Mr. Fielder will return
next year, probably in June or July, with 60 or
70 girls for this home, and Miss Sanderson will
return at that time to take charge of it. This
establishment will be of considerable benefit to
the town and province, and as Mr. Cox is taking
great interest in it, it will no doubt be success-
fully instituted, and successful after it has been
established.

On the Model Farm, Ontario.

The province pays \$30,000 a year to maintain
a school for the practical education of farmers.
This institution turns out annually from 200 to
300 well disciplined and splendidly equipped
men to take charge of the most important,
healthy, and altogether honorable pursuit on
earth. We in the states are accustomed to
think if a man is fit for nothing else he can set-
tle down on a farm and get on. We have made
the farm the last refuge of the tramp. They
here are making the farm the first place for the
tired gentleman. And this is right. We must
have one of these institutions in every State in
our Union, a dozen if necessary, to dignify and
make easy and intelligent the office of the farm-
er. The trade of war is out of date, the law-
yer's office is of doubtful calling, for what does
it give to the world in return for its bread? The
doctor's place is hardly desirable for a refined
nature, but the Canadian has decided that the
farmers hold the world on their shoulders, and are
sustaining by them. They have altogether in the
Dominion of North America devoted to the
culture and development of stock and grain.
This Province of Quebec has an institute not
widely unlike that of Guelph, Ont., only on a
much smaller scale. I did not visit this, but am
told that it is conducted entirely by a lady. The
Province pays \$5,000 bounty towards its main-
tenance. As against them we have only little to
show except the school in Michigan. Yet it is
true that we have many institutions that profess
farming. But I fear they do not practice it as
at this model farm. Of course I cannot enter
into detail or attempt to digest the big book
making up their annual report on this place.
But I may say as a cardinal idea they seek to be
not only practical; severely so; to keep the feet
of the students set down firmly on the hard
earth. They ignore Greek and all such nonsense
and try to teach common sense. Yet no
ignorance is admitted there by a great deal.
Each applicant must be at least 16 years old,
must be of sound morals and good health and
pass a heavy severe matriculation, if not a
graduate of the many high schools in the
country. —Joseph Miller.

Bookman's Arrian's Salvo.

Corner Harvey and McDonnell Streets.

Daily Evening Review

WEDNESDAY, AUGUST 8, 1883.

POLICE COURT.

DRUNK.

WEDNESDAY, August 8.—Thos. McCutcheon was charged with having been found drunk in a public place. He did not deny the charge, but pleaded earnestly to be allowed to go, urging that this was his first appearance before the present Police Magistrate. Upon promising to leave the town he was discharged.

THE MARKET BY LAW.

John Craig was charged by Market Inspector Beavis with having violated By-law No. 484 by buying a load of potatoes on the market on Saturday before eleven o'clock. He pleaded not guilty.

The evidence of Mr. Beavis, Mr. A. Davidson who owned the potatoes, and Mr. Craig was taken, and he was found guilty and fined \$5 and costs, the Magistrate holding that a dealer should not ask a farmer on the market what he was asking for his produce, before the proper time, as that was "bargaining" within the meaning of the By-law.

THE CELLS.

One prisoner, arrested for drunkenness, was the solitary occupant of the police cells last night.

Contract Awarded.

Mr. Patrick J. McNamara has been awarded the contract for building the new Separate School house on Lake street.

Is Your Watch Clean?

Watches that are continually stopping and getting out of order, can be properly repaired by leaving them at Hughan's Shop, office lately occupied by E. Burnham, Simcoe street.

Licenses.

The following have been chosen by the committee on the team to defend the Championship on the 16th:—W. Rudkins, J. Reynolds, C. Kutherford, J. Sheehy, A. Yelland, M. Halpin, M. Tierney, Geo. Giroux, and R. H. Fortye. The other three, to complete the twelve, will be chosen on Saturday by the nine already chosen.

Notes of Coming Exhibitions.

The Provincial, at Guelph, Sept. 24 to 29th. Dominion, at St. John N.B., Oct. 2nd to 5th. Industrial, at Toronto, Sept. 11th to 22nd. West Peterborough, at Peterborough, Oct. 2nd and 3rd. East Peterborough, at Warran, Oct. 2nd and 3rd. East Durham, at Millbrook, Oct. 4th and 5th. Township of Otonabee, at Keene, October 12th.

No Meeting.

There was no meeting of the Board of Education on Tuesday evening, as it was understood at the special meeting that all the business was attended to, but as there was no resolution to instruct the Secretary, he issued the usual notices for a regular meeting. Only two members were present at 8 o'clock, but the Chairman and Secretary said that there was no business to transact if there had been a quorum.

Railway Notes.

From the Guide we learn that some fifty persons assembled at the Queen's Hotel, Port Hope, on Monday evening, to do honor to Mr. John Atkinson, the retiring Superintendent of the Midland Division of the Midland Railway of Canada, who has received an appointment on the C. P. R. at Winnipeg. The chair was occupied by His Worship Mayor Hugel. After the usual toasts had been honored and responded to, the party broke up about 11 o'clock, all well pleased with the evening's enjoyment.

I. O. G. T.

The officers of Friendship Lodge No. 146, I. O. G. T., were installed at the regular meeting on Monday evening by Bro. James Stratton, Lodge Deputy. The officers for the present quarter are as follows:—

Bro. T. G. Gillespie	W. C. T.
Sister S. Mowry	W. V. T.
Bro. T. Clitheroe	Secretary
" H. Nesbitt	Treasurer
Rev. Bro. J. Shaw	Chaplain
Bro. W. Paterson	Marshal
Sister Fannie Hamilton	Dep. Mar.
" Ipea Mowry	M. H. S.
" Lizzie Hamilton	L. H. S.
" Lumsden	I. O.
Bro. Giffy	O. G.

Methodist Excursion.

In the annual excursion of the Sunday School of the Charlotte Street Methodist Church to the Summit on Tuesday was well attended. The party left the station here at 9.30 o'clock a.m., and after a quick and pleasant run arrived at the picnic ground. There a very pleasant day was spent, the amusement consisting of the games usually played on such occasions. The dinner was a first-class one, and ice cream &c., was to be had on the grounds. A game of base ball between sides composed of married and single men was very interesting, but the Benedicts were more than a match for the young men, and won the game by an innings and four runs. The excursionists arrived home at a few minutes before six o'clock.

A Treat.

Ben's Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

Civic Holiday Picnic.

The picnic under the auspices of St. Peter's congregation in Capt. Wallis' Grove on the Civic Holiday promises to be a successful affair. All should make it a point to be there, and we have no doubt all will be well pleased.

In the Court House Park.

Again on Tuesday night the Fire Brigade Band gave an open air rehearsal in the Court House Park, and a very large number of citizens were present. The music was excellent, the evening was pleasant and the concert was thoroughly enjoyed.

The Weather.

The weather to-day has been beautiful. The weather probabilities for this district, for the twenty-four hours counting from one o'clock this morning, as issued by the Toronto Observatory, are as follows:—Light to moderate variable winds; fine, warm weather.

Personal.

Dr. Bell is at Ottawa attending the meeting of the Grand Lodge I. O. O. F., as a representative of Otonabee Lodge.

Among those registered at the Oriental Hotel are Mr. E. H. D. Hall, of Moosejaw, N.W.T., and Mr. J. Davis Barnett, Mechanical Superintendent of the Midland Railway, Port Hope.

"Nar-West" Cider.

The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.

Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calcott, manufacturer.

Baptist Excursion.

The annual Sunday School excursion of the Baptist Church was held on Tuesday over the Grand Junction to Hastings. The picnic was held in that favorite grove owned by Mr. Johnston. At the grove a very pleasant day was spent, the excursionists indulging in swinging, boating, playing ball, and various amusements. The river being so close to this grove makes it still better for picnic purposes. The weather during the day was most favorable, and a well satisfied party returned at about 8 o'clock.

Private School for Boys.

As will be seen by reference to an advertisement in another column, a private school for boys has been established in Ashburnham, to be conducted by the Rev. E. C. Wilson and the Rev. W. C. Bradshaw. Boarding and day pupils will be received. The Michaelmas term begins on September 13th. The pupils will be thoroughly taught in English, classics, mathematics, French, German, &c., and there will be classes for evening pupils. This school, with its able conductors, will no doubt become a popular institution.

Promenade Concert.

The Fire Brigade Band will give a promenade concert in the drill shed on the evening of Monday, the 13th of August. A choice selection of music will be prepared for the occasion. The proceeds are to be applied towards defraying the expenses of the band in attending the competition at Chatham on the 16th. The expenses of the band in attending this competition will not be less than \$300; the railway fare alone amounting to \$152, and as the proceeds of the concert will not reach that amount, any person who feels disposed to assist the band in paying their expenses may do so by consulting bandmaster Miller. The band continues to practice every evening.

New Temperance Society.

A branch of the Church of England Temperance Society was organized at a meeting held in St. John's Church on Monday evening. Sixteen or eighteen persons united with the society at the meeting, and it bids fair to become a prosperous institution. The Rev. J. W. R. Beck, Rector of St. John's Church, was elected President, Mr. I. Robinson was elected Vice-President and Mr. C. Maurice, Secretary-Treasurer. The basis of the society is set forth as follows:—"Union and co-operation, on perfectly equal terms, between those who moderately use and those who totally abstain from alcoholic drinks, in endeavoring to promote its objects. The distinct recognition that intemperance is a sin, so all efforts to remove it shall be made in dependence on Him who is the one Saviour from sin." There are four different pledges which may be taken by the members, and they are so framed that those who drink moderately and the total abstainers may unite to check intemperance. All members and adherents of the Church of England over twelve years of age, of either sex, are eligible for membership. This society has proved very successful in England, and it will doubtless do so here.

Personal: To Men Only.

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Hotting Piles—Symptoms and Cure.

The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, some so it pin-worms were crawling above the parts affected. If allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for Tetter, Itch, Salt Rheum, Scald Head, Erysipelas, Barbers' Itch, Boils, all sorts of crusty Skin Diseases. Sent by mail for 50 cents; 1 box, 1.25, (in stamps). Address, DR. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

CARD OF THANKS.

AT THE REGULAR MEETING of the Peterborough Fire Brigade, held on Tuesday evening, August 7th, a motion was passed instructing me to tender the thanks of the Fire Brigade to the citizens who so generously assisted them in celebrating our National Holiday.

J. D. CRAIG,
Secretary of Brigade.

Drowning Accident.

On Saturday night while the steamer Alexandra was lying at Hepburn's dock, Picton, one of the deck hands, a young Englishman who is only three weeks married, missed his footing and backed out of the boat into the water with the good bagrow in his hands and was drowned. His body was pulled out quickly, but life was extinct. It is supposed the barrow struck him on the head. His wife is living at Montreal. This is the second accident that has occurred at this dock within a year.

That DOLAN & CO'S Hot Weather Suits afford the wearer comfort, ease and a good appearance.
That DOLAN & CO'S Hot Weather Suits are sold for prices a way underneath.

GENTLEMEN: The facts are above, square yourselves by said facts.

T. DOLAN & Co.
Hot Weather Clothiers.

TO BE SOLD

Unless previously disposed of by private contract, that well-known property called

OAK ORCHARD

Situate between Buckhorn and Pigeon Lakes, will be offered for sale by Public Auction, in the Town of Peterborough, on the

Sixth day of September Next

There are about 85 acres of good land, forty of which are cleared, two acres young orchard, together with commodious house, recently built, good cellars, dining room, library and study, kitchen, butler's pantry on the ground floor, five bedrooms over. A man's house adjoining, containing parlour, kitchen and two bedrooms. There are also driving and wood sheds, stabling for 4 horses, coach house, ice, boat, hen houses, &c. The property is well fenced on all sides. For a sportsman perhaps no more desirable residence could be found, combining a comfortable home with excellent fishing, shooting and hunting in the immediate vicinity. With small outlay, the buildings could be extended so as to form a good hotel or for other purposes. For further particulars apply to JOHN E. BELCHER, County Engineer, Peterboro. 3832-9432

J. HACKETT'S.

Daily Evening Review

THURSDAY, AUGUST 9, 1888.

COMPLIMENTARY SUPPER.

Mr. Thos. Munro Entertained on the Eve of his Departure from Peterborough.

On Wednesday evening Mr. Thos. Munro, late of the firm of Munro & Alexander, was entertained at a complimentary supper at Chamberlain's Restaurant by a number of his friends. Mr. Munro, who has been engaged in business here for some years, is about to depart for Belleville, where he will, in connection with Mr. Smeaton, establish a dry goods house. He was not, however, allowed to depart without a mark of the esteem in which he was held in Peterborough, both on account of his social qualities and his courteous manner and upright dealings in business.

There were about fifty persons present, and the bill of fare was an excellent one and did credit to Mr. Chamberlain's ability to cater to the requirements of such an occasion. After the viands had been disposed of in sufficient quantities to suit those present, Mr. Thos. Munro took the chair. On his right hand was the guest of the evening, and Mr. R. E. Wood occupied the vice-chair.

A letter of regret, on account of not being able to be present, was read from Mr. Chas. Cameron. The usual loyal toasts were then duly honored, and the "Army, Navy and Volunteers," was responded to by Mr. J. R. Stratton and Mr. Bell, of Smith. Mr. D. Galletly sang "The Battle of the Baltic." The Governor-General and Lieutenant-Governor was followed by a song by Mr. John Armstrong. "Our Guest" was proposed in fitting terms by the Chairman, and Mr. Munro replied in a most speech, expressing regret because he was about to leave Peterborough, a town with which he had been well pleased. The Vice-Chairman proposed the "Mayor and Corporation of the Town of Peterborough," to which the Acting Mayor, Mr. Meunier, and Councilors Davidson and Peterson, and Mr. John Alfred responded. "Trade and Commerce" was the next toast. After brief responses by Messrs. Alexander, R. B. McKee, G. Fitzgerald and J. McKee, Mr. Smeaton replied in a most speech. "The Learned Profession" was responded to by Mr. R. E. Wood, and "The Ladies" brought Messrs. Stothart, Hill and Graham to their feet. Mr. Galletly sang "The Laird of Cockpen." Messrs. J. R. Stratton and F. R. Yokome returned thanks for the reception of the toast of "The Press," and to the toast of "The New Firm," which was enthusiastically received, Messrs. Munro and Smeaton responded in appropriate terms. "The Chairman" was also proposed and honored, and replied to by Mr. Meunier, following by a song, "Scotland Yet," by Mr. Galletly. "Our Host" was heartily received and the song "John Barleycorn" was given.

All the speakers during the evening, and in fact all present, expressed deep regret because Mr. Munro was about to sever his business with Peterborough, and the evening, whether it will be the last which he will spend with so many Peterborough friends collected together or not, will no doubt be long remembered by him, as it will by all who had the honor of being present.

The police calls were entirely empty last night, and there was a blank record at the Police Court this morning.

RAT PORTAGE INVASION

MR. MOWAT'S FRIENDS COMMITTED FOR TRIAL AT THE ASSIZES.

A BRUCE OF THE WORST ROWDIES—A Mowat Meeting Ends With Three Groans for the Attorney General.

The Mail contains the following from its own correspondent:—
WINNIPEG, Aug. 8.—O'Brien the Shagger and Macdonald, both Mowat's specials at Rat Portage, were committed for trial at the October assizes this morning.

A PAIR OF ROWDIES.
The evidence shows that they are a pair of rowdies of the worst sort. The trial of the other rough will be probably ended tomorrow.

BRIGADE MEETING FIZZLES OUT.

RAT PORTAGE, Man., Aug. 8.—The Mowat organization got a public meeting this evening in the Ontario Court-house to consider the forming of a municipality under Ontario statute on eight hours' notice. Out of three hundred people, notwithstanding the wires were pulled by Patullo and Burden, thirty resident freeholders or householders would not support the object of the meeting. A motion to adjourn was necessitated by two to one, but the meeting was declared adjourned by the chairman appointed by Mowat's Stipendiary Magistrate Lyon, the statutes giving him that power.

Intense excitement prevails among the Mowat officials, since the meeting broke up with three cheers for the Queen and Manitoba, and three groans for Mowat.

DESTRUCTIVE FIRE.

Gilmour's Saw Mill at Hull Totally Destroyed.

OTTAWA, Aug. 8.—To-night the citizens on the street about ten o'clock were startled by seeing the sky in the north-east suddenly becoming red and filled with smoke. A few minutes later the alarming sound of the Hull firebells told that the conflagration was on the Quebec side of the river, and going in the direction of the fire Gilmour's extensive steam saw mill, about a mile down the river from Hull, was seen in a mass of flames. The mill is situated on a point between the river and bay to the north, and is surrounded by large piling grounds, where millions of feet of lumber are piled. The fire was first discovered about 9:45, and a few seconds later covered the whole building. The water supply of the mill was at once brought into requisition, as was also the Hull steam fire engine, and the flames kept from spreading to the lumber piles. All attempts to put the fire out were useless, and all efforts were put forth to confine to the building. By 11 o'clock the roof had fallen in, and the fire began to abate, while the piles were still untouched. The mill is the largest in the vicinity and run entirely by steam, and was rebuilt for the second time a few years ago. The value of the mill, machinery, approaches, etc., burned will be in the neighborhood of \$100,000, and is believed to be covered to a great extent by insurance.

The Annual Drill.

The brigade camp for this district will commence at Cobourg on Tuesday, the 11th of September. The 5th Battalion "Peterborough Rangers" and the Peterborough Troop of Cavalry are ordered to attend.

The Mails.

The mails for Lakeside will for two weeks, during the continuance of the A. C. A. camp at Stony Lake, close at 5:30 a.m. instead of 8 a.m., on account of the earlier departure of the morning train for Lakeside.

Going North.

Large parties from town, besides many persons from a distance, are continually streaming north to the site and vicinity of the American Canoe Association camp at Stony Lake. Dr. Neide, of Schuylerville, N.Y., Secretary of the Association, went north this morning, accompanied by his brother.

"New-West" Cider.

The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.

Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calkins, manufacturer.

Notes of Coming Exhibitions.

The Provincial, at Guelph, Sept. 24 to 29th. Dominion, at St. John N.B., Oct. 2nd to 5th. Industrial, at Toronto, Sept. 11th to 22nd. West Peterborough, at Peterborough, Oct. 2nd and 3rd.

East Peterborough, at Warsaw, Oct. 2nd and 3rd.

East Durham, at Millbrook, Oct. 4th and 5th. Township of Otonabee, at Keene, October 12th.

A Cure for Hydrophobia.

A physician in Jersey City claims that the Woorara drug prepared by South American Indians cures hydrophobia. He corresponded with the Secretary of State, who instructed American consuls in South American ports to forward specimens of the drug.

Blown to Bits.

DETROIT, Aug. 7.—The boiler of a portable engine employed in cutting wood near Osgood, Mich., exploded last night. Three men were killed, being blown to pieces. They were Ben Brand of Saginaw city, Fred O. Willet, and another whose name is not known. Willet and the unknown man are believed to have been from Canada.

The Prince of Wales Delighted.

At the exhibition held by the Royal Agricultural Society at York, the Prince of Wales examined very closely the display made by Canada. His Royal Highness was much interested in the exhibit of the North-West produce. He expressed his delight at Canada's wonderful development, and suggested that the presence of other agriculturists protected him from coming here at present.

MIDNIGHT TELEGRAMS

CABLE.

CETEWAYO STILL LIVING.

LONDON, Aug. 8.—Persistent reports are current that Cetewayo is still alive. The son of the late Bishop Colenso telegraphs that Cetewayo demands an enquiry into his treatment by the Government. The British agent at Marburg discredits the report.

THE FRENCH OUTNUMBERED.
PARIS, Aug. 8.—The Rev. Mr. Robinson, a well known missionary, has given to the Government information which shows that the French are greatly outnumbered at Tamatave, and are anxiously awaiting reinforcements which had been promised before continuing their operations.

THE CHOLERA.

ALEXANDRIA, Aug. 8.—There was 13 deaths from cholera yesterday. The total deaths throughout Egypt during the past twenty-four hours, at officially announced, was 563, of which 78 occurred in Cairo. The disease is increasing here and abating in the interior.

BAD STATE OF AFFAIRS.

LONDON, Aug. 8.—The Cairo native officials are much blamed concerning the condition of the patients in the mad house. They have been in four days, and 32 deaths from cholera have occurred there. The inmates number 220. The English doctors endeavored to remedy the trouble, but even yesterday the place was filthy. Numbers of the bodies of victims are lying beside persons sick of cholera.

CONGRATULATIONS.

VIENNA, Aug. 8.—Six persons, including four officials, will be presented for the part they played in the Jewish trial at Nyregghaza. Louis Kossuth has written a letter congratulating the counsel who defended the Jews.

THE ANNAMITE THRONE.

SAIGON, Annam, Aug. 8.—The Madariats at Hue have refused to recognize Phadon, nominated as successor to the throne by the late King Tudoc, and have proclaimed Vianin king.

COLLISION.

LONDON, Aug. 8.—Two Norwegian barques collided to-day in the English channel, of Dover. One sank, carrying down thirteen of her crew.

Vesuvius.

Vesuvius is again exhibiting symptoms of an outbreak, and the safety of Torre del Greco is threatened. In 1794 the town was submerged in a stream of molten matter, thought to have contained 46,000,000 cubic feet, by which thousands of lives were lost, but the town was quickly rebuilt, and is now a favorite resort from Naples of which it is a suburb.

Another Foolish Freak.

An accident that may prove fatal occurred on Monday about two miles from Arthur at a farm named John Sweeney. It appears his stepson named Dunn and his own daughter were fooling, when Dunn took down a gun which, unknown to him, was loaded with slugs and pointed it at her, when it accidentally went off, the shot lodging in her left side. Her recovery is very doubtful.

The Kaffi King and Queen.

As for the Queen of Kaffi, I was never able to see her, any more than the king. Kaffi is a land of mysteries; no one living there can see the king. When the ministers or grandees of the kingdom desire to consult their monarch, they enter the royal hall walking backward, and clad in skins of wild beasts, until they draw near enough to a great curtain, behind which the king is concealed. If the king wishes to go out he is covered with a great sack and placed upon the oldest horse that can be found. The four greatest dignitaries of the kingdom hold the reins, and a troop of eunuchs, who serve as an escort, drive away all curious people with their whips. There are not many curious people to be driven away, however, for any person who could be convicted of having seen the king, either directly or inadvertently, would be immediately put to death.—Paris Journal.

Sad Drowning Accident.

MONTREAL, Aug. 8.—A terrible catastrophe happened on the St. Lawrence at Yamaska this morning, by which two sons of Mr. Paradis, chief of police here, aged 18 and 20 years respectively, and a child lost their lives by drowning. It appears that Mrs. Lafleur, her three children, and the Paradis went out in two small boats in tow of the steamer Sorel for a fishing excursion, when the skiffs came into collision and upset. The lady came to the surface first and grasped two of her children, whom she sustained above the water by holding on to the upturned boat until she and her children were rescued. The third child was out of its mother's reach with the two young men, and before any assistance arrived all three set with a maddening gasp. Mr. Paradis, a well known student at the Montreal College here, and was on the eve of finishing his collegiate course. They were very promising young fellows, having carried off the highest literary honors last session. Great sympathy is expressed here for the suddenly bereaved parents.

Convincing Proof.

Having suffered from rheumatism for a long time I was induced to try your Anker-Pain-Expeller. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine.

I am yours truly,

W. H. DICKSON,

218 St. Constant St., Montreal.

Anker-Pain-Expeller is sold by all Druggists.

Thousands Say so.

Mr. T. W. Atkins, Girard, Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints, purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by Taylor & McDonald.

Sacklen's Arnica Salve.

The greatest medical wonder in the world. It cures all kinds of skin diseases, Burns, Scalds, Cuts, Wounds, Sore Throat, Sore Eyes, Croup, Whooping Cough, Cholera, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

Reliability and Quantity of our Triumphant Pain-Expeller "test the world." If you never used it before, do so now and be convinced. 10c.

Daily Evening Review

THURSDAY, AUGUST 9, 1883.

The Hamilton Spectator has the following remarks, which though severe are unfortunately too fully justified by past events:

"When Mr. Young entered the Ontario Cabinet announcement was made that he would have control of the license. We are now told that this is not to be the case—that Mr. Hardy will continue to manage that business. The trouble is that Mr. Young is a temperance man, and desires to manage the license honestly and in the interests of true temperance. But that does not suit the party of purity. The licensees are to be used as instruments of political corruption, and of course Mr. Hardy is the fit man to use them as such."

Several Reform journals, because we protested against the phraseology of the *Mail* as apparently casting a doubt upon our "ownership" of the disputed territory, are classing the Review among the supporters of Mr. Mowat's administration in its present lawless proceedings. This is of course painful, but the *mens sibi conscia recti* must be our consolation in an inconvenience arising from doing that we considered our duty. We may say briefly that we disapprove of Mr. Mowat's culpable inaction for years in not pressing Ontario's lawful claims in the courts, and for advocating a charge of boundary which probably deprives us of territory rightfully ours. We still more strongly disapprove of his forcible seizure of a portion of this territory, thus stirring up civil strife and placing the Province in the false position of a lawless bully instead of a claimant with a just title that the courts would enforce.

The Montreal Witness, with its high professional standard, is above manifesting such untruthfulness or ignorance, whichever it is, as it displays in the following words:

"Yet the *Gazette* published the Hon. Mr. Mowat's speech in which he asserted that, he and the Hon. Mr. Masson refused to accept of any award, unless the condition that the award should not be ratified. Mr. Masson has denied that he made any such condition before entering the Cabinet, but if the *Gazette* means that the statement of its friend Mr. Mowat's is to be taken as true, it should say so plainly."

The Witness should know that Mr. Mowat did not assert that he refused office except upon those conditions, but that he suggested such a course to Mr. Masson, who did not adopt it. It should also know that Mr. Mowat did not enter the Cabinet till two years later, when he knew that Parliament, acting within its statutory rights, would not ratify the award, and that any such condition would therefore be unnecessary.

THE PARTY OF PURITY.

The *Globe* has the effrontery to say:—
"We hope that the remarks of Justice Cameron and Patterson will have the effect of directing attention to the real cause of the failure of the Liberal members, namely, the party of purity, which the contents have been on their side carried on."

The remarks of Mr. Justice Cameron rather go to show that Mr. Justice Oiler are not quite in accord with some of their brethren of the Bench in their view that a few cases of corrupt practices should not "affect the result." If they are wrong and the other judges are right in their interpretation, it is evident that the Mowat administration has so amended the law as to facilitate corruption, if the candidate will take care to keep his eyes shut. The petitions against Reformers that have been heard in whole or in part, far from proving the purity of the party show in every case corruption, and influence or interference by chartered public companies, the only points in doubt being the agency of the offenders, and whether the irregular practices were sufficiently numerous to affect the result. As these cases, or at least some of them will come before the Court of Appeal, we defer any further comments.

CANOEING.

This fact that the annual meeting and camp of the American Canoe Association is being held at Stony Lake this year is one well worthy of notice. The A. C. A. is American in a wide sense, its membership extending over the United States and Canada. It is no trifling advantage, no more incident in a favorite athletic exercise, that wherever from far and wide will have the opportunity of forming some idea of at least a portion of the noble chain of waters of which we are so proud. Those who once have seen them will be very likely to repeat their visit, and to bring friends with them. They will also be able to form a more adequate conception of the capabilities of our waters, both for affording a valuable means of communication, in comparison with which the Erie Canal would sink into insignificance, and also for supplying the motive power for the factories, which must in the future have their location in this neighborhood.

As to the canoeing itself, there is everything in its favor; it is a healthy and innocent pastime, affording alike welcome recreation to the over-worked mental faculties, and that physical exercise and training that is so conducive to health. There is a fitness in this locality being for the time the central point for lovers of the paddle throughout Northern America, for this has long been a centre of canoeing, and is the very birthplace of that form of canoe which may be excused for ranking as the best of the many varieties in vogue. One of the incidental advantages of the camp being located here is that the enthusiastic paddlers and keen judges of canoes will have an opportunity of seeing on the spot what our canoe builders here can turn out.

We trust that the camp will be a success, and especially that our visitors from the States will be so well satisfied with their reception as to feel that they made no mistake when they chose a Peterborough canoe for their chief office, and our waters for their place of meeting.

Borden's Acid Phosphate

gives strength where there has been exhaustion and vigor in place of impaired vitality.

FRANCE CHARGE OF WAR.

He is interviewed by a Halifax Reporter—A Royal Reply.

The Prince is of slight build, about five feet two inches in height, of light complexion and very boyish and bashful appearance. His hair is light, his eyes bluish gray, and his complexion is much more like that of his mother than his father. He is not at all very strong or robust. A few minutes after the Prince came to anchor last night the Prince was engaged reading a number of letters that awaited his arrival, among which was one or more from his parents, which he read apparently with the greatest delight. Indeed, he had a cabinet photograph of his father, the Prince of Wales. George was exceedingly pleased with this, and exhibited it to his companions with boyish pride and joy. During the evening the Prince went on duty and performed his watch.

"You have had a pleasant voyage?" remarked the *Halifax Herald*.

"Very pleasant," replied His Royal Highness.

"How do you like a sailor's life?"

"Splendidly."

"Have you any idea how long you will stay here?"

"No. But I shall, of course, stay as long as the ship stays. How long that will be I cannot tell you."

"Will your father, the Prince of Wales, come to Canada on the occasion of the meeting of the British Association in Montreal?"

"Really, I don't know. I never heard him say anything about it."

"Will you take a trip through Canada while on this station—visit the Marquis of Lorne and Princess Louise at Ottawa?"

"That will depend on the movements of the ship, and on whether I will be able to get leave of absence. I have not made any arrangements yet."

"Yes, we like the Prince very well," said one of the officers. "He conducts himself just like one of ourselves. Oh, no, he is not stuck up at all. He is treated by all on board just like any other midship. Nobody makes any difference because he happens to be the Prince of Wales' son. And he does not act any differently himself. He is pretty lively, and enjoys a lark as well as any of us. He takes his turn at the watch and does his duty as well as can be expected. But I don't think he cares much about his work; not any more than any other boy of his age does, of course, he only a boy yet, and has not entered upon his career seriously. He was taken on the arm while he was on the beach. He gets on well with the officers and is pretty well liked by the men. Oh, no, we don't make any fuss over him when entering a port, nor is he paid by honors. He is not sailing in his capacity or position as prince but as a midship. A number of officers eagerly inquired the news and were much surprised to learn of the unexpected murder of Carey, the informer."

FRANCE AND SIAM.

Efforts of the French to Obtain a Permanent Footing in that Country.

A correspondent of the *Daily News* writes:—

"During the latter part of May the French made a curious attempt to gain a more decided footing in Siam than they have yet possessed. The peaceful little government of that country, which, we may mention, is a devoted friend and ally of England—having been pressed to allow telegraph wires to pass over its territory, connecting Saigon on the one hand, and British Harbours on the other, with Bangkok, very naturally added to the conclusion that the employment of a French engineer or two, and a couple of French clerks would be beneficial for the purpose of the Bangkok-Saigon branch. Accordingly, a couple of Siamese commissioners were despatched to Saigon to engage such officials. Imagine the astonishment of the Siamese, when, shortly afterwards, there steamed up the Bangkok river a French gunboat, loaded with the brigadier general commanding at Saigon, a brilliant military suite and a naval commander of high rank. The reason of such a visit was, however, quickly apparent. The French dignitaries had brought with them a couple of commissioners, who had been foolishly concluded by the Siamese commissioners, and which practically, although not ostensibly, handed over the control of the Bangkok-Saigon line to the French. In vain the Siamese protested that their commissioners had no right to enter into any such convention, and that, in fact, the employment of engineers and telegraph clerks at a maximum of £40 a month apiece was not sufficient ground for a State convention. The French insisted upon one at least of the papers being signed, and only left the other on the understanding that it should receive full consideration. French engineers and clerks, whose salaries are guaranteed by the French Government, therefore, now are at Bangkok, and, though the line remains nominally Siamese, as change in the personnel of its management can be made without the consent of the French Consul in Siam."

TRAGEDY IN ALASKA.

Bloody Struggle Between White Men and Indians—Murders and Lynching.

VICTORIA, B. C., Aug. 8.—The steamer *Eschka*, which arrived here this morning from the north, brings news of a horrible tragedy at Dahan, Alaska, near Harrisburg, Alaska. Two whiskey sellers named Reane and Martin got drunk, and unaccountably engaged a fight during the night. Reane was sleeping, and Martin, who was a light weight, was killed. The fight was started after the Indians, and in a fight with them Reane was killed. The Indians in force then attacked three of the whites, confining them in the guard house.

During the temporary absence of the guard the Indians procured a pistol, shooting him on his return. They then fled.

The report of the pistol awoke Major Givens, formerly of the United States army, who rushed to the scene, and was shot down wounded. The Indians then took an axe and hacked his head to pieces, when they attempted to make good their escape, but a number of miners who had reached the scene shot one of them down and arrested another. The third escaped. The infuriated citizens constituted themselves a jury and hanged the captured Indian on the spot.

The next day Colonel Barry ordered the Indian chiefs to produce the escaped Indians, and he was quickly delivered and promptly hanged.

Law Breaking.

The Milton Champion, on the authority of the License Inspector of the County of Halton, where the Scott Act is in force, rather gives away the Reformers, who boast so loudly of their temperance principles. It states that there are twenty-six Conservative hotel keepers in that County, and that ten of these have been fined for violating the law, while six Reform hotel keepers, who have been fined on the same grounds, which means that, with Reform officials in office, and in spite of their disposition to shield their friends and punish their opponents, when Conservatives go into the business of hotel keeping about two out of three can be "depended on to keep within the law, while when Reformers go into the business, only one out of six can be so depended on. This is rather hard upon the Conservatives.

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Hayfever, Asthma, Catarrh, and Catarrhal diseases, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month longer. By the use of our Inhalant, conveyed to the diseased parts by the Strymon, we have cured thousands of cases of the above named diseases every year. Write, enclosing stamp for list of questions and copy of *International Free*, published monthly, which will give you full information and reliable references. Address, International Throat and Lung Institute, 173 Church Street, Toronto; 13 Phillips Square, Montreal, P. Q.; 81 Lafayette Avenue, Detroit, Mich.; or 106 Alexander Street, Winnipeg, Man.

Dr. Carson's Stomach Bitters free the system of the poison which causes indigestion, biliousness, and urinary diseases, give tone and vigour to the stomach and purify the blood.

Daily Evening Review

THURSDAY, AUGUST 9, 1883.

A Treat.

Best Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

The Weather.

The weather to-day has been warm. The weather probabilities for this district, for the twenty-four hours counting from one o'clock this morning, as issued by the Toronto Observatory, are as follows:—Light to moderate variable winds; fine, warmer weather.

Excursion and Picnic.

The McWilliam's Lodge True Blues have made arrangements for holding their second annual picnic to Idyl-Wild on the Civic Holiday. We understand invitations have been sent to the lodges in Lakeside, Port Hope, Lindsay, and other places to participate, and an enjoyable time may be expected.

The Band.

The band played again in the Court House Park last night, and there was a large attendance. They played several fine selections of music, embracing the competition pieces, and of course rendered them in their usual first-class style. Now that the competition is declared off it is doubtful if we will be favoured with so much good music in the future. The band, however, will give an open air concert to-morrow evening.

The Hand Fire Engines.

The hand fire engines belonging to the town were called in some time ago, and three of them are now in charge of the town officials, but the whereabouts of the fourth is unknown. Any persons who have had charge of this engine at any time should look through any lumber rooms or unoccupied cellars about their premises and see whether it has been stored away.

Civic Holiday Excursion.

On Wednesday, August 15th, the Civic Holiday, an excursion will be run to Eagle Mount, an island adjacent to the American Canoe Association camp. This will be an excellent opportunity for a pleasant outing of the holiday and for paying a visit to Stony Lake, which is now becoming famous on account of the canoe meet. The train will leave the Midland Station at 7 o'clock a. m., and from Lakeside the excursionists will be carried to the camping ground on the steamers Cruiser and Fairy, which will each have coxswains. Only a limited number of tickets will be issued, so that those who attend may thoroughly enjoy the trip. At the grounds hot water will be provided for tea.

A Series of Excursions.

The Peterborough Young Men's Christian Association has made arrangements to run three excursions to Juniper Island (Canoe camp) and Eagle Mount, Stony Lake, on Tuesday, Wednesday and Thursday, the 21st, 22nd and 23rd of August, these being the days of the regatta of the Canoe Association. A splendid view of the Association camp, regatta course, and Stony Lake generally can be had from the summit of Eagle Mount. The train will leave the Midland station at 7 o'clock a. m., connecting with the steamers and their coxswains at Lakeside. Returning, the boats will leave Eagle Mount at 4.30 o'clock p. m., and the train will leave Lakeside on the return at 8 p. m. The fare for the round trip will be \$1, and only a limited number of tickets will be issued each day, so that those who wish to attend should see about them without delay, as those who come first will be first served. The tickets will be good to return on any one of the three days, and may be purchased at the stores of Messrs. A. L. Davis & Co., Ormrod & Walsh, W. W. Johnston, and at the station. Do not miss this opportunity of visiting the camp.

A Sore Disappointment.

A telegram has just been received by bandmaster Miller, from the town of Chatham (the place where the grand band competition was to have taken place), that has had the effect of casting a gloom over the countenance of every individual member of the Fire Brigade Band, as well as being a disappointment to their many friends here. The sum and substance of this unwelcome message is to the effect that the competition is postponed, no other band having entered but Peterborough. The reason, of course, is not explained in the telegram, but particulars are to be sent at once. This is indeed a disappointment to the band and their friends, as they have been practicing steadily for the contest, and were never in better form to do themselves justice, and nobody can tell the trouble they have had in preparing for the event but a bandman. When a man devotes his time, night after night, for a month or six weeks, and then meets with a disappointment like this, it is indeed to be regretted. Of course the competition is likely to take place later on, but that will only necessarily put the men to the bother of again going through a course of practice the same as they have just accomplished. The band are not only willing but anxious to meet any of their old opponents, and were looking forward to this trip with much pleasure. We will publish further particulars when the delay is complete.

ELYTHE MILLS.

Introduction of New and Improved Machinery for the Manufacture of Flour.

Instead of grumbling about the price of wheat being always too high, and milling being a ruined business, Mr. George Hilliard, M. P., set himself to work to find out how it was that he could not buy and grind wheat and make something out of the operation, as well as some others were evidently doing, inasmuch as no man can or will long continue as a business in which the balance is always on the wrong side.

The investigations thus brought about were not long in convincing Mr. Hilliard that the old system of grinding could not compete with the new roller process, which has recently been introduced into Canada, either in the quantity or quality of flour producible from a bushel of wheat. He accordingly determined to have his mill refitted with the latest and most improved machinery for making flour by the roller or gradual reduction process, and to this end entered into a contract with the Consolidated Purifier Company, of Toronto, who have secured control of all the most recent improvements in the flour line, for the refitting of his mill, and this contract has just been completed, and the new system put into operation by that company.

As a result of this change three of the four run of stones recently contained in the Elythe mill (the fourth being retained for chopping purposes only) have been discarded, and in their stead there has been introduced six sets of brakes, three purifiers, a bran roll, and a germ roll, which gives a capacity of one hundred barrels per twenty-four hours. As most of our readers, no doubt, are aware the great difference which exists between the old and new processes is that while by the former the grinding is all done at one, or at most at two operations, by the latter it is accomplished only after from four to five separate grindings. While any attempt at a detailed description of all the operations involved and machinery required in this process, from the time the wheat leaves the bin until it is ready for market, would be tedious to the general reader, yet we think a brief description of how the best, or patent flour is obtained will at once be interesting and give the ordinary reader some idea of the new process. The wheat, after being cleaned as formerly, is passed through three successive brakes, or sets of chilled iron rollers, each crushing the grain finer than its predecessor. As the crushed grain or meal leaves each of these brakes it passes over perforated zinc which allows all that has been reduced to a certain stage of fineness to pass through and be conveyed to a real covered with fine bolting cloth. In this way there is gradually separated from the whole product of the wheat the best part of it, with the least possible quantity of bran, before it enters the real we have just mentioned, and in passing through which there is separated that portion which has been over-ground or killed. From this real meal is passed through a purifier, from whence it passes through a brake with stone rollers and in which it receives its final grinding, and passes to the bolts, where it is bolted as in the old process, and the "Patent" flour is ready for the market. From this brief statement of the modes of operation any one in any measure familiar with flouring operations will at once see that the patent article can hardly fail to be the very best that the wheat can produce, owing to the system of "creaming" which has been adopted in its production. But were we to stop here many might be disposed to think that the improved quality had been obtained at a too great sacrifice of quantity. In this, however, they would be mistaken. Of course the bran, or rather meal, which has not fallen through the perforated zinc over which it has passed after leaving the first three brakes still contains a good deal of flour. This, however, is conveyed from the last brake to the "bran roll," which separates the pure bran (and those who buy it for feed will think it pure enough) from the rest which is then passed through a purifier, and a stone roller brake, then through a set of bolts which extract therefrom a second quality of flour, while that which still remains has the same process of purifying, grinding and bolting again repeated to extract from it a third quality of flour. And when all this has been judiciously done it is needless to say that the "remainder" does not contain much which, by itself, will make four footed animals grow fat.

Besides the improvements directly required in connection with the manufacture of patent flour Mr. Hilliard has introduced two new packers which are easily adjusted to the packing of anything from a barrel down to a twenty-five pound paper sack. As the more wheat ground at home the better for all of us, we trust Mr. Hilliard will not only have no reason to ever regret the large outlay which these improvements have necessarily involved, but that they will prove as profitable to himself as their success will undoubtedly prove beneficial to farmers marketing their wheat in Peterborough.

Views of Stony Lake.

As will be seen by his advertisement in another column, stereoscopic views of our lake scenery, taken by Mr. G. B. Sproule, may be obtained at his photographic studio on Hunter street, or at the A.C.A. camp store Stony Lake.

Personal.

The many friends of Mr. J. F. Dennistoun will be glad to learn that he has arrived home after a trip to England and Scotland, much improved in health.

Mr. Thomas Matchett, Treasurer of the County of Victoria, was in town to-day.

Improvements.

In accordance with the instructions given by the County Council, an improvement has been made in the yard in front of the Court House. The sidewalk has been removed from the terrace, and placed below it, leaving a fine green plot, which has been enclosed by a wire fence. The sidewalk approaching the Court House has also been repaired. The work done there adds to the good appearance of the place, as it has been executed with taste.

Excursion to Lakeside.

The annual excursion of the Sunday School of St. Paul's Presbyterian Church on Wednesday afternoon was largely attended. The train consisted of nine coaches, and there were about nine hundred persons on board. The excursion party left the Midland station at one o'clock, and at Lakeside they spent a pleasant day. The Fairy was on hand during the afternoon and many enjoyed a short trip on that steamer. The party returned at about 8 o'clock.

Personal: To Men Only.

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

Do not attempt to remain over night without a bottle of Dr. Fowler's Extract of Wild Strawberry near at hand. This is the season for Bowel Complaints, Colic, Cholera Morbus, etc., and the remedy above named is the unfailing specific.

There is no excuse for suffering from Headache, Constipation and all the wearying train of symptoms of a disordered liver, when Burdock Blood Bitters is an unfailing remedy, and only costs One Dollar a bottle. Why suffer on without a trial? 25,000 bottles sold during the last three months, with almost universal satisfaction.

THEY MUST GO!

GENTLEMEN,—In stenographic tones we state that certain things must go. We beg to offer below a sufficient bill of particulars.

Now, in order to make SUMMER SUITS go, special inducements require to be offered.

The following are said inducements:—

The very Newest Style of Garments.

The Best Cut and Fitting Garments.

The very best Trimmed Garments.

Back the above inducements, gentlemen, back them up with our feather-edge prices, for we never allow anybody to give so good clothing for so little money as we. If you want cool dress, either elegant or economical, come to

T. DOLAN & Co.
Cluxton's Block, Corner of George and Hunter Streets.

A. C. A.

Stereoscopic Views of Stony Lake and other points on our waters may be obtained in great variety at the Camp Store on Juniper Island, Stony Lake, or at my Photographic Studio, where portraits are also taken in the most approved and artistic styles.

INFORMATION FOR IMPORTERS.

To the Editor of the Review.

SIR,—You will confer a favor on merchants who import goods by publishing the following section of the "Act to amend and consolidate the Acts respecting the Customs," passed last session of the Dominion Parliament. 46 Vic., Chap. 12, Section 81, reads:—"Except only in cases where it is otherwise provided herein, or by regulation of the Governor-in-Council, no entry shall be deemed perfect unless a sufficient invoice of the goods to be entered, duly certified in writing thereon as correct by the person, firm and corporation from whom the goods were purchased, has been produced to the collector and duly attested, as required by this Act."

SIR,—You will confer a favor on merchants who import goods by publishing the following section of the "Act to amend and consolidate the Acts respecting the Customs," passed last session of the Dominion Parliament. 46 Vic., Chap. 12, Section 81, reads:—"Except only in cases where it is otherwise provided herein, or by regulation of the Governor-in-Council, no entry shall be deemed perfect unless a sufficient invoice of the goods to be entered, duly certified in writing thereon as correct by the person, firm and corporation from whom the goods were purchased, has been produced to the collector and duly attested, as required by this Act."

"Any oath required under the provision of this Act connected with the entry of goods may be made in Canada before the Collector, sub-Collector, Surveyor or Chief Clerk at the port where the goods are entered, or if the person making such oath is not resident there, then before the Collector or proper officer of some other port, and when such oath is required to be made out of the limits of Canada, it may be made at any place within the United Kingdom or any place in Her Majesty's possession abroad, before the Collector or before the Mayor or other chief municipal officer of the place where the goods are shipped, or before a Notary Public, and any other place before a British Consul, or if there be no British Consul, then before a foreign Consul at such place."

The conditions of these two sections are now obligatory making an entry for duties on goods imported.

Yours, &c.,

J. STRATTON.

Collector Customs.

Peterborough, Aug. 10, 1883.

WHO CAN GET WATER?

To the Editor of the Review.

SIR,—On Thursday morning I saw the watering cart man fill his cart at the hydrant near Yelland's, detach his hose and start off down street. Just then a certain councillor came along with three barrels on a wagon. He stopped the watering cart and at his request the driver filled the barrels from the cart. Now, is it fair that any councillor should do as described, while I, a ratepayer, who contributed over \$300 to the town last year, cannot get the street in front of my premises watered half the time, although I pay a heavy water rate?

Yours truly,

NUMBER TWO WARD.

Peterborough, Aug. 10th, 1883.

The Hon. James Cockburn.

OTTAWA, Aug. 8.—The Hon. James Cockburn has been gradually sinking for the past few weeks. A few days ago he grew so much worse that his medical attendant, Dr. Grant, expressed the opinion last night that his life was only now the matter of a day or two at least. He has been in much the same condition to-day.

Backen's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancers, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

A WHITE ELEPHANT'S PALACE.

The Gorgeous Surroundings of His Burmese Majesty.

We moved several hundred yards away to the left, followed by several curious Burmese soldiers and police officials, and stopped in front of a huge dark building, at the large open doorway of which paced half a dozen sentinels. Signor Andreino whispered that this was the white elephant's palace. At last! Here I was, then, on the very threshold of an edifice containing one of the most famous animals in the world—a beast so remarkable that sober-minded occidentals did not credit its existence. Andreino spoke to the captain of the guard, tipped him lightly some bucksheesh, and he motioned us in silence to enter. I now found myself in a large and lofty hall. The roof was elaborately carved teak, and the floor consisted of hard-pressed earth. On the walls were hung green, yellow, white and blue standards, golden shields and gigantic basins and vessels of a thousand fantastic shapes. In one corner stood a pile of yellow umbrellas, each of which stood over twenty feet high. Their great thick sticks or rather poles, might have been solid gold, but I believe they were only covered with gilded paper, as otherwise none of the umbrellas could have been lifted. Here and there upon the floor gold and silver vessels were strewn in careless profusion. "Here stands the lord and owner of all this magnificence," said Signor Andreino, as he pointed to the centre of the floor. The white elephant! There he stood, chained heavily to stakes planted in the ground. Was he all my fancy painted? By no means. The great sacred white elephant was a slaty-colored, wicked-looking brute. Without a patch of that snowy whiteness which I had associated with him as much as the Doe of Rylstone, his trunk, with which he was vigorously tossing bundles of hay over his back, was mottled with flesh-colored leprous-looking spots; his eyes were small, slaty grey, and abate with suppressed fire, his ears were mottled in the same curious way as his trunk, and his body, as I have said, was a dark slaty grey. A Burmese, stripped to the waist, was vigorously rubbing the great brute's hide with something that looked like a brick. Could it be possible? He was actually pumice-stoning his sacred majesty! I have no doubt whatsoever that pumice-stoning has produced that slaty color, and I should not wonder if the whole hide by this time is not much thicker than a dime.—Philadelphia Times.

HASTINGS.

A SLIGHT PICNIC.—The Star says that a slight picnic occurred in the Coughlin House on Monday night by the explosion of a coal oil lamp. The landlord's coat and a bed quilt were sacrificed in quenching the flames.

A NARROW ESCAPE.—Mrs. James Fife had a narrow escape from serious injuries on Friday last. In company with her niece, Miss Sweet, of Trenton, they were driving out of town, when on turning the corner of Front and Victoria streets the buggy upset, throwing the occupants out on the road. Miss Sweet escaped with a bruise or two, but Mrs. Fife received a few ugly scratches on the face. After the buggy was righted they pluckily continued the drive.

THE BRIDGE.—Among the many improvements now being made in the village, that of repairing the bridge, now complete, under the superintendence of Mr. Chas. Wynn, deserves notice. It is the general remark of the people who have been accustomed to see the rickety and mis-shapen affair which spanned our river to wonder what has been done to make it look so ship-shape. Its old back has been straightened, the boarding and plankings renewed, and a railled walk made on the west side, in fact, taken altogether, we feel as though the counties had presented us with a new bridge. If we could now prevail upon the village council to continue the sidewalk outside the bridge which spans the mill race, from the locks to Front street we could be happy.

PORT HOPE.

DID HE COME OUT?—What kind of girls have they got in Port Hope, anyway? The Guide says:—"An old proverb about 'whistling girls,' &c., was forcibly brought to the mind of a Guide reporter, on Sunday night last, while passing through the west end of the town about nine o'clock, to see a young lady standing on a corner whistling for her beau to come out."

TRIAL OF WATERWORKS.—The Guide says that a trial of Mr. Beamish's waterworks was made on Tuesday evening by the Extinguisher Hose Company, and proved in every way satisfactory. Two streams were thrown at once, one with an inch and the other with an inch and a half nozzle. When both were on together water was thrown over the mill by the small nozzle; with the inch nozzle alone the water was elevated to a height of one hundred and fifty feet or more. Messrs. Beamish and Craig and the property in that vicinity are amply protected. It would pay Messrs. Ambrose & Winslow to extend these works to protect their new brewery premises.

Not Afraid to Criticise.

The Toronto World, so well known as a very independent journal, though of Reform tendencies, has the following remarks as to the Review:—

"The Peterborough Review, a Conservative journal, is not afraid to criticise the acts of its party and the party organs. It condemned the Mail for its attitude on the boundary dispute, and now it passes its 'strongest condemnation' on the appointment of Chapleau, the dismissed secretary of the Public Works Department, to a shrewdly in the Northwest. But the Review justly complains of the Reform journals which have been trying to make too much out of the REVIEW's candor and outspokenness. As for the appointment of Chapleau the Reformers cannot say much; their leaders at Ottawa were in negotiation with this same Chapleau all last season in bringing him and some of his friends over to the Liberal side. He is the man who threatened to sue the World for publishing him as one of the parties who stole the John Macdonnell-Tupper correspondence from the Public Works Department and turned it over to the Globe."

Canadian Victory.

In a race on Tuesday for the "Flaber" cups at Chicago, the Atlanta, a yacht built at Belleville, and sailed by Canadians, defeated her opponent, the Gora, by 8 m. 45 sec. The Gora's correspondent says:—"No canoeist I had the judges handed in their report than their services were enlisted for a third match to be sailed on Saturday next. So determined are the amateur canoeists here that the 'Flaber' cups shall not go to Toronto that you must not be surprised if you should hear, on the Atlanta's winning it again (as is generally expected), that she has been bought by Chicago yachtsmen."

MIDNIGHT TELEGRAMS

CABLES.

THE NEW KING OF ANNAM.

PARIS, Aug. 9.—Vinalan, who has been proclaimed King of Annam, is considered the nominee of the war party.

CHINA'S GAME.

PARIS, Aug. 9.—There are no Chinese troops either in Tonquin or one the frontier, but the garrisons in the provinces of Yunnan and Kwang-Si have been secretly increased. Much grain and rice is being stored at Canton. The impression prevails that China is playing a waiting game, which is costing the French much and the Chinese little.

ANTI-JEWISH RIOTS.

VIENNA, Aug. 9.—The riotous demonstrations against the family of Joseph Schaeff, the witnesses in the Jewish trial at Nyergghaza, were renewed in Pesth yesterday. The house in which the family were staying was wrecked, and a number of Jewish shops in the vicinity plundered. The police were powerless to restrain the military had to be summoned. Fighting in the streets continued at a late hour.

THE INFORMERS.

STONEY, N.S.W., Aug. 9.—The steamship Pathan, with Kavanagh, Hutton, Smith, and other informers, has arrived, and by order of the Home Government, the informers have been transferred to the Ironclad Nelson.

THE DYNAMITERS.

LONDON, Aug. 9.—In the trial of the dynamiters at Liverpool yesterday, the judge ruled there was no case against O'Hertley on the main charge, and the prisoner was acquitted, but he was detained, as he may possibly be charged with a minor count. The judge decided that all the other cases must go to the jury.

MR. PARNELL.

LONDON, Aug. 9.—Mr. Parnell will not go to America, but will remain to perfect the organization of league branches throughout the United States and Canada to carry out Mr. Parnell's plans. It is feared that many priests will refuse to attend league meetings, and that Irishmen may follow their lead.

RAPID RISE OF THE NILE.

CAIRO, Aug. 9.—Floods in Egypt are feared, owing to the unusually rapid rise of the Nile.

PETITIONING FOR EMIGRATION.

DUBLIN, Aug. 9.—One hundred paupers have petitioned the guardians of North Dock Union to pay their passages to Canada or the United States, as they are unable to get work at home.

THE CHOLERA PLAGUE.

LONDON, Aug. 9.—Up to date 682 persons have died of cholera in Egypt, including 70 in Cairo, and 120 in the Province of Sennar. Only four deaths are reported from that Province in the last return. There were twelve deaths in Alexandria from cholera yesterday.

Another Niagara Swimmer.

A cable despatch from London says:—Berriel, the professional swimmer, and a rival of Captain Webb, announces his intention of attempting to swim the Niagara Falls whirlpool. He says he believes he can safely breast the pool, and believes Webb could have done it if he had gone about it properly. Berriel has witnessed every successful swim made by Webb, and believes himself to be a stronger man in the water than Webb was. He is practicing in the Thames daily, and intends to test the most dangerous pools and tides, and the strongest waves before departing for the United States. Upon arriving at Niagara, Berriel will locate himself upon a shore of the rapids for the purpose of studying and testing them by daily plunges. He will make dummies of weight equal to his own and throw them into the rapids at all the dangerous points, for the purpose of ascertaining the precise tendencies and actions of the waves and currents. When he has completed his observations and practice he will set apart a day for his attempt to make the swim, in which Captain Webb lost his life, and he states his firm belief that he will succeed, and do so without becoming much exhausted, claiming that the undertaking will depend far more upon the knowledge of the water, presence of mind, and careful management of the body, than upon any exercise of strength, for which he argues there will be but little use.

Pirates Unearthed.

An extraordinary number of vessels have been wrecked in the Straits of Kerch, Black Sea, the past few years, and in consequence of many suspicious circumstances, such as the wreck of vessels in calm weather and the fact that some pilots grew rapidly rich, an investigation was made by the English Insurance Companies, who had paid indemnities amounting to many millions of pounds. It was learned that a pilot named Francisco was head of a band of English, Italian, Greek and Russian pirates, who made a living by disasters on the coast. They were in collusion with the pilots and charged huge sums for assisting vessels piloted by them to get safely through. In less than two years fifty stranded vessels had recourse to the assistance of the pirate salvors. It is said some Government officials are compromised.

Cows in the Pasture.

Murphy heard cows in his orchard the other night, and slipping out the back way appeared suddenly near the front steps, and yelled:—"He-ah Tig! He-ah Tig! He-ah Tig!" Just then a figure rushed past, cleared two fences and vanished in the gloom. "Tig! Tig! Tig!" screamed the old man, but his daughter Miranda, who had unaccountably appeared on the scene, secured the dog by the collar and refused to let go. "What ye doin'?" yelled the old man; "don't ye know them ones has been in here three or four times?" "Oh, pa!" was the answer, "but this was only a calf." The old man was pacified, but Adolphus, who was standing out in the road awaiting developments, wasn't, and Miranda will never understand the coldness that has sprung up between them.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and swelling of the throat? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no other remedy so sure. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Daily Evening Review

FRIDAY, AUGUST 10, 1883.

ALGOMA ELECTION.

As remarks are now being frequently made as to the long deferment of the Algoma Election for the Ontario legislature, and much interest is naturally felt in the subject, it will be well to explain the legal aspect of the matter.

The general rule is that polling at a general election for the Province shall take place on the same day in the different electoral divisions. Algoma's, however, made an exception, as it is provided by chapter X sec. 38 of the Revised Statutes that the nomination or polling is to take place between May 30th and the end of November. The writ must consequently be issued early in November, at the latest to give time for the necessary proclamation and the required length of notice.

It is obvious that this limit to the season at which an Algoma election can be held is to provide against the electors being called to the polls in the winter months when they could not attend owing to the peculiar circumstances of this electoral district. Undoubtedly it was kept in view that many of the electors could not conveniently travel but by water, and to wait till the extreme limit of the legal time at the risk of navigation being partially closed would be an evident infringement of the spirit of the law. This exception in favor of Algoma was made for the benefit of the electors to facilitate their reaching the polling places, and not to give Mr. Mowat and his colleagues a longer time to manipulate the constituency by means of an invasion, promises of patronage, grants to municipalities, etc. The writ should have been issued at the first convenient date within the prescribed limit, and its being withheld so long is quite unjustifiable.

Some of our contemporaries are suggesting that a possible cause of the delay is to give the late member an opportunity of sitting without being re-elected, but this arises from a misunderstanding of the clause allowing this under certain circumstances.

In chap. IV sec. 3 of the statutes of Ontario for 1870 it is provided:—

"In case of a general election at such time of the year that the election for Algoma does not take place at the same time as the other elections and if the Lieutenant-Governor (notwithstanding) sees occasion for a meeting of the Legislature before the election for Algoma, the members elect for the other Electoral Divisions of the Province and the member elected for Algoma at the last election theretofore had for that electoral division, shall constitute a lawful assembly for the dispatch of business, and may be summoned to meet accordingly. And in such cases the member elected for Algoma at the last election aforesaid shall represent that Electoral District until the new election thereof shall have taken place, and the return of the writ in that behalf shall have been received by the clerk of the Crown in Chancery."

It will thus be seen that this exceptional case of the former member for Algoma still sitting can only occur when a session is held between the general election and the legal time for holding the Algoma election. If for instance the Assembly had been called together between February and the middle of May the late member for Algoma would have taken his seat, but he would not be qualified to do so next year.

It will also be seen that if no election is held this year for Algoma there would be no complete house next year, and indeed no Legislature authorized to transact the business of the Province.

It cannot be conceived that Mr. Mowat and his colleagues, desperate straits as they are in, would be so utterly reckless as to attempt such an outrage. If they did there could be no doubt that the Lieutenant-Governor would feel bound to intervene to prevent such a breach of the constitution as an attempt to govern this Province without a lawful Legislature.

We may thus be certain that there will be an election in Algoma before the end of November, though perhaps at the latest possible date, to give time for the moribund administration to manipulate the constituency.

Since the foregoing was placed in type we learn from the Globe that the writ for this election has been issued and that the nomination has been fixed for the 7th and the polling for the 21st September.

WILL IT PAY TO PRESERVE AND RE-PLANT OUR FORESTS?

Now that more prominence is being given to the subject of forestry, there is no doubt there will be many asking: Will it pay to preserve, and replant our forests?

As this is a practical and pertinent question, it is, in fact, the key stone to the solution of what is and what is not the duty of the Provincial Government in the premises, let us briefly state a few of the facts given in Mr. Phipps' recent pamphlet bearing upon this particular point.

In Hanover the Government control 600,000 acres, the maintenance of which costs them about \$650,000 annually, while the annual revenue averages about \$1,500,000, leaving a profit of about \$850,000 per annum, or about \$1.50 per acre per annum.

In Prussia there are 20,000,000 acres under forest. One half of this is private property. The remainder is owned by the state, and commercial and ecclesiastical corporations and yields an income of about \$14,000,000 yearly against an expenditure of \$7,500,000, leaving a net income about 65 cents per acre.

In Saxony there are nearly 400,000 acres worked at an expense of \$500,000 per annum, and yielding a revenue of \$1,750,000, or a net yearly rental of \$3 per acre per annum.

Bavaria has 3,000,000 acres under forest, the returns from which, after paying all expenses (which includes the replanting of 30,000 acres annually), is at about \$1.50 per acre per annum.

In Austria they have less than 2,000,000 acres of productive forest, and little attention having been paid to the subject in that country until recently, the net income is only a little over twenty-five cents per acre per annum.

These are the only figures given as to forests which have long been under government supervision, and managed with a view to their main-

tenance and the obtaining of a permanent revenue therefrom, but they certainly must be admitted as going to support the soundness of the views of those who are urging upon the Provincial authorities the propriety of adopting efficient measures for the maintenance and replanting of those public lands, which from their nature and situation are better adapted for the growth of timber than for tillage.

GARDEN PARTY.

From Our Own Correspondent.

On Saturday last a Garden Party and concert was held in the beautiful grounds of R. C. Strickland, Esq. During the afternoon a friendly game of Lawn Tennis was played between Lakeside and Peterborough resulting, after hard fought games, in favor of the latter. At seven o'clock the Peterborough visitors and Fire Brigade Band arrived by special train; their arrival was the signal for lighting the grounds with Chinese lanterns, this had a very pleasing effect and but for the wind which blew rather keenly from the north west one might have imagined oneself in fairy land. Refreshment tables were scattered picturesquely amongst the trees and were well patronized by the visitors. The concert began at 8 o'clock. A pretty little stage was improvised on the verandah, benches being placed on the lawn for the audience, which by the hearty applause given showed their appreciation of the programme set before them. The principal attraction was, of course, the singing of Signorina Evelina De Beaumont, who charmed the audience by her varied selections, her rendering of "Annie Laurie" was the signal for loud and long continued applause, and the jewel song from Faust was a treat such as seldom falls to the lot of a Canadian audience. We hope that those who were not fortunate enough to hear this gifted cantatrice may have an opportunity of doing so on some future occasion. Signorina De Beaumont was ably accompanied on the piano by Miss Maclean. The singing of Meers, Porteous and Shaw was greatly enjoyed, and so well known are these gentlemen in Peterborough that we need say more than that they sang in their usual able style. The other names on the programme were those of old Lakeside favorites, and have often before been favorably noticed in these columns. The Peterborough Fire Brigade Band played at intervals, and under the conductorship of Mr. Miller, contributed greatly to the enjoyment of the evening. There was a feeling of universal regret when "God Save the Queen" proclaimed that a most enjoyable entertainment was at an end.

Thanks are due to Mr. and Mrs. R. C. Strickland for placing their grounds at the disposal of the committee, and for doing everything that was possible to make the entertainment the success that it proved to be. We believe that over \$100 will be realized for the Parsonage Fund.

CAMPER.

Canoes and tents are in very great demand at present in Lakeside on account of the unusually large number of campers passing through here for Stony Lake.

A. O. A.

Quite a large party, including several American gentlemen, passed through Lakeside on Wednesday last for the A. O. A. camp on Stony Lake. The same was repeated yesterday (Thursday).

ACCIDENT.

On Wednesday last a young man called James Campbell while working in Mr. Peter Baptie's planing mill in this village accidentally brought his hand in contact with a small circular saw and the result was three fingers split. It was fortunate that the saw was being stopped and its motion had nearly ceased at the time, or his hand must have been ruined.

REGISTRATION OF BIRTHS, ETC.

During the first six months of the present year there were registered in Lakeside sixteen births, fifteen marriages, and nine deaths. The registration of marriages and deaths seem to have been pretty well attended to, but there can be but little doubt that very little over, if any, than half of the births in this village during the six months ending with June 30th last, have been registered as the law requires. This matter should be and must be attended to at once. The Registration Act of Ontario is certainly in the public interest, and it costs the people nothing to comply with its requirements, and it is really astonishing that parents are so short-sighted as to neglect so important a duty to their children, especially as they incur the liability to a penalty of \$30 and costs for each neglect. In Lakeside all they have to do is to call at the village clerk's office, and lose about two minutes in giving the necessary particulars.

PIC-NIC.

On Wednesday last, August 8th, St. Paul's Church, of Peterborough (Presbyterian) held their Sabbath School and congregational picnic at Hagar's point, at Lakeside. The train with excursionists arrived here about 1.30 p.m. from Peterborough. There must have been fully 700 people on board, as the train consisted of nine coaches, which were all well filled. The steamer Fairy was in waiting at her wharf for the purpose of ferrying the party down the river to the Point, which, with the aid of a large tug, was speedily accomplished. During the afternoon the Cruisers put in an appearance, having been delayed below Young's Point by the sawlogs again, and then both steamers made short excursions, which were well patronized, our beautiful lake, Katchewan. The visitors seemed to enjoy their outing, and left Lakeside for home shortly after seven o'clock.

NORWOOD.

From Our Own Correspondent.

CIVIC HOLIDAY.—Norwood is to have a civic holiday on the 15th of August.

STONY LAKE.—Several parties have left the village to spend a week or two at Stony Lake. Should this season continue much longer, Norwood will soon present the appearance of Goldsmith's "Deserted Village."

BUILDING.—Two of the stores of Mr. Rorburgh's new block are about ready for business. Mr. John F. Brown is putting the finishing touch on Mr. Brown's Millinery hotel.

SIDEWALKS.—New sidewalks are being built on both sides of Colborne street. They are very wide and greatly improve the appearance of the street.

CONCURRENCE.—The election of a councillor to fill the office left vacant by the resignation of Mr. Theo. Fraser came off on the 8th inst. The following were the votes cast for each candidate:—Mr. D. McNamee, 39; R. Stewart, 22; majority for McNamee, 17. Very little interest was taken in the election, as is shown by the small number of votes cast.

LAKEVIEW.—The Secretary of the Norwood Lacrosse Club has received a challenge from the Campbellford team to play the return match on Saturday, 10th August, and has sent a reply that the match cannot come off until after the 15th.

Dr. Cameron's Stomach Bitters free the system of the poisonous humors that develop into Kidney and Urinary diseases, give tone and vigour to the stomach and purify the blood.

CAMPBELLFORD.]

CIVIC HOLIDAY.—Wednesday, the 15th of August will be Campbellford's civic holiday.

FIRE.—The Herald says that Mr. James Stillman's dwelling house took fire from the chimney during a late wind storm, and damaged to some extent. Mr. B. was absent at the time, but parties who were in the neighborhood lent valuable aid in quenching the flames. The building was insured in the Watertown Company, who made good the loss through their agent, soon after they were notified.

A Good Murder.

A telegram from Guyboro, N. S., states that a deaf, dumb, and blind coloured girl, named Ada Byard, about twenty years of age, living with her father about a mile outside of Guyboro town, has come to her death under circumstances which leave the impression that she was foully murdered. It appears on Saturday the girl's father went to town, leaving his wife, who is stepmother of the deceased, with the latter and some younger members of the family. On his return home in the evening he found his wife had also come to town. The girl Ada was in the house, suffering from terrible wounds, a parentless child, with an axe, which resulted in her death the following day. The evidence adduced at the coroner's inquest was that a little girl, five years of age, locked herself in the house with the deceased, and committed the deed by striking her with an axe, but the opinion prevails that the child is not the guilty person.

Do You Expect a Cure?

If so, don't delay too long. We have cured hundreds of patients suffering from Consumption, Bronchitis, Laryngitis, Asthma, Catarrh, and Catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 cases during the last year who delayed one month too long. By the use of our inhalations conveyed to the diseased parts by the Schroeder, the wonderful invention of Dr. M. Souville of Paris, ex-Aide Surgeon of the French Army, and other proper local and constitutional treatment, we are curing thousands of cases of the above-named diseases every year. Write, enclosing stamp for list of questions and copy of International News, published monthly, which will give you full information and reliable references. Address, International, Throat and Lung Institute, 173 Church street, Toronto; 13 Phillips Square, Montreal, P. Q.; 181 Lafayette Avenue, Detroit, Mich.; or 106 Alexander street, Winnipeg, Man.

ST. LUKE'S

Preparatory School for Boys.

Conducted by the Rev. E. C. WILSON and the Rev. W. C. BRADSHAW.

MICHAELMAS TERM BEGINS SEPTEMBER 13. Boarding and day pupils received. Terms moderate. Thorough training in English, Classics, Mathematics, French, German, etc. Special classes for evening pupils. For particulars apply to

The Rev. E. C. WILSON, Peterborough.

12431 2aw

Remember the Place—Opposite Munro & Alexander's, George Street.

TUERK'S WATER MOTOR.

Patented November 8th, 1881.

For running Sewing Machines for families or for Manufacturers; also, for running Dental, Bathing and Engines, Telephone Generators, Water Mills and Reapers, House and Church Organs; also for running the Printing Press or six at the same time. Paper Cutters, Sausage Machines of any make, or also, GRAIN, FREIGHT OR PASSENGER ELEVATORS, Straw Cutters, and all kinds of Machinery by Water Power.

View of Tuerk's Improved Governor Attachment.

HYDRANT PRESSURE.

Cheaper, Quicker and Safer than Steam.

Over Fifty Motors of other makes have been taken out and replaced with the TUEK MOTOR; among the list are the Backus, the Sabia, the Little Giant, the Hayward, Clark's Piston Engine, and others.

Names of a few who have taken out Backus Motors and put in the Tuerk Motor in their place:

C. W. Meikel, Indianapolis, Ind.
Columbus Telephone Co., Columbus, Ohio.
James Ryan, Chicago, Ill.
H. C. Hawkins, Cleveland, Ohio.
P. H. Smith, Cleveland, Ohio.
A. J. Stoll, Sandusky, Ohio.
Kilbuck & Wray, Sandusky, Ohio.
S. A. Morrow, Springfield, Ohio.
R. Putnam, Chillicothe, Ohio.
N. Shelton, Omaha, Neb.
H. J. Llewellyn, St. Helena, Cal., and others.

Do not fool your time away trying other Motors, but send for the Tuerk Motor, which is warranted to do better work with less water than any other Motor or Water Engine made.

Send for Catalogue, and state what you want to use, give full particulars and Water Pressure per square inch.

TUERK BROS. & JOHNSTON,

88 and 88 Market Street, Chicago, Ill.

JAMES RENTON, Practical Watchmaker, &c., &c., FROM LONDON, ENGLAND.

OFFERS HIS SERVICE to the inhabitants of Peterborough. Having had many years experience in the business, feels confident he will give perfect satisfaction. Prior to the close of St. James' Cathedral, Toronto.

Office:—Corner of Simcoe and Almyer Streets, Peterborough.

June 6th, 1883. Stud 123-75

Notice of Removal

Mrs. COMPAGNE,
Costumier & Mantle Maker

From LONDON, Eng., formerly with Mrs. Wensley, Corset Dressmaker, Brook St., Hanover Square; Baker & Crisp, Regent St.; and J. Branscombe, Mare St., Hackney.

Every attention given to Style and Fit. Ladies may rely upon no effort being spared to secure the Newest and Most Fashionable Styles. Juvenile Dressmaking a specialty.

Note the Address—
Corner Harvey and McDonnell Streets.

Daily Evening Review

FRIDAY, AUGUST 10, 1883.

A Treat.
Bass' Genuine English Ale, on draught, (with lunch) 10 cents, at Chamberlain's Restaurant.

The Cells.
The police cells were again untenanted last night, and there was no business before the Police Court this morning.

Personal.
Mr. A. L. Davis and party, who visited the Northwest in the Midland official car, arrived here at noon to-day.

The Field Battery.
In addition to the 57th Battalion and the Cavalry, which are to go into camp at Cobourg on the 11th of September, the Durham Field Battery will also turn out for the annual drill at the same time.

Can't Find It.
A number of persons were aroused by the fire bell this morning, but as the flames did not blaze up very brilliantly many did not reach it, as they could not tell where it was, and not a few "wild goose chase" were made in different directions in search of it.

The Entrance Examination.
In the published results of the entrance examinations to the Collegiate Institute, Miss B. A. Hogan, S. S. No. 8, Douro, was credited with 257 marks, while she really obtained 317. The mistake occurred in transcribing the number of marks from her papers, the figure 71 having been mistaken for 11.

Midland Railway Traffic Returns.
The traffic of the above railway for the week ending August 4th, 1883, was as follows:—Passengers and mails, \$6,567.56; freight, \$14,327.79; total, \$20,895.35, as compared with \$19,574.96 for the corresponding week of 1882, being an increase of \$1,320.39; and the aggregate traffic to date is \$906,516.62, being an increase of \$20,615.00 over 1882.

A Lost Letter.
A letter with the following address is now in the post office for delivery. Any person "interested" will please govern themselves accordingly:—

"This letter is for a young Gentleman from Buffalo and do not know his address nor what business he follows perhaps You May or can inquire those that call for their Mail. Please find him out I am interested therein please Post Master Peterborough town deliver."

"War-West" Cider.
The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILIES.
Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

A. C. A. Notes.
The annual camp of the American Canoe Association commences to-day at Stony Lake. A large number have gone out to Juniper Island to-day.

The New York contingent to the A. C. A. camp leaves that city this morning, in a special parlor car, and are expected to pass through here by the noon train to-morrow. The Albany party leave that city on the 15th, and will probably pass here on the 16th of August.

Trent Navigation.
The Campbellford correspondent of the Belleville Intelligencer says:—

"Mr. T. D. Belcher in charge of the Trent Navigation works, has been in the village making preparation for the necessary repairs of the Government works at Middle Falls, Crow Bay, Perry Boom and Chisholm's rapids. This work would have commenced before but for the extraordinary high water this season. This shows prompt action on the part of the Government. These works have until lately been in the hands of the lumbermen."

Ontario Press Association.
The annual meeting of the Ontario Press Association was held at the Windsor, Montreal, on Tuesday last, when the following gentlemen were elected officers for the current year:—President, C. B. Robinson; 1st Vice-President, G. A. Patullo; 2nd Vice-President, J. A. Davidson; Secretary-Treasurer, W. R. Clime; Assistant Secretary, J. B. Traya. Executive Committee—E. J. Pense, C. D. Barr, H. Hough, J. Somerville, M. P., H. E. Smallpiece and G. Tye.

Fire.
At about half-past one o'clock this morning fire was discovered by a gentleman returning from a wake, in the shed adjoining the house occupied by Mr. G. Goodman and owned by Miss Ferguson, part of which is used as a kitchen. He gave the alarm, and a few men who collected the fire was kept from catching in the house or spreading to the stable until the fire engine arrived, when it was extinguished in a few minutes. The shed was considerably burned, the fire having reached the roof, and spread along under it. It began in the kitchen, but from what it originated is not known.

A. C. A.

Most Notable Aquatic Event of the Year—The Toronto "Mail's" Opinion.

From an article in the Mail we make the following extracts:—

"The coming meeting at Stony Lake, near Peterborough, of the American Canoe Association, promises to be one of the most notable aquatic events of the year the world over. The classes of men with whom canoeing is popular are of the best. There are few pursuits which necessitate to such an extent as canoeing both bodily and mental independence. Your canoeist must not only be a man of physical aptitude, quick and handy, but he must have more than average brains. Half the time he is in small difficulties, and all the time he is thrown almost completely on his own resources. Even when all is plain sailing, and the canoe glides along almost of its own accord hour after hour, there is danger with any but the man of the right stamp, that the solitary voyage becomes first monotonous, then wearisome, and finally unpleasant. The pastime is most popular with men who are most equal to such circumstances, and these are men who have intelligently cultivated both body and mind. It is a fact that a large proportion of the members of the American Canoe Association are professional or literary men.

"For the meeting for camping and racing at Stony Lake the Peterborough people have made preparations creditable to Canada. We cannot call to mind any event of similar importance in the world of sport which has been better taken care of in advance on this side of the line. The prizes given will simply be flags, badges, etc. It is not intended to encourage professionalism by offering anything valuable in itself. That this will not result in any lack of keen competition has been approved at meetings of the association in past years.

"One hundred canoeists from the States are due at the meeting, and among them will be such well-known enthusiasts as N. H. Bishop, whose experience in the canoe and other small craft are familiar to many from 'Four Months in a Sneak Box,' and the better known 'Voyage of the Paper Canoe.' Mrs. Bishop will accompany her husband. The Knickerbocker Club, of New York, sends twelve members, the New York Canoe Club eight or nine, the Lake George Club as many more, the Rochester Club as many, the Mohican Club, of Albany, a dozen or more, and so on.

"We understand that it is intended at the conclusion of the meeting to invite the canoeists to visit Cobourg and participate there in a sort of aquatic, or rather yachting, carnival. It is expected that many of the best known yachts on Lake Ontario will be present. This should wind up the meeting in a worthy way, but in any event it is reasonable to anticipate, now that only average fair weather is needed, to make the Stony Lake camp a red-letter week in the memories of those who share in it."

The Weather.
The weather continues rather warm. The weather probabilities for this district, for the twenty-four hours counting from one o'clock this morning, as issued by the Toronto Observatory, are as follows:—Light to moderate winds; fine, warm weather.

The Chatham Competition.
In the event of the Chatham Band competition not coming off, there is some talk of our band claiming the prize for a walk over, together with the banner that was to be given with the purse of \$300. They have not yet received the expected letter which is to contain particulars, but are anxiously awaiting its arrival.

The Rochester Races.
The programme of the eleventh annual meeting of the Rochester Park nominations has been received. The races will be held on Tuesday, Wednesday, Thursday and Friday, August 14th, 15th, 16th and 17th. The premiums offered amount to \$22,500. A large number of entries have been made, including the fastest horses. It is probable that a number of sports from here will attend the races.

Dates of Coming Exhibitions.
The Provincial, at Guelph, Sept. 24 to 29th. Dominion, at St. John N. B., Oct. 2nd to 5th. Industrial, at Toronto, Sept. 11th to 22nd. West Peterborough, at Peterborough, Oct. 2nd and 3rd.

East Peterborough, at Warsaw, Oct. 2nd and 3rd. East Durham, at Millbrook, Oct. 4th and 5th. Township of Otonabee, at Keene, October 12th.

A Fine Window.
In one of the front windows of his restaurant Mr. Faucher has a miniature lake. The water is supplied from the waterworks and continually passes through the glass enclosure so that it is always fresh. In this crystal lake there are four turtles, one about the size of a quarter, but the largest one is of a good size, and a number of small fish of different varieties. The window is quite an attraction to passers by, and it is worthy of notice.

Railway Notes.
Track-laying has been commenced on the Ontario and Quebec Railway in the town. A number of men are engaged in spiking the rails to the ties west of the Midland Railway, and the work will be vigorously pushed. The construction of the railway is progressing rapidly, and evidently the Company knew what they were doing when they appointed Mr. Ryan their superintending engineer.

A switch has been put in on Bethune street on the Midland, connecting it with the Ontario and Quebec, over which the rails for the latter road are carried on to their track. The rails, by the way, are brought here on new Canada Pacific cars, made at Kingston.

A frame building is being erected at the side of the Ontario and Quebec line, west of the Midland, for a storehouse and a field office. Another building will also be put up at this place for blacksmith and carpenter shops. The nucleus of the Ontario and Quebec workshops?

The Mail says that the contract for the new double track from the Don station to Scarborough has been let to Messrs. Bowie & Wright, of Montreal. The work, which is about nine miles of grading and tracklaying, will be commenced early this week, and is to be finished early this fall. The east end of the double track will connect with the south siding at Scarborough.

A man named Sanderson, on the gravel train on the "Mining Link," had his foot slightly injured on Thursday, by a heavy weight falling on it while the train was near Hilliard's mill.

Sold from the Pound.
A cow which was impounded for straying on the streets, and which was kept in the South Ward pound the required number of days and advertised, was sold on the market square on Thursday. She was purchased for \$27.

Firemen's Demonstration.
St. Catharines, Aug. 9.—The first day's programme of the Firemen's demonstration was carried out here to-day with great effect. All the hotels, and in fact every place where accommodation can be had, are crowded, all the available cots and shakedown are being utilized, and your correspondent is congratulating himself on having secured quarters at the Welland house. About fifteen hundred firemen from different parts of the province and New York State and about ten thousand visitors are here to-night, besides large numbers from the surrounding country, who have returned home for the night, but who will return to the city in the morning. The procession was a large and magnificent one. It took two hours to pass a given point.

Thousands Say so.
Mr. T. W. Atkins, Girard, Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints, purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by Taylor & McDonald.

THEY MUST GO!

GENTLEMEN,—In stentorian tones we state that certain things must go. We beg to offer below a sufficient bill of particulars.

Now, in order to make SUMMER SUITS go, special inducements require to be offered:—

The following are said inducements:—
The very Newest Style of Garments.
The Best Cut and Fitting Garments.
The very best Trimmed Garments.

Back the above inducements, gentlemen, back them up with our feather-edge prices, for we never allow anybody to give so good clothing for so little money as we. If you want cool dress, either elegant or economical, come to

T. DOLAN & Co.
Cluxton's Block, Corner of George and Hunter Streets.

A. C. A. CAMP.

STONY LAKE
REGATTA.

—A N—
EXCURSION

UNDER THE AUSPICES OF THE
PETERBOROUGH Y. M. C. A.

Will be run to Juniper Island (Canoe Camp) and Eagle Mount, Stony Lake, on

August 21, 22, 23, 1883

Being the three Regatta days of the Canoe Association. A Splendid View of the Association Camp, Regatta Course, and of Stony Lake generally, can be had from the Summit of Eagle Mount. The train will leave the Midland Station at 7 a.m., connecting with Boats and their Cows at Lakeside. Returning Boats will leave Eagle Mount at 4.30 p.m., and Lakeside at 8 p.m.

ROUND TRIP, \$1.00.—Tickets good to return on any of the three days. Buy your Tickets before-hand, as only a limited number will be sold each day, and first come, first served. Tickets may be had at the Stores of A. L. Davis & Co., Ormrod & Walsh, W. W. Johnston, and at the Station. Go and see the CAMP, Peterborough, August 10th, 1883.

Daily Evening Review

MONDAY, AUGUST 13, 1883.

The Cells.

The police cells were unoccupied on both Saturday and Sunday nights.

A Runaway Accident.

On Saturday afternoon, while Mr. G. Revington, of Ennismore, was driving on McDonnell street, a tire came off one of the wheels of the wagon and rolled towards the horses, frightening them. The frightened horses ran away and threw Mr. Revington out of the wagon. His leg struck on something in falling, and a bad cut was inflicted on the calf of his leg, and he was otherwise injured by the fall. Dr. Kincaid attended to the wound, and we are pleased to hear that he is doing well.

An Italian "Shot."

On Saturday evening an Italian belonging to the camp near the Protestant Home, who had a nasty wound on his thigh, complained to Constable Adams that he had been shot two days before. He could speak but very little English, but appeared to say that some one had shot him with a revolver on the leg. A little light, however, was thrown on the affair when another Italian, who spoke English a little more intelligibly, said that the "revolver" was on the rails near the junction on Brock street and that the car wheels shook it, and the affair was made clear when one of the hands on the gravel train gave the information that the man had been injured by the explosion of a fog signal.

The Junior Championship.

There are in the town a number of junior lacrosse clubs, which are organized clubs with officers, &c. To encourage these youths in the practice of the national game, Mr. W. A. Sanderson offers a cup for the junior championship of Peterborough and Ashburnham, to be competed for by these clubs. The cup is a beautiful silver one, handsomely ornamented. Three silver lacrosse sticks, crossed near the top, rest on the stand and support the cup, which is also of silver and is lined with gold. There is a lid for the cup, and when it is placed on its form a sphere, representing a lacrosse ball. Surmounting the ball again, there are three smaller silver lacrosse sticks, in the same position as the others, crossed over a smaller sphere. The lid bears the following inscription:—"Challenge Cup. Presented by W. A. Sanderson for the Junior Championship of Peterborough and Ashburnham. 1883." The cup is altogether a very handsome one, and will no doubt spur the boys on to greater diligence in becoming proficient in the game, which was the object of its donor. Among the clubs now organized, and which will probably compete for the championship, are the Creses, Pinks, Independents, Clippers, Stars, Maple Leaf, Okeas, Young Shamrocks, and Beavers. Rules will be drawn up to govern the championship matches.

WELCOME HOME.

An Address to Mr. J. F. Dennistoun from the Auburn Woollen Mill Employees.

On Friday afternoon the employees of the Auburn Woollen Mill Company presented Mr. J. F. Dennistoun, the President of the Company, with an address, on his return from a trip across the Atlantic. All the employees of the mill gathered at the office, and Mr. J. R. Smith, on their behalf, read and presented Mr. Dennistoun with the address. The address was handsomely printed in gold letters with a gold border, and besides the kindly sentiments it contained, it would be a very handsome ornament for a room. Mr. Dennistoun was pleasantly surprised, as he was not aware that such a manifestation of good feeling was to take place. This event shows that Mr. Dennistoun is not only an able and energetic administrator of the affairs of the company, but that he is a favorite with those under his charge.

The following is the address:—
To James F. Dennistoun, Esq., President Auburn Woollen Company.

DEAR SIR,—We, the employees of the Auburn Woollen Company, rejoice at your safe arrival home and at the improved condition of your health, and take this opportunity of giving you our sincere and hearty welcome.

Your generosity, your fair and upright dealing, as an employer, demands of us the warmest gratitude and the strictest fidelity as servants. We trust that your health will continue to improve, that your presence amongst us may in the future, as it has in the past, insure prosperity to the works and confidence and encouragement to us, the workers.

We thank you for the half-holiday, and trust by careful attention to duty to prove ourselves not unworthy of your confidence.

May Mrs. Dennistoun, yourself and family ever enjoy health, prosperity and happiness.

Signed by all the overers on behalf of their help,
JAMES M. MANSOR, JOHN DOWMAN,
J. R. SMITH, DANIEL McLENNAN,
WM. SOMMERVILLE, FRANK VALLAN,
JAMES BURNETT, ELIJAH CARTER,
W. O. HAMACHER, J. IRENE DAVIDSON,
Peterborough, August 11th, 1883.

THE REPLY.
Mr. DENNISTOUN, in reply, said that last year he had been taken by surprise, on his return from a similar trip, by the presentation of a pleasing address, and he certainly had not expected anything of the kind this time. He was pleased to be able to say that he believed the statement as to his improved health contained in the address was a fact. He was assured by all whom he met of his improved appearance. He felt better, and the celebrated London physician whom he had consulted last summer and again this summer, had pronounced him greatly improved. He was happy to return home, and the happiness was increased by their cordial welcome. Their expressions of sympathy and confidence was most gratifying, and he hoped that he might long be spared to preside over the affairs of the Company. He trusted that each and all of them might enjoy a full measure of happiness and prosperity, and that should dark clouds at any time cross their path the bright sunshine would soon return. He hoped they would fully enjoy the half holiday he had been able to secure them. He had been influenced by a desire that they should have it as an opportunity of sharing the happiness he felt on his return home. He thanked them for their kindly reference to Mrs. Dennistoun and family, and he could assure them that no one took a deeper interest in their welfare than Mrs. Dennistoun did.

Is Your Watch Clean?

Watches that are continually stopping and getting out of order, can be properly repaired by leaving them at Hughson's Shop, office lately occupied by E. Burnham, Simcoe street.

A Very Old Settler Gone.

Our readers will observe, recorded under the proper heading the death of John Hall, Esq., of Buckhorn, a former old and prominent resident of Peterborough, and father of Mr. John J. Hall. The funeral will take place to-morrow at 3 p. m., from St. John's Church to the Little Lake Cemetery.

Personal.

The Belleville Ontario, referring to the complimentary supper tendered to Mr. T. Munro here last week, says:—

"We welcome Mr. Munro to Belleville. His partner, Mr. Smeaton, is one of the best known and most popular young men in Belleville, and the new firm will be sure to command a large trade."

His Honor Judge Deas, of Lindsay, is registered at the Calico House to-day.

The Weather.

On Sunday the weather continued warm until evening. A light shower of rain fell about nine o'clock, and brought with it a sudden change. The weather turned quite cool, and has continued so to-day. The weather probabilities for this district, as issued from the Toronto Meteorological office at one o'clock this morning, for twenty-four hours, are as follows:—Fresh north-west to north winds; 8ne, cooler weather.

Swept By Fire.

MEAFORD, Aug. 12.—This morning about half-past twelve a fire broke out in the rear of Landry & Agnew's brick butcher shop, and soon spread north and south, destroying Noble's and Gibbon's hotels; Wilson's shoe shop; Landry & Agnew's, butcher; Mirror printing office; Trout & Jay's insurance and express office; Esawl, dry goods; Bullyment, harness; Cleland, hardware; K. Wood, jewellery; P. Manley, druggist; the brick residence of J. Stewart; and the Canada Methodist church. This is the heaviest loss by fire Meaford has ever sustained.

Buckhorn's Arsenic Salve.

The greatest medical wonder in the world. Warmed to speedily cure Burns, Bruises, Cuts, Fists, Salt Rheum, Fever Sores, Cancers, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDougall.

MIDNIGHT TELEGRAMS

CABLE.

INTERNATIONAL RIGHTS.

CONSTANTINOPLE, Aug. 11.—In connection with the pending dispute concerning the rights of navigation of the British Lynch Steamship Co., the British Consul at Bagdad has informed the Governor there that the English fleet would proceed to Basorah unless the Company's steamers were allowed to resume their service. The Porte has instructed its Ambassador at London to make a friendly arrangement of the question. The Porte is willing to concede the navigation of the Euphrates, but not of the Tigris.

UNFORTUNATE SUNDERLAND.

SUNDERLAND, Eng., Aug. 11.—The Star Music Hall caught fire to-night while a performance was in progress, and was entirely destroyed. The audience, which numbered 1,300, were warned in time to escape without panic. Half an hour after the outbreak of the fire the roof fell in. This fire, following so closely on the recent terrible panic in Victoria Hall, when nearly 200 children were suffocated, caused great excitement.

THE CHOLERA.

LONDON, Aug. 12.—Thirty-two persons died from cholera at Alexandria on Saturday, including five Europeans. A hundred warehouses have been burned at Salonica, Roumelia. The deaths from cholera in the Egyptian provinces on Friday were 926, and on Saturday they were 789. The deaths included 30 in Cairo. Hundreds of people fled to Cairo from Alexandria. There are no fresh cases among the British troops. The apparent increase in the number of deaths from cholera in Egypt is due to the fact that the officials return contains arrears.

A ROYAL LEADER.

LONDON, Aug. 12.—The Queen has approved the appointment of the Duke of Connaught to a divisional command in Bengal.

CETEWAYO AGAIN.

DURBAN, Aug. 11.—It is reported that Cetewayo is on his way to Pietermaritzburg.

THE ANNAM QUESTION.

HANOI, Aug. 12.—Six river gunboats are preparing temporary armour for the boilers, and everything points to a severe encounter. The French have no artillery horses or mules, and the enemy is pressing closer here and Nankiang. It is believed the Viceroy of Yunnan is actively forwarding assistance to the enemy.

Fatal Boiler Explosion.

ST. WILLIAMS, Aug. 10.—About 3 o'clock yesterday a terrible boiler explosion occurred while threshing on Mr. Edgar Price's farm near here, killing instantly P. Caldwell, and it is thought, fatally scalding and cutting Mr. L. Howick. Both were standing at the side of the engine at the time. Many others were very narrowly escaped. One piece falling buried itself three and a half feet in the earth, and nothing was left of the engine and boiler to show where it stood. Pieces have been found 130 yards from the place of explosion. The rear of the boiler struck the separator and tore that to pieces completely. No one was feeding it at the time, although two men had just stepped off to fix the belt and thereby saved their lives. The explosion was caused by the steam indicator being out of order and misleading the driver, Mr. Caldwell.

Progress of Paper-Making.

That the great bulk of paper now is not as good as it used to be is, I suppose, universally admitted. One reason is obvious. Far greater quantities are used every year; the best paper is made from linen rag, and there is less linen rag available since the larger wear of calico and woolen goods. Ultimately, of course, paper is now what it always was since first it was made from the fibers of the rush and papyrus. It was at first manipulated in no degree; the outer pulp was stripped off the rush and the strips were fastened together. Gradually it was discovered that the vegetable fiber, beaten and disintegrated into pulp, then allowed under certain conditions to settle into a firm and dried, was better. But the more the fibers can be disintegrated the better the paper; and no process is so complete as the making it in the first place into another material, and allowing it to be worn and broken, as the complete mode of destroying its stringiness. Every kind of material has been tried, especially those on which St. Paul said it would not do to lay a foundation—"wood, hay, stubble"—the most common being the coarse form of vegetable fiber known as Esparto grass, a species of broom. In Sweden, previous to 1866, a newspaper was printed for some considerable time on a paper made from horse-dung. It is not wholly fanciful that human wear and use has something to do with the excellence of paper, as with all other things of art. Mechanism is fatal to the higher and more spiritual qualities which make art. It has its great uses in cheapening and rendering pleasant much which is valuable and in a limited degree beautiful. But just as a chromo-lithograph is vile compared with an oil painting, just as a photograph of a picture compared with a beautiful print of it, so in exact proportion as in human work and human wear to beat on paper and printing you will have it, of its kind, supremely good, or only tolerable. This brings us to another reason why old paper was better than all but the best to be now procured. It was all hand-made; there was no machinery. The paper now made, such as Whatman's in England, or the best Dutch, which is all still made by hand, is better, or at least as good, as was ever made since the world was; but the greater part of cheap paper is bad.—Fortnightly Review.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Itching Piles—Symptoms and Cure.

The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling about the parts affected. It allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for Tetter, Itch, Salt Rheum, Scald Head, Erysipelas, Barbers Itch, Boils, and all eruptions of the skin. Sent by mail for 50 cents; 3 boxes \$1.25, (in stamps). Address: DR. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

Fortnightly and durability of color the Triangle's Pink are Dyes "beat the world." If you never used dyes before, do so now and be convinced. 10c.

Notice of Removal

Mrs. COMPIGNE,
Costumier & Mantle Maker

From LONDON, Eng., formerly with Mrs. Wensley, Court Dressmaker, Brook St., Hanover Square; Baker & Co., Regent St.; and J. Branscombe, Mark St., Hackney.

Every attention given to Style and Fit. Ladies may rely upon no effort being spared to secure the Newest and Most Fashionable Styles. *See Juvenile Dressmaking a specialty.*

Note the Address—

Daily Evening Review

MONDAY, AUGUST 13, 1883.

Smith's Market.
Choice Virginia grapes 24 lb boxes only 50 cents; Delaware peaches \$1.75 per basket; Jenny Lynn melons, water melons, apples, pears and plums.

Theft.
A rug was on Saturday stolen off a clothes line in the rear of Mr. R. Lundy's house on the corner of Brock and Bethune streets. This is the second instance of this kind of petty larceny that we have heard of within the last few days.

On Exhibition.
The junior championship cup, presented by Mr. W. A. Sanderson, which arrived on Saturday, and the District Championship medal, for which the Orillia Lacrosse Club will play with the Peterboroughs on Thursday, are on exhibition in the window of Mr. H. LeBrun's store.

Peterborough Abroad.
We notice by the *Armstrong Chronicle* that Mr. George Bolton, of this town, is now in *Armstrong* putting in a hot water heating apparatus for Dr. Dickson, of that place. It speaks well for Mr. Bolton's abilities and reputation in this line that he has called so far from home.

For the Toronto Exhibition.
The Fire Brigade Band has been engaged to play one day at the Toronto Industrial Exhibition, which is to be held in that city. The band have played at this exhibition on former occasions, and it would seem as if their good qualities are appreciated.

Champagne Cider.
The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon. FOR FAMILY USE.

Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

Dates of Coming Exhibitions.
The Provincial, at Guelph, Sept. 24 to 29th. Dominion, at St. John N.B., Oct. 2nd to 5th. Industrial, at Toronto, Sept. 11th to 22nd. West Peterborough, at Peterborough, Oct. 2nd and 3rd. East Peterborough, at Warsaw, Oct. 2nd and 3rd. East Durham, at Millbrook, Oct. 4th and 5th. Township of Otonabee, at Keene, October 12th.

No Promenade Concert.
The promenade concert, which was announced to be held this evening, has been declared off. Those who have purchased tickets can have their money refunded by returning the tickets to the gentlemen from whom they purchased them. This action was taken by the band because the tickets were sold on the understanding that the proceeds of the concert would be used to assist in defraying their expenses to Chatham, and there is now little probability of them going there.

The Why and Wherefore.
Below we publish the letter from the Secretary of the Chatham Band Tournament Committee, which will be read with interest by a large number of our citizens:—

Chatham, August 9th, 1883.
DEAR SIR,—As mentioned in my telegram to you of 8th instant, stating that the Band Tournament had been postponed, I now write to give you the reasons. They are simply these: When the matter was first talked of, there seemed to be no reasonable doubt but that a tournament could be held and prizes offered such as would be an inducement for several first and second class bands to compete, and accordingly circulars were issued containing prize lists, rules, &c., for the regulation of the tournament. Some 70 or 80 of these were mailed to the different bands in Canada, and quite a number sent to the States, but the only bands who responded were yourselves, Paris, 2nd class, and Sarnia, 1st class. Consequently it rendered it impossible for us to have the contest, and at a Committee meeting held on Monday evening last a resolution was passed, postponing the Tournament indefinitely, and I was instructed to communicate the same to you by telegraph, which I did, I feel sorry that this should have occurred, and trust that you have been put to no inconvenience, and hope that you will not blame the Band Committee here, as they have done all that laid in their power to make the tournament a success, but signally failed on account of bands in the immediate vicinity of Chatham and those from a distance not responding to their circulars.

I herewith enclose \$6, amount sent me for your band and quartette entrance fee.

Yours truly,
JOS. W. C. EBERTS.
Secretary of C. B. Tournament.

To J. Fraser, Esq., Secretary of P. F. B. Band, Peterborough.
It will thus be seen that there was only another entry in the amateur class besides our own band, and one entry in the professional class, the Sarnia band, although we fail to see where they would have a ghost of a chance if such bands as the 7th of London and the 13th of Hamilton were to enter. The Tournament Committee have consequently postponed the competition for an indefinite length of time, and there is no body of men regrets it more than the Fire Brigade Band of Peterborough.

A. C. A. ANNUAL MEETING

THE MEMBERS OF THE AMERICAN CANOE ASSOCIATION AT STONY LAKE.

The Lovers of the Paddle Fleeting in—A Beautiful Camping Ground, and Admirable Course—Good Sport Fishing—Divine Service on Sunday.

A. C. A. CAMP, STONY LAKE, Aug. 13th.—The Camp of the American Canoe Association at Stony Lake this year will hold a place in the memory of those who have attended it. From far and wide throughout Northern America the members have flocked to our waters, those from a distance seeming to be delighted with the place and their reception, and those from the vicinity being well pleased to extend a welcome to them. Nor is the meeting confined to members only, for many have brought their lady friends to grace the occasion.

One of the most interesting features of the camp is the great variety of canoes, from the aboriginal "birch-bark" of Micmac construction, from Quebec, to the latest improvements of the builders of the States and Canada, including the Racine, the Rustem, the Stephens, the Rogers, the Pearl, the Bishop, and the Emerson, from the States, and the canoes built by the Ontario Canoe Company, Stephenson, English, Gordon, and Harold. There is even an English "Rob Roy," which was brought to Canada. There is almost as much diversity in the paddles, sails and other gear. So far the comparison has been confined to discussion of their rival merits, without any serious trials of speed, camp arrangements having taken up much of the time of the earlier arrivals.

A large detachment of the Knickerbockers, with many other foreign and local members, were to have arrived on Saturday by the Fairy, but to their great disappointment, and to that of their expectant friends, they were delayed at Young's Point by logs in the river, and did not arrive till next morning. There was then a busy scene at the landing place, as the canoes of all builds were brought ashore, and greetings were exchanged between the new comers and the earlier arrivals.

Not only the islands reserved for the Association, but many of the surrounding ones, are lighted up with the gleam of the white tents among the green foliage. There is a great display of bunting, from the stars and stripes and British ensign floating from the twin flagstaff at the headquarters camp, and combinations repeated at many private camps, to the club burgees and private signals carried by the canoes. The steamboat wharf and store are also gayly decked with flags. The store is admirably provided, and is found to be a great convenience to the members. Very satisfactory also is the foresight which caused a stock of ice to be laid in last winter in anticipation of the camp.

The fishing has been good and some fine fish have been caught, the makings of 18 pounds being since cast into the shade by one of 212 pounds. The evening camp fire has already become an institution, when the song-arises around a glorious blaze at the head-quarter's camp.

On Sunday there was divine service, when the campers, ladies and gentlemen, assembled from the various tents till they formed a large congregation, on improvised seats under the open canopy of Heaven, or the shade of the trees. The Rev. R. H. Neide read the Episcopal service, after which the Rev. Dr. French preached a very effective and appropriate discourse. He referred to the necessity of rest amid the cares of life—the rest of the Sabbath, the rest of sleep and the rest of holiday recreation. They had sought this beautiful wilderness for the latter purpose, while refreshing themselves with healthful exercise and innocent amusement. He dwelt eloquently on the ill effects of the cares, the worries and the solicitudes of worldly affairs, and urged the only remedy was trust and faith in the fatherhood of God, which alone could give Christian composure and peace. Alluding to the national flag floating overhead, he expressed an ardent hope for the continued friendship and community of the two great nations to which his congregation belonged, so that they might work together for the glory of God. He concluded with prayer pervaded with the same ideas, and then dismissed his hearers with the benediction. During the service several hymns were sung with admirable effect in the open air, the ladies having apparently prepared themselves for the occasion.

Many more members, who would not take the whole fortnight's holiday, or who are ordering towards the camp, are still expected. Among the arrivals so far from the States are Dr. O. A. Neide, of Schuylerville, of the Lake George Club, the Secretary of the Association; the Rev. R. H. Neide, Canajoharie, N.Y.; Mr. C. F. Earle, Lake George Club; Messrs. Adolph Lewenthal, Commodore, H. T. Keyser, W. A. Green, W. DuMastier, A. Brentano and R. J. Wilkin, of the Knickerbocker Canoe Club, New York; L. L. Conder, of the New York Canoe Club; O. Fraser, of Columbus, Ohio; the Rev. Dr. French, of Jersey City; C. C. Richardson, Pueblo, Colorado; Wm. Hindhaugh, Jr., Oswego, N.Y.; S. C. Titus, Auburn, N.Y. From different parts of Canada there are Col. Kensington, R.M. College, Kingston, Ont.; Allan Jones, Assistant Post Office Inspector, Kingston; Messrs. H. Neilson, Commodore, Capt. Andros, M. F. Johnston, J. L. Kerr, B. McDonald and J. C. Allan, Toronto Canoe Club; R. W. Baldwin, Ottawa Canoe Club; Messrs. F. B. Rathbun, W. Rathbun and E. Clement French, Deseronto, Ont.; J. Fraser, C. Fraser and W. G. Johnston, Petrolia, Ont.; Dr. C. M. Douglas and C. H. Edwards, Toronto. There are also Commodore Edwards and between forty and fifty members of the local clubs in Peterborough and Lakeside. There are also nearly fifty ladies.

Already it is evident that the success of the camp is assured.

Dr. Cameron's Stomach Bitters free the system of the poisonous humors that develop into Kidney and Urinary diseases, give tone and vigors to the stomach and purify the blood.

Neither Nasty.
Three men "under the influence," made quite a disturbance on Sherbrooke street, between George and Aylmer streets, late on Saturday night. They commenced the noise at about half-past twelve, and continued quarrelling until between one and two o'clock, much to the discomfort of the residents of that vicinity, many of whom were awakened by the noise.

Thousands Say so.
Mr. T. W. Atkins, Girard, Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by Taylor & McDonald.

Do not attempt to remain over night without a bottle of Dr. Fowler's Extract of Wild Strawberry near at hand. This is the season for Bowel Complaints, Colic, Cholera Morbus, etc., and the remedy above named is the unfailing specific.

THERE is no excuse for suffering from Headache, Constipation and all the wearying train of symptoms of a disordered liver, when Burdock Blood Bitters is an unfailing remedy, and only costs One Dollar a bottle. Why suffer on without a trial? 25,000 bottles sold during the last three months, with almost universal satisfaction.

THEY MUST GO!

GENTLEMEN,—In stentorian tones we state that certain things must go. We beg to offer below a sufficient bill of particulars.

Now, in order to make SUMMER SUITS go, special inducements require to be offered.

The following are said inducements:—

The very Newest Style of Garments.

The Best Cut and Fitting Garments.

The very best Trimmed Garments.

Back the above inducements, gentlemen, back them up with our feather-edge prices, for we never allow anybody to give so good clothing for so little money as we. If you want cool dress, either elegant or economical, come to

LUMBERING IN THE ADIRONDACK.

Modern and old and is being written by a correspondent of the Daily Advertiser, Boston, who contributes the following interesting facts about the lumbering operations of this most romantic and beautiful region. The lumbering of the Adirondack region by the building of railroads, the depopulation of its forests by lumbermen, the pollution of its waters by saw mills and tanneries. If an enterprising man enters within its sacred groves he is immediately assailed by a host of enemies, and as an enemy to man and defrauder of posterity. However, perhaps the worst enemy may be to other regions, fully and wholly inaccessible to the Adirondack, and I believe to most lumber regions, for reasons that are patent to all who can or will study the subject. Like all primeval forests, the Adirondack consists of trees of every age and size, from the tiny sapling up to the mature tree that has defied the storms of a century, and the lumberman who comes there is passing down the other side of the life of the forest. Some have lived their allotted time, converted their vital energies, died, and are falling now to their mother earth, reticulating it with their prostrate forms in every state of decomposition.

At present, the principal means of transporting lumber of this kind is by floating it, in the round log, down the streams to mills located on one of the railways that skirt every side of it. None but coniferous trees, pine, spruce and cedar, will float well, therefore none other are cut, and of these only a few thousand are cut in a season, and the lumberman takes, on the average, ten or fifteen of the largest, and most mature trees from an acre. When railroads are built through the region, which will be done sooner or later, probably an equal number of deciduous (hard wood) trees will be cut for the market. Even if this case no silver tree (but those that lumbermen will cut them a scientific forester, would take out, and have no other view than the health, beauty and vigor of those that are left—young trees that are awaiting their turn. It is not better that those mature trees should be utilized for the use of generations of men, than that they should decay uselessly, except to generations of trees that may reveal in some distant hundred or two hundred years hence, the wisdom of the lumberman who cut them in the New York Legislature last winter, a trustworthiness that if he could take the whole Adirondack and cut it up into a million, not one in 50 of the members could tell where the lumberman had cut all the saleable trees, and where he had not. He was right, but an expert, and one, too, that had viewed the premises before the depopulation, could tell; and then by only missing the black top of the tree, he would know where it was, and the territory can be profitably lumbered again.

That fire may follow the woodman's axe is possible, but not so probable, nor are its effects half so deplorable as that of a virgin forest. The conditions favorable to the former are more so for the latter. The largest and most destructive conflagrations have occurred where the green timber was still standing. When a fire is once started in a resinous group it does not wait for dry food, but leaps from conifer to conifer, and from base to top with electric speed, incinerating the living with the dead. That process of explorers, Baron Nordenskiöld, in his "Voyage of the Vega," in speaking of the pine forests that he discovered on the Venetian, within the Arctic circle, in Northern Siberia, says: "It is of enormous extent, a primeval forest nearly untouched by fire, but in many places devastated by forest fires." The most thrilling and awful sight I ever witnessed was a grove of tamarisks, trees of fire, lighted from a match that had lit my pipe. Almost instantaneously it was a flaming pyramid of flame. It was Shelley, I think, who called the lightning the tongue of the clouds. This seemed like the tongue of the clouds, in which the four winds joined and outvoted the year of his voice.

I have seen the logs all stacked down the stream. They go principally to the mills at Potsdam on the Raquette and Glen's Falls on the Hudson. The current and gravity take all but a small percentage of the logs, in the course of three years, mostly in the first year, while others, in the second, third, fourth, fifth, sixth, seventh, eighth, ninth, tenth, eleventh, twelfth, thirteenth, fourteenth, fifteenth, sixteenth, seventeenth, eighteenth, nineteenth, twentieth, twenty-first, twenty-second, twenty-third, twenty-fourth, twenty-fifth, twenty-sixth, twenty-seventh, twenty-eighth, twenty-ninth, thirtieth, thirty-first, thirty-second, thirty-third, thirty-fourth, thirty-fifth, thirty-sixth, thirty-seventh, thirty-eighth, thirty-ninth, Notice of Removal

Mrs. COMPAGNE,
Costumier & Mantle Maker

From LONDON, Eng., formerly with Mrs. Worsley, Court St. East, and J. Branscombe, Mass St., Hackney.
Every attention given to Style and Fit.
Ladies may rely upon no effort being spared to secure the New and most Fashionable Styles. *See Juvenile Dressmaking a specialty.*

Note the Address—
Corner Harvey and McDougall Streets.

Daily Evening Review

TUESDAY, AUGUST 14, 1883.

The Cells.
Two prisoners, arrested for drunkenness, rested in the police cells last night.

Smith's Market.
Choice Virginia grapes 2½ lb boxes only 50 cents; Delaware peaches \$1.75 per basket; Jenny Lynn melons, water melons, apples, pears and plums.

No Paper.
The Acting Mayor having set apart to-morrow as the Civic Holiday, and as no business is expected to be done on that day, in order to allow all to enjoy themselves, there will be no issue of the DAILY EVENING REVIEW to-morrow evening.

Ottawa Woolen Mills.
Mr. Bredie is making improvements in his woolen mill, including the building of a large tower, in which an elevator will be placed. Other work is being done, which will add to the convenience with which the work can be executed.

Champagne Cider.
The best 'wholesome' champagne beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.
Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calcott, manufacturer.

Steamers for A. C. A. Camp.
The steamers Cruiser and Fairy have made arrangements to meet every train at its arrival at Lakeside, and to convey the passengers to the camp of the A. C. A. at Stony Lake. They will still continue to do so when the third daily train is put on by the Midland Railway Company in a few days.

Dates of Coming Exhibitions.
The Provincial, at Guelph, Sept. 24 to 29th.
Dominion, at St. John N.B., Oct. 2nd to 5th.
Industrial, at Toronto, Sept. 11th to 22nd.
West Peterborough, at Peterborough, Oct. 2nd and 3rd.
East Peterborough, at Warram, Oct. 2nd and 3rd.
East Durham, at Millbrook, Oct. 4th and 5th.
Township of Otonabee, at Keene, October 12th.

Musical Instruction.
By an advertisement in another column it will be noticed that Mrs. Chambers (who has recently taken up her residence in Peterborough as leader of the Charlotte Street Methodist Church choir) proposes opening classes for instruction in vocal and instrumental music. Having devoted the last two years to the study of music in Toronto, and having held the position of soprano soloist in the Metropolitan Church choir and a prominent position in the Philharmonic Society of Toronto, Mrs. Chambers cannot fail to be well qualified to give instructions in these branches of education.

The Grand Secretary's Thanks.
On Monday evening, at the meeting of Lansdowne Lodge of the Sons of England, a letter was read from Mr. John W. Carter, of Toronto, tendering to the members his gratitude for their great kindness on the occasion of his visit to Peterborough. They met as strangers, he said, but succeeded in establishing a bond of brotherhood which he trusted never would be broken. He hoped that the lodge would become famous for great deeds and accomplishments in connection with the order, that they would greatly multiply, and become a power in the district. The Secretary was instructed to draft a suitable reply.

The Tournament.
Another feature has been added to the lacrosse tournament of Thursday next. A junior club from Norwood will play a match with the Cresce, a Peterborough junior club, at 9 o'clock in the forenoon. The Peterborough senior club are practising steadily for the match for the District Championship, and the Orillia club is doing the same so that between these two there will probably be an exciting match. The Norwood and Beaverton clubs will play an interesting game. A large number are expected here from Orillia on that day on the excursion, and also from Norwood, so that it will be like a second holiday.

The Wheat Crop.
From the August report of the Bureau of Statistics we take some figures regarding the wheat crop of the counties of Peterborough and Haliburton. Area of fall wheat in Peterborough, 13,182 acres; bushels, 290,004; area of spring wheat, 23,108 acres; bushels, 392,751; old wheat on hand, 90,947 bushels. Area of fall wheat in Haliburton, 26 acres; bushels, 204; area of spring wheat, 1,401 acres; bushels, 19,614; old wheat on hand, 2,674 bushels. For the harvest of 1882 the following statistics are given:—Area of fall wheat in Peterborough, 11,353 acres; bushels, 306,660; area of spring wheat, 27,196 acres; bushels, 332,388. Area of fall wheat in Haliburton, 240 acres; bushels, 3,840; area of spring wheat, 1,967 acres; bushels 21,537.

THE CIVIC HOLIDAY.

How the Day is to be Celebrated in Peterborough.

To-morrow will be the day set apart by the Acting Mayor as Peterborough's civic holiday. Nothing has been announced to take place in the town by way of celebrating the day, or to amuse or entertain the townspeople, and a general rush will probably be made to the excursions and picnics. Two excursions and one motor picnic have been announced, so that the townspeople will not be at a loss how to spend the day.

TO STONY LAKE.
At seven o'clock in the morning an excursion will leave the Midland station for Eagle Mount and islands adjacent to the American Canoe Association camp. This will be a good opportunity for a pleasant outing, and for paying a visit to the camp of the Association. A splendid view of the camp and Stony Lake generally can be had from the summit of Eagle Mount. The excursionists will be carried from Lakeside on the steamer Cruiser and Fairy, and their sojourn to the camping ground. Only a limited number of tickets will be issued, to avoid undue crowding, so that a pleasant trip may be expected.

IDYL-WILD PARK.
The members of McWilliams Lodge of True Blues will hold their second annual excursion to the beautiful picnic grounds Idyl-Wild Park, Rice Lake. Invitations have been sent to the brethren of Lakeside, Lindsay, Port Hope and Oshawa to be present. The Golden Eye will leave her wharf on Sherbrook street at 8 o'clock a. m. with a palace coach attached for dancing, calling at Hales' Bridge, Campbelltown and Hagwood. A first class quadrill band will be in attendance. Every effort will be made to make this excursion successful, and to cause those who attend to enjoy themselves.

PICNIC IN WALLIS' GROVE.
One of the chief features of the day's programme will be the picnic in Wallis' Grove, held by the members of the congregation of St. Peter's Cathedral, under the patronage of His Lordship Bishop Jarnett. Tables in charge of the ladies will be on hand from which all who attend can be supplied. There will be a dancing platform, &c., and no pains will be spared by the committee to make this picnic a most successful one, and one at which every one will be pleased. A number of prizes will be offered for competition in sporting events. The sports will include a 100 yards' race, hop, step and jump, three legged race, quarter mile race, putting heavy weight, standing jump, boys' race, running broad jump, girls' race, clog dance, Irish jig, game of quoits, and a special prize for a 200 yards' race for members of the Lacrosse Clubs. The attendance at the picnic will no doubt be large.

PRIVATE PARTIES.
A number of private and family picnics and excursion parties are also being organized, and altogether there appears to be every prospect of a successful celebration of the Civic Holiday.

Is Your Watch Clean?
Watches that are continually stopping and getting out of order, can be properly repaired by leaving them at Haghan's Shop, offices lately occupied by E. Burnham, Simcoe street.

Personal.
In the list of officers for the ensuing year of the Grand Priory of Canada, we notice that the Rev. Vincent Clement, B.A., has been appointed Grand Chaplain, and Mr. J. B. Traves, of Port Hope, Grand 1st Standard Bearer.

Stony Lake.
The steamer Cruiser will leave Lakeside for points from Stony Lake on arrival of special train from Peterborough on Saturday evening, and the Fairy will leave Lakeside for the same places on Monday evening at 6.30 p. m. Idyl

Fine Horses.
Mr. T. Cavanagh has purchased in this neighbourhood a carload of horses for Mr. William Thompson, the lumberman, of Orillia, for use in his shanties. They are ten of the best heavy draught horses that have left this district. Their price averaged \$190 apiece. Among them was a pair of grays it would be hard to beat. Mr. Cavanagh is most successful either at engaging men or procuring horses.

The Band of the Speller Stayed.
The Glee of the 14th last contains the following:—

"BARBERSBURG, Aug. 10.—At a meeting of the Reform Association of South Monaghan, West Riding of Yorkshire, held in the village of Balleboro, on the 10th inst., a resolution was unanimously passed heartily endorsing the action of the Honourable Oliver Mowat in the North-Western portion of the Province of Ontario, and also a resolution praying that he (the Attorney-General of Ontario) may not be seconded to a secret force in keeping out intruders and preserving the peace of the district, but declaring that in case he should have to resort to such measures he will find not only here but throughout Ontario loyal subjects willing to come to the rescue of the Province and stay the hand of the spoiler and plunderer."
That settles the Boundary Question!

Railway Notes.

The storehouse and office for the Ontario and Quebec Railway are almost completed, and the framework for the second building, the blacksmith and carpenter shops, has been raised.

A locomotive is expected here this week for the Ontario and Quebec Railway.
A despatch from Kingston says that workmen are now preparing to lay rails on the Ontario and Quebec Railway across the narrow at Sharbot Lake, and alongside the Kingston and Pembroke Railway. The Kingston and Pembroke track will be shifted next week, and the rails between Perth and Sharbot Lake will be laid in a few days. Ballasting will proceed as rapidly as possible, and there is a probability that by September 1st passenger trains will be run over the route.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

Convincing Proof.
Having suffered from rheumatism for a long time I was induced to try your Anker-Pain-Expeller. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine.
I am yours truly,
W. H. DICKSON,
218 St. Constant St., Montreal.
To Henry, Johnson & Lord, Montreal.
Anker-Pain-Expeller is sold by all Druggists.

THEY MUST GO!

GENTLEMEN,—In stentorian tones we state that certain things must go. We beg to offer below a sufficient bill of particulars.

Now, in order to make SUMMER SUITS go, special inducements require to be offered.

The following are said inducements:—

The very Newest Style of Garments.
The Best Cut and Fitting Garments.
The very best Trimmed Garments.

Back the above inducements, gentlemen, back them up with our feather-edge prices, for we never allow anybody to give so good clothing for so little money as we. If you want cool dress, either elegant or economical, come to

T. DOLAN & Co.

THURSDAY, AUGUST 16, 1883.

POLICE COURT.

ARREST.

TUESDAY, Aug. 14.—An afternoon session of the Court was held to-day. Wm. Winger was charged with having assaulted M. B. Mowrey, on Sunday. He pleaded guilty, and was fined \$5 and costs.

DRUNK.

For having been drunk on the same day, Wm. Winger was fined \$1. He was given ten days in which to pay the fine.

CRICKET MATCH.

Next Friday will be Hastings' civic holiday. As there is nothing "on the cards" for the day in the village, the Hastings Cricket Club has arranged for a match to be played here with the Peterborough Club.

Excursion from Orillia.

A large excursion party came here at noon to-day on the Midland from Orillia, Beaverton and other places. There were ten coaches on the train and about 700 people. The Orillia and Beaverton lacrosse clubs came with the excursion.

Mr. Douglas' Body Received.

The body of Mr. Wm. Douglas, who was drowned at Fenelon Falls on Saturday, was received at six o'clock on Wednesday forenoon. The stop logs were taken out and the rush of the water raised the body to the surface, about sixty feet from the spot where he was seen to sink. This place had been searched with grappling irons, but unsuccessfully. The body was brought to Peterborough the same evening, and the funeral took place this afternoon.

Not for Belleville

Our advertising columns contain the announcement of an excursion from this town to Belleville, on Wednesday, the 5th of September. We know that many have been waiting for such an excursion as this, and as the date is arranged for the day on which the Methodist wedding takes place (The Methodist Church of Canada, the Methodist Episcopal Church, the Primitive Methodist Church, and the Bible Christian Church on that day being made one at the Methodist Episcopal tabernacle in Belleville), large numbers of those interested will doubtless avail themselves of this opportunity of witnessing an event which will be historical. The train is to be a special fast one, making the time between here and Belleville three and a half hours.

THE WHISTLING NUISANCE.

To the Editor of the Review.

SIR,—More than once attention has been called through your valuable medium to "the everlasting locomotive steam whistle" nuisance, making our nights hideous and our days unhappy in this town.

People in delicate health—weak infants and not a few on the verge of the grave, are continually suffering from this outrageous and unnecessary pest.

It seems to me that the parties shouting about the yard take a delight in worrying the citizens adjacent by their horrid noises. It cannot be a necessity to do so for the purpose of warning a switchman not 30 yards off, or a brakeman within a car or two of the engine. I will not go as far as some of my neighbors in saying that the head officials have given instructions to their subordinates to torment us as a whole because they have difficulties with a few. But while this may not be a fact, yet surely they are not free from culpability when they are aware that this crying evil exists in our midst, and have not troubled themselves to lessen it. It is not saying too much to assert that these indifferent officials obliged to live in close proximity to the station, this very great abuse would not be allowed to exist for an hour.

A CITIZEN.

Peterborough, August 16, 1883.

The Lacrosse Tournament.

There is a large attendance on the Ashburnham ground this afternoon, where the lacrosse tournament is proceeding. The Orillia, Beaverton, Norwood and Peterborough clubs take part.

Dates of Coming Exhibitions.

The Provincial, at Guelph, Sept. 24 to 29th. Dominion, at St. John N.B., Oct. 2nd to 5th. Industrial, at Toronto, Sept. 11th to 22nd. West Peterborough, at Peterborough, Oct. 2nd and 3rd.

East Peterborough, at Warsaw, Oct. 2nd and 3rd. East Durham, at Millbrook, Oct. 4th and 5th. Township of Otonabee, at Keene, October 12th.

Railway Notes.

The Ontario Herald says that since work of laying rails was commenced on this end of the line, good speed has been made, as they are now laid as far out as Mr. McQuade's farm, about two miles east of the village.

The Grand Junction train was three hours late last night. It did not arrive here until twenty minutes to ten. It was over an hour late leaving Belleville, and was further delayed on the road.

A new Canada Pacific Railway locomotive arrived here on Wednesday. It was made at the locomotive and car works at Kingston, and is a substantial looking engine. It will be used on the Ontario and Quebec Railway, in the tie and track laying.

Good Testimonials.

We have been favoured with a copy of the testimonials which the Rev. E. Carus-Wilson possesses. Mr. Wilson has, in connection with the Rev. W. E. Bradshaw, established the St. Luke's private school for boys in Ashburnham. These testimonials are of the highest character, both as to Mr. Wilson's abilities as a teacher and his character. As a fair sample of the testimonials we give the following from the Rev. Pelham R. Ogle, St. Paul's College, Cambridge:—

"I have had the pleasure of the intimate acquaintance of Mr. Edward Carus-Wilson for many years. I believe him to be in every respect most suited for educational work, and to be completely and thoroughly relied upon. He is very gentlemanly, and well read; and, having travelled much, will bring to bear upon his pupils not only a thoroughly sound acquaintance with classics, mathematics, and foreign languages, but also that culture of mind and manner so important in the education of boys. I believe his knowledge to be not only extensive, but accurate, and that he is all that can be wished as an instructor of youth. His manner with boys is extremely pleasant, and I fully believe he will exercise over them a powerful influence for good. His own moral and religious character is most excellent; and I can confidently assert that I have always found him a sincere and mostly Christian. I feel sure of his success as headmaster of a school."

"PELHAM R. OGLE."

Experiments with Peas.

Experiments have been made this season, at the New York Agricultural Experiment Station, at Geneva, N. Y., on the period of growth of peas and the relative value of seed matured from the earliest and latest pods. It appears from experiments with sixty-eight so called varieties the earliest edible pods were obtained in fifty-five days from planting, and of fifteen others the latest required fifty-nine and a half days. Of seed peas gathered from the pods and from the latest pods, the average difference in the germination of the seeds was fourteen and one-half per cent in favor of those earliest matured, and in favor of earliest production of edible peas a difference of five days in favor of the earliest matured seeds. In productiveness, also, the difference in favor of those from the earliest matured seed is considerable, from an equal number of plants the earliest seed vines producing in the same time thirty-eight well filled pods to only thirteen well filled pods from the later matured seed.

Buckley's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Lacerations, Salt Rheum, Fever Sores, Cancer, Piles, Chilblains, Corns, Tetters, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

THERE is no excuse for suffering from Headache, Constipation and all the worrying train of symptoms of a disordered liver, when Buckle's Blood Bitter is an unfailing remedy, and only costs One Dollar a bottle. Why suffer on without a trial? 25,000 bottles sold during the last three months, with almost universal satisfaction.

DR. CANNON'S Stomach Bitters free the system of the poisonous humors that develop into Kidney and Urinary diseases, give tone and vigour to the stomach and purify the blood.

MIDNIGHT TELEGRAMS

CABLE.

EXPULSION OF A SOCIALIST.

Vienna, Aug. 15.—Stevens a prominent English Socialist, was expelled from Austria on Sunday. On his arrival at the German frontier he was arrested by the German authorities. He appealed to the British ambassador, who refused to interfere.

REPUBLICAN MAJORITY.

Paris, Aug. 15.—The Republicans now have a majority in 79 out of 90 districts for Council-General. They carried even Corsica and Morbihan.

IRONCLADS FOR CHINA.

Beijing, Aug. 15.—China has ordered two large ironclads to be built at Kiel.

EARTHQUAKE FEARED.

London, Aug. 15.—There are alarming signs of another earthquake in Sicily, on the island of Ischia. The springs are drying up and smoke is issuing from the fissures. The Minister of Public Works has issued an order for the immediate erection of huts for the accommodation of the people in case they are compelled to vacate their houses.

ITALY AND MOROCCO.

Tangier, Morocco, Aug. 15.—The Italian envoy has lowered his flag on the consulate. The inhabitants are in great panic. The hostile act is on account of the Sultan not having yielded to the ultimatum of Italy insisting upon full payment of the claims of Italian subjects. An Italian squadron is in the harbour in readiness to support the demand.

EMIGRATION.

London, Aug. 15.—The House agreed that £100,000 of the Church surplus fund should be applied to emigration purposes. Mr. Trevelyan assented to the suggestion of Mr. Parnell, that half the sum be devoted to emigration purposes, and promised to amend the Emigration Act so that the grant to emigrants in certain cases be raised to 25 per head.

DUTY ON WORKS OF ART.

Rome, Aug. 15.—The Government have requested assurances from official sources in America that, on the reassembling of Congress, the abolition of the protective duty on works of art will be proposed.

LAKEFIELD.

From Our Own Correspondent.

COUNCIL MEETING.

The regular monthly meeting of the Lakefield Village Council was held in the Council Chamber on Monday evening last, the 13th inst. Members present,—Mr. R. C. Strickland, Reeve, in the chair, and Messrs. Nelson, McWilliams and Urquhart, councillors.

The minutes of former meeting were read and confirmed. A general discussion took place regarding the requisite repairs of the sidewalks of the village. The roadmaster was instructed to have them all repaired at once. A discussion also arose about the sanitary condition of the village, and the advisability of forming a board of health in Lakefield, during which Dr. Caldwell addressed the Council, but no action was taken in the matter.

Moved by Councillor McWilliams, seconded by Councillor Nelson,—That the following accounts be paid, and that the Reeve's order for the several amounts be issued, viz:—

W. H. Casement, malle, &c.,	\$ 23 57
Possessors & Roger, 8 year's services as Village solicitor, &c.,	33 90
G. J. Chalmers, lumber account,	120 30
W. C. Sanders, refund of small amounts, paid postage account, &c., &c.,	24 92
F. Barle, lumber,	6 90
John Cooper, cartage,	2 45
Isaac Watson, wages,	2 25
Thomas Dunford, wages,	8 75
E. Payton, wages,	1 25
A. Mowrey, wages,	0 00
Total,	\$208 98

—Carried.
Moved by Councillor McWilliams, seconded by Councillor Nelson,—That this Council do now adjourn to meet at the call of the Reeve.—Carried.

OVER THE DAM.

Last week while repairing the Lakefield dam, two men were working with a punt at the dam, while one was stationed on a pier to stand to a rope which kept the punt in its proper position. The man on the pier, mistaking a signal, slackened the rope, and he and his punt, with much alarm that it is said his hair stood straight up, the bow of the boat rose up. At any rate, Thomas, notwithstanding his fright, had presence of mind enough to let go the rope, and the punt with its occupants went safely over and landed below the mill, only being a little shook up in the passage down the falls.

SCHOOL.

The Lakefield public school resumes on Monday next, the 20th August, at 9 o'clock, the holidays being then ended. The Lakefield small boy begins to mourn already the beginning again.

SCHOOL BOARD MEETING.

There was no school board meeting on Tuesday evening last. Cause, no quorum.

STEAMER.

The steamer Cruiser will make an extra trip on Saturday evening next to accommodate parties wishing to visit the camp at Juniper Island. She will leave her wharf on the arrival of the evening train from Peterborough at 6.30. The steamer Fairy will make an extra trip on the Monday evening following, leaving her wharf at the same hour.

Sticking Piles—Symptoms and Cure.

The symptoms are molestation, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, as well as if pin-worms were crawling above the parts affected. If allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for Tetters, Itch, Salt Rheum, Scald Head, Erysipelas, Barbers Itch, Blisters, &c., &c., &c. Swaine's Ointment. Each box for 10 cents. 1 box, 1.50. (In stamps). Address, DR. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

Advice to Mothers.

Are you distressed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Daily Evening Review

THURSDAY, AUGUST 16, 1883.

ONTARIO'S POSITION IN THE MATTER.

As the *Globe* seems disposed for once to discuss the boundary question with us, in an unusually calm spirit for it, we feel inclined to devote more space than we would otherwise be disposed to do, to its utterances.

In its issue of Monday last it had an article under the above heading, written in reply to, and in rebuttal of, our statement that Mr. Mowat had been guilty of "culpable inaction in not pushing Ontario's claims in the courts." Now whether such an accusation be or be not justified depends upon certain facts and circumstances which are a matter of record. That being the case we propose to lay before our readers the facts and circumstances which in our opinion at once answer the reasons advanced by the *Globe* in Mr. Mowat's defence and justify our accusation.

We are told by the *Globe*, that the "Tory leader" (we presume that means Sir John Macdonald) "now acknowledges that there is no court competent to settle such a boundary question." Will the *Globe* kindly give us its authority for this statement? Although we have given some attention to the various despatches which have passed between the two governments we have failed to find therein the slightest intimation that either side entertained any doubt as to the Privy Council being "competent" to render an authoritative decision. On the other hand, however, we find a reference to the Privy Council recommended and advocated repeatedly and especially by the Tory leader. For instance, we find Chief Justice Draper so far back as 1856 recommending that the western and northern boundaries of Upper Canada be settled by a reference to the Judicial Committee of the Privy Council; we find the governor of the Hudson's Bay Company in 1858 asking that their "territorial rights" be ascertained by a reference to the same court; we find Sir John Macdonald in 1872 asking the Ontario government "to concur in a statement of the case for immediate reference to the Judicial Committee of the Privy Council in England;" we find the Dominion Privy Council in November of the same year, adopting a report in which it is claimed that "an authoritative decision by the Judicial Committee of the Privy Council would be final; we find Mr. Mackenzie's Secretary of State in 1873 asking for the decision of the Ontario Government, with regard to the proposition of 1872, for a reference to the Privy Council; we find the Legislature of Ontario, at the instance of Mr. Mowat in 1874, authorizing a reference to the Privy Council; we find the Dominion Government again in 1882 urging a reference to the same authority; and finally we find the Dominion Parliament in April, 1882, declaring that in their opinion the matter should be "finally settled" by a reference to this same Privy Council. And we have the still further fact that, though opposed to a reference to the Privy Council, Mr. Mowat never ventured to object to such a proposal on the grounds of "incompetency," or its inability to render an "authoritative decision." In view of these facts the *Globe* must excuse us for declining to accept its statement that the "Tory leader now acknowledges that there is no court competent to settle such a boundary question," as sufficient evidence that "no competent court exists."

But let us suppose for a moment that there are doubts as to the ability of the Judicial Committee of the Privy Council to render an authoritative and binding decision in this matter, how is this defect to be remedied? Ontario's rights, whatever they are, were not obtained from either the Provincial or Dominion Legislatures; they were obtained from the Imperial Parliament, and that being the case, our rights can neither be taken from or added to, except as a matter of bargain between all the parties interested. Now we cannot obtain the consent of one of the parties chiefly interested to the bargain, which Mr. Mowat desires to make. The thing was attempted, but we think the *Globe* will admit that the arbitration bargain amounts to nothing, inasmuch as it never received the formal assent of the Dominion Parliament, and it now refuses to give it. That, we apprehend, leaves the rights of all parties in precisely the same position as if the arbitration had never taken place. That being the case, let us dismiss from our minds all considerations as to who is end who is not to blame for this state of affairs, and address ourselves to the practical and business question: How is the dispute to be settled? The Dominion authorities (including both the Government of the day and a large majority of Parliament) have delayed their readiness to submit it to the Judicial Committee of the Privy Council. That may or may not be the best way of settling the matter, but that is not what we have got to consider. What we have got to consider is: Is the Dominion's proposition a reasonable one? If it is we should accept it, even though it may set, in our estimation, be the best. If not, we should at least be ready to make some counter proposition, which will remove what we consider unreasonable in their proposition, instead of sitting down like a spoiled child and declining to do anything unless we get everything our own way.

If the difficulty in the way of accepting the Dominion proposition be, as the *Globe* would sup-

parently have us believe, want of "competence" why has this not been pointed out long ago, and its removal suggested. Surely if orders in council could constitute Chief Justice Harrison, Sir Francis Hink and Sir Edward Thornton, "a competent court," as the *Globe* claims in this same article they were, for the settlement of this dispute, there need surely be little doubt about the Dominion and Provincial Parliaments being able to give the necessary authority to the Privy Council.

If the press on one side would cease crying over "spilt milk" and on the other from simply showing up the falsity of the position which Mr. Mowat has got himself into and address themselves in a business like manner to the best means of settling a dispute which should be settled on business principles it does seem to us their readers would not only be benefited, but that the dispute would speedily be at an end and the peace and good government of the territory in dispute assured.

As we have repeatedly stated before we believe the resolution passed by the House of Commons in April 1882 sets forth the basis for a reasonable settlement of this whole question. At the same time we do not pin ourselves to every jot and tittle of that resolution as unalterable. If there be those who think that they can suggest a better plan—one that should commend itself to the reason of all parties to the dispute, by all means let us have it and so far as we are concerned we promise it our best consideration. Until that, however, is done we must be excused for adhering to a resolution which contains the basis of the only feasible proposal now before us, for obtaining a settlement which all admit it is of consequence should be obtained at the earliest possible moment.

Passing over the *Globe's* claim that the board of arbitrators was a "competent court" for the settlement of this matter, as a statement so contrary to fact as to be unworthy of serious consideration, when applied to anything taking place under our system of popular Government we would refer very briefly to the *Globe's* statement that Ontario has been in possession of this territory since she became a Province as the Province of Canada was previously. Here again all depends upon the meaning attached to the word possession. As we understand it possession is equivalent to being in occupation. Now we think, that this Province has not been continuously in occupation of the whole of this territory. As a matter of fact this Province in 1874 consented to the Dominion going into occupancy of all of its west of the conventional line then agreed upon as the Dominion consented to this Province occupying all that east of the same line, and under that agreement the Dominion has been and is to-day the occupant of the western and northern part of the disputed territory as Ontario is of the southern and eastern part of it, and in our opinion, and we hold to the opinion anything the *Globe* has said to the contrary, notwithstanding, that Ontario is no more justified, under existing circumstances, in exercising its authority west and north of the conventional line than the Dominion or Manitoba would be in exercising their authority in that part of it east and south of the same line, and finally that Mr. Norquay has from the Dominion point of view precisely the same grounds for taking possession at Fort William as Mr. Mowat has for taking possession at Rat Portage. In arguing that possession is instantaneous of the law in this affair the *Globe* should remember that it is making it a question not of right of might and that by so doing it is arraying all the rest of the Dominion against Ontario. Does it think this is a patriotic policy? If it does we do not. The *Globe* should remember that we cannot hurt the Dominion without hurting ourselves, and that our true policy is, while maintaining our rights as a Province, never to forget that we are a part of the Dominion, and that a moderate and dignified presentation of our case is calculated to obtain us justice from our brethren while bluster and bullying is calculated to alienate even those who are most disposed to be friendly to us. Unhappily the Mowat policy ever since 1874 has been a course of blustering and bullying, unbecoming the Premier Province of the Dominion, and unbecoming any one confident of the justice of his cause.

WHY? WHERE? HOW?

The *Globe* of the 15th instant says:—

"If Sir John Macdonald believed the award invalid, he would not so obstinately refuse to refer that question to the Judicial Committee of the Privy Council."

"This, we take it, is equivalent to saying that Sir John Macdonald was asked and refused to assent to the question of the legality of the Boundary Award being referred to the Privy Council. If so, we beg to ask the *Globe* for a reply to the following questions, viz:—

Who asked Sir John Macdonald to refer the question of the validity of the AWARD to the Privy Council?

When was he so asked?

When and how did he reject such a proposition?

Where is the correspondence making such a request and containing such a refusal to be found?

Our reason for asking these questions is that this is the first time we have ever seen it stated that any responsible person held the opinion that the award was a valid award, that is an award which could be enforced in the courts, and which the Courts were bound to recognize, without the ratification of the Dominion Parliament. However, if the *Globe's* statement means anything, is anything more than the raving of some unfortunate lunatic, it will be able to give us direct and plain replies to the questions we have asked, and if these replies confirm the statement we have quoted, we shall be ready to admit that such request and refusal puts a new face on this boundary question. In the meantime we shall await the *Globe's* reply with some impatience.

"Why, Angeline, where did you get those beautiful fish colors on your bonnet?" "Ah! they're lovely!" "I got them with the Triangle Package Dye." "Ile."

THE WEST SIMCOE ELECTION PETITION.

The petition against the return of Mr. O. J. Philips, Reformer, for West Simcoe, came on for trial this week at Barrie. After occupying the court three days in taking evidence and hearing the argument of counsel, judgment was reserved, to be delivered in Toronto on Saturday, the 18th inst. This makes the sixth petition against Reformers which has not gone off the files without the production of evidence, and it is the second in which judgment has been reserved.

Thousands say so.
Mr. T. W. Atkins, Girard, Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints, purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by Taylor & McDonald.

A CURE FOR CHOLERA MORBUS.—A positive cure for this dangerous complaint, and for all acute or chronic forms of Bowel Complaint incident to Summer and Fall, is found in Dr. Fowler's Extract of Wild Strawberry; to be procured from any druggist.

Daily Evening Review

THURSDAY, AUGUST 16, 1883.

The Cells.
Two tramps rested in the police cells on Tuesday night, and they were empty last night.

Foresters.
Look out for the Forester's demonstration and excursion. Time and place will be announced in a day or two.

Smith's Market.
Choice Virginia grapes 2½ lb boxes only 50 cents; Delaware peaches \$1.75 per basket; Jersey Lyman melons, water melons, apples, pears and plums.

Time Extended.
The time for receiving the tenders for the erection of a brick dwelling and outbuildings on the lot adjoining Mr. Stapleton's, Water street, has been extended to August 22nd.

Cheap Excursion.
The steamer Golden-Eye will run a cheap excursion to-morrow, Friday, the 17th, to Gore's Landing, Harwood, and Idyl Wild. Return tickets, 50 cents.

Four Watch Clean.
Watches that are continually stopping and getting out of order, can be properly repaired by leaving them at Hughson's Shop, office lately occupied by E. Burnham, Simcoe street.

The Weather.
The weather to-day is cooler and cloudy. The weather probabilities for this district, as issued from the Toronto Meteorological office at one o'clock this morning, for twenty-four hours, are as follows:—Moderate winds, fine weather, and stationary or slightly higher temperature.

Champagne Cider.
The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.
Put up in bottles. Orders sent by telephone if left at Rapp and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

Stars vs. Beavers.
On Tuesday afternoon two of the junior lacrosse clubs, the Stars and the Beavers, played a match. Mr. Jas. Connal acted as referee. The match was closely contested by the boys, but the Beavers won it. The first and second games were taken by the Stars in 38 and 12 minutes, and the third and fourth games by the Beavers in 4 and 1 minutes, and the fifth by the Beavers in a short time. The boys play well, but they should try to play a little less roughly.

Cretes vs. Norwood Juniors.
A lacrosse match was played on the Ashburnham grounds this forenoon, between the Cretes, of Peterborough, and the junior twelve of the Norwood club. Mr. McDougall, of Norwood, was referee, and Messrs. LeBrun and Robertson, umpires. The Cretes were captained by Mr. W. Rodkins, and the Norwoods by Mr. F. Brennan. The playing was lively and interesting. The Cretes took the first and second games, the Norwoods the third, and the Cretes the fourth. The boys made some good playing, and the way the exhibition they gave of the national game speaks volumes for the success of the game in the future in both Peterborough and Norwood.

The Fruit Crop.
A circular received from Mr. J. B. Thomas, of Covent Garden Market London, sums up the net results of a careful collection of a large number of independent reports as to the prospect of the present years apple crop in Great Britain and on the continent as follows:—
(1) That the prospects of the apple crop this side are, in the aggregate, unusually promising; and that in the absence of adverse weather influences, the output will, in every respect, leave little to be desired.
(2) That all shipments of American and Canadian apples to Glasgow and Liverpool should meet with fair demand at moderate figures.
(3) That shipments to London, if ventured on, must consist only of those varieties which can successfully compete both in quality and condition with supplies from other parts.

Serious Runaway Accident.
A very serious runaway accident occurred on Wednesday afternoon. Mr. Wm. Taylor, who is employed in Mr. P. Hamilton's foundry, was driving near the quarry with his wife and two children. The bolt came out of the wheel, and the horse started. The horse was frightened and ran away at full speed, turning in towards the quarry pit. The buggy upset and threw the occupants off, and the horse sped on into the pit, where it stopped. Mr. Taylor was injured about the head and neck by the fall, and was rendered unconscious for about half an hour. Mrs. Taylor was slightly injured, and the little girl's collar bone was broken. Mr. Taylor's son, the fourth occupant of the buggy, escaped uninjured. Mr. A. C. Macleod, who saw the accident, went for Dr. Kincaid, who attended to the sufferers. The horse was not injured and the buggy very little damaged.

PETERBORO'S HOLIDAY!

THE CELEBRATION OF THE DAY BY EXCURSIONS AND PICTNOS.

An Excursion to the American Canoe Association Camp—Cathedral. Picnic at Wallis' Grove—Trip: Buses Down the River.

Peterborough's Civic Holiday, Wednesday, was celebrated in a quiet way. The town itself was very quiet all day, and especially in the afternoon. Two excursions in the morning drained the town of a good many pleasure seekers, and the picnic at Wallis' Grove attracted a great many more, who were inclined towards those outdoor social gatherings. These quiet holidays are a great benefit. They give many persons a few hours of relaxation from business, and an opportunity of obtaining outdoor exercise and fresh air, while many more are given an opportunity of a day's rest. The weather during the day was all that could be desired. Although the sun was shining the heat was not oppressive, and it was a day that could be thoroughly enjoyed.

EXCURSION TO STONY LAKE.
The first excursion to leave was that which went to the vicinity of the American Canoe Association Camp at Stony Lake. The train left the Midland station at about 7 o'clock in the morning, with about two hundred excursionists on board. At Lakeside and Young's Point their number was augmented. The steamers Cruiser and Fairy conveyed the party from Lakeside to Stony Lake, and they had a very pleasant run up the lake, except that the Cruiser was delayed at one point by logs, which caused her to run on a pier. However, the excursionists arrived at their destination in good time, those on the Cruiser about an hour later. Six enjoyable hours were spent at Stony Lake. Many who had friends already camped there seized upon this opportunity of looking in upon them, and visits were paid to the A. C. A. island. At about a quarter after five the first boat departed for Lakeside, and the whole party arrived home at about nine o'clock, and it is safe to say that there was not one who did not enjoy the excursion.

DOWN THE RIVER.
The second excursion to leave was that which went down the river. This was the second annual excursion of McWilliams Lodge of True Blues. The steamer King-Fisher, with the party, a large one, left her wharf shortly after 8 o'clock, with a palace scow attached. A quadrille band was on board, and the lovers of the dance "tripped the light fantastic toe" on the voyage down the river. In the river the logs interfered with the free passage of the steamer, and at Campbelltown it was seen to be useless to try to go any further, so the excursionists disembarked there. At this picnic ground the party had no difficulty in spending a pleasant day. Dancing and those staple amusements which are characteristic of picnic parties were enjoyed to the full extent, and at about six o'clock the return trip began. The beautiful moonlight made the return pleasant, although it was nearly midnight before the party arrived home.

THE CATHEDRAL PICNIC.
The picnic at Wallis' Grove, held by the congregation of St. Peter's Cathedral, under the patronage of His Lordship Bishop Jamot, was very largely attended. The grove being a short distance from the town large numbers flocked over, and filled the pleasant wood. Early in the forenoon the busses began running to the grove, and continued their trips, loaded with passengers, until on in the afternoon. At the picnic grounds ample preparations had been made for a large assemblage. Tables, loaded with toothsome edibles, were laid out under the trees, and dinner and tea were partaken of by large numbers. The dancing platform was never empty during the day, and other amusements were kept going. An exhibition of acrobatic feats by two boys was very entertaining. The sports and games were quite successful and interesting, especially the running races and the dances. The following is a list of the sports and the prize winners:—
Boys' Race—(Under fourteen years).—Joe Phelan 1st and Willie Sanderson 2nd.
100 YARD RACE.—J. Kennedy, Lindsay, 1st and J. Glover 2nd.
HOR. STEP AND JUMP.—P. Welsh 1st (37 feet 4 inches) and J. Theobald 2nd (35 feet 1 inch).
ROMPING HIGH JUMP.—Walter McMillan 1st, and J. McNamara 2nd.
QUARTER MILE RACE.—J. Kennedy 1st and P. Welsh 2nd.
PUTTING HEAVY WEIGHT.—T. Armstrong 1st.
STANDING JUMP.—M. Dean 1st and J. M. Conlon 2nd.
BURNING BROAD JUMP.—M. Collins 1st and W. McMillan 2nd.
GIRLS' RACE.—Jenny McMillan 1st and Katie Johnston 2nd.
CLOO DANCE.—B. Corkery 1st.
IRISH JIG.—R. Tierney and lady 1st and J. Cronan and lady 2nd.
200 YARD RACE—(open to members of the Lacrosse Club).—William Rodkins 1st and W. Morrow 2nd.
GAME OF QUORNS.—D. Galletly 1st.

After the conclusion of the sports the people began to retire to town, but it was almost dark before the ground was empty. The attendance at the picnic was very large. The amount taken in at the gate was \$300, and the number present was not less than 1,500 persons, and all those present appeared to enjoy themselves. **PRIVATE PARTIES.**
A number of private picnic parties went out of town, in busses and small boats, and no doubt they had a pleasant day. Driving was indulged in largely, and altogether the townspeople appeared to thoroughly enjoy the Civic Holiday.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Mastic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

THEY MUST GO!

GENTLEMEN.—In stentorian tones we state that certain things must go. We beg to offer below a sufficient list of particulars.

Now, in order to make SUMMER SUITS go, special inducements require to be offered.

The following are said inducements:—

The very Newest Style of Garments.

The Best Cut and Fitting Garments.

The very best Trimmed Garments.

Back the above inducements, gentlemen, back them up with our feather-edge prices, for we never allow anybody to give so good clothing for so little money as we. If you want cool dress, either elegant or economical, come to

at 110 and 120 worth 140 and 160 cents.
It would be useless for me to give you quotations on
everything in the Store. All I have to say is that every-
thing in the Store will be

SOLD FOR COST!

And I also wish you to bear in mind that those
goods are all Genuine Goods, and not bought merely so
advertisers for. I will give you a first-class article for
the same money that other houses will give you an
inferior article for. Do not fail to call early while you
have a good selection to choose from. Come early!
In the morning avoid crowding in the evening.

J. HACKETT'S.

DAILY EVENING REVIEW

FRIDAY, AUGUST 17, 1883.

POLICE COURT.

DRUNK.
FRIDAY, Aug. 17.—John Brown was charged
by P. C. Adams with having been found drunk
in a public place. He was arrested at about 1
o'clock this morning. He was fined \$1 or ten
days in goal.

ASSAULT.
Alex. McDonald was charged with having
used abusive language towards, and assaulted
E. Crooks. He did not appear. A fine of \$2
and costs, or twenty days in goal was imposed.

Smith's Market.
Choice Virginia grapes 24 lb boxes only 50
cents; Delaware peaches \$1.75 per basket;
Jenny Lynn melons, water melons, apples, pears
and plums.

Champagne Cider.
The most wholesome temperance beverage
made. Put up in kegs expressly for farmers
use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.
Put up in bottles. Orders sent by telephone
if left at Rush and Elliott's, and delivered in
any part of the town. H. Calcutt, manufac-
turer.

A. C. A. Camp.
Mr. W. J. Kearns, of Young's Point,
has gone to considerable expense erecting a very
large dining tent and about fifty smaller ones
on Eagle Mount, directly opposite the A. C. A.
camp grounds on Juniper Island. He has also
a large cookery erected, and a wharf built for
the steamers to land passengers. The travel-
ling public can be accommodated with meals
and good clean beds, and save them the trouble
of bringing their camping utensils and pro-
visions. It is a capital idea. No charge will be
made to land on the island, it being free to all.
Any amount of music and dancing on the
grounds. Large sail and row boats, and canoes
free of charge to customers.

Me! for Belleville
Our advertising columns contain the an-
nouncement of an excursion from this town to
Belleville, on Wednesday, the 5th of Septem-
ber. We know that many have been waiting
for such an excursion as this, and as the date is
arranged for the day on which the Methodist
wedding takes place (The Methodist Church of
Canada, the Methodist Episcopal Church, the
Primitive Methodist Church, and the Bible
Christian Church on that day being made one
at the Methodist Episcopal tabernacle in Belle-
ville), large numbers of those interested will
doubtless avail themselves of this opportunity
of witnessing an event which will be historical.
The train is to be a special fast one, making the
time between here and Belleville three and a
half hours.

DESTRUCTIVE FIRE.
Cabinet Factory, Marble Works, Pump
Factory and Blacksmith shop Burned.

At about fifteen minutes to two o'clock this
morning the fire alarm was sounded, the fire
being in the pump factory on Charlotte street,
near the corner of George, belonging to Messrs.
Wright & Payton. The firemen turned out
promptly, but the flames, which had got consid-
erable headway, spread rapidly. The fire engine was
brought out and stationed on the bridge over
the creek on Charlotte street, but a few minutes
were lost before she was got to work, as it was
thought that the engine would not be required.
A branch of the hose was also attached to the
hydrant in front of the City Hotel, but as this
hydrant had only been put in the evening
previous, and had not been tested, the hose was
moved to the hydrant near Simcoe street.
There was further delay before this branch did
any execution, as there was not sufficient pres-
sure on to throw the water on the fire, and
there was a difficulty in communicating with
the pump house. A courier was despatched on
horseback to the pump house, but before he ar-
rived there it became known that the telephone
at Mr. P. Hamilton's was connected with the
pump house, and he was asked to send word
there, which he did. When the pressure was
turned on the works threw a splendid stream,
but in the meantime the pump factory,
Mr. F. Desautel's blacksmith shop, Mr.
Moore's marble works and Mr. A. Com-
stock's cabinet factory had been destroyed.

Mr. Comstock's factory was in a brick building,
owned by Mr. G. Taylor, who also owned the
buildings in which the pump factory and black-
smith shops were situated. Everything in the
pump factory and blacksmith shop was destroyed,
all the stock and manufactured work in the
second story of the cabinet factory was burned
and many of the monuments and slabs in the
marble works were ruined. It was with much
difficulty that the fire was kept from igniting
the stables in the rear of these buildings. Mr.
Desautel has no insurance on his tools and stock
and his loss will be considerable. Messrs. Wright
& Payton were insured in the Lancashire for
\$800 and their loss will probably amount to \$800.
Mr. Moore was insured in the Western for \$600
and he estimates his loss in the building and
marble work at \$1,500. Mr. Comstock was in-
sured in the Phoenix for \$1,000 and he places
his loss at about double that amount. Mr. Taylor
had \$1,100 on the brick building, \$300 on the
pump factory and \$100 on a horse power and
shaft, in the Lancashire. Mr. Taylor estimates
his loss at \$2,300 in the brick building \$600 on
the pump factory and \$200 on the blacksmith
shop, which would leave an excess of \$1,500 over
his insurance. The origin of the fire is not
known, and incendiary is suspected.

The Cells.
One prisoner, arrested for drunkenness, oc-
cupied the police cells last night.

Working by Moonlight.
Messrs. Roddy & Craig had a gang of Italian
navies working on the culvert on the Ontario
and Quebec Railway across the Monaghan
boundary until midnight on Thursday night.
They were ready for the rails this morning. The
contractors speak highly of the sons of sunny
Italy as workers.

Leg Fractured.
Mr. John Buchanan, who resides on Reid
street, met with a serious accident on the On-
tario and Quebec Railway this forenoon. He
was working on Roddy & Craig's contract, and
fell off a load of gravel in front of the cart, the
wheels of which passed over his leg, causing a
compound fracture below the knee. He was
brought home, and the broken limb was attend-
ed to by Dr. Boucher and Dr. O'Shea.

The Orillia Excursion.
The Orillia excursion party, which arrived
here at noon on Thursday, left again at 7 o'clock
in the evening. The party numbered about
seven hundred. A number of the members of
the Peterborough Lacrosse Club were at the
station to see the Orillia and Beaverton lacrosse
boys off, and the Fire Brigade Band also went
down to the station and played a number of
selections. Bousing parting cheers were given
as the train moved off.

Handsome Windows.
Peterborough merchants are noted for their
taste and experience in fancy window dressing.
From one end of the business portion of George
street to the other, the windows are all hand-
somer and artistically decorated. Perhaps no
other windows in town present a more striking
appearance to the passer-by than the windows
of the store of Mr. Thos. Kelly. One or two of
our exchanges have already made note of this,
and to-day we observe they are especially well
dressed. It is something that our merchants
should pride themselves in, as the plate-glass
gives ample assistance to their window dressers
in the art of decoration.

Thousands Say so.
Mr. T. W. Atkins, Girard, Kan., writes:
"I never hesitate to recommend your Electric
Bitters to my customers, they give entire satis-
faction and are rapid sellers." Electric Bitters
are the purest and best medicine known and
will positively cure Kidney and Liver complaints
purify the blood and regulate the bowels. No
family can afford to be without them. They
will save hundreds of dollars in doctor's bills
every year. Sold at fifty cents a bottle by Tay-
lor & McDonald.

**There is no excuse for suffering from Head-
ache, Constipation and all the wearying train
of symptoms of a disordered liver, when Bur-
dock Blood Bitters is an unfailing remedy, and
only costs One Dollar a bottle. Why suffer on
without a trial? 25,000 bottles sold during the
last three months, with almost universal satis-
faction.**

MIDNIGHT TELEGRAMS

CABLE.

MIGRATION IN IRELAND.
DUBLIN, Aug. 16.—It is intended to organise
a company to raise a fund to supplement the
Government grant for migration in Ireland. A
special appeal for subscriptions will be made to
the Irish in America.

A TWO-DAYS' BATTLE.
DUBLIN, Aug. 16.—There has been a two-
days' battle between the followers of Ceteaway
and Unibeu, with great slaughter on both sides.
It is said Unibeu was defeated and fled.

A FRESH AGITATION.
LONDON, Aug. 16.—In the House of Commons
last evening, during the debate on the vote for
expense of the Land Commission, Mr. Parrell
declared that unless the deficiencies of the Land
Act were speedily remedied he would lead a
deeper and more desperate agitation than any
yet witnessed. The Act, he said, had been
applied with a slowness and inefficiency very
different from the way the Coercion Act had
been applied.

TONGUIN.
PARIS, Aug. 16.—The forts at the mouth of
the Hue river were to have been occupied yes-
terday or to-day. It is intended to attack Hue
and Sontay simultaneously.

THE SPANISH REVOLUTION.
MADRID, Aug. 16.—Notwithstanding the
advice from the military authorities the Prime
Minister has determined to restore the constitu-
tional guarantees before the King starts on a
visit to Germany. It is certain that some re-
formed bands are still causing alarm in the north
of Spain.

THE CHOLERA.
CAIRO, Aug. 16.—The Khedive to-day visited
the hospitals and spoke words of encourage-
ment to the patients suffering from cholera.
Deaths thus far among the British troops num-
ber 123.

THE MOROCCO DIFFICULTY.
TANGIER, Aug. 16.—The flag on the Italian
consulate, which was hauled down yesterday,
has been again hoisted. The fears that the
Italian squadron would bombard the town are
subsiding.

EXPULSION FROM RUSSIA.
ST. PETERSBURG, Aug. 16.—A British Jew,
representing a business firm in London, who
arrived in St. Petersburg yesterday with
proper British passport and credentials to bank-
ing firms, has been expelled from Russia by
order of the authorities. It is reported that the
Russian Minister of Interior has ordered the
enforcement of the decree forbidding Jewish
manufacturers employing Christian workmen.

THE PORK QUESTION.
LONDON, Aug. 16.—A Berlin correspondent
says the threats that the United States would
impose a retaliatory tariff have made an im-
pression on the German Government. The
statement probably refers to the pork question.

THE FALSE PROPHET.
SUZ, Aug. 16.—Two thousand Bedouins
attacked the caravan at Suze and were
repulsed, sixty being killed. The soldiers de-
fending the place lost seven men, the civilians
five. Suze is in Nubia, on the Red sea. The
attack was incited by the False Prophet. It is
reported that Suze is also threatened.

JEWISH RIOTS.
PRAHA, Aug. 16.—A mob of 500 attacked
the Jewish quarters on Wednesday night. The
rioters were dispersed before they did much
harm. The frequency of these riots greatly
alarms the authorities. The police and military
officers have been ordered to crush with the ut-
most energy every outbreak.

THE WHISTLING NUISANCE.
To the Editor of the Review.
Sir,—I was much pleased to read "A Cid-
zen's" remarks in your last issue upon the rail-
way whistling nuisance carried on within the
limits of our otherwise orderly town.

I have to particularly complain of the wholly
unnecessary manner in which the engine
whistles are blown on what is known as the
Missing Link Line from early morning until
well into the night.

It would certainly be a relief to citizens and
a bit of economy to the railways to have this
waste of steam curtailed as much as possible, and
I am sure it only requires this intimation to the
proper officials to enable us to enjoy the
quietude we should have in this respect.

ANOTHER CITIZEN.
Peterborough, August 17, 1883.

Just in Time.
Any day in summer one may meet around
the ferry dock an old lake captain who was
once crossing Saginaw Bay in his schooner with
such a gale howling after him that no one ex-
pected the craft to reach harbor. As the gale
reached its climax, the captain announced to the
main body of him:

"Mr. Thomas, if we come safe out of this I
am done with whiskey."

The mate said it was the same with him, and
the captain presently continued:

"And I'll never utter another oath."

The mate agreed to also stop swearing, and
this warned the old man up to promise:

"And I solemnly declare Mr. Thomas, that
I'll leave off chewing and smoking."

"There's another thing, Captain," shouted
the mate after a while.

"What's that?"

"You might promise to leave off lying."

"Yes, I hold on, hold on! No, I'll be
hanged if I do! There's bide sky over there
and we have seen the worst of it! Get those
men on deck ready to put her about, and if you
ever tell anybody of this I'll pulverize you to a
jelly!"—Detroit Free Press.

Advice to Mothers.
Are you disturbed at night and broken of your rest
by a sick child suffering and crying with pain and
cutting teeth? If so, send at once and get a bottle of
Mrs. Winslow's Soothing Syrup for Children Teething.
Its value is incalculable. It will relieve the poor little
sufferer immediately. Depend upon it, mothers, there
is no mistake about it. It cures dysentery and diar-
rhea, regulates the stomach and bowels, cures wind
colic, softens the gums, reduces inflammation, and
gives tone and energy to the whole system. Mrs.
Winslow's Soothing Syrup for Children Teething is
pleasant to the taste, and is the prescription of one of
the oldest and best female physicians and nurses in the
United States, and is for sale by all druggists through-
out the world. Price 25 cents a bottle.

Itching Piles—Symptoms and Cure.
The symptoms are moisture, like perspiration, intense
itching, increased by scratching, very distressing, par-
ticularly at night, some of it pin-pricks even crawling
above the parts affected. It is followed by continue very
serious results may follow. "SWAYNE'S OINTMENT"
is a pleasant, sure cure. Also for Tetter, Itch, Bala-
neum, Scald Head, Erysipelas, Barbers Itch, Blotches,
all scaly, crusty Skin Diseases. Sent by mail for 50
cents; 2 boxes, 1.25. (In stamps) Address, DR.
SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

Notices of Births, Marriages and Deaths, 50 cents each, including insertion in weekly edition.

Daily Evening Review

FRIDAY, AUGUST 17, 1883.

CALLING ATTENTION TO THEIR OWN WEAKNESS.

That the *Globe* is fully alive to the present shaky condition of the Mowat Government and the badness of the case which they have to present to the electors of Algoma is made amply evident by the line of argument which it has adopted in the hope of inducing a majority of the electors of that constituency to record their votes in favour of the ministerial candidate on the 31st of next month.

More than one occasion recently, and especially in its issue of the 14th inst, it devotes a good deal of space to impressing upon the electors of Algoma that the fate of the Mowat Administration does not depend upon the result of the election in that constituency. We are inclined to think that the *Globe* will prove a true prophet so far as this statement is concerned, although we dispute the correctness of its statement that "Mr. Mowat and his colleagues in the ministry" had either "their conduct in office approved" at the polls or "have a majority sufficiently large" to carry them through the Parliamentary term for which the present assembly is being elected even though a majority of the electors of Algoma should declare in favour of Mr. Mowat's faithful follower—Mr. Lyon.

Of course this is a matter of opinion which must remain untested until the assembly meets, unless Mr. Mowat should, conscious of his own weakness, throw up the sponge just before the arrival of, to him, the fatal hour. But this does not prevent a discussion of the reasons advanced by the *Globe* in support of its assertion, although we should be very sorry to publish upon the house-tops all the reasons which lead us to believe that the day of Mr. Mowat's life as Premier of Ontario are numbered.

In order to strengthen its claim that it is "absurd to talk of defeating the present Government during the present Parliament," the *Globe* reproduces a list of the members thus far returned, with what it claims to be an "accurate" specification of "the political attitude which each member has distinctly taken." In this list it claims 49 votes for Mr. Mowat, gives 37 to the Opposition, and claims Mr. Lee, of South Lambton, a gentleman who throughout the last Parliament gave Mr. Meredith a cordial support, as an independent. This figuring of course gives the Government a majority of 11 to 13, according as Mr. Lee drops on one side or the other, and assures Mr. Mowat a majority of ten, even though both Algoma and Mr. Lee goes against him. But it is one thing to figure it out and another to have it—as many have found out to their sorrow.

Among the *Globe's* 49 we find the name of Mr. Hart, of Prince Edward, as a supporter of Mr. Mowat.

It may be that the *Globe* is right in so classing Mr. Hart, but for the present we must disbelieve the *Globe* because we are not prepared, on the *Globe's* unsupported evidence, to assume that Mr. Hart is a dishonest man and has sold himself and the electors who elected him, body and soul, (politically), to Mr. Mowat. This is pretty strong language, but that it would not be open to two strong reasons the *Globe's* statement we shall endeavour to make plain. The style of the *Globe* itself shows that Mr. Hart was nominated as an opponent of that consistent and staunch supporter of Mr. Mowat—Mr. Gibson Striker; they show that so anxious was Mr. Hart to defeat Mr. Striker elected, that Mr. Hart visited the constituency in the latter's behalf; they show that after the battle was over, when the *Globe* was naturally anxious to make the best of a bad job for Mr. Mowat, that Mr. Hart was still in their estimation an "independent." It is also a matter of record that Mr. Hart as a candidate for the suffrages of the electors of Prince Edward declared himself to be fully in accord with Mr. Meredith on the great questions of the day. And against all these facts what have we? We have the *Globe's* word (and we leave the reader to draw his own conclusions as to its value), that Mr. Hart has gone over to the camp of the enemy for a consideration—Mr. Hart being the seller, and Mr. Mowat being the purchaser. The consideration being that a little petition proposed to be presented by Mr. Striker against Mr. Hart's return should not be proceeded with. That the *Globe* would rejoice in and defend such a corrupt transaction on the part of its friends is beyond dispute; that Mr. Mowat would be a party to such a purchase there is too much reason to fear—no doubt anything his conscience with the doctrine "that the end would justify the means," but that Mr. Hart would be guilty of selling himself we shall not believe until we have better proof of the bargain and sale than the *Globe's* unsupported statement.

But let us assume for the moment that Mr. Mowat has actually succeeded in purchasing Mr. Hart, and securing his vote in support of these very measures which he denounced during the campaign, what does it prove? Does it not prove that Mr. Mowat feels himself to be in the last ditch, and that it is impossible for him to maintain his hold of power except "by the purchase of members." If so the elections were over it was necessary to condone corruption, what may we expect before this Parliament has run its course? If, instead of follow-

ing the biblical instruction not to do evil that good may come, Mr. Mowat's motto is to be, "the end justifies the means," his chief end being the retention of power for himself and of the good things which flow therefrom for his followers, what a nice time we shall have, seeing that even according to the *Globe's* own figuring, any cabal of half a dozen members can make or unmake Mr. Mowat. Why, to our minds, and we think most people will agree with us, the claiming of Mr. Hart, under the circumstances we have just stated, as one whose attitude as a supporter of the Mowat Government has been distinctly taken, is the best possible proof of the weakness of its position, and of the discreditable means to which it is prepared to resort to maintain itself in power. As to the result in Algoma not being viewed by themselves as of the greatest consequence, their actions are the best reply to their own words. With Algoma they may be able to draw out their political existence a little longer. Without it, it is questionable if the Mowat Government will even meet the newly elected Legislature.

But not only is the *Globe's* list of supporters deceptive. It leaves out of account altogether the probable effect of the contest in the courts. It is true that thus far nobody has been unseated, but even the *Globe* cannot deny some four or five of its friends have been placed in a very uncomfortable position by reason of the evidence which has already been given in the courts. Neither can it deny that no less than six petitions against Conservatives have gone off the files of the courts without a single title of evidence being given in their support, while only two petitions against Mowatites have shared the same fate, and that the result of this is to leave on the files to-day over a dozen more petitions against the supporters of Mr. Mowat than there is against those of Mr. Meredith.

But even if the *Globe's* figuring were correct, which it is not, there are other elements at work which must prove particularly embarrassing to the Mowat Government. Mr. Mowat will no longer have it all his own way in the Legislature. Opposed to him, he cannot deny, there will be a vigorous although not unparliamentary opposition, who have obtained a numerical victory at the polls if not in the House, despite all the influence which a thoroughly organized and unscrupulous government and their minions throughout the country could bring to bear against them, and which will compel him to face and deal with not a few knotty and disagreeable questions which his previously large majority enabled him to shelve in the closet of "serious consideration." Under these circumstances, and without entering into particulars which it would be inexpedient to mention at this stage of affairs, we think a calm review of the Provincial political situation will convince most people that the balance of chances are largely in favour of the Opposition crossing the floor of the assembly at a not very late period of the approaching session, and what is more that none know this better than the inner circle who inspire the *Globe's* articles.

THE LATE JOHN HALL, ESQ.

The late John Hall, who died at Buckhorn on the 12th instant, was, if we are not much mistaken, prior to his death the oldest pioneer of this county then living. Mr. Hall came to America from Cothill, County Cavan, Ireland, about the year 1820, when he had already reached the mature age of thirty-three. Shortly after his arrival in New York, where he remained until 1826, he was married to his first wife, the mother of the late Judge Hall, John J. Hall, and their sisters, who followed him from Ireland for that purpose. In 1826—fifty-seven years ago—he left New York and came on to Canada, and settled in Peterborough, acquiring and turning to advantage the water-power now belonging to the Dickson estate. It was he also who erected the first mill at Buckhorn, where he died, and where he had the pleasure of entertaining, as he knew so well how to do, Sir John Colborne, when on a tour through the part of Upper Canada as Governor-General. After remaining here some years he returned to New York, where he was an intimate friend of the late A. T. Stewart, of that city, but returned again, a goodly number of years ago, residing firstly in Peterborough, and latterly at Buckhorn. Mr. Hall was married three times, his last wife predeceasing him about eleven years, and out of a numerous family four sons and three daughters still survive. Mr. Hall was of a very genial and hospitable disposition, and was, as a consequence, liked by every one who knew him, and that was every one in the settlement in those early days. For the last seven or eight years failing health necessitated his keeping to the house, but notwithstanding his advanced age his memory, always good, retained its vigour wonderfully almost to the last, and nothing pleased him more than to see an old friend, or even the descendants of those with whom he had been familiar in the olden time.

In politics Mr. Hall was a zealous Conservative and a staunch supporter of Sir John Macdonald, of whom his son, who the latter represented the old united counties of Peterborough and Victoria, was a great personal friend. Like most of the old settlers of this district, he had often hoped to see the day when the Trent Valley Canal scheme would be realized, and although he did not, unfortunately, live to see it, he did not see, a work going on, to which he had so long looked forward, and the anticipation of which had no doubt influenced his operations at Buckhorn.

We have been shown a private letter just received from Rat Portage, in which the following passage occurs:—

"Mowat's carpet-baggers are as numerous as flies all over the district. Judging from the number of men he has in here and the amount of money they are spending, his case must be desperate indeed."

A CURE FOR CHOLERA MORBUS.—A positive cure for this dangerous complaint, and for all acute or chronic forms of Bowel Complaint incident to Summer and Fall, is found in Dr. Fowler's Extract of Wild Strawberry; to be procured from any druggist.

Hersford's Acid Phosphate
gives strength where there has been exhaustion and vigor in place of impaired vitality.

"WHEN all other remedies fail," for Bowel Complaint, Colic, Cramps, Dysentery, etc., "then Dr. Fowler's Extract of Wild Strawberry comes to the rescue." Thus writes W. H. Crocker, druggist, Watertown, and adds that "its sales are large and increasing."

"Why, Angelina, where did you get those beautiful rich colors on your bonnet?" "Ain't they lovely?" "dyed them with the Triangle Package Dyes." 10c.

LACROSSE TOURNAMENT

THREE MATCHES PLAYED BY HOME AND VISITING CLUBS.

Peterborough Defeats Orillia in Three Straight and Wins the Championship—Beaverton too Match for Norwood—The Crests Take a Match from the Norwood Juniors.

The Lacrosse Tournament on Thursday was a brilliant success, so much so that it must take a place as one of the chief events of the season.

The first match was played between the Crests of Peterborough and the junior team of the Norwood club, which took place in the forenoon. The teams were composed as follows:—

CRESTS. J. Phelan, Goal; J. McKelvie, F. Mathew, Point; W. Douglas, D. Farnell, Cover Point; F. Stephenson, F. Larone, Field; W. Ackerman, E. Duncan, " F. Stephenson, H. Dickson, Center Field; R. Hahel, G. Gibbs, Field; A. Robertson, F. McNaughton, " W. Carr, D. Manning, " C. Brennan.

The boys play well and the game was sharply contested. The first game was won by the Crests by Canning putting the ball through the flag, and he also took the second game. The third game was won by the Norwood juniors, Carr passing the ball through. The fourth game, which decided the match in favour of the Crests was won by McNaughton putting the rubber through the stakes.

THE AFTERNOON.
The Orillia excursion having arrived at twelve o'clock, the clubs formed in procession at the corner of Hunter and George streets, at about 2 o'clock, and, headed by the Fire Brigade Band, proceeded to the grounds. The attendance of spectators at the grounds was very large, all the space allotted for the onlookers being occupied and overflowing. While the matches were in progress the band entertained the proceedings by playing several selections.

NORWOOD VS. BEAVERTONS.
The first match in the afternoon was between the Norwood Club and the "Checkers," of Beaverton. At about half past two o'clock the teams took their position on the field as follows:—

NORWOOD. S. Hendon, Goal; F. McKelvie, F. Mathew, Point; D. McKinnon, C. LeBrun, Cover Point; E. Davidson, F. Brennan, Field; S. Weeks, W. Walsh, " D. McKinnon, E. Rogers, " F. McKinnon, E. Patterson, Center Field; F. Berchard, J. Atkinson, Field; M. Cameron, J. McDougall, " M. Plank, A. Robertson, " A. Cameron, J. Howden, " L. McKelvie, J. A. Harper, Field Captain; L. Cameron.

Mr. H. LeBrun was chosen referee, and Messrs. T. G. Houston, Norwood, and D. McCarr, Beaverton, umpires.

The ball was faced at 22 minutes to 3, and the play at once became lively. It was difficult to predict the result of the game, as the ball flew from one side of the field to the other. After eight minutes play, however, a shot from J. Berchard on the Norwood goal had the desired effect, and the Checkers won the first game.

The second game was of longer duration. It was sent to the Norwood goal at once, but McDougall got it and sent the field with it. The play then continued very interesting for fifteen minutes, at the expiration of which time Robertson dropped the ball in front of the Beaverton goal into McKelvie's stick, and it was passed through, scoring the game for Norwood.

The third game was a very long one, lasting forty minutes. The teams were very evenly matched, and each did their best to win the game. Finally a shot was made on the Norwood goal, and game was called by the players, but the umpire decided that it did not go through. Just as his decision was given McKelvie made a shot on the goal and won the game.

The fourth game was taken by the Crests in one minute, McKelvie again putting the ball through the flag, and the match was thus won by the Beaverton club.

The usual cheers were then given by the clubs and the field was cleared for the Orillia and Peterborough.

THE CHAMPIONSHIP MATCH.

At twenty-five minutes to four o'clock the teams representing the Peterborough and Orillia clubs took their places in the field to contest

for the championship of Central Ontario, which is held by the Peterborough club. The composition of the teams was as follows:—

PETERBOROUGH. J. Giron, Goal; D. Breckin, W. A. Sanderson, Point; G. H. Armstrong, M. Tierney, Cover Point; J. Henderson, J. Reynolds, Field; J. B. Tudhope, P. Walsh, " J. W. Gordon, M. Halpin, " G. Madden, J. Sheehy, Center Field; E. C. Moore, A. Yelland, Field; R. H. Jupp, R. H. Forty, " E. Bingham, O. Rutherford, " G. Thompson, W. Rudkins, Home; O. A. Tudhope, O. Giron, " J. McCleary.

Mr. H. LeBrun was chosen referee, and Mr. A. Elliott, Peterborough, and Mr. J. Ralston, Orillia, acted as umpires. The Orillia team was captained by Mr. R. Henderson.

The ball was faced by Sheehy and Moore at 24 minutes to 4 o'clock and travelled to the Orillia goal. It did not remain long there, but was sent to the other side of the field. Then was seen some very fine playing, at times for minutes the ball not touching the ground, but flying from stick to stick through the air. Again it would be on the ground, and a lively tussle would take place for possession of it. Two runs by Sheehy and Yelland down the field drew forth loud plaudits. In fact, the immense crowd witnessing the game was almost continually cheering as some player gave an exhibition of extra skill. There were several pauses during the game, one when two Orillia players came in collision, and one of them had to rest a few minutes, and another when Forty strained his ankle. Forty had to leave the field and a man was dropped off the Orillia team. The Orillia club had a good defence, and they needed it, as the rubber was kept the greater part of the time on that side of the field.

A number of very close calls were made on the Orillia goal, and twice the boys cried game it went so close. Several times it was near to the Peterborough goal, and some lively tussles took place there, but it soon was sent down again, Tierney making some fine long throws. The Peterborough defence did some good work on their end of the field, and kept the ball at the other side, where the home men made repeated attacks on the goal. Finally one of Rutherford's shots passed the sphere between the stakes, and the first game was won for Peterborough. Time, one hour.

The second game was one of the shortest on record. Sheehy got the ball at the face and it went towards the Orillia goal at once. G. Giron secured it and dropped it to Rutherford, who put it through. Time, about half a minute.

The third game was also a short one. At the face Sheehy got the ball as usual, and down the field it went. It was returned up the field, and after some play Halpin threw it down again. Some lively play took place, but G. Giron again secured the ball and made a shot on goal, which won the game, the time being three minutes. The match was thus won by three straight games, and Peterborough retained the championship medal.

The usual cheers were then given, and the players returned to town. The playing exhibited by the two teams was exceedingly good, and the best of good nature prevailed throughout.

Did Not Come.
The Hastings Cricket Club, which was to have played a match with the Peterborough Club today, did not come. A post card was received this forenoon saying that they were unable to be present.

The Grand Trunk President.
Sir Henry Tyler, of London, England, President of the Grand Trunk Railway, and Mr. Joseph Hickson, General Manager of the same railway, arrived here this morning on a special train.

The Weather.
The weather is warm and cloudy, with a breeze. The weather probabilities for this district, as issued from the Toronto Meteorological office at one o'clock this morning, for twenty-four hours, are as follows:—Light to moderate winds, fine, warmer weather.

The Norwood Lacrosse Club.
The members of the Norwood Lacrosse Club who were here on Thursday remained until late in the evening, when they departed for home. They were entertained in Peterborough by a number of the members of the Peterborough Club, who remained with them until they departed. The Norwood Club is steadily gaining in popularity in the national game.

Cricket Match.
A match game of cricket will be played on Wednesday next between the Uxbridge and Peterborough clubs on the Peterborough grounds. A close and exciting game may be expected, as the Uxbridge team is a very good one. One match has already been played this season between these clubs, namely, at Uxbridge on the 20th of last month, when Peterborough, with a rather weak team, was defeated by thirty-one runs. The home team are determined that this match shall result differently from that one. The Peterborough team will probably be composed of the following:—J. A. Benjamin, R. B. Boyce, T. Rutherford, J. Montgomery, W. Hartley, Max. Hamilton, Miles Hamilton, G. W. Hutton, P. Cooper, A. Leander and T. W. Hamilton.

Beckley's Arnica Salve.
The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancer, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

Dr. Carson's Stomach Bitters free the system of the poisonous humours that develop into Kidney and Urinary diseases, give tone and vigour to the stomach and purify the blood.

THEY MUST GO!

GENTLEMEN.—In stentorian tones we state that certain things must go. We beg to offer below a sufficient bill of particulars.

J. HACKETT'S.

Daily Evening Review

SATURDAY, AUGUST 18, 1883.

If Sir John Macdonald is spared another
year he will have been forty years in public life.
Suggestions, we are glad to observe, are being
made that so unusual an event should be fittingly
celebrated.

The Port Hope Times says:

The Peterborough Examiner seeks to make a
point against the National Policy, and, perhaps,
Port Hope, when it says: "Port Hope is an
N. E. town, yet the caps for the band are im-
ported from 'the States.'" Both statements are
untrue, as Port Hope is a G. R. town, and the
caps were not imported from the States. The
facts in the case as to the caps are that the
order for their manufacture was given to Mr.
Chas. Doeber, of this town, and that gentle-
man, having actually more work on hand than
he could conveniently perform within the time
allotted for their completion, had the caps
made in Montreal from a sample manufactured
by himself. Once more, Examiner.

Among the many traps of various sorts for
farmers, is the following, related by the North
Buxton correspondent of the Chatham Tri-
bune:—

"For some weeks past a tall looking gentle-
man has been seen going to and fro hunt-
ing up people who had farms to sell, something
in this way:—You paid him \$2 to commence
with, he then drew up a plan of your farm,
telling down the price you want, and so forth.
He then proposes to advertise your farm
throughout the United States, Canada, and
England, and find you a buyer if possible, in
which case he retains 24 per cent. of your price,
and if he gets more he pockets the same, with
the per centage. This agreement lasts for
twenty years, and you cannot sell yourself dur-
ing that time without paying him the 24 per
cent. To our mind people making such agree-
ments as the above are either born fools or en-
tirely blind."

Coal in the Northwest.

The accounts from our correspondent at Medi-
cine Hat report the coal in the mines of Sir A.
T. Galt as first class coal, far superior to that in
other mines. The gentlemen engaged in the
work and those connected with them, such men
as Messrs. C. J. Brydges, Sir Alex. Galt, Mr.
Lethbridge, and English capitalists like the
Baroness Burdett-Coutts, can develop any-
thing they go into, and they have got a first rate
mine. The coal can be placed at the mouth of
the pit for \$3 a ton and in Medicine Hat for
\$2.50. It should be placed in Regina for \$3 a
ton.—*Regina Leader.*

The best quality of Cotton Yarn and
Carpet Warps always kept at Turn-
bull's.

TEACHERS' EXAMINATION.
The Successful Candidates for First, Second,
Third and Intermediate Certificates.

Through the kindness of Mr. J. Coyle Brown,
I. P. S. for this county, we are enabled to give
to-day a list of the successful candidates at the
recent examinations, who wrote at Peterborough
and Norwood. Mr. Brown was the presiding
examiner at Peterborough, assisted by Mr.
Davidson, and Mr. McKee was the presiding
examiner at Norwood.

PETERBOROUGH.
Of those who were examined in Peterborough
the following were successful:—

FIRST CLASS, C.—Allen Hutchinson and
Alfred Orr.

SECOND CLASS, B.—Sarah Hamilton.

THIRD CLASS, A.—Annie Lynch, Margaret M.
Davidson, Albert E. Yelland, James McDonald,
Charles B. Coughlin, Thos. Hawthorne, John
Sullivan, Paul Moloney, Wm. Delaney, Bella
Cowie and Annie C. Gary.

INTERMEDIATE.—M. B. Brown, Norah A.
Young, May Campbell, Wm. Henry Schofield,
E. G. Stratton, John Spence, Jennie Huston,
Lucy Picken, Annie E. Peters, Margaret K.
Armstrong, Harriet H. Look, Esther Brodie,
Becca Johnston and Rebecca Sutton.

NORWOOD.
The following of those who wrote at Norwood
were successful:—

SECOND CLASS, B.—Jas. A. McCarthy and
Annie Young.

THIRD CLASS, A.—Jas. A. Myles, Cassie Mc-
Cann, Mary Carbery, Henry Anderson, Ch. R.
Brown, S. McLachlan, Carrie Walters, Harry
Lewis, Matthew Elliott, Thos. B. Scott and
Arthur S. Scott.

INTERMEDIATE.—Dorcas Stephenson, Christina
Roland, Nora Ryan, Etie Wigmore, Minnie
Harper, Jessie Wilson, Frank F. Patterson,
Mary E. King, Mary A. Kirkpatrick, Annie
Nicoll, May Presley, Robt. Spence, Alfred
Raddon and Alfred Nicoll.

THOSE HYDRANTS.

The President of the Water Works Company
has handed us the following letter for publica-
tion:

William Gluzon, Esq., President Peterborough
Water Company

DEAR SIR,—From information received I
understand that Councillors Rutherford, Doug-
las and Davidson, members of the Fire, Water
and Gas Committee, have located two of the
hydrants taken by the town on George street.
Between King and Sherbrooke streets. As a
member of said committee I beg to notify you
that I do not consider this a satisfactory loca-
tion of the hydrants, as one is amply sufficient
between those points, and that I intend to
move a resolution at the Council meeting to the
effect that only one hydrant be placed between
the above streets, and that the twelfth
hydrant be placed on the corner of George and
Hunter streets. My reasons for so doing are:

1st.—According to the by-law the town can-
not take water from the hydrant to be placed on
the corner of Sherbrooke and George streets for
any other purpose than to protect from fire
property lying to the north of Sherbrooke street
on George street, and for watering streets to the
north.

2nd.—That the hydrant now placed opposite
to Mr. Hamilton's foundry is sufficient to pro-
tect property to Sherbrooke street, there only
being three dwelling houses south of it.

3rd.—That George street between Brock and
Charlotte streets has only 6 of the 12 hydrants,
and as the ratepayers between said streets will
have to pay for at least 9 of the 12, it is only
proper that the extra hydrant should be placed
between said streets. George street between
King and Sherbrooke will only be taxed \$23.65
for hydrants.

I should have attended the committee meet-
ing at which the hydrants were located, but only
having received an hour and a half's notice of
the same, and the Acting Mayor having stated
to me that he would not attend on such short
notice, I did not do so, believing that no one
but the chairman would be present.

Hoping that my action will not put the Water
Company to any loss,
I remain, yours respectfully,
C. W. SAWERS.

Peterborough, August 18, 1883.

Midland Railway Traffic Returns.

The traffic of the above railway for the week
ending August 11th, 1883, was as follows:—
Passengers and mails, \$7,035.37; freight, \$12,
439.98; total, \$20,475.35, as compared with
\$20,123.35 for the corresponding week of 1882,
being an increase of \$352.00; and the aggregate
traffic to date is \$628,961.67, being an increase
of \$20,961.90 over 1882.

The Salvation Army.

The Post says that the Salvation Army,
which is now attacking the strongholds of sin in
Lincolnton, will invade Peterborough shortly.
Some persons thought that the advance guard
of the army was skimming here on Thursday,
as two men stood on the bridge distributing
tracts to the crowd going over to the lacrosse
tournament, but when asked if they belonged to
the Army, the men replied with an emphatic
"No, sir!"

The Operators' Strike a Failure.

The Mail says that the striking telegraph
operators in Toronto are still confident of suc-
cess, and are determined to hold out. Des-
patches from the United States, however, go to
show that the backbone of the strike is broken.
In many of the principal cities the operators are
seeking to the office applying for work. A
despatch from New York says that the execu-
tive of the Brotherhood has issued a circular
advocating the failure of the strike, and giving
the reasons therefor. The operators who want
on strike have will probably return to work on
Monday.

RAT PORTAGE TROUBLE.

**FURTHER COMPLICATIONS LOOMING UP
IN THE DISPUTED TERRITORY.**

The Streets Thronged With a Mob of Excited
People—An Ontario Special and a Mani-
toba Policeman Arrested.

WINNIPEG, Aug. 17.—Just before the depart-
ure of the excursion train from Rat Portage at
7 p. m. yesterday an exciting scene occurred on
Main street. Redding, one of Mowat's specials,
was arrested on the charge of falsely arresting
McMaster, one of the Manitoba forces. It ap-
pears that the day previous McMaster had been
arrested for being drunk and disorderly and
lodged in the Ontario gaol. Yesterday morning
he was brought before Mr. Lyon, the Ontario
Magistrate, and fined four dollars and costs.
The arrest of Redding was in retaliation.
The arrest was made in the vicinity of the
Rideout House, and immediately became
known. A mob of excited people gathered and
surrounded the policeman. Every inch of the
way was contested, and though there was much
profanity wasted and a good deal of pulling and
hauling, no serious blows were struck. The
popular expression of several Mowat sym-
patizers regarding it was, "Let him go, or we
will liberate him to-night." Redding was
successfully lodged in the Manitoba gaol, offer-
ing no resistance himself. Mr. Alexander, one
of the Progress proprietors, was arrested during
the rumpus by the Grit police for having inter-
ested himself too actively.

There was considerable excitement about the
government offices here to-day. Repeated tele-
grams were received from Attorney-General
Sutherland, who is at Rat Portage, and other
persons out there, asking for advice and instruc-
tions as to what course to adopt. Mr. Brown
was the only Minister in the building, and did
not wish to act on his own responsibility.

Chief Constable Constantine was in the build-
ing most of the morning awaiting instructions
to proceed to Rat Portage. A telegram has
been received from Rat Portage stating that it
would be advisable to send him out. He was
waiting on Mr. Norquay's arrival before he
would go. Presently the Premier came, wear-
ing an anxious look on his face. It was learned
that if Chief Constantine was not sent out on a
special train he would leave in the morning for
the scene. He will take thirty constables with
him.

LATER.—Provincial Constable Houston will
be sent to Rat Portage tomorrow morning in
charge of a number of constables. Chief Con-
stantine, owing to other business, will be un-
able to go out until the following day. There
is considerable excitement about town over the
trouble which occurred there yesterday, and
many think it will lead to further complica-
tions.—*Mail Special.*

MIDNIGHT TELEGRAMS

CABLE.

MIGRATION IN IRELAND.

LONDON, Aug. 17.—The clause in the Irish
Tramways bill devoting \$50,000 of the Church
surplus for migration in Ireland was adopted.

THE HOUSE OF COMMONS.

LONDON, Aug. 16.—The Comm^{rs} continued
in session till nearly six this morning dis-
cussing the Government's estimate. The Irish
members pointed out the conduct of the police
during the election riots at Wexford and the
imprisonment of Mr. Harrington. The debate
was heated and personal.

AN EXPLANATION REQUESTED.

LONDON, Aug. 17.—The Government has
asked Russia for an explanation with regard to
the expulsion of a British Jew on August 15.

THE SIAMESE EMBASSY.

LONDON, Aug. 17.—The Siamese Embassy,
despatched for England and the United States,
left Singapore Thursday. The Embassy in-
cludes two princes of the blood, three princesses,
four attaches and twenty-one attendants.

**New Lace, New Frillings, New Lace
Costumers, at Turnbull's.**

A Good one on Vanderbilt.

The Vanderbilt family are regaled over the
following anecdote:—At Saratoga on one occa-
sion, when sitting on the piazza of the Congress
hall, a somewhat overdressed lady approached
and claimed his acquaintance. The man moder-
ately and talked amiably with her while his wife
and daughter sniffed the air with scorn.
"Father," said the young lady, as the commo-
dore resumed his seat, "didn't you remember
that vulgar Mrs. B. as the woman who used to
sell poultry to us at home?"

"Certainly," responded the old gentleman
promptly, "and I remember your mother when
she used to sell root beer at 8 cents a glass
over in Jersey when I went up from Staten
Island peddling oysters in my boat." This is
vouched for by a gentleman who heard the
conversation.

Turnbull's Table Linens are becoming
a household word, and to see them the
value will surprise you.

Thousands Say so.

Mr. T. W. Atkins, Grand Kan., writes:
"I never hesitate to recommend your Electric
Bitters to my customers, they give entire satis-
faction and are sold all over the world." Electric Bitters
are the purest and best medicine known, and
will positively cure Kidney and Liver complaints,
purify the blood and regulate the bowels. No
family can afford to be without them. They
will save hundreds of dollars in doctor's bills
every year. Sold at fifty cents a bottle by Tay-
lor & McDonald.

THERE is no secret for suffering from Head-
ache, Constipation and all the wearing pains
of symptoms of a disordered liver, when Rus-
sell's Blood Bitter is used as a reliable remedy,
and only costs One Dollar a bottle. Why suffer
without a trial? 25,000 bottles sold during the
last three months, with almost universal satis-
faction.

THE WATERWORKS.

To say the least, it was unfortunate that any
delay should have occurred in getting the fire
pressure on the hydrants on Friday morning, when
the fire alarm sounded. In the first place,
had a fire pressure been available as soon as the
hose was attached, the probability is that the
building occupied by Mr. Comstock would have
been saved. In the second place the advocates
of the waterworks would have been saved some
disappointment, and its opponents some gratifica-
tion. Against these disadvantages, however,
it is to be hoped that two things have been
learned, viz.:—First, that as soon as the man
at the pump house is informed that a fire is in
progress the supply of water, both as to quantity
and pressure, is all that can be desired, and
secondly, that to render them immediately
available on the sounding of an alarm, some
means must be provided for notifying the man
at the pumps, and that until this be done the
town must suffer whenever a fire takes place in
the same way as it did on Friday morning.

During the day there is already instantaneous
communication with the man at the pumps by
telephone, and it seems to us all that is now re-
quired to have the same means of communi-
cation at night is to have a telephone placed in the
Fire Hall, and to have it always connected
with the pump house when there is no one in
the central office to give immediate connection.
Were this done, the difficulty which occurred on
Friday morning need not occur again, and a fire
pressure at the hydrants would be assured before
it would be possible to have the hose attached.
About the propriety of doing this, seeing that
we are not yet prepared to provide ourselves
with an electric alarm, there will be little dis-
pute, but if we may judge by present indications
there will be any amount of wrangling over
whose duty it is to provide such telephonic
communication as we have indicated—the prob-
able expense being some \$25 or \$30 per an-
num. On behalf of the water company it is
contended that it is the town's business to no-
tify those at the pumps when water is required
under a fire pressure, while on the other hand
it is contended that it is their business to re-
ceive the notice as the hydrants. Into such a
knotty and very important question—one in-
volving the large and important sum of less than
a cent per day to whichever party should pay
it we shall not venture to enter. But we will
venture to express the hope that while the
Volunteers of the town, and the Directors of the
Water Company are settling their respective
duties in the premises, the town may not be
allowed to witness a repetition of the events of
Friday morning.

MELVILLE TO THE FRONT.

To the Editor of the Review.

Sir,—Upon the pages of this town's two other
journals within these three weeks have ap-
peared statements and comments divested of any
ambiguity or obscuration that may have affected
their report. This has resulted through the sup-
plemented letter of *Alta California* pub-
lished last Tuesday. Towards quite as direct
effort or instrumentality for fair play on behalf
of one, owing exceedingly little to the U. S.
courtesy or alacrity of good feeling extended
him, and far beyond this the Christian sym-
pathy with one under unmerited stigma thrust at
and upon him so fairly claimable. We to-day
give to the public the so widely canvassed and
notable letter of one we believe to have been
most infamously vilified and wronged in what
seems to have been slight else than the hollow
shufflings of a court of justice, for and as it vir-
tually has unrighteously, infamously and con-
fessionally derided the continuance, if not per-
petuation, of the afflictive visitation that in-
cumbent freshening wretchedness and mental
suffering on a most meritorious and fondly loving
father, who, by the spoliation of his paternal
right and surrender of his offering to an irre-
sponsibly immoral mother, henceforth stands
doomed to a blighted autumn of a parental
hope, and consequent life. Relative to Mel-
ville's letter it is known to us that while the
"ring" of word metal in this hastily issued mis-
sive has proved entirely resonant and accept-
able amongst discerning readers even outside
the U. S. confines, and that the sympathetic
concern of such is unhesitatingly in union with
the griefs of this anguished stricken sire, spared
from the perils of land and wave as 'twould
well seem to deplore his survival of his friend
DeLoach, and party, for the only blemish or slur
ever cast upon his conspicuous name has been
by her assuming it under altar plight. That
there are not very few yelping cavillers, for
whose delicately refined sensibilities the cir-
cular are unconsciously bruised, is rendered
evident by the mewling tone of their excep-
tional drawings as to its contents. But if so the
fact as well has to be kept in mind that though
the heavy leaves of their own Miss Melville to
these reprint *and missive* it also has ever been
an insupportable problem of what justification can
be at all found for the *Jeannette* enterprise.
Of these or such we would simply add, we
acquit all of their so circumvented mental calibre
of being any way responsible for their obtuse-
ness limited range of apprehension when con-
fessionally unable to commend the exposure who,
under the eye of deity to duty and the
principles of attachment, intrepidly invited
the hazards of death lurking at every step be-

advanced, yet did so without a nail on any toe
of his being left by the relentless frost. In
the face of the belittling it seems to be a con-
stantly that the *Jeannette* expedition of the bene-
conduct and bearing will reach Melville by a
congressional vote of thanks this very season.
While as to his phraseology, 'tis far more than
probable that of the squeamish, a somewhat sig-
nificant fraction of the same, could not be taken
the space his expressions suggest, except half
their purport, or at all approach their laconic
sentences and force.

COM.

The letter given below has been addressed to
the *Herald* by Chief Engineer, George W. Mel-
ville, late of the *Jeannette* expedition, whose
unfortunate family affairs, since his return from
Siberia, have added an unpleasant notoriety to
the name which he made famous by his exploits
in the Arctic seas. Mr. Melville has many per-
sonal friends in Reading, and it is for the pur-
pose of setting himself right in their eyes, as
well as in the eyes of the rest of the world,
that he now, for the first time, answers the
numerous attacks made upon him. It is need-
less to say that whatever was published in the
Herald about him was in the shape of telegrams
from distant points, which appeared in all
papers receiving their telegraphic service from
the same source. Of the merits of the family
dispute the *Herald* knows nothing, except from
hearsay. We cheerfully give place to Mr. Mel-
ville's letter of defence, which is as follows:—

OFFICE OF CHIEF ENGINEER,
U. S. NAVY YARD,
LEAGUE ISLAND, June 1st, 1883.

Editor of the *Daily Herald*, Reading, Pa.
SIR,—Heretofore I have avoided answering
all attacks on my name and reputation, sup-
porting that the courts alone would settle the
question of family discord. Your paper, with
others, without cause, apparently in ignorance,
has attempted to bound me down, charging
all sorts of rascality and meanness, when the
evidence before the court showed that the
head and front of my offending consisted in
being a sea-faring man and would not live
with a drinking woman.

Your main charge, (issued on May 30) that
"Engineer Melville's wife had been living on
the charity of her friends." It is certainly
strange that you should publish a statement of
that kind in the face of the order of the court
which allotted her \$70 per month and which has
always been paid. It seems so singular to me
that the press of the United States should so
pervert the facts, and charge me with desertion
of my family, when it is well known that I pro-
vided a comfortable house, and left an allotment
of \$90 per month for the time I was absent, and
when my pay was increased, upon my promo-
tion, the then Secretary of the Navy (Mr. Hunt),
without my consent, allowed me the sum of \$140
per month for thirteen months, until Mr.
Chandler was made Secretary, when he, com-
plying with the law, reduced the amount to the
original allotment of \$90 per month, which I in
time confirmed and continued paying that sum
up to the time of the order of the court which
allowed her \$70 per month for the support of
herself and two youngest children. During my
absence of three years and five months she had
a house to live in, and in that time drew of my
earnings \$4,440, besides running me in debt to
the amount of \$2,000, for which the household
goods were seized and sold by the sheriff, and
upon my arrival at what should have been my
home, I was ushered into the presence of a
drunken maniac, who had polluted my name
that had never before borne a stain. Because I
would not live with such a woman, and condone
all sorts of her untold
nauseous years, I am charged
with desertion, and am followed up by your
paper in a statement that "I am seen on the
streets not always in good company." This
charge may mean a great deal, or it may mean
nothing. I may frequently be seen on the
streets when I have a reason for going there.
There is no reason why Melville should sink
through the sluts and back alleys of this city.
He always stands out in open day, and is never
seen in company with persons that he would be
ashamed to be found dead with, or any whose
character would bring a blush of shame to the
cheeks of his mother, were she alive.

During the trial of the case at Meads this
woman's attorneys ventilated my character
from the time I was a school boy in New York
city, then raked Philadelphia from the Delaware
to the Schuylkill, from Southwark to Richmond,
without finding one blemish which they could
fasten upon to smirch my personal character.
The great and only fault (?) is—I did go to sea
eighteen years out of twenty-two to avoid a hell
on shore, and that I would not condone the
faults of a drunken woman.

An insertion of this in your paper may to a
slight degree counteract the slanderous state-
ments that have been going the rounds of the
public press. I am, sir, very respectfully, &c.,
GEO. W. MELVILLE,
Chief Engineer U.S.N.

Fall Shapes in Ladies' Hats just re-
ceived at Turnbull's.

WHERE'S THE REVOLVER?

How a Sardinia Girl Caused a Party of Bur-
glars to Make a Hasty Exit.

SARNIA, Aug. 16.—Mrs. and Miss Sinclair,
wife and daughter of the principal of the high
school here, were left alone in the family resi-
dence, Sunday night. About midnight Mrs.
Sinclair was aroused by the noise of a window
rattling. Thinking that there was a storm
coming up she went into her daughter's room
to see if the windows were shut and found one
of them open. Arousing Miss Sinclair she in-
formed her of the fact, when that young lady
exclaimed: "Mother, there are burglars in the
house!" Where? "Where?" the revolver?
Miss Sinclair got up, and procuring the
weapon went to the window, and in the dark-
ness could just see the form of a man be-
low entering the parlor window. She immedi-
ately fired, when the air was filled with the
most horrible yells. Miss Sinclair dressed, and
putting the revolver in her pocket went out and
procured the help of some of the neighbors.
On investigation it was found that a large quantity
of silver plate and other articles had been taken
out and left on the lawn. Blood was also found
in little pools, but nobody could be seen around.
No arrests have yet been made, although
policemen pretty clearly to several persons.
Miss Sinclair has won great credit for the brave
manner in which she acted.

Content Refused.

Rev. S. Pascoe, ex-President of the Bible
Christian Conference in Canada, who was sent
to England to ask consent of the English Con-
ference to the proposed Union, has sent a dis-
patch to Rev. E. Roberts, of Toronto, that con-
sent has been refused by the English Conference.
The Connexional Committee was immediately
called, and it decided to call the ministers to-
gether in conference at Exeter on the 25th inst.
As the English Conference control the church
property in Canada, this action may block the
way of our Bible Christian friends to union.
We await with some anxiety their decision.
C. O. Advertiser.

A CURE FOR CHOLERA MORBUS.—A positive
cure for this dangerous complaint, and for all
acute or chronic forms of Bowel Complaint inci-
dent to Summer and Fall is found in Dr.
Fowler's Extract of Wild Strawberry; to be
procured from any druggist.

A Phantom Hand.

AMSTERDAM, N.Y., August 16.—Excitement
runs high at Chhajoharie, owing to the ghastly
appearance of a ghostly, mysterious light along
the Central Railroad track. The light starts
from the old fort, and is at first very small. It
gradually increases in size, and goes down the
railroad track about three feet from the ground.
The night watchman says that a hand can be
distinguished about it. Sometimes the light
goes bounding down the track, and again rises
thirty feet in the air. Several trains, including
the Atlantic express, have been stopped by the
light, believing it to be a danger signal. It ap-
pears about 10.30 p.m., just before the arrival of
the fast mail. Fifty persons lay in ambush in
the vicinity last night in hopes of ferreting out
the matter, but the light did not appear, but the
night watchman and others vouch for the truth
of its appearance usually. Railroad men are
filled with fear and superstition, and dread to
approach the spot at night. Some say it is a
forewarning of a railroad horror to be enacted
in the vicinity. Another party of investigators
will make another trial to-night.

"Bread and Cheese and Kisses."
"But what do you suppose we are going to
live on?" enquired a young lady of her slightly
impetuous lover after the first shock of his
proposal had somewhat worn off.
"Live on!" said the enthusiastic and vision-
ary youth. "Why, darling, we will live on
bread and cheese and kisses."
"Yes; well, it may be all right enough, but
it's my opinion that bread and cheese, with thin
slices of ham in between 'em, are mighty
light sandwiches for a steady diet. You'll
have to talk roast beef and strawberry shortcake
to me."

Handsome Beating Shawls, for \$1.00
each, at Turnbull's.

Convincing Proof.
Having suffered from rheumatism for a long
time I was induced to try your Aranea and Oil
Liniment. The first application gave instant
relief, and now I am able to attend to business,
thanks to your wonderful medicine.
I am yours truly,
W. H. DICKSON,
318 St. Constant St., Montreal.

To Henry, Johnsons & Lord, Montreal.
Aranea and Oil Liniment is sold by all Druggists.

"When all other remedies fail," for Bowel
Complaint, Cramps, Dysentery, &c.,
"then Dr. Fowler's Extract of Wild Straw-
berry comes to the rescue." Thus writes W. H.
Crooker, druggist, Watertown, and adds that
"its sales are large and increasing."

For good value in Gram Lenses and
Towellings go to Turnbull's.

"Why, Angelina, where did you get those beautiful
rich colors on your bonnet?" "Ah! they lovely!" I
dyed them with the Triangle Package Dyes." 10c.

Daily Evening Review

SATURDAY, AUGUST 18, 1883.

Desk Diaries.
Desk diaries for 1884 at the REVIEW stationery store.

The Cells.
The police cells were untenanted last night, and there was a blank at the Police Court this morning.

Cricket Match.
A cricket match was played on the Ashburnham ground on Friday afternoon, between the Peterborough and Hastings Cricket Clubs. The home team won the match by ten wickets.

Don't Forget.
The sale of household furniture of Mrs. R. Adams on Monday next, Aug. 20th, at 1 p.m., at her residence, McDonnell street, near Mr. Wm. Hamilton's foundry. No reserve.

Smith's Market.
Choice Virginia grapes 2½ lb boxes only 50 cents; Delaware peaches \$1.75 per basket; Jenny Lynn melons, water melons, apples, pears and plums.

New Jewellery Store.
Get your Watches, Clocks, Jewellery, all repaired at Hughson's New Shop. Remember the place, office lately occupied by E. Burnham, Simcoe street.

The Baptist Church.
The Rev. Dr. Davidson, of Liverpool, will occupy the pulpit of the Baptist Church tomorrow. Dr. Davidson has received a call from this church, which is now receiving his consideration.

Another fresh lot of Prints at Turnbull's. Call and see them.

They Did Come.
Although the Secretary of the Peterborough Cricket Club received a post card from the Hastings Club yesterday morning, saying that they would not come here that day, the Hastings Club did in an appearance at noon, and the match was played.

Bowling at Out.
Yesterday afternoon the hose cart was brought out and the hose was attached to the waterworks hydrant near Simcoe street. A stream was thrown on the smouldering ruins on the corner of George and Charlotte streets, where the fire was beginning to show themselves again.

Champagne Cider.
The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.
Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

Dates of Coming Exhibitions.
The Provincial, at Guelph, Sept. 24 to 30th. Dominion, at St. John N.B., Oct. 2nd to 5th. Industrial, at Toronto, Sept. 11th to 22nd. West Peterborough, at Peterborough, Oct. 2nd and 3rd. East Peterborough, at Warsaw, Oct. 2nd and 3rd. East Durham, at Millbrook, Oct. 4th and 5th. Township of Otonabee, at Keene, October 12th.

The Weather.
A heavy shower of rain, accompanied by thunder and lightning, fell this morning at an early hour. The weather continues cloudy, with occasional sprinklings of rain. The weather probabilities for this district, as issued from the Toronto Meteorological office at one o'clock this morning, for twenty-four hours, are as follows:—Moderate to fresh southerly to southwesterly winds, generally fair, hot weather, with a few local showers or thunderstorms.

The Canada Consolidated Co.'s Mines.
Our readers will be glad to learn that the Deloro gold mine, belonging to the Canada Consolidated Gold Mining Co., has been leased to Messrs. Stevens, Newbury and Rothwell, and that work has already been commenced at the mine by the lessees, and will be pushed with the utmost vigour as soon as the men for which they are now advertising can be obtained. Messrs. Stevens and Newbury are Detroit men, and Mr. Rothwell belongs to New York. Mr. Stevens is the chief owner of the largest silver mine at Leadville, and has ample capital at his command. Mr. Newbury is already largely interested in railway and iron mining operations, and therefore also brings a large experience as well as capital to aid in developing the resources of the Deloro mine. At present the remaining capacity of the works at this mine is only one half of that of the mill, and we are assured that as soon as the lessees are satisfied of the paying qualities of the mine, the rest of the machinery necessary to work it to its full capacity will be supplied. For the sake of this section of Ontario as well as that of the Company we trust the most sanguine expectations of those interested in this mine may be more than realized.

A. C. A. ANNUAL MEETING.

Further Accessions to the Camp—A Fleet Arriving from the Lakes—Commodore Edwards on Duty Again—Camp Fire Amusements.

A.C.A. CAMP, STONY LAKE, Aug. 16.—First must be chronicled as the most welcome piece of intelligence the return to duty of Commodore Edwards, whose illness had caused great regret, and whose recovery was hailed with enthusiasm. Col. H. C. Rogers, who had been duly appointed Commodore pro. tem., was consequently relieved after a very short period of duty, but sufficiently long to show that he could well fill the position.

On Tuesday there was an excursion to Burleigh Falls under command of Col. Kensington. That neighbourhood was inspected and a return was effected, though not without some canoes being lost for a time among the numerous islands. In the evening there was a very pleasant meeting round the head-quarter's camp fire, where the Knickerbockers especially distinguished themselves by their songs, and Mr. Baldwin made a most amusing stump speech in character.

On Wednesday a large party composed of representatives from the Knickerbockers, Lake George C. C., members from Syracuse and Columbus, and a large contingent of local paddlers, with Mr. R. E. Wood in command, went to the head of the lake. On their way they passed the camp of Mr. W. E. Roxburgh and his friends, when the fleet passed in line, receiving cheers from the camp, which were heartily returned, the sight being a pretty one. They undertook the long and rough tramp of four or five miles to the top of the Blue Mountain, whence they had a magnificent view of forest and lake scenery over a most extended area.

In the evening an invitation to the ladies' camp fire was generally accepted. The hostesses and their friends had made preparations for the amusement of their guests. Songs and speeches made the evening pass pleasantly away. Dr. Neide, the Secretary, was called to the chair, when Mr. G. M. Roger proposed, and Mr. Whitlock, of the New York Canoe Club, seconded the election of Col. H. C. Rogers as Commodore pro. tem. during the absence of Commodore Edwards. In returning thanks Commodore Rogers alluded to the welcomed arrival that day of the Rev. G. L. Neide, a patriarch of the Association, and one of its zealous members. This called forth an excellent speech from Mr. Neide. Among other speakers Mr. W. O. Ross distinguished himself by his humorous and fluent oratory.

The excursion on Thursday morning was to the syndicate camp at Beechline, when a hospitable reception was experienced. A visit was also paid to Capt. Clegg and the Old Fort, and the pictures and other curiosities were inspected with much interest.

The event of to-day was the arrival of the contingents from the Mohican Canoe Club, of Albany, N. Y., and the Springfield (Massachusetts) Canoe Club. They sailed their canoes from Lakefield and had a fair breeze, especially up Clear Lake. Their appearance at the island all under sail was a very pretty spectacle. Their sleeping arrangements, by which they utilize their canoes with a miniature tent attachment, as at once bed and sleeping apartment, was much admired for its ingenuity and the comfort afforded.

Aug. 17, 10 a. m.—The meeting last night was at the headquarters camp fire, where the song went round with much enjoyment, the ladies as usual doing even more than their share. It was a beautiful moonlight night, and when the party broke up the feet of departing canoes was quite a charming sight.

In the night the whistle of a steamer awoke the light sleeper, but it was not till morning that it was known that it had come to carry off Mr. A. White, of the Midland Railway, who was called away on urgent business.

Since our former list the arrivals from the United States have been:—Mrs. W. O. Ross, New York; the Rev. G. L. Neide, Schuylerville, N. Y.; L. A. Bernheimer, Knickerbocker Canoe Club; General R. S. Oliver, Messrs. R. W. Gibson, W. B. Wackerhagen, B. Fernow, Mohican Canoe Club, Albany, N. Y.; Messrs. C. M. Shedd and F. A. Nickerson, Springfield Canoe Club, Massachusetts.

From other Canadian points there have arrived:—Messrs. W. H. Cottingham and Clarence Mitchell, Montreal; F. O. Cross, Woodstock; R. W. Anderson, Toronto; E. S. Baird, Port Hope; E. S. Shrapnel, Whitby; G. B. Salter, Port Hope; W. B. Stewart, Uxbridge; C. B. Andros, Toronto; R. S. Clouston, and J. T. Hickey, Emerson, Manitoba; H. White, Jax. Wright and W. H. Parson, Port Hope; J. W. Britton, Lindsay.

Eagle Mount.

Mr. W. J. Kearns, of Young's Point has gone to considerable expense erecting a very large dining tent and about fifty smaller ones on Eagle Mount, directly opposite the A. C. A. camp grounds on Juniper Island. He has also a large cookery erected, and a wharf built for the steamers to land passengers. The travelling public can be accommodated with meals and good clean beds, and save them the trouble of bringing their camping utensils and provisions. It is a capital idea. No charge will be made to land on the island, it being free to all. Any amount of music and dancing on the grounds. Large sail and row boats, and canoes free of charge to customers. There is a barber shop on Eagle Mount. Target practice for silver and gold medals. There are excursions every evening from Eagle Mount all through the A. C. A. camp by the steamers with palace rooms attached for dancing. All information regarding the arrival and departure of the boats will be given at the office on Eagle Mount. There is good fishing, good shooting and pleasure of all sorts. You can leave "Jumbo," our immense tent, and go up the rock for half a mile and and you can see the original eagle himself. There is a new agent on all steamers to supply the daily papers every day. More accommodation for guests is going up at Eagle Mount; 400 can be provided for. A grand band stand has been erected, where the choicest selections of music will be discoursed. Free invitations to all on

Eagle Mount, where over \$3,000 has been invested. On Monday evening the steamer Fairy will leave Young's Point with the Peterborough Fire Brigade Band, when parties can leave there by steamer and return at any time. The band will remain over Tuesday, returning in the evening by the steamer Fairy. Communications from all points attended to. Address W. J. Kearns, Eagle Mount post office.

Velvetons are to be much worn the coming season; for a good quality, fast pile, go to Turnbull's.

Ruckles' Analca Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancers, Piles, Chilblains, Corns, Tetters, Chapped Hands, and all kinds eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

DR. CARSON'S Stomach Bitters free the system of the poisonous humours that develop into Kidney and Urinary diseases, give tone and vigour to the Stomach and purify the Blood.

THEY MUST GO!

GENTLEMEN.—In stentorian tones we state that certain things must go. We beg to offer below a sufficient bill of particulars.

Now, in order to make SUMMER SUITS go, special inducements require to be offered.

The following are said inducements:—

The very Newest Style of Garments.

The Best Cut and Fitting Garments.

The very best Trimmed Garments.

Back the above inducements, gentlemen, back them up with our feather-edge prices, for we never allow anybody to give so good clothing for so little money as we. If you want cool dress, either elegant or economical, come to

T. DOLAN & Co.

Cluxton's Block, Corner of George and Hunter Streets.

Daily Evening Review

MONDAY, AUGUST 20, 1883.

ROBBERY.

A House Entered and Money Stolen on Sunday Evening.

A robbery of a bold character was committed by some unknown person at an early hour on Sunday evening, a sum of money being stolen from the dwelling of Mr. James L. Hughes.

Mr. Hughes and all of the family, except Mrs. Hughes, attended church in the evening. The weather was so warm that the doors and windows were open, and Mrs. Hughes sat on the verandah at the front of the house the greater part of the evening, and it must have been while she was there that the money was stolen.

The house faces on Downie street and the kitchen runs back to Park street. Mr. Hughes left his coat hanging in the kitchen, and his time book and twenty-four dollars in bills were in the pocket of the coat. When he returned from church he noticed that the coat had been taken down and was lying on the window which looks out on Park street, and which was open. On examining it he found that a ten dollar bill and three four dollar bills had been taken out. There was a second ten dollar bill in the time book, but a piece of paper had been placed between it and the other money, and the thief, in the hurry, had most probably not seen it. The robber had either entered by the window or through the kitchen door. There is no clue as to his identity.

Obit.

Mr. Robert J. Stevenson, who returned ill from Winnipeg about six weeks ago, died at about midnight on Sunday night. Mr. Stevenson was quite a young man, and was quite popular. He was formerly in business in Peterborough, having been for a time the proprietor of the cabinet factory on the corner of George and Brook streets. He went to Winnipeg about two years ago.

Runstruck.

A little boy named John McDonough, whose parents live on George street, south of Charlotte street, was prostrated by the heat on Sunday. He was in the yard shortly after twelve in his bare head, and he felt the sun take effect on his exposed head. He went into the house and soon after fainted, and became very ill, when Dr. Bligham was sent for and soon after arrived. The little lad is somewhat better today.

MIDNIGHT TELEGRAMS

CABLE.
CHOLERA.

LONDON, Aug. 18.—Thirty-two deaths from cholera at Alexandria on Saturday, including a British soldier. The deaths in Egypt on Saturday were 310, including five at Cairo. Another death from cholera occurred at Beyrout, Syria. Two hundred and two persons have died of cholera at Bombay the past fortnight.

BOMBARDMENT OF HUE.

PARIS, Aug. 19.—It is reported the bombardment of Hue by the French began on Saturday. The Minister of Marine has ordered six gunboats to be constructed for Tonquin. It is stated that France informed the powers that any ships attempting to land arms will be liable to seizure. La Societe believes this is specially levelled at the large export of arms from America.

MOROCCO WILL SETTLE.

LONDON, Aug. 18.—A Madrid correspondent says Morocco has agreed to settle the Italian claims and Italy will recall her fleet.

A BITTER SESSION.

LONDON, Aug. 19.—The Commons continued its session until 2:20 o'clock on Sunday morning. The Supply bill was finished and the Irish Tramways bill passed the third reading. The Government assured Mr. Parnell and his followers that only £50,000 would be devoted to emigration. The debate was very bitter. Messrs. Biggar, Callan and Newdegate were called to order.

DESTRUCTIVE FIRE.

LONDON, Aug. 18.—The Bonas Tea Association's warehouse was burned Friday night. Damage heavy. Seventeen fire engines were employed. The new American Hayes' ladder truck rendered most useful service.

FINANCIAL GLOOM.

LONDON, Aug. 18.—The Economist says there has been a feeling of gloom all the week at the Stock Exchange owing to the decline in American securities.

Parrot Poets.

—Warm and partly cloudy to-day.
—The weather was very warm yesterday.
—Three cows were impounded at about one o'clock on Sunday morning.
—One tramp rested in the cells on Saturday night and they were empty last night.
—The watering cart was not needed on the streets on Saturday or to-day.
—A heavy stone passed down George street on Saturday evening drawn by four horses.
—There was a heavy fall of rain at about four o'clock on Sunday morning and another this morning.

—Reinforcements for the American Canoe Association camp went north on the morning and noon trains to-day.

—Mr. J. Stephenson, J. P., and Mr. T. Menzies, J. P., are attending to the Police Court during the absence of the Police Magistrate in Manitoba.

—The party of campers at Stony Lake known as the "Syndicate Camp," returned home on Saturday evening. They look unburned and robust, and say they had a pleasant time.

—The weather probabilities for this district, as issued from the Toronto Meteorological office at one o'clock this morning, for twenty-four hours, are as follows:—Moderate to fresh southerly to westerly winds, fair to cloudy weather, with showers and some local thunderstorms.

How a Free Trader Fute his Theory in Practice.

(From the Orillia Packet.)

As a politician, Mr. H. H. Cook, M. P. is a free trader, and most of our East Simcoe readers know with what fervid eloquence he denounced the National Policy, as a restriction upon the right of every free-born Briton, to buy in the cheapest market and sell in the dearest. They know, also, how he exercised that right, under the old order of things, by going to Chicago for his oats and pork required for his shanties, while he charged our farmers the highest market price for lumber. But Mr. Cook, as representing the Ontario Lumber Company, Limited, does not believe in the right of his mill hands and shanty-men to purchase the supplies for themselves and families of any dealer who competes with the company's stores, which, if rumour be true, are not the cheapest market, and do not seem to have been established from the purely philanthropic motive of benefiting their poor workmen. Two Orillia dealers who visited French River lately, found that orders had been issued at the boarding-house and store that they were not to receive food or shelter, and that the men were not to be given orders for money earned to pay for anything purchased of them; and it was only through the kindness of an acquaintance that they could obtain bread enough to serve them during their return to Byng Inlet.

The following gives their descriptions of the kind of free trade maintained at French River by Mr. Cook's company:—Sir, The Managing Director of the Ontario Lumber Company requests me to inform you that he objects to your selling or offering for sale any article of your description within the bounds of their circuit. If you wish to know how far their limit extends, it begins on the north, at a line midway between the Walkerton Company's mill and the Ontario Lumber Company's mill, and extends to the south and also west from the river. I hope you will see the advisability of complying with his wishes. Yours truly, for Ontario Lumber Company, J. McLAURE.

Thousands Say so.

Mr. T. W. Atkins, Girard, Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid cures." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by Taylor & McDonald.

There is no excuse for suffering from Headache, Constipation and all the wearying train of symptoms of a disordered liver, when Burdock Blood Bitters is an unfailing remedy, and only costs One Dollar a bottle. Why suffer on without a trial? 10000 bottles sold during the last three months, with almost universal satisfaction.

A Serious Charge.

He came home with a serious face. She, who was all love and smiles, saw in an instant that something was the matter. He turned his face away when she attempted to plant the warm kiss of greeting on his lips. Her soul sank within her. It was the first time that he had repulsed her. "George," she said, eagerly, "tell me what it is. Has your love grown cold? Treat me frankly. It is better to know the truth than to be kept in suspense." He kept his head averted a minute, his lip trembled, then he said: "Oh, heavenly Florence, how can you wear that mask of deceit when I know all?"

"All?" she repeated, as her face grew white.

"Spare me the sad recital," he continued. "There are some things that are better left unsaid."

"I will not spare you. I insist upon knowing what it is you mean. Tell me, and at once. Some perjured villain has abused your mind."

"Alas, no," he said. "I was an eye-witness of it all. Do not add deceit to your other crimes. I was there and saw it."

"Saw what?" she cried. "What have you seen? Are you mad?"

"Calm yourself, madame. I saw you—you, the wife of my bosom—when you did not think my eyes were on you. You were on Broadway, mingling with the giddy throng. He was hurrying on. You beckoned to him. You made telegraphic signs until you attracted his attention."

"Merciful powers!" she gasped.

"You see I know all," he continued. "You did this on the public street. At first he would have gone on and disregarded you, but you were importunate. You caught his eye, you beckoned. He smiled, and you went down the thoroughfare together."

"This false, as false as—"

"Madame, it is too true; I tell you I saw it. Let us have no nonsense about it."

Then she sank upon the sofa. Again he turned his manly head to hide his emotion. The diamond tears began to come through her fingers. Helplessness, indignation and shame were struggling together in her soul.

Suddenly she looked up. "Perhaps, sir, you will tell me who he is?"

"Certainly," replied the brute. "He was the driver of a Madison avenue omnibus." Then he went suddenly out of the door as if fearful that one of the statuettes would fly after him. And she dried her tears and said somebody was a fool.

She was right, only she got the person wrong.

—N. Y. World.

Common Sense in Summer.

The employment of the natural common sense possessed by intelligent adult humanity would do much to mitigate the discomforts of our torrid summers. Natural appetite, if not corrupted or perverted, is an excellent guide to eating and drinking. The following of Procrustean rules as to the quality and quantity of food is pernicious. An unvarying amount of food, as three hearty meals each day, which might be healthful for winter or the cool weather of autumn, is not appropriate for the intense heats of summer. No set of rules can be laid down for anybody's guidance, still less is it competent to make rules for everybody's guidance; but a few simple suggestions made by a physician recently may not be amiss.

He said: "Keep cool in temper; enter into no argument or contention on politics, ethics, or religion; restrain anger; attempt no athletic feats of rowing, walking, or ball playing; look on the pleasant side of your circumstances; be kindly affectioned, as St. Paul recommended; do not sit out doors long after sundown—the less of this the better; never work before breakfast; eatew meats as much as possible, and chew food thoroughly; drink but little hot water or hot tea or coffee; warm tea is not injurious. Lemonade in moderate quantities is not hurtful. Alcoholic stimulants should be tabooed entirely unless a physician's prescription compel their use. Do not allow your dress to be a burden in material or amount, nor have it so light and thin that the body, from perspiration, becomes chilled."

Disease Among Horses.

A serious and perplexing disease is reported among the horses in Lambton County. The horses grow dull and stupid, and are taken with severe spasms of purging, affecting the nervous system. Animals in good condition within twenty-four hours after being attacked are reduced to almost skin and bone, the eyes sink, and the hairs fall out of the mane and tail. Messrs. John Vance, Captain J. B. Pollock, Charles Fuston, and H. Bland have animals prostrated with the disease, and a mare belonging to the former died the third day after the attack.

Mr. E. Tennant, V. S., of Leamora reports having had a number of cases of this character, nearly all of which have resulted fatally. The best veterinary service is being secured, and a strong effort will be made to stay the progress of the mysterious malady.

The Evening Canadian says:—

"The Ontario election law has been brought into contempt, not only by the bickering of parties to the suits in Elgin and elsewhere, but by its inherent effects. With any degree of cunning the party leaders can bribe all they want to, and still save their candidate's bacon. The provisions against whiskey giving have been practically annulled, and meals and railway tickets may be distributed with impunity. Away with such a mockery. If we have not an effective election law let us have none at all."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Nothing Fitter—Symptoms and Cure.

The symptoms are molestation, like purpuration, intense itching, increased by scratching, very disquieting, particularly at night, when all pin-worms were crawling about the parts affected. It is allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for Tetter, Itch, Scald, Rheum, Scald Head, Erysipelas, Barbers Itch, Itchiness, all only, every Skin Disease. Sent by mail for 50 cents; 3 boxes, 1.50, (in stamps). Address, DR. SWAYNE & SON, Philadelphia, Pa. Sold by Druggists.

Daily Evening Review

MONDAY, AUGUST 20, 1883.

OUR FISHERIES.

One of the most valuable reports ever published by the Dominion is the blue-book lately published by the Department of Marine and Fisheries, and which deals most exhaustively with fisheries statements. The returns are for the year 1882, and show the produce and value of the fisheries of Canada, besides much other facts of the utmost usefulness. Among other contents the reader will find carefully prepared data showing the total yield and value of the fisheries, the imports and exports, the expenditure for the fisheries and fish-breeding, the revenue from fishery leases, licenses and fines, the fisheries staff, fish-breeding and list of fishery officers. The total value of the production of our fisheries in 1882 is \$16,824,092.34. The value in the previous year amounted to \$15,817,162.68, an increase of \$1,006,929.70, exclusive of the catch in Manitoba and the North-West Territories, of which there are no returns. The kinds of fish taken embrace such varieties as Salmon, Cod, Pollock, Haddock, Hake, Halibut, Herring, Mackerel, Alewives, Ling, Shad, Bass, Trout, Smelt, Sturgeon, Whitefish, Bar, Pike, Pickerel, Muskellunge, Sculpin, Perch, Eel, Sardines, Oysters, Clams and Lobsters.

By Fisheries, we find that Nova Scotia returns the value of her fishery products during the year at \$7,151,418.36 against \$6,214,781.50 in 1881; New Brunswick, \$3,192,338.85 in 1882, and \$2,930,964.68 in 1881; Quebec, \$1,976,518.81 in 1882, and \$2,761,922.50 in 1881; Prince Edward Island, \$1,835,687.25 in 1882, and \$1,945,299.80 in 1881; British Columbia, \$1,842,675.06 in 1882, and \$1,404,321.26 in 1881; Ontario, \$825,457.02 in 1882, and \$609,908 in 1881. To these returns must be added the value of computed consumption of fish by the Indian population (35,000), as per previous detail:

Salmon	\$4,375,000
Halibut	180,000
Sturgeon	250,000
Fish Oil	80,000
Total	\$4,885,000

An interesting table follows these returns, which gives the quantity and value of fish and products of fish exported by the Dominion. From it we discover that the total export of fish to the United States during the year, produce of Canada and not the produce of Canada, was \$2,444,323; to Great Britain it reached \$2,120,231; to the British West Indies purchased \$1,184,819 worth, while the grand total exports amounted in all to \$7,697,606.

Another statement shows the quantity and value of fish and products of fish imported into, and entered for consumption in the Dominion, also the duty collected thereon, during the fiscal year ending the 30th June, 1883. From that table we learn that the total dutiable imports amounted to \$138,799; of free fish, \$1,092,178. The value of the duty collected was \$24,066.11. Our purchases were mainly in Great Britain and the United States, though considerable quantities were bought in China, Japan, France and Newfoundland.

The report deals fully with the expenses and receipts. \$92,700.71 was expended for the general service, and the cost of maintenance and running expenses of the armed steamer *Le Canadienne*, employed in protecting the Gulf fisheries, was \$28,576.07, besides a further sum of \$11,490.33 for raising her when wrecked, and for special repairs; total \$119,666.11. Part of this expenditure is submitted into Provinces, as follows:

NOVA SCOTIA.	
Fishery Officers' salaries and disbursements	\$16,479.41
Fish-breeding	5,858.98
Total	\$22,338.39

NEW BRUNSWICK.	
Fishery Officers' salaries and disbursements	\$12,284.82
Fish-breeding	3,567.28
Total	15,852.10

QUEBEC.	
Fishery Officers' salaries and disbursements	\$14,819.22
Fish-breeding	9,148.68
Total	23,967.90

PRINCE EDWARD ISLAND.	
Fishery Officers' salaries and disbursements	\$3,756.48
Fish-breeding	760.32
Total	3,516.80

BRITISH COLUMBIA.	
Fishery Officers' salaries and disbursements	1,599.08
Total	1,599.08

ONTARIO.	
Fishery Officers' salaries and disbursements	\$11,729.77
Fish-breeding	11,888.67
Total	23,618.44

MANITOBA.	
Travelling expenses	\$909.55
Total	\$909.55

MISCELLANEOUS.	
Legal and incidental expenses	\$909.90
Advertising	160.20
Stationery and printing	30.36
Total	999.45

Total	\$92,700.71
-------	-------------

The expenses incurred for fish culture are also subdivided as follows among eleven fish hatcheries:

ONTARIO.	
Newcastle	\$4,403.03
Stamwich	4,369.79
General disbursements, including salary and travelling expenses of S. Wilnot	2,222.80
Total	\$11,095.62

QUEBEC.	
Tadoussac	\$1,404.48
Grande Pile	1,753.84
Maguette	1,350.90
Restigouche (Quebec and New Brunswick)	1,404.63
General disbursements	786.31
Total	\$6,600.16

NOVA SCOTIA.	
St. John River	\$1,397.44
St. John River	1,869.84
Survey of Oyster Beds	300.00
Total	\$3,567.28

PRINCE EDWARD ISLAND.	
Dunk River	\$625.32
Survey of Oyster Beds	35.00
Total	\$660.32

Total	\$31,223.93
-------	-------------

The collections made during the fiscal year are as follows:

Nova Scotia, licenses, fines, etc.	\$1,111.61
New Brunswick, rents, taxes on nets, fines, etc.	4,848.84
Quebec, license fees, fines and forfeitures	7,165.32
Prince Edward Island, license fees	40.00
Ontario, license fees, fines and confiscations	9,849.18
British Columbia, license fees	672.50
Total	\$23,637.45

The number of fishery licenses issued during the season of 1882 is as follows:

In Ontario	1,684
" Quebec	823
" New Brunswick	1,913
" Nova Scotia	88
" Prince Edward Island	2
Total	4,510

The outside staff employed in the fisheries service numbers 641 persons.

The numbers and kinds of fish eggs laid down in the fish hatcheries during the fall season will be found in the following recapitulatory table:

Salmon eggs	6,612,000
Salmon trout	8,350,000
Speckled trout	200,000
Whitefish	43,000,000
Total	58,162,000

This table gives the numbers and kinds of fish fry distributed from the same establishments during the spring season:

Salmon	5,783,000
Salmon trout	2,377,500
California salmon	471,000
Speckled trout	40,000
Pickeral	26,500,000
Whitefish	30,728,000
Total	55,739,000

The sum of \$40,000.00 was paid in salaries during the year to the various fishery officers of the Dominion.

NOVA SCOTIA.

Bedford Basin	\$2,405.97
Sydney	3,248.15
Building fishways	204.86
Total	\$5,858.98

NEW BRUNSWICK.

Total	55,739,000

The sum of \$40,000.00 was paid in salaries during the year to the various fishery officers of the Dominion.

TERRIBLE EXPLOSION.

The Acadia Powder Company's Mills Blown Up.

HALIFAX, Aug. 17.—Two mills, the storehouses of the Acadia Powder Company, situated near Waverly, thirteen miles out of the city, were blown up between two and three o'clock this afternoon. Henry McEwan, an assistant foreman, was instantly killed, and Rawley Smith and Charles Miller, two other employees, severely injured. McEwan had just entered the building when those in the vicinity heard him striking something with a hammer or some other heavy instrument. Hardly two blows had been struck when the explosion occurred, tearing the building to pieces and hurling McEwan's lifeless body twenty yards away. The only portions of the glass left standing were two immense wheels, the great weight of which prevented their being moved, and the heavy frame of the building. A second after the first explosion a small storehouse containing two hundred pounds of powder and situated about fifty feet away went up, followed several moments later by the corner mill, in which was most valuable machinery, and by the destruction of which the greatest loss occurred. The two latter buildings were blown to atoms, the wooden splinters covering an area of ground a quarter of a mile square. The injuries of Smith, who is a colored man, are not expected to prove fatal. Mr. Miller, as well, will be laid up several months. Neither of the two mills destroyed contained any quantity of powder, that which caused the explosion being about the floors and clinging to the wood and walls. Had the drying rooms, a short distance away, gone up there would have been an explosion of three tons of powder. An inquest was held this evening on the remains of McEwan, when a verdict was returned in accordance with the facts given. McEwan was forty-five years old, and leaves a wife and nine children. He had been employed by the Acadia Powder Company about ten years, and was considered a most reliable hand, being given the entire charge of the mill in which he met his death.

A New Mode of Pile Driving.

A framework with hoisting fall somewhat similar to the ordinary pile-driver was used in placing the pile in position ready for sinking two tubes, each two inches in diameter, with the lower ends bent inward toward the point of the piles, were attached to the pile by iron staples; at the upper end each pile was connected by a short section of rubber hose to other pipes connected with the city water main, which water supply was in the case under a pressure of four atmospheres. The piles usually sank by their own weight into the hole formed by the water jet, as soon as the valve was opened, making connection between the tubes on the pile and the water main. To hasten the rate of settlement a vertical iron bar, three feet long, was set into a hole bored into the head of the pile, and upon this were placed iron weights of 200 pounds each, as the resistance might require. Piles twelve inches in diameter were sunk in this way to a depth of fifteen feet in ten minutes' time. The least time required for a depth of fifteen feet was two minutes; the longest time for the same depth was thirty minutes. As long as the water jet was in operation at the foot of the pile it was possible to give the pile a rotary motion, and thus facilitate the descent; but as soon as the jet was stopped the pile became immovable. As a proof of their stability a dead weight of fifty tons was applied to some of them, and it was found that their resistance was entirely independent of the time consumed in sinking them. To sink twenty piles by this method required the use of about 2,000 gallons of water; seven or eight laborers were employed, and one gang put down from six to fourteen piles per day. — *Engineering News*.

Indian Depredations.

A telegram from Regina brings the startling intelligence that on Monday of last week, Pie-pot and band refused to go on the reserve allotted to them, and were committing depredations in the quiet town of Qu'Appelle. Col. Herchmer at once placed himself at the head of twenty-one Mounted Police and started for the scene, intending to bring Pie-pot to terms or to shoot. The chief of the band, however, had a very sudden effect, for he at once succumbed and started for the reserve.

"Why, Angell, what did you get those beautiful fish out of your basket?" "Ah! they lovely?" "I dyed them with the Triangle Fish-dye." — *Id.*

PORT HOPE.

The New Port Office.—Sir Effector Langevin has written to Mayor Hugal that he will be in Port Hope on August 30th to lay the corner stone of the new public buildings.

SUICIDE.—The *Guide* says that at about ten o'clock on Friday, a man named Matthew Morrow, who lived in an old house on lot No. 18, 4th con., Clarke, was found to have committed suicide by hanging. He had gone deliberately about the matter, he took the cord of his bedstead and went into the woods about forty rods from where he was living, and climbed a beach tree and fastened the cord about twenty feet from the ground, and jumped off a limb, dropping ten feet. He was found a short time afterwards by Mr. Stephen Taylor, P. M., of Zion, who happened to be at the residence of his sister, Mrs. Robinson, at the time. The man had been insane for some time past, was in Cobourg Jail for protection, but got out in some way. He had a wife and three children living near Millbrook.

BELLEVILLE.

BURGLARY.—Burglars entered the house of Mrs. McAnany, Dundas street, on Thursday night, and stole a quantity of silver and plated ware. There is no clue to the thieves.

Morley's Acid Phosphate IN DEBILITY.

Dr. W. H. Holcombe, of New Orleans, La., says: "I found it an admirable remedy for debilitated state of the system produced by the wear and tear of the nervous energies."

New Advertisements.

Ten Mile Foot Race

I will offer for competition, in a ten mile race, open to all, in the SKATING RINK, PETERBOROUGH, on the evening of

MONDAY, SEPT. 10th.

A purse of \$100.00, to be divided as follows:—
1st Prize.....\$70.00
2nd Prize.....\$20.00
3rd Prize.....\$10.00

Entrance fee, \$10.00. All entries must be in by Wednesday, September 5th.

Address: T. McNAUGHTON, Peterborough.

JEWETT WATER FILTER

(a great success for 25 years) you will be glad a thousand times more. Sold at every House Furnishing Store in the United States and Canada; or send for Circular to

JOHN C. JEWETT & SONS, Buffalo, N. Y.

SEALED TENDERS

Will be received up to 12 o'clock, noon, of SATURDAY, 18th AUGUST, for the erection of

Brick Dwelling, Stable And Other Outbuildings

On the lot adjoining Mr. Stapleton's, Water Street. Plans and Specifications at MR. RANNEY'S Office, on and after MONDAY, 13th AUGUST.

Lowest or any tender not necessarily accepted.

The time for receiving the above tenders extended to WEDNESDAY, August 22.

PORK FOR SALE.

Mess Pork, C. C. Bacon, Hams, Sugar-cured & Canned

Lard, in 50 Pound Tubs.

QUOTATIONS ON APPLICATION.

CAMPBELL McNEIL & Co.

Keene, August 10, 1883.

STONY LAKE

Daily Connection with Trains.

Fairy & Cruiser

Unavoidable delays excepted, the Steamer CRUISER will leave LAKEFIELD every

Monday, Wednesday and Friday

And the FAIRY every

Tuesday, Thursday and Saturday,

A. C. A. CAMP.

STONY LAKE REGATTA.

EXCURSION

UNDER THE AUSPICES OF THE PETERBOROUGH Y. M. C. A.

Will be run to Juniper Island (Canoe Camp) and Eagle Mount, Stony Lake, on

August 21, 22, 23, 1883

Being the three Regatta days of the Canoe Association. A Splendid View of the Association Camp, Regatta Course, and of Stony Lake generally, can be had from the Summit of Eagle Mount. The train will leave the Midland Station at 7 a.m., connecting with boats and their boats at Lakefield. Returning boats will leave Eagle Mount at 4:30 p.m., and Lakefield at 8 p.m.

ROUND TRIP, \$1.00.—Tickets good to return on any of the three days. Buy your tickets before-hand, as only a limited number will be sold each day, and first come, first served. Tickets may be had at the Stores of A. L. Davis & Co., Ormond & Walsh, W. W. Johnston, and at the Station. Go and see the CAMP, Peterborough, August 10th, 1883.

Musical Goods

Note the Address—

Corner Harvey and McDonnell Streets.

Daily Evening Review

MONDAY, AUGUST 20, 1883.

Desk Diaries.
Desk diaries for 1884 at the REVIEW stationery store.

The Market.
There was not a very large attendance on the market this morning, and the prices remain generally unchanged.

Cricket Match.
A cricket match was played on the Ashburnham ground on Friday afternoon, between the Peterborough and Hastings Cricket Clubs. The home team won the match by ten wickets.

Smith's Market.
Choice Virginia grapes 2½ lb boxes only 50 cents; Delaware peaches \$1.75 per basket; Jenny Lynn melons, water melons, apples, pears and plums.

Northwest Lands.
The Winnipeg Times of August 14th says:—“Mr. S. Crutcher, of Fort Qu'Appelle, has sold to Mr. Edwin R. Rogers of this city, the north half section 28 township 15, range 23 west of the second meridian for a consideration of \$2,500. An active demand for lands in the Northwest still continues, notwithstanding the attacks of the Reform press against this country.”

Personal.
The Rev. Dr. Davidson, of Tiverton, occupied the pulpit in the Baptist Church on Sunday morning and evening, and delivered good discourses to large congregations on both occasions. He will remain here during the week, attend the week night services, and occupy the pulpit again next Sunday.

Pedestrianism.
Mr. Thomas McNaughton offers a purse of \$100 to be competed for in a ten mile race, open to all, in the skating rink on the evening of Monday, Sept. 10th. The purse will be divided into three prizes, namely, first, \$70; second, \$20, and third, \$10. This should attract some of the best pedestrians of Canada.

Champagne Cider.
The most wholesome temperance beverage made. Put up in kegs—expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.
Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

A. C. A. and Jubilee.
Hundreds are daily going up from Lakeside and Young's Point to the Eagle Mount grounds. The Peterborough Fire Brigade Band, F. Miller, conductor, will perform to-night. Moonlight excursions every night this week from Lakeside; it is a great treat. The A. C. A. camp is just opposite Eagle Mount. Dancing, singing, boating and all kinds of refreshments on the grounds.

The A. C. A. Regatta.
To-morrow will be the first day of the American Canoe Association regatta at Stony Lake, and the regatta will be continued on Wednesday and Thursday. On these three days' excursions will be run from here to the camp by the Young Men's Christian Association, the tickets being good to return on any of the days. The train will leave the Midland Station at 7 a.m. This will be a good opportunity to visit the camp and see the regatta.

Dates of Coming Exhibitions.
The Provincial, at Guelph, Sept. 24 to 29th. Dominion, at St. John N.B., Oct. 2nd to 5th. Industrial, at Toronto, Sept. 11th to 22nd. West Peterborough, at Peterborough, Oct. 2nd and 3rd. East Peterborough, at Warsaw, Oct. 2nd and 3rd. East Durham, at Millbrook, Oct. 4th and 5th. Township of Otonabee, at Keesee, October 12th.

Church of England Temperance Society.
About a month ago a society was formed here under the above name, which is the one given to similar organizations throughout Canada and the Mother Country. The objects of this society have already been explained, and as they are worthy, no doubt it will meet with success in Peterborough. They have held two meetings already, and will meet again this evening in the chapel. Next Monday night is the date fixed upon for the grand meeting, when a gentleman from Toronto will be present and place the society on a solid working basis.

Quick Run to Midland.
The Port Hope Guide says that the specials with the officials of the Grand Trunk that left Port Hope on Friday morning arrived at Peterborough at 11.12 o'clock, leaving at 12.49; left Millbrook at 1.30 p.m., stopping 10 minutes at Woodville Junction and fifteen minutes at Orillia, reaching Midland at 5.03, making the run from Millbrook to Midland—122 miles—exclusive of the two stoppages, in 3 hours and 10 minutes. The train was in charge of conductor Boudry and engineer Malloch, with locomotive No. 45, one of the large Manchester M. H. engines, built by Budd.

A. C. A. ANNUAL MEETING

CONTINUED SUCCESS OF THE CAMP—GRAND ILLUMINATED PROCESSION.

A Paddling Race for Novices—A Very Pretty Sailing Race—Continued Arrivals—A Fanning Thunder Storm.

A. C. A. CAMP, Stony Lake, Aug. 18.—The great amusement of the day was some impromptu races. In the morning there was a paddling race, open only to members from the States who had never used the single paddle before the meeting. They paddled in Peterborough double hunting (open) canoes.

There were three entries, and the following was the order at the finish:—

1. W. B. Wackerhiser, M.C.C. Kanuck.
2. J. J. Wilkin, K.C.C. Verena.
3. A. Brerton, K.C.C. Nameless.
4. A. Bernheimer, K.C.C. Nameless.

The winners made remarkably good time for novices with the single blade, and indeed they all acquitted themselves creditably. The prizes were a pair of paddles presented by the Ontario Canoe Company, of Peterborough.

In the afternoon there was a sailing race for Rob Roy, Stella Maria, and Racine Shadow canoes. There were eight entries, and the canoes placed were as follows:—

1. F. A. Nickerson, S.C.C. Girode
2. J. J. Allen, T.C.C. Mabel K.
3. Wm. Whillock, N.Y.C.C. Ripple
4. Gen. Oliver, M.C.C. Marion

There was a moderate breeze and it was a very pretty race, the contest for third place being especially close. The prizes, a camp chair, and camp stool, and a hunting knife, were presented by Commodore Neilson of the Toronto Canoe Club. Afterwards there was a scrub race, when Commodore Neilson with his gigantic balance lug ran away from the small fry. In the evening there was a grand parade of canoes illuminated by Chinese lanterns, lamps, etc., and the manoeuvres were a beautiful sight. There were about 60 or 70 lighted canoes, besides many others not illuminated, and a number of spectators on the shores of the different islands.

Among the recent arrivals are the Rev. Dr. C. A. Huffman, Dean of the General Theological Assembly of the United States, and Messrs. Engine Huffman and T. J. Hand, of the Knickerbocker Club. There also arrived Messrs. H. H. Burnham, G. M. Farley, and A. Preston, of Port Hope, a great number of ladies and gentlemen from Peterborough and its neighbourhood.

THE BATTLE IN THE COURTS.

Another Breach in Mr. Mowat's Fortifications—The West Simcoe Election Declared Void, and a Supporter of Mr. Mowat Unseated.

When counting gains and losses on the night of the 27th of February last, the loss of no seat, unless, perhaps, that of West Hastings, caused more surprise to the friends of Mr. Meredith than the loss of West Simcoe, a constituency which had stood true to the Conservative cause ever since confederation, even despite Mr. Mowat's gerrymandering bill of 1874. That undue influence of some kind had been used every one was convinced when the returns showed that the Mowat majority of 22 in the township of Floss in 1879 had been increased to 196 in 1883, and the result of the trial has proved these convictions to be well founded. In the whole constituency Mr. Phelps (who has just been unseated) had only a majority of 35, so that, notwithstanding the great change in Floss, his majority was an exceedingly small one, one which should now be easily overturned, especially if there was, as we understand there was, over-confidence on the part of our friends in that constituency last February. Still, easy as the task may appear to be, the Liberal-Conservatives of West Simcoe will do well to remember, that no matter how corrupt and deserving of punishment a candidate conduct may have been there is always a good deal of sympathy for one who has been unseated, and that if Mr. Phelps should be again Mr. Mowat's candidate, they will have to see to it that every man of them does his duty on the coming polling day, when ever it may come, if they wish their efforts to be crowned with victory.

THE N. T. & Q. RAILWAY.

Mr. Geo. A. Cox, and Mr. E. W. Rathbun Among the Large Shareholders.

We take the following regarding the Napanee, Tamworth and Quebec Railway from the Napanee Express of August 17th:—

“The negotiations which have been under way for some time between the N. T. & Q. Railway Company, and Mr. E. W. Rathbun and Mr. Geo. A. Cox, President of the Midland Railway Company, with a view to obtaining the assistance of the two latter gentlemen in completing the road, have, we understand, been satisfactorily completed, and all that is now required to make the agreement valid is the signature of Mr. Cox, which will be obtained to-day, he being unable to attend the meeting on Wednesday. The details of the agreement have not as yet been given publicly, but it is understood that Mr. Rathbun will, in the new Company that is to be formed, have an equal number of shares with the old Company, and Mr. Cox will hold the balance of power, and act as umpire between the two. The agreement specifies that Napanee shall be the headquarters of the Company, that the road shall be constructed to the water's edge, and that the interests of the town (in so far, of course, as they do not collide with the interests of the company) shall be duly protected. A new board of directors will at once be organized, a number of the present board retiring to make room for the representatives of Messrs. Rathbun and Cox.”

“The new Company, with the Government bonus, will have ample funds to complete and equip the road. The contract for the work of track laying, ballasting, fence building, bridging, &c., has, we understand, been awarded to Mr. M. C. Howe, a most competent railway contractor, and operations will be commenced on Monday next. The first load of ties arrived yesterday from Deseronto, and was deposited alongside the Grand Trunk track near the Glass Works.”

Is Your Watch Clean.

Watches that are continually stopping and getting out of order, can be properly repaired by leaving them at Higgins's Shop, office lately occupied by E. Burnham, Simcoe street.

POLICE COURT.

MONDAY Aug. 20.—Mr. Thomas Mensies, J. P., occupied the bench at the police court this morning.

ABUSIVE LANGUAGE.

Thomas Congrove was charged with having made use of grossly insulting and abusive language towards R. N. Roddy. He pleaded guilty, but said that at the time he was not aware that he was breaking the law. He was fined \$5 and costs, or in default of payment fifteen days in goal.

A Peculiar Child.

Mr. J. F. Sabine, of 338 Adelaide street west is the father of a two months old daughter who has six toes on each foot. The child's ears are also peculiar, being perforated at the lobes, as if for earrings.—Toronto Mail.

Bucklen's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancers, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

DR. CARSON'S Stomach Bitters free the system of the poisonous humours that develop into Kidney and Urinary diseases, give tone and vigour to the Stomach and purify the Blood.

J. HACKETT'S.

Great Reductions in

Black Silks

J. HACKETT'S.

Daily Evening Review

TUESDAY, AUGUST 21, 1883.

Our contemporary the Belleville Ontario is exercised over the fact that the Premier of Quebec is just now without a seat in the Legislature of that Province, and says that his position is one "without a precedent, and one that would not be tolerated under any other system of responsible government." Please look nearer home, friend Ontario, and you will find that the position lately held by ex-Treasurer Wood, of the Morant Government, is a full justification for the present one of Mr. Monahan.

The Battery.

Members of the Durham Field Battery will take part in the target practice at Toronto on the 3rd and 4th of September. Several of the members of the Peterborough detachment will participate.

Serious Runaway Accident.

At about fifteen minutes after two o'clock this afternoon a serious runaway accident occurred. Mr. John Strain, of Ashburnham, was driving the delivery wagon of the Otonabee Flour Mills on Stewart street, when the horses became frightened and ran away, running northward at a furious rate of speed. Near Charlotte street Mr. Strain was thrown out of the wagon and sustained serious injuries. He was picked up unconscious, and Dr. King, whose office was near at hand, was called. The injured man was taken home, and is still insensible. The horses continued on until they crossed Charlotte street, when they became entangled in the harness, and the pole turning around, they were both thrown down. The pole of the wagon was broken.

When Did It Change Its Tune?

The following paragraph is from the "gossip" items in the Belleville Ontario:

"The Salvation Army bill soon attacked Belleville, Peterborough and Lindsay. They will attack Lindsay, but Peterborough and Lindsay are tough places."

The Salvation Army has already attacked Lindsay. But when did the Ontario discover that Belleville was such a moral place that Peterborough and Lindsay were "tough" in comparison? We have a distinct recollection of this same Belleville paper holding up the City of the Bay to the gaze of the world as an exceedingly immoral city, to such an extent that it was feared that the business of Belleville would be injured. Has some powerful regenerating influence been at work, or has the Ontario changed its tone?

MIDNIGHT TELEGRAMS

CABLE.
CETWAYO HEARD FROM.

LONDON, Aug. 20.—Cetwayo has recovered from his wounds, and has requested Queen Victoria to have an inquiry made into his treatment.

RELEASED.

LONDON, Aug. 20.—It is reported that the English missionary Shaw, imprisoned by the French in Madagascar, has been released.

CAERY'S BROTHER.

DUBLIN, Aug. 20.—Two men have been put under heavy bail for threatening Francis Carey, brother of James Carey. When Francis was attacked he drew a revolver and pursued his assailants, and finally gave them into custody.

VIOLENT LANGUAGE.

LONDON, Aug. 10.—The Times, commenting on the language used of late in the Commons by members from Ireland, says a sterner denunciation will be necessary in view of these revolting excesses. The Dublin Freeman's Journal says the violent language used in the House of Commons recently by Irish members serves no good end.

THREE POLICE SHOT.

DUBLIN, Aug. 20.—It is rumoured that three policemen have been shot during the eviction of an Orangeman from his tenancy in county Down, Ireland. The shooting occurred at Bainsbridge. Dennis Renshaw was the man evicted. He was arrested on the charge of shooting the policeman. While the evictors were advancing towards Renshaw's house a volley was fired at them. The head constable and a policeman were wounded dangerously.

EGYPT.

LONDON, Aug. 20.—An Alexandria correspondent says if the British troops should be withdrawn from Egypt no European family would remain a week. Egypt is incapable of self-government.

ALLIANCE.

MADRID, Aug. 20.—The newspapers are discussing the expediency of forming an alliance of Spain, Austria and Germany to check the influence of French Democracy in Spanish politics. The Cabinet had a meeting yesterday at which was discussed the attitude of France towards Spain, and it was resolved to make overtures to Germany for support.

Cause of Boiler Explosions.

A fruitful source of damage done to boilers, and one which has ruined thousands, is the practice of blowing a boiler off, and immediately refilling it with cold water, while the brick-work is red hot. The Age of Steel believes that nothing will tear a boiler to pieces quicker than this. Boilers have exploded with disastrous effect from this cause after the fire had been drawn. Probably most persons not familiar with the matter would be surprised to know the pertinacity with which cold water will cling to the lowest point of a boiler under these circumstances. Local contraction of such severity is thus induced that nothing can withstand its effects, and a few repetitions are generally sufficient to ruin any boiler.

The Fall River Regatta.

At the regatta at Fall River, Mass., on Monday, Hanlan, Lee, Ten Eyck, Hamm, McKay, Hosmer, Ross, Driscoll, Teemer, Riley, Platted, Elliott and Gaisel started in the professional race. The regatta, according to a despatch in the Toronto World, was badly managed, and a second start had to be made. Hanlan turned the buoy ahead, but as he did so the steamer Canoe with an excursion party came down the river and steamed among the oarsmen. The swell swamped Hanlan, Elliott and Hamm, and practically throwing Hanlan out of the race. Darkness fell rapidly and it was almost impossible to distinguish the men at the finish. At the close half a dozen oarsmen surrounded the judge's boat, several claiming first position. It was given to Teemer, who made two and a half miles in 18.28, Hosmer 2nd, 18.30, Ross 3rd, 18.35. The other oarsmen claim Hanlan was outwaded, but the roughness of his water and the swamping of his boat may be taken as the cause of defeat.

How to Put on Stamps.

A man can always learn something if he will only look about him. I was at the Postoffice Department the other day, says an observer, and I noticed an employee busy affixing stamps to envelopes. Every time he moistened the right hand corner of the envelope and then placed the stamp upon it. I asked him if there was any advantage in wetting the envelope instead of the stamp, and he said: "You notice that I moisten the envelope first; well, I do that because it is the right way. There is a right way and a wrong way to everything, and consequently there is a right and a wrong way to put on postage stamps. It is impossible to moisten a stamp with the tongue unless a small proportion of the gum adheres to it. Now this gum is by no means injurious, but then the department does not advertise it as a health food, so the only way left is the right way, and that is to moisten the envelope first." After listening to this brief statement I felt as though I had emerged from the deep shade of ignorance to the glorious sunlight of knowledge.

An Editor's Experience With Lightning.

Mr. H. M. Bart, editor of Above the Clouds, published at the Summit House, Mount Washington, N. H., writes a friend at Hartford, Conn., detailing his experience with a bolt of lightning. He said that he was in his office at about 6 p.m., July 23, when he felt a tremendous blow in the back. "I could not imagine at first what caused it, but instantly thereafter I saw a ball of fire as large as a man's head in front of me, not three feet off. It exploded with a tremendous noise, seemingly as loud as a cannon, and then I knew what must have happened. My left leg seemed to be completely paralyzed, and I fell to the floor. Three of my printers were in the room at the time, two sitting at the table near me and one standing up a little further off. The latter had the skin on one hand torn off, another was hit in the back, and the third escaped without injury."

Mr. Bart gradually recovered from the temporary paralysis induced by the electric stroke, and he winds up his account by saying: "You have probably heard of the impression of a bolt being found upon the bodies of those killed by lightning. The same thing was noticed upon my back, and, as there are no traces upon Mount Washington, it comes to me that the peculiar appearance must be the result of the blood circulating in the smaller veins."

RAIN STORM AND FLOODS.

A Great Amount of Damage Done—One Man Drowned.

A terrible deluge of rain, accompanied by thunder and lightning, descended on Saturday night upon a strip of country from fifteen to twenty miles in width and extending in a north-westerly and south-westerly direction from Listowel in the north and Paris in the south and covering part of the counties of Huron and North Perth, most of the county of Waterloo, the Eastern townships of Oxford and some of those of Brant. This section of country is drained in two ways, the height of land being about Listowel from which the river Matilda flows westerly into Lake Huron at Goderich, and the river Nith southerly to its junction with the Grand river some twenty-five miles south of Paris. The water set out in these two directions and did immense damage. Along the Matilda the despatches show great losses at Listowel, Wingham, Bluevale, Ethel, Hanfryn, Brussels; and down the valley of the Nith, and the little Conestogo creek, much damage was sustained in Melbank, Waterloo, Elmira, Heidelberg, New Hamburg, St. Jacobs, Ayr, Paris, Corp, houses, factories, barns, &c., were damaged and destroyed. A young man named Henry Ferguson was drowned at Ethel.

Big Blaze in Chicago.

CHICAGO, Aug. 15.—The United States Rolling Stock Co.'s buildings were burned last night. The fire began in the planing mill. The loss will reach half a million. The stock destroyed included 50 complete cars, valued at \$500 each, and a million feet of lumber. The company employed 500 hands.

An \$80,000 Fire.

RAT PORTAGE, Aug. 20.—The Rainy Lake Company's mill here was destroyed by fire on Saturday midnight. It was caused by fire working through the brickwork of the boiler-room into the sawdust. The watchman must have been asleep, as he got burned getting out. A fire caught in the same place before. Loss, \$80,000; insurance, \$30,000.

Struck It Rich.

A short time ago one McLaughlin, who had been some time in McLeod, loaded up his pack-horse and started for the mountains, expecting to strike something good. Calgary was recently thrown into a state of excitement by his arrival there with some wonderfully rich specimens of quartz, in which the native silver could be seen in immense quantities. Rich quartz it was without a doubt, old miners declaring

Daily Evening Review

TUESDAY, AUGUST 21, 1883.

NONE SO BLIND AS THOSE WHO WON'T SEE.

There is an old adage that there is none so blind as those who won't see, and certainly we venture to think that the people and press of Montreal are of this class with respect to the battle in which they are just now engaged with New York for the carrying trade of the west. With a persistency truly astonishing they adhere to and act upon the principle that the Welland Canal is the best and only feasible route for attracting the trade of the great lakes to their own port, notwithstanding the fact that the money that has again and again been expended upon it, the Erie ditch has always managed to keep the whip hand of it. No sooner does the Dominion complete one set of improvements on the Welland than we are told that something else is required to accomplish the object in view and one would really like to know how long this sort of thing is to be continued. The country has only just completed an enlargement costing millions, and now we are told that the little craft which ply on the Erie ditch, can and are taking the trade away from those large lake craft which we were assured would secure us the trade as soon as they could pass from Lake Erie to Ontario. In vain we ask for us and those who entertained similar views to point out that they were looking to the wrong source for a victory over our American competitors, that if we wished to beat them it must be with their own weapons even though it were by an Erie ditch; that in running after these big vessels for land locked navigation they were running away from the very trade they sought to attract; and that we had in our midst, under our very noses, a channel which only requires a comparatively small outlay and which is in every way in which it differs superior and in no single particular inferior to the Erie ditch, to fight our American cousins with in this trade contest. But it seems of no avail. Those who are, of all Canadians, the most deeply interested in this matter are for some cause or another persistently blind to the advantages possessed by the Trent Valley route as a competitor for the grain trade of the west—a route which is by hundreds of miles shorter to Montreal than the Welland route and hundreds of miles shorter to the sea than the Erie to New York; a route which has all the lake navigation at one end, and all the land-locked lake, river, and canal navigation at the other, thus enabling the kinds of vessels best adapted to each to be used on each with advantage, and with just the same transshipment as is involved in either of the above routes, and a route which practically extends the harbour of Montreal to the Georgian Bay, and would thus enable it to lay hold of this trade long before it comes within reach of the New York route and long before it encounters the disadvantages of the St. Clair, or the dangers of Lake Erie.

Were it not that the whole Dominion is so deeply interested in this matter one might afford to smile at the blindness of the commercial men of Montreal in this matter, but it is a too serious matter for smiling. That this trade should find an outlet by way of the St. Lawrence is of very great importance to the whole country, and it is of still greater consequence to the producers of this country that their produce should be got to market at the cheapest possible rates of transport, and that we all know is only to be effectually obtained by developing and improving our water-ways. What the Erie canal has done in the past and what it is still doing in the best possible proof of this. Let us recognize the great fact which its history teaches, and insist upon the Dominion Government completing the Trent Valley line of navigation at the earliest possible moment, and then, and not till then, will we see the St. Lawrence route enjoying that share of the grain trade of the west which nature evidently has intended it should enjoy.

The following is the article, from *The Shareholder and Insurance Gazette*, of Montreal, which has called forth the foregoing observations:

"Official returns show the increase of tonnage this year over its predecessor, on the Erie Canal, to be already more than 200,000, and it is computed that by the close of navigation the excess will reach three quarters of a million of tons in favor of 1883. Thus the wisdom of the policy of the abolition of the tolls is already vindicated. Who it is that really pockets what the Government now declines to collect is not yet made by any means satisfactorily apparent. It is manifest, however, that the diversion itself is large, and is likely to continue. In the latter case such a growth in favor of the Erie canal will soon to operate prejudicially against our own route to Europe via Montreal and the Lower St. Lawrence, and enough of the effect of the new policy is already established to make it clear that we cannot afford to look calmly on a fact so important to our own Canadian interests, but that we must be active in neutralizing it by following the example just so successfully set. To watch the effect for one season, as we are doing, is to gather all the experience we want to require. We trust the opening of navigation for 1884 will find that Parliament has by that time placed us in a position to at least recover the ground we seem now perceptibly losing."

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

METHODIST UNION.

Proceedings Before the English Bible Christian Conference.

Reports have just been received of the proceedings at the English Bible Christian Conference when the matter of assisting to the entrance of the Canadian Conference into the United Church was under discussion. Rev. Wm. Pascoe, ex-president of the Conference, was the delegate from the Canadian Church deputed to lay the matter before the English Conference. The following report upon the matter was made to the Conference by the Connectional Committee:—"In reply to the memorial of the Canadian Conference on the subject of Methodist Union we beg to state:—(1) That we approve of the brotherly spirit of that memorial, that we appreciate the principles of union, and that we respect the convictions which our brethren have expressed on this important matter. (2) Nevertheless, the prospect of their entire separation from our body in England causes us deep regret and pain, and we are apprehensive that such a separation would diminish the influence and damage the interests of the connection as a whole. (3) That we remind our friends in Canada of the evidence afforded us that as a section of the Church of Christ we exist in agreement with the Divine will, and that we have received an undeniable commission to preach the Gospel both here and there, and according to our best judgment the work assigned us as a denomination is not yet completed. (4) That we affectionately urge our Canadian friends not to hasten the consummation of this object, for should it be of God no doubt it will yet appear in a much clearer light; by deferring their decision for one year better opportunity would be afforded us for forming a matured judgment on the subject. (5) Should the proposed union, however, be effected before our next conference the entire responsibility thereof must be borne by the brethren in Canada, provision being made both for the sustenance of those brethren who approach superannuation, all reasonable claims on our annuitant fund being duly met; the settlement also of all liabilities pertaining to the brethren who belong to the connection in Canada must rest with our friends in that country."

Rev. F. W. Bourne, who, it will be remembered, was the delegate to the Canadian Conference in 1882, moved in amendment:—"That the consent of the conference be granted, and arrangements made for a settlement of all affairs connected with the two bodies."

This was lost, when Rev. J. C. Hoxby moved, "That the conference should withhold their sanction to the proposed union until an opportunity was afforded for forming a matured judgment on the subject."

This was carried. Thus the matter stands until the meeting of the Canadian Conference at Exeter on the 29th inst. The conference will then decide whether to postpone entering the union for one year or entering at once without the consent of the English Conference. It will be noticed, however, that the English Conference has not refused to assent to the Canadian Conference entering the union, but has merely postponed a decision. The Canadian body, if they enter the union at any time, would prefer to do so at once, so that their influence may be felt in preparing the discipline of the united body.

Strange Fate.

There is a well-known though rather vaguely worded prophecy which declares that in France "no son or kinsman of a sovereign shall succeed to the crown till after his forty-eighth year, that other claimants shall die by violence, and that one only shall escape and sit upon the throne." The prediction, which, it is believed, dates from pre-revolutionary days, has of late been extensively referred to in connection with the illness of Comte de Chambord and the coming of age of Prince Victor Bonaparte; it is curious, therefore, says the *St. James Gazette*, to note to what extent it has already been fulfilled by events. Of the "heirs of France" since the beginning of the century the Duke of Berri was assassinated in 1820 by Louvel, the Duke of Reichstadt died of poison at Schonbrunn in 1832, the Duke of Orleans was killed by an accident in 1832, and the Prince Imperial met his death in Zululand in 1879; and all these failed to attain the age of forty-eight.

A Labourer Decapitated.

Henry Moss, aged 35, an English laborer who has been in this country about a year, fell from a Toronto, Grey & Bruce train near Fiesherston about midnight on Saturday and was instantly killed. He was returning from work on the Canada Pacific near Algoma Mills, and was very much under the influence of liquor. After the train left Fiesherston Mr. Lawlor of Woodbridge noticed Moss trying to step from one car to the other, when he fell to the track below. His head was completely severed from the body. The train was stopped and the remains were forwarded to the city on Sunday afternoon. They are now at the morgue. Deceased had no friends in the city, but Jesse Lee of 108 hts. it is understood, money enough belonging to him to bury him.—*Toronto World*.

The Ventilation of Boats.

We have long desired an invention for the admission of fresh air to the feet while seated in boats, and we now learn that this end has been accomplished for rubber. Each step furnishes the motive power to force in fresh air. But leather boots need ventilation also, and why not apply the same, or some other method, to them? Shoes ventilate themselves quite thoroughly, but boots do not. It would be a very simple matter to ventilate them. We have ventilated hats which are all well enough, but boots need it much more. A hat can be removed at any time, but a boot cannot. Who will take the hint, and if he does not make a fortune, he will confer a benefit upon his fellow-men.—*Herald of Herald*.

Mystery of the Deep.

ATLANTIC CITY, Aug. 19.—An unknown schooner is reported to have sunk off Beach Haven Friday evening. The affair is surrounded with considerable mystery. She is said to have been pursued by a steamer, and reports say both vessels were putting on the shore under full sail and speed. While five miles out the schooner suddenly sank and all on board are supposed to be lost. The steamer remained where the schooner sank half an hour and then steamed to the eastward. The schooner is said to have raised a black flag.

Is it the Elusive Vessel?

A Copenhagen despatch says a foreign vessel is reported having wintered on the east coast of the island of Waigata, between Nova Zembla and the Russian mainland. It is not known whether the vessel was the missing Danish Arctic exploring ship *Djinnah*.

Dr. Casson's Stomach Bitters free the system of the poisonous humors that develop into Kidney and Urinary diseases, give tone and vigour to the stomach and purify the blood.

"Why, Angeline, where did you get them beautiful rich colors on your bonnet? 'Ah! they lovely? I dyed them with the Trianglo Package Dyes." 10c.

BELLEVILLE.

A DESTRUCTIVE STORM.—A very severe thunderstorm passed over this section on Saturday morning. In Ameliasburg the barn of Nicholas Paterson was struck by lightning and burned, with the greater part of the season's crop; loss about \$2,000, insured for \$300. The shed at the Centre church was also struck, but the damage was light. Mr. Jacob Wilson's house, near Radnorville, was struck and slightly damaged, and an old lady in the house was prostrated. In the city Wm. Knight's house was struck and the shingles torn off the roof. The rain was very heavy.

A New Maid of the Mist.

NIAGARA FALLS, N. Y., Aug. 19.—A company of citizens has been formed here for the purpose of constructing a boat which will be a fac-simile of the Maid of the Mist. It will be sent through the whirlpool rapids the first week in September. There will be no risk of human life. The boat will be constructed at the old Maid of the Mist landing at Suspension bridge, where the hull is now lying. Excursion trains will be run on the railroads.

A Mad Dog.

A mad dog ran through the streets of Fiesherston, L.I., on Saturday, creating great excitement. Four children were severely bitten; two are in a critical condition, being prostrated by nervous excitement. A horse also bitten had to be killed.

Wide Awake Druggists.

Messrs. Taylor & McDonald are always alive to their business, and spare no pains to secure the best of every article in their line. They have secured the agency for the celebrated Dr. King's New Discovery for Consumption. The only certain cure known for Consumption, Coughs, Colds, Hoarseness, Asthma, Hay Fever, Bronchitis, or any affection of the Throat and Lungs. Sold on a positive guarantee. Trial bottles free. Regular size \$1.00.—3

W. A. EPOAS, of Frankville, was cured of Liver and Kidney Complaint after life was despaired of. He had remained from ten to fifteen days without an action of the bowels. Burdock Blood Bitters cured him, and he writes that he is a better man than he has been for twenty years past.

Do not delay, in suffering any form of Bowel Complaint, however mild apparently may be the attack, but use Dr. Fowler's Extract of Wild Sassafras. It is the old reliable cure for all forms of Summer Complaint that require prompt treatment. Ask your druggist and all dealers in patent medicines.

Sea Bathing.

At the present time, says the *British Medical Journal*, it may be useful to recall the chief general indications and contra-indications which respectively sanction and forbid bathing in the sea. "Shall I bathe?" This is a question which thousands of health seekers will be asking of their doctors during the next few weeks. While the stimulus of a fresher air, of change of scene, and of new occupations, together with rest from accustomed work, are the elements from which the weakly, the worn, the worried reap physical and mental restoration in a sojourn on the sea coast, it is unquestionable that bathing in the open sea is, in itself, a powerful restorative agency, which many persons may employ with very great advantage.

The universal experience of our race, through unnumbered ages, has shown the value of sea bathing in both preventive and curative medicine. A good rule, laid down by an experienced physician, is this: In all cases showing impaired functional powers, without any manifestation of inflammatory symptoms, in short, in those cases in which the exhibition of alteratives and tonics is indicated, sea bathing may, with proper precautions, be resorted to; it is contra-indicated in persons of plethoric habit of body, in cerebral congestion, in organic disease of the heart, in aneurism and in all persons who have the inability safely to encounter a comparatively severe shock; while it also is to be forbidden at certain periods in which the female constitution is not prepared for the application of powerful remedies. Because it tends in certain conditions of impaired health, to cause determination of blood to the viscera. Bathing in the open sea is generally unsuitable for persons disposed to congestive disorders of the lungs, kidneys, liver and brain. Albuminuria, advanced anæmia and a liability to hæmorrhage are also conditions which are usually accepted as contra-indicating sea bathing.

It is hurtful to bathe babies in the sea; children under two years of age are too young to bear with advantage the comparatively severe shock of a cold sea bath. In old age, when the bodily powers are unequal to a vigorous reaction, sea bathing may do much harm, especially in the subject of extreme arterial degeneration. In suitable cases, and under proper precautions as to time of bathing and duration of exposure, a daily bath in the open sea is a valuable restorative. In individuals who are fairly robust, it is a stimulant, alterative, and tonic, promoting appetite, these change, and excretion, and basing up the nervous, vascular and muscular systems. Sea bathing is especially useful as a powerful and purgative tonic in dyspepsia, constipation from acute diseases, in many chronic affections, and in persons whose strength has become enfeebled by injurious excesses, by mental strain, or by unhealthy occupations.

Faith Remedies.

It is unnecessary to report to some collection of anecdotes relating to religious superstitions to show how great an influence faith or fancy may have on the human mind, and act through the mind on the body. The faith cures which are a portion of our current news are supplemented by practices by sensible people which are considered by them to be of such an occult or doubtful nature as to be concealed, usually, for fear of ridicule. It is not uncommon now for persons to wear around the neck a suspended miniature tablet of salt containing gum camphor as a defense against fevers, measles and small-pox. A string of red coral beads, or in lieu thereof a bit of scarlet yarn about the neck, is now considered a necessary protection of the infant from various ills. Some persons who are periodically afflicted with rheumatism carry either a small potato or a horse chestnut as a charm against the attack of the dreaded foe. This sort of nonsense is not confined to the vulgar and ignorant, for in at least two instances only a doctor of divinity and the other a man of liberal education and cosmopolitan experience.

The cure of warts has always been associated, more or less, with the occult or unknowable. A pleasant mannered young woman, who made no pretensions to unusual skill or medical knowledge, was for years the resort of all the wart-afflicted in the town and vicinity. Speaking from youthful memory, what she did was to take the number of the wart given her by the patient, or an accompanying friend, and that was the sum and substance of the prescription. There were plenty of her patients, however, who would swear that their visit to the quiet little dressmaker was followed by the rapid disappearance of their warts. There are reasonable and sensible men living who will aver that they cured their warts by steaming, unobserved, a bit of fresh meat, rubbing it on the warts, and burying it in the ground. In cases of threatened tetanus, caused by a foot wound, the drinking of water in which vinegar-dipped nails have been stirred was formerly adjudged to be a specific, and there are persons who will readily give testimony to this effect. In this case it is not impossible that the iron tonic may have been adjudged advantageous. It may be difficult to draw the line between the effect of medicaments on the human system under certain known laws and the mental influence of belief and desire on the physical body. Whether mental emotion or intelligent faith does really affect the animal portion of the structure or not, it is a curious fact that education and culture do not eliminate a belief in faith cures or remedies.

How a Woodcock looks to a Child.

The Boston Post says a gentleman from Boston was riding with his two little daughters in Malton the other day, when a woodcock came puffing along the road in front of the horse. The youngest of the little girls watched it with astonishment, and when it turned and disappeared in the woods, she said to her father, with the elevated air of having solved a mystery, "Papa, it was a sponge, wasn't it?"

A Whole Outfit of Crockery and Glassware at China Hall for \$3.00.

THE FOLLOWING IS CHINA HALL'S BARGAINS FOR AUGUST:-

MACFARLANE WILSON, China Hall and Silver Bazaar.

ALL FOR \$3!

FROM ALL OVER

TWELVE stores and six warehouses were burned at Crawford, Minn., Friday night. Loss \$100,000.

U Kan's Kopp.—Chinacough cakes. Quick, sure cure; of all dealers; 15c.

A CASE of yellow fever is rumored in New Orleans. Two new cases are reported at Pensacola, Fla.

AN anti-Jewish outbreak at Panagrat and Rostow, Russia, was suppressed and the instigators arrested.

DON'T PULL IT.—Use Newton's one minute toothache cure. Relief at once; of all dealers, 15c.

QUIET has been restored throughout perturbed Spain. The king has been enthusiastically received on his present trip.

Two daughters of the Rev. Mr. Wilson, of Carterville, Ga., while bathing on Thursday in an ore pit filled with water, were drowned.

NOTHING known to medical science can surpass the healing properties of Dr. Fowler's Extract of Wild Strawberry in Cholera Morbus, Dysentery, Colic and all Bowel Complaints.

A GERMAN firm has purchased Angre Pequena, on the west coast of Africa, where they purpose establishing a settlement and opening up trade with Cape Town.

DR. CARBON'S Stomach Bitters remove Constipation, relieve Dyspepsia, dispel Sick Headache, abolish Bilio-noses, and regulate the Stomach, Liver and Bowels.

PHYSICIANS say that ginger ale is a poor substitute for water, because the capicum it contains irritates the lining of the stomach and produces dangerous inflammation.

CHARLES INGRAM was fatally shot Friday night on the streets of Cincinnati by his brother-in-law, O. W. Richardson. The case was a domestic quarrel.

If you would escape the ravages of that scourge of the summer season, Cholera Morbus, keep Dr. Fowler's Extract of Wild Strawberry at hand for use. In that and all other forms of Bowel Complaint it is infallible.

THE fruit crop of the Annapolis Valley, Nova Scotia, will be a failure this year from various causes, among others the prevalence of the canker-worm, late frosts and blighting winds.

A SUGAR factory is nearly completed in Essex for manufacturing sugar from amber cane. Mr. Wright, the proprietor, has thirty acres of land growing cane, and other farmers in the vicinity have smaller amounts.

THE whistle of a locomotive is heard 3,300 yards, the noise of a train 2,800 yards, the report of a musket and the bark of a dog 1,800 yards, the roll of a drum 1,600 yards, the croak of a frog 900 yards, and a cricket's chirp 600 yards.

READERS, if you suffer from disorders of the Liver, Stomach, Kidneys, Skin or Blood, try Borden's Blood Bitters. Nature's specific medicine for setting on those organs for the outlet of disease. 25,000 bottles sold in the last three months.

THE Winnipeg & Western Transportation Company have notified the fact that the south branch of the Saskatchewan river is navigable, their steamer "Lilly" having arrived at Medicine Hat from Prince Albert last Friday, a distance of 670 miles.

"LEAVES have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallible remedy for Cholera Morbus, Dysentery and other Summer Complaints.

THE decomposed remains of Nicholas Sherrett, a well-known real estate dealer of San Francisco, were discovered in a vacant house belonging to him on Saturday. It is supposed he was murdered, as he was seen entering the house on Monday with three men.

FROM HAMILTON.—A gentleman writes:—"I have suffered for over four years with night sweats and general weakness, caused by abuse. I had tried all the advertised medicines, and a number of eminent doctors, and found no relief or benefit. I have used twelve boxes of Mack's Magnetic Medicine, and am entirely restored." See advertisement in another column.

REBUILDING CASABLANCA.—Casablanca, on the Island of Ichna, recently destroyed by an earthquake, is rapidly being rebuilt. One hundred and fifty-four houses have been erected and occupied. It has been decided to name streets after the King and Queen of Italy.

Such's Theory Disproved.—Dr. Spina claims to have disproved Prof. Koch's theory concerning the Tubercle Bacillus. Regardless of the many directly opposite theories of the ablest pathologists of the world, the surgeons of the International Throat and Lung Institute using the spirometer, the wonderful invention of Dr. M. Sorelle of Paris, an outside surgeon of the French army, are curing monthly hundreds of cases of bronchitis, consumption, asthma, catarrh, and catarrhal deafness. Physicians and sufferers are invited to try the Spirometer free. Call or write, enclosing stamp, for list of questions and copy of International News, to 173 Church street, Toronto, or 13, Philip's Square, Montreal, P. Q.

Advice to Mothers.—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no painless agent. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, soothes the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant, sure cure. Also for Teething, Cough, all early, quiet this medicine. Send by mail for 50 cents; 1 box, 1.25 (in stamps). Address, DR. SWAYNE & SONS, Philadelphia, Pa. Sold by Druggists.

Making Piles—Symptoms and Cure.—The symptoms are moisture, like purpulent action, intense itching, increased by scratching, very distressing, particularly at night, some as if pins were crawling above the parts affected. If allowed to continue very serious results may follow. "SWAYNE'S OINTMENT" is a pleasant, sure cure. Also for Teething, Cough, all early, quiet this medicine. Send by mail for 50 cents; 1 box, 1.25 (in stamps). Address, DR. SWAYNE & SONS, Philadelphia, Pa. Sold by Druggists.

Fortunity and Feasibility of curing the Triassic Packer Dye "best the world." If you never used dye before, do so now and be convinced. 1c.

Know

That SULPHUR AND IRON BITTERS will make the weak strong and gives the feeble, nerve.

Will increase the muscular force and double the staying power.

Will insure a hearty appetite and increased digestion.

Will give sleep, sound and refreshing in due season.

Builds up the constitution and makes the weakest rugged.

Strengthens feeble women and makes puny children strong.

Cures General Debility and gives a new lease of life.

Will infuse with new life the weakest invalid.

The Habits, occupations, vices and unnatural modes of living which seem to follow civilization have the effect of depleting the human system of its necessary supply of iron, and science having determined this, has found a means to re-establish that supply. It was an important and difficult task! But it has been accomplished. In the SULPHUR AND IRON BITTERS which have so quickly secured the endorsement of medical men as well as the public generally.

Iron in combination with other vital Tonics is found in a proper form for quick assimilation and the opinion of the ablest medical men who have examined this preparation is that it is the best thing of the kind ever invented.

SULPHUR AND IRON BITTERS Sold by all Druggists and at Depot 150 St. James St. West, Montreal, Price 50c.

Y. M. C. A. Meeting.

A religious meeting was held at the Midland station at four o'clock on Sunday afternoon by members of the Young Men's Christian Association. We understand that this meeting is to be continued on Sunday afternoons.

The Weather.

The weather to-day is clear and warm, with a breeze. The weather probabilities for this district as issued from the Toronto Meteorological office at one o'clock this morning, for twenty-four hours, are as follows:—Fresh southwesterly to westerly winds; fine weather; not much change in temperature.

Champagne Cider.

The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.

Put up in bottles. Orders sent by telephone if left at Bush and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

Street Musicians.

A band of street musicians are at present "doing" the town. The band includes three persons, two men and a small boy, and the instruments used are a large harp and two violins. The music produced is very good, but the chief interest of their hearers centres in the little boy, who is very little larger than his fiddle, and plays accurately while he is carefully looking around. These wandering bands appear to know the value of having a small boy or a young girl with them, to arouse interest or compassion. If one of the men, with his bearded look, went around with the hat he would not collect half as many coppers as the little lad does, and well they know it.

The Y. M. C. A. Excursion.

The first of the Young Men's Christian Association excursion to Stony Lake departed from the Midland station at 7 o'clock this morning. The attendance was quite large, about three hundred persons being in the train, and the number was probably increased on the way. Two more excursions will take place under the same auspices to Stony Lake—to-morrow morning and on Thursday morning, these being the days of the American Canoe Association regatta. The moonlight nights will no doubt be thoroughly enjoyed at the camping ground. The number of tickets to be issued is limited, to prevent over-crowding, and the full extent of the limit will probably be reached to-morrow.

The Dangers of Smoking.

Often in the dead of night a terrified family is aroused by the clanging of the fire alarm or the dreaded shout of "fire," barely in time to escape with their lives, and in a few minutes they are left without a covering for their heads. And often, too, this result is directly traceable to the habit of smoking. This truth was forcibly brought to the minds of several onlookers on Monday afternoon, when a gentleman's cigar ignited and destroyed his umbrella. Quietly he walked along George street, with the smoking and blazing gingham in his hand, and just as the flames were leaping up and snapping savagely at the skirts of his coat his attention was called to the work of destruction that was going on. He raised the umbrella, held it out at arm's length horizontally, cast one lingering look upon it, and with a sigh he tossed it into the street. Soon nothing was left of it but the blackened handle and ribs. The moral is easily seen. Men should smoke pipes with covers on the bowl.

The Blue Ribbon.

The Church of England Temperance Society held their meeting in the chapel on Monday evening. There was a fair attendance, and a number of new members were enrolled. As each one takes his pledge he is presented with a little blue badge with the initials of the society printed on each, viz.: "C. E. T. S." A committee was formed to look after the general interests of the society, and to gather in new members. This committee consists of Messrs. I. Robinson, C. Maurice, Geo. J. Brown, F. R. Yokome, A. D. Brown, A. Hall, A. H. Macdonald, H. Cherman, Geo. Fry and Joe. Gerard. Mr. Hoyle, of Toronto, will preside at the meeting to be held on Tuesday night next, instead of Monday night, as previously announced. The hour fixed for the meeting is 7.30 o'clock. All members of the Church of England are cordially invited to be present and take part in the musical and other exercises of the society. From appearances this new branch will soon be one of the largest temperance societies in Peterborough, and no doubt will accomplish a vast amount of good among the victims of intemperance.

A. C. A. ANNUAL MEETING

A QUIET SUNDAY ON THE LAKE—AN IMPRESSIVE AND APPROPRIATE SERVICE.

Fresh Arrivals Still Pouring In—A Novice Race with the Single Paddle—The Cruiser Aground.

A. C. A. CAMP, STONEY LAKE, Aug. 20.—Saturday afternoon witnessed the arrival of a number of additional members and their lady friends. There was great enthusiasm when the Fairy came in, a little before sunset, with a scow in tow, and carrying a number of canoes with members of the Rochester and Philadelphia Canoe Clubs and many other ladies and gentlemen. One of the welcome arrivals on this boat was the Aurora, the canoe of Dr. Neide, the zealous secretary and indefatigable cruiser who had not seen his canoe since his long cruise to Florida, whence it was forwarded to him.

Later still came the Cruiser with additional members. Great was the excitement when she ran hard on a rock near Eagle Mount, and her passengers had to be taken off in canoes. The next day the Fairy came up with a raft with a captain and pair of horses, borrowed from Mr. Chalmers of Young's Point, and an unsuccessful effort was made to get her off.

An interesting impromptu race was got up on Saturday, being in single hunting canoes for members from the United States who had never used the single blade before this meeting. There were five entries and the leading canoes were placed as follows:—

1. L. L. Couderc..... N. Y. C. C.
2. E. A. Hoffman, Jr..... K. C. C.
3. W. Whitlock..... N. Y. C. C.

There were two prizes, a paddle presented by the Ontario Canoe Company of Peterborough, and another presented by Mr. John Edwards. As the contestants were precluded from changing their paddles from the side on which they began the steering was a difficulty for novices, but the leaders made very good courses and fair time.

There was a violent thunderstorm in the early morning and several showers during the day, but this was not sufficient to quench the enthusiasm and in the evening a glorious camp fire was lit at headquarters, and the song went round.

On Sunday there was divine service at the headquarters' camp at eleven o'clock in the morning, when a numerous congregation assembled. The Rev. R. H. Neide read the commencement of the morning service, and the Rev. Dr. Hoffman the lesson and the concluding portion of the service. The Rev. G. L. Neide preached an appropriate discourse from the last verse in the book of Psalms, "Let everything that hath life praise the Lord." After touching upon modern scepticism and its denial of worship to the Lord, he dwelt upon the necessity that was inherent in human nature to rest upon the consolation of religion. He then eloquently described the causes that he and his congregation had to praise the Lord, alluding especially to the healthful rest and innocent recreation that they were experiencing. The hymns were very appropriate and well sung, thanks to the care of the ladies, who had prepared the musical programme. The Rev. Dr. Hoffman concluded with prayer and dismissed the congregation with the benediction.

The photographers are busy this morning. Mr. Little, of Peterborough, is taking the Knickerbocker Canoe Club, and Mr. Anderson, of Toronto, the Albany and other clubs. A business meeting of the Association is called for 10 o'clock this morning.

Further arrivals from the United States have been Messrs. T. S. Westcott, W. H. Falkner and H. L. Willoughby, of the Philadelphia Canoe Club; Messrs. G. H. Harris, F. F. Andrews, H. M. Stewart, C. H. Plummer, S. C. Eaton and E. M. Gilmour, of the Rochester Canoe Club; Messrs. E. W. West and J. C. McDonald, of Glen's Fall, N. Y.; Lake George Canoe Club; H. L. Willoughby, of Saratoga, N. Y.

From other parts of Canada are Dr. J. Weststead and Mr. P. B. Symes, Ottawa Canoe Club; Mr. Drummond, Perth; Dr. J. Simpson, Cobourg; Mr. F. W. Jacobs, Toronto; Messrs. Jas. McDougall and D. B. Simpson, Bowmanville; Lieut. Stevenson, M. G. A., Montreal.

Besides, there were a number of local members, some accompanied by ladies.

Needs Attention.

The crossing on George street in front of McConnell Bros.' store is badly in need of attention, and we have been requested to direct the attention of the Street Inspector towards it.

Crickets Match.

A cricket match will be played on the Ashburnham ground to-morrow between the Peterborough and Unbridge clubs. A good match may be expected.

The Strike Over.

The telegraph operators' strike is ended. It was for a time thought in Canada that the despatch from the chief of the Brotherhood ordering them back to work was not genuine, but these doubts have been dispelled, and the strikers throughout the country are applying for their old positions. The striking operators of Peterborough have returned to work. Everything will soon be going on as usual.

Stony Lake Views.

Two paintings of scenery at Stony Lake are on exhibition at the store of Messrs. A. L. Davis & Co. The artist is Mr. Edward Roper, of London, Eng., brother of Mr. J. H. Roper, of the Bank of Toronto. One of the scenes is Fairy Lake, near Stony Lake, a very pretty scene admirably portrayed. The shores of the little lake are thickly covered with trees, and the details are executed with care, the moss covered rocks rising above the water and the water lilies looking very natural indeed. The second painting is of a scene in Stony Lake itself. Bare Island is shown, with Mount Julien in the background, and many who have just returned from these scenes bear testimony to the correctness of the pictures. They are fine works of art, and each painting as many strangers now attending the American Canoe Association camp would like to take home with them.

Railway Notes.

The noon train on the Midland was half an hour late to-day, and the noon Grand Junction train was two hours late.

The Belleville Ontario says that the Central Ontario railway was inspected by the Government railway inspector this week from Trenton to Eldorado, 40 miles north, as the Company intends running regular passenger trains soon.

Accident.

As Mrs. Samuel Fowles, of Ashburnham, and her sister were driving up the river road in Douro, south of the Nassau mills, to Mrs. Wm. Reid's, on Sunday afternoon last, they were met by a runaway horse with a buggy attached, which came into collision with the one driven by Mrs. Fowles. Both she and her sister were thrown out. Miss Hilton escaped without injury, but Mrs. Fowles had her shoulder dislocated and received other injuries of rather a serious character.

Bucklen's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancer, Piles, Chills, Corns, Tetters, Chapped Hands, and all kinds of eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

Convincing Proof.

Having suffered from rheumatism for a long time I was induced to try your Arnica and Oil Liniment. The first application gave instant relief, and now I am able to attend to business, thanks to your wonderful medicine.

I am yours truly,

W. H. DICKINSON,
218 St. Constant St., Montreal.
To Henry, Johnsons & Lord, Montreal.
Arnica and Oil Liniment is sold by all Drug-gists.

THEY MUST GO!

GENTLEMEN,—In stentorian tones we state that certain things must go. We beg to offer below a sufficient bill of particulars.

Now, in order to make SUMMER SUITS go, special inducements require to be offered.

The following are said inducements:—

The very Newest Style of Garments.

The Best Cut and Fitting Garments.

The very best Trimmed Garments.

Back the above inducements, gentlemen, back them up with our feather-edge prices, for we never allow anybody to give so good clothing for so little money as we. If you want cool dress, either elegant or economical, come to

T. DOLAN & Co.

Cluxton's Block, Corner of George and Hunter Streets.

WEDNESDAY, AUGUST 22, 1883.

ACCIDENT ON THE G. T. R.

An Engine and Three Cars Mashed at
Quelph.

QUELPH, Aug. 20.—About four o'clock on
Sunday morning an accident which will involve
the loss of considerable property to the Grand
Trunk occurred at the "Y" where the Grand
Trunk and Great Western divisions cross each
other. There was a heavy thunderstorm at
the time, and it was impossible to distin-
guish objects for any great distance ahead.
The Great Western train, drawn by engine No.
74, in charge of Conductor Cox and Engineer
Thompson was going north at the time and the
Grand Trunk train drawn by engine No. 264,
in charge of Conductor Scanlan and Engineer
Wm. Nye, was moving slowly east. The north
bound train was composed mostly of box cars,
and at the rear were three flat cars and the con-
ductor's caboose. The engine of the Grand
Trunk train struck the flat car next the con-
ductor's van, breaking them apart, throwing the
flat on the platform and tumbling the van into
the gully on the south side of the G. T. R. track.
The engine and a car loaded with fresh meat on
the east bound train also left the track, the car
being thrown on the caboose, damaging both
considerably, the engine going through the
platform down the embankment, turning the
tender and forward. Before the train struck the
freeman and engineer of the G. T. R. train jump-
ed and escaped unhurt. The occupants of the
western conductor's van received a severe shak-
ing up by being pitched down the embankment,
but feel none the worse.

Advertising the Country.

The directors of the Canadian Pacific Rail-
way, accompanied by a select party of Cana-
dians and foreigners, left Montreal by special
train on a trip to Calgary, eight hundred and
forty miles west of Winnipeg, at the foot of the
Rocky Mountains. The guests consisted of
Prince Rohdenlohe, of Prussia, Count Oetinger,
Baron Estheim, Lord Epsing, John Lange,
editor of the London Telegraph, W. Hardman,
editor of the London Morning Post; Baron
Albert Salvador, editor of the Paris Figaro;
Professor Paul Faill, of Paris; Dr. Oscar Ber-
geron, of the Vienna Free Press, and a number
of others. Among the Canadians were ex-Gov-
ernor Archibald T. R. Kennedy, G. B. Duffus,
of Halifax, and Charles Canfield, of Montreal. Mr.
Archibald twelve years ago went out to Mani-
toba, at that time a howling wilderness, as
Lieutenant-Governor. The then struggling
village of Fort Garry is now a flourishing city
of 25,000 souls. The wilderness of that day is
now covered with waving corn and other cere-
als, and the ox cart has given place to the
palace and dining car.

Thousands Say so.

Mr. T. W. Atkins, Girard, Kan., writes:
"I never hesitate to recommend your Electric
Bitters to my customers, they give entire satis-
faction and are rapid cures." Electric Bitters
are the purest and best medicine known and
will positively cure Kidney and Liver complaints,
purify the blood and regulate the bowels. No
family can afford to be without them. They
will save hundreds of dollars in doctor's bills
every year. Sold at fifty cents a bottle by Tay-
lor & McDonald.

MIDNIGHT TELEGRAMS

CABLE.

REJECTED.
LONDON, Aug. 21.—The Irish Registration
bill was rejected in the Lords this afternoon by
52 to 32.

VISIT TO CORK.

CORK, Aug. 21.—Earl Spencer, Lord Lieuten-
ant, accompanied by Lady Spencer, arrived last
evening. He was escorted through the streets by
a small mounted guard, and respectfully re-
ceived. Policemen in light of each other guard
ed the train from Dublin to Cork.

REJOICING AT SLIGO.

SLIGO, Aug. 21.—Sligo was illuminated last
night in honor of Lynch's victory. Mr. Sexton
in a speech charged the Sligo magistrates with
abetting the election. He denied using
abusing language in the canvass.

FURTHER REMANDED.

LONDON, Aug. 21.—James McDermott,
arrested at Liverpool on suspicion of complicity
in the dynamite conspiracy, has been further re-
maned. The prosecution will show that Mc-
Dermott has been in Cork with Featherstone.

CHOLERA IN EGYPT.

LONDON, Aug. 21.—There have been 140
deaths from cholera among the British troops
in Egypt since the outbreak. There were 33
deaths in Egypt on Monday, 43 at Alexandria.

THIRTY MINERS KILLED.

LONDON, Aug. 21.—An explosion has occurred
in a colliery near Cardiff, Wales. Thirty miners
were killed.

FRANCE AND TONGKIN.

HALFONG, Aug. 21.—The French commis-
sioner to Tongkin, who is on the Admiral's ship,
will be the bearer of an ultimatum to Annam.
If it is rejected a blockade will be proclaimed.
A Hong Kong correspondent says it is certain-
ly meant to bombard Hue unless Annam con-
sents to France's terms.

CAPTURED BY BRIGANDS.

CONSTANTINOPLE, Aug. 21.—Brigands have
captured the Governor and several councillors
of Florina, near Salonica, and demand \$20,000
ransom.

AFFAIRS IN SPAIN.

MADRID, Aug. 21.—The King arrived at
Barcelona yesterday and was cordially greeted.
Five subalterns have been arrested in Madrid.
The Government organs admit a crisis in the
Ministry is possible. The military authorities
believe the extent of the revolutionary move-
ment is greater than the actual outbreak, and
advocate the continuation of the state of siege
for some time.

RIOTS AT TRIESTE.

TRIESTE, Aug. 21.—A riot broke out on Sunday
between Italians and Austrians. Several of the
latter were seriously wounded. An Austrian
editor was severely beaten.

ANTI-HUNGARIAN RIOTS.

VIENNA, Aug. 21.—Riots caused by opposi-
tion to the Hungarian language in official notice
have occurred in other towns besides Aus-
trian. The troops intervened.

MR. SHAW'S CASE.

LONDON, Aug. 21.—There was a live discus-
sion in the Commons this afternoon regarding
the case of Mr. Shaw, the British missionary in
Madagascar, who is held by the French. Mr.
Gladstone declared he had no reason to believe
there had been excess of jurisdiction exercised
by the French. The arrest of Mr. Shaw was a
serious matter, and it would be the absolute
duty of the Government to carefully watch
events in Madagascar. He was unable to say
when or where the court-martial on Mr. Shaw
would be held. The discussion, he said, was
calculated to impair good-will and amity be-
tween England and France. (Cheers.) There
was no reason to presume that a friendly and
civilized Government would lack the elementary
principles of justice towards imprisoned foreign
subjects. He was not aware that Admiral
Pierie had refused to allow Mrs. Shaw to
see her husband, notwithstanding she had been
absent from him two years. He would inquire
further into the matter. Notice was given of
several questions to be submitted to-morrow in
connection with Mr. Shaw's case.

Human Obesity.

We recorded on Saturday the death of the
fattest woman in the world, a member of
Nathan Cleveland's circus in America, who ap-
peared to have been smothered in bed. Miss
Conley, though the most enormous of her sex,
weighing as she did 496 pounds, fell far short of
that prodigy of human bulk, the famous Daniel
Lambert, who died in 1890, at the age of 40.
Lambert weighed no less than 52 stone 11
pounds, that is 730 pounds, or close upon half
a ton, and again as the American lady. Daniel
Lambert's coffin with his body could not be
brought down the stairs of the house in which
he died, and the wall at the side of the window
had to be broken away to provide an exit. He
was 5 feet 11 inches in height, measured 9 feet 4
inches around the body, and 3 feet one inch
around the leg. He never drank, ate any beverage
but water, and slept less than eight hours per
day. The "Claimant" at his stoutest weighed
only 25 stone, or less than half the weight of
Daniel Lambert.—London Times.

Large Estates.

With the exception of the Duke of Suther-
land, the greater part of whose estate is a track-
less waste, no landowner in Great Britain can
come up to the acreage of the Great German
nobles. In Austria and Hungary, Prince
Schwarzenberg owns estates covering 120 Ger-
man square miles (15 miles German equal 70
English miles); Prince Liechtenstein owns 104
square miles; Prince Esterhazy 89; and Count
Schochorn 60; while there are more than a
dozen estates between forty and fifty square
miles in extent. In Germany Prince Thurn
and Taxis owns 55 miles; the Duke of Bruns-
wick 40; Prince Farnsburg 30; Prince Salm-
Salm 20; the Duke of Tecklenburg 35 (aver-
aging); and then comes half a dozen with from 20
to 30 miles. The largest estate in Germany be-
longing to the Belgian Duke of Arenberg, and
lies in Hanover and Westphalia. The Duke of
Sutherland's possessions are estimated at about
110 German square miles; the Duke of Ar-
gle's at 29; the Duke of Northumberland has
13, and the Duke of Devonshire 10.

Bridge and Houses Swept Away.

HAMBURG, Aug. 19.—The iron bridge on the
main street and several houses were swept away
by the flood this morning early. The Grand
Trunk station is isolated from the town and will
remain so for several days.

A LEADING agriculturalist, who has enjoyed ex-
cellent success of observation, expresses the opin-
ion that crops have not been so good in the
Townships, taking it all in all, for thirty years.

How Things Appear to the Insane.

"One who has been insane" gives his expe-
rience in the Popular Science Monthly. He says:
"The first that I remember of my attack was
while I was riding in a railroad car. It seemed
to me that the passengers in the forward part
were getting up amateur theatricals. The fact
that this did not surprise me, nor appear at all
out of place, illustrates one curious feature of
insanity, and that is, its close similarity in many
respects to dreaming. It is well known that the
strange phantasmagoria attendant upon most of
our dreams never strikes us at the time as at all
astonishing, illogical, or contradictory, because
the critical faculty in sleep is partially and per-
haps wholly dormant. And so also is it in in-
sanity. And as a sound or a touch will suggest
or give direction to an ordinary dream, so every-
thing that occurs within the sight or hearing of
an insane man affects him in like manner. Also
he has no more control over his words and actions,
when the insanity is complete, than a somnolent
person. And when a patient comes to himself,
after having been insane, he feels as though he had
been having a long and, sometimes, a very un-
pleasant dream. Some of my delusions were
of a frightful character, and resembled a night-
mare more than anything else; but more often
they were by no means disagreeable. Of course,
it seemed strange to me afterward that I could
have been carried away by such absurdities. At
one time I thought that the end of the world
had come, and that the day of judgment was at
hand. This was somewhat remarkable, because
I had not for years been a believer in the scrip-
tural prophecies relating to those two events.
Nor had I any faith in the doctrine that there is
a hell of fire; yet in imagination I visited that
place of torment and witnessed the tortures of
the damned, without, however, getting scorched
myself. Some strange conceits that I had
come across in books, occasionally suggested
material for my mind to work on. I saw men
whose souls I believed had been taken from
their bodies, leaving behind the intelligent per-
sonality—an idea suggested by a character
described in Bulwer's "Strange Story." Again,
I thought that demons occasionally reanimated
human bodies after death; and this fancy I
must have got from a dramatic work by Bishop
Gow, entitled "Bani," in which the evil spirit
sent to trouble that unfortunate monarch rean-
imated and took possession of the body of a priest
whom Saul had slain. I mention these instances
as serving to show the dream-like character of
insanity."

Effect of Alcohol upon Insanity.

It cannot be claimed that we have yet learned
all that is to be known about our stomachs and
the reactions that take place within them, not-
withstanding the fact that one man, at least,
lived for many years with an open window, as it
were, in his stomach.

Every contribution to our knowledge of the
subject based on real, first hand, experimental
proof, has some value, hence we think that the
recent experiments of Dr. P. J. Spencer upon
the effect of wine on the medical properties of
pepsin are worthy of careful and thoughtful
attention, imperfect as they are.

Pepsin, also known as chymosin, is one of the
active ferments of digestion. For medicinal
purposes it is prepared by scraping the well
washed stomach of a hog, and in this state
possesses the property of dissolving a large
quantity of coagulated albumen, such as the
white of egg. Dr. Spencer, in his paper read
before the Ohio State Pharmaceutical Associa-
tion, gives the amount of white of egg (hard
boiled) that will be dissolved by one grain of the
pure pepsin, of different makers, when mixed
with eight drops of pure concentrated hydro-
chloric acid in six hours. The amounts varied
from 68 to 170 grains, with an average of about
80 grains.

He found that the acid alone would dissolve
half as much as the acid and pepsin, or 40 grains,
and that eight drops of acid and 100 c. c. of ten
per cent. alcohol would dissolve as much
albumen as the ordinary commercial pepsin
and acid would together. This would make
alcohol equal to pepsin as a digestive agent for
egg albumen. For raw beef the case is quite
different; acid and alcohol having less power
than acid alone, while acid and milk sugar dis-
solved as much meat as the best pepsin with
a id.

It is to be regretted that alcohol was not tried
in combination with pepsin.

In conclusion, Dr. Spencer states his convic-
tion that an hour's exercise in the fresh air is
equal in digestive power to any usual dose of
pepsin, regardless of make. When combined
pepsin is used it should be as fresh as possible.

H. Seeman has proved (Centralblatt fur Med.
Wissenschaft), that free hydrochloric exists in the
stomach, although the presence of pepsin pre-
vents its detection by means of methyl violet.
This is probably one reason why it has so long
been an unsettled question whether it is
hydrochloric or lactic acid that gave the acidity
to the gastric juice.—Scientific American.

Locked in the Ice.

The whaling schooner "Era," of New Lon-
don, arrived in the bay of St. John's last week.
She is from Hudson Bay, and her voyage ex-
tends over twenty months. Captain
Clisby, her commander, reports having on board
three hundred barrels of oil and thirty-
eight quintals of bone. The "Era" had
been locked in pack ice for seventeen months,
and only escaped a fortnight ago from her winter
quarters. One hundred and fifty miles east
of Cape Chudleigh, Labrador, the last ice was
passed. Captain Clisby thinks that the past
Arctic year has been the most severe within the
memory of any person now living, and believes
that the Greeley relief ships will have great dif-
ficulty in ascending to a higher latitude than
Cape York. This opinion entirely coincides
with that of Captain Jackson, of the steamship
Eagle, recently returned from Iceland.

The Governor-General's Movements.

Owing to the desire of the Princess Louise to
be at Quebec on the arrival of Prince George,
which event will happen about the 1st of Sep-
tember, the Marquis of Lorne has arranged to
be in Ottawa on the 5th of September, and will
present the Dominion Rifle Association prizes
on the 7th. On the 11th and 12th he and the
Princess will visit Toronto. They are expected to
remain in Ottawa for a month, and Lord
Lansdowne will also be here with them for
time.

Bridge and Houses Swept Away.

HAMBURG, Aug. 19.—The iron bridge on the
main street and several houses were swept away
by the flood this morning early. The Grand
Trunk station is isolated from the town and will
remain so for several days.

A LEADING agriculturalist, who has enjoyed ex-
cellent success of observation, expresses the opin-
ion that crops have not been so good in the
Townships, taking it all in all, for thirty years.

Miss Jenkins

Has Removed to the Store TWO DOORS NORTH OF BAILEY BROS. FRUIT STORE, George Street, where she will be pleased to see all her old customers.

FANCY WORK and WOOLS.

Full Stock on hand of all the LATEST STYLES of Fancy Work, Wools, etc.

THE TABLES TURNED.

A Hackman Who Understands the Rules of Railroad Traffic.

A communitarian person identified with the dangerous classes of the Comstock, and notorious for his disregard of truth and contempt of vested rights, has just returned from a visit to San Francisco. This morning he endangered the good name of the *Chronicle* by entering its editorial room. The Nihilist declared that he had a "good thing on Stanford and Steve Gage," but he supposed the *Chronicle*, like the rest of the corrupt and time-serving press, would be afraid to publish it.

"Tell your story," said the editor, with dignity, giving indignantly at the boot of the Socialist, which was resting upon the editorial table. The best remained there, however, while the following ridiculous narrative was delivered:

"It's fine weather at the bay, and everybody who can afford it takes a spin occasionally out of the dust and heat. Last Saturday Stanford and Gage were walking along Kearney street, and when they got to the corner of Bush the Governor took off his hat, wiped his brow and remarked:

"Steve, it's too hot for anything. What do you say to a breath of fresh air?"

"Have we time?" inquired Mr. Gage, pulling out his watch. So did the Governor, who replied:

"There isn't anything very pressing for a couple of hours, I guess, and we may as well take a spin out to the park. It isn't worth while to have our hats soiled. Let's take a hack and then we can enjoy a walk when we get there. It'll be better than riding around the drive."

So they got into a coupe and were driven out to Golden Gate Park. At the entrance the Governor and Gage alighted.

"What's the fare?" asked the Governor.

"Only \$15, Gov'or."

"What?" yelled Stanford and Gage in the same breath.

"Fifteen dollars," repeated cabbie, unbuttoning his coat and wiping on his hands.

"Say, my good man, protested the Governor, "that's a change in your price. The law confirms you to a reasonable price for your services, and you can be arrested and punished for such a violation of the ordinance."

"Hang the law!" growled cabbie. "My money bought and paid for this hack as 'honest,' as 'Gov'or' said in his letter to the New York Chamber of Commerce, 'the essence of ownership is control.'"

"Hem!" coughed the Governor, looking slyly at Steve, who began to grin. "That's all well enough when applied to my railroad, but—but—er, now if you charge us fifteen dollars to bring us to the park, what on earth would you charge us to take us to the Cliff House?"

"Five dollars."

"From here?"

"No; from the city."

"Yes; but it's a competitive point. Fifteen to the park, five to the Cliff. No bargain about it. Through rates to the Cliff, local rates back to the park added—just as you fellows do when you charge \$300 for drawing a car load of stuff from New York to 'Frisco, and make it \$800 if you drop the car at Elko, about 500 miles nearer New York."

"It was Steve's turn to cough and the Governor to grin.

"Well," said the Governor with a sigh, "take us to the Cliff."

At the Cliff House the Governor and Stanford drank their beer and smoked a cigar, and listened to the barking of the seals, and filled their lungs with sea breeze. Suddenly Steve slapped himself on the leg and cried out:

"By jove, Governor! I forgot that load of coal Smith's that the sheriff is to sell at 3 o'clock. It's two now. If we miss that, a chance to save at least a thousand dollars will be gone."

"Good heavens!" cried the Governor, snatching out his watch, "let's hurry back at once. Driver! Oh, Driver!"

"Here, sir," answered cabbie, who had been leaning over the balcony parapet within earshot, "here, sir."

"We want to return to town immediately," cried Mr. Gage.

"I beg, sir," said cabbie, slowly chewing a straw, "but I'll take my pay in advance, if it's all the same to you, gents."

A Whole Outfit of Crockery and Glassware at China Hall for \$3.00.

Daily Evening Review

WEDNESDAY, AUGUST 22, 1883.

POLICE COURT.

DRUNK.

WEDNESDAY, Aug. 22.—Jeffrey Powers, who had imbibed so much whiskey that it had almost overcome his powers of locomotion, though it did not impair the power of his voice, was arrested by Constable Adams on Tuesday night, and appeared in the Police Court this morning. He pleaded guilty and was fined \$2 or ten days in jail. He went to the goal to work at the rate of 20 cents a day to liquidate his indebtedness to the court.

Desk Diaries.

Desk diaries for 1884 at the REVIEW stationery store.

Market.

Choice Virginia grapes, 24 boxes only 50 cents; Delaware peaches \$1.75 per basket; Jersey Lynn melons, water melons, apples, pears and plums.

Picnic.

It is announced that the annual picnic of the employees of the Midland Railway will be held on Saturday, the 25th, at Hutton's Grove, Lindsay.

Recovering.

Mr. J. H. Braden, who was injured on the head by a runaway accident on Tuesday afternoon, is recovering, and will be able to resume his work in a few days.

Champagne Cider.

The most wholesome temperance beverage made. Put up in kegs expressly for farmers use in the harvest field. Only 25c a gallon.

FOR FAMILY USE.

Put up in bottles. Orders sent by telephone if left at Rush and Elliott's, and delivered in any part of the town. H. Calcutt, manufacturer.

The Weather.

The weather this afternoon is clear and warm. There was a shower of rain in the forenoon, with thunder and lightning. The weather probabilities for this district as issued from the Toronto Meteorological office at one o'clock this morning, for twenty-four hours, are as follows:—Fresh south-east to south winds; fair weather; followed by showers at night.

Dates of Coming Exhibitions.

The Provincial, at Guelph, Sept. 24 to 29th. Dominion, at St. John N.B., Oct. 2nd to 5th. Industrial, at Toronto, Sept. 11th to 22nd. West Peterborough, at Peterborough, Oct. 2nd and 3rd. East Peterborough, at Warsaw, Oct. 2nd and 3rd. East Durham, at Millbrook, Oct. 4th and 5th. Township of Otonabee, at Keene, October 12th.

Fence Points.

—Warm and clear weather.
—Another rest for the watering cart this forenoon.
—One prisoner in the cells last night, arrested for drunkenness.
—There was a small attendance on the market this forenoon.

—Plums made their appearance on the market to-day. Ten cents a quart.
—The Midland train was half an hour late at noon and the Grand Junction train one hour and twenty minutes.

—The prices on the market to-day were generally unchanged. Potatoes were lower, as they sold at 75 cents a bag.

—The gas went out last evening, and left the stores on George street in darkness for a few minutes, when it burned all right again.

—Mr. H. Reeves, of Toronto, agent for the Chicago and Rock Island Railway, registered at the Calise House.

—Still further reinforcements for the army of campers at Stony Lake went north at noon to-day.

—Mr. J. D. Barnett, Mechanical Superintendent of the Midland, and the members of the Uxbridge Cricket Club are among the guests at the Oriental Hotel to-day.

—An unfortunate cripple, who was under the influence of liquor, attracted quite a crowd on the corner of George and Simcoe streets at six o'clock last evening. It was a sad sight.

—A big mackinongie, weighing 22½ pounds, caught by Mr. Geo. Fitzgerald, came down from Stony Lake this morning. The Port Hope Guide says that Mr. G. F. Hall booked a mackinongie at Waukegan on Saturday that weighed 24 pounds.

—An inquirer wants to know what kind of time professional men keep? They have different time pieces. When they put a card on the door with the words "Back in five minutes" on it, they stop the time piece inside; but if they have gone to the Judge's or Master's chambers to consult about a client's case, they carry a watch going at full speed. The card on the door refers to the stopped watch inside, and they "charge up" the account according to the one they carry. Understand?

A. C. A. ANNUAL MEETING

A PRELIMINARY BUSINESS MEETING OF THE ASSOCIATION.

A Nominating Committee Appointed.—The Cruiser again at West—Still Blooming in Fine Weather for the Regatta—A Large Masthead.

A. C. A. CAMP, STONY LAKE, Aug. 21.—A business meeting of the Association was held at 11 o'clock on Monday morning.

The Commodore, E. B. Edwards, took the chair and explained the nature of the business, which was principally to choose a nominating and other committees to report to the annual meeting on Thursday afternoon, when the officers will be elected. They would also have to consider the new sailing rules. The Nominating Committee was composed as follows: E. W. West, Lake George C. C., W. Whitlock, M. Y. C. C., A. Loewenthal, Knickerbocker C. C., W. B. Wackerbagen, Mohican C. C., F. F. Andrews, Rochester C. C., R. W. Baldwin, Ottawa C. C., C. M. Shield, Springfield C. C., J. S. Kerr, Toronto C. C., W. H. Falkner, Philadelphia C. C., G. M. Roger, Peterborough C. C., Colin Fraser, Gault C. C., J. G. Edwards, Lindsay C. C., J. D. Graham, Lakefield C. C., E. J. Baird, Port Hope C. C., D. B. Simpson, Bowmanville C. C., H. L. Willoughby, Saratoga C. C., F. J. Rath bun, Deseronto C. C., Col. Kensington, Orange Fraser, and Kirk Maurie, members at large.

The Cruiser after prolonged work was got off on Monday morning, and is hard at work again. Still members and their friends are flocking in and tents gleam from many an island.

There were no special excursion or impromptu races yesterday, as preparations were active for the regatta this morning. The fishermen were very successful, the palm being awarded to a mackinongie caught by Mr. George Fitzgerald of Peterborough, which weighed twenty-two and a half pounds.

The weather is beautiful for the regatta which commences at 9.30. The sky is clear and there is a good breeze.

Among the latest arrivals are Messrs. J. Aitken, J. H. Thompson, and B. K. Connell, Boat-captain, Judge Dartnell and W. Beith, Whitby, E. D. Orde and F. D. Orde, Lindsay, and W. H. Vandersmissen, Toronto.

A GUNNING ACCIDENT.

A Young Man Shot in the Face by the Accidental Discharge of a Gun.

The pleasure excursion of a party of boys came to a sudden and sad end on Tuesday, when Thomas Howden, seventeen years of age, son of Mr. James Howden, was severely wounded by the accidental discharge of his gun. The gun was loaded with duck shot, and the charge shattered his thumb and grazed up the side of his face, tearing away a portion of both the lower and upper lips and his nose, injuring the left eye and fracturing the external table of the skull above the eye.

The party consisted of five boys.—two of Mr. Howden's sons, and three sons of Mr. Joseph Mitchell. They had gone down the river on Monday and were camped at Campbelltown. On Tuesday forenoon, at about eleven o'clock, the five started down the river towards Rice Lake with their guns. Thomas Howden and Joseph Mitchell, the eldest of the three, were seated or reclining in the stern of the boat. The trowling line was out, and Howden was holding the line. The gun, a double-barrelled one, was lying between the two boys, with the muzzle towards them and the hammers at half-cock. When a short distance from Campbelltown Howden, who appeared to be somewhat sleepy, felt a mosquito or fly light on his foot, and he moved his leg to drive it off. In doing so his foot struck the hammers of the gun and it discharged. A portion of the shot went through the rim of Mitchell's hat, but the main portion struck Howden in the face, with the sad result above mentioned. The gun was so near to him that the powder burned his face.

The boys paddled at once to the shore, and the wounded boy was taken to Mr. Corkery's, who lived near by. A doctor was called, and he advised them to take him home. He was brought home in a wagon. The horses had to be driven at a slow pace, and with what time had been lost, it was about six o'clock in the evening when he arrived home. Dr. Kincaid was sent for, and he, with Dr. Halliday, dressed the wounds. The shattered thumb had to be amputated. The surgeons believe that the boy will ultimately recover, but he will be badly disfigured.

Watches and Jewellery.

Anything in the Watch or Jewellery repairing line left at Hughson's New Shop, Simcoe street, office lately occupied by E. Burnham, will be promptly attended to; charges moderate.

T. M. C. A. Excursion.

The excursion to Stony Lake yesterday, under the auspices of the Young Men's Christian Association, was a very successful and enjoyable one. The train arrived here at about ten o'clock in the evening. The second excursion this morning was very well attended, two coaches being filled to overflowing. The third and last of the excursions will take place tomorrow. The train leaves the Midland station at 7 o'clock in the morning.

Moonlight Excursion.

An excursion by moonlight took place on Tuesday evening on the steamer King Fisher under the auspices of the True Blues' string band. There was a large attendance and the weather was most favorable, the sky being clear and the moon bright. The steamer went down the river some distance and returned and lay in the Little Lake. A row was attached to the boat, the string band was in attendance and dancing was indulged in, those on board appearing to enjoy themselves. Before the boat returned, however, a disturbance occurred on the row and a row took place, which the captain endeavored to quell. The boat was at once run to the wharf, and the party disembarked about one o'clock.

Cricket Match.

The team representing the Uxbridge Cricket Club arrived here last night. This forenoon the match with a team of the Peterborough Club was commenced on the Ashburnham ground. The home team went to the bat first and made a score of 53. The visiting team in the first innings scored 55, thus leading by two. The match is proceeding as we go to press.

The Power of Water.

The properties of water are only partially understood by those who have never seen it under high pressure. The Virginia City Water Company get their supply from Mariette Lake on the Tahoe side of the mountain. They get it through by a long tunnel, and are then on the crest of a high mountain opposite Mount Davidson, with Washoe Valley between. To cross this valley by a flume would be almost impossible, so the water is carried down the mountain side to the bottom, and crosses under the V. & T. Railroad tract, on the divide between Washoe and Eagle valleys, then up again to the required height in iron pipes. The depression created in the line of carriage is 1,720 feet, and the pressure on the pipes is 800 pounds to the square inch. One pipe is 11 inches in diameter, and is quarter inch iron lap welded, and 18 feet long, with screw joints. There is little trouble from it, but the other, which is twelve inches diameter, and is riveted pipe, makes more or less trouble all the time. The pipe is laid with the seam down, and whenever a crack is made by the frost or sun warping it, or from any other cause, the stream pours forth with tremendous force. If the joint is broken open, of course the whole stream is loose and goes tearing down the mountain, but usually the escape is very small. The break last week was less than five-eighths of an inch in diameter, and yet the water in the flume was lowered an inch and a half by it, and the pressure went down fifteen or twenty pounds. Captain Overton says that fifty inches of water went through it. It has been probably a year in cutting out, and was made by a little stream hardly visible to the naked eye, that escaped through a joint and struck the pipe two or three feet off, eating away the iron until the pressure inside broke it through. When such a break occurs the noise can be heard for half a mile, and the earth shakes for hundreds of feet around. A break the size of a knitting needle will cut a hole in the pipe in half an hour. Such breaks are repaired by putting a band around the pipe, pouring in melted lead, and tamping it in. Such a stream bores through rock like a sand blast. The flying water is as hard as iron, and feels rough like a file to the touch. It is impossible to turn it with the hand, as it tears the flesh off the bones, and if fingers are stuck into the stream, with the point up, the nails are instantly turned back, and sometimes torn loose from the flesh.—Reno Gazette.

The potato tops in all directions around London are dying, in some places they are entirely dead, which is said to be a sure indication of a serious rot. Quite a number of farmers have begun to plough their potatoes up, and owing to the rot will only gather a very small proportion of the crop. The potato crop in the section of country near Oshawa seems to be struck with a deadly blight. The vines rot completely away, and in many instances the rot extends to the potato itself. The protracted wet weather is supposed to be the cause.

THEY MUST GO!

GENTLEMEN.—In stenorian tones we state that certain things must go. We beg to offer below a sufficient bill of particulars.

Now, in order to make SUMMER SUITS go, special inducements require to be offered.

The following are said inducements:—

The very Newest Style of Garments.

The Best Cut and Fitting Garments.

The very best Trimmed Garments.

Back the above inducements, gentlemen, back them up with our feather-edge prices, for we never allow anybody to give so good clothing for so little money as we. If you want cool dress, either elegant or economical, come to

Daily Evening Review

THURSDAY, AUGUST 23, 1883.

THE trial of the Muskoka election petition commenced on Tuesday last at Bracebridge before Mr. Justice Patterson and Mr. Justice Ferguson. The trial is likely to be a long one.

THE Mayor of Toronto has been officially notified that the Governor General and Princess Louise will pay their farewell visit to Toronto on September 12th, remaining two days in the city.

SIR JOHN ROSE, BART, ex-Finance Minister of Canada, has been appointed by the Prince of Wales Receiver-General of the Duchy of Cornwall. The salary attached to the position is small, but it is considered a desirable position notwithstanding.

MR. GEORGE STEPHEN, President of the C. P. R., has given \$50,000 for the purpose of erecting a wing to the Montreal General Hospital, and Mr. Donald A. Smith, a director of the same company, has given a like sum to endow a chair in the medical faculty of McGill University.

MR. CASEY, Chief Inspector and Auditor of Licenses for Ontario, it is appears on a tour through the Province, the chief object of which seems to be the interviewing of the holders of licenses and getting their views as to the closing of their places of business on Saturday night.

THE Toronto Telegram, whose leanings are decidedly Mowatward, says: "We should judge from all that we can learn that the Reformers will not be able to hold West Simcoe." Should they fail to do so it reduces their already slender majority in the Ontario Legislature by two.

THE campaign in Algoma has been opened by Mr. Charlton, M. P. for South Norfolk, whom, the Globe says, happened to be in the district simply on a pleasure excursion, and perceiving that his assistance would be of avail to the "Independent" candidate at once abandoned his former programme and will devote the remainder of his time in Algoma to the service "of the Province," which in the Globe's vocabulary means Mr. Mowat. It will be amusing to note how many of our politicians will take a pleasure trip to Algoma during the next few weeks.

PROTECTION VS. FREE TRADE.

How the Issue Stands in the U. S.—Both Political Parties in Favor of Encouraging Domestic Labour.

If the two great political parties of the country cannot agree among themselves, they agree with each other upon a very important question. The Virginia and Pennsylvania Democratic Conventions show distinctly the probable attitude of the party upon the tariff next year. There can be no issue without a positive and plain difference of opinion, and upon a comparison of the declarations of the two parties as thus far made it is evident that the Democrats do not really challenge the Republican position. The Kentucky Democrats opened the campaign with a deliberate refusal to take positive free trade ground, and made a wholly unmeaning declaration which showed either cowardice or want of conviction. This was followed by the Iowa Democratic platform, which is the only unequivocal statement thus far made by the party. It favors "a tariff for revenue only, by a gradual but persistent reduction of protective duties." The Iowa Republicans in reply insisted "upon such revenue laws as will encourage American industries and protect American labour."

The Republicans of Ohio followed by demanding a tariff "which will provide a revenue for the Government, and at the same time will protect American producers and American labour." The Ohio Democrats resolved that "we favour a tariff for revenue limited to the necessities of the government economically administered, and so adjusted in its application as to prevent unequal burdens, encourage productive interests at home, and afford compensation to labor, but not to create or foster monopolies." The Minnesota Republicans declare for "a system of duties upon imports so applied as to provide revenue for the necessary expenses of the government, and so adjusted as to encourage the development of the manufacturing and labor interests of the whole country." The Pennsylvania Republicans "unqualifiedly approve and demand that system of protection to home industry which has proved itself to be the basis of national independence, the incentive to industrial skill and development, and the guarantee of a just and adequate scale of wages for labor," etc.; and the Virginia Democrats, echoing Ohio, "favor a tariff for revenue so adjusted as to encourage productive interests at home."

The impression produced upon any fair mind by the declarations of the party Conventions thus far is that the Republicans favor raising a revenue in a way that will encourage domestic labor and that the Democrats favor the same thing. It is true that the Republicans use the word "protection," and that the Democrats avoid it. But it is no less true that the Democrats take great care to emphasize the encouragement of domestic industry, and that Iowa alone, in which the Democrats have no chance of success, declares for a persistent reduction of protective duties, while Democratic Kentucky, Ohio, and Virginia are silent. Certainly this situation does not forecast a contest between protection and free trade, nor even between a protective and a revenue tariff. It shows a deep conviction upon both sides that public sentiment demands that the customs revenue shall be raised in a manner that will encourage domestic industry; and encourages and protects in a tariff are much the same thing. The Democratic platform thus far merely re-

affirms the remark of the Republican President in his last Message, that "only such taxes ought to be levied as are necessary for a wise and economical administration of the government." No Convention has yet announced a sounder doctrine, or one more satisfactory to revenue reformers.—Harper's Weekly.

SOUTH MONAGHAN.

COUNCIL MEETING.—Council met at the call of the Reeve on Aug. 21st. Present, William Rutherford, Esq., Reeve, and Councillors Byers, Lightfoot, Perrin and Riddell. Minutes of the last meeting were read and confirmed. The Reeve and Mr. Lightfoot (from the committee for the inspection of roads and bridges), reported that they found the travelling on the fourth concession done according to contract, and had accordingly given the contractor, John Kerr, an order for \$50, the contract price.—Accepted. Mr. Riddell, from the same committee, reported that he had examined the new culvert at Huggins' gate, also the grading and travelling opposite Lot 5, in the 4th Concession, and recommended payment of the same.—Report adopted. Messrs. Perrin and Byers, from the same Committee, reported that they had examined the travelling on the 1st Concession line, and find there is twenty-five yards short. The Reeve reported the rebuilding of the culvert on the boundary line dividing the townships of South Monaghan and Hamilton, at a cost of \$35. On motion, the clerk was instructed to bill the Council of Hamilton for \$17.50, being half the price of the amount paid by this Council. Mr. Lightfoot and the Reeve reported the work done on Squirrel Bridge to be according to contract, and that an order had been drawn for the amount \$35.35.—Report adopted. A communication was read from H. S. Crewe, Esq., Inspector, Registrar-General's office, acknowledging receipt of the return of births, marriages and deaths, for the half year ending June 30th, 1883. A communication was read from the Ontario Government. The Act entitled, "The Ontario Tree Planting Act, 1883." On motion the communications were ordered to be received and tabled for consideration. A communication from W. T. O'Reilly, Inspector of Prisons and Public Charities, and also one from E. A. Macdonald, County Clerk, with statement of county and school rate for the current year, were received, read and ordered on file. Accounts: On motion the following bills were ordered to be paid:—

David Baxter, for gravel.....	\$ 5 00
T. R. Pengelly, do.....	5 00
Wm. Rutherford, graveling.....	10 00
Councillors pay.....	12 00
Committees pay.....	5 15
Nicol Dawson, gravel.....	50 00
John Riddell, estate labor.....	10 00
Alex. Brown, cedar.....	10 35
Toker & Co., stationery.....	2 85
E. B. Graham, sundries.....	1 15
By-laws introduced By-law No. 19, fixing a rate of 2 5-10 mills on the dollar, in order to raise the following sums:—	
County rate.....	\$441 05
County School rate.....	153 00
Roads and Bridges.....	600 00
Salaries and Commissions.....	350 00
Election expenses.....	20 00
Charities.....	00 00
Printing, Stationery, &c.....	50 00
Contingencies.....	50 00
\$1,624 05	

By-law passed, signed and sealed. The following sums are the estimates of the trustees of the different School Sections of the Township for the current year: No. 1, \$407.40; No. 2, \$316; No. 3, \$337; No. 4, \$330; No. 5, \$340. Moved by Mr. Riddell, seconded by Mr. Perrin, That Councillor Byers be a committee to see to the repairing of the road on Dawson's Hill, first concession; amount to be expended not to exceed \$15. Council adjourned to meet at the call of the Reeve.

BELLEVILLE.

STRUCK BY LIGHTNING.—The *Intelligencer* says that on the morning of the 19th inst., the barn and sheds of William T. Bird, Lot 6, 2nd Con. of Huntingdon, were struck by lightning about four o'clock, and burned. They contained the whole of this year's crop and four hogs. Loss, about \$2,000, insured in the Agricultural, of Watertown, for \$550.

ROBBERY.—A daring robbery was perpetrated at Scouter's Hotel on the Perry road, north of Clinton, near the line of the Ontario & Quebec by two men on Monday morning. It appears that Mr. Thomas Tappin, Reeve of the Township of Barrie, had driven to the hotel, and thoughtlessly left his coat (in a pocket of which was his purse containing \$70 and some valuable papers) in his wagon. The men above referred to, who were employed on the road, discovered the coat with its valuable contents and taking possession of the money and papers went away. The loss was discovered soon after their departure and their sudden disappearance led to their being suspected of the theft. Pursuit was soon instituted, but at this writing they have not been found. It is thought they will come to this city.

NORWOOD.

A SLOW GROUND TROUBLE.—The *Hastings Star* says:—Trouble is brewing between the Agricultural Society of East Peterborough and the village of Norwood. On the strength of a verbal promise from the Norwood Council of a permanent lease of the grounds for the use of the society, the directors obtained a grant of \$150 from the municipality of Appleton and handed it over to the Norwood Council. The directors also fencing and otherwise preparing the grounds. The Norwood Council, now that they have both the money and work, offer the directors a fifteen years lease, which they refuse to accept. Failing to obtain "better terms," the Appleton Council should be money granted. We shall again refer to this matter.

THE BLACK FLAG.

Dr. Holden, of Newark, N. J., tells the following story regarding the mysterious movements of two vessels at Beech Haven:—"I had been gunning for marsh fowl during the afternoon of Friday, the storm having cleared overhead, although waves were running mountain high. My wife and family had been driven out to meet me at a point some two miles north of Beech Haven. Just opposite the life saving station, which is not manned this summer, we saw a rakish looking two-masted schooner, carrying a black flag, making straight towards us and apparently pursued by a stranger. The schooner laboured heavily and was tossed about a great deal in the heavy sea. My attention was attracted particularly by the black flag, which rose clear above the horizon as an enormous wave lifted the schooner until the entire hull, apparently filled with men, was in full relief against the sky. I watched her sink into the trough, and when I looked again she was nowhere to be seen. The steamer, which was still some distance to the south, came directly to the spot where we last saw the schooner, steamed carefully all around it, and then came to a dead stop. She remained there apparently motionless for half an hour. I sighted at her down my gun barrel, and am sure she did not move in that time. She then steamed out to sea. I could not see her launch any boats or make search for the crew of the schooner, though it is natural to suppose that she did so."

Ontario Implements in the Orient.

There is a great field opening up in the Orient for improved agricultural implements, such as are now to be turned out on a grand scale in this city. The Berlin *Kreis* tells of a stroke of enterprise in this direction carried out by the Rev. Andrew Spetz, an old Ontario man, who is now engaged in missionary pursuits in Bulgaria. In connection with the mission school which he conducts a large farm is cultivated for the benefit of the missionary institutions. Seeing the backward state of agriculture and suffering under an unprofitable system of tilling, the Rev. Mr. Spetz thought at once to improve his position by introducing at least some of the most useful and labour-saving machines which he was accustomed to see at work in this province. He accordingly had sent out to him a mower, reaper, and horse rake of the improved kind, which, on being set up, worked like a charm. The people, it is said, began to come from the city and the country to behold a sight so novel to them. For they had previously heard of such machines and also seen some, but they had never seen any that would do the work they were intended to perform. The successful trial caused a great sensation in the country, and a general desire to have agricultural machines took possession of the farmers who own large tracts of land. Within a very short time about sixty of each could have been sold if they had been there. There is further an almost unlimited market for thrashers, driven by steam or horse power, ploughs, harrows, cultivators, and, in fact, for all other implements now used in civilized and progressive countries.

A Reported Murder.

A Kingston despatch says that a report comes in from Sharbot Lake of a fight in which a navy was murdered. It is said that two labourers rushed upon one and beat him with a hammer to such an extent that he died twenty-four hours after. The rumour has not yet been confirmed.

Bucklen's Arnica Salve.
